Associated Gas and Electric System

Founded in 1852

Reports to Stockholders for Many Years

Public utilities generally supply full information regarding their activities. The Associated Gas and Electric Company has issued detailed monthly statements such as the following for more than four years.

Consolidated Statement for Twelve Months Ended August 31 for all Properties only since dates of acquisition by Associated System

	1926	1925	Increase Amount	Increase %
Gross Earnings & Other Income	$27,464,011	$12,923,490	$14,540,521	112
Operating Expenses, Maintenance, all Taxes, Net Earnings applicable to Minorities and all Amortization of Debt Discount and Expense	15,364,393	8,258,616	7,105,777	86
Net Earnings	12,099,618	4,664,874	7,454,744	159
Preferred Dividends of Subsidiary and Affiliated Companies and all Interest	7,014,327	2,500,833	4,513,494	180
Balance	5,085,291	2,164,041	2,921,250	134
Preferred Dividends Paid or Accrued	1,274,339	574,013	700,326	122
Balance	3,810,952	1,590,028	2,220,924	140
Provision for Replacements and Renewals	1,547,680	661,357	886,323	134
Balance	2,263,272	928,671	1,334,601	143
Class A Priority Dividends ($2 per share)	577,184	*458,130	119,054	26
Balance for Class A Participation, Class B and Common Dividends and Surplus	1,686,088	470,541	1,215,547	258

* Includes Common Dividends prior to issue of Class A Stock.

The above figures are based on all properties only *since* their addition to the Associated System. *The increase in gross and net earnings for all properties for the entire period are 12% and 16% respectively.*

The substantial gains in earnings and balances for dividends indicate the sound growth of the Associated system.

Did you know this about Illinois ?

Did you know that the production of electricity by Illinois electric light and power companies during February, 1926, exceeded February, 1925, by more than 16 per cent?

The rapid development of the 6000 square miles adjacent to Chicago served by this Company is a main factor in the substantial growth of the Company, as evidenced by the more than tripling of its gross revenue in the last ten years.

NEW ISSUE

$1,350,000

Fabrics Building

CHICAGO

First Mortgage (Fee) 6¼% Sinking Fund Gold Bonds

(Closed Issue)

Dated September 15, 1926 Due September 15, 1946

Interest payable March 15 and September 15. Coupon bonds in denominations of $1,000, $500 and $100, registerable as to principal only. Redeemable as a whole or in part on any interest date upon sixty days' notice at 103 and accrued interest to and including September 15, 1931; at 102 and accrued interest thereafter to and including September 15, 1941; and at 101 and accrued interest thereafter to maturity. Principal and interest payable at The Foreman Trust & Savings Bank, Chicago. Interest payable without deduction for Normal Federal Income Tax not to exceed 2%. Among the state taxes refundable upon proper application are the following: Pennsylvania and Connecticut four mills tax, Maryland four and one-half mills tax, California five mills tax, Kansas two and one-half mills tax, Kentucky five mills tax, Massachusetts six per cent income tax on interest, New Hampshire three per cent income tax on interest.

THE FOREMAN TRUST AND SAVINGS BANK, CHICAGO, TRUSTEE.

The following information is contained in a letter from Lewis E. Berger, President of the Franklin St. Building Corporation, describing the bond issue:

Location The Fabrics Building is situated at 323-333 South Franklin Street between Jackson Boulevard and Van Buren Street, in the heart of the wholesale section and adjacent to the financial and insurance districts. Within a radius of three blocks are located the wholesale establishments of Marshall Field & Company, Carson Pirie Scott & Company, Alfred Decker & Cohn, Hart Schaffner & Marx, and the House of Kuppenheimer, and some of the largest office buildings in the city, including the Insurance Exchange Building, Continental & Commercial Bank Building, Illinois Merchants Bank Building and Federal Reserve Bank Building.

The location of the Fabrics Building with reference to transportation facilities—steam railroad, elevated, surface and bus lines—is unexcelled in the City of Chicago.

Building The Fabrics Building is a modern store, office and garage structure, of strictly fireproof reinforced concrete construction, containing a total area of 152,475 square feet. The property was completed in 1925 and is 100% *leased and occupied.* To accommodate present demand for additional office space, a six-story addition will be presently erected on the rear section (now six stories in height), which will contain approximately 32,625 square feet and make the entire building a uniform height of twelve stories with a total area of 185,000 square feet. The building enjoys exceptional light and air as it is open on all four sides, thus making possible the most efficient use of the floor area.

Security These bonds will be a direct obligation of the Franklin St. Building Corporation and, in the opinion of counsel, will be secured by a closed first mortgage on the land in fee, fronting 100 feet on Franklin Street with a depth of 153 feet, and the building, covering the entire lot area, including the six-story addition about to be constructed.

Appraisals of the land and completed building, as made by Mark Levy of Mark Levy & Brother, total $2,310,901. *The total first mortgage bond issue thus represents less than 59% of the fair market value of the land in fee and building (including additional stories provided for).*

The present building is 100% leased and occupied and is the recognized center in Chicago of the cotton and silk fabrics business. The additional office space to be built will be leased to firms engaged in the same lines of business, and based on applications and inquiries it is expected that leases will be concluded for all of the new space before completion.

Earnings The earnings statement of the property as prepared by Mark Levy of Mark Levy & Brother on the basis of leases in effect November 1, 1926, and prevailing operating expenses and on estimated income and expenses for the space to be added, shows net earnings of $180,496.38, or approximately 2.14 times maximum annual interest charges on these bonds.

Sinking Fund A sinking fund is provided by which over 75% of this bond issue should be retired at or before maturity.

General The title will be examined and guaranteed by the Chicago Title and Trust Company in favor of the Trustee. All legal matters in connection with this issue are under the direction of Messrs. Pam and Hurd, Chicago, for the bankers, and Ringer, Wilhartz & Hirsch for the Corporation. Fire insurance policies for the full insurable value of the building including the addition, will be deposited with the Trustee under the provisions of the mortgage.

These bonds are offered when, as and if issued, approved by counsel and received by us. It is expected that temporary or definitive bonds will be ready for delivery about November 10, 1926.

Price: 100 and Accrued Interest to Yield 6¼%

DeWolf & Co., Inc. A. B. Leach & Co., Inc.

The statements herein made are not guaranteed but they are based upon reports and other information which we believe to be entirely reliable and upon which we have acted in purchasing these securities for our own account.

An Unprecedented Situation
in
Joint Stock Land Bank Stocks

The shares of some of the largest Joint Stock Land Banks in the country are selling now at the lowest prices on record.

In the belief that prices are about scraping bottom and that an investment made at current levels will show substantial future enhancement in value in addition to the present high yield of about 7% in many issues, we direct the attention of bankers, dealers and institutions to the present situation.

The Land Banks are under U. S. Government supervision and by Federal law are confined to one class of business, that is, lending money on first mortgage on producing farms at a maximum of 50% of Government appraisal.

The Federal Farm Loan Act permits these banks to earn 1% per annum on loans made to farmers. This rate is equal to over 12% on the capital stock in each of the banks listed below, except Fremont and Southern Minnesota, which show 10½% and 9%, respectively.

We offer a limited amount of shares of the following prominent Joint Stock Land Banks, subject to prior sale and change in price:

Bank	Price	Book Value	High Record	Current Dividend	Yield	Capital Stock	Farm Loans Outstanding	Earnings Per Share from 1% of Farm Loans
Atlantic	$135	$126	$145	8%	5.92%	$750,000	$12,282,281	$16

Nehemiah Friedman & Co., Inc.

Specialists in Joint Stock Land Bank Stocks

29 Broadway, New York

New Issue

$1,250,000

Quaker City Cold Storage Company

Fifteen-Year 6½% Convertible Gold Debenture Bonds

To be dated November 1, 1926 **To mature November 1, 1941**

Interest payable May 1 and November 1 at The Seaboard National Bank of the City of New York, Trustee. Company will agree to pay interest without deduction for any Federal Income Tax not in excess of 2% and to refund the Massachusetts Income Tax on the interest not exceeding 6% of such interest per annum. Under present laws these bonds will be free of the Pennsylvania Personal Property Tax. Redeemable at the option of the Company on or after May 1, 1929, on sixty days' published notice, as a whole at any time or in part on any interest date, at 105 and accrued interest to and including November 1, 1931, the premium thereafter decreasing ½% annually to maturity. Coupon bonds in denominations of $1,000 and $500, registerable as to principal.

Convertible at the option of the holders on or after November 1, 1928, at any time up to thirty days prior to any date specified for redemption, into ten shares of $7 Cumulative Participating Preferred Stock, without par value, for each $1,000 face value of these Debenture Bonds. The $7 Cumulative Participating Preferred Stock will be entitled to participate equally with the Common Stock in further dividends (non-cumulative) not exceeding $1 per share in any year in which dividends in excess of $4 per share are paid on the Common Stock, and in the event of any increase in the Common Stock beyond 20,000 shares, the Preferred Stock shall automatically be entitled to cumulative dividends at the rate of $8 per share per annum thereafter.

Salient features as summarized by Mr. Horace P. Serrill, President of the Company:

EARNINGS: Day & Zimmermann, Inc., estimate that when the new Quaker City plant and the new Baltimore & Ohio-Reading plant are in full operation and when proposed operating economies have been effected, the earnings of the Company available for fixed charges, depreciation, etc., should amount to $534,950, or more than twice annual interest and sinking fund charges on the entire funded debt to be presently outstanding, including this issue. The sinking fund on the First Mortgage Sinking Fund Gold Bonds, 6% Series due 1951, is at a rate estimated to be sufficient to retire all of the bonds of that series by maturity.

VALUATION: A total valuation of $4,243,128, or well in excess of the total funded debt to be presently outstanding, for the entire assets to be owned by the Company is arrived at as follows:

*Cost of reproduction, less depreciation, of tangible assets	$3,493,128
*Value of Baltimore & Ohio-Reading lease, on basis of earnings	500,000
Working capital	250,000
Total	$4,243,128

*As estimated by Day & Zimmermann, Inc., Engineers.

We offer these bonds when, as and if issued and received by us and subject to approval of the form and validity of all documents and proceedings by Messrs. Dickson, Beitler & McCouch of Philadelphia.

Price 98 and accrued interest, to yield about 6.70%

Common Stock (without par value)	20,000 shares	20,000 shares

*This issue—6% Series due 1951.

**All reserved for conversion of Fifteen-Year 6½% Convertible Gold Debenture Bonds

Salient features as summarized by Mr. Horace P. Serrill, President of the Company:

BUSINESS AND PROPERTIES: The Company will furnish cold storage facilities for the three trunk line railroads entering Philadelphia, which handle approximately 90% of all the perishable freight coming into the city. It will handle a large percentage of the perishable products shipped over the lines of The Pennsylvania Railroad Company and consigned to Philadelphia, and through a subsidiary now acts as Terminal Agent for the road at its present Quaker City plant. Through a 25-year lease of the cold storage facilities to be provided by the new warehouse now being erected jointly by The Baltimore & Ohio Railroad Company and the Reading Company, it will, in effect, also become Terminal Agent for both of these railroads at that plant.

The Company will own two of the largest cold storage warehouses now operating in Philadelphia, with an aggregate capacity of 2,250,000 cubic feet, and will erect a third warehouse adjacent to its present Quaker City plant with a capacity of 1,800,000 cubic feet. It will also operate the new Baltimore & Ohio-Reading cold storage warehouse of 1,550,000 cubic feet capacity now nearing completion. With its added facilities, the Company will have a capacity greatly in excess of any other similar property in the City and because of this and the favorable locations of its plants on all railroads and adjacent to the Delaware River waterfront will undoubtedly be the predominant factor in the cold storage business in Philadelphia. The need for additional cold storage facilities in the City of Philadelphia has long been recognized and there is urgent demand for such facilities at the present time.

In connection with the plants the Company will have an ice making capacity of 245 tons per day and through its wholly owned subsidiaries will control an extensive system of pipe lines, furnishing refrigeration service for commission merchants and produce dealers, for whom it does a large cold storage business.

PURPOSES OF ISSUE: The proceeds of the sale of these bonds and of $1,500,000 Fifteen-Year 6½% Convertible Gold Debenture Bonds will be used to build and equip the new Quaker City cold storage warehouse, to equip the new Baltimore & Ohio-Reading cold storage warehouse, to retire outstanding bonds and other obligations, to provide additional working capital and for other corporate purposes.

SECURITY: The First Mortgage Sinking Fund Gold Bonds will be secured by a direct first mortgage on all mortgageable property to be owned by the Company.

SINKING FUND: The mortgage will provide for a sinking fund at a rate estimated to be sufficient to redeem this entire series of bonds by maturity.

VALUATION: A total valuation of $4,243,128 or more than twice the par value of this series of bonds, for the entire assets to be owned by the Company is arrived at as follows:

*Cost of reproduction, less depreciation, of tangible assets	$3,493,128
*Value of Baltimore & Ohio Reading lease, on basis of earnings	500 000
Working capital	250,000
Total	$4,243,128

*As estimated by Day & Zimmermann, Inc., Engineers.

EARNINGS: Messrs. George K. Watson & Company, Certified Public Accountants, Philadelphia, certify that the consolidated earnings of the Company and its wholly owned subsidiaries, for the calendar year 1925, available for fixed charges, depreciation, etc., amounted to $189,746, or more than sufficient to provide for the annual interest and sinking fund charges of the present issue of $2,000,000 First Mortgage Sinking Fund Gold Bonds, 6% Series due 1951. The management estimates that the earnings of the current year from existing facilities will at least equal those of 1925.

Day & Zimmermann, Inc., estimate that when the new Quaker City plant and the new Baltimore & Ohio-Reading plant are in full operation and when proposed operating economies have been effected, the earnings of the Company available for fixed charges, depreciation, etc., should amount to $534,950, or nearly four and one-half times the maximum annual interest requirements and over three times the combined annual interest and sinking fund requirements of the present issue.

We offer these bonds when, as and if issued and received by us and subject to approval of the form and validity of all documents and proceedings by Messrs. Dickson, Beitler & McCouch of Philadelphia.

Price 99 and accrued interest, to yield about 6.08%

80,000 Shares
The Bon Ami Company
Common A Stock
(Voting—non-callable)

Authorized 200,000 shares — To be presently outstanding 100,000 shares

Entitled to preferential dividends at the rate of $4 a share a year (not cumulative). After holders of Common B Stock have received $2.50 a share as dividends in any calendar year, all further dividend payments in such year shall be distributed equally between holders of Common A and Common B stocks, each considered as a class.

Capitalization:

	Authorized	To be outstanding
Common A Stock (no-par value)	200,000 shares	100,000 shares
Common B Stock (no-par value)	400,000 shares	200,000 shares

Mr. Eversley Childs, President of The Bon Ami Company, summarizes his letter to us as follows:

Business: The product, "Bon Ami", has been favorably known as a cleansing and polishing compound for over 40 years. This has been accomplished through house to house sampling and national advertising. "Bon Ami" is sold in the form of both cake and powder under its well-known trade mark. A survey made a few years ago indicated that "Bon Ami" was the third most widely distributed specialty carried by the retail grocery stores in the United States and Canada. It is sold in over fifty different countries throughout the world.

Earnings: The net income from operations of the Company and its subsidiaries, after Federal taxes, which would have been available for the $4 dividend on this Common A Stock, was as follows: 1922, $704,378 or $7.04 a share; 1923, $771,273 or $7.71 a share; 1924, $891,624 or $8.91 a share; 1925, $990,879 or $9.90 a share; and during the eight months of the current year, $718,068 or at the rate of approximately $10.25 a share for the year. The annual average for the four and two-thirds years was $873,476 or $8.73 a share.

Dividends: The Company will inaugurate the payment of dividends within three months, at the annual rate of $4 a share on the Common A Stock.

Current Position: Current assets on August 31, 1926 were over 3¾ times the current liabilities, including reserves for Federal taxes, and cash and call loans receivable alone exceeded all liabilities by more than $70,000.

We offer this stock if, as and when issued and received by us, subject to the approval of our counsel, O'Brien, Boardman, Fox and Early. The Company's accounts have been certified by Lybrand, Ross Bros. & Montgomery, certified public accountants. It is expected that temporary certificates will be ready for delivery on or about November 10, 1926.

This offering does not represent any new financing by the Company

Additional Issue

$1,500,000

Queens Borough Gas and Electric Company

Refunding Mortgage Gold Bonds

5% Series of 1955

Dated September 1, 1925 **Due September 1, 1955**

The Company agrees to pay the Normal Federal Income Tax to the extent of 2% and to refund, upon application within 30 days after payment, the Pennsylvania and Connecticut Personal Property Taxes, legally assessed against and paid by the holder, not exceeding 4 mills per annum in either State, and the Massachusetts Income Tax, lawf lly assessed or imposed against the holder, not exceeding 6% per annum on income derived from the Bonds.

Issuance authorized by the Public Service Commission of the State of New York

We summarize from the letter of Mr. Carleton Macy, President of the Company, as follows:

Business: Queens Borough Gas and Electric Company furnishes electric light and power and gas in the Fifth Ward (Rockaway District), Borough of Queens, City of New York, and in the adjacent portion of the Town of Hempstead, County of Nassau, including Lawrence, Cedarhurst, Lynbrook, Malverne, Inwood, Woodmere, Hewlett, Valley Stream and East Rockaway.

Over 99% of the Common Stock of Queens Borough Gas and Electric Company is owned by Long Island Lighting Company. The electric properties of the two companies, which are interconnected by a high tension transmission line, serve substantially all of Long Island up to the New York City Line and the Rockaway District of the Borough of Queens.

Earnings:

Twelve Months Ended August 31	1926	1925
Gross income	$2,999,372	$2,623,276
Operating expenses, maintenance and taxes	1,975,239	1,744,469
Net income for interest charges	$1,024,133	$878,807
Annual interest charges on all Bonds outstanding, including this issue	317,500	
Balance available for retirement reserves, etc	$706,633	

Net income for interest charges, as shown above, for the twelve months ended August 31, 1926, was in excess of 3.2 times the annual interest requirements on all Bonds outstanding, including this issue.

Equity: These Bonds are followed by $2,450,000 par value 8% Cumulative Preferred Stock and $2,000,000 par value Common Stock. The Company has paid dividends on the Preferred Stock regularly since issuance at the rate of 8% per annum, and has paid dividends on the Common Stock regularly since 1916, at the rate of 4% in 1916, 1917 and 1918, 6% in 1919, 7% in 1920 and 1921, and at the rate of 8% per annum since.

Legal matters in connection with the issuance of these Bonds will be passed upon by Messrs. Seibert & Riggs, of New York, and for the Company by Mr. Henry R. Frost and Mr. Elmer B. Sanford, of New York. The above bonds are offered when, as and if issued and received by us and subject to the approval of proceedings by counsel.

Price 99½ and accrued interest to yield 5.03%

$6,000,000

Hungarian Consolidated Municipal Loan

Twenty-Year 7% Secured Sinking Fund Gold Bonds

External Loan of 1926

Authorized by and Issued with the Approval and under the Control of the Royal Hungarian Government.

Dated September 1, 1926, due September 1, 1946. Interest payable January 1 and July 1. Principal and interest payable in New York City, in United States gold coin of the present standard of weight and fineness, free from all Hungarian taxes, present or future, at the office of

Speyer & Co., Fiscal Agents for the Loan.

Coupon Bonds in denominations of $1,000 and $500, registerable as to principal.

Cumulative Sinking Fund of about 2.36% per annum, beginning January 1, 1927, sufficient to redeem the entire issue at or before maturity, to be applied semi-annually to redemption of Bonds by lot at par.

Redeemable, as a whole or in part, on any interest date, upon not less than three months' previous notice, at 102% up to and including July 1, 1929, thereafter at 101% up to and including July 1, 1931, and thereafter at par.
Hungarian Commercial Bank of Pest, Trustee.

Dr. John Rud, Minister of Finance, and Dr. Bela Scitovszky, Minister of Interior, of the Kingdom of Hungary, have furnished us the following statement:

SECURITY: The total authorized issue of these Bonds is limited to $6,000,000. The Bonds are issued with the approval and under the control of the Royal Hungarian Government and will be the direct obligations of 32 Hungarian municipalities, each being liable in proportion to its share in the proceeds of this Loan. These municipalities include most of the important cities, except Budapest, and have about 1,000,000 inhabitants. In the event of any municipality for any reason not being allotted its proportion of the Loan and not becoming liable therefor, the Government will allot this sum to one or more other municipalities so that the security as provided in the loan contract remains unimpaired.

The Bonds will be secured by a direct charge on all the revenues of these municipalities, subject only to the charge of the Consolidated Municipal Loan of 1925 on the revenues of those municipalities which participated therein. The aggregate revenues of these municipalities were in 1925 about $5,500,000, equal (after deducting annual charges of about $645,000 for the service of that Loan) **to more than eight times the annual interest and sinking fund on this Loan.**

For the service of this Loan there have been specifically set aside revenues of these municipalities to be collected by the Royal Hungarian Government, viz., their revenues from the income tax and turnover tax on sales (in excess of the charges for the Loan of 1925) and from the supplementary municipal tax (a surtax on the Government taxes on land, buildings, corporations, etc.) If in any six-month period the receipts from these revenues, applicable to the service of this Loan, should fall below twice the requirements and if the municipalities do not provide their due proportion out of other revenues, the Government agrees to increase the rates of the income and supplementary municipal taxes and / or to collect and make available additional revenues, so that the applicable revenues shall always amount to twice the interest and sinking fund on this Loan.

The Royal Hungarian Government will place monthly in a special account, to be controlled by a Trustee for the Bondholders, appointed by the Bankers, the revenues specifically set aside for the service of this Loan, as stated above, and other revenues collected by it applicable thereto. The Trustee will retain from these funds the sums required for semi-annual interest and sinking fund on this Loan and remit monthly the amounts so retained to Speyer & Co., Fiscal Agents.

The Bonds will be further secured by a direct charge on all the assets of these municipalities, subject only to the charge of the Consolidated Municipal Loan of 1925 on the assets of those municipalities which participated therein. These municipalities agree that, so long as any of the Bonds are outstanding, they will not, without the consent of the Trustee, sell any part of their real property. The aggregate value of their lands, buildings, public utility and other properties is estimated at more than $60,000,000, whereof about $50,000,000 is the estimated value of income producing properties, to which substantial additions will be made from the proceeds of this Loan.

The assessed value of property subject to taxation in these municipalities is about $210,000,000. The revenues of each of the municipalities in 1925 exceeded its expenditures.

The Bonds are legal investments for trust funds in Hungary and for the Royal Hungarian Postal Savings Bank.

The Royal Hungarian Government exercises a large measure of supervision and control over the administration and finances of the municipalities.

PURPOSE: The proceeds of this Loan will be expended under the control of the Royal Hungarian Government for capital purposes, about 90% for income-producing properties and the remainder for schools, public buildings, etc.

DEBT: The total external debt of these municipalities, including this Loan, is equal to about $13 per capita, and their internal debt is equal to about $1.10 per capita.

GENERAL: Hungary, with over 8,000,000 inhabitants, has a larger population than either Holland or Belgium. In accordance with the Plan of the League of Nations for the financial and economic reconstruction of Hungary, an International Loan was issued in 1924 in the United States, England and other countries, yielding over $50,000,000, about one-third of the proceeds of which is still available. This Reconstruction Plan was so successful in the two years during which Hon. Jeremiah Smith, Jr., was Commissioner-General, that in June of this year the Council of the League declared that the financial stability of Hungary was assured and it therefore terminated control by a Commissioner-General. During this period the currency of the country was stabilized and a new monetary unit, the pengo, (the gold parity of which is equal to 17.49 cents), was adopted, to be effective on Jnauary 1, 1927. The reserves in gold and foreign exchange of the National Bank of Hungary, the bank of issue, are equal to more than 55% of the notes in circulation. The revenues of Hungary for the past two years have greatly exceeded expenditures and the surplus for the fiscal year ended June 30, 1926, according to preliminary figures, exceeded $12,000,000.

All conversions from Gold Crowns to United States currency have been made at the rate of 20.26 cents to the Gold Crown.

Application will be made to list these Bonds on the New York Stock Exchange.

All proceedings in connection with the issuance of the above Bonds are subject to the approval of our counsel, Messrs. Cadwalader, Wickersham & Taft, New York, and Dr. Paul Mezei, Budapest.

We offer the above Bonds for subscription, if, as and when issued and received by us, at

93½% and accrued interest, to yield about 7.65%

We reserve the right to close the subscription at any time without notice, to reject any application and to allot a smaller amount than applied for. Amounts due on allotment will be payable at our office in New York funds on or about November 22, 1926, as called for, against delivery of Interim Receipts exchangeable for Definitive Bonds when ready.

SPEYER & CO.

October 30, 1926

Subscriptions for these Debentures have been received in excess of the amount offered.

New Issue

$25,000,000

International Paper Company

6% Convertible Gold Debentures

Dated October 1, 1926 **Due October 1, 1941**

Interest payable April 1 and October 1. Principal and interest payable in New York or Boston in United States gold coin or in Montreal in Canadian gold coin, without deduction for any United States Federal Income Tax not exceeding 2% which the Company may be required or permitted to pay thereon or retain therefrom. Pennsylvania Four Mills tax refundable upon timely and appropriate request. Redeemable in whole or in part on the first day of any month on at least 30 days' published notice at 102½ through October 1, 1929; at 102 through October 1, 1932; at 101½ through October 1, 1935; at 101 through October 1, 1938; at 100½ thereafter prior to maturity, including interest in all cases. Coupon Debentures of $1,000, $500 and $100 denominations, interchangeable, registerable as to principal.

The Chase National Bank of the City of New York, Trustee

Convertible on or after April 1, 1927, to and including the date of maturity, into Cumulative 7% Preferred Stock at the rate of one share for each $100 Debenture. At the time of any conversion on or before October 1, 1928, holders shall have the right to purchase Common Stock at the rate of $50 per share, on the basis of one share of Common Stock for each $1,000 of Debentures so converted. In case of Debentures called for redemption, these privileges may be exercised within the period provided in the Indenture.

The following information has been summarized by Mr. A. R. Graustein, President of the Company, from his letter to us:

Company: International Paper Company, organized in 1898, is, with its subsidiaries, the largest manufacturer of paper in the world and one of the largest holders of water powers in North America. The capacity of its pulp and paper mills is more than twice as great as that of any other company on this continent. Its timberland freeholds and Canadian Crown timber limit leases cover over 12,000,000 acres or an area substantially larger than the combined areas of Massachusetts, Connecticut, Rhode Island and Long Island. It now has in operation 21 paper and pulp mills, including some of the largest and most efficient plants in the world. Water powers in operation or under construction aggregate 600,000 hp. (500,000 hp. hydro-electric and 100,000 hp. hydraulic), capable of being increased through further development and through utilization of undeveloped sites to about 1,400,000 hp.

Growth: International Paper Company is still further advancing its commanding position by following a definite and carefully worked out program for the enlargement of its present manufacturing facilities to meet the steadily increasing demand for its products and for the development of its extensive water powers and other latent resources. At the Three Rivers newsprint mill, four new machines have been added during 1926, bringing the total capacity of the mill up to 700 tons of newsprint per day. The 600-ton Gatineau newsprint mill is rapidly approaching completion and it is expected that by July 1927 the entire mill will be in operation.

Hydro-Electric Developments: The principal hydro-electric development now under way is the project being undertaken by the Company's wholly owned subsidiary, Gatineau Power Company, for the installation on the Gatineau River of a capacity of 373,500 hp. at three plants, two of which are expected to be in operation early next year and the third by the fall of 1928. Long term contracts for the sale of over 90% of the primary power to be generated by these installations have already been executed with the Ontario Hydro-Electric Power Commission and others, which, with the sale of the remaining power not yet contracted for, it is estimated, will produce net earnings amounting to over twice the annual interest charges on the $50,000,000 bonds and debentures (of which $12,500,000 bonds are held in escrow for completion of initial development) issued by Gatineau Power Company to finance this construction program.

Capitalization: The consolidated capitalization statement of International Paper Company and wholly owned subsidiaries (except Gatineau Power Company), as of August 31, 1926, adjusted to give effect to the present financing and to increases in the authorized amounts of Capital Stocks, is as follows:

	Authorized.	Outstanding
FUNDED DEBT:		
Divisional Bonds and Purchase Money Mortgages	Closed	$5,086,100
First and Refunding Mortgage 5% Bonds, due 1947	Closed	18,036,000
Refunding Mortgage 6% Bonds, Series "A," due 1955	*	22,028,000
6% Convertible Gold Debentures, due 1941 (this issue)	$25,000,000	25,000,000
CAPITAL STOCK:		
Preferred 6% and 7% Cumulative	$125,000,000	$31,820,000
Common (no par value)	1,000,000 Shs.	500,000 Shs.

*The issuance of additional bonds under this mortgage is restricted by the conservative provisions of the Indenture.

Earnings: Average consolidated annual earnings of International Paper Company and wholly owned subsidiaries, for the ten years ended December 31, 1925, adjusted to include earnings or estimated earnings of properties acquired during this period, after liberal provision for maintenance, available for interest, depreciation, etc., as certified to by F. W. Lafrentz & Co., were $10,844,457 or approximately 2.7 times the annual interest requirements on the above funded debt. Earnings as above, for the year ended December 31, 1925, amounted to $9,455,825, as certified to by F. W. Lafrentz & Co., or over 2.3 times such annual interest requirements. Similar earnings for the first 8 months of 1926 were substantially larger than in the corresponding period of 1925.

The large investment in the new paper manufacturing and power producing facilities referred to above is substantially and progressively increasing the earning power of International Paper Company as these properties are brought into operation. Earnings as shown above are only commencing to reflect this increased capacity.

Purpose of Issue: The proceeds from the sale of this issue will be used for the Company's development program and to reimburse it for expenditures heretofore made in this connection. The consolidated balance sheet of International Paper Company and wholly owned subsidiaries (except Gatineau Power Company), as of August 31, 1926, adjusted to give effect to the present financing, shows current assets of $48,933,397 against which there are current liabilities of $8,255,586 or a ratio of nearly 6 to 1; leaving the Company with no bank loans and in an excellent position to carry on its development program.

Valuation: The book value of the capital assets of International Paper Company and wholly owned subsidiaries (except Gatineau Power Company), as shown by the consolidated balance sheet, is in excess of $125,000,000. The present value of these assets is conservatively estimated to be substantially in excess of the book value. The equity behind the funded debt now to be outstanding will be represented by common and preferred stocks which have a market value based upon current quotations aggregating over $55,000,000.

Application will be made to list these Debentures on the New York Stock Exchange.

Price 98 and Accrued Interest to Yield over 6.20%

These Debentures are offered for delivery when, as and if issued and received by us, and subject to approval of counsel. The right is reserved to reject any and all applications, and also, in any case, to award a smaller amount than applied for. Legal matters in connection with the Indenture and the issuance of Debentures thereunder are to be passed upon for the Bankers by Messrs. Rushmore, Bisbee and Stern, and for the Company by Messrs. Davis, Polk, Wardwell, Gardiner and Reed. It is anticipated that temporary Debentures or interim receipts will be available for delivery on or about November 16, 1926.

$25,000,000

The Western Union Telegraph Company

Twenty-Five Year 5% Gold Bonds

Due December 1, 1951

Coupon bonds in denominations of $1,000 and $500, registerable as to principal and exchangeable for fully registered bonds, re-exchangeable under conditions provided in the indenture. Interest payable June 1 and December 1.

NOT REDEEMABLE BEFORE DECEMBER 1, 1936.

Redeemable as a whole but not in part, at the option of the Company, upon not less than sixty days' prior notice, on December 1, 1936, or on any subsequent interest date up to and including December 1, 1946, at 105% and accrued interest, and thereafter at 100% and accrued interest plus a premium equal to ½% for each six months between the redemption date and the date of maturity.

For further information regarding the Company and this issue of Bonds, reference is made to a letter dated October 26, 1926, received from Newcomb Carlton, Esq., President of The Western Union Telegraph Company, copies of which may be obtained from the undersigned and from which the following is quoted:

"The purpose of this issue is to reimburse the treasury of this Company for expenditures made on account of extensions, additions and improvements to its plant and equipment (outside of the State of New York) and to provide funds for further extensions, additions and improvements (outside of that State).

The Western Union Telegraph Company, since its incorporation in 1851, has acquired by purchase, lease or stock ownership some 535 telegraph corporations and properties. With its 24,428 offices, the Company conducts a national telegraph system, supplying about 83% of the telegraph service in the United States, in addition to which, through its cable system and connections, the Western Union establishes telegraph communication with all parts of the world.

The Western Union Telegraph Company has outstanding $99,786,530 par value of stock, having a present market value of approximately $143,500,000. The Company has paid dividends on its stock uninterruptedly since 1874; from 1917 to 1925 at the rate of 7% per annum and since the beginning of 1926 at the rate of 8% per annum.

The outstanding funded debt of The Western Union Telegraph Company and its subsidiary Companies, including this issue of bonds, will amount to $72,648,400.

The net income of the Company, after charging all operating expenses and rentals of leased plants and taxes (other than Federal income taxes), but before payment of interest on its bonds, for the year ended December 31, 1925, amounted to $20,659,775, or almost nine times such interest for the same period, which amounted to $2,336,516. For the nine months ended September 30, 1926, such net income applicable to bond interest (September income being estimated) amounted to $14,814,300, while the bond interest for the same period amounted to only $1,753,982. Such net income of the Company, applicable to interest charges, for the five years ended December 31, 1925, averaged $16,998,100, or nearly eight times the interest charges during the same period.

The Twenty-five Year 5% Gold Bonds are to be issued under an indenture to be made by the Company to The Chase National Bank of the City of New York as Trustee, which, among other things, will provide that, while any of the bonds of this issue are outstanding, the Company shall not create any new mortgage (other than purchase money mortgages) or charge upon all or any part of its real estate or telegraph plant, or upon the securities of subsidiary companies held by it, unless the bonds of the present issue shall be secured by such mortgage or charge ratably with any other indebtedness secured thereby, and that any such mortgage or charge shall expressly so provide.

The issue and sale of the Twenty-five Year 5% Gold Bonds are subject to the approval of the stockholders of the Company, now to be submitted to the stockholders at a special meeting to be held November 24, 1926."

THE UNDERSIGNED OFFER THE ABOVE BONDS, SUBJECT TO PRIOR SALE, AT 100% AND ACCRUED INTEREST TO DATE OF DELIVERY.

The above bonds are offered if, when and as issued and received by the undersigned and subject to the approval by their counsel of all legal proceedings in connection with the issuance thereof and also subject to the approval by the stockholders of the Company of the issuance and sale of the bonds. Temporary bonds or interim receipts will be delivered against payment in New York funds for bonds allotted, which temporary bonds or interim receipts will be exchangeable for definitive bonds when prepared.

Application will be made in due course to list these bonds on the New York Stock Exchange.

Kuhn, Loeb & Co.

New York, October 27, 1926.

All of the above bonds having been sold, this advertisement appears as a matter of record only

Kingdom of Belgium Stabilization Loan, 1926

$50,000,000

EXTERNAL SINKING FUND 7% GOLD BONDS

UNITED STATES OF AMERICA ISSUE.

To be dated November 1, 1926 **Interest payable May 1 and November 1.** **To mature November 1, 1956**

NOT REDEEMABLE BEFORE NOVEMBER 1, 1936, EXCEPT FOR THE SINKING FUND.

A cumulative Sinking Fund of 1% per annum, commencing August 1, 1928, is to be applied to the purchase of Bonds, if obtainable at or below 105% and accrued interest, or, if not so obtainable, to the redemption on November 1, 1928, and annually thereafter, upon 45 days' notice, of Bonds called by lot, at 105% and accrued interest.

Redeemable also in whole or in part, at the option of the Government, on November 1, 1936, or on any interest date thereafter, at 105% and accrued interest, upon six months' notice.

Coupon Bonds in denominations of $1,000 and $500, not interchangeable.

Principal and interest payable in United States gold coin of the present standard of weight and fineness in New York City, either at the office of J. P. Morgan & Co. or at the Guaranty Trust Company of New York, Fiscal Agents, without deduction for any Belgian taxes present or future.

Baron M. Houtart, Minister of Finance, and M. Emile Francqui, Minister of State and Member of the Cabinet of the Kingdom of Belgium, have written us as follows under date of October 25, 1926:

With reference to the Kingdom of Belgium Stabilization Loan, 1926, for $100,000,000 U. S. A. or its equivalent in other foreign currencies, we have the honor to furnish the following information:

Arrangements have been made for the issue of the entire Stabilization Loan as follows:

$50,000 000 principal amount in the United States of America.
£7,250 000 principal amount in England.
£1,250,000 principal amount in Holland.
Fcs. 32,000 000 principal amount in Switzerland.
Kr. 9,000,000 prinicpal amount in Sweden.

PURPOSE OF THE LOAN — **The proceeds of the Loan will be paid directly to the National Bank of Belgium, thus reducing by an equivalent amount of francs the debt of the Government to the Bank. These funds received by the National Bank will be devoted by it to immediate stabilization of the currency, in terms of the Royal Decree, dated October 25th, 1926, and Royal Decree dated October 20th, 1926, whereby the National Bank is required, on and after the 25th day of October, 1926, to maintain a minimum reserve in gold and/or foreign currencies of 40 per cent. (at least 30 per cent. being in gold) of its note circulation and other demand liabilities; and Royal Decree dated October 25th, 1926, whereby on and after the aforesaid day the National Bank is required to redeem its notes in terms of gold.**

The National Bank is charged with the duty of carrying out the monetary policy, and steps have been taken to provide the Bank with all powers requisite for this purpose and to assure it of the necessary freedom of action.

We may also mention that, in connection with the stabilization program, credits to the National Bank have been arranged by the Central and Reserve Banks of the following countries: Austria, England, France, Germany, Holland, Hungary, Japan, Sweden, United States of America.

The present Government is a coalition of all the important political parties in Belgium, formed for the purpose of establishing sound financial conditions, and all the decisions regarding stabilization and monetary policy have been taken unanimously.

PRELIMINARY MEASURES — **The way has been made clear for stabilization by the adoption of the following important measures-**

A—Reduction of Floating Debt. Under the provisions of the Royal Decree of July 31st, 1926, short term debt to the amount of Francs 4 201,436 000 has been converted into Preference Shares of the Belgian National Railway Company, guaranteed by the Government, with the result that such internal floating debt of the Government had been reduced to Francs 2,163,000,000, inclusive of postal deposit accounts.

The external floating debt of Belgium amounts to the equivalent of $24,168,000. The Government and the National Bank have made full provision in foreign currencies to meet this debt from funds already in hand, exclusive of the proceeds of the Stabilization Loan.

B—Fonds d'Amortissement de la Dette Publique. This is an autonomous public institution created by Law of June 7th, 1926, to undertake all amortization of Government debt. It receives in addition to the sums specifically provided by law annually for amortization: 1. A special contribution for a period of four years of Francs 1,500,000 000 minimum per annum, derived from new taxation voted for the purpose. 2. The Preference Shares of the Belgian National Railway Company having a total nominal value of Francs 10 000,000 000, of which part has been applied to debt conversion as above. The proceeds of the sale of the balance, less 10%, will be devoted to retirement of Government debt. 3. The proceeds of the sale of State property.

C—Belgian National Railway Company. The Societe Nationale des Chemins de Fer Belges, an autonomous organization, was created by law of July 23rd, 1926, to operate and finance the Belgian State Railways. Since the organization of the Company, passenger and freight rates have been raised approximately 37½% to 50%.

RECEIPTS AND EXPENDITURES FOR 1926 — **Upon the basis of the actual receipts and expenditures of the State in the first eight months of the current year, we are confident that the Government will be able to meet 1926 current expenditures by means of current income. In this connection, it should be noted that the expenditures include various sinking fund provisions sufficient to permit (after allowing for the issue of Belgian Government 30 year Reparation Bonds to the extent of Francs 512,000,000) of a net reduction of the existing public debt by approximately Francs 600,000,000.**

THE 1927 BUDGET — **The Government undertakes to present to the House of Representatives budgets for the year 1927, the aggregate expenditures and receipts of which are in balance and the expenditures of which will include sinking fund provisions sufficient to effect a similar net reduction of approximately Francs 1,350,000,000 in the public debt.**

GOVERNMENT DEBT — **The external debt of Belgium, inclusive of the Stabilization Loan and of inter-governmental debt, amounts to the equivalent of approximately $333,872,000 or $103 per head of the population. The internal debt of the Government, including all guaranteed debt, amounts to Francs 32,645,421,741 or approximately Francs 4,240 per head of the population.**

If, in future, the Government shall issue any loan, whether internal or external, having a lien on any specific revenues or assets, the bonds of the Stabilization Loan, 1926, shall share ratably in any such lien.

THE ABOVE BONDS ARE OFFERED FOR SUBSCRIPTION, SUBJECT TO THE CONDITIONS STATED BELOW, AT 94% AND ACCRUED INTEREST, TO YIELD 7.50% TO MATURITY.

Subscription books will be opened at the offices of J. P. Morgan & Co. and Guaranty Company of New York, at 10 o'clock A. M., Tuesday, October 26, 1926, and will be closed in their discretion. The right is reserved to reject any and all applications, and also, in any case, to award a smaller amount than applied for. All subscriptions will be received subject to the issue and delivery to us of the Bonds as planned.

The amounts due on allotments will be payable at the office of J. P. Morgan & Co., in New York funds to their order and the date of payment (on or about November 4, 1926) will be stated in the notices of allotment. Interim Certificates will be delivered pending the preparation and delivery of the definitive Bonds.

Joint Stock Bond & Share Co.

Under Management of C. G. Taylor & Co., Inc.

This company was organized by us in December, 1925, primarily as a Holding Company of Capital Stocks of Joint Stock Land Banks. The Stocks of selected Banks now owned by the Company have a value, even at current depressed market prices, in excess of prices at which same are carried by the Company.

The Company has an option to purchase and plans presently to acquire approximately 80% of the entire Capital Stock of one of the Joint Stock Land Banks operating in selected territory of two Central States. The Bank referred to is under able management and is expected to be one of several Banks to be owned and controlled by this Company.

The valuable connections of this Company with some of the leading Joint Stock Land Banks point toward continued growth of the Company and enlarged field of its activity and usefulness in the Federal Farm Loan System.

The Coming Congressional Elections and the Influences Affecting Them.

The country is on the eve of another Congressional election and it is important that the influences likely to affect the outcome should be clearly understood in order that there may be no misinterpretation of the result. It will not be necessary to wait long for the decision of the electorate, as the elections take place the coming Tuesday. The present is what is called an off-year, it being the intervening date between the last Presidential election and the one to come two years hence. It usually happens in an off-year that the party in power experiences some reverses from the successes attained at the previous Presidential election, partly as a consequence of apathy and indifference on the part of the voters, and partly because of a larger or smaller feeling of discontent on the part of the public with the course of legislation or the action of the Government. On the present occasion the indications are that the reverses will be more pronounced than usual, with something more than a mere probability that the dominant party may lose control of the next Congress.

If the outcome should be in accord with these indications a variety of reasons will undoubtedly be assigned as the cause of the political setback. We will be told that the voters have manifested their displeasure over the failure to legislate for the relief of the agricultural sections, their dislike of the attitude of the Government and of Congress in sanctioning steps on the part of the United States to join the World Court, their disgust over the large money expenditures at the primary elections in several of the States, their discontent regarding party policy concerning prohibition (a question on which there seems to be a sharp division of sentiment in both parties) or their desire to bring about a modification of the country's protective tariff policy, which, of course, could be accomplished only by returning the Democratic Party to power at Washington. All these are unquestionably factors in this year's campaign, of larger or smaller importance in different parts of the country and in different Congressional districts, though there is no way of telling the precise degree to which any one of them will affect the general result.

But there is another consideration to be taken into account, which the party managers with their customary blindness to patent facts, are completely ignoring, but which, in our estimation, based on contact with the voters concerned, is destined to affect next Tuesday's elections more than all the other circumstances just mentioned combined. There is deep dissatisfaction on the part of a considerable portion of the electorate with the tax reduction measure passed at the last session of Congress. This is, of course, a factor that will have to be reckoned with in all parts of the country. To those cognizant only of the smug satisfaction expressed by official Washington with the tax reduction law, or Revenue Act of 1926 as it is called, it will no doubt be difficult to credit the statement that any dissatisfaction prevails. But it does, and, what is worse, it is resentful. The explanation is very simple. For the part of the population referred to there has been no tax reduction at all, but actually an increase, and the revenue returns, as they are now coming in, month by month, afford impressive testimony to the truth of the assertion.

We have reference to the proprietors of the small corporations, those in enjoyment of moderately large incomes, of which there are thousands in different parts of the country. If these derived their income from unincorporated business, or if they obtained it from investments, they would benefit from the reductions that have been made in the normal tax on individuals, which normal tax has been cut under successive tax reductions until now the tax is only 1½% on the first $4,000 of taxable income, 3% on the

next $4,000 and no more than 5% on the remainder of taxable income. But they are not subject to the normal tax. They are subject instead to the corporation income tax, and this has been raised, not reduced. It has been increased from the already large figure of 12½% to 13½%. Ostensibly, the additional 1% is meant to count as an offset to the repeal of the capital stock tax. But while there were some good reasons for the repeal of the capital stock tax, certain objectionable features being connected therewith, the two by no means constitute exact equivalents. In the case of the larger corporations, those with big tangible assets, the capital stock tax undoubtedly amounted to a great deal more than the additional tax of 1% on corporate incomes, and these stand to gain therefore. On the other hand, in the case of most of the smaller corporations the reverse is true. In this last instance the capital is represented mainly by good-will, with little tangible assets, and hence the capital stock tax has been correspondingly low, amounting as a rule to much less than the additional 1% tax they are now obliged to pay upon their corporate net incomes. It follows that their tax burden has been augmented by the difference between the two. Either 13½% or 12½% is an inordinate tax to have to pay anyway, and the matter is made still worse by the circumstance that in many States the corporations have to pay a State income tax in addition. In New York the corporation income tax is 4½%, making the Federal and the State tax combined 18%—that is corporations in this State have to pay over to Government 18% of their entire net income before they can think of paying anything to their shareholders in the way of dividends.

If the proprietors of the small corporations under Federal tax law were allowed a credit on their surtaxes equal to the difference between the reduced normal taxes on individuals and the increased tax on corporations it would be a simple act of justice and they would be better off to that extent and be put on a basis of equality with the private individual. But this is denied them and always has been denied them. Furthermore, the changes in the surtax rates under the latest revision of the Federal taxes have also been to the disadvantage of the small proprietor. The maximum of the surtaxes, as is known, has been reduced from 40% to 20%. But the maximum is now reached on incomes of only $100,000, where previously it was not reached until the income amounted to over $500,000. The result is that the benefit of the surtax reductions accrues almost entirely to those in enjoyment of very large incomes, leaving those whose incomes fall in the so-called lower brackets out in the cold.

The surtaxes begin at $10,000, and the revenue bill as it originally came from the House made no reductions at all in the surtaxes on amounts of income running from $10,000 a year to $44,000 a year, comprising the vast bulk of the business community—the small proprietors, the great Middle Class. The bill was somewhat improved in this particular in its passage through the Senate, the House surtax rates being slightly reduced in a portion of these lower brackets, but not enough so to be of any great consequence or to afford any substantial relief as an offset to the 1% increase in the corporation income tax. Remember, there is the additional hardship that, as just stated, the maximum surtax rate of 20% under the new law is reached on incomes running in excess of $100,000, while the previous 40% rate did not apply except on incomes above $500,000. Adding the 20% maximum surtax to the 18% corporation income tax, it will be seen that we have even now 38% for the two combined, and applying on everything above $100,000 of income. If now we go a step further and add the personal income tax of 3% levied by New York State and which applies on amounts of income exceeding $50,000, and we have income taxes altogether of 41%. And this eight years after the signing of the armistice!

Yet there has been tax reduction, and very heavy reduction at that, but it has not been for the benefit of the proprietors of the small corporations. The benefit has been entirely to those on the one hand with very large incomes and on the other hand to those with very small incomes. By raising the personal exemption of an unmarried person from $1,000 to $1,500 and that of the head of a family from $2,500 to $3,500 no less than 2,500,000 persons are relieved from the payment of any Federal income tax at all.

It is here where the rub comes in. Senator Smoot put the reduction effected by the new law at $387,811,000. In other words, it was estimated that under the bill in its final form the loss in 1926 Revenue would reach the large figure given. That is what makes the small corporation proprietor sore to the point of absolute resentfulness. He reasons that some tax payers have had their taxes reduced in the aggregate sum of $387,000,000. He is not only not allowed to share in this reduction, but finds that he must pay a larger amount of taxes than before. If in reducing the maximum of the surtaxes from 40% to 20% the amount at which the maximum rate was to apply had been left at $500,000, instead of being lowered to $100,000, and the surtaxes had been cut in two all along the line from $10,000 up, he would have shared at least equally with the recipient of large incomes in the cut in taxes in that respect. He would still have lost the benefit of the cut in the normal tax rates, which were reduced from 2% to 1½% on the first $4,000 of taxable income, from 4% to 3% on the next $4,000 and from 6% to 5% on the remainder of his taxable income. These reductions in the normal taxes do not count in his favor, since, as already noted, he is obliged to pay instead the much higher corporation income taxes. These latter, even before the latest revision, were over twice as large as the maximum of the normal taxes, and now have been raised a further 1%.

In other words, before the present change the normal tax on the income of individuals (whether de-

rived from business or investments) was 6% and the corporation tax 12½%, making the difference against the corporation tax payer (and we have in mind particularly the proprietor of the smaller corporations) 6½%. Now, with the highest normal tax reduced to 5% and the corporation tax raised to 13½%, the difference against the latter is 8½%. There is obviously a flagrant injustice in such discrimination, and the proprietors of the small corporations are cognizant of it and feel bitter about it.

The final result of all this discrimination is that the corporation proprietor finds that he alone has had his taxes increased, while everyone else has had his taxes reduced in one way or another. At one end of the line 2,500,000 tax payers have been relieved altogether from the payment of Federal income taxes by reason of the raising of the exemption limits, and at the other end of the line the heaviest tax payers have had their taxes cut in twain. That we are not indulging in hyperbole, or making exaggerated and unwarranted statements when we say that the class of tax payers referred to have had their tax burdens increased becomes incontrovertibly clear when we examine the Federal revenue returns since the enactment of the new revenue law. These show tremendous increases as compared with the corresponding period last year, notwithstanding that $387,000,000 of taxes have actually been cut off. The first revelation on that point came when the figures for the June quarter and for the Government fiscal year ending with that quarter were made public at the beginning of July. These figures included both the March installment and the June installment of the income taxes at the lower rates. They showed that Government revenues under the new law had been under-estimated to the extent of about $250,000,000.

In a statment made public by the Treasury Department the surplus of revenue for the fiscal year then just closed was reported at $377,767,816 and Secretary of the Treasury Mellon in commenting upon the magnitude of the surplus, pointed out that Treasury computations "amended as to internal revenue receipts by the Government actuary upon the passage of the Revenue Act in February indicated a surplus of $130,541,756." In seeking to account for the difference between this $130,541,756 of estimated surplus and the real surplus, larger by $247,226,060, Mr. Mellon said that it was evident that sufficient weight had not been given "to either the increased efficiency of the Internal Revenue Bureau, which has brought in approximately $100,000,000 of back income taxes in excess of the amount estimated, or to the extent to which tax reduction was anticipated by the tax payers, thus creating additional taxable income, and, consequently, an increase of Government revenue in the last six months of the fiscal year by about $111,000,000 over the estimates." This was not considered altogether convincing, and yet had to pass.

But now come the figures for the Sept. 30 quarter showing an even larger expansion in Government revenues and obviously the collection of $100,000,000 of back taxes cannot be made to do duty a second time in seeking to account for the magnitude of the Government revenues—so far in excess of what anyone had expected. The figures appeared in the daily papers last Sunday morning. They are perfectly astounding in the results disclosed. All the reduced tax rates were in effect in this quarter, which was not the case in the June quarter, and all the taxes eliminated by repeal also disappeared in this September quarter, and particularly the repeal of the capital stock tax which had to be made in a single payment and always counted for its full amount in this September quarter. Nevertheless, total internal revenue receipts in this quarter of 1926 were actually somewhat larger than in this quarter of the previous year, being $693,702,427, against $691,701,061. The miscellaneous internal revenue receipts were only $161,118,571, against $267,372,008, the abolition of the capital stock tax constituting the biggest item in the falling off; but the income tax collections for the period from July 1 to Sept. 30 in 1926 increased $108,254,803 over the corresponding three months of the previous year, the 1926 income tax collections having been $532,583,856, as against $424,329,053 in 1925. Corporation tax receipts, we are told, alone accounted for more than $85,000,000 of the increased collections, the Treasury Department adding—so the dispatches said—"that this was expected in the face of the increased tax rate of 13½% instead of the former rate of 12½%."

But the explanation, or attempted explanation, is crude and superficial. No such increase was looked for in official or unofficial quarters. The $85,000,000 increase is the amount of increase for a single quarter, and therefore is at the rate of $340,000,000 a year. The capital stock tax for a full year yielded roughly only $90,000,000. The present income tax collections are based on the incomes of 1925, which was a better business year than 1924, and a part of the increase, though only a part, may be attributed to that fact. But in any event, the fact is clearly established that the additional tax of 1% imposed upon corporate incomes far exceeds the amount of the repealed capital stock tax and the heavier tax burden thus imposed has fallen, as we have already indicated, upon the proprietors of the small corporations. Of course, these did not need any figures from Washington to apprise them of the fact that under last winter's tax revision they are called upon to pay more taxes than before. They knew that already, to their sorrow, since it had been forcibly impressed upon them when they paid their June and September installments of the taxes under the new law. That furnishes the reason why they are thoroughly disgruntled, and it is in human nature that they should feel so when they ponder upon the fact that with taxes actually cut in the huge sum of $387,000,000 their own tax bills are larger than before. As one of these afflicted tax payers

said to the writer, "we feel that we have been given a raw deal."

The matter is made all the worse for these tax payers by the repeated statements that keep coming from official Washington that no further tax revisions need be looked for in the near future, notwithstanding the way in which tax receipts are piling up, thus putting off the day when relief from these oppressive tax burdens is to come. Is it any wonder in these circumstances that many of the sufferers should conclude not to vote at all in the present year's Congressional elections and some should have actually made up their minds to vote against the party in power on that account.

Of course, there is no reason why any of the aggrieved tax payers should turn by preference to the Democratic Party, since this latest tax revision measure was a non-partisan or bi-party measure, the Democrats having fathered no bill of their own, but having co-operated with the Republicans in putting the bill of the latter through and being generally commended for so doing, though the effect always on such occasions is to relax vigilance on behalf of the public by both parties. Nevertheless, resentment or dissatisfaction always makes itself manifest against the party in power as being the responsible agent. Therefore there is reason to think that the Republicans all over the country will suffer as a consequence at the coming elections, and it is of the highest importance that the fact should not be lost sight of. These business men, it should be remembered, are not in the habit of carrying their complaints to Washington, and that is why they receive so little consideration at the hands of the legislators. At election time, however, their action is calculated to be impressive, and that is the danger menacing the present Administration.

The Financial Situation.

In our last issue we indicated that the stock market reaction appeared to have culminated in the low prices registered on Tuesday, Oct. 19, when the Dow-Jones industrial average stood at 145.66 and the railroad average at 114.70. The evidence for this seems still clearer at present, inasmuch as all classes of securities have been somewhat stronger on most trading days, the industrial average Oct. 27 standing at 151.87 and the railroad average at 118.77. Perhaps more convincing, however, than the movement of these stock averages has been the action of investment bonds. The Dow-Jones average of 40 investment bonds, which had been almost stationary during the entire course of the stock market reaction, has during the past week advanced steadily from day to day, and in the meanwhile a number of large new issues have not only met with instant success, but have advanced readily to handsome premiums.

Conspicuous in this category was the $100,000,000 Kingdom of Belgium Stabilization Loan 1926, of which $50,000,000 7s, 1956, were offered in this country and the remainder abroad. The American portion of the loan was handled by a syndicate headed by J. P. Morgan & Co. and the Guaranty Trust Co. of New York. The bonds were offered for subscription at 94, to yield 7.50% to maturity. The bonds almost immediately advanced to a premium of more than two points. The American price was made low primarily to secure the success of the issue, but also probably to some extent so that the price might be co-ordinate with the British offering, where conditions are such as to demand an offering price perhaps lower than could have been obtained had the entire issue been offered in this market. Of the approximately $50,000,000 bonds offered abroad, about 70% were offered in Great Britain and the rest in Holland, Switzerland and Sweden.

The Belgian loan, issued in connection with an accepted program for the rehabilitation of the entire fiscal situation, provides primarily for the stabilization of currency at a newly established basis of slightly over 2¾ cents to the franc, or to put it more exactly, 174.31 francs to the pound sterling. This is done with the establishment of a new unit of Belgian currency, namely the belga, equal to five francs, approximately 13.96 cents. This was designed to be the unit of Belgian exchange in foreign markets, and bears a relation to the franc similar in kind to that borne by the pound sterling to the shilling, the unit quoted abroad being simply a multiple of a subsidiary coin. Foreign bankers, however, have objection to using a currency unit not represented by the actual coin unit in which their balances are carried, and after quoting Belgian exchange in belga for a few days discontinued doing so and are again quoting exchange in francs. Through the Belgian loan gold reserves are provided for the stabilization of the currency, and ways and means are also provided for a satisfactory handling of the floating debt, sinking fund, bond maturities and other necessary conditions of a sound currency situation.

With this step Belgium takes her place with Great Britain and the other countries that have placed their currencies on a gold basis, and made the necessary sacrifices to go ahead in their interchanges with the world on the usual business basis. This step on the part of Belgium has not only brought signal success to the floating of its own bond issue, but has stimulated demand for other European bonds to such an extent that bond dealers are beginning to find difficulty in supplying investors even at advancing prices, although a few weeks ago many foreign issues were something of a drug on the market.

On Tuesday a syndicate headed by Kuhn, Loeb & Co. offered $25,000,000 Western Union Telegraph 25-year 5s, 1955, at par, yielding 5%. This issue also met with eager absorption, advancing almost immediately to a large fraction of a point premium. This issue would seem to mark the passing of the 5% yield in connection with bonds of the highest grade. During the past three years there has been a marked seasonal trend in connection with bond prices, high levels being scored in June and low levels several months thereafter. If this tendency continues to persist, 5% yields in connection with bonds of this kind may be well out of reach by next summer.

The recent stock market reaction had the advantage for the bears of a somewhat unstable technical position in the market itself. On top of this came the disaster in Florida, the sharp decline in the price of cotton, and an approaching election with considerable uncertainty as to whether or not the present Administration would lose part of its support in

Congress. Consequently, with the starting of the decline in prices, most of the brokers and all but a few of the advice agencies became extremely bearish, predicting the beginning of a bear market.

A few weeks ago pessimism was at its height and public psychology seemed prepared for calamities of almost any magnitude. However, as usual, the market has been governed by fundamental conditions, the evidence of the soundness of which has been almost overwhelming, as revealed by such developments as the reporting of more than $150,000,000 net income in the first nine months of the current year by a single corporation—the General Motors Co.; record earnings since 1920 in the third quarter by the Steel Corporation, and increase of the Norfolk & Western dividend by paying of an extra larger than was expected, namely $3 in addition to the regular $7. Freight car loadings for the week ended Oct. 16 were not only at a new high for all time, 1,210,163 cars, but scored a material increase over the previous record of 1,187,011 cars made in the week ended Sept. 18 this year.

There have been a large number of dividend increases, the most notable being the increase in the regular rate of Pennsylvania Railroad from $3 to $3 50 per share of $50 par value. Perhaps the matter of greatest influence in the market was the decrease in brokers' loans for the week ended Oct. 20 by an additional $71,936,000 following a decrease of $81,953,000 during the previous week. This decline brought the loans to $2,655,118,000, down from the recent high on Sept. 29 of $2,812,971,000, and comparing with $3,141,125,000 on Jan. 6, when the loans were first reported. Price movements have been another contributory factor in restoring confidence, the Irving Fisher index of wholesale prices showing a small increase from 148.1 on Oct. 15 to 148.4 on Oct. 22.

The Government cotton report of Oct. 25, showing a large additional gain in the estimate of cotton, namely 17,454,000 bales, as against an estimate of 16,627,000 on Oct. 1 did not prove to be a securities market factor. During the period between these two cotton reports the price of cotton gradually dropped from something below 14 cents to about 12¼ cents. It is now being appreciated that after all is said the world is better off with a large supply of cotton than a small one and that even in the South the apparent immediate calamity is offset with many advantages. In the first place, there will be a far greater tonnage for the railroads to haul, and in the next place there will be an intensive effort to induce Southern farmers to diversify their crops, something needed more than anything else in the South. Furthermore, the present episode will undoubtedly result in better facilities being provided for the handling of surplus cotton, both as to credit and storage. If these facilities were ample, the price of cotton would not fluctuate as violently as it has done in the past. Furthermore, the great danger of the last decade has been not too much cotton, but too little, so that the large surplus provided by the abundant crop of this year should prove a blessing in the long run, if it is prevented from doing too much damage through foolish or forced selling. It is more than possible that a large part of this crop will be marketed at a price higher than that prevailing at present.

Yesterday morning a syndicate headed by the Bankers Trust Co. and Harris, Forbes & Co. offered $25,000,000 International Paper Co. 6s convertible gold debentures, 1941, at 98, yielding 6.20%. The debentures follow $40,064,000 secured funded debt, and provide funds for a program of rapid expansion required by the continued increase in demand for the company's products. Earnings during the past ten years have averaged approximately 2.7 times all charges(including interest on the bonds now being offered, and during 1925 2.3 times such charges. Earnings in the current year are running ahead of those in 1925. The bonds are convertible on or after April 1 1927 into an equal amount of 7% cumulative preferred stock, and the right is attached to each $1,000 bond to subscribe for one share of common stock at $50 on or before Oct. 1 1928.

Cotton again is king—that is, if reference is to the mere size of the crop, and not to the price that is being realized for it in the market. A yield of 17,454,000 bales is now indicated for the current year's crop, according to the latest report of the Crop Reporting Board of the Department of Agriculture at Washington. This is far in excess of any preceding year, and is based on conditions in the fields on Oct. 18. These figures are 827,000 bales larger than was indicated by the Department on Oct. 1 this year; 2,228,000 bales larger than was estimated in the Oct. 18 1925 report for the crop of that year, and 1,350,000 bales in excess of the final ginning returns for 1925. No previous year has approached in yield the latest estimate. Every indication since Sept. 1 has pointed to a much larger crop, just as it did a year ago.

Ginnings have recently jumped, showing that the crop has of late been gathered much more rapidly than previously. The Sept. 1 estimate of yield for the current year's crop was 15,166,000 bales, and ginnings only 694,000 bales. A year ago the Sept. 1 estimate was 13,740,000 bales and ginnings 1,187,000 bales. These figures illustrate very strikingly the backwardness of the crop six weeks ago. A much larger yield was indicated for this year on Sept. 1 than at the same time last year, but the ginnings this year were very much smaller at that time than they were in 1925. Now the crop for 1926 is placed at 17,454,000 bales, while the ginnings at the same date were 8,722,000 bales. On Oct. 18 1925 a yield of 15,226,000 bales was promised, with ginnings up to that date of 9,519,000 bales.

The final outturn of the 1926 crop is yet to be determined, but in 1925 it was 88,000 bales larger than the Oct. 18 1925 estimate of yield indicated. Likewise in 1924 and in some other years prior thereto, the October estimates have been exceeded in the final ginning returns, the additional production for 1924 being 964,000 bales in excess of the Oct. 18 estimate. As to the final yield this year the Crop Reporting Board in its report, issued on Monday of this week, says that there is some uncertainty as to how much of the cotton, especially of the lower grades, will be left in the fields, owing to present prices and to the scarcity of labor for picking. The current estimate of yield for this year is based on a production of 176.7 bales per acre; last year the final estimate was 167.2 bales per acre; in 1920 it was 178.4 and in 1914 209.2. For the intervening years since 1914, with the exception of those men-

tioned, the yield per acre was considerably below the indicated yield for 1926.

Practically all of the States of large production show an augmented yield as compared with the earlier reports this year, and most of them larger than in 1925. The indicated yield for Texas this year is now given at 5,400,000 bales, as against 4,165,374 bales, the actual yield, in 1925. Since 1913 three other years have recorded a production in excess of 4,000,000 bales for that State, 1914 the highest, at 4,595,000 bales. There has been a considerable increase during October the present year in Arkansas, Mississippi, Alabama and Georgia, while Oklahoma and South Carolina are both higher than was indicated at the opening of the month. Both North and South Carolina show a heavier production this year than last. Louisiana shows a gain for October this year, although the yield will be smaller this year than it was in 1925, and the same thing is true of both Missouri and Tennessee. Quite a marked reduction from a year ago is noted for Florida, which, however, holds a rather unimportant position as a cotton growing State, although that State in its Oct. 18 condition shows considerable recovery from the condition at the beginning of the month.

Stabilization of currency has been, and still is, one of the biggest financial problems growing largely out of the World War. Following the lead of Great Britain, that was able to return to the gold basis, one European country after another has undertaken the solution of the problem. Belgium apparently has now also succeeded in stabilizing her currency, at least in putting a plan into effect, with powerful banking assistance from abroad, for that purpose. It is expected, both in European capitals and in this country, that what Belgium has been able to accomplish will make the task considerably easier for France. The steps taken by the Belgian Government and its bankers with regard to this matter were outlined in part as follows in a special Brussels dispatch to the New York "Times" on Oct. 25: "From to-day the Belgian franc is stabilized at 174.30 to the pound, 36 to the dollar; and there is a new monetary unit, the belga, based on gold, equaling 35 to the pound and 7.20 to the dollar. The belga will be used in foreign trade only. All decrees relating to the operation have been signed by the King. On Saturday contracts were signed in London for a loan of $100,000,000 for a term of 30 years. This external loan will go to the National Bank of Belgium, which is now charged with carrying through the operation and which has received, in addition, a guarantee of discount credits on the great issuing banks of countries with stable currencies. The National Bank also holds reserves of foreign currencies on its own account and on that of the Government amounting to $45,000,000, and these reserves may be called to play an important part in the process of stabilization. The foreign loan will be floated in London, Amsterdam and New York, not to mention other cities whose banks have taken part in the operation."

The "Times" correspondent said also that "Governor Franck of the Bank of Belgium appeared on the Bourse this afternoon and explained why the Government had decided to establish the new currency for foreign trading, while retaining the franc in domestic circulation. He stated that the belga was not based on the British pound or the American dollar, but on gold. 'There were two formulae for stabilization. We could have tied ourselves to some fixed proportion to foreign money of a gold standard or have chosen a direct sum in gold. The Government chose the latter formula. It is far better, especially for a little country such as ours. The gold weight which will be attributed to the belga is exactly .209211 grams. On this basis, the dollar is worth 7.20, and if the pound is at par it will be exactly 35 belgas.' M. Franck was warmly cheered after his explanation. The stock market has reacted favorably to the reform instituted by the Government, State loans rising on an average of 4%. The new regime will be put into effect immediately."

The American half of the $100,000,000 loan, consisting of 30-year 7% external sinking fund gold bonds, was offered, as already stated, on Tuesday morning, Oct. 26, by a powerful syndicate headed by J. P. Morgan & Co. So large were the subscriptions that the books were closed at 10.30 a. m., a half hour after they were opened.

The plan to stabilize the Belgian currency appears to have been well received in London and in New York and Washington. From the British capital came the statement on Oct. 25 that "London financial opinion approves not only the principle involved in Belgium's stabilization of her currency but the method she has adopted to achieve it. The London portion of the stabilization loan, amounting to £7,250,000, was underwritten to-day. It will be issued by Baring Brothers, Morgan, Grenfell & Co. and the Westminster Bank. Comment was general to-day on the attractive terms of the issue, the secret of which had been extraordinarily well kept, and the underwriting was very eagerly taken. The loan is regarded here as of the same order as the reconstruction loans to Austria, Hungary and Germany, in the success of which the British investor played a conspicuous part. The special credits by foreign banks which will form part of the reserve of the Belgian National Bank, have been granted, it is stated here, mainly under the inspiration of the Bank of England." The London allotment was quickly taken also. According to a special cable dispatch from that centre on Oct. 27, "the rush of subscribers for the Belgian loan to-day was so great that the lists closed a few minutes after they had opened. It is said that nearly $1,000,000,000 was offered. As the total amount of the loan was only about $36,000,000 the allotments will be small." It was added that "the terms of the loan were considered attractive by investor and speculator alike. Possibly there may have been a psychological factor also at work, since it is considered here that stabilization of the Belgian france in that it will eliminate unfair competition caused by depreciated currency will be nearly as advantageous to Britain as to Belgium."

As for Washington's position, it was stated in a special dispatch to the New York "Times," also on Oct. 25, that "news of the stabilization of the Belgian franc was welcomed by high Government officials here to-day. They regarded it as a step forward to European recovery. It was characterized by a Cabinet member as 'one of the most important steps yet taken toward improvement of the international financial situation.' Unusual significance

was attached to the Belgian move for the reason that heretofore the franc of that country had been influenced a good deal by the condition of the French franc. This was regarded as due to the proximity of the countries. It does not now follow necessarily, according to the view in informed quarters, that the complete recovery of the Belgian franc will tend to stabilize the currency of France. The importance of the announcement was analyzed by an expert on financial matters as indicating a return of the country to full industrial life, with ability to get plenty of credit abroad. Commerce, it was explained, cannot develop to any great extent so long as there is doubt of the value of the money to be paid for it. 'This kind of uncertainty has been a drag on the entire European situation,' it was declared."

The plan did not meet with special favor in Paris, according to a special cable dispatch to the New York "Times" on Oct. 25. It stated that "there is a good deal of speculation in Paris to-day as to the effect on the position of the French franc which will result from Belgian stabilization at 174.31 to the pound and the creation of the belga as a new unit. France is by no means yet willing to consent to such a sacrifice as Belgium has made and renounce all idea of ultimate revalorization. Though such idea may seem extravagant outside this country, it is firmly held by some, even the most important men in the country, that in time, if an effort is honestly made, the franc can be brought back to 25 to the pound and 5 to the dollar. No one, and certainly no one in the present Government, will readily consent to stabilization at a figure so low as that set by Belgium. That attitude is fairly characteristic of the public spirit just now, and any policy of stabilization such as Finance Minister Franck has just completed for Belgium is not to be considered as possible or desired in France just now. It is for that reason all the more interesting to see what the relations of the Belgian and French franc will be. There are prophets here who declare even now that M. Franck has not removed Belgian money from danger. Others are uttering warnings that it is impossible to keep the French franc as high as at present while the Belgian franc is fixed at 174.31."

Much stronger and more positive statements were made in a special Paris cable message to the New York "Herald Tribune," likewise on Oct. 25. The correspondent said in part that "the stabilization of the Belgian franc through the royal decrees issued at Brussels to-day in no way will affect the activity of the French Government in this direction, it was said in quarters close to Premier Poincare to-night. Simultaneously with the Belgian action the French franc gained in value in to-day's trading and closed at 32.81 to the dollar and 152.55 to the pound sterling, or about 10% stronger than the new stabilized Belgian unit. It is insisted in official quarters here that M. Poincare is in no hurry whatsoever to stabilize and is confident that the steady gain of the French franc will continue. It was pointed out that if the Premier had yielded to the clamor for stabilization three months ago he would have been forced to carry out the operation with the franc at from 175 to 200 to the pound, whereas, by holding out, he finds the fixation of the French currency possible to-day at about 150."

The attitude in France on the recent recovery in her franc was outlined in an Associated Press dispatch from Paris on Oct. 26. It was stated that "increased confidence in French finances, resulting in international speculation, is given in French banking circles as the reason for the recent improvement in the franc, which to-day reached a point of 3 francs less to the dollar than at the beginning of the month. Exchange experts say that the movement began abroad and that those who got on the franc band wagon after Premier Poincare took power, found their position made safe by the balancing of the budget and consequently continued their operations. Others joined in the movement when the budget for 1927 was introduced showing a surplus of nearly 600,000,000 francs."

On Tuesday, the day that the Belgian bonds were formally offered, the first sale of the American issue on the New York Stock Exchange was at 94¼. The bonds dropped only ⅛ below that level, rising before the close to 94¾, against 94, the offering price. As for the belga, the new monetary unit, announcement was made that, on Tuesday also, "Belgium's new monetary unit, the belga, making its first appearance on the market to-day, within a few hours sped past its intended parity against the dollar and the pound. It crossed the 3 o'clock finishing line on the Bourse at a clip of 7.185 to the dollar and 34.85 to the pound. On a gold basis, it was intended to equal exactly 35 to the gold pound and about 7.20 to the gold dollar. Since the belga has been set at 5 Belgian francs by the Government, the latter was, therefore, worth 35.925 to the dollar."

In a formal statement issued on Oct. 24 Secretary of the Treasury Mellon confirmed and elaborated informal expressions of opinion, both by President Coolidge and himself, relative to the purposes and scope of the tariff manifesto unexpectedly issued in Europe last week. In summarizing Mr. Mellon's statement in part, the Washington representative of the New York "Herald Tribune" said in a dispatch on Oct. 24 that "Andrew W. Mellon, Secretary of the Treasury to-day revealed his views on the 'world bankers' manifesto,' which proposes a general reduction of tariff barriers to stimulate international trade. He believes that these proposals do not apply to the United States, nor do they menace its business welfare. In fact, Secretary Mellon considers their conceptions and sponsorship as an aid to the rehabilitation and stabilization of Europe's economic situation, disturbed by post-war problems. Secretary Mellon indorses the stand taken by the Administration and voiced at the White House last Tuesday, when the manifesto was made public. At that time President Coolidge, through his spokesman, let it be known that the Administration was unalterably opposed to 'any tariff tinkering which might menace the welfare of the United States or have any ill effect on the high standard of living prevailing in this country.' In reference to the European situation Mr. Mellon said conditions in the Continental countries are far different, from a commercial standpoint, from those in the United States. The break-up of the old political units and the rearrangement of the Continent along ethnical and not commercial lines were declared responsible for the present restriction in its trade movement.

He termed a representative European unit to-day a 'brain without a body.' Nations, he said, are cut off from their markets and raw materials. Mr. Mellon took sharp issue with those who have argued that because artificial barriers hinder readjustment in Europe the United States must change its tariff policy. 'No such limitations exist in the United States,' Mr. Mellon says. 'We have one transportation system, we speak one language and we have one kind of money among 120,000,000 people in an area almost the size of Europe outside Russia. The standard of living in Europe is quite different from the standard in the United States, and unless we are willing to bring our standard down to that of Europe we cannot consider a change in our tariff, however desirable such a change may seem to Europe.'"

Commenting on several other phases of the matter, the Washington correspondent of "The Sun" said in a dispatch on Oct. 25: "Secretary Mellon's statement on the international tariff manifesto, issued here last night, was generally interpreted today as an official declaration of the position of the Coolidge Administration and was regarded not only as an indorsement of the present protective tariff law, but as a warning to Europe not to expect to see the present tariff rates lowered by the Republicans."

Comparatively few echoes of last week's announcement of the signing of the manifesto have appeared in cable dispatches this week from the leading European capitals. In this country the statement by Secretary Mellon was regarded as final, so far as the United States Government is concerned, and it has been doubted that much more will be heard about the whole affair in the near future.

It has been indicated in Paris dispatches again this week, as was true near the close of last week, that the French Government does not actually intend to take up ratification of her war debt agreement with the United States during the remaining weeks of this year. The Paris correspondent of the New York "Evening Post" cabled on Oct. 23 that "at the conclusion of an important Cabinet Council at Elysee Palace, it was indicated that 'the solemn, irrevocable plebiscite" of the French people concerning ratification of the war debt settlements would not be definitely made known until the session of Parliament during the first weeks of 1927. Accordingly, the extraordinary session of both Houses, which is scheduled for Nov. 4, will concern itself solely with what promises to be an exhaustive discussion of the budget. The inference is that the Government will thereby be enabled to mark time to maintain the *status quo* of the franc. However, it is apparent from discussion now going on in Paris that the Poincare Cabinet is really looking for what might be termed a settlement out of court."

More or less novel plans for meeting war debts continue to appear at rather frequent intervals. On Oct. 23 the Paris correspondent of the Associated Press told of still another one. He said that "the possibility of the creation of an international banking organization to which all Europe would furnish the necessary resources, for the paying off of war debts on installments, is suggested in a statement given to-day to the Associated Press by Adrien Dariac, President of the special Debt Commission of the Chamber of Deputies. M. Dariac issued the statement as an addendum to an interview accorded to a correspondent for the Associated Press in which he spoke of the report on the French war debts which will be submitted to the Finance Committee next week. The message, frank to the point of bluntness, he made clear was his personal opinion on the debt question and not his opinion as President of the special commission. 'The time of loving one another has passed. The time to pay has arrived. All right!' M. Dariac's message said. 'There were two ways of settling the debt. It could be placed on a plane of justice and amity or it could be looked at from purely the business viewpoint. The latter method has prevailed. By the first method the nation which has always protested amity toward France could have shown that it had not forgotten what was right and could have regulated the debts as the American soldiers who fell in France would have wished. By the second method America would forget her past and ours; she would estimate that budgets are not balanced with glorious memories; she would leave to their eternal peace the shades of Washington, Lafayette, Rochambeau and those of her soldiers who fell for the same ideal as French soldiers. She would present her bill as business men. There would no longer be peoples with their traditions, sympathies, history and common interests. There would be a tradesman and banker—America—and a client debtor—France. It is that method that has prevailed.'"

As the week progressed nothing appeared in Paris cable advices to indicate that the war debt agreement with the United States would be ratified at an early date. On the contrary, considerable delay seemed practically certain. It was reported in a special Paris dispatch to the New York "Herald Tribune" on Oct. 27 that "Victor Henri Berenger, French Ambassador to the United States, to-day began preparations for his return to Washington, where, under instructions of the French Government, he will begin a series of important conferences with Secretary of the Treasury Mellon on the subject of the Franco-American war debt accord, still awaiting ratification here. If the Ambassador's mission is successful ratification will not be difficult. Otherwise the Poincare Ministry will face defeat from the moment the debt accord is brought before the Chamber of Deputies." It was suggested also that "M. Berenger's trip to Washington therefore becomes a plea direct from the Poincare Ministry to the Coolidge Administration for assistance in maintaining its rule. M. Berenger will ask for a documentary interpretation of the debt agreement on the part of the United States Government, assuring the French legislators that the collection will be carried out in a conciliatory spirit in the event of a default on the part of France's debtors, principally Germany, or in case of technical transfer difficulties."

The very next day it was claimed in a special Paris dispatch to the New York "Times" that there was nothing certain about the Ambassador returning in the near future, nor about the report that he would seek concessions in the war debt terms. It was stated that "Ambassador Berenger, whose return to his post at Washington early next month was rumored yesterday as the result of an interview he

has had with Foreign Minister Briand, refused today not only to set any date for that return, but even to discuss its possibility." It was added that "through Foreign Office press service the Ambassador issued a flat denial of various current stories that he would on his return start trying to get this time what he failed to get before in the share of reserves and interpretations of clauses of the debt agreement which he signed with Secretary Mellon. If these were the terms on which he was to return, it was intimated, the Ambassador would not go and it was further added that no such demand had been made."

Dwight P. Morrow of the firm of J. P. Morgan & Co., was quoted in an address, on Oct. 27, before the Institute of Meat Packers in Chicago, as saying that he "expects that France and Italy will be established on a gold currency basis before the end of 1927, which would bring all of the countries of Western Europe 'to a basis of sound economy' after eight years of economic dislocation and industrial rehabilitation." It was added in an Associated Press dispatch from Chicago that evening that, "touching upon the influence of each of the succeeding gold restorations upon world trade, Mr. Morrow said that each difficult step toward stability had produced beneficial results on both international trade and the internal economics of the respective countries involved. In the cases of Austria, Germany and England, the restoration has been followed by some temporary hardships of readjustment, but the policy in each case has been gratifying in its effect upon business specially. I believe that the nations which still have the step before them are determined to face the temporary hardships for the greater benefits of sound economic policy."

The French and German Governments appear to have "struck a snag" in their efforts to carry out the plan agreed upon at Thoiry by Foreign Ministers Briand and Stresemann for settling their post-war problems. Their first important obstacle resulted from the seeming impossibility of selling the German Railway bonds which the German Government had offered to France in return for evacuation of German territory by French troops. Discussing this situation, and having referred to a conference in Paris between Ambassador von Hoesch, from Germany, with Foreign Minister Briand, the Paris representative of the New York "Times" said in a dispatch on Oct. 22 that "unfortunately, the two diplomats had to recognize that the prospects of marketing in the near future of a considerable portion of German reparations railway bonds was not bright. In fact, the prospect appeared so dull that it is understood there was an agreement on both sides that what had been laid down by the German and French Foreign Ministers as the first step in the Thoiry program will probably have to be abandoned for the present." He added that "it will be recalled that in exchange for German assistance in marketing these railway bonds held by the Reparations Commission the French were to agree in principle to speedy evacuation of the Rhineland, to early substitution of League control for allied control of armaments in Germany, the return to Germany of the Sarre Basin before the time set in the treaty and other advantages. It now appearing that the early sale of the bonds for the purpose of financial aid to the French Government must, for the present, be set aside, the question arises, at least in French minds, as to what else Germany may offer to obtain the concessions she desires. It is being stated that, after all, the bond sale project was suggested by Dr. Stresemann to M. Briand, and that it is only logical that if he cannot pay the price he should try to pay another."

In a special wireless message from Berlin to the New York "Times" on Oct. 22 it was asserted that "the German Government made it plain to-day that the policy of European rapprochement inaugurated at Locarno and expanded at Thoiry would not be checked by the recent friction over the proposed sale of German Railway bonds." Announcement was made in a special Berlin cable message to the New York "Herald Tribune" on Oct. 27 that "utmost astonishment is expressed in official circles here over reports to Berlin via London and Paris that the Washington Government is in an 'ill humor' concerning Germany's attitude on the Thoiry negotiations. With the utmost emphasis, assertion is made in these quarters that nothing is known here about the State Department's alleged displeasure with the German Government nor has anything been received from the German Ambassador on 'hints' that he has been given to understand that Germany would lose most by a continuance of the Thoiry policy."

The Communist Party in Russia has taken further steps to remove Leon Trotzky, Zinovieff and Kameneff—Opposition leaders—altogether from its ranks. The latest act was to remove them from membership in the party's Political Bureau. The New York "Times" correspondent in Moscow cabled on Oct. 25 that "future developments will depend upon the success or failure of the Administration's economic policy. Ninety per cent of Russia's economic troubles may be summed up in the phrase—lack of money. It therefore is not unreasonable to suppose that the pursuit of it as a 'national' policy would lead to the logical conclusion of trying to reach a practical working agreement with foreign capital. The Administration believes it can do this for business purposes without the abandonment of State control." Announcement was made in an Associated Press dispatch from Moscow on Oct. 26 that "the Communist Party of the Soviet Union to-day elected the Praesidium of 37 members. They included Stalin, Rykoff, Bukharin, Tomsky, Voroshiloff, Molotoff, Kuibysheff and Kalinin. Delegates to the number of 817, including 36 representatives of foreign Communist international sections, were present. Trotzky, Zinovieff, Kameneff and the other deposed leaders were the object of much attention. M. Bukharin presented an exhaustive report on the international situation, while M. Stalin has yet to report on the internal position of the party and the status of the Opposition. Subjects for discussion are the Soviet foreign policy, especially in China and colonial countries, and the existing economic situation. The conference will insist upon the retention by the Government of its foreign trade monopoly."

Proof continues to come to hand of a better realization on the part of radical political leaders in Russia of the futility of trying to put their ideas in practice with respect to international affairs. The latest evidence of this kind appeared in a special

Moscow dispatch to the New York "Evening Post" last night. It stated in part: "Although the fifteenth conference of the Communist Party, which is in session here to-day, is only preparatory to the party congress, tradition makes its decisions binding, and in view of the situation which has developed within the party it is held to have special significance this year. From the make-up of the presiding board—not a single member of the Opposition is included—and from the tenor of the speeches thus far made it seems clear that the Communist Party means to pursue internally a policy of industrial expansion and economic reconstruction with the special view of placating the peasants with goods as cheap as possible. It renounces for the present or the immediate future any hope of successful revolutionary activities abroad."

It has been indicated in cable dispatches from Warsaw that Marshal Pilsudski was about to proclaim himself King, although Dictator already. In a wireless message from Warsaw to the New York "Times" on Oct. 26 it was said that "among Marshal Pilsudski's followers, who expected a sudden appearance as King, there is the belief that his assumption of the throne awaits the dissolution of Parliament which will meet soon for a farewell session." It was added that, "as the dissolution of Parliament is in the hands of Pilsudski's President, it is said the time will be opportune for him then to extend the supreme dictatorship which he now enjoys by assuming the title of Joseph I." It seems that recently Pilsudski attended "a banquet of seventy of the most loyal royalists on the estate of Prince Albrecht Radziwill at Nieswiez, in Northeast Poland." The New York "Times" Warsaw representative also said that "rumors have been abroad for two months that Marshall Pilsudski desired a regency, and aside from the Socialists there has been no objection, chiefly because the average citizen is not interested in politics and prefers to have a Government of more durable quality than heretofore. Now that Marshal Pilsudski has held a conference with the leading Monarchists there is a belief that the actual declaration of the monarchy will be delayed until the Sejm has been thoroughly eliminated, when there will be further extension of Marshal Pilsudski's power, which is now almost absolute."

The rumors as to what changes might take place in the form of Government continued. In a wireless message from Warsaw to the New York "Times" on Oct. 27 it was stated that, "whether or not Marshal Pilsudski has designs on the Polish crown, a conference is being held to-night by Marshal Pilsudski, President Moscicki, Vice-Premier Bartel and Minister of Justice Mesetowicz, an ultra-Right member from Vilna's hostile border territory, with the reputed purpose of changing the form of the Polish Government." The correspondent also said that, "while it is not known what course the change will take, whether to a kingdom or a form of regency, or merely a further curtailment of Parliamentary power, a storm has arisen in all parties, which declare they have all been deserted by the dictator, who has used them in turn, then thrown them down, the latest being the Socialists, whom he wooed at the recent Sejm meeting for the purpose of effecting passage of the budget."

Announcement was made in an Associated Press dispatch from the Polish capital, also on Oct. 27, that "the Ministry of Finance has formed a special committee to analyze the report of Professor Edwin W. Kemmerer, the American economist, who made a study of Polish finances. The committee will work out a program for the enforcement of Professor Kemmerer's recommendations. The Ministry to-day decided to publish the report."

The British Imperial Conference has continued its sessions in London. No important announcements were made early in the week. Most of the sessions were secret. On Oct. 25 foreign relations as surveyed by Austen Chamberlain, Foreign Secretary, a few days before, "were discussed by the Prime Ministers of Canada, Australia, New Zealand and Newfoundland by Kevin O'Higgins for the Irish Free State and by Lord Winterton for India." Announcement also was made that "a Prime Minister's committee was formed to-day to examine questions affecting imperial relations and other committees were constituted to deal with nationality, overseas settlement, research, communication, British policy in the Antarctic and other matters. The Economic Committee of the conference discussed industrial standardization with special reference to the proposal to establish Empire standards."

In a special London wireless message to the New York "Times" on Oct. 26 it was stated that "the Imperial Conference was able to announce to-day one definite result of its present labors. This was its settlement of the questions of the new Fiji-Canada cable, laid by the Pacific Cable Board, which has been in dispute many months between Canada and Australia and New Zealand." It was made known also that "through the settlement the British Government will introduce legislation to reorganize the Cable Board and change the method of the appointment of the Chairman. Provision will be made to dispose of future annual surpluses. Relations between the Board and the partner Governments will be more clearly defined."

According to a London cable dispatch last evening, "there is a likelihood the Imperial Conference will not make any definite pronouncement on the acceptance by the Dominions of the Locarno security pact, of which Great Britain is a signatory. There may be a general resolution recognizing the spirit of Locarno and the good effect it has had on European relations, but beyond that it is doubtful if sufficient unanimity of view can be secured among the dominion representatives."

Still further efforts have been made to bring the strike of British coal miners to an end, but without marked success. Speaking in the House of Commons on Oct. 26, "Prime Minister Baldwin killed any hope of further Government intervention in the coal strike when Parliament met this afternoon in special session to renew the emergency regulations necessitated by the strike. He confessed the failure of all previous Government attempts to bring peace between the warring mine owners and coal miners and made it quite clear that they must find a way to peace unaided by himself and his colleagues in the Cabinet." The Prime Minister was quoted directly as saying that "I do not think anything could do more harm, after so many failures, than to enter into

still further negotiations where you see no prospect of a settlement. We have made several offers and they have all been turned down. I admit, of course, that this is failure—failure to that extent. Of course, it is a very tragic state of things. At the same time it is very wrong to mock people with false hopes and suggestions that negotiations are in progress, when, in fact, there are none, and our proposals having been rejected the Government has no further proposals to make."

The Government having admitted its inability to settle the strike, it was claimed in a special London dispatch to the New York "Herald Tribune" on Oct. 27 that "intervention in the British coal strike by prominent industrial and financial interests was foreshadowed to-night in reports that a large private loan was under consideration to tide the mining industry over the crisis. Disheartened by the Government's frank admission of failure in its efforts to bring about peace, business leaders realize that the nation faces a grave economic depression unless the tie-up, which will have lasted six months on Friday, is brought to an end." The correspondent admitted that "the suggestion that a private loan may be floated through the Bank of England for a virtual subsidy of the mines could not be confirmed to-night, but it is known that Lord Derby, Lord Londonderry and Montagu Norman, Governor of the Bank of England, are attempting to work out a new basis for negotiations. They are said to have drawn up a memorandum embodying a plan of settlement." Nothing further regarding this proposal appeared in subsequent cable dispatches received up to the time of going to press. It was stated in a London cable message yesterday afternoon, however, that "representatives of the Trade Union Congress Council conferred with Chancellor of the Exchequer Churchill to-day to discuss results of the Council's previous meeting with leaders of the idle British miners. J. H. Thomas, a former member of the Cabinet, headed the labor delegation. The Council met with miners' leaders to seek authority to continue the negotiations with the Government for a settlement of the mining dispute."

The question of placing restrictions by the British Government on exportations of crude rubber has come to the front again. There had been rumors that the restrictions that had been in effect under the Stevenson plan would be removed. This proved to be incorrect. Instead of removing the restrictions, on complaints from America, the Government decided to continue them for another year from Nov. 1 next, with some changes. The London correspondent of the New York "Evening Post" asserted in a dispatch on Oct. 25 that, "not only has the restriction not been removed; it has been intensified. The minimum price at which the entire output was for the following quarter will be increased 10%. But reality it will be 48 cents for the coming twelve months. Under the Stevenson scheme it was to be 30 cents, at which figure it was admitted British growers would make a legitimate profit. The new regulations rule, that if for any quarter of the year the price of rubber averages over 48 cents the export for the following quarter will be increased 10%. But there will be no export permitted over 100% of the so-called standard. The result of this is that there is little protection for the consumer beyond some future rubber supply outside of British control. For if it comes to a rubber shortage like last year's, high prices are likely to remain unless the rubber control can be released quickly at more than the nominal 100% rate. In some quarters the new regulations are regarded as an answer to efforts of cotton growers to store crops in America with the help of Government loans to keep up the price."

The situation was further outlined in an Associated Press dispatch from London on Oct. 24. The correspondent said that, "by the Government's proposed new rubber regulations, restricting the export of rubber from Ceylon and Malaya for another year, which will be put into effect, Nov. 1, it seems extremely probable that the coming quarter will see a reduction of the exportable allowance from the present 100% to 80%. The average price of rubber for the current quarter up to Oct. 20 was 20.149 pence, and the average must exceed 21 pence, to justify continuance of the 100% standard of exports. Apprehension had existed in the market that the Colonial Office might decide to cancel unused export coupons as a further measure of restriction. These unused coupons will permit the export of an additional 40,000 tons, and, as they have not been interfered with, it is estimated that they will counteract a 20% reduction in the exportable allowance for another six months. It is recognized in the rubber market in London that the situation is still largely dominated by the United States and depends to some extent on the growth of the motor industry there, and that, although in the current year production exceeded consumption by roughly 40,000 tons, such surplus would not be rated too high if the American motor industry developed as expected."

According to cable advices from London, the Bank of Norway (Norges Bank) has reduced its discount rate, this time to 4½%, from 5%, the figure to which it had been reduced Sept. 13. Aside from this change, official discount rates at leading European centres remain as heretofore at 7½% in Paris; 7% in Belgium, Italy and Austria; 6 %in Berlin; 5½% in Denmark; 5% in London and Madrid; 4½% in Sweden and 3½% in Holland and Switzerland. Open market discount rates in London were steady and without change; short bills closed at 4 11-16@4¾%, unchanged; and three months' bills at 4 13-16%, the same as last week. Call money in London was firm early in the week, touching 4⅛%, but closed at 3⅝%, against 3¾% a week ago. In Paris and Switzerland the open market discount rate has not been changed from 7½% and 2 11-16%, respectively.

The Bank of England in its latest weekly statement reported a shrinkage in its gold holdings to the amount of £1,280,883, while the reserve of gold and notes in the banking department fell £1,638,000, as a result of expansion in note circulation of £357,000. Moreover, the proportion of reserve to liabilities declined to 27.32%, from 27.98% a week ago. For the week ending Sept. 22 it stood at the high point of the year, namely 30.28%. Last year the ratio was 23.75% and in 1924 at 19¾%. Declines occurred in the deposit items; public deposits fell £2,446,000 and "other" deposits £494,000. Loans on Government securities increased £1,390,000, but loans on other securities dropped £2,678,000. The Bank's gold stock now is £152,814,940, which compares with £150,282,-

799 in 1925 and £128,484,503 a year earlier (before the transfer to the Bank of England of the £27,000,000 gold formerly held by the Redemption Account of the Currency Note Issue). Reserve aggregates £34,496,000, against £27,054,034 last year and £24,642,328 in 1924. Loans amount to £70,096,000. Last year the total was £74,148,870 and in 1924 £76,203,838, while note circulation is £139,069,000, as against £142,978,765 and £123,592,175 one and two years ago, respectively. The 5% official discount rate that has been in effect so long, remains unchanged. Clearings through the London banks for the week were £744,398,000, as against £798,939,000 a week ago and £809,302,000 last year. We append comparisons of the different items of the Bank of England return for a series of years:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1926. Oct. 27.	1925. Oct. 28.	1924. Oct. 29.	1923. Oct. 31.	1922. Nov. 1.

a Includes, beginning with April 29 1924, £27,000,000 gold coin and bullion previously held as security for currency note issues and which was transferred to the Bank of England on the British Government's decision to return to the gold standard

b Beginning with the statement for April 29 1925, includes £27,000,000 of Bank of England notes issued in return for the same amount of gold coin and bullion held up to that time in redemption account of currency note issue.

According to the weekly statement of the Bank of France, of date Wednesday (Oct. 27), a further reduction of 410,168,000 francs occurred in note circulation, therefore, bringing the total of that item down to 54,578,187,325 francs, which, however, compares with 46,678,543,050 francs for the corresponding period in 1925 and with 40,528,502,770 francs the year previous. Advances made to the Government by the Bank also showed a reduction. The State repaid 400,000,000 francs during the week, and total advances to the State by the Bank now aggregate 35,750,000,000 francs. For the same time in 1925 and 1924 the Government's indebtedness to the Bank amounted to 29,950,000,000 francs and 22,700,000,000 francs, respectively. A small gain of 400 francs in gold was reported. Total gold holdings now stand at 5,548,789,850 francs in comparison with 5,547,557,742 francs last year and 5,544,430,239 francs in 1924. Other changes in the Bank's weekly report were: Silver holdings increased 23,000 francs, bills discounted 661,537,000 francs, treasury deposits 3,530,000 francs, and general deposits 693,032,000 francs. Trade advances decreased 53,926,000 francs. Comparisons of the various items in this week's return with the statement of last week and with corresponding dates in both 1925 and 1924 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

Gold Holdings—	Changes for Week. Francs.	Status as of Oct. 27 1926. Francs.	Oct. 29 1925. Francs.	Oct. 30 1924. Francs.

The German Reichsbank reported another decrease in note circulation at the same time that gold holdings indicated an additional gain of 26,624,000 marks. Liability figures indicate that notes in circulation were reduced 147,210,000 marks, although there were increases in other maturing obligations (134,334,000 marks) and in other liabilities (28,618,000 marks). On the assets side there were declines of 20,202,000 marks in bills of exchange and checks and 23,715,000 marks in advances. Reserve in foreign currencies fell 24,851,000 marks and deposits held abroad decreased 6,262,000 marks. Expansion occurred in silver and other coins 7,319,000 marks, investments 40,000 marks and other assets 56,900,000 marks. Holdings of notes on other banks increased 3,627,000 marks. The Bank's gold holdings now stand at 1,679,241,000 marks, in comparison with 1,204,718,000 marks a year ago and 630,502,000 marks in 1924. Note circulation aggregates 2,824,529,000 marks. Last year it stood at 2,395,209,000 marks.

The Federal Reserve banks' weekly statements that were issued at the close of business on Thursday revealed moderate expansion in rediscounting and in trading in the open market, in contrast with the reductions reported a week earlier. Gold holdings, on the other hand, were somewhat lower. According to the report for the combined System, rediscounting of bills secured by Government paper increased $26,100,000 and rediscounts of "other" bills $19,200,000, so that total bills discounted for the week rose $45,300,000. Holdings of bills purchased in the open market increased $14,700,000. Total bills and securities (earning assets) showed an expansion of $53,200,000, while deposits increased $23,600,000. Gold reserve fell $2,500,000. The New York bank lost $13,000,000 gold. Rediscounting of all classes of paper expanded about $23,200,000. Total bills and securities were augmented $29,100,000. Deposits gained $12,500,000. The amount of Federal Reserve notes in actual circulation showed comparatively slight changes. Locally there was a falling off of $1,400,000; for the System a nominal increase of $700,000 occurred. Member bank reserve accounts expanded $3,400,000 for the banks as a group and $9,300,000 at New York. Larger deposits, in combination with lessening of gold stocks, caused a reduction in the reserve ratios. For the System as a whole the ratio of reserve declined 0.5%, to 73.6%, while at New York there was a drop to 83.5%, or 1.9% off.

Last Saturday's statement of the New York Clearing House banks and trust companies reflected the Oct. 15 financing operations and showed a loss in surplus reserve of over $50,000,000, not only wiping out the previous week's surplus, but leaving a deficit of more than $23,000,000. Loans, however, were reduced $51,235,000, and net demand deposits declined $34,127,000, to $4,333,808,000, while time deposits fell $1,392,000, to $589,698,000. The demand deposit total excludes $33,175,000 in Government deposits, a falling off in the latter item of $12,799,000 for the week. Other lesser changes included a decline of $631,000 in cash in own vaults of members of the Federal Reserve Bank, to $46,823,000, although this does not count as reserve. Reserves of State banks and trust companies in own vaults declined $763,000, but the reserves kept by these institutions in other depositories increased $347,000. There was another decrease in the reserves of member banks in

the Federal institution, this time to the amount of $54,129,000, which counterbalanced the drop in deposits and brought about a shrinkage in surplus reserve of $50,012,450, which after eliminating last week's excess reserve of $26,032,990, left in its place a deficit in reserve of $23,979,460. The above figures for surplus are on the basis of legal reserve requirements of 13% against demand deposits for member banks of the System, but do not include $46,823,000 cash in vault held by these member banks on Saturday last.

Call money on the New York Stock Exchange this week has ruled practically at 4½%. A quotation of 4% in the so-called outside loan market has been reported. Time money has shown a slightly easier tone, with the demand comparatively light. The expected flurry in demand loans incident to the end of the month preparations for interest and dividend disbursements on Nov. 1 did not materialize. This was attributed to the surprisingly large supply of loanable funds. The plentifulness of money was surprising in view of the continued activity in business. Car loadings for the week ended Oct. 16 totaled over 1,200,000 cars, another new high record in the history of American railroads. These big figures were announced in the face of further reference by the "Iron Age" to a slackening in the orders for steel from automobile manufacturers, and trustworthy statements that the ingot production of the United States Steel Corporation continues to decline. The surprisingly large earnings of the United States Steel Corporation, General Motors Corporation and the Bethlehem Steel Corporation for the Sept. 30 quarter and the first nine months of this year attested to the high degree of prosperity in this country during the first three-quarters of 1926. Railroad earnings for September, while somewhat irregular, generally were larger than for the corresponding month of last year. The Atchison reported another big increase in both its gross and net for that month. The declaration of an extra cash dividend of 3% by the Norfolk & Western and the increase in the Pennsylvania dividend from 6 to 7% a year called special attention also to the prosperity of the railroads. The offerings of new securities have been on a large scale. Most conspicuous among the foreign offerings was that of $50,000,000 30-year 7% external bonds of the Belgian Government by a syndicate headed by J. P. Morgan & Co. This was the American half of the issue floated to stabilize the currency of that country.

Dealing with specific rates for money, call loans this week remained motionless, the only rate quoted being 4½%, which was the figure at which all funds on call were negotiated on each of the five business days of the week—Monday, Tuesday, Wednesday, Thursday and Friday. This compares with a range last week of 4@5%. For fixed-date maturities a general easing was noted on freer offerings, which eventually resulted in lowering quotations to 4¾% for sixty and ninety days and 4⅞% for four, five and six months' money, as compared with a range of 4⅞@5% for all periods last week. The inquiry, however, was narrow, so that trading was dull and lifeless.

Commercial paper rates have not been changed from 4½% for four to six months' names of choice character, with names less well known at 4¾%, the same as heretofore. Here, also, however, the undertone of the market was easier. Out-of-town banks were in the market, but offerings continue light; hence the volume of business transacted was of moderate proportions. New England mill paper and the shorter choice names are being dealt in at 4½%, unchanged.

Banks' and bankers' acceptances were steady on a small volume of business. The supply of prime paper was not large, but the inquiry was also light and the market remained inactive and devoid of new feature. For call loans against bankers' acceptances the posted rate of the American Acceptance Council remains at 4%. The Acceptance Counc makes the discount rate on prime bankers' acceptances eligible for purchase by the Federal Reserve banks 3¾% bid and 3⅝% asked for bills running 30 days; 3⅞% bid and 3¾% asked for 60 days; 4% bid and 3⅞% asked for 90 days; 4⅛% bid and 4% asked for 120 days, and 4¼% bid and 4⅛% asked for 150 and 180 days. Open market quotations follow:

SPOT DELIVERY.

	90 Days.	60 Days.	30 Days.
Prime eligible bills	4@3⅞	3⅞@3¾	3¾@3⅝

FOR DELIVERY WITHIN THIRTY DAYS.

Prime eligible bills	3¾ bid
Eligible non-member banks	3¾ bid

There have been no changes this week in Federal Reserve Bank rates. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

DISCOUNT RATES OF FEDERAL RESERVE BANKS IN EFFECT OCT. 29 1926.

FEDERAL RESERVE BANK.	Paper Maturing— Within 90 Days. Com'rcial Agric'l & Livestock Paper. n.e.s.	Within 90 Days. Secured by U. S. Govern't Obligations.	Within 90 Days. Bankers' Acceptances. * Including bankers' acceptances drawn for an agricultural purpose and secured by warehouse receipts, &c.

Seasonal pressure of commercial offerings continued to depress sterling exchange values so that there was a further slight decline in the price level, bringing demand bills at one time to as low as 4 84 3-16, which is very close to the gold export shipping point. However, movements were narrow as ever and trading inclined to be perfunctory in character. In the initial transactions, demand sold at 4 84⅜. On Monday a small accumulation of cotton and grain bills over the week-end drove the quotation down ⅛c., but by Tuesday the market had steadied and there was a recovery to 4 84⅜, with the bulk of the business put through at 4 84¼. Very little in the way of actual news transpired. Large operators are still turning their attention elsewhere, and routine business is strictly of a hand-to-mouth variety. While bankers are not particularly disposed to venture upon predictions as to the future of sterling, the opinion seems to prevail that sterling will not be permitted to go much below current levels. Should the pressure upon the market increase very materially, it is believed that adequate support will be forthcoming to prevent serious recessions. The

British coal strike continues to drag wearisomely along and must be reckoned with as an unfavorable market factor, more especially as coal bills are much in evidence on the London market and have caused weakness in quotations from that centre. Cotton and grain bills have been appearing locally in liberal volume and are expected to play a prominent part in market calculations for some time to come. The ability of sterling to hold its own despite the many untoward influences at present prevailing is at tributed by some to the trend of the world money market. Firmness in the London money market as against ease both here and on the Continent would explain, partly, the ease with which all demands against autumnal trade are being met.

Referring to quotations in greater detail, sterling exchange on Saturday last was not changed from 4 84 5-16@4 84⅜ for demand and 4 84 13-16@4 84⅞ for cable transfers; trading was dull and featureless. On Monday a small week-end accumulation of commercial offerings sent prices down fractionally, demand ranging between 4 84 3-16 and 4 84 9-32 and cable transfers at 4 84 11-16@4 84 25-32. Firmer conditions prevailed on Tuesday and there was a recovery to 4 84¼@4 84⅜ for demand and 4 84¾@ 4 84⅞ for cable transfers. Wednesday's market was fairly steady, but dull and narrow; demand bills sold at 4 84¼ (one rate) and cable transfers at 4 84¾. Inactivity characterized trading on Thursday and quotations ranged at 4 84¼ and 4 84 5-16 for demand and 4 84¾@4 84 13-16 for cable transfers. On Friday a firm tone, prevailed but quotations were not changed; hence demand again sold at 4 84¼@4 84 5-16 and cable transfers at 4 84¾@ 4 84 13-16. Closing quotations were 4 84¼ for demand and 4 84¾ for cable transfers. Commercial sight bills finished at 4 84⅛, sixty days at 4 80⅜, ninety days at 4 78¼, documents for payment (sixty days) at 4 80¼, and seven-day grain bills at 4 83½. Cotton and grain for payment closed at 484⅛.

As to gold shipments, no engagements were reported except from Japan. The Japanese Financial Commission announces that another $2,000,000 has left Yokohama for New York via S. S. Tenyo Maru. The Bank of England reported receipts of gold from South America to the amount of £250,000 in sovereigns, and sold approximately £1,100,000 in bars and exported small amounts in sovereigns to Holland, Switzerland, Spain and India.

In the Continental exchanges the outstanding features of the week have been the sensational fluctuations in Italian lire and the definite stabilization of Belgian exchange. Cable advices from Brussels early this week stated that a new gold currency, to be known as the Belga with a gold value of .209211 grams had made its appearance officially and would hereafter replace the old Belgian franc upon the leading exchanges of the world. The par value has been set at 13.90 per belga, while business was transacted at or near 13.91¾. This represents a value equal to about five times that of the old franc. It is to be utilized for foreign trade purposes solely, the old franc being retained in circulation internally. In English currency, the belga or ducat gold coin is worth 35 to the pound sterling. The pronounced success that attended flotation of the first portion of the new Belgian loan in this market is thought to have been due in some measure at least to the fact that arrangements had been completed for a stabilization program that included introduction of a new and more convenient currency unit. Banking opinion at first was said to be entirely favorable to the move at this time, since it was claimed that Belgium's finances are now upon a thoroughly sound basis, and that ample credits are available for the protection of the new unit. Moreover, internal political complications which were present at the time of Belgian's previous attempt at stabilization are now completely lacking, while the fact that the belga is on a solid gold exchange basis instead of being stabilized arbitrarily should prevent speculative attack. The fact that French and Italian currencies are both on the upgrade and profiting by deflationary measures has probably had not a little to do with making this new venture practicable. However, before the end of the week difficulties arose over the bookkeeping complications said to have arisen as a result of the necessity of quoting in belgas and at the same time keeping Belgian balances in francs, and the outcome was that practically all of the leading banks and foreign exchange brokers declared their intention of resuming quotations of Belgian exchange in francs, in preference to the newly created belga. Just what is to be the ultimate effect of this determination could not be ascertained.

Aside from the launching of the new Belgian unit upon foreign marts, there was nothing particularly new or interesting in the leading European currencies. Considerable interest was aroused by the violent up-and-down movements in lire, but it was conceded that underlying causes for the fluctuations were essentially the same as in the recent past. In the early dealings good buying developed, partly of speculative origin and partly in sympathy with developments in Belgium, and this sent the quotation up some 15 points, to 4.51¼. Later on, Government selling, also profit-taking sales, intervened, and there was a sharp drop to 4.24, though the close was at 4.32. Most of the selling emanated from Rome and London. French francs, while not especially active, were well maintained and rose another 15 or 16 points, touching 3.16½. In the late dealings publication of an excellent Bank of France statement had a stimulating influence upon the quotation. Reichsmarks fluctuated moderately, opening at 23.77, then sagging off to 23.75; but Austrian schillings remain unchanged. Greek exchange was steady at around 1.21. No changes of moment occurred in the minor group of exchanges, although gains were shown in Rumanian lei and in Polish zloties.

The London check rate on Paris closed at 154.15, compared with 163.05 a week ago. In New York, sight bills on the French centre finished at 3.15½, against 3.00; cable transfers at 3.16½, against 3.01, and commercial sight bills at 3.14½, against 2.99 last week. The new Antwerp belga closed at 13.90¾ for checks and at 13.91 for cable transfers; comparisons with the previous week on the old basis are not practicable. Reichsmarks finished at 23.77¾ for checks and at 23.79¾ for cable transfers, against 23.76½ and 23.78½ the previous Friday. Austrian schillings closed the week at 14⅛, unchanged. Lire closed at 4.32 for bankers' sight bills and at 4.33 for cable transfers. This compares with 4.33 and 4.34 a week earlier. Exchange on Czechoslovakia finished at 2.96⅜ (unchanged); on Bucharest at 0.56½, against 0.54; on Poland at 11.50, against 11.25, and on Finland at 2.52¼

(unchanged). Greek exchange closed at 1.21 for checks and at 1.21½ for cable transfers, in comparison with 1.19 and 1.19½ a week earlier.

As to the neutral exchanges formerly so-called, kaleidoscopic changes in quotations on Norwegian exchange, also considerable backing and filling in Spanish pesetas constituted the most noteworthy events of an otherwise rather dull week. Speculative activities were largely responsible for the fluctuations in the krone, which opened at 25.02, declined to 24.76½ and then rallied to 24.98. Action of the Norges Bank in lowering its discount rate was said to be for the purpose of preventing or discouraging further advances. Some disagreement is said to have arisen between the Norwegian authorities and private business interests over certain transactions in krone contrary to agreements with the Norwegian Bank. Guilders remain in their former rut, with the trading rate around 39.96. Swiss francs were slightly easier. Danish kronen were steady, but Swedish krona again lost a point or so on dull trading. Spanish pesetas moved eratically, veering from 15.03 to 15.25; back to 15.05, then up again, to 15.13, with the close at 15.11. Speculation on reports that a new Spanish internal loan was to be floated, was responsible for the changes above noted.

Bankers' sight on Amsterdam closed at 39.98, against 39.96¾; cable transfers at 40.00, against 39.98¾, and commercial sight bills at 39.94, against 39.92¾ a week ago. Closing rates on Swiss francs were 19.27½ for bankers' sight bills and 19.29½ for cable transfers, in comparison with 19.29½ and 19.30½ a week earlier. Copenhagen checks finished at 26.54 and cable transfers at 26.58, against 26.56 and 26.60. Checks on Sweden closed at 26.67½ and cable transfers at 26.71½, against 26.69½ and 26.73½, while checks on Norway finished at 24.93 and cable transfers at 24.97, against 25.09 and 25.13 the previous week. Spanish pesetas closed at 15.11 for checks and 15.13 for cable remittances. A week ago the close was 15.09 and 15.11.

South American exchange ruled quiet and practically unchanged. Argentine checks were firmly held and closed at 40.75 and cable transfers at 40.80, (unchanged from last week). Brazilian milreis, on the other hand, continue to fluctuate uncertainly, ranging from 14.10 to 13.70 and closing at 13.75 for checks and 13.80 for cable transfers, against 13.90 and 13.95 a week ago. This is said to reflect the uneasiness felt over the rate at which Brazilian currency is to be stabilized when President-elect Luis assumes office. Utterances on this subject have been vague and unsatisfactory. Chilian exchange remained strong and finished at 12.10, unchanged, while Peru was firmer, though closing at 3 61 (unchanged from the week preceding).

A general diminution in the feverish activity that has marked trading in Far Eastern exchange was noted and price levels responded to the recovery in silver the metal, by advances over the recent lows. Hong Kong closed at 47 5-16@47⅜, against 46 7-16 @47¼; Shanghai at 58⅝@59¼, against 57⅛@57½; Yokohama, 49@49⅛, against 48⅞@49; Manila, 49⅞@50 (unchanged); Singapore, 56¼@56⅜ (unchanged); Calcutta, 36¼@36⅜ (unchanged), and Bombay, 36¼@37⅜ (unchanged).

Pursuant to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers in the different countries of the world. We give below a record for the week just past:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922, OCT. 23 1926 TO OCT. 29 1926, INCLUSIVE.

Country and Monetary Unit.	Noon Buying Rate for Cable Transfers in New York. Value in United States Money.					
	Oct. 23.	Oct. 25.	Oct. 26.	Oct. 27.	Oct. 28.	Oct. 29.

* On Oct. 26 1926 the Belgian Government adopted the "belga" as their unit of currency. A belga is equal to five francs.

The New York Clearing House banks, in their operations with interior banking institutions, have gained $5,782,137 net in cash as a result of the currency movements for the week ended Oct. 28. Their receipts from the interior have aggregated $7,151,137, while the shipments have reached $1,369,000, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week Ended October 29.	Into Banks.	Out of Banks.	Gain or Loss to Banks.
Banks' interior movement	$7,151,137	$1,369,000	Gain $5,782,137

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, Oct. 23.	Monday, Oct. 25.	Tuesday, Oct. 26.	Wednesd'y, Oct. 27.	Thursday Oct. 28.	Friday, Oct. 29.	Aggregate for Week.
$	$	$	$	$	$	$
81,000,000	89,000,000	101,000,000	88,000,000	88,000,000	90,000,000	Cr. 535,000,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, reflect only a part of the Reserve Bank's operations with the Clearing House institutions, as only the items payable in New York City are represented in the daily balances. The large volume of checks on institutions located outside of New York are not accounted for in arriving at these balances, as such checks do not pass through the Clearing House but are deposited with the Federal Reserve Bank for collection for the account of the local Clearing House banks.

The following table indicates the amount of bullion in the principal European banks:

Banks of—	Oct. 28 1926.			Oct. 29 1925.

The Power of the President over Removals from Office.

The decision of the Supreme Court in the Myers case, announced by Chief Justice Taft on Monday, puts an end, as far as a judicial ruling can do so, to a controversy which has been carried on at intervals ever since the first session of the first Congress, in 1789. Fortunately for the effect of the decision in settling a point of constitutional interpretation and political practice, the facts in the case are simple. Frank S. Myers, postmaster at Portland, Ore., was removed from office in 1920 under an Executive order issued by President Wilson. Myers contested the legality of the order on the ground that, by an Act of 1876, postmasters of the first class were subject to removal "by and with the advice and consent of the Senate," and refused to vacate his office, whereupon he was ejected. The United States Court of Claims ruled against his claim to back salary, and the case was appealed to the Supreme Court, where it was regarded as of sufficient importance to justify the designation of Senator Pepper of Pennsylvania as a "friend of the Court" for the purpose of presenting the Congressional point of view. The argument of Senator Pepper was, of course, in opposition to the claim of right in the President to remove Myers in view of the provision of the statute.

The Constitution is silent on the question of removals from office. It provides for the appointment of officers by and with the advice and consent of the Senate, and gives to Congress the right to vest the appointment of "inferior officers" in the President, or in the courts, or in heads of departments, but how or by whom an officer once appointed shall be removed it does not say. A debate on the question in the first Congress, when the establishment of executive departments was being considered, resulted in a tacit recognition of the constitutional propriety of removals by the President without consulting the Senate, although an affirmative vote in the Senate was obtained only by aid of the casting vote of the Vice-President, John Adams. The position thus indirectly assumed, backed as it was by the presence in Congress of many of the men who had sat in the Constitutional Convention, has served ever since as authorization for such removals by presidential action whenever occasion for appealing to it has arisen. Mainly for political rather than constitutional reasons, however, the soundness of the Congressional interpretation has continued to be challenged, and it is perhaps on that account that the Supreme Court, in the words of Chief Justice Taft, "has studiously avoided deciding the issue until it was presented in such a way that it could not be avoided."

In the elaborate opinion rendered on Monday, one of the longest ever delivered by the Supreme Court, the doctrine adhered to by the Presidents from the beginning of the Government, and exercised in the Myers case by President Wilson, has been at last judicially affirmed. "The power of removal," Chief Justice Taft declared, "is incident to the power of appointment, not to the power of advising and consenting to appointment, and when the grant of the executive power is enforced by the express mandate to take care that the laws be faithfully executed, it emphasizes the necessity for including within the executive power as conferred the exclusive power of removal. . . . There is nothing in the Constitution which permits a distinction between the removal of the head of a department or a bureau, when he discharges a political duty of the President or exercises his discretion, and the removal of executive officers engaged in the discharge of their other normal duties. The imperative reasons requiring an unrestricted power to remove the most important of his subordinates in their most important duties must, therefore, control the interpretation of the Constitution as to all appointed by him." Until Congress shall vest the appointment of postmasters in the head of the Post-Office Department, "they will be subject to removal by the President alone, and any legislation to the contrary must fall as in conflict with the Constitution."

Of the objections urged by Associate Justice McReynolds, one of the three Justices who dissented from the decision of the majority, two in particular invite comment. "The serious evils," said Associate Justice McReynolds, "which followed the practice of dismissing civil officers as caprice or interest dictated, long permitted under Congressional enactments, are known to all. . . . Nothing short of language clear beyond serious disputation should be held to clothe the President with authority wholly beyond Congressional control arbitrarily to dismiss every officer whom he appoints except a few judges." With all respect to the learned Justice, the language seems unduly strong and the argument somewhat beside the mark. In so far as what is said applies to the deplorable treatment of the civil service from which the country suffered for some years after the Civil War, it is a proper reminder of an evil against whose recurrence all needful safeguards should be maintained. The substance of the criticism, however, seems to be political rather than constitutional, and political questions are outside the jurisdiction of the Supreme Court. Moreover, it has long been an accepted canon of constitutional interpretation that a power clearly implied by the Constitution is not to be withheld merely because it may be abused, and that improper motives, among which would certainly seem to be included caprice and arbitrariness, are not to be imputed where the constitutional authority is clear. To suggest that the President, if unrestrained by the necessity of acting with the advice and consent of the Senate, may be governed by caprice or act in an arbitrary manner, not only conjures up a situation of which the Administration of Jackson affords the only important illustration thus far, but seems also to overlook the fact that such misconduct, if it occurred, would be political rather than constitutional, and should properly be left to political condemnation or punishment.

A second objection urged by Associate Justice McReynolds will probably be thought by many more weighty. "To declare the President," it is said, "vested with indefinite and illimitable executive powers would extend the field of his possible action far beyond the limits observed by his predecessors." If such were to be the outcome of the decision in the Myers case, the decision would certainly have to be looked upon with regret. No more in the presidency than in any other department of the Government is an indefinite and illimitable extension of power to be desired. Over against this possible danger, on the other hand, is a concrete situation not safely to be ignored. The mounting list of commissions, bu-

reaus and boards which have been created within the Federal service in recent years has resulted in the establishment of a large number of administrative bodies over whose operations the President has in practice only a vague or indirect control. President Coolidge has protested earnestly against a system which multiplied administrative agencies whose members the President, by and with the advice and consent of the Senate, appoints, but which, once established, are largely independent of Executive supervision and yield only to statutory regulation by Congress. It is not a desirable system, and it is not safe. There is no proper place in our scheme of government for a series of administrative bodies, in part executive and in part essentially legislative, whose policies may at any time run counter to those of the President, yet over whose personnel the President has hitherto lacked a clear authority.

This situation, unfavorable to good administration, the recent decision of the Supreme Court ought materially to improve. Hereafter, any official whom the President appoints the President may also constitutionally remove at his discretion, any law of Congress to the contrary notwithstanding. Undoubtedly such a power is great, but it is nevertheless well that it should exist. We have not in this country a responsible Government in the European sense, and we cannot have such a Government under the Constitution. The subordination of the Executive to the Legislature, with the tenure of office of a Government dependent upon a party majority for the time being in Congress, has no counterpart in the system which the Constitution establishes. Time and circumstance, however, have made the President the executive head of the Government in a far wider sense than the framers of the Constitution appear to have contemplated, and it is desirable that the responsibility which the country has long recognized as attaching to the presidential office, and in regard to whose exercise it periodically expresses approval or disapproval at the polls, should be shown to be grounded in the authority of the Constitution as well as in political fact. It is such a demonstration, fully sustaining the claim of right on the part of the President to dismiss from office any official whom the Constitution or the laws authorize him to appoint, that has now been given by the Supreme Court.

We do not apprehend the dire consequences of this constitutional enlargement of presidential power which the dissenting members of the Court appear to fear, nor do we think that there will be much interest in proposals so to amend the Constitution as to shackle the President's hands. It is too much to expect that appointments or removals will not sometimes be made for partisan reasons, or that criticism will be lacking, however impartial a President may strive to be, but the protection of the country against any flagrant or long-continued abuse of the great power which the Court has recognized lies in the political responsibility of the President to Congress and the people, and the force of a public opinion which no longer regards Federal offices as party spoils.

In "A Fool's Paradise."

Those who live in this delectable land give no thought to the morrow. In fact, they think little at all. They accept the good things of earth as if to the manner born. They say what is to be will be, and let care go hang. Of course there is a serpent in every paradise, and the "fool's paradise" is no exception. But the tempter is welcome, because the "fool" never listens to any command save his own desire. The "fool" believes life is a jest and that he is king of the world in his own right. All knowledge is for his own consumption. All pleasure is for his own embracement. He avows he did not come here by his own volition, is entitled to be supported while here as a charge upon the divine order, and ought to be assured of a better place in the future since the present is still imperfect. If an invention which is supposed to knit peoples together in a common humanity happens along in his way in his time and finds appropriate use in saving souls at sea, he finds a nobler employment for it in "listening in" on a million-dollar series of baseball games for which he will drop work at any time while the air reports the doings of his favorite team. And when perchance two sluggers get together in the "stadium" he spends another million for ringside seats or sits at home to listen raptly to the spirits of the mighty deep report blow on blow.

In a fool's paradise only he works who must; only he walks who cannot buy an automobile on the installment plan, a few dollars down. In fact, few in this famous land believe that work is respectable which does not command a "living wage" gauged by the best that is to be had by any one. They count as obsolete the example set by the Divine who labored six days and rested on the seventh, satisfied that His work was good. Five days of eight hours is enough for any man who would enjoy the fullness of life; this to be shortened gradually as machinery succeeds in turning out "mass production"—but only upon the basis of an increase in wages and a share in profits. In "paradise" no man lives to himself; he only lives who is a member of an "organization" designed to bring all things to all men. He is an individual, made, alas, in the image of his Maker, but perfected only by "standardization" after his own plan. He hearkens to the command to go forth and subdue the earth and becomes at once an Atlas bearing the burdens of a world, though his neighbor is not aware that he loves *him* as he loves himself. Knowledge he has through a marvelous and ever-working system of education, but is not wise enough to see that he is shallow in himself. In truth, he grows in stature as he loses his identity in the club, or order, or bloc, or government, and chameleon-like takes on the qualities of his own imagining.

In this paradise of the fool "prosperity" is continuous and ever expanding. It is as if after a good season a man sat in his granary and beheld his gains as never diminishing. It is as if a man poured the cornucopias of a hundred years upon a single day, forgetting there was a past and must be a future. It is as if one rode in state down the highway of life and from a bottomless purse flung the favor of his wealth upon all the idlers along the way. In this latest modern paradise there is a "forbidden tree" and of the fruit of that tree those who possess a free will and a power of evil are most prone to eat. Prohibition whets the appetite. Labor and money that are said to be conserved are as nothing compared to that full liberty to enjoy that intoxicates those who bid defiance to convention and law. Savings banks may groan with deposits because "wine

is a mocker," but strong drink is a personal right which must be preserved. In consequence, the furtive making of the inspiration known as "moonshine" proceeds in the home, while up and down the highways and across the far borders and in from the rolling seas come the surreptitious vendors of beverages that if not poisonous are full-proof and part of the "fool's" happier and better life.

In the new paradise there are no inconvenient pay-days one is bound to respect. In the ancient days of economy and thrift men, and women, too, paid for what they bought in coin of the realm. Now no one pays cash for anything, though the country has more gold than any other country ever had or has. Promises to pay in installments are as thick as autumn leaves. The fool says in his heart there is no God, and straightway seeks to prove it by defying all the moral laws from the time of Moses down. Honesty of the common kind is at a premium, when found at all. Truth is subject to the self-interest of every man. Simple living is turned into the hilarious mourning note of full-frenzied jazz. It is better to issue credit than to amass capital. Billions for amusements, though the cupboard is bare. Cities are the haven of all those who were born on the farm, and while in these the towers of Mammon pierce the skies, out in the "hicks" there are none so poor as to mend a gap in the fence or to whitewash the chicken houses or paint the barn. Concrete boulevards from city to city crisscross the land, while the farms decay and prices decline. In paradise the day of judgment when debts are settled seems never to come.

Work stokes the engine of progress. There is no production without great labor. But the fool thinks the wheels will keep turning forever through the sheer momentum of temporary impulse. Thus prices, profits and prosperity, once in existence, will continue indefinitely in the same ratio. The fool is not altogether without knowledge and wisdom of a kind. But he does not live up to his capacity. He puts off the evil day. He lives while he lives, though to-morrow he die. He borrows when he might pay cash. He wastes while he preaches thrift, economy and saving. He must save his sons from the deprivation and hard labor of his own youth. He believes in education as the safety of the Republic, though he has some dim idea that bookish lore, scientific research, and culture in art, will turn into money when college days are over. So he spends lavishly the taxes of the people for educational facilities, all the time hoping his young hopeful will be able to make money easily and get rich quick. Often he has little worldly goods himself. Public expense will be paid by those who have accumulated wealth. And if perchance this is not readily available, there is a fountain filled with credit upon which the voters may draw. Bonds are the magic formula for all improvements. And as this forced prosperity progresses there is money in circulation and more work for all, though personal zeal for work is negligible.

In an era of marked advance in prices and profits, those who deal in curves and index numbers utter warnings in vain. The proof of the pudding is in the eating, the proof of prosperity is that it is here, high prices, big production, mounting profits, employment everywhere. All is made of many parts, not all equal, however. We are often made fools by figures. Statistics are always dangerous. He who reads as he runs has no eye for details. He only sees the high lights, the totals. If perchance he is not himself doing well it is said to be his own fault, in a time of general prosperity. Contradictions, contrasts, are teachers. We are saving billions—the they-sayers say. We are also spending billions. Who dares to balance the annual savings against the annual spendings! In Paradise we are not concerned with equations of this sort. Sufficient unto the day is the spending thereof. Why, the they-sayers say, are not the people enjoying life more than they ever did? Some of them are. Some are not. But those who are not feel the contagion of spending. The high level, though artificial and fictitious, draws all men up. Children are spending more in a week than their parents when children did in a year. Oh, but times are changed. Such comparisons are odious. Would you bring back the blue jeans and the tallow dip? No—but when there is more joy ought there not to be more earning, more work?

In the fable of the original paradise everything was free save the fruit of the forbidden tree. In the modern paradise there are those who believe the world owes them a living and by theory, organization and government they are trying to collect the debt. They did not seek the loan, they sow not, but they would reap and enjoy. If by any device such as credit they can gather in all the blessings they are not loath to do so. Devotees of progress, they borrow from the future to better the present. Why wait? Will not the future inherit all the institutions, improvements, savings and betterments of the present. In a way, yes; but things wear out. You cannot eat your cake and have it. Change is constant. Repairs and reforms will cost the future much hard labor. The pay as you go system is not fast enough. Now is the only important thought. Why tax-burden the present when the future will own all things? Why imagine the swift momentum of to-day will slacken in to-morrow; is there not a scriptural injunction to take no thought of the morrow? Why have Governments, general and local, the power to issue bonds for improvements if the power is to be hampered by heavy taxation? What can change the momentum? It grows by what it feeds on. Prosperity is naturally perpetual. Crops may fail, wages fall, capital waste away—but what of that!

Sometimes in the most salubrious climate a hurricane brings destruction. No one knows just where and how it originated. Blowing a bubble till it bursts is one way to destroy it, but a pin-prick will do the same thing. The fool in paradise only sees the iridescent colors of the bubble. He is obsessed with optimism. He demands that the cause of depression be pointed out and dated. Has not the United States more wealth, more gold, more trade, foreign and domestic, than any other country? Are not wages higher? Have we not had for a series of years bumper or non-bumper crops? Of course if a crop should fail—but it does not. Of course, production ought to be curtailed and controlled, that prices be high. But which is it, prices or production, that makes real prosperity? Of course, the elastic band of credit may snap if stretched too far. But why worry—we have the Federal Reserve. Of course, unemployment may come from too much production, but who tries to stop the wheels of manufacture—the farmer is our chief concern. The fool who lives

in paradise would live without work, gather all the fruits thereof, and through sheer perversity would eat of the forbidden tree. But somewhere in the divine economy, which is the only economics man can know, there is a law which holds all things in their courses and he who tries to reap without sowing will surely come to grief.

Organized Labor and the Church.

The episode of disagreement over permission to labor leaders to occupy pulpits of the churches at Detroit during the meeting of the American Federation of Labor in that city is one in which the public is little interested. Nor do the people or the press care to take sides in such a quarrel, if one exists. The relation of the Church to union labor is, however, a matter of general importance, and is subject to comment. In a rational desire to increase "human welfare," the churches and the unions are in natural agreement. But their approach to the problem is not the same. Therefore they cannot work together, or in harmony. We might put it a little differently to advantage: The Church is interested in labor and the unions are interested in union labor. Of course, the unions claim the broad philanthropy of interest in all kinds of labor. So does the Church, if labor be considered a divine command: "Thou shalt eat thy bread in the sweat of thy brow." If the Church undertakes to work *with* union labor and its policies it must needs accept the attitude of union labor to all labor.

This it cannot do without becoming involved in the partisan principles of union labor. Lending a few pulpits to union labor leaders even to present partisan views is a small matter one way or the other—of local interest to Detroit, perhaps, but not elsewhere. On the contrary, a Federation of Churches in America which undertakes to pass resolutions upon the status and rights of workingmen, a thing it cannot do without taking sides on the open or closed shop, the hours of the day or week, and so-called living conditions, is perforce entering the controversies that now exist between the industrial employers and the organized workingmen. In our judgment it has no place there. In our opinion it cannot favor the laboring man or the employer of labor by so doing. To look upon man's labor from the spiritual heights of the Church, is not to look upon it as a practical question at issue between "labor and capital."

What, then, is the interest of the Church in labor? It is the interest in a spiritual design that was instituted in the Beginning for man's betterment. To work is to develop. More, it is to create. Idleness and sloth are degrading—mental as well as physical. We might almost say that the chief interest is in "work for work's sake." The Church may preach against the unrighteousness of giving a life for gold. But if a man will not work save for the highest, and in some cases exorbitant wages, will not this preachment lie against him also? However, this spiritual admonition to work and thus build up the physical and mental man, lift up the institutions of life, and apotheosize the home, has nothing to do with wages or profits. These are as they may be, or must be. The employer and employee must make some sort of settlement. The Church intervenes as adviser or proponent at its peril—and becomes of the color of one or the other.

What interest has the union in labor? Originally to teach it its worth and dignity; latterly to gain advantages for it, by organization, to force, even to the extent of the coercion of the "strike," its own demands as to wages, profits, management, hours and conditions. It does not, thus, make for peace but for war. And in doing these things it does not speak for itself alone, but assumes by innuendo, insinuation and broad assertion, to speak for all labor. At the same time it represents less than one-tenth of the workers of the country. Can there be any real spiritualizing tendency in this attitude and policy to entitle organized labor to ally itself with the Church, to stand in its pulpit and cloak itself in the refinements of religion and in the voice of the Master and His disciples? There is a sort of mock-heroic sympathy about both labor and the Church in endeavoring to affect this alliance—though if it is analyzed it will be found there is more of pity in the latter, more of cunning in the former.

There has crept into the Church in parts of the world a false idea of the teachings of the Great Leader, Christ—that He gathered His followers from the poor and humble, and therefore these only are worthy—that He told the young rich man to sell all and give to the poor—that He said it is easier for a camel to pass through the eye of a needle than for a rich man to enter the Kingdom of Heaven—that He accumulated no property and affected a commonalty of ownership of the good things of earth (though only in a spiritual sense)—that He scourged the money changers out of the temple—and that, to be brief, He represented the teachings of modern Socialism. On this ground a certain part of the Church finds its mission to take the part of labor in this modern struggle, to go out from its sanctuary and help it reform conditions, hours and wages. Not in this sense did the Master of Men proclaim the true relation of work and wages—rather in the all-embracing statement: Render unto Caesar that which is Caesar's and unto God that which is God's.

We find an arrogance in this attempt of less than four million workers to speak for forty millions that is not in consonance with the religion of speaking the exact truth. If the Church is to thunder this assumption from the pulpits of the country it is tantamount to an endorsement by the Church. What proportion of unorganized workers compared to organized is to be found in the Church membership? Can it be, for example, possible to keep the wages of trades workers, by the power of organized labor, at war levels, save at the expense of the unorganized workers? Is the Church to align itself with one and not the other? One of the greatest of the union labor leaders, now dead, said more than once "I will not obey the law" if it is enacted, referring to certain proposals. His successor, no longer following the maxim that wages must be gauged by living costs, now asserts that wages must follow the increase of production though that be by the introduction of labor-saving machinery—a wholly impossible plan in practice, involving a confusion of individual efficiency with the power of the machine. Does the Federal Council of Churches propose to take this stand?

No, those who labor in the vineyards of life, whether in field or factory, in home or shop, in bank or hospital, whether with mind or body, whether for

wages or profits, if they give value received, if they keep contracts, if they find in work for work's sake deliverance and self-help and the help of others, are doing the Master's work which the living Church is bound to endorse and expound. But on the high and unassailable plane of service, and not on the precepts of union labor, that demands a share in management of property it does not own, and a share in profits it only partially creates (capital working as well as men), and this before such profits can be determined in the world's marts. Properly the Church *has* nothing to do with these controversial questions. Fighting the law and courts on injunctions one day and preaching from the pulpits the next day, has in it an inconsistency both the Church and union labor will do well to consider. Sympathy is not the keynote of organization.

Let the Church keep itself unsullied from what we term "the world." Let it preach and practice temperance and tolerance. Let it always propose love rather than force. If it has over-emphasized the power of faith, let it now proclaim the saving power of works and work. It is teacher and exemplar, not arbitrator or autocrat. Salvation by character is sufficient for its administrative helpfulness—for when all men are lifted up to the heights of "live and let live" there will be few controversies between employers and employees. And let organized labor sit at the foot of the throne of Love and leave man free to make his own way, his own contracts, his own method of success. By saving man successively the Church saves all. By recognizing the rights of the individual to organize the company union as well as other unions the A. F. of L. will more nearly represent *all* labor than it does now. Labor is by no means organized labor.

Characteristics of Bond Issues—Industrial Variations.

When one speaks of railroad and public utility companies he is referring to enterprises with many uniform characteristics. Industrial companies are not so readily catalogued. Such companies run to all sizes and types, and the field, as a whole, presents no strikingly similar tendencies throughout. Hence financial methods are various.

As it happens, industrial financiing is particularly responsive to the popular methods of the moment. Witness the recent frequency of "A" and "B" stocks and of bonds with convertible features and option warrants for stock—which shows an eye to the fact that there has been an active stock market. Under present conditions the large industrial enterprises of high credit do little borrowing, and any financing is likely to be undertaken either with further amounts of old mortgages of standard character or with straight note issues of short term.

Beyond these methods there are naturally many variations, each of which would occasion a separate discussion. Industrial financing does not always follow the simple and obvious route to a desired result. Leases and lease arrangements have been utilized in special financing, taking a distinct departure from direct obligations and bonds guaranteed by endorsement. A few instances may be cited.

The Montgomery Ward Properties Corporation sold $5,750,000 first mortgage 5s, due 1946, and dated May 1 1926. The corporation is a subsidiary of Montgomery Ward & Co., Inc., the large mail order concern, organized to acquire warehouse and business properties used by the operating company. The bonds are a first lien on these properties and, according to the advertisement, the mortgage "will also cover the corporation's interest in the lease of such property to Montgomery Ward & Co., Inc., for a term extending one year beyond the maturity date of any bonds issued under the mortgage, at a rental sufficient to pay interest and sinking fund charges on all such bonds, taxes and corporate expenses of the corporation. Montgomery Ward & Co., Inc., under the terms of this lease, will assume the payment of all maintenance, necessary renewals, insurance and other operating expenses of the leased properties, and will agree to pay to the Properties Corporation, five days in advance of the maturity date of any bonds outstanding under the mortgage, sums equal to the principal amount of such maturing bonds."

Another case of plants and properties being vested in a separate company and leased to the operating concern is found in the Budd Realty Corporation first and refunding 6s of 1941, of which $6,077,000 were offered on two occasions this year. With $1,197,000 other mortgages they cover properties leased to Edward G. Budd Manufacturing Co. and Budd Wheel co., manufacturers of steel automobile bodies and metal disc wheels. These properties are leased to the two companies which "jointly and severally agree to pay all taxes, insurance and assessments and annual rentals at least equal to interest and sinking fund on the entire funded debt of the corporation."

An approach from a somewhat different angle appears in the $2,100,000 Central Manhattan Properties, Inc., 5% bonds, due 1946, dated 1926. The concern was organized to acquire certain land and buildings leased to D. A. Schulte, Inc., operating an extensive chain of cigar stores. The bonds and the first mortgage of $2,400,000 (held by a large insurance company) run for twenty years, the leases run for sixty. In 1946 a portion of both issues will have been retired by sinking fund. "As security for these bonds, Central Manhattan Properties, Inc., will deposit with the trustee, the D. A. Schulte, Inc., lease and assignment of its right to receive the net rentals under these leases, so that all rental payments will be made direct to the trustee. The deeds to all these properties will also be deposited with the trustee."

It is to be seen, in this case, that the bonds are not a direct mortgage, are not entirely retireable by maturity out of the proceeds of the lease and that the lease has been assigned by the lessor to the trustee for the bonds. Presumably, the lessee is cognizant of the steps taken in connection with this financing.

The arrangement by which the Mercantile Properties, Inc., 5½% bonds, due 1946, were issued under date of Jan. 1 1926, while somewhat similar, bears some variations. The $4,250,000 5½s are secured by deposit with the trustee of certain leases and the assignment thereof. The properties owned by this concern are also covered by first mortgages and are leased for a long term of years to F. W. Woolworth Co., operating the large ten-cent store system. The leases run beyond the term of the bonds and payments should account for the retirement of a portion of both the mortgages and this issue by maturity.

This issue and the one previously discussed were offered with stock purchase warrants in one case and in units with stock in the other, the idea apparently being that the amortization of the funded obligations would progressively clear the equities in properties. It would appear that the Mercantile Properties, Inc., 5½s are not in any sense an obligation of F. W. Woolworth Co. Having given a lease, the lessee is obligated only to the extent of the terms thereof. The assignment of a lease may conceivably be made without the knowledge of the lessee. Long-term leases by responsible parties may be hypothecated; the capitalization of the payments due under such instruments presumably presents little risk; in some cases it may obviate the necessity of financing with second mortgages on improved real estate.

Leases can provide excellent security under some circumstances, if one remembers that usually the lessee's liability amounts to the terms of the lease—and no more. Obviously, there is a distinction between leases drawn with the expressed intention of providing for funded obligations of the lessor and leases assigned as security.

Thomas Jefferson, the Great American.

The Revolutionary period gave us many memorable men. In the long course of years and in the new era we have entered some have become little better than memories and some are forgotten, while Jefferson has continued a living force.

His life, which has been frequently and even voluminously written, we now have narrated in complete, accurate and readable form in one volume by a thoroughly competent and impartial author. Francis W. Hirst, for many years the editor of the London "Economist," was induced by Lord Morley to undertake the task, and after much study, with access to a large amount of new material, has produced the book now published by Macmillan, which throws fresh light on Jefferson's services, not only in the formation of the Government of the United States, but in the understanding of political and economic principles that have important place in the problems of both Europe and America to-day.

Nearly a century ago Dr. Thomas Chalmers, of whom Scotland is ever proud, called to Edinburgh after rare service in Glasgow, soon had occasion to say out of his own experience: "No man is set up on a pedestal without quickly finding himself the target for mud throwing." Jefferson has not escaped. One must turn to the book before us to see how completely the "mud" is all swept aside, and how the strength and beauty of a great character stand forth, strong as witnessed in his wisdom and his achievement, and beautiful in his simplicity, his unselfishness and his unfailing devotion to the good which through a long public service he sought to accomplish.

We must confine our notice to a few of his achievements and his leading opinions, with several brief testimonies of his biographer. It is, of course, known that he wrote the Declaration of Independence, but it is not so well known that at a time when a declaration for the abolition of slavery was impossible, he wrote into the Declaration a vigorous protest against the support of the American slave trade by Britain, and that it was stricken out in the sharp debate continuing two days before the Declaration was adopted. He was "the only powerful statesman of his day in America," says his biographer, "who was willing to risk political fortune and social favor in an active effort to remove this dark blot from the institutions of his native land."

Twenty years later he wrote the Bill for Establishing Religious Freedom adopted by Virginia, which declared in enlarged and vigorous terms that "the opinions of men are not the object of civil government, nor under its jurisdiction." Though these words were struck out of the bill, the supporting statements and the injunctions to civil magistrates as to their restricted authority were left. The bill as it stands is: "The first law ever passed by a popular Assembly giving perfect freedom of conscience, and places its author among the great liberators of mankind." About the same time appointed Ambassador to France to succeed Franklin, then infirm with age, he endorsed a clause suggested by Franklin in a treaty made with Frederick the Great, King of Prussia, containing the modern device to protect neutrals in person and property and to secure freedom of the seas in time of war.

As Secretary of State and constant adviser of Washington, he early saw the evil of public debts. The country was loaded with them, $11,000,000 owing by the Government to France and Holland, with private debts of American planters and merchants to England, estimated at a much larger sum. He believed that the present had no right to load its obligations upon the future generation. which always has heavy enough obligations of its own. He therefore strenuously withstood all attempts at unlimited borrowing as leading to oppressive taxation, as he also strove for strict economy. In 1816 he thus summarized his views in a letter to Governor Plumer: "I place economy among the first and most important of republican virtues, and public debt as the greatest of the dangers to be feared." He lived to see the whole public debt of the United States extinguished by the year 1835. The theory that private debts are a blessing he held to be ridiculous, and that irredeemable paper money is a "juggler's trick." The bitter experience of the country through those early years, despite his advice, is only too well known.

Jefferson was not dependent upon French example. He was a student of Coke and Milton and John Locke. He went into public life and remained in it, as Mr. Hirst says, "because he believed in republican principles, desire to extend democracy, and was resolved if possible that his fellow citizens should enjoy a full measure of individual liberty." He showed his large-mindedness in the high place he gave to majority rule. He said to his old constituents in 1790 that "the will of the majority—the natural law of every society—is the only sure guardian of the rights of man. It may sometimes err, but we are safe with it, for it soon returns to the right way." He had not advanced, when Secretary of State, to the full free trade position, but he urged a friendly reciprocity. "Instead of embarrassing commerce," as he wrote, "under piles of regulatory laws, duties and prohibitions, could it be relieved from all its shackles in all parts of the world, the greatest mass possible would thus be produced of those things which contribute to human life and happiness, by each being free to produce that which nature had fitted them to produce, and to exchange with others mutual surpluses for mutual wants."

At the opening of the century, and during the eight years of his administration as President, he kept the country out of the wars raging in Europe, devoting himself to relieving his countrymen from the burdens accumulated during the struggle for independence. In 1823, in a vigorous letter to President Monroe, he stated his position. He said: "I have ever deemed it fundamental for the United States not to take active part in the quarrels of Europe. Their political interests are entirely distinct from ours. They are nations of eternal war. On our part never had a people so favorable a chance for trying the opposite system of peace and fraternity with mandkind. We have few occasions for collision with them, and with a little prudence and forbearance these may generally be accommodated." When, however, at the suggestion of Lord Canning, the opportunity came for our taking a definite position to protect the continent against possible European invasion, in a special letter to President Monroe, who sought his advice, he prompted the message, which a month later "infused with his spirit, was drafted and enounced by the President, his political pupil and disciple, the last of the noble line of Virginian Dynasts."

Personally he was so gifted and accomplished that as Minister to France he played his part to perfection. The record reads: "Amid the savants and men of science he was a model for all comers in learning and scholarship, in varied and accurate information about affairs, in ease and refinement; eager to learn, eager to impart, always ready to help a countryman, but a citizen of the world also whose door was never closed to merit." That he might answer the inquiry made by a French gentleman about America, he gathered up some of his loose papers and had printed in Paris his "Notes on Virginia." It created a sensation. No Frenchman knew France as he knew Virginia. "It is to-day an encyclopedia of the author's interests, studies, experiments, researches and learning. As the man of science, historian, sociologist and statesman he is zealous in search for truth and passionate in his championship of the right. He pleads for the freedom of the slave, he argues for perfect freedom of trade and for abstention from the wars and armaments of Europe. He is vigilant against abuses that exist, and eager in his apostolic faith in a new regime."

His taste and ability as an architect appeared in the remarkable group of buildings he erected for the University of Virginia, of which he was the founder, and in his home at Monticello, both of which attracted wide attention for their classic novelty and fitness. He had one of the finest libraries in the country and was keenly interested in the education of the young, beginning with those living in his neighborhood, "endeavoring," as he said, "to fix their attention on the main objects of science, the freedom and happiness of man." These were to him "the sole objects of all legitimate government." He founded a university that should have the aim and the ability to send forth young men inspired and prepared by liberalized minds and enlarged views to live such lives of useful service.

Is it any wonder that to the end of a long life he "was still the oracle whom all consulted," or that at the close of his second Administration his native State should formally make acknowledgment of his great services to the nation in a list extending from a model administration with patronage discarded, heavy taxes abolished, a national debt discharged and the acquisition of new territory more extensive than the original possessions, to the establishing of the principles of liberty on which the rights, the peace, the honor and the prosperity of the nation depend; a list far too long to enumerate.

We have had to wait for an Englishman of rare ability, a life-long student of economics and finance, to give us this story of one of the greatest Americans, whose principles and example were never more valuable than they are to-day.

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME.

Friday Night, Oct. 29 1926.

Business is fair or quiet in some parts of the country and good in others. The car loadings have reached a new peak for the latest peak reported. The mail order sales are of much the same order, furnishing the impetus as they do to railroad traffic. The Pennsylvania Railroad Company, after many years, has returned to dividends of 7%. Persistent attempts are being made to settle the British coal strike, whose effects grow steadily more grave. Ocean tonnage is taken to supply Great Britain with coal, which might otherwise be employed in supplying, not merely Britain, but the Continent of Europe and other parts of the world, with our grain, cotton, etc. Ocean tonnage under the circumstances is scarce and rates for it are advancing. This hampers the export trade in wheat, and there is said to be little November tonnage available to the cotton trade. In spite of this the exports of cotton thus far this season makes a good showing. Russia has been buying cotton futures here recently. Japan wants American cotton. The Continent prefers it to East Indian cotton. Wheat has declined 2 to 3 cents in a sluggish market, with export sales only 200,000 to 300,000 bushels a day to England and the Continent. The British are afraid to buy wheat heavily lest the coal strike end suddenly, ocean tonnage be released from the coal trade and British markets be flooded with American grain. Corn has declined under large receipts and with little cash demand. Other grain has declined. Provisions have dropped sharply, partly on the liquidation of October lard in a dull cash and speculative market.

Cotton has given a remarkable exhibition of strength in face of a Government crop estimate on the 23d inst. of 17,454,000 bales, the largest by far on record. It was offset by the fact that the price had recently declined 6 cents, that mills bought heavily, that investors came in, and finally that prompt action was taken by President Coolidge's Commission appointed to look into the question of stabilizing cotton prices in the Southern crisis which threatened injuriously to affect the trade of the country. The Chairman of the Commission, Eugene Meyer Jr., had cautioned the Southern cotton planter not to become panic-stricken by a Government estimate of the crop on the 23d. The result was that the decline here on that day was only about 30 points, and most of that was regained before the close. The Federal Intermediate Credit banks, it is understood, will lend $200,000,000, if necessary, on cotton properly graded, stored and orderly marketed. State loan associations have been organized in North Carolina, South Carolina and Louisiana and practically organized in Texas and Oklahoma, with a capital of from $1,000,000 to $5,000,000. It is on the basis of this that the Intermediate Credit banks will advance funds to complete the work of carrying, it is understood, about 4,000,000 bales under the provisions prescribed. Hedge selling of cotton here, the thing most dreaded, has of late almost ceased, and prices actually show a small net advance for the week. Without going into the question of the ad-

visability of making these loans, which may set a more or less objectionable precedent, it is clear that the only real remedy for excessive crops and low prices is diversification of crops in the South. Chairman Meyer wants the South to reduce the cotton acreage 25 to 35% and put it into other crops. That is the only panacea in the long run, whether it be for the cotton or the grain farmer. It is certain that the Government cannot go permanently into the merchandise business. Its legitimate function is government; it is not a merchant, disguised or otherwise.

Coffee has declined under pressure of offerings from Brazil. Here is a lesson in the attempt artificially to support prices. Supplies of coffee in the interior of Brazil are believed to be large. Dealers knowing this have been holding aloof for lower prices and have been favored by a decline in exchange as well as in coffee prices in the Brazilian markets. Sugar has declined somewhat, in spite of persistent reports that the recent hurricane in Cuba caused the loss of some 200,000 to 250,000 tons. The high ocean freight rates have affected this branch of trade also, so that the sugar planter feels the British coal strike as well as the American grain and cotton planter. The Cuban sugar planter finds his market in Great Britain largely shut off for the time being. It is an impressive illustration of how great branches of business in these modern times interlock, so that if one big industry suffers, as for instance, the coal mining industry in Great Britain, there is an evil repercussion in other branches of business the world over.

At the South business has naturally suffered from the low price of cotton, although trade is somewhat better than recently. Trade in the Central West has decreased somewhat. In the Far West it has improved. Soft coal prices have advanced greatly, and trade is very active. Coke has advanced sharply. There has been noticeable activity in the shoe and leather trades. The jewelry business is also brisk. Less business has been done in steel and the production has fallen off. The automobile production is much smaller than recently. Pig iron has been quiet, with intimations of lower prices accepted here and there. The hardware trade is better than it was a year ago. The same is true of tobacco, building materials and furniture as well as coal. Very few branches of business are less active than at this time in 1925. Some, it is true, show no increase over the totals of a year ago. Recently failures have shown some increase. Seasonable goods sell more freely in the North, the Southwest and New England, owing to the cooler weather. Lower prices of textiles have tended to increase their sale.

The stock market at one time was stronger and then reacted in a smaller market. But bonds have been in brisk demand and higher. Sterling exchange was firm to-day after some recent decline and French and Italian rates have advanced noticeably, francs reaching a new high to-day. With Belgium on a gold basis the new Belgian currency is now being quoted. September railroad earnings of 33 Class I roads show a gross increase of 4.6% over last year, while the net operating income is 6% larger than then. Of late London has been quiet, but on the whole firm, with apparently no fear of higher money rates in this country and with persistent efforts under way to settle the coal strike.

The general level of farm prices dropped from 134 to 120% of the pre-war level between Sept. 15 and Oct. 15, according to a Department of Agriculture announcement. Cotton and cottonseed prices dropped from 139 to 94% of the prewar average during the month.

At Fall River, Mass., the Parker and Chace mills issued optimistic reports. At Danielson, Conn., the Connecticut Mills Co. operating plants there, in Fall River, Mass., and in Taunton, Mass., manufacturing tire fabrics and employing 1,200 hands, has signed a 15-year lease for a million-dollar factory plant to be built at Albany-Decatur, Ala. There is a steady demand for tire fabrics for various quantities, part of which is for delivery next year. Tire companies are said to have covered their requirements, not beyond the first of next year, with few exceptions. Charlotte, N. C., reports that smallness of stocks at mills and in dealers' hands has contributed largely to the stability of the cotton yarn market. Indications point to a buying movement as soon as cotton prices are stabilized.

Here on the 24th inst. there was a gale of brief duration that did $1,000,000 damage to the city, injured 100 persons, upset a steamboat in the Hudson River, damaged other shipping and four coal boats sank in the harbor. On Long Island, in Nassau County, trees were reported down from one end of the county to the other. Telephone and telegraph poles were uprooted. In New Jersey, Paterson and Camden suffered most. At Deal Lake the gale lifted a sheet of water out of the lake and carried it 300 feet from the shore, breaking the roof of the three-story frame shack housing the Coast Guard station. More than 100 trees were uprooted in West Long Branch. The State highway was blocked for miles by fallen telegraph poles. Other New Jersey towns suffered heavily. The gale passed on into New England.

The temperatures here on the 25th were 40 to 66 degrees, at Chicago 34 to 40, at Cincinnati 34 to 38, at Cleveland 36 to 40, at Milwaukee 32 to 36, at Montreal 40 to 52, at Boston 60 to 70. At Dunkirk, N. Y., on Oct. 26 the Arkwright mills were covered with snow, and in some of the valley sections it had reached a depth of 9 inches. Near Cassadaga, 14 miles south, scores of automobiles unprepared for wintry weather, were stalled in the snow. At Rochester, N. Y., on Oct. 26, the first heavy snow of the season in western New York was reported. Several inches of snow fell in the Genesee Valley and an inch in Ontario County towns. To-day there was a light rain here, which soon ceased, but it has begun again to-night. The indications were for clear and colder weather for to-morrow. To-day the temperature at 3 p. m. was 62. Yesterday Chicago was 44 to 58, Cincinnati 54 to 72, Kansas City 46 to 66, St. Paul 34 to 52.

Federal Reserve Board's Summary of Business Conditions in United States—Growth in Industrial Activity.

Industrial and trade activity increased in September and is at present in considerably larger volume than in midsummer, the Federal Reserve Board announces in its summary of business conditions in the United States issued Oct. 27. The price of cotton has declined sharply within recent weeks, the Board adds, while prices of most groups of commodities have advanced. Volume of bank credit has increased seasonally, and money rates have remained firm. The Board goes on to say:

Production.

Production in basic industries and factory employment and payrolls, according to the Federal Reserve Board's indexes, after changing but little for about four months, advanced in September to the highest points since last spring. The increase has been particularly large in textile mill activity. Consumption of cotton has increased considerably, woolen mill activity is the largest since January, and employment has increased in nearly all branches of the textile industry. Iron and steel production was maintained from early in August until the latter part of October at a level higher than for the corresponding period of previous years. Automobile output was reduced in September, but continued larger than a year ago. Mining of coal has steadily increased since mid-summer, and the weekly run of crude petroleum from wells in October reached the highest level since June of last year. Building contracts awarded during August and September were only slightly smaller in value than the awards for the corresponding period of last year and in the first half of October far exceeded those of a year ago. A substantial decline in contracts for residential structures has been largely offset by increases in awards for industrial and engineering projects. The Department of Agriculture Oct. 18 estimate placed cotton production at 17,454,000 bales, an increase of about three-quarters of a million over the estimate made on the first of the month and of 1,350,000 bales more than last year's crop.

Trade.

Wholesale and retail trade increased in September and was slightly larger than last year. Inventories of department stores increased slightly more than is usual in September, and at the end of the month were in about the same volume as a year ago. Railroad freight car loadings reached new high weekly records in September, and shipments were maintained during the early weeks of October in much larger volume than in previous years. A great part of the increase as compared with last year is due to shipments of coal and ore, but loadings of manufactured commodities have also been larger.

Prices.

The general level of wholesale prices advanced slightly in September and October, notwithstanding the drop in the price of cotton to the lowest level since 1921. The Bureau of Labor Statistics index of wholesale prices was about 1% higher in September than in August, reflecting advances both in agricultural and in non-agricultural commodities. In recent weeks prices of corn, non-ferrous metals and paper have declined, while prices of livestock, meats, poultry and dairy products, and bituminous coal have increased.

Bank Credit.

Between Sept. 22 and Oct. 20 the seasonal increase in the demand for credit for agricultural and commercial purposes was reflected in a continued growth in the commercial loans of member banks in leading cities. Loans on securities and holdings of investments declined, but the banks' total loans and investments were about $60,000,000 larger on Oct. 20 than four weeks earlier.

At the Reserve banks, the volume of member bank borrowing, after considerable fluctuations in response to temporary conditions, was in October at about the same average level as in September. There was little change in the banks' holdings of United States securities, while acceptance holdings continued to increase, as is usual at this season.

Except for a temporary firming around the first of October, there has been little change in the condition of the money market. Rates on commercial paper and on acceptances have remained at the levels established in September.

Decrease of 4% in Farm Prices from Sept. 15 to Oct. 15.

The general level of farm prices dropped from 134 to 130% of the pre-war level from Sept. 15 to Oct. 15, the Department of Agriculture announced in its monthly price report issued Oct. 28. The October index of 130, the Department says, is 13% below October a year ago, and only 10 points above the 1921 October farm price level. Cotton and cottonseed alone dropped from 134 to 94% of the pre-war average during the month. The report states:

The downward swing in the market price of cotton has been reflected by a decline of 5 cents per pound, from 16.8 to 11.7 cents, in the farm price of cotton from Sept. 15 to Oct. 15. This brings the farm price of cotton below the five-year pre-war average of 12.1 cents for October. Cotton is now in about the same relative position when compared with pre-war prices as corn, oats and barley during the past year and with apples this fall.

The farm price of oats and barley advanced in face of a further decline in corn prices; wheat and rye showed small price gains. The sharp rise in the market price of hogs between September and Oct. 15 was not accompanied by a similar advance in the farm price, as is usually the case. It is possible that cholera losses are forcing local buyers to discount the market price more than is usually necessary.

While butter prices advanced slightly, they continue at a lower level than a year ago. The farm price of eggs advanced more sharply than market prices from Sept. 15 to Oct. 15. While egg prices were higher than a year ago in September, they dropped below in October.

INDEX NUMBERS OF FARM PRICES (AUGUST 1909-JULY 1914 = 100).

	1925 Oct.	1926 Sept.	1926 Oct.
Grains	135	121	123
Fruits and vegetables	152	136	136
Meat animals	141	148	148
Dairy and poultry products	154	139	144
Cotton and cottonseed	171	134	94
Unclassified	90	93	97
All groups	143	134	130
Non-agricultural wholesale prices	164	161	---
Purchasing power farm products	87	83	--

The Department's index of purchasing power of farm products is placed at 83 for September this year compared with 88 in September a year ago, 100 representing the five-year period 1909-1914.

September Wholesale Trade in New York Federal Reserve District Lower Than Year Ago—Improvement as Compared with Recent Months.

The Nov. 1 "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York reports that "September wholesale trade in this district averaged 4% lower than a year ago, a considerably smaller decrease than in the previous two months, due largely to the fact that sales of women's clothing, although still below last year's level, showed substantial improvement compared with recent months. Actual increases over last year were reported in only five lines, but in shoes and silk goods the gains were the largest so far this year, and diamond sales were the largest for the month of September in the past six years. Paper and drug sales continued larger than a year ago." The bank also has the following to say:

Sales of cotton goods continued smaller in value than a year ago, but when allowance is made for the reduction of nearly 20% in prices, which is indicated by the "Textile World" index of cotton goods prices, the actual quantity of goods sold in recent months appears to have been considerably larger. Stationery sales fell below the previous year's level for the first time since the spring of 1925, and wholesale grocers and machine tool dealers reported the largest decreases in more than a year. Decreases also occurred in sales of men's clothing, hardware and jewelry.

At the end of the month jewelry and diamond stocks showed a large increase over a year ago, and hardware stocks, which were below last year's level in August, were somewhat larger at the end of September. Stocks of silk goods were slightly below the high level of a year previous, the first decrease in more than a year, and decreases were also reported in shoes, groceries and cotton goods.

Collections continued smaller than a year ago but in a majority of reporting lines they compared more favorably with a year ago than in August. Outstanding accounts at the end of the month were slightly larger than last year.

Commodity.	Percentage Change Sept. 1926 from August 1926.		Percentage Change Sept. 1926 from Sept. 1925.

Department Store Sales in New York Federal Reserve District Larger than September Last Year.

With reference to retail trade in the Federal Reserve District of New York the Nov. 1 Monthly Review of Credit and Business Conditions by the Federal Reserve Agent at New York states:

September sales of department stores in this district were 6% larger than a year ago. Increases occurred in most localities, and in Newark the year-to-year gain was the largest in several months. Apparel store sales increased 12% and mail order sales 7% compared with Sept. 1925.

Collections on regular charge accounts were about 6% larger, and on installment accounts 10% larger than a year ago. Outstanding installment accounts, however, were only slightly larger than a year ago, whereas outstanding charge accounts were 12% larger.

Percentage Change Sept. 1926 from Sept. 1925.

Locality—	Net Sales.	Stock on Hand End of Month	Collections*.	Accounts Receivable.*
New York	+6.4	—0.3	+3.0	+14.1
Buffalo	+0.4	—0.2	+1.7	—2.4

Mail order hourses	+7.0	----	----	----

* Exclusive of installment accounts.

A comparison of sales by individual departments indicates a large increase compared with last year in sales of musical instruments and radio, following decreases in most previous months this year. Substantial increases continued in the furniture, books and stationery, and men's and women's ready-to-wear departments. Sales of departments carrying less essential articles were relatively slow, and sales of silk and woolen goods were considerably below a year ago.

	Net Sales Percentage Change Sept. 1926 from Sept. 1925.	Stock on Hand Percentage Change Sept. 30 1926 from Sept. 30 1925.
Musical instruments and radio	+32.1	—10.7
Furniture	+19.4	+9.4
Books and stationery	+14.8	+3.8
Women's and misses' ready-to-wear	+10.5	—11.6

Silks and velvets	—22.1	—0.4
Miscellaneous	—3.7	—15.2

Stocks of goods on hand at the end of the month were less than 1% larger than a year ago. The increases in stocks of merchandise over last year have been diminishing in recent months, while sales have been high, so that the rate of stock turnover has been steadily increasing.

Gain in Chain Store Sales in New York Federal Reserve District.

"All types of chain stores reported larger sales in Sepetmber than a year ago, but only in grocery, ten cent, and variety stores were the increases sufficiently large to more than offsett the opening of new stores in the computation of average sales per store. Both total sales and sales per store compared more favorably with last year in September than in August, however, in all lines." In stating this, the "Monthly Review," dated Nov. 1, of the Federal Reserve Bank of New York continues:

The increase on the number of stores was the smallest in over two and a half years. The rate of increase in number of stores in operation compared with last year has been steadily diminishing throughout the year.

Percentage Change Sept. 1926 from Sept. 1925.

Type of Store—	Number of Stores.	Total Sales.	Sales per Store.
Variety	+14.9	+27.7	+11.2

Advance in New York State Factory Earnings Reflect Fall Activity.

Weekly earnings of New York State factory workers averaged $29 30 in September, an advance of over 50 cents since August. While this is the highest average on record, it represents widespread activity rather than a further rise in the level of earnings. The redistribution of employment has also been involved in the recent increase in the average for the combined industries. Employment has lost in several of the lower paid industries such as textiles, food products, shirts and collars, while it has advanced in the metals where many highly skilled workers are employed and where the average wages of both men and women are high. This statement was issued yesterday (Oct. 29) by Industrial Commissioner James A. Hamilton. It was based on reports from 1,650 firms employing over 35% of all the factory workers of the State. He also says:

Average earnings are a purely arbitrary means of relating payroll changes to employment and must not be confused with actual earnings of the workers. They are obtained by dividing the number of employees in an

industry or group of industries into the corresponding weekly payroll. The result is useful in estimating changes in working time as payrolls alone are not.

Most of the industries of the State were included in the September increase. Metals, textiles, wood products and leather goods gained an average of 50 cents. Within the metals group, however, the increase reached as much as $4 50 and there were several advances of over a dollar. Clothing manufacturers were enlarging forces but there was little change in the average wage after the August extension of working time. A large reduction in hours in the average plants rather offset gains in most of the other food manufactures.

Women's Earnings Gain as Much as Men's.

The September increases showed up even more clearly in the weighted figures for men and women. Men averaged $33 42, 72 cents more than in August and women received an average of $18 55, a gain of 80 cents.

In the clothing group, women's earnings were still advancing and the September increase of $1 20 was important in raising the average for all women. Whereas men lost somewhat in the men's clothing shops women received almost a dollar more than in August. In women's furnishing shops, millinery and modiste houses, women were also busier and they benefited by the holiday activity in some other lines.

Men averaged more in the modiste and millinery shops and these gains were given more importance in the weighted figures. This was responsible for raising the average 85 cents for men in the clothing trades. In the unweighted figures for all employees where the varying respresentation of the different sewing industries is accepted only a very small advance was shown. A seasonal reduction in the shoe factories cut down the average for all of these workers.

The increase in the earnings of men and women metal workers was almost a dollar. Men in almost all lines were averaging more though the gains were largest in the automobile and heating apparatus factories and jewelry shops. Women benefited largely by the heightened activity in electrical goods.

Men rather than women were affected by the continued advance of the furniture and piano industries and this was the case in textiles also. Most of the women in the wood products group are engaged in the manufacture of smaller articles such as pipes, penciles, &c. and their earnings stayed close to August.

In the chemicals the situation was reversed and where women averaged 80 cents more in September, men lost 30 cents. Printing and paper goods shops were busier.

The Trade Outlook, According to the Guaranty Trust Company of New York.

The general outlook for business during the next few months remains favorable, despite the less encouraging position of agriculture resulting from the bad weather experienced in numerous localities and the violent break in the price of cotton, states the "Guaranty Survey," published today by the Guaranty Trust Co. of New York. "The latter is without doubt the most important development of recent weeks bearing on the business outlook," the "Survey" continues. "With farm prices of raw cotton several cents below the average cost of production, returns to cotton growers will be severely curtailed, and the reduction of purchasing power in the cotton belt will be felt by business throughout the country." The "Survey" then continues:

Aspects of the Cotton Situation.

Fortunately, there are a number of factors which will tend to modify the effects of low cotton prices. The tendency toward crop diversification has made considerable progress in most parts of the South since the disastrous season of 1920, and the sections where the majority of farmers are solely dependent on the fortunes of the one crop are comparatively few. The extremely large volume of the crop, with correspondingly low costs of production, will help to sustain the level of both gross and net returns. Credit facilities much better than those of a few years ago will enable many producers to store their cotton until later in the season, when conditions may be more favorable for marketing. Concerted action in this direction should be greatly facilitated by the co-operative marketing organizations and by bankers in the affected areas, who have shown commendable eagerness to place every possible means of aid at the disposal of the cotton growers.

From the point of view of the cotton textile industry, the prospect of plentiful supplies of raw materials at low prices is encouraging. Up to the present time the decline in prices of cotton fabrics has not kept pace with the decline in the price of raw cotton, so that price relationships between raw and finished goods are more favorable than at any other time in the last five years. While it is likely that the prices of fabrics will show some sympathetic weakness, there is reason to hope that the third consecutive large cotton crop will result in hastening the recovery of the industry from the prolonged depression through which it has passed. The present low price of raw cotton will also stimulate consumption in Europe.

The London Manifesto.

The economic manifesto issued in London on Oct. 19 over the signatures of leading bankers and business men of sixteen countries is by far the most important expression that has yet appeared of a point of view which has gained wide adherence in the last few years. This is that the existing system of international tariff barriers not only is fundamentally wrong, but is especially unfortunate in Europe at present in that it hampers the recovery of the world, and particularly that of the former belligerent countries of Europe, from the economic loss and disorder wrought by the war.

To what extent the appeal is directed at the traditional American policy of tariff protection can only be surmised. It is perhaps significant that the name of no industrialist appears among the American signers. While the Administration has not yet adopted a formal attitude toward the document, the President's opinion is reported to be that not much could be done in the way of downward revision of the American tariff without endangering the economic welfare of the country.

Trade Activity Sustained.

Business in general continues in about the same volume as a month ago. Check payments in September and the first half of October continued slightly above the totals for the corresponding periods last year. Railway freight loadings have remained practically at the peak. The leading branches of industry make an even more favorable showing. Commodity prices in general have shown increased firmness for some time. Money rates have shown further moderate advances. A more definite tendency toward lower price levels in the stock market has developed since the beginning of this month, although there has been nothing in the nature of a violent break in values. Railroad shares have continued to exhibit surprising strength. Business failures last month were fewer than in August or in September 1925, and the total for the third quarter is by far the lowest for the year to date.

Index Numbers of Retail Food Prices.

As we indicated last week (page 2049) the retail food index issued by the Bureau of Labor Statistics of the United States Department of Labor shows for Sept. 15 1926 an increase of about 1¾% since Aug. 15 1926; a decrease of nearly one-third of 1% since Sept. 15 1925, and an increase of a little more than 54½% since Sept. 15 1913. The index number of the principal articles of food are indicated in the Bureau's tabulation, as follows:

INDEX NUMBERS OF RETAIL PRICES OF THE PRINCIPAL ARTICLES OF FOOD IN THE UNITED STATES.

Year and Month.	Sirl'n Steak	Round Steak	Rib Roast	Chuck Roast	Plate Beef	Pork Chops	Bacon	Ham	Hens	Milk.	Butter.	Ch'se
1907 -----	71.5	68.0	76.1	----	----	74.3	74.4	75.7	81.4	87.2	85.3	----

General Stability Found in Credit Men's Survey.

General stability exists throughout business, according to the monthly business and credit survey of the Research Department of the National Association of Credit Men just made public. Mr. Tregoe, Executive Manager of the association, said in commenting on the survey:

The situation is inherently sound; it calls for neither apprehension nor jubilation. Producers and distributers who are going ahead carefully, and most of them appear to be doing just that, are confident of stable business conditions for at least several months to come. While the cotton situation calls for immediate and thoughtful attention, there seems to be a general feeling that some plan of warehousing and restriction of next year's crop will meet the problem satisfactorily. One of the encouraging signs of 1926 is that when a really serious problem comes up, American business refuses to become panicky, but immediately attacks the question vigorously and intelligently, and by so doing steadies itself and offsets any tendency toward disorganization that may appear.

The report of the Research Department based on a survey conducted among credit managers and treasurers in New England reads as follows:

Of the concerns reporting, more than three-quarters found their sales for September were greater than those of August. About 60%, however, found increased sales in September 1926 as compared with September 1925. Considerably more than 60% of the credit managers found that their sales for the first nine months of 1926 were considerably better than for the first nine months of 1925.

Collections were found generally favorable and more than 70% of the managers found their collections were larger in September than in August. Accounts receivable were somewhat larger on Oct. 1 1926 than on Oct. 1 1925, but the difference was not greatly marked.

Anticipation of failures for the remainder of the year as compared with the same period last year are encouraging, as about 60% look forward to no increase and a probable decrease in the number of failures. For the remainder of 1926 more than 80% of the credit managers expect improved sales and collections.

The opinions of some of the credit managers who supplied the information reflect many encouraging and a few discouraging features. A number of them are convinced that the stocks of goods on retailers' shelves are sufciiently low to stimulate buying within a short time. Many of them also discovered a feeling of optimism in many quarters, which is indicative of a healthier state of mind among business men than a year ago.

In this district the credit managers find industrial conditions showing improvement with a large majority of factories working at nearly full time. On the other hand, some of the credit managers believe that the country is overbuilt and express a fear for the future in this field of activity. In the retail field a number of the reporting concerns are convinced that there are entirely too many retailers in business in proportion to the population. A limited number in a few fields, particularly iron, discovered a general sagging.

First National Bank of Boston Reports New England Business as Showing Steady Gain.

The First National Bank of Bost n in its New England letter, issued under date of Oct. 25, finds business in that section showing a steady gain since mid-summer. We quote what it has to say herewith:

Business operations are proceeding into the autumn months on a high basis of activity. The upturn this fall was not so marked as a year ago, owing to the remarkable stability that prevailed during the summer months. Business sentiment is characterized by restrained optimism.

General Conditions.

Production in basic industries during September was slightly above the preceding month and well above a year ago. Declines in some of the major industries were more than offset by advances in a number of other lines. Steel mills are operating at about 84% capacity, although shipments are under production. While structural business has declined, the buying of rails and cars has been unusually heavy. Production of motor vehicles for September was 6.7% below August, but the output for the first nine months exceeded the corresponding period of 1925 by 14%. Following a period of unusually heavy activity, building operations for the past month were 8% below August, but for the nine-months' period were substantially above a year ago.

The textile situation appears to be improving all along the line. Silk mills have enjoyed a good volume of business for the past two months, and the outlook is promising for the remainder of the year. Operations in the silk industry declined slightly during September, but this is attributed to seasonal causes. The woolen industry has been working into a much better position, with sales on the increase and prices firmer. The stability of raw wool prices for the past few months has afforded a satisfacotry basis for transacting business. On the other hand, the sharp break in cotton prices has had a restraining influence upon the goods market, although the outlook for the cotton industry, in view of the possibility of increased profit margins and larger volume of business, appears very promising at the moment. The most serious handicap that the industry may face will be the tendency toward over-production. Leather business is reported to be increasing in volume, and operations of factories during September were well above the preceding month and a year ago. The hide market is at the high point of the year, and leather prices are tending upward, although only a fair volume of business is reported.

Since midsummer, New England business has shown a steady gain. Better sentiment prevails than for some time past. Many firms are operating at capacity. According to a report by the Department of Labor and Industries, employment in Massachusetts during September increased 3.8% over the preceding month. Out of 39 leading industries, all but 3 registered gains in employment over August. Sixty-six per cent of the workers were on a full-time basis.

Distirbution of goods continues in heavy volume. Mail-order houses, chain stores and department stores report large increases over the corresponding period of 1925. This is substantiated by heavy car loadings, which for the first nine months of this year were well above a year ago.

Wholesale commodity prices, as reflected by the leading indices, have shown signs of stability. Some individual commodities, however, have deviated sharply from the general trend. Silver prices have dropped to the lowest point since 1921, as a result of the heavy accumulation of stocks at Shanghai, and in anticipation of the establishment of the gold standard in India, which country has been consuming about one-third of the world's silver supply. Reflecting indications of a record crop, cotton prices have declined to the lowest point in eleven years.

Following a sharp advance in money rates since July, an easier tendency now prevails. This has been brought about by liquidation in the stock market and also by the fact that the seasonal commercial requirements largely have been met. Following the close of the crop moving period, a further relaxation in the money market is anticipated.

Indications are that business will continue good throgh the fall months. Some of the irregularities that are appearing in certain industries and in agriculture may bring about a let-down in business activity, but any reaction is likely to be moderate in extent.

Business Conditions in Philadelphia Federal Reserve District—Expanding Trade Reported.

The early fall has witnessed a general expansion of business activity in the Philadelphia Federal Reserve District, the Federal Reserve Bank of Philadelphia states in its review of the month, from which we also take the following:

Much of the recent increase, it is true, is of a seasonal nature, but in most lines of business the current volume is well ahead of that of last year and of 1924. Manufacturing activity in the district has increased steadily since early summer. The current rate of operations is equal to the high level of February and March of this year, and is as great as at any time in the past two years. Building operations in the district also continue very active and the anthracite mines are working close to capacity. Business payments, as reflected by debits in the leading cities of the district, have shown seasonal expansion since August and continue as in practically every month of the present year, to exceed the volume in the corresponding months of previous years. Distribution of goods in the district continues at an active rate. Freight car loadings in the Allegheny district have increased seasonally in September and October and are well above the level of any previous fall. Wholesale business in dry goods, electrical supplies and jewelry was smaller than in September 1925, but all other lines of wholesale and retail trade showed large gains in September and current sales continue above those of last year. Retail sales not only have been larger, but stocks of goods are smaller and turnover more rapid this fall than in 1925.

The iron and steel industry in the district reports active buying of most products, with nearly all classes of buyers in the market. Iron and steel foundries in the district are active and the volume of production, shipments and unfilled orders has been well above that of the fall of 1925. Output of pig iron and steel ingots in the United States held close to August levels, but was considerably larger than in 1925, while unfilled orders of the Steel Corporation, though increasing from August to September, were less in the latter month than in September 1925. Good demand exists for anthracite and the market for steam sizes and soft coal is, seasonally, more active. Prices are higher on some grades of both hard and soft coals.

The woolen and worsted industry reports the greatest improvement among the textiles. Current sales at strong and higher prices are larger than last month or a year ago and mill activity is greater than at any time in the past ten months. The prospect of a record high yield has upset the raw cotton market and quotations for finished goods have also declined. Cotton mills in the district, however, are quite active and have an increased volume of orders on their books. Silk mills also are more active, filling increased orders, though mill operations, at 80% of capacity, are less than they were a year ago. Many hosiery mills have increased operations. Demand for most seamless grades is only fair, but women's full-fashioned hosiery continues in good request and mills making this grade are operating close to capacity. Moderate improvement is reported in the market for carpets and rugs, but mill operations in the district continue at about 60% of capacity.

Considerable improvement has occurred in the leather industries. Packer hides are in strong demand and kid and sole leather are also selling more actively with some price advances in the latter. Shoe manufacturers report fair demand and some increase in orders over last month.

Heavy rains throughout the district have delayed harvesting and have resulted in some crop damage. The oat, buckwheat, potato, corn and tobacco crops will have smaller yields than last year, but fruit and truck crops in the main compare well both in quantity and quality with those of last season.

City Conditions.

Most of the cities in the district have shared in the recent seasonal expansion of industry and trade. In all but three of the city areas for which information is shown in the accompanying table [This we omit.—Ed.], factory operations were more active in September, while check payments were larger in all cities but Harrisburg. Retail trade conditions were somewhat mixed. Philadelphia stores showed a gain of nearly 33%, while five cities reported declines, the largest, of 8%, occurring in Reading.

As compared with 1925, the Wilmington area showed the greatest improvements, with large increases in employment, wage payments, debits and retail trade. Similar improvement, though somewhat less pronounced, also is indicated in Philadelphia, Wilkes-Barre and York. In Harrisburg and Reading, there were substantial gains in factory wage payments over last year, but retail sales in both areas were smaller than in September 1925. Lancaster reported declines in nearly all indicators, while factory operations were less active in the Allentown, Scranton and Williamsport areas.

Retail Trade.

Business at retail in this district continues seasonally active, although sales since Sept. 20 have been a trifle behind the volume in the same period last year. With the exception of slight recessions in cotton goods, prices remain practically unchanged.

During September sales by reporting firms were 4.6% greater than those in the same month last year, and the volume of busines in the first nine months of this year exceeded that for the corresponding period of 1925 by 2.9%. Increased sales are reported by department, apparel and shoe stores, whereas credit houses report a slight decline compared with sales of a year ago. Gains over sales for September 1925 were shown in Philadelphia, Altoona, Scranton, Wilkes-Barre, Williamstown, Easton, Wilmington and York, whereas losses were reported by Allentown, Bethlehem, Chester, Harrisburg, Johnstown, Lancaster, Reading and Trenton. Retail stocks at the end of September were somewhat lighter than those on the same date last year.

Wholesale Trade.

Trading at wholesale continues active and the volume of sales since Sept. 20 compares favorably with that of the year previous. During September, sales in all lines were seasonally greater than those in August. Compared with that for September 1925, business in shoes, drugs, groceries, hardware and paper was larger, whereas sales of dry goods, electrical supplies and jewelry were a little smaller. Stocks at the end of September, generally, were moderate, and accounts, outstanding on Sept. 30 were, in most cases, above those of a year ago.

Drugs.

Sales of drugs, which during September rose 4.8% over those in August and 2.1% over those of a year ago, continue in moderate volume. Prices remain unchanged. Stocks at the end of September were 9% heavier than those on the same date last year. Accounts outstanding also were 2.2% greater than those of the year previous.

Merchandising Conditions in Chicago Federal Reserve District—Increased Activity in Wholesale and Retail Trade.

Increased activity is reported in wholesale and retail trade in the survey of merchandising conditions contained in the "Monthly Business Conditions Report" of the Federal Reserve Bank of Chicago; the bank says:

Wholesale Trade.

September wholesale trade statistics reported to this bank reflect the broadened activity usual in the fall. Each of the five commodity groups

registered expansion over August in sales and collections, higher accounts outstanding, and lower inventories. Individually, the large majority showed gains in sales and accounts on the books, two-thirds in collections, and 33 out of 57 reduced their stocks during the month.

In comparison with September 1925, the majority of grocery, hardware, dry goods and shoe dealers reported a larger volume of goods sold this year, while in drugs all except one registered a decline. Cumulative sales for the first three-quarters of 1926 are below last year for 46 firms and above for 36, with the grocery group averaging the one increase. Other comparisons with a year ago vary, about half the firms reporting smaller collections and accounts receivable, and lower inventories; grocery dealers averaged gains in all three items, and dry goods firms declines, while in hardware, drugs and shoes trends were mixed.

Department Store Trade.

Department store trade in this district during September developed the customary seasonal features: an increase over the preceding month in the volume of goods sold and of collections received, with an advance in accounts outstanding, and a general addition to inventories. Aggregates in all four items, furthermore, were ahead of a year ago.

Individually, four-fifths of the stores reported heavier sales than in August and three-fourths larger than in September 1925, with 66% showing gains for the first nine months over last year; district increases amounted to 31.8%, 11.4 and 7.9%, respectively, in these comparisons. The advance in accounts outstanding of 14.5% between Aug. 31 and Sept. 30 reflects 59 increases and 9 declines, while the 2.9% increase in September collections over August represents 38 gains and 30 declines; in comparison with a year ago three-fourths of the firms reported heavier accounts on their books, and two-thirds larger collections.

With six exceptions, Sept. 30 inventories exceeded holdings on Aug. 31, the group of 66 averaging an increase of 6.6%; unfilled orders for new goods dropped during the month from 11.4% of 1295 purchases to 11.0%. In comparison with Sept. 30 1925, increased stocks held by 22 stores offset declines for the others by 3.0%; September sales amounted to 35.4% of average goods held, as against 32.5% last year; corresponding ratios for the nine month periods are 274.8 and 360.8, respectively.

Retail Furniture Trade.

September sales of furniture, furnishings and equipment by 35 retail dealers in this district gained 45.8% over August, and for 36 were 11.0% heavier than a year ago; corresponding increases in installment trade as reported by nine houses, amounted to 27.4 and 18.8%, respectively. Total collections advanced 2.8% in the month-to-month comparison, but were 2.4% below September 1925, while installment payments increased 10.0 and 7.0% in the two comparisons. Accounts outstanding rose 2.3% during the month to 6.7% higher than on Sept. 30 1925. Inventories at the end of the month for 21 firms aggregated 3.0% higher than on Aug. 31, and for 22, 14.9% above last year.

Retail Shoe Trade.

As is customary, retail shoe trade expanded during September. Forty-three reports received by this bank totaled sales 34.8% higher than the August volume, individually 35 firms indicating increases. In comparison with a year ago, 32 gains and 13 decreases averaged a net advance of 11.8%. Collections likewise were heavier than in August or in September 1925. For 19 firms accounts outstanding on Sept. 30 amounted to 76.9% of the month's sales as compared with 79.1% the corresponding Aug. 31 ratio Aggregate inventories were 2.5% higher than at the close of August and 1.0% in excess of last year; two-thirds of the firms showed increases in the former comparison and half in the latter.

Increase in Canadian Exports of Pulp and Paper During September.

The monthly report issued by the Canadian Pulp & Paper Association, shows that exports of pulp and paper in September were valued at $15,219,210, an increase of $1,268,389 over the total for the previous month. According to the Montreal "Gazette" of Oct. 25, which also contains the following advices:

Exports of wood-pulp in September were valued at $5,133,406, as compared with $3,614,873 in August, and exports of paper at $10,085,804, as compared with $10,335,948 in August.

Detailed comparison with the totals for September, 1925 and 1926, is shown below:

	September 1926		September 1925	
Pulp—	*Tons.*	$	*Tons*	$
Mechanical	58,246	1,910,517	40,127	1,223,991
Sulphite Bl	16,404	1,325,659	17,308	1,331,750
Sulphite, unbid	19,034	1,071,182	26,286	1,520,860
Sulphite	13,390	826,048	12,694	766,625

All other	------	361,342	------	375,643
		10,085,804		8,842,780

The value of the pulp and paper exports during the first nine months of the year amounted to $127,090,721 an increase of $15,570,856, or 14% over the value for the corresponding months of 1925.

Exports of wood-pulp in this period were valued at $38,371,467, and exports of paper at $88,719,254, compared with $34,181,917, and $77,337,948 respectively in the first nine months of 1925.

Figures for the nine months are as follows:

	9 Months 1926		9 Months 1925	
Pulp—	*Tons*	$	*Tons.*	$
Mechanical	275,387	8,343,600	227,765	6,701,435

All other	------	3,282,051	------	3,132,317
		88,719,254		77,337,948

Pulpwood exports have been smaller this year than in 1925, the total for the nine months being 1,112,764 cords, valued at $11,064,662 compared with 1,185,495 cords valued at $11,775,969 in the nine months of 1925.

Effect of Cotton Price Decline on Textile Industry in Boston Federal Reserve District.

According to the "Monthly Review" (dated Nov. 1) of the Federal Reserve Bank of Boston "the drastic decline in cotton prices, accompanying reports of an unusually large crop, has complicated the New England business situation." Continuing the Bank says:

The drastic decline in cotton prices, accompanying reports of an unusually large crop, has complicated the New England business situation. In August and early September there was a big buying movement in cotton goods, resulting in a material improvement in New England mill activity, but the lower price for raw cotton soon brought this period of good business to an end. About the same time the wool market became less active, after a period of considerable strength and good buying. The silk market turned weak during the first half of October. This combination of circumstances has introduced an element of uncertainty into the textile industry of this district. Reports which have recently become available show that, taking New England as a whole, business activity was noticeably better in September than in August, continuing an improvement which began in July. The rate of activity in September this year was not as high as a year ago, but was better than either two or three years ago. Activity in Metropolitan Boston increased in September even more rapidly than in New England as a unit. These reports, based on records of the physical volume of business, such as the number of pairs of shoes produced, the number of railroad cars loaded, &c., indicate a relatively better condition than do reports of the value of business paid for by checks. Check payments in New England centers outside of Boston, after allowance is made for the usual fluctuation, declined in September. Furthermore, if consideration be taken of the continual tendency toward a greater use of checks, it will be found that the current level of check payments is not high. This agrees with the general level of the New England Business Activity Index, a measure which is not affected by changing commodity prices. Department store trade in this district during September was larger than a year ago and the daily average of sales in Boston in the early part of October was above that of last year, when sales were exceptionally good. Retail trade collections were very poor in September, in fact, about the slowest on record. Outstanding orders for merchandise, on the other hand, have increased rapidly in the past few months. Early frost in September and snow in some parts of New England in October apparently have not damaged the important cash crops. Cranberry and apple crops are unusually large and prices are poor. The yield of potatoes, on the contrary, is below average and prices are good for the second year in succession. Money rates were quite steady in October, at a slightly higher level than in September. The rise has been due in part to seasonal demands for credit.

Activities of Hosiery Mills in Philadelphia Federal Reserve District.

The following preliminary report on the hosiery industry compiled by the Bureau of the Census, is issued by the Federal Reserve Bank of Philadelphia:

The following table shows the activities of the hosiery mills in the Third Federal Reserve District in September and a comparison with those of August.

Shipments of Standard Cotton Textiles in First Half of October Exceed Production.

Shipments of standard cotton textiles during the first 15 days of October exceeded production for the same period by 10,551,000 yds., or 10%, according to figures just compiled by the Association of Cotton Textile Merchants of New York. Shipments for these two weeks totalled 115,871,000 yds., against production of 105,320,000 yds. The association's announcement, made publuic Oct. 25, also says:

These figures include all yardage reports made to the association by its members, and represent a large majority of all the standard cotton textiles produced in the United States. More than 200 kinds of cotton cloth are included. Fancy or special cloths which are individual in design are not grouped in the reports because they cannot be classed under statistical summaries.

During the period under review stocks continued the decline which has been evident under persistent buying demand since last July. Stocks on hand Oct. 15 totalled 213,757,000 yds., against 224,308,000 yds. Oct. 1, a decline of 4.7%. Since July 1, when stocks were 305,425,000 yds., the

decline amounts to 27.7%. Stocks have been decreasing by about 4% during every two-week period for several months.

Unfilled orders Oct. 15 totalled 309,823,000 yds., a decrease of 8.6% from the total of 338,650,000 yds. reported Oct. 1, but an increase of about 65% since July 1, when unfilled orders totalled 187,837,000 yds.

Sales for the period from Oct. 1 to 15 aggregated 87,044,000 yds., or 83% of the production for the period.

Exports of Cotton, Cotton Cloths, Yarns, Thread and Hosiery.

The Department of Commerce at Washington on Oct. 26 issued its monthly report on the domestic exports of cotton, cotton cloths, yarns, thread and hosiery for the month of September and the nine months ending with September 1926, with comparisons for the corresponding periods a year ago. The exports of raw cotton were larger this year in quantity, but smaller in value than in the month of September 1925, 794,584 bales having been shipped out in September 1926 as compared with 752,324 bales in September 1925, the value of these exports, however, was only $76,955,337, as against $97,439,995. For the nine months' period ending with September this year the exports of raw cotton are smaller in both quantity and value than in the corresponding period a year ago, 4,660,971 bales having been shipped out in the nine months' period ending with September 1926, as against 4,919,914 bales in the nine months' period ending with September 1925. The value of the exports is placed at only $477,800,287 as compared with $632,773,412. The exports of cotton cloths and cotton manufactures show a decrease in quantity and value for the nine months' period. Below is the report in full:

DOMESTIC EXPORTS OF COTTON, COTTON CLOTHS, YARNS, THREADS AND HOSIERY.

	Month of September.		9 Mos. Ended September.	
	1925.	1926.	1925.	1926.

* Beginning Jan. 1 1926.

Great Britain Renews Stevenson Rubber Restrictions with Added Export Regulations.

According to London Associated Press cablegrams Oct. 24, the Colonial Office has decided that the Stevenson Scheme for the restriction of rubber exports from Ceylon and Malaya shall continue for at least another year, but under new regulations. These regulations will be put into effect Nov. 1 and will not be changed until November 1927. In indicating the new regulations which will govern exports, the Associated Press accounts state:

If it should then be decided to continue the policy of restriction for a further period, the official statement says, any changes that may then be considered desirable will be made.

Following are the new regulations:

1. If the average price of rubber in London is under 21 pence, but not under 15 pence per pound during any quarter, the exportable percentage of standard productions for the ensuing quarter at the minimum rate of duty will be reduced by 10. If, however, the reduction thus effected is a reduction from the figure of 100%, the reduced percentage for the ensuing quarter will be 80.

2. If the average price of any quarter is not under 21 pence, but less than 24 pence, there will be no change in the ensuing quarter. If, however, in each of the three consecutive quarters the average price is not under 21 pence, then the percentage for the ensuing quarter will be increased by 10.

3. If the average price for any quarter is 24 pence, or over, the percentage will be increased by 10 for the ensuing quarter. If, however, the increase effectable under this regulation is an increase from 80%, the increased percentage for the ensuing quarter will be 100.

4. If the average descends below 15 pence in any quarter, the percentage in the ensuing quarter will be reduced to 60.

5. If the average exceeds 36 pence in any quarter, the percentgae in the ensuing quarter will be increased to 100.

6. In no case will the percentage be increased above 100 or decreased below 60.

By the Government's proposed new rubber regulations it seems probable that the coming quarter will see a reduction of the exportable allowance from the present 100% to 80%. The average price of rubber for the current quarter up to Oct. 20 was 20.149 pence, and the average must exceed 21 pence to justify continuance of the 100% standard of exports.

Apprehension had existed in the market that the Colonial Office might decide to cancel unused export coupons as a further measure of restriction. These unused coupons would permit the export of an additional 40,000 tons, and as they have not been interfered with, it is estimated that they will counteract a 20% reduction in the exportable allowance for another six months.

It is recognized in the rubber market in London that the situation is still largely dominated by the United States and depends to some extent on the growth of the motor industry in America, and that, although in the current year production exceeded consumption by, roughly, 40,000 tons, such surplus would be none too high if the American motor industry developed as expected.

Domestic Exports of Grains and Grain Products.

The Department of Commerce at Washington gave out on Oct. 23 its monthly report on the exports of principal grains and grain products for September and the nine months ending with September, as compared with the corresponding periods a year ago. As was the case in the previous month, the total value of these exports shows a very substantial ncrease over the same month of 1925, being $50,950,000 in September 1926, against but $35,898,000 in September 1925. Wheat exports in September this year were 23,700,000 bushels, as against only 9,391,000 bushels a year ago; exports of wheat flour amounted to 1,560,000 barrels, against 800,000 barrels; rice exports, 2,633,000 pounds, against only 1,068,000 pounds, and rye exports, 2,122,000 bushels, against 1,042,000 bushels. Barley, malt, oats and corn, however, went out in smaller quantities in September 1926 as compared with September 1925. The details are as follows:

DOMESTIC EXPORTS OF PRINCIPAL GRAINS AND GRAIN PRODUCTS.

	September.		August 1926.	9 Mos. End. September.	
	1925.	1926.		1925.	1926.
Barley, bushels	9,601,000	2,663,000	1,523,000	22,594,000	10,183,000
Value	$8,255,000	$1,914,000	$1,185,000	$21,351,000	$7,743,000
Malt, bushels	284,000	249,000	206,000	3,816,000	2,538,000
Corn, bushels	1,121,000	883,000	1,029,000	7,294,000	18,214,000
Value	$1,214,000	$757,000	$976,000	$9,175,000	$16,062,000
Cornmeal, barrels	30,000	42,000	32,000	233,000	316,000

New Models and Prices of Automobiles.

The Studebaker Corporation has added to its line of closed cars a "Big Six" custom victoria for four passengers. Standard equipment includes four-wheel brakes of the Studebaker design, disc wheels, full size balloon tires, front and rear bumpers, automatic windshield cleaner, rear vision mirror and rear traffic signal light.

Reports are current that the Marmon Motor Car Co. is planning to introduce about Dec. 1 a new line of eight-cylinder passenger automobiles priced somewhat under the present model "75" line.

Automobile Parts—Accessory Production Shows Decline.

Automotive parts and accessory production, which showed a moderate decline in September from the August level, shows a further moderate recession for October, according to the Motor & Accessory Manufacturers Association, and is in line with the curtailment of production in the automobile plants, and the general seasonal recession in most of the major industries from the high levels of production activities that have been maintained throughout the summer months.

Taking 100 as the index figure for January 1925, the monthly business bulletin of the association, just issued to members, shows total parts, accessory and service equipment wholesale sales for September at an index figure of 147, as compared with 152 for August, 133 for July and 141 for June. Parts and accessory shipments to car and truck manufacturers for original equipment stood at an aggregate figure of 151 for September, compared with 157 for August, 135 for July and 140 for June.

Shipments to the trade by manufactures of replacement parts in September stood at 120, showing no change from the August figure, and comparing with 117 for July and

135 for June. Accessory shipments to the trade were 126 for September, as compared with 131 for August, 127 for July and 140 for June. Shop equipment and tools were 165 for the month, compared with 166 for August, 142 for July and 184 for June.

Automotive equipment jobbers, reporting to the association from all parts of the United States and Canada, indicated that their September business ranged substantially ahead of August sales, and maintained a lead over the same period last year. Some further recession is looked for in November, but it will be moderate, it is stated, and so far appears no more than seasonal.

Increasing Retail and Wholesale Sales of Automobiles in Philadelphia Federal Reserve District.

Both the number and value of automobiles sold at retail and wholesale during September by 16 distributors in the Philadelphia Federal Reserve District increased considerably over the volume in the preceding month, although business in medium-priced cars decreased. Trading in used cars and deferred payment sales declined noticeably in number and value. In announcing this, the Federal Reserve Bank of Philadelphia says:

Compared with a year ago, aggregate sales of new cars at wholesale rose again. Retail sales of less expensive cars and deferred payment sales were much larger, but business in medium and high-priced cars dropped considerably. Stocks of cars selling at over $2,000 at the end of September were about 27% heavier than those on the same date last year, whereas supplies of less expensive and medium-priced cars were lighter.

AUTOMOBILE TRADE—PHILADELPHIA FEDERAL RESERVE DISTRICT—SIXTEEN DISTRIBUTORS.

	September 1926 Change from August 1926—Number.	Change from August 1926—Value.	Change from September 1925—Number.	Change from September 1925—Value.
Sales of new cars at wholesale	+5.9%	+4.8%	+16.7%	+18.8%
Cars selling under $1,000	+18.9	+18.7	+3.4	+4.1
Cars selling from $1,000 to $2,000	—11.9	—8.0	+88.8	+70.5
Cars selling over $2,000	+8.1	+9.3	—2.6	+1.1
Sales of new cars at retail	+5.1	+6.6	+19.8	+17.9
Cars selling under $1,000	+5.3	+5.0	+26.6	+57.8

Increase in Steel and Iron Foundry Operations in Philadelphia Federal Reserve District.

According to the Federal Reserve Bank of Philadelphia, production and shipments of steel castings in this district during September exceeded considerably the volume in the previous month and that in September 1925. Unfilled orders, too, though smaller than in August, were over 31% above those of a year ago. Details are given in the following table:

STEEL FOUNDRY OPERATIONS, THIRD FEDERAL RESERVE DISTRICT.

	September 1926.	P. C. Change Month ago.	P. C. Change Year ago.
Capacity, tons	11,840	0.0	0.0
Production, tons	7,784	+15.9	+56.8
Shipments, tons	5,257	+8.1	+38.0
Value	$1,021,076	+37.0	+26.5
Unfilled orders, tons*	3,702	—23.5	+31.2
Value*	$715,543	—26.2	+45.0
Raw stock—Pig iron, tons	2,133	—2.6	+22.0
Scrap, tons	6,927	+0.2	—24.0
Coke, tons	908	+37.4	—5.0

* Figures of one plant omitted.

Regarding iron foundry operations, the bank says:

The physical volume of shipments and unfilled orders during September increased 11 and 15%, respectively, over that in August, and the output of malleable iron castings was 7.4% higher. Compared with that of the year before, unfilled orders, shipments and production were greater, the output of gray iron castings for sale alone showing a slight decline. Stocks of pig iron and scrap were considerably heavier than those at the end of September 1925, but supplies of coke were much lighter. Details are given in the table below:

IRON FOUNDRY OPERATIONS, THIRD FEDERAL RESERVE DISTRICT.

	September 1926.	P. C. Change Month ago.	P. C. Change Year ago.
Capacity, tons	11,326	0.0	0.0
Production, tons	5,294	—2.3	+7.7

Value	$760,093	+3.1	—2.2
Raw stock—Pig iron, tons	6,164	+13.2	+34.6
Scrap, tons	3,350	+31.6	+37.8
Coke, tons	1,647	—10.1	—24.2

Increased Activity in Electric Power Operations in Philadelphia Federal Reserve District.

Operations of electric power systems in the Philadelphia Federal Reserve District were considerably more active in September than in August, although actual increases in output and sales were small, owing to there being fewer days in that month. Sales for lighting showed large seasonal gains and were well ahead of last year's level, says the Federal Reserve Bank of Philadelphia. Consumption of electricity for power purposes was only fractionally higher in September, but that month's total was 21% above that of last year, while industrial purchases were 0.5% larger than in August and 27% ahead of 1925. The statistics follow:

ELECTRIC POWER—PHILADELPHIA FEDERAL RESERVE DISTRICT—TWELVE SYSTEMS.

	September 1926.	Change from Aug. 1926.	Change from Sept. 1925.
Rated generator capacity	1,295,000 k.w.	—0.0%	+17.4%
Generated output	372,252,000 k.w.h.	+1.6	+19.0
Hydro-electric	14,673,000 k.w.h.	+56.8	+434.1
Steam	309,671,000 k.w.h.	—0.9	+12.4
Purchased	47,908,000 k.w.h.	+7.3	+38.0
Sales of electricity	296,168,000 k.w.h.	+2.3	+21.1
Lighting	50,674,000 k.w.h.	+13.1	+21.3
Municipal	7,171,000 k.w.h.	+12.1	+8.4
Residential and commercial	43,503,000 k.w.h.	+13.3	+23.7
Power	213,449,000 k.w.h.	+-0.5	+20.8
Municipal	1,726,000 k.w.h.	—3.7	+5.5
Street cars and railroads	41,426,000 k.w.h.	+0.7	+1.3
Industries	170,297,000 k.w.h.	+0.5	+27.0
All other sales	32,045,000 k.w.h.	—0.7	+22.9

Lumber Industry Maintains Rate of Activity.

Reports received by the National Lumber Manufacturers Association covering the activities of 376 of the principal softwood, and 137 of the chief hardwood, lumber mills of the country, indicate a satisfactory current trend in the lumber industry. In comparison with reports for the week earlier, production and new business appear to be about the same, allowing for difference in number of reporting mills, with a slight increase in shipments. When compared with reports for the same period of 1925, there was little or no change.

The hardwood operations show apparent increases in production, shipments and new business, but the number of mills reporting this week is larger than last. Further facts are given in the Association's report, from which we quote:

Unfilled Orders.

The unfilled orders of 233 Southern pine and West Coast mills at the end of last week amounted to 639,171,767 ft., as against 635,077,591 ft. for 232 mills the previous week. The 124 identical Southern pine mills in the group showed unfilled orders of 243,103,432 ft. last week, as against 251,105,985 ft. for the week before. For the 109 West Coast mills the unfilled orders were 396,068,335 ft., as against 383,971,607 ft. for 108 mills a week earlier.

Altogether the 363 comparably reporting softwood mills had shipments 97% and orders 96% of actual production For the Southern pine mills these percentages were respectively 106 and 94, and for the West Coast mills 88 and 96.

Of the reporting mills, the 333 with an established normal production for the week of 227,545,029 ft., gave actual production 100%, shipments 98% and orders 97% thereof.

The following table compares the softwood lumber movement, as reflected by the reporting mills of seven regional associations, for the three weeks indicated:

	Past Week.	Corresponding Week, 1925.	Preceding Week 1926 (Revised).
Mills	363	348	353
Production	241,602,086	233,724,342	242,609,606
Shipments	235,142,177	232,575,623	226,976,979
Orders (new business)	232,268,180	230,149,136	239,951,695

The following revised figures compare the softwood lumber movement of the same seven regional associations for the first 42 weeks of 1926 with the same period of 1925:

	Production.	Shipments.	Orders.
1926	10,054,250,370	10,264,476,317	10,255,284,911
1925	10,195,061,055	10,094,253,405	9,909,184,325

The mills of the California White and Sugar Pine Association make weekly reports, but not being comparable, they are not included in the foregoing tables or in the regional tabulation below. Thirteen of these mills, representing 41% of the cut of the California pine region, gave their production for the week as 17,866,000 feet, shipments 13,874,000 and new business 17,272,000. Last week's report from 18 mills, representing 49% of the cut, was: Production, 23,478,000 feet; shipments, 16,833,000, and new business, 15,403,000.

West Coast Movement.

The West Coast Lumbermen's Association wired from Seattle that of all new business taken for the 109 mills reporting for the week ended Oct. 23, 52% was for future water delivery, amounting to 58,344,634 feet, of which 36,544,634 feet was for domestic cargo delivery, and 21,800,000 feet export. New business by rail amounted to 47,826,021 feet, or 43% of the week's new business. Forty-three per cent of the week's shipments moved by water, amounting to 44,768,899 feet, of which 32,118,441 feet moved coastwise and intercoastal, and 12,650,548 feet export. Rail shipments totaled 52,020,491 feet, or 51% of the week's shipments, and local deliveries 6,272,521 feet. Unshipped domestic cargo orders totaled 151,773,395 feet, foreign 132,664,499 feet and rail trade 111,630,441 feet.

Labor.

Employment in the Pacific Northwest is holding at a higher point than is usual at this time of year, according to the Four L Employment Service. Logging, both east and west of the Cascades, is well into the fall stride, and there is a much greater amount of general construction work being done than during October of last year. Douglas fir sawmills are operating on schedules that have held since midsummer. The pine sawmill industry is gradually tapering off for the season.

Southern Pine Reports.

The Southern Pine Association reports from New Orleans that for 124 mills reporting shipments were 5.74% above production and orders 5.98% below production and 11.08% below shipments. New business taken during the week amounted to 64,207,004 feet, shipments 72,209,556 feet and

production 68,289,319 feet. The normal production of these mills is 75,580,549 feet. Of the 121 mills reporting running time, 78 operated full time, 21 of the latter overtime. Three mills were shut down, and the rest operated from one to five and one-half days.

The Western Pine Manufacturers' Association of Portland, Ore., with four more mills reporting, shows some decrease in production, and shipments and new business somewhat in advance of that reported for the week earlier.

The California Redwood Association of San Francisco, Calif., reports a nomial decrease in production, a marked decrease in shipments and a heavy decrease in new business.

The North Carolina Pine Association of Norfolk, Va., with seven more mills reporting, shows some decrease in production, a slight increase in shipments and a considerable reduction in new business.

The Northern Pine Manufacturers Association of Minneapolis, Minn., with two more mills reporting, shows a little increase in production, and a slight decrease in shipments and new business.

The Northern Hemlock & Hardwood Manufacturers Association of Oshkosh, Wis. (in its softwood production) with five more mills reporting, shows a substantial increase in production, some decrease in shipments, and new business well in advance of that reported for the previous week.

Hardwood Reports.

The hardwood mills of the Northern Hemlock & Hardwood Manufacturers Association reported from 21 mills, production as 1,620,C00 ft., shipments 4,070,000 and orders 3,446,000.

The Hardwood Manufacturers Institute of Memphis, Tenn., reported from 116 units, production as 19,025,752 ft., shipments 20,903,564 and orders 19,514,772. The normal production of these units is 20,008,000 ft.

The two hardwood groups totals for the week as compared with the preceding week are:

	Mills.	*Production.*	*Shipments.*	*Orders.*
Week ended Oct. 23	137	20,645,752	24,973,564	22,960,772
Week ended Oct. 16	125	18,991,730	22,280,030	22,199,232

For the past 42 weeks all hardwood mills reporting to the National Lumber Manufacturers Association gave production 1,238,490,457 ft., shipments 1,230,615,686, and orders 1,265,172,897.

West Coast Lumbermen's Association.

One hundred and eight mills reporting to the West Coast Lumbermen's Association for the week ended Oct. 16 manufactured 114,162,131 feet, sold 110,786,078 feet and shipped 94,009,607 feet. New business was 3,376,053 feet less than production and shipments 20,152,524 feet less than production.

COMPARATIVE TABLE SHOWING PRODUCTION, NEW BUSINESS, SHIPMENTS AND UNFILLED ORDERS.

Week Ended—	*Oct.* 16.	*Oct.* 9.	*Oct.* 2.	*Sept.* 25.
No. of mills reporting	108	106	106	109
Production (feet)	114,162,131	113,720,893	111,855,833	117,354,502
New business (feet)	110,786,078	97,146,283	102,691,719	109,167,817
Shipments (feet)	94,009,607	107,156,441	120,294,634	112,414,311

Gasoline Price Reductions Continue—Crude Oil Price Also Declines.

The reductions in the prices of crude oil and gasoline which occurred during the week have not been unlooked for by the trade, as the output of the former has increased, while in the case of the latter the usual seasonal falling off in consumption is partly responsible. Reports from Houston, Tex., on Oct. 26 stated that the Humble Oil & Refining Co. had reduced Gray County, Texas (Pampa pool), crude oil 25 cents a barrel and had established a flat rate of $1 25 a barrel for Wheel County crude, making it the same price as that produced in Carson and Hutchinson counties. The Humble Oil Co. posted prices for the first time in Crane, Upton and Crockett counties, Texas, its prices ranging from 80 cents a barrel for crude oil below 26 gravity, increasing 5 cents a barrel for each degree higher, making the top price $1 35 a barrel for oil of 36 degrees gravity or above. This is the same basis as that posted by the Kay County Gas Co.

On Oct. 29 the Gulf Production Co., a subsidiary of Gulf Oil Corporation, reduced Evangeline Southern Louisiana crude 20 cents a barrel to $1 15. The Gulf Pipe Line Co. on the same day made a reduction to $1 15 from $1 35 a barrel in the posted price of Jennings (La.) crude oil.

Among the numerous reductions announced in the price of gasoline throughout the week, an early one was that made Oct. 23 when retail gasoline prices were cut 2 cents a gallon at Rochester, N. Y., bringing the price to the lowest in several months. Independent dealers now retail gasoline at 20 cents per gallon and Standard at 22 cents. The cut is the second since the Automobile Club of Rochester began an investigation into the price of gasoline.

On Oct. 26 the Standard Oil Co. of Indiana reduced tank wagon and service station gasoline and kerosene prices 1 cent a gallon throughout its territory. The Sinclair Refining Co. and Texas Co. met the reductions immediately. The new service station price in Chicago is 20 cents a gallon. The Standard Oil Co. of Nebraska cut the tank wagon price of gasoline one cent a gallon in the State, making the price 20¼ cents, exclusive of the two cents State tax. The Sinclair, Manhattan, Nicholas and other independent companies at once met the reduction.

In Detroit the White Star and Sun Oil companies have met the reduction of one cent a gallon made by Standard Oil of Indiana on gasoline.

From Denver, Colo., on Oct. 27 came the report that the Continental Oil Co. had reduced the price of gasoline one cent a gallon in Colorado, Wyoming and Montana, making the retail price 21 cents a gallon. The Continental Oil Co. also reduced gasoline 1½ cents a gallon in New Mexico and kerosene one cent a gallon in Colorado, Wyoming and Montana.

The Standard Oil Co. of New Jersey on Oct. 28 reduced the export price of gasoline in cases ¼ cent a gallon, making the new price 27.15 cents.

Canadian gasoline prices on Oct. 28 were reported reduced 2 cents a gallon in Canada by the Imperial Oil and other companies.

Quotations in the wholesale markets at Chicago on Oct. 29 were U. S. motor gasoline 9½@9¾ cents a gallon, against 9¾ cents previously. Kerosene and fuel oil were not given.

Large Gain Reported in Crude Oil Output.

Crude oil output showed a large gain when it advanced 52,100 barrels per day, according to the weekly reports issued Oct. 27 by the American Petroleum Institute, which estimated that the daily average gross crude oil production in the United States for the week ended Oct. 23 was 2,286,250 barrels, as compared with 2,234,150 barrels for the preceding week. The daily average production east of California was 1,667,350 barrels, as compared with 1,625,850 barrels, an increase of 41,500 barrels. The following are estimates of daily average gross production by districts for the weeks indicated:

DAILY AVERAGE PRODUCTION,

(In Barrels)—	*Oct.* 23 '26.	*Oct.* 16 '26.	*Oct.* 9 '26.	*Oct.* 24 '25.
Oklahoma	514,700	486,150	474,950	473,550

Total	2,286,250	2,234,150	2,204,200	2,065,950

The estimated daily average gross production of the Mid-Continent field, including Oklahoma, Kansas, north, east central, west central and southwest Texas, north Louisiana and Arkansas, for the week ended Oct. 23 was 1,288,950 bbls., as compared with 1,250,400 bbls. for the preceding week, an increase of 38,550 bbls. The Mid-Continent productions, excluding Smackover, Arkansas, heavy oil, was 1,170,600 bbls., as compared with 1,132,550 bbls., an increase of 38,050 bbls.

In Oklahoma, production of North Braman is reported at 23,550 bbls., against 14,800 bbls.; South Braman, 6,450 bbls., against 6,750 bbls.; Tonkawa, 35,250 bbls., against 36,350 bbls.; Garber, 24,650 bbls., against 25,000 bbls.; Burbank, 49,100 bbls., against 49,150 bbls.; Britsow-Slick, 27,100 bbls., against 27,150 bbls.; Cromwell, 15,150 bbls., against 15,100 bbls.; Paroose, 9,200 bbls., against 9,500 bbls.; Wewoka, 26,550 bbls., against 26,950 bbls.; Seminole, 69,600 bbls., against 47,200 bbls.

In north Texas, Hutchinson County is reported at 147,950 bbls., against 143,050 bbls., and Balance Panhandle, 14,000 bbls., against 11,600 bbls. In east central Texas, Corsicana Powell, 24,200 bbls., against 24,300 bbls.; Nigger Creek, 11,800 bbls., against 12,250 bbls.; Reagan County, west central Texas, 29,800 bbls., against 29,250 bbls.; Crane & Upton Counties, 11,850 bbls., against 11,000 bbls.; and in the southwest Texas field, Luling, 20,450 bbls., against 20,650 bbls.; Laredo district, 16,250 bbls., against 16,850 bbls.; Lytton Springs, 3,600 bbls., against 3,650 bbls. In north Louisiana, Haynesville is reported at 9,100 bbls., against 9,150 bbls.; Urania, 15,250 bbls., against 15,450 bbls., and in Arkansas, Smackover light, 13,800 bbls., against 14,000 bbls.; heavy, 118,350 bbls., against 117,850 bbls., and Lisbon, 7,550 bbls., against 7,650 bbls. In the Gulf Coast field, Hull is reported at 22,700 bbls., against 22,650 bbls.; West Columbia, 8,700 bbls., against 8,900 bbls.; Spindletop, 82,900 bbls., against 78,900 bbls.; Orange County, 6,650 bbls., against 6,700 bbls., and South Liberty, 3,650 bbls., against 4,050 bbls.

In Wyoming, Salt Creek is reported at 45,150 bbls., against 45,900 bbls., and Sunburst, Mont., 18,000 bbls., no change.

In California, Santa Fe Springs is reported at 47,500 bbls., no change; Long Beach, 95,000 bbls., no change; Huntington Beach, 60,000 bbls., against 63,000 bbls.; Torrance, 27,000 bbls., no change; Dominguez, 21,500 bbls., against 21,000 bbls.; Rosecrans, 14,000 bbls., against 13,000 bbls.; Inglewood, 41,000 bbls., no change; Midway Sunset, 94,000 bbls., no change, and Ventura Avenue, 49,900 bbls., against 48,800 bbls.

Curtailment in Steel Industry More Evident—Composite Prices Stable.

Further slowing down in new demand for steel products is reported this week, according to the observations of the "Iron Age" in its market review issued Oct. 28. While still connected chiefly with the curtailment at automobile plants, which has brought a good many of them to a 50%

operation, it is affecting the structural industry more than in recent weeks and is causing consumers in other lines to limit their buying more strictly, declares the "Age" in giving additional details, from which we quote:

More clearly than could be seen at the opening of October, it now appears that much of the business taken in August and September will carry some of the consuming industries through November. Thus, order books are not likely to make so good a showing next month as in October, while steel works schedules will come nearer to those of to-day, seeing that consumption is holding up better than new buy ng.

The Steel Corp. ingot production this week is at 83% and its pig iron production at 69%, neither greatly changed, but further reduction in ingots is probable in November.

Leading independent companies are averaging close to 78% in ingots, with the prospect of 75% or slightly less in the near future. In fact, Youngstown producers are at 75% this week.

Steel Corp. earnings for the third quarter were surprisingly high at $52,626,000, being the best since the second quarter of 1918. The output was evidently higher than for any peace-time quarter, and in addition to large earnings of ore roads, there was an excellent showing in cement.

Alongside of the growing quietness in steel is the spectacular activity in the coal market, with price advances that have extended to coke and that may yet affect merchant pig iron. But as few steel producers buy pig iron and fewer buy coke, the excitement in fuel is as yet quite without bearing on the steel situation.

Further, coal exports are less than 10% of domestic production and chiefly of high-grade gas coal.

Spot furnace coke has sold this week at $4 50 at ovens, and $5 is asked for first quarter, whereas on contract coke for this quarter the price was around $3. Merchant furnaces dependent on the market for coke are not selling for first quarter, and around Pittsburgh the pig iron price for this year is stiffening.

Elsewhere, however, pig iron has developed weakness, notably at St. Louis and Cincinnati, and to some extent at Chicago. Cleveland sellers have again been more active in southern Ohio at the expense of prices.

In the finished steel market railroad demand thus far has not given the stimulus looked for early in the fall. Rail orders are about equal to those placed last year up to Nov. 1—something over 1,000,000 tons—while car buying is considerably less.

Large buyers of steel bars are still postponing the issue on the fourth quarter price, since deliveries continue to be made on 1.90c. contracts. There is the complication in the Cleveland district of a 2c. mill price, identical with the Pittsburgh district base, and as low as 1.90c., Cleveland mill, has been reported.

Some curtailment in sheet mill operations has resulted from the slackening of automobile demand and the market does not have the firmness shown in early October.

A freight boat just placed at a Lake yard by the Interlake Steamship Co. will take 5,000 tons of plates and shapes and there is fresh inquiry for two boats of like size.

New railroad buying includes 1,500 cars for the Louisville & Nashville, which purchased also 18 locomotives. On Oct. 1, railroads has 16,846 freight cars on order compared with 21,055 on the same date last year.

In fabricated structural steel, the past week was an average one—bookings of 23,000 tons in the larger projects and 33,000 tons in fresh inquiries. Included is considerable plate work, 5,900 tons being let for siphons in southern California and 6,000 to 10,000 tons for a proposed pipe line at Yakima, Wash.

Cold-finished steel bars in ordinary lots have settled to 2.40c., Pittsburgh, while 2.30c. still represents the market to larger buyers.

With shipments of cast iron pressure pipe equal to production, new business is falling off. Backlogs may be sufficien, however, to steady operations for some time.

A change is coming over the ferromanganese situation. While much of this year's buying was at the $88 figure due to active three-cornered competition, little business can now be done at less than $95 per ton, furnace, with indications that next year's contracts will call for $100.

September exports of iron and steel at 182,071 gross tons exceeded those for August by 6.2%. Imports at 85,484 tons fell off 6.6%. For the nine months exports at 1,576,959 tons showed a gain of nearly 21% over the same period of 1925. Imports of 872,442 tons to Oct. 1 this year represent a gain of 25.5%. Germany led in the September imports as well as in those for the nine months.

The "Iron Age" composite prices remain unchanged for the third successive week. That for pig iron is $19 71 per gross ton and that for finished steel is 2.453c. per pound, according to the composite price table which follows.

Finished Steel. *Oct. 26 1926, 2.453c. Per Pound.*	
One week ago	2.453c.
One month ago	2.439c.
One year ago	2.403c.
10-year pre-war average	1.689c.

Based on prices of steel bars, beams, tank plates, plain wire, open-hearth rails, black pipe and black sheets, constituting 87% of the United States output.

	High.	*Low.*

1925	22 50 Jan. 13;	18 96 July 7
1924	22 88 Feb. 26;	19 21 Nov. 3
1923	30 86 Mar. 20;	20 77 Nov. 20

Buying of finished steel continues under check, and, as this consumer policy of restraint swings into its third week, the sequel is developing in the way of reduced consumption asserts the "Iron Trade Review" this week. The situation for the industry as a whole may be gaged from the fact that current bookings of the Steel Corp. equal 80% of capacity whereas its operating rate had been approximating 85%. This shrinkage is attributed largely to overproduction of cotton in the South, normal curtailment of automobile production at Detroit and halting buying of freight cars at Chicago, continues the "Review's" summary of conditions affecting the market, issued Oct. 28 and from which we quote:

No threats of a major recession have appeared. Hesitant buying and contracting mill operations usually have a modifying effect upon the price structure although prices have been subjected to pressure, shading is not widespread and it is becoming increasingly evident that some of the caution being exhibited by consumers in reality is resistance to the advance imposed n the third quarter. The present may be appraised as a transitional period for prices, accentuated by some seasonal and some unlooked for factors. Producers are finding that intensified short buying is making for unbalanced mill schedules and higher costs.

In the matter of costs, the strongly advancing tendency in coke promises to play a major role. Pig iron prices already are influenced and if coke prices maintain their upward pace it is inevitable that finished steel will be affected. Some coke oven operators are diverting their labor to the production of coal and are loathe to entertain inquiries for coke. Two important producers have made a 50 cent advances in the Mahoning Valley pig iron market last week and $18 50 for No. 2 foundry and malleable is on a firmer basis. Eastern Pennsylvania prices likewise have strengthened. Further complication arising from the fuel situation is the announcement of the Pittsburgh Coal Co. advancing wages to 5% above the Jacksonville scale which is based upon $7 50 per 8-hour day for common labor. Recent adjustments in the Connelleville region have been limited to minor individual agreements with workmen, such as bonuses.

Shortened automotive schedules are being reflected in many directions. Strip, cold finishing and sheet mills have been receiving holdups. New business in sheets, however, is good and at Chicago the roofing trade has been a heavy buyer. Demand for pipe from the oil countries is sufficient to cause some makers to shorten their backlogs.

September developed a reversal in the import and export situation as regards to iron and steel. Imports totaled 85,484 tons, a decrease from August, while exports, at 182,871 tons, showed an increase over August. September imports of pig iron dropped shrply.

The "Iron Trade Review's" composite price on 14 leading iron and steel products this week is $38 18. This compares with $38 14 last week and $38 13 the previous week.

Great Activity Stirs Bituminous Coal Markets as Prices Rise—Anthracite Trade Active But Steady.

The rising tide of foreign and domestic demand for bituminous coal broke bonds last week and culminated in runaway markets in every important trading center from Columbus and Cleveland to the Atlantic seaboard declares the "Coal Age" on Oct. 28th. Quotations on spot tonnage in some cases jumped as much as $1 85 per ton and advances of 25@50c. were common in Eastern territory. This wave of increasing prices, at its crest at Hampton Roads, New York and Boston, diminished in intensity as it rolled inland and had spent its force by the time it reached the Indiana-Ohio state line, observes the "Age" in its weekly report which gives further details as follows:

Although the movement caught many procrastinating consumers unaware, it was the natural outcome of conditions which have been gathering strength since the summer. Chiefly as a result of the unusual buying for overseas shipment brought about by the prolonged strike in Great Britain, the curve of spot prices has been moving upward for months. In the face of this development, many buyers choose to gamble on the chances of a collapse in the market. For the time being at least, they have lost.

Excellent transportation service and a large surplus of idle coal miners have been acting as brakes upon the market. These things made the hand-to-mouth buying policy which controlled the coal ordering of many large industrial consumers and some railroads a comparatively safe program. But changes in recent weeks have lessened the effectiveness of these checks. Consumer demand, as represented in the high rates of production which have marked bituminous operations for some time, has absorbed most of the surplus carrying capacity of the railroads and apparently,, the greater part of the surplus labor available. Continuous operation on a weekly basis in excess of 12,000,000 tons could hardly do otherwise. The industry passed the 12,000,000-ton mark the week ended Oct. 2. During the week ended Oct. 16 the output was estimated by the U. S. Bureau of Mines at 12,376,000 tons, and preliminary loadings figures indicate that last week's output also would exceed 12,000,000 tons. Under such conditions it is not surprising that the permissive-embargo system should be in force at some of the loading piers. While this system may aid in reducing or preventing pier congestion, it also works to make transportation less fluid.

The bidding of export buyers, lake shippers and industrial consumers and retail distributors for tonnage from three states has grown sharper. Prices asked for West Virginia, Pennsylvania and Kentucky coals naturally have responded to this competitive activity. Some of the largest increases have been registered in the medium low-volatiles and in gas coals—because the offerings of the choicest lo-volatiles have been so small. Where, as in New England, consumers insist upon Navy Standard or its equivalent, they have paid dearly for their procrastination.

The "Coal Age" index of spot bituminous prices on Oct. 25 was 249 and the corresponding weighted average price was $3 02. This was an increase of 47 points and 57c. over Oct. 18. These levels were the highest reached since April 2 1923. It must be remembered however, that this index, while truly reflecting the situation in the spot market, standing alone would give an inflated idea of the average relization on all bituminous coal. By far the greater part of the 12,000,000 tons now being mined each week is reaching the consumer at prices substantially below the top figures now ruling in the spot market.

Unquestionably the dilatory buyer—whether he be retailer, lake shipper, railroad fuel agent or industrial purchasing agent—is paying through the nose for his procrastination. But it would be contrary to the facts to assume that the lake trade, for example, which during the week ended Oct. 24 dumped 741,717 tons of cargo and 42,974 tons of vessel fuel at lower ports, has paid $3 50@$4 for the bulk of this tonnage.

Compared with the excitement in the bituminous market of the East, the situation in the anthracite trade seems almost moribund. Nevertheless hard coal demand is active and large enough to take care of a weekly production in excess of 2,000,000 net tons. Moreover, the high prices and short supply of free bituminous is having a favorable reaction on No. 1 buckwheat. Independent quotations on domestic coals show no important changes, but there are persistent rumors that advances will be made the first of the month.

The Connellsville coke market was unaffected last week by the increased strength in coal.

The coal market has gone through a great deal in the way of excitement and rapidly advancing prices in the past week, and the probabilities are that what has so far happened is but a precursor of that which is still to come according to the "Coal and Coal Trade Journal" as expressed in its Oct. 28th

market review. Now we are in the midst of the effects of a deranged situation abroad and distinctly disquieting conditions in America. The ability to retain any degree of composure is being tested, observes the "Journal" adding:

It is natural for those at certain places to describe the market as actually wild but viewing it as a whole it is acting with some evidence of restraint and there is an absence of spreading in the matter of production and marketing and price. The demand is large, the production is increasing. However, the amount that comes from the mines is constantly being bid for by many buyers; and therefore prices are advancing, in some cases, to figures born of excitement. All of which can be described as a condition that is not altogether abnormal, but which is exaggerated in its character and at times, hectic.

Anthracite seems to be keeping its head clear. The natural time for its large demand has arrived and the dealers are in fair shape to meet it. New York appears to be well fixed; and while there is an evident scarcity in New England, that territory is better taken care of this year than it has been at the opening of many a previous winter. Chicago reports a rather unexpected inquiry for hard coal; and at all other places where it is used, the supply is being pressed but not stampeded.

The weather has, of course, been a mitigating factor in the demand for coal for household and building uses, but there has been no lack of preparation for the inevitable. It looks now as if the dealers and customers were going to enter the cold weather in pretty good shape. The increase in bituminous prices is of course having a direct effect upon anthracite, but it is an effect that is likely to accrue to the benefit of the coal man.

The purchasing agents of the industrials and the railroads are said to be fully awake. More contracts are closed upon a basis favorable to the seller. The crux of the market situation, so far as the immediate future is concerned, is just here. This element must buy. The coal it is after must be obtained. If the trend of the coal cars is to tidewater for export, these must stop and the only argument that can be used to stop them is higher prices. What the agents buy will in the end dominate the quotations. If their bidding sends prices up to very high figures there is nothing to be done about it. Prices are flexible; their demands are not.

The not unexpected shortage of coal cars is at some points pronounced. However, there is less derangement in this line than is sometimes observable even under less pressing conditions. The railroads are going reasonably well; so are their customers in the matter of emptying cars.

The strong activity on the Great Lakes in the past few weeks has had the effect of easing off the demand at certain ports. Nevertheless ships are being moved as fast as possible, and there is every indication that record loading will go on so long as it is possible to do so.

The export situation is just about where it has been for a considerable time. The Delaware River is described as full of ships waiting for piers to take on coal. However, something like an embargo has appeared which seems to be an action on the part of the railroads to prevent too great accumulations at the ports. This was perhaps to be expected. It is never regarded as pleasant, but on the other hand may be made to be somewhat corrective.

What we have to look forward to in the near future is hazardous even to conjecture. There are too many rapidly changing elements to be considered. It can be said, however, that there is a distinct endeavor, emanating from the strongest portion of the coal industry, to maintain a high degree of order and decorum and oppose the wilder tendencies of the movement.

Output of Bituminous Coal and Anthracite Increases—Coke Production Slows Down.

With a gain of 13,000 net tons over the preceding week, the output of bituminous coal during the week ended Oct. 16 rose to 12,376,000 net tons, as against 11,770,000 tons in the same week last year. At the same time anthracite output rose to 2,093,000 net tons, as against only 17,000 tons last year, at the time of the strike, reports the U. S. Bureau of Mines in its weekly statistical record of this industry. Coke output during this period fell off by about 7,000 tons, according to the Bureau, from which we quote:

Production of soft coal during the week ended Oct. 16, including lignite and coal coked at the mines, is estimated at 12,376,000 net tons, a gain of but 13,000 tons over the output in the preceding week.

Estimated United States Production of Bituminous Coal (Net Tons).a
(Including Coal Coked.)

	1926		1925	
	Week.	*Cal. Year to Date.*	*Week.*	*Cal. Year to Date.b*
Oct. 2	12,008,000	409,951,000	11,008,000	369,228,000

Oct. 9c	12,363,000	422,314,000	11,681,000	380,909,000
Daily average	2,060,000	1,769,000	1,947,000	1,596,000
Oct. 16d	12,376,000	434,689,000	11,770,000	392,679,000
Daily average	2,063,000	1,777,000	1,962,000	1,605,000

a Original estimates corrected for usual error, which in past has averaged 2%. b Minus one day's production first week in January to equalize number of days in the two years. c Revised since last report. d Subject to revision.

Total production of bituminous coal during the calendar year 1926 to Oct. 16 (approximately 245 working days) amounts to 434,689,000 net tons. Figures for corresponding periods in other recent years are given below:

1920	435,470,000 net tons	1923	452,755,000 net tons
1921	324,916,000 net tons	1924	369,463,000 net tons
1922	305,509,000 net tons	1925	392,679,000 net tons

ANTHRACITE.

Production of anthracite during the week ended Oct. 16 is estimated at 2,093,000 net tons, a gain of 24,000 tons, or 1.2%, over the output in the preceding week. The average daily output during the first half of October has been 347,000 tons, as against 338,000 tons for the month of September.

Estimated United States Production of Anthracite (Net Tons).

	1926		1925	
Week Ended—	*Week.*	*Cal. Year to Date.*	*Week.*	*Cal. Year to Date.a*
Oct. 2	2,052,000	61,998,000	14,000	61,269,000
Oct. 9	2,069,000	64,067,000	13,000	61,282,000
Oct. 16	2,093,000	66,160,000	17,000	61,299,000

a Minus one day's production first week in January to equalize number of days in the two years.

Total production of anthracite during the calendar year 1926 to Oct. 16 amounts to 66,160,000 net tons. Figures for corresponding periods in other recent years are given below:

1922	33,807,000 net tons	1924	70,055,000 net tons
1923	74,157,000 net tons	1925	61,299,000 net tons

BEEHIVE COKE.

Production of beehive coke for the week ended Oct. 16 is estimated at 201,000 net tons, a decrease of 7,000 tons, or 3.4%, from the week immediately preceding. The decrease was confined entirely to Pennsylvania and Ohio. Compared with the corresponding week of 1925, a decline of 25,000 tons, or 11.1%, is noted. Cumulative output during 1926 to Oct. 16 amounts to 9,450,000 tons, about 23% more than during the same period of 1925.

The "Weekly Courier" states that production in the Connellsville district, due to activity in the coal trade, was reduced to 150,120 tons during the week of Oct. 16, some plants running on a five-day basis.

Estimated Production of Beehive Coke (Net Tons).

	Week Ended			1926	1925

Current Events and Discussions

The Week with the Federal Reserve Banks.

The consolidated statement of condition of the Federal Reserve banks on Oct. 27, made public by the Federal Reserve Board, and which deals with the results for the twelve Reserve banks combined, shows an increase of $53,200,000 in bill and security holdings, as compared with the reduction of $118,200,000 reported the preceding week, and of $23,600,000 in deposits. Only nominal changes were reported in total cash reserves and in Federal Reserve note circulation. Holdings of discounted bills were $45,300,000 and of acceptances purchased in open market $14,700,000 above the preceding week's totals, while Government security holdings declined $6,800,000. After noting these facts, the Federal Reserve Board proceeds as follows:

The New York Reserve Bank reports an increase of $23,300,000 in discount holdings, Chicago an increase of $22,100,000, Boston $8,500,000, San Francisco $6,300,000, and Dallas $3,700,000. Discount holdings of the Philadelphia bank declined $6,900,000, of Richmond $5,700,000, and of Atlanta $2,800,000. Larger holdings of acceptances purchased in the open market were reported by most of the Reserve banks, the principal increases being $5,800,000 at the New York bank and $2,500,000 each at Chicago and Boston. The System's holdings of U. S. bonds declined $6,700,000, principally at the Minneapolis bank, while holdings of Treasury notes and certificates showed little change for the week.

The principal changes in Federal Reserve note circulation comprise increases of $6,100,000 and $3,500,000 reported by the Cleveland and Philadelphia Reserve banks, respectively, and a decline of $2,600,000 reported by Atlanta.

The statement in full, in comparison with the preceding week and with the corresponding date last year, will be found on subsequent pages—namely, pages 2230 and 2231. A summary of changes in the principal assets and liabilities of the Reserve banks during the week and the year ending Oct. 27 1926 is as follows:

	Increases (+) or Decreases (—) During	
	Week.	*Year.*
Total reserves	—$700,000	+$61,000,000
Gold reserves	—2,500,000	+40,800,000
Total bills and securities	+53,200,000	—7,900,000

The Member Banks of the Federal Reserve System—Reports for Preceding Week—Brokers' Loans in New York City.

It is not possible for the Federal Reserve Board to issue the weekly returns of the member banks as promptly as the returns of the Federal Reserve banks themselves. Both cover the week ending with Wednesday's business, and the returns of the Federal Reserve banks are always given out

after the close of business the next day (Thursday). The statement of the member banks, however, including as it does nearly 700 separate institutions, cannot be tabulated until several days later. Prior to the statement for the week ending May 19, it was the practice to have them ready on Thursday of the *following* week, and to give them out concurrently with the report of the Reserve banks for the next week. The Reserve authorities have now succeeded in expediting the time of the appearance of the figures, and they are made public the following week on Mondays instead of on Thursdays. Under this arrangement the report for the week ending Oct. 20 was given out after the close of business on Monday of the present week.

The Federal Reserve Board's condition statement of 692 reporting member banks in leading cities as of Oct. 20 shows declines of $31,000,000 in loans and discounts, $33,000,000 in investments, $153,000,000 in net demand deposits, $77,000,000 in Government deposits and $107,000,000 in borrowings from the Federal Reserve banks. Member banks in New York City reported reductions of $32,000,000 in loans and discounts, $2,000,000 in investments, $9,000,000 in net demand deposits, $15,000,000 in Government deposits and $96,000,000 in borrowings from the Federal Reserve bank.

Loans on stocks and bonds, including U. S. Government obligations, were $97,000,000 below the previous week's total, the principal changes including decreases of $85,000,000 in the New York district and $12,000,000 and $10,000,000 in the Cleveland and San Francisco districts, respectively, and an increase of $12,000,000 in the Chicago district. All other loans and discounts increased $66,000,000, increases of $55,000,000 in the New York district, $13,000,000 in the San Francisco district, and $10,000,000 in the Atlanta district being offset in part by comparatively small reductions in some of the other districts. Total loans to brokers and dealers, secured by stocks and bonds, made by reporting member banks in New York City were $72,000,000 below the Oct. 13 total, loans for their own account and for out-of-town banks having declined $73,000,000 and $11,000,000, respectively, while loans for others increased $12,000,000. As already noted, the figures for these member banks are always a week behind those for the Reserve banks themselves. The statement goes on to say:

Holdings of U. S. Government securities declined $5,000,000, only small changes being reported by banks in any of the Reserve districts. Holdings of other bonds, stocks, and securities declined $28,000,000, of which $18,000,000 was at banks in the Chicago district.

Net demand deposits were $153,000,000 below the total reported for Oct. 13, the principal changes in this item including reductions of $40,000,000 in the Chicago district, $28,000,000 in the New York district, $26,000,000 in the Cleveland district, $24,000,000 in the San Francisco district and an increase of $17,000,000 in the Boston district. Government deposits declined $77,000,000, reductions being reported for all districts.

Borrowings from the Federal Reserve banks were $107,000,000 below the previous week's figure, banks in the New York district reporting a reduction of $94,000,000 and those in the Boston district $23,000,000.

On a subsequent page—that is, on page 2231—we give the figures in full contained in this latest weekly return of the member banks of the Reserve System. In the following is furnished a summary of the changes in the principal items as compared with a week ago and with last year:

	Increases (+) or Decreases (—) During	
	Week.	*Year.*
Loans and discounts, total	—$31,000,000	+$497,000,000
Secured by U. S. Govt. obligations	+1,000,000	—53,000,000
Secured by stocks and bonds	—98,000,000	+181,000,000
All other	+66,000,000	+369,000,000
Investments, total	—33,000,000	+103,000,000
U. S. securities	—5,000,000	—31,000,000
Other bonds, stocks and securities	—28,000,000	+134,000,000
Reserve balances with F. R. banks	—13,000,000	—14,000,000
Cash in vault	—27,000,000	—3,000,000
Net demand deposits	—153,000,000	—94,000,000
Time deposits	—13,000,000	+433,000,000
Government deposits	—77,000,000	+74,000,000
Total borrowings from F. R. banks	—107,000,000	—26,000,000

Summary of Conditions in World's Markets According to Cablegrams and Other Reports to the Department of Commerce.

The Department of Commerce at Washington releases for publication to-day (Oct. 30) the following summary of conditions abroad, based on advices by cable and other means of communication:

CANADA.

A satisfactory condition of the wholesale trade and a general improvement of the retail trade of Canada over the past week, due largely to an increased demand for boots and shoes, dry goods and other seasonable apparel, is reported. Reports from various commercial centres in the Dominion show that collections range from fair to good.

GREAT BRITAIN.

Progress is reported in negotiations now said to be under way looking toward the formation of a company to control the four big chemical and explosive businesses of Great Britain.

The recent decision of the American Section of the Federation of Master Spinners to further curtail operations in the mills spinning American cotton (from half-time to one-third time) has been rescinded. The reversion to the 24-hour-a-week basis was well supported. The number of coal miners working on Oct. 20 was stated to be 234,000.

GERMANY.

The German balance of trade which had been unfavorable during June, July and August again showed an excess of exports over imports during September. For that month total imports amounted to 823,000,000 marks, while total exports stood at 836,000,000 marks, leaving a favorable balance of 13,000,000 marks. Imports of foodstuffs totaled 256,000,000 and raw materials 438,000,000. On the other hand, exports of finished products reached a total of 582,000,000 marks.

CZECHOSLOVAKIA.

Czechoslovak foreign trade for the first eight months of 1926 not only totaled lower values both for imports and exports when compared with the corresponding period of 1925, but also showed a lower favorable trade balance for the period, or 1,110,000,000 against 1,413,000,000 crowns. On the other hand, the trade figures for the month of August marked a considerable improvement over previous months. The improvement is due almost wholly to reduced imports, which were valued at 920,000,000 crowns, as compared with 1,166,000,000 crowns in July; at the same time exports increased slightly in value from 1,336,000,000 to 1,363,000,000 crowns.

ITALY.

The Milan Chamber of Commerce index numbers for wholesale prices registered steady declines during the month of September. From 682.3 at the close of the second week in September it dropped to 678.7 by the close of the third week and at the end of the month stood at 673.4. This latter index is equivalent to an internal purchasing power of the lira of about 14.85% of its pre-war value. Between June 30, the close of the last financial year, and Aug. 31 the amount of Treasury bills maturing at from 3 to 12 months was reduced by 1,385,000,000 lire. Further reductions in the floating debt were anticipated because of the present deflation process. The budget surplus at the end of the first two months of the present operating financial year was in effect 31,000,000 lire more than the surplus recorded for the corresponding period of last year. This excludes the expenditures which were made this year out of the budget, such as the allotment of 41,666,666 lire per month for the redemption of the Treasury debt to the Bank of England and the 20,833,333 lire for railway expenditures. This latter appeared in previous budgets under a special title as "capital expenditures." The item for the redemption of the Treasury debt did not appear in former budgets.

AUSTRIA

During the latter part of September and the first three weeks of October there was a continued moderate improvement in practically all commercial and industrial lines in Austria. The situation was somewhat favored by stronger franc and lire exchange, as well as by the British strike situation. The financial position remained satisfactory, although increased demands in Austria and in Hungary for short-term credits have somewhat stiffened money rates.

FINLAND.

Trade conditions in Finland during September continued to be favorable. Export trade was normal, although the favorable balance for the month was slightly below that of August. Lumber shipments were somewhat heavier. Prices in the timber and pulp and paper markets were maintained at satisfactory levels. Financial conditions remain easy. The cost of living followed a continued rise during the past few months, showed a decline of 10 points during September, while the other indices remained practically the same. On Oct. 24 ratifications of the Finnish-Japanese commercial treaty were exchanged, and this treaty will become effective Nov. 1 1926.

DENMARK.

Slowly increasing industrial activity, improved conditions in the freight market and declining unemployment make it apparent that Danish economic life is experiencing a slight turn to the better. There has been no corresponding fundamental improvement, however. Wages are not definitely settled, unit cost of production is said to be too high in most industries, taxes and other public charges are claimed in Denmark to be burdensome and considerable capital is needed. Parliament convened on Oct. 5, and it will be engaged in formulating plans for Government assistance in numerous fields. Financial problems, together with the return of the crown to actual parity and gold redemption, probably will also be given attention.

NORWAY.

The sudden appreciation of the crown was the major development in Norway during the week ended Oct. 24. It is now only about 1¾ cents below par. Practically all bond quotations have shown recently an upward trend and shares have registered increasing firmness. Numerous conversion loans have been made during the last few weeks and the number of new loans floated is also appreciable. The unemployment situation is still reported to be serious, notwithstanding the settlement of the paper and pulp and margarine industry conflicts. The workers engaged in latter field have accepted an immediate reduction of 12% in wages, which will be followed by a further decrease of 3% in five months. The transport workers have denounced the agreement which was to become effective on Oct. 31. The number of unemployed now approximates 30,000—about twice the total of a year ago.

PALESTINE.

In spite of the long slump experienced during the past eight or ten months in the Tel-Aviv district, some new industries are being launched there, and some of the older ones, particularly the textile industries, show indications of safe recovery. A successful 1926-27 orange crop is anticipated if normal weather continues, estimates placing the expected production at 2,000,000 cases, as compared to 1,511,000 in the 1925-26 season. During 1925 5,000 dunams of land (1,111 acres) have been purchased to be planted in new orange groves. Jewish immigration is continuing at the same rate as in 1925, the total number of immigrants for the first eight months of 1926 having been 18,077, as compared to 18,255 in the corresponding period of 1925.

EGYPT.

The Government has opened a credit of £E4,000,000 to inaugurate a cotton financing scheme and assist the small cotton growers. By the new scheme advances will be made through the banks on quantities of less than 200 cantars, the only charge to the cultivator being 4% per annum to defray warehouse and other expenses. The Government had been urged to attempt to check a further drop in prices by continuing its policy of purchasing cotton, and had been authorized to do so by Parliament, but as the Govern-

ment already has on hand heavy stocks of cotton purchased during the past 18 months from the planters, and since the policy of Government purchasing so far is said to have proved ineffective, it has now been abandoned and the new cotton financing scheme adopted as an alternative.

GREECE.

The new Government is burdened by indebtedness incurred not only for large quantities of military and railroad supplies, but for the purchase of the Saloniki-Monastir railroad and for new loans as well; namely, the Swedish match monopoly loan, the Foundation Company loan and the water works loan. Solving the financial problems of the country is said to be the greatest task facing the new administration. The revived "Tithe" tax, for example, is not expected in Greece to bring in more than a fraction of the 434,000,000 drachmas for which it was budgeted. The income from pledged revenues is, however, increasing and it is estimated locally that the floating debt has been reduced by approximately 1,500,000,000 drachmas since the beginning of 1926. The success of the Saloniki Fair, Oct. 1 to 20, and the active participation of Bulgaria there are reassuring elements in the situation of the country.

CHINA.

Since the lifting of the Canton boycott arrivals of ocean shipping at Hongkong are rapidly approaching pre-boycott figures. Clearances of piece goods from Hongkong warehouses are also very satisfactory. Market reports indicate an average crop of cotton in China this year. Crops in North Manchuria are above the average, although drought and floods have reduced the yield in South Manchuria to about 80% of normal. A fair harvest is anticipated in North China. The rice crop in central China is below normal, but a better than average yield is expected in South China. The silk crop in the Yangtze Valley is good with business proceeding satisfactorily. Prices in some lines have already advanced as a result of the drop in exchange. Exports from Tientsin have improved slightly, but are still below normal.

SHANGHAI DISTRICT.

Business conditions in Shanghai show but slight change. The transportation situation shows improvement between Shanghai and Hankow and between Canton and Hongkong. Silk activity has been quite noticeable during the past month and production for the greater part of January is reported as sold.

Low silver and favorable prices of American cotton have created interest in Canton movements among Chinese merchants. The iron and steel market in the Yangtze Valley is slow, with the exception of the demand for tin-plate waste. Exports to the United States during the first nine months amounted to $44,390,000 (United States gold), as compared to $44,450,000 (United States gold) for the same period of last year.

JAPAN.

Japan's foreign trade continues to improve. Preliminary totals for the second ten days of October show exports of 63,300,000 yen and imports of 45,900,000 yen, an increase of 3,400,000 yen in exports and a decline of 700,000 yen in imports compared with the preceding period The weakness in the raw silk, cotton yarns and cotton textile markets is more pronounced.

INDIA.

The India pooja holidays are taking place with very little internal disturbance, but business is being adversely affected as usual. Little domestic business is being transacted and export clearances have fallen off considerably. Uncertainty regarding the future course of silver and the outcome of the Currency Commission's report is adding to the normal depression expected with the holiday season.

PHILIPPINE ISLANDS.

The general tone of business was slightly more optimistic during the week ended Oct. 23. The copra market improved, with better demand and increased prices. Trade was active and production, which has been abnormally high, was considerably lower than in recent weeks, materially reducing stocks. All factors in the trade are now buying and all coconut oil mills are operating. The present provincial equivalent of resecado (dried copra) delivered at Manila is 12.25 pesos per picul of 139 pounds (1 peso equals $0.50).

The abaca market was good until receipt of reports of price reductions in Mexican sisal, when it became uncertain. Trading is now suspended, pending definite developments.

Sale of the Government-owned Cebu cement plant to private interests was consummated on Oct. 20.

The lower House of the Philippine Legislature has passed a measure taxing radio receiving sets $5 as an aid to the recently organized broadcasting company. The Senate has passed an Act extending the Government-controlled Manila railroad, on the island of Luzon, 200 kilometers (about 124 miles) northward.

NEW ZEALND.

General conditions in New Zealand are somewhat quiet as the summer opens. Foreign trade during September, however, was more active than during the same month in 1925, imports increasing from £4,217,900 to £5,136,000 and exports from £1,235,500 to £2,400,000. Increased shipments of butter, frozen meats and wool accounted largely for the export increase, and these were taken in greatest amount by the United Kingdom; the total value of all commodities exported there increasing from £662,700 in September 1925 to £1,700,000 in the month under review, while the amount taken by the United States increased only slightly to £250,000. Imports into New Zealand from the United States increased from £752,700 to £900,000, and consisted largely of motor vehicles, motor spirit, shoes, apparel and electrical machinery. Over 3,000,000 gallons of motor spirits and 929 automobiles were imported into New Zealand from the United States during the month of September as compared with 319 automobiles from Canada and 158 from the United Kingdom.

AUSTRALIA.

The New South Wales legislative bill providing for preference in that State for Australian and Empire goods has passed its second reading. This bill provides that shire and municipal councils must give at least 10% preference to Australian-made goods over Empire goods and a minimum of preference of 10% to Empire goods over foreign manufactures, making a total Australian preference of 20% in relation to foreign goods. It is stated in Australia that the Federal Government is planning for the Commonwealth refineries to increase importation of oil and that additional facilities will probably be provided at Sydney.

Wool sales at Sydney, Melbourne and Perth have held last week's prices, but at Melbourne and Perth a decline in all but fine wools is noted from prices prevailing Oct. 1. At Perth greasy merino brought as high as 24½d. per pound.

GUATEMALA.

The general business depression of the last three months has been increased by a three-cent decline in the price of coffee, the principal crop of the country, and by the unsettled political situation. There were no transactions during October in coffee options, the planters preferring to wait until the crop is gathered in the hope of obtaining better prices at that time. The crop is already more than a month late, and the first deliveries in export quantities will be in December, it is reported. Money, which was already difficult to obtain, has still further tightened.

HAITI.

The coffee crop of Haiti which was reported in September to be moving early at satisfactory prices, is not now coming in as rapidly as was expected, and prices have declined. There is little new cotton planting because of the continued low prices of that commodity. The sugar crop is said to have good prospects, both as to yield and improved prices. For the fiscal year ended Sept. 30 1926 Government revenues exceeded by 10% those of 1924-25. A marked decline in the value of imports is noticeable. A new negotiable instruments law based on United States legislation is to be considered next month.

PORTO RICO.

The general business situation in Porto Rico continues to show slow seasonal improvement. Conditions during October 1926 were slightly better than in the preceding month and about equal to those of October 1925. Continued favorable weather conditions have improved the agricultural outlook. Coffee picking which began early in the month is progressing and latest reports indicate a slight reduction in the yield from the previous crop estimates of 30,000,000 pounds.

MEXICO.

Markets were generally dull in all parts of Mexico with the exception of Monterey and Saltillo, where crops were unusually good. Bank credits have been restricted and deposits of commercial houses show a decline on account of the difficulty of collections. Official statistics show that during the month of August 6,724,000 barrels of petroleum were produced and that during September 5,623,000 were exported. Textile markets continue dull and some failures have been reported. Sales of low-priced automobiles have increased.

PANAMA.

Seasonal depression prevails as to retail sales. Imports were valued at approximately $970,000 in September as compared with slightly over $1,000,000 in August. Construction work has been started on the Chiriqui Ry. and a temporary wharf commenced at Armuelles. This is southeast of the Boras del Toro district in the heart of the banana region. Rainfall has been adequate in Aguadulce district and sugar is reported to be making a good growth.

COLOMBIA.

There is plenty of water in the Magdalena River, but freight congestion continues at the up-river port of La Dorada and also at the port of Buenaventura and on the Pacific railroad. While sufficient water in the Magdalena River permits river boats to navigate without interruption, the fact that the boats on the lower river are larger and more numerous than on the upper river results in cargo being landed at La Dorada faster than it can be dispatched by railroad from La Dorada to Beltran and thence to Girardot by the insufficient tonnage on the upper river. This is a condition, however, that sometimes prevails to a limited extent even at times when river navigation is normal, but on account of the unusual dry spell experienced in Colombia during the past year congestion of freight at transfer points have been more acute. With cargo again moving regularly from the Caribbean ports to the interior by way of the river, shippers who diverted cargo temporarily to Buenaventura during the dry spell will again follow the usual route via the Caribbean. This will improve conditions somewhat at Buenaventura, but until port facilities there are increased and more equipment is placed in service on the Pacific railroad freedom from congestion at that port is problematical.

ARGENTINA.

There has been a slight improvement in import trading in Argentina in the month of October as a result of good crop prospects and more active buying by rural dealers in anticipation of increased sales during the coming harvest season. General conditions affecting export activities are, however, far from satisfactory. According to the official Argentine crop report of Oct. 15, the general condition of all crops is good. A second official estimate of the area planted to all cereals except corn indicates a 2% increase over 1925.

Shipments of agricultural products are greatly retarded by a scarcity of shipping space and high freight rates. The cattle market is weak as a result of excessive offers of fine cattle. Wool trading is fairly good and prices satisfactory. The exchange value of the Argentine peso was at a higher level for October than for September.

BRAZIL.

Unexpected fluctuation in exchange has aggravated the generally unsatisfactory situation which has prevailed in Brazil during the past month, but the forthcoming change of Administration on Nov. 15 has created a feeling of optimism. It is stated that the latter is in favor of stabilizing the milreis at a comparatively low level, which it is believed will aid domestic industry. Coffee trade is said to have been greatly handicapped by small stocks, but on the 23d daily entries at Santos were increased to 32,000 bags, and after Nov. 5 monthly entries will be gauged by the exports from Santos for the 25 working days of each previous month. The recent passage of a Federal bill to provide a bonus for all Government employees and for the resumption of service payments on loans funded in 1914 will increase Government expenditures in 1927 and is certain to necessitate an increased budgeted income, possibly based in part on an upward tariff revision. Imports have been heavy and this, coupled with smaller coffee shipments, will by the end of the year probably diminish the large favorable trade balance which existed at the close of the first semester. Imports at Rio de Janeiro continue to be considerably larger than for the same period of 1925.

PERU.

General business conditions in Peru during October were worse than for any period since the post-war readjustment in 1921. The instability of exchange is held chiefly responsible for the present depressed conditions. Some business is being transacted but under disturbed conditions. A number of merchants are reported to have canceled import orders and are awaiting further developments. Remittances to exporters are slightly better than they have been, but the difficulty of obtaining foreign bills has retarded these transactions. About 60% of the Peruvian cotton crop has been shipped, but mostly on consignment and the prevailing low prices are said to be below the cost of production. Sugar shipments have been steady, the trade being stimulated by the recent rise in raw sugar prices. Stocks of import lines of merchandise are, in general, adequate for present needs except in staple foodstuffs, mining machinery, machine tools and construction materials.

URUGUAY.

Presidential and national council elections in November are absorbing public attention and exerting a dampening effect upon business in general, although a fair volume of spring trade is being done. The general economic outlook in country districts is favorable, although depressed conditions

in certain foreign markets threaten to affect adversely the normal export movement of meats and hides. Shipments at present are slack and frigorifics are not operating heavily. The new wool clip has not yet been placed on the market. Shipping space is reported scarce and freight rates show a tendency to rise.

Two projects were presented to the National Administrative Council this week for improved transport service between Montevideo and Buenos Aires via Colonia, one includes the building of a new railway at the cost of 12,500,000 pesos of English capital, and the other the construction of an automobile highway to cost 6,000,000 pesos, American capital; both include fast ferry service between Colonia and Buenos Aires.

CHILE.

The gradual improvement in Chilean economic conditions which had been slowly taking place suffered a setback in October. Consumers are now apparently withholding their funds for summer needs. Trade and bank collections are easy, although some difficulty has been experienced in this regard with certain textile traders. The nitrate market is still quiet, copper mines are active and the coal market is firm.

Stock of Money in the Country.

The Treasury Department at Washington issued its customary monthly statement showing the stock of money in the country and the amount in circulation after deducting the moneys held in the United States Treasury and by Federal Reserve banks and agents. The figures this time are for Oct. 1. They show that the money in circulation at that date (including, of course, what is held in bank vaults of member banks of the Federal Reserve System) was $4,906,198,326, as against $4,864,086,407 Sept. 1 1926 and $4.827.005,324 Oct. 1 1925, and comparing with $5,628,427,732 on Nov. 1 1920. Just before the outbreak of the European war, that is, on July 1 1914, the total was only $3,402,015,427. The following is the statement:

CIRCULATION STATEMENT OF UNITED STATES MONEY—OCTOBER 1 1926.

KIND OF MONEY	Stock of Money. a	MONEY HELD IN THE TREASURY. Total.	Amt. Held in Trust against Gold & Silver Certificates (& Treas'y Notes of 1890). a Includes United States paper currency in circulation in foreign countries and the amount held by the Cuban agencies of the Federal Reserve banks.

b Does not include gold bullion or foreign coin outside of vaults of the Treasury, Federal Reserve banks, and Federal Reserve agents.

c These amounts are not included in the total since the money held in trust against gold and silver certificates and Treasury notes of 1890 is included under gold coin and bullion and standard silver dollars, respectively.

d The amount of money held in trust against gold and silver certificates and Treasury notes of 1890 should be deducted from this total before combining it with total money outside of the Treasury to arrive at the stock of money in the United States.

e This total includes $1[illegible],720,4[illegible]1 of notes in process of redemption, $161,[illegible]68,423 of gold deposited for redemption of Federal Reserve notes, $[illegible],1[illegible]2 deposited for redemption of national bank notes, $[illegible],8[illegible]5 deposited for retirement of additional circulation (Act of May 30 1908), and $6,627,829 deposited as a reserve against postal savings deposits.

f Includes money held by the Cuban agencies of the Federal Reserve banks of Boston and Atlanta.

Note.—Gold certificates are secured dollar for dollar by gold held in the Treasury for their redemption; silver certificates are secured dollar for dollar by standard silver dollars held in the Treasury for their redemption; United States notes are secured by a gold reserve of $15[illegible],18[illegible],8[illegible] held in the Treasury. This reserve fund may also be used for the redemption of Treasury notes of 1890, which are also secured, dollar for dollar, by standard silver dollars, held in the Treasury. Federal Reserve notes are obligations of the United States and a first lien on all the assets of the issuing Federal Reserve bank. Federal Reserve notes are secured by the deposit with Federal Reserve agents of a like amount of gold or of gold and such discounted or purchased paper as is eligible under the terms of the Federal Reserve Act. Federal Reserve banks must maintain a gold reserve of at least 40%, including the gold redemption fund which must be deposited with the United States Treasurer, against Federal Reserve notes in actual circulation. Lawful money has been deposited with the Treasurer of the United States for retirement of all outstanding Federal Reserve bank notes. National bank notes are secured by United States bonds except where lawful money has been deposited with the Treasurer of the United States for their retirement. A 5% fund is also maintained in lawful money with the Treasurer of the United States for the redemption of national bank notes secured by Government bonds.

Economic and Industrial Conditions in Denmark During September.

The Danish National Bank of Copenhagen and the Danish Statistical Department have the following to say in part regarding the economic and industrial conditions in Denmark during September:

During the month of September the value of the Danish Krone has increased from 98.81 to 98.94 gold Ore. The average various Dollar quotations have therefore decreased from 3.77 39-100 to 3.77 1-100, (equal to 26.50c. to one Krone). The various Sterling quotations were 18.27 Kr. per Pound Sterling.

The decrease in the banks' outstanding loans and deposit activities is continued, the three private principal banks have thus during the month of September brought down their outstanding loans with 16,000,000 Kr., while the deposits have been decreased with 20,000,000 Kr. The decrease during September falls on about the same accounts as during the preceding months, namely in the case of the outstanding loans mostly on the business accounts—especially on the cash-credit, and in the case of the deposits especially on the account current and deposits on time, as the decrease in the debt to foreign countries is continued.

On the other hand the outstanding loan of the National Bank at the end of September was practically unchanged from that at the end of August. The same fact applies to the circulating amount of bills, which at the end of September was 377,400,000 Kr. and at the end of August 376,500,000 Kr.

The transactions in stocks and bonds on the Copenhagen Stock Exchange was somewhat larger in September than during the last preceding months, inasmuch as the average weekly business amounted to 1,800,000 Kr. for stocks and 3,100,000 Kr. for bonds against respectively 800,000 and 1,500,000 Kr. in August. There was an increase in the index figures of all kinds of stocks as well as of bonds during the month of September, the stock index for September being 88.9 (August 87.0) and the bond index being 86.1, when the rates of exchange on July 1 1914 are fixed at 100.

The Statistical Department's wholesale index was 162 in September as well as in August. In spite of the fact that the index is thus unchanged there has nevertheless been some increase for the individual branches of trade—for instance the prices of building and textile material are lower, while the price of fuel is somewhat higher.

The trade balance with the foreign countries shows for August a small import surplus, namely 4,000,000 Kr. The import amounted to 122,000,000 Kr., the export to 118,000,000 Kr. In August 1925 the import surplus amounted to 1,000,000 Kr. However the trade balance for this year up to the present has a very small import surplus compared with the corresponding time last year, namely 10,000,000 Kr. this year against 72,000,000 Kr. in 1925.

During September the export of agricultural products was very nearly the same as in August—nevertheless the exportation of meat was quite a bit larger than in August. The prices of the exported products were for butter and eggs higher than in August, for bacon and meat somewhat lower.

The number of unemployed is still greater than at the corresponding time last year, but while in 1925 there was an increase in the unemployment from August to September, this year there was a decrease. The percentage of unemployed was at the end of September this year 16.8%, against 10.6% in September 1925, in the real industrial professions the percentage this year was 18.1, against 10.8 in September last year.

The Government's revenue from taxation on articles of consumption was in September 13,800,000 Kr. including custom revenue 4,600,000 Kr. In September 1925 the corresponding figures were 13,500,000 and 4,100,000 Krone.

More Additions to the Reichsbank's Gold—Bank Is Not Only Recalling Foreign Reserves, But Buying New Gold.

Under date of Oct. 17 a copyright cablegram from Berlin to the New York "Times" said:

Last week's Reichsbank return as of Oct. 7, not only showed continuance of recall of the Reichsbank's own gold deposits from abroad, but purchases of new gold. Thus while the total gold held in the bank's vaults at Berlin rose 37,071,000 marks last week, the total gold owned by the bank also increased 18,197,000.

The Reichsbank will not disclose the source whence it has lately been obtaining gold. It is understood, however, that the greater part of the Bank of England's gold exports of more than £2,000,000, between the middle of September and the middle of October, came to the Berlin market. Sterling exchange at Berlin has repeatedly been below the gold import point, which private Berlin banks estimate to be 20.375 marks to the pound sterling.

Italian Fascisti Now Number 1,500,000—3,000,000 Are in Fascisti Labor Unions.

In advices from Rome Oct. 16 (copyright), the New York "Times" said:

Fascismo now has nearly 1,500,000 active adherents enrolled under its banners, according to the latest official records. Of these 934,000 are regular full-fledged Fascisti, 53,000 are women, 211,000 are juvenile Fascisti between the ages of 14 and 18, and 270,000 are boy Fascisti, aged 14 and less.

The number would be far higher if it were not for the measures which have been taken for strictly limiting the number of adherents. It is impossible now for any one to become a Fascist except by joining as a boy under 14 and then being gradually promoted.

The small number of women who joined the Fascist movement—they represent less than 4% of the whole—is proof of the infinitesimal part women play in politics in Italy.

The figures of Fascist membership do not take into consideration the workmen belonging to Fascist trade unions. These number about 3,000,000. The Fascist movement therefore controls the activities of about 4,000,000 men. Some idea of what this means in relation to the total population can be gathered from the fact that at the time of its greatest war effort Italy never had more than 5,000,000 men under arms.

International Offering of $100,000,000 Belgian Stabilization Bonds—$50,000,000 Offered in United States —Issue Sold—Books Closed.

Public offering was made in the United States on Oct. 26 of an issue of $50,000,000 Kingdom of Belgium Stabilization loan, external sinking fund 7% gold bonds by a syndicate headed by J. P. Morgan & Co. and the Guaranty Co. of New York. The issue was offered at 94% and accrued interest, to yield 7.50% to maturity. These bonds are part of $100,000,000 international stabilization loan issued for the purpose of placing Belgium's currency again upon a gold basis. The arrangements for the issue of the entire stabilization loan were as follows:

$50,000,000 principal amount in the United States of America, £7,250,000 principal amount in England, £1,250,000 principal amount in Holland, Fcs. 32,000,000 principal amount in Switzerland, Kr. 9,000,000 principal amount in Sweden.

The books were opened at the offices of J. P. Morgan at 10 a. m. on Oct. 26 and shortly after it was announced that in view of the heavy volume of early applications for the United States issue of the loan, the New York syndicate managers had closed the subscription books at 10.30 o'clock. A heavy oversubscription was reported.. The London portion of the loan was offered on Wednesday Oct. 27 at 94; according to the Associated Press cablegrams from London that day, the applications to subscribe to the loan were so many that the lists were closed within a few minutes after they had been opened. The New York "Evening Post" in a copyright message from London on Oct. 27 reported as follows concerning the reception of the bonds there:

The subscription books on the Belgian loan were open only fifteen minutes yesterday, and the bonds were about thirty times covered.

The London portion was issued by Baring Brothers, Morgan, Grenfell & Co. and the Westminster Bank.

According to an Amsterdam cablegram yesterday to the New York "News Bureau" from the Central News, there was a big rush for the Belgian loan which was offered in Holland yesterday (Oct. 29), and the issue was oversubscribed many times.

The syndicate offering the bonds in the United States included the following:

J. P. Morgan & Co., the Guaranty Company of New York; First National Bank, New York; the National City Co., New York; Bankers Trust Co., New York; National Bank of Commerce in New York; the Equitable Trust Co., New York; the New York Trust Co.; Harris, Forbes & Co.; Lee, Higginson & Co.; Kidder, Peabody & Co.; Dillon, Read & Co.; Brown Brothers & Co.; Halsey, Stuart & Co., Inc.; First Trust & Savings Bank, Chicago; Illinois Merchants Trust Co., Chicago; Continental and Commercial Company, Chicago; Central Trust Co. of Illinois, Chicago, and the Union Trust Co., Pittsburgh.

The bonds will be dated Nov. 1 1926 and will mature Nov. 1 1956. They will not be redeemable before Nov. 1 1936 except for the sinking fund. A cumulative sinking fund of 1% per annum, commencing Aug. 1 1928, is to be applied to the purchase of bonds if obtainable at or below 105% and accrued interest, or, if not so obtainable, to the redemption on Nov. 1 1928 and annually thereafter, upon 45 days' notice, of bonds called by lot, at 105% and accrued interest. The bonds will also be redeemable in whole or in part at the option of the Government on Nov. 1 1936 or on any interest date thereafter at 105% and accrued interest upon six months' notice. They will be in coupon form in denominations of $1,000 and $500, not interchangeable. Principal and interest (May 1 and Nov. 1) will be payable in United States gold coin of the present standard of weight and fineness in New York City, either at the office of J. P. Morgan & Co. or at the Guaranty Trust Co. of New York, fiscal agents, without deduction for any Belgian taxes present or future.

In a letter to the New York syndicate manager under date of Oct. 25, with reference to the purpose of the loan and the stabilization program and financial situation of Belgium, Baron M. Houtart, Minister of Finance, and Emile Francqui, Minister of State and member of the Cabinet of the Kingdon of Belgium, says:

Purpose of the Loan.

The proceeds of the loan will be paid directly to the National Bank or Belgium, thus reducing by an equivalent amount of francs the debt of the Government to the Bank. These funds received by the National Bank will be devoted by it to immediate stagilization of the currency, in terms of the Royal Decree, dated Oct. 25 1926, and the Royal Decree dated Oct. 20 1926, whereby the National Bank is required, on and after the 25th day of October, 1926, to maintain a minimum reserve in gold and or (foreign currencies of 40% at least 30% being in gold) of its note circulation and other demand liabilities; and Royal Decree dated Oct. 25 1926, whereby on and after the aforesaid day the National Bank is required to redeem its notes in terms of gold.

The National Bank is charged with the duty of carrying out the monetary policy, and steps have been taken to provide the bank with all powers requisite for this purpose and to assure it of the necessary freedom of action.

We may also mention that, in connection with the stabilization program, credits to the National Bank have been rranged by the Central and Reserve banks of the following countries: Austria, England, France, Germany, Holland, Hungary, Japan, Sweden, United States of America.

The present Government is a coalition of all the important political parties in Belgium, formed for the purpose of establishing sound financial conditions, and all the decisios regarding stabilization and monetary policy have been taken unanimously.

Preliminary Measures.

The way has been made clear for stabilization by the adoption of the following important measures:

A. Reduction of Floating Debt.—Under the provisions of the royal decree of July 31 1926 short term debt to the amount of francs 4,201,436,000 has been converted into preference shares of the Belgian National Ry. Co., guaranteed by the Government, with the result that such internal floating debt of the Government has been reduced to francs 2,153,000,000, inclusive of postal deposit accounts.

The external floating debt of Belgium amounts to the equivalent of $24,148,000. The Government and the national bank have made full provision in foreign currencies to meet this debt from funds already in hand, exclusive of the proceeds of the stabilization loan.

B. Fonds d'Amortissement de la Dette Publique.—This is an autonomous public institution created by Law of June 7 1926, to undertake all amortization of Government debt. It receives in addition to the sums specifically provided by law annually for amortization:

1. A special contribution for a period of four years of 1,500,000,000 francs minimum per annum, derived from new taxation voted for the purpose.

2. The preference shares of the Belgian National Railway Co. having a total nominal value of 10,000,000,000 francs, of which part has been applied to debt conversion as above. The proceeds of the sale of the balance, less 10%, will be devoted to retirement of Government debt.

3. The proceeds of the sale of State property.

C. Belgian National Railway Co.—The Societe Nationale des Chemins de Fer Belges, an autonomous organization, was created by law of July 23 1926 to operate and finance the Belgian State Railways. Since the organization of the company, passenger and freight rates have been raised approximately 37½% to 50%.

Receipts and Expenditures for 1926.

Upon the basis of the actual receipts and expenditures of the State in the first eight months of the current year, we are confident that the Government will be able to meet 1926 current expenditures by means of current income. In this connection, it should be noted that the expenditures include various sinking fund provisions sufficient to permit after allowing for the issue of Belgian Government 30-year reparation bonds to the extent of 512,000,000 francs) of a net reduction of the existing public debt by approximately 600,000,000 francs.

The 1927 *Budget.*

The Government undertakes to present to the House of Representatives budgets for the year 1927, the aggregate expenditures and receipts of which are in balance and the expenditures of which will include sinking fund provisions sufficient to effect a similar net reduction of approximately 1,350,000,000 francs in the public debt.

Government Debt.

The external debt of Belgium, inclusive of the Stabilization Loan and of inter-governmental debt, amounts to the equivalent of approximately $853,872,000 or $108 per head of the population. The internal debt of the Government, including all guaranteed debt, amounts to 32,645,421,741 francs or approximately 4,240 francs per head of the population.

If, in future, the Government shall issue any loan, whether internal or external, having a lien on any specific revenues or assets, the bonds of the Stabilization Loan, 1926, shall share ratably in any such lien.

It was noted in the New York "Times" that the first sale of the bonds on the Stock Exchange on Oct. 26 was at 94¼, and after touching a low of 94⅛ the price advanced to 94¾, closing at 94⅝. They have since steadily advanced and closed yesterday at 96⅜. Belgium's stabilization on gold basis is referred to in another item in this issue.

Federal Reserve Bank of New York Aids in Stabilization of Belgium—Secretary Mellon Praises Belgium's Action.

Aside from the $100,000,000 international Belgium stabilization loan (details of which are given elsewhere in this issue), the Federal Reserve Bank of New York is also aiding in Belgium's stabilization program. While various accounts as to the extent of the Bank's participation have appeared in the newspapers, the Bank on Oct. 26 issued the following statement:

As a part of the plans which have been completed for the stabilization of the Belgian currency, the Federal Reserve Bank of New York, in association with other Federal Reserve banks, has indicated its readiness to cooperate with the Belgium bank of issue, the Banque Nationale de Belgique, by participating with other banks of issue in the credit arrangement granted to the Banque Nationale de Belgique under which the Federal Reserve Bank of New York has agreed, if desired, to purchase up to a total amount of ten million dollars of prime commercial bills from the Banque Nationale de Belgique.

On Oct. 25 a copyright cablegram from Brussels to the New York "Times" contained the following:

Nine banks of issue secure to the Banque Nationale a credit of $35,000,000 the Federal Reserve Bank, the Banks of England, France and Holland, the Reichsbank and the Banks of Japan, Sweden, Austria and Hungary.

On Oct. 26 the New York "Times" printed the following in the matter:

Reserve Bank Aids Belgium.

The participation by the Federal Reserve Bank in the bank credit which has been extended to the National Bank of Belgium in addition to the public loan of the Government, marks a continuation of the policy announced at the time when a similar credit was extended to Belgium about a year ago. The Federal Reserve Bank, as on the previous occation, agrees to buy prime Belgian commercial bills, should it be called upon to do so. It is understood that in the life of the previous credit the Reserve Bank was not called upon to purchase any of these bills. The large number and importance of the banks sharing in the credit caused comment in Wall Street. Not only are the Bank of England and the Bank of France represented, but the principal former enemies of Belgium are sharing, including the Reichsbank and the banks of issue of Austria and Hungary .

A London cablegram, Oct. 25, to the same paper (copyright), said.

The special credits by foreign banks which will form part of the reserve of the Belgian National Bank, have been granted, it is stated here, mainly under the inspiration of the Bank of England.

Stabilization of Belgian Currency on Gold Basis—Belga New Monetary Standard.

Co-indemit with the issuance of a stabilization loan of approximately $100,000,000 ($50,000,000 of which was placed in the United States, as noted elsewhere in this issue). Belgian money was put on a new gold basis on Oct. 26, with the creation of a new monetary standard—the belga—equal to five paper francs, valued at about fourteen cents, and with a difinite gold value of .209211 grams.

The Associated Press cablegrams from Brussels on Oct. 25 in announcing the stabilization plans said.

The Belgian franc will be stabilized at 173.31 to the pound sterling, or about one-seventh of its pre-war value, but it will now longer be quoted on the foreign exchange markets of the world. Instead there will be the belga for the purpose of foreign trade.

Belgium's money, which has fluctuated in value from day to day since the Germans invaded the country in 1914, now has the support of the leading banks of issue of Europe, the United States and Asia. This support is expressed in an international loan to Belgium of $100,000,000, which will be used to keep the Belgian franc up to its new par level, which will make it about 36 to the dollar.

The loan will be placed upon the market to-morrow. It will bear interest at 7% plus 1% for amortization, and will run for a term of thirty years. The Federal Reserve Bank of the United States, the Bank of England, the Bank of France, the German Reichsbank and similar banks in Japan, Holland, Sweden, Austria and Hungary have agreed to support the loan. In addition, $35,000,000 in credits will be placed at the disposition of the Bank of Belgium to assist in carrying out the immediate stagilization plans.

Bankers and business men in Belgium received the Government's stabilization announcement this afternoon with favorable comments. The only criticisms of any extent heard were aimed against the creation of the belga, which some traders view as an unnecessary measure.

Governor Franck of the Bank of Belgium appeared on the Bourse this afternoon and explained why the Government had decided to establish the new currency for foreign trading while retaining the franc in domestic circulation. He stated that the belga was not based on the British pound or the American dollar, but on gold. "There were two formula for stabilization," he said. "We could have tied ourselves to some fixed proportion to foreign money of a gold standard or have chosen a direct sum in gold. The Government chose the latter formula. It is far better, especially for a little country such as ours. The gold weight which will be attributed to the belga is exactly .209211 grams. On this basis the dollar is worth 7.20, and if the pound is at par it wil be exactly 35 belgas."

M. Franck was warmly cheered after his explanation. The stock market has reacted favorably to the reforms instituted by the Government, State loans rising on an average of 4%. The new regime will be put into effect immediately.

Several royal decrees on the financial situation were made public to-night. They forbid the quotation of anything but the belga for foreign exchange transactions and guarantee the ratio of one franc to five belgas. Another decree will turn over to the National Bank the total income of the new foreign loan against the restitution of a similar amount of Treasury bonds.

It also was announced that the State's indebtedness to the bank will be reduced from 6,705,000,000 francs to a maximum of 2,000,000,000 by the new foreign loan. The gold reserve of the National Bank was estimated at 335,000,000 francs. On a revaluation in the proportion of one gold to seven paper francs, the State shows a book profit of 2,000,000,000 paper francs which will be used to reduce the Government's indebtedness to the National Bank.

Most of the evening papers approve of the Government's course, feeling that all danger of failure has been averted by economies at home and sound arrangements by the banks of issue abroad.

The cablegram to the New York "Times" from Brussels on Oct. 25 (copyright) had the following to say regarding the Royal decrees.

The "Journal Officiel" published this afternoon a special edition containing all the royal decrees relating to stabilization of the franc. They were preceded by a report to the King countersigned by all the Ministers, which reads:

"We have been able to take preliminary measures, thanks to the support of the entire country. It now remains to gather the fruits of five months of efforts and sacrifices and to take the final step.

"The franc will continue to take its part in the national economy and will remain what it always has been in relation to transactions and the execution of contracts. The franc is henceforth guaranteed against a fall. Exchange of the Belgian franc as against foreign currencies will be established henceforth with a multiple of five. The Banque Nationale is adopting this multiple as the basis of its repayments in cash.

"The multiple of five is alone quoted in exchange matters and bears in this connection the name of 'belga.' There is no question of new money. The belga, 'monnaie de chance,' is a mere multiple of the franc. Both will at all times be interchangeable on the basis of five francs for one belga."

Further advices from Brussels Oct. 27 (Associated Press) stated:

A new metal currency, corresponding to multiples and subdivisions of the newly created Belgian monetary standard, the belga, was instituted to-day by a royal decree. The new currency will replace the 5 and 20-franc notes.

The present 5 and 20-franc notes will remain in circulation, but will be withdrawn gradually. To-day's measure will place from 125,000,000 to 150,000,000 francs in metal money in circulation, as compared with the 25,000,000 now in circulation.

The National Bank of Commerce in New York furnishes the following translation of a cablegram received by it from Governor Franck of the National Bank of Belgium, of Brussels.

We inform you that by virtue of a decree for the stabilization of Belgian money which appeared to-day in the official monitor, quotations of exchange in Brussels will from now on be established in Belga. One Belga equals 5 francs and corresponds to a weight of fine gold of 0.209211 as a basis of stabilization. On this basis of parity the dollar equals Belga 7.19193. Nothing is modified as to the circulation and the redemption power of the bank notes of the National Bank of Belgium issued in francs.

Trading in New Belga in New York Market, along with Paper Francs, Brings Confusion—New York Federal Reserve Seeks Advice from Brussels.

From last night's (Oct. 29) "Sun" it is learned that great confusion prevailed among large local banks dealing in Belgian exchange yesterday. It added:

In an effort to clear up the confusion which originated over the decision of many institutions to quote both "belgas" and paper francs, the Federal Reserve Bank cabled to the Banque Nationale Belgique for instructions and advice. The latter bank, which is the central institution of Belgium, cabled all local banks here on Tuesday to supplant the Belgian franc with belgas, the latter being the new international exchange unit equivalent to five paper francs.

Up to a late hour no reply had been received from Brussels and none is expected uniti to-morrow morning. Meanwhile the various banks quoted belgas, francs or francs and belgas indiscriminately. Those who continued quoting belgas insisted they were carrying out the Belgian bank's instructions and that others not doing so were violating the rules. The banks which quoted francs declared that their Belgian balances had not been transformed from francs into belgas and that they were not going to double their bookkeeping labors by quoting the two units interchangeably.

In some banking circles it was said that the whole confusion would have been avoided if the Belgian banks had transformed foreign accounts into belgas coincidentally with the cessation of dealings in Belgian paper francs.

Reference to the trading in the new belga in the New York market was made as follows in the "Times" of Oct. 27:

Foreign exchange traders in New York yesterday started to trade in the new Belgian exchange known as the belga, and while the exchange is virtually pegged and will not fluctuate to any extent, still there was considerable interest in this newcomer to the foreign exchange tables. The day's prices were 13.91 cents bid and 13.92 offered. The par of the Belgian exchange is 13.904, representing 5 of the paper currency, which was valued at approximately 2.78½ cents. On the basis of parity the dollar equals 7.19193 belgas. On the basis of stabilization, the price translated into weight of fine gold is 0.290211

The "Journal of Commerce" stated on Oct. 29 that it was reported the previous day that foreign exchange dealers in this market would very probably discontinue the use of belga quotations in dealings in Belgian exchange and resume quotations in Belgian francs on a par basis of 2.79. This paper also said:

Since the announcement of the Belgian stabilization plans the belga has been used as the unit in transactions in Belgian exchange on a basis of 13.90c. per belga.

The belga was created as a foreign trade unit, equal to five new gold francs. Some confusion has arisen, however, over the necessity of keeping foreign balances in francs, while trading was carried on it belga.

Belga Passes Intended Parity on Brussels Market.

The following Associated Press advices were reported from Brussels, Oct. 26:

Belgium's new monetary unit, the belga, making its first appearance on the market to-day, within a few hours sped past its intended parity against the dollar and the pound.

It crossed the 3 o'clock finishing line on the Bourse at a clip of 7.185 to the dollar and 34.85 to the pound. On a gold basis, it was intended to equal exactly 35 to the gold pound and about 7.20 to the gold dollar.

Since the belga has been set at 5 Belgian francs by the Government, the latter was, therefore, worth 35.925 to the dollar.

The paper franc opened at 174.30 to the pound, but this opening price constituted its farewell appearance on the foreign exchange market where it was replaced immediately by the belga. The closing price of the belga was an equivalent of 174.25 paper francs to the pound.

The quotations against Paris were 22.20 belgas for 100 French francs.

Annual Meeting of Northern New Jersey Clearing House Association—Exchanges for Year $1,974,055,434.

At the annual meeting on Oct. 21 of the Northern New Jersey Clearing House Association, held at the Commercial Trust Co. of New Jersey, Jersey City, the following figures covering the operations for the year were shown:

Total amount of exchanges from Oct. 1 1925 to Oct. 1 1926 $1,974,055,433 89.

Total amount of balances from Oct. 1 1925 to Oct. 1 1926, $1,459,629,758 71.

Largest exchanges on any one day from Oct. 1 1925 to Oct. 1 1926—on April 1 1926, $35,163,668.

Largest balances on any one day from Oct. 1 1925 to Oct. 1 1926—on April 1 1926, $33,445,908.

Officers and committees of the clearing house were elected as follows for the year ending Oct. 20 1927:

President—O. P. Vreeland, Greenville Banking & Trust Co., Jersey City.

Vice-President—Walter P. Gardner, New Jersey Title & Guarantee Trust Co., Jersey City.

Secretary—Willard M. Brown, New Jersey Title Guarantee & Trust Co., Jersey City.

Conference Committee—Two Years: F. A. Berenbroick, Weehawken Trust & Title Co., Union City; Herman Goelz, First National Bank, Hoboken. One Year: F. C. Ferguson, Union Trust & Hudson County National Bank, Jersey City; W. R. D. Andrews, Claremont Bank, Jersey City.

Arbitration Committee—Two Years: R. S. Carmichael, Commercial Trust Co., Jersey City; Samuel F. Hartzel, Hoboken Trust Co., Hoboken. One Year: H. J. Gordon, Weehawken Trust & Title Co., Union City; Joseph Harrison, Trust Co. of New Jersey, Bergen-Lafayette Branch.

Nominating Committee—Two Years: Henry Brown Jr., First National Bank, Jersey City; J. H. P. Reilly, Hudson Trust Co., Hoboken. One Year: A. N. Terbell, Second Bank ; Trust Co., Hoboken; E. M. Farrier, Lincoln Trust Co., Jersey City; E. A. O'Toole, Trust Co. of New Jersey, Hoboken Branch.

Clearing Committee—C. H. Coe, Chairman; A. W. Gilbart, R. M. Gidney.

Purchase of $6,000,000 Hungarian Consolidated Cities Loan by Speyer & Co.—Offering of Bonds—Books Closed, Issue Oversubscribed.

It was announced on Oct. 27 that Speyer & Co. had concluded negotiations for the purchase of $6,000,000 Hungarian Consolidated Municipal Loan twenty-year 7% sinking fund gold bonds, external loan of 1926. The bonds were offered yesterday (Oct. 29) by Speyer & Co. at 93½% and interest, to yield about 7.65% if held to maturity. The lists were closed within a few hours, the issue having been heavily over-subscribed.

The bonds, dated Sept. 1 1926, will become due Sept. 1 1946. Principal and interest Jan. 1 and July 1 will be payable in New York City, in United States gold coin of the present standard of weight and fineness, free from all Hungarian taxes, present or future, at the office of Speyer & Co., Fiscal Agent for the loan. The issue is in coupon form in denominations of $1,000 and $500, registerable as to principal. A cumulative sinking fund, beginning Jan. 1 1927, will repay the entire issue at or before maturity by semi-annual drawings at par. The bonds will be secured by a direct charge on all the assets and revenues of 32 Hungarian Municipalities, subject only to the charge of the Consolidated Municipal Loan of 1925 on the assets and revenues of these municipalities which participated therein. The aggregate revenues of these municipalities were in 1925 about $5,500,000 equal (after deducting annual charges of about $645,000 for the service of that loan) to more than eight times the annual interest and sinking fund on this loan. For the service of this loan there have been specifically set aside revenues of these municipalities to be collected by the Royal Hungarian Government. The proceeds of this loan will be expedned under the control of the Royal Hungarian Government for capital purposes, about 90% for income-producing properties and the remainder for schools, public buildings, &c.

In July 1924 Speyer & Co. sold $7,500,000 Hungarian Government 7½% reconstruction loan bonds at 87½, now quoted at 99½, and a year later the same firm sold $10,000,000 Hungarian consolidated municipal loan 7½% secured gold bonds at 89, now quoted at 97. Speyer & Co. in their announcement of Oct. 27 regarding the purchase of the new issue said:

The advance in the quotation for these loans since they were sold is justified by the improved conditions in Hungary, as also evidenced by the fact that the Council of the League of Nations in June of this year declared that the financial stability of Hungary was assured and therefore terminated the control by the Commissioner-General, Hon. Jeremiah Smith, Jr.

A portion of the previous Hungarian loans was placed abroad, but as the amount of the new loan is comparatively small, no public offering of this issue will be made abroad.

The New York "Times" in a cablegram Oct. 27 (copyright) from its Budapest correspondent had the following to say regarding the loan:

"That the financial position of Hungary is established on a solid basis is shown by the negotiations now proceeding with Speyer & Co. of New York for a loan of $6,000,000 for various cities and towns of Hungary," Hungarian Finance Minister Bud declared in an interview I had with him yesterday. "The agreement will be signed either to-night or to-morrow morning," he added.

It was signed to-day, and the terms on which the loan was concluded are the best proof of the appreciation in Hungary's credit which has taken place since the former loan floated in New York in July 1925. The interest, which was then 7½%, is now reduced to 7%.

The negotiations were carried on by the Gordon Keith Co. and the Pest Commercial Bank. The Hungarian Government is not directly associated with the loan, but it has indirectly guaranteed it by relieving the fund concerned of certain charges for which it is liable to the State and which now become security for the issue.

M. Bud reflected the general opinion here when he said that it was thanks to the American, Jeremiah Smith, that Hungary was financially on her feet. Mr. Smith had shown the way and the country was striving carefully and confidently along the path he had indidated, M. Bud said.

The Government itself had no need for foreign credit, he continued. The budget was balanced and while taxation was heavy, it was equally distributed and the burden was not too heavy to prevent the industrial and commercial development of the country.

"Thanks to conditions which now prevail," said Mr. Bud, "Hungary is now in a gsition to contribute in some measure to the general recovery of Europe from the upheaval of war.

"Our national bank is co-operating in the financial rehabilitation of Belgium. We are glad to co-operate with that country, which was our enemy in the war, in the work of peace, for the general stabilization of currencies will be good for all of us."

Proposed Flotation of First Foreign Protestant Loan in United States—$2,500,000 Bonds of Protestant Church in Germany Welfare Institutions.

Another foreign religious loan—the third to be arranged with American bankers by religious denominations in Germany—will shortly be offered in this market. This time the financing is on behalf of Protestant (largely Lutheran) institutions in Germany instead of Catholic organizations, as was the case in the previous financing. Howe, Snow & Bertles, Inc., Redmond & Co. and Ames, Emerich & Co. are heading a syndicate which has just purchased a new issue of $2,500,000 Protestant Church in Germany Welfare Institutions 7% 20-year secured sinking fund gold bonds. As in the case of the $5,000,000 Roman Catholic Church in Bavaria 6½% 20-year loan, series A, offered early this year, and the $3,000,000 Roman Catholic Church Welfare Institutions in Germany 7% 20-year bonds offered this past summer, the Protestant Welfare Loan is the first of its kind ever to be made externally for a foreign division of the church.

The present loan represents a direct obligation of the principal Protestant Welfare Organization of Germany, known in English as the Central Committee for Welfare Institutions of the German Protestant Church, a corporation founded in 1849, which binds the principal Protestant welfare, educational and religious organizations of Germany into a powerful unit and is recognized by the Protestant Church and by the German Government as the official financial and administrative representative of the German Protestants on welfare matters. The private institutions in Germany are almost entirely under religious auspices, and are grouped under seven main organizations. The Protestant and Catholic organizations are comparable both in size and number of institutions, each receiving 50% of the total amount allotted by the German Government for private welfare activities each year. The welfare activities cover hospitals, care of aged, orphanages, help for prisoners, care of homeless and travelers, workers' homes, eare of physical and mental defectives, convalescent homes, &c.

Esthonia Delivers $13,830,000 in Bonds to United States—Final Steps in Funding of Indebtedness.

Announcement was made on Oct. 18 by Secretary of the Treasury Mellon, Chairman of the World War Foreign Debt Commission, that the Esthonian Charge d'Affaires had delivered to the Treasury Department $13,830,000 in Esthonian bonds, "in principal amount," in exchange for original obligations given by Esthonia to the United States for surplus war supplies. The statement follows:

Final steps were taken to-day in connection with the funding of the indebtedness of the Republic of Esthonia to the United States.

Colonel Victor Mutt, Charge d'Affaires ad interim of the Esthonian Legation, delivered to the Treasury bonds of the Government of the Republic of Esthonia in the principal amount of $13,830,000, receiving in exchange original obligations given by his Government in connection with the sale of surplus supplies by the United States Liquidation Commission (War Department) and relief supplies furnished by the American Relief Administration.

The Act approving the Esthonian settlement was signed by the President on April 30 1926. The text of the Act was given in our issue of May 1, page 2437. The Debt Funding Agreement has also been approved by the Esthonian Government.

Portion of Bonds of Saxon State Mortgage Institution Called for Redemption.

The National City Bank of New York, as trustee, has issued a notice to holders of Sachsische Landespfandbriefanstalt (Saxon State Mortgage Institution) mortgage collateral sinking fund 7% guaranteed gold bonds, due Dec. 1 1945, that $31,000 principal amount of bonds of this issue have been called for redemption out of moneys in the sinking

fund at par and interest. Bonds selected for redemption will be redeemed on and after Dec. 1 1926 upon surrender at the head office of the National City Bank, 55 Wall Street. Interest on all such bonds will cease on Dec. 1 1926.

Part of City of Berlin Sinking Fund Gold Loan Called for Redemption.

The City of Berlin, Germany, has purchased for cancellation through the sinking fund, $151,000 of its 25-year 6½% sinking fund gold loan of 1925. This represents the third sinking fund installment. The bonds were bought in the market by Speyer & Co., fiscal agents for the loan.

Port of Austrian Government Guaranteed Loan of 1923-1943 Called.

The trustees under the general bond of the Federal Republic of Austria, dated May 31 1925, have issued a notice under date of Oct. 27 to holders of Austrian Government guaranteed loan 1923-1943 7% sinking fund gold bonds, announcing that $434,300 principal amount of this issue have been drawn for redemption at 100% on Dec. 1 1926, out of moneys in the sinking fund. Bonds bearing the serial numbers drawn by lot will be redeemed and paid on and after Dec. 1 1926 at the office of J. P. Morgan & Co. on the presentation and surrender of such drawn bonds. Interest will cease on all such drawn bonds on and after Dec. 1 1926.

European Steel Combination Imposes Penalty of $4 a Ton on Overproduction.

The following Associated Press advices were reported from Washington, Oct. 28:

European steel and iron producers, in connection with the general combination in their industry have devised a new scheme of controlling production, described to-day in reports to the Commerce Department from D. J. Reagan, United States Trade Commissioners at Paris.

Whenever a plant produces more than its allotted tonnage, it is required to pay a penalty of $4 a ton to the general pool of the trust, and if any plant fails to attain its allotted output, it receives a bonus of $2 a ton on the amount below its quota.

This supplements an arrangement among the concerns that have pooled their interests by which a general levy of $1 on each ton of output is paid to the headquarters of the combined. One effect, Mr. Reagan noted as having already been brought about, was the general increase of European steel prices to a point that virtually covered the $1 levy. Germany, France, Luxembourg and Belgium steel makers have all entered the "steel entente," which, it is said, dominates the Continent.

St. Louis Land Bank Reduces Interest on Farm Loans to 5%.

A reduction in interest rate for farm loans from 5½ to 5%, effective Nov. 1, was announced on Oct. 22 by the St. Louis Federal Land Bank, which operates in Illinois, Missouri and Arkansas. This, it is atated, follows similar reductions by the Omaha and Wichita land banks. The Associated Press advices from St. Louis on Oct. 22 said.

An increasingly large business and the ability to sell the bank's bonds at the comparatively low rate of 4.15% were given by the President as reasons for the reduction.

Georgia Bankers to Organize Million-Dollar Corporation to Finance Cotton, in Accordance with Suggestion of Eugene Meyer—300,000 Bales to Be Retired.

Steps were taken on Monday of this week (Oct. 25) toward the organization of a corporation with $1,000,000 capital, with authority to make advances on cotton and to provide for its storage until it can be marketed, the plans embracing the retirement from the market of 300,000 bales of Georgia cotton for a period of from eighteen to twenty-four months. The work of developing the plans for the formation of the new corporation was undertaken on Oct. 25 by a committee of five Atlantic bankers, meeting in the directors' rooms of the Atlanta & Lowry National Bank. The corporation is to be known as the Georgia Cotton Finance and Holding Co. Monday's meeting was the outgrowth of conference a of bankers and business men held on Oct. 23 at the Atlanta Chamber of Commerce to adopt plans for assuring orderly marketing of cotton outlined at the conference by Eugene Meyer, Jr., of Washington, Chairman of the Special Cotton Committee named by President Coolidge. Regarding this conference the Atlanta "Constitution" of Oct. 24 said:

After the general conference a special committee of the Georgia Bankers Association adopted a resolution by R. F. Maddox, Chairman of the Board of the Atlanta & Lowry National Bank, providing that a special executive committee of five members proceed at once to organize the $1,000,000 finance corporation suggested by Mr. Meyer. A meeting of the special executive committee was called for 3 o'clock Monday afternoon at the Atlanta and Lawry National Bank to proceed with the organization.

Almost simultaneously with action to organize the finance corporation, J. E. Conwell, President of the Georgia Cotton Growers Co-Operative Association, announced that his organization has increased by 2 cents a pound its advance to members on all except the lower grades of cotton, thus raising the advance to 9 cents on cotton graded as strict middling white or better. Every bale pooled with the association has been withdrawn from the market, Mr. Conwell announced. This action, Mr. Conwell said, was taken to give further relief to cotton growers of Georgia and the South.

Co-Operation Assured.

Prominent Georgia bankers assured Mr. Meyer at the Saturday conference that Georgia would provide the organization he suggested and that he could go to other Southern States and assure them that Georgia will be ready with the other States to carry its share of the 4,000,000 bales proposed to be financed. Georgia's share of this cotton will be approximately 300,000 bales. Mills B. Lane, of Savannah, head of the Citizens and Southern chain of banks, assured Mr. Meyer that he would provide the $1,000,000 for the organization if necessary, but said he was sure the banks of Atlanta and other cities would co-operate quickly in this movement.

"Banks in Georgia are able to furnish necessary finances for carrying the surplus cotton," Mr. Lane said in his speech at the morning conference; "In fact, any two of several banks we have could do it. The way to help the farmers as far as marketing the cotton is concerned is for them to go into the co-operative marketing association."

Members of the special executive committee appointed to proceed with organization of the $1,000,000 corporation which will finance surplus cotton for at least twenty months, were named as follows: J. S. Floyd, Atlanta; W. B. Spann, Atlanta; Charles B. Lewis, Macon; Robert F. Strickland, Jr., Atlanta; and John M. Graham, Rome.

According to the plan suggested by Mr. Meyer, Mr. Maddox and others, the proposed finance corporation will in no way interfere with the activity of the Georgia Cotton Growers' Co-Operative Association, of which Mr. Conwell is President, but will co-operate with that body. This assurance was given Mr. Conwell at the conference. Mr. Meyer praised the co-operation which he had found in Georgia existing between the association and bankers.

Georgia to Blaze Trail.

In presenting his resolution, Mr. Maddox declared that Georgia should set an example to other Southern States by taking definite action in organizing this finance corporation.

"If Georgia waits on South Carolina, and Texas waits on Georgia, there will be delay," Mr. Maddox said. "We appreciate the seriousness of the situation and are ready to provide the means for the orderly marketing of Georgia's share of the crop. The remainder of the crop also must be marketed in an orderly fashion if we are to get the results desired."

Mr. Meyer, at the general conference held before noon and at the conference of the committee of bankers, urged definite action by the Georgia business men and bankers.

"If you go ahead and organize your finance corporation to carry this surplus cotton for 20 months and if the other States follow this example, you will see an early increase of two or three cents a pound in the price of cotton," he said.

Marketing Machinery.

Mr. Meyer said co-operative marketing machinery in all the Southern States should be used in marketing the cotton in an orderly manner but said the finance corporation was needed to handle the cotton taken off the market for 20 months.

"You've got to show the world you mean business," Mr. Meyer said. "The time you get a substantial amount of cotton off the market the price will increase."

Mr. Meyer said reduction in acreage next year went hand in hand with the plan to take 4,000,000 bales off the market as recommended by the Memphis conference of bankers and business men held recently.

Mr. Meyer was introduced at the general conference of bankers and business men by Mr. Maddox. John K. Ottley, President of the Fourth National Bank of Atlanta, presided and stated the object of the meeting. Joseph R. Murphy, Secretary of the Georgia Bankers' Association, served as Secretary of the conference.

Prominent Speakers.

Speeches on various phases of the situation were made by J. K. Orr, Martin Amorous of Marietta, Abial Winn, Valdosta, President of the Georgia Bankers' Association, and M. B. Wellborn, Governor of the Atlanta Federal Reserve Bank.

In his speech Mr. Wellborn said the banks of the South are in a position to finance the cotton crop and said banks of this district can finance 2,000,000 bales of cotton.

"The surplus cotton of the South should be marketed through the co-operative marketing associations," Mr. Wellborn said. "They are already on the ground and now new machinery should be set up."

Mr. Orr urged the growing of food crops in Georgia, stating that $100,000,000 a year goes from this State to other States for crops of this kind.

Mr. Amorous urged that all cotton farmers in Georgia join the co-operative marketing association and urged that bankers who finance crops insist next year on a reduction in acreage.

Many Leaders Present.

Among the bankers present at the meeting were Robert F. Maddox, John K. Ottley, Robert F. Strickland, Jr., J. S. Floyd and M. B. Wellborn, Alanta; Mills B. Lane and John J. Cornell, Savannah; C. O. Carpenter, Macon, John M. Graham, Rome; J. B. Key Columbus; Frank Shelfield, Americus; Abial Winn, Valdosta; H. P. Hunter, Elberton; W. R. Spann, Atlanta; Charles B. Lewis, Macon; E. J. Brown, Albany; A. B. Kitchens, Augusta; A. C. Williams, Washington, D. C., chairman of the board of the Federal Farm Loan Board; O. J. Drake, Griffin; L. M. Brand, Lawrenceville C. W. Skinner, Waynesboro and R. L. Turner, McDonough.

After the steps were taken to organize the $1,000,000 finance corporation, Mr. Meyer congratulated the Georgia men on this action. He suggested that the cotton surplus be held 20 or 24 months. The cotton should be withdrawn from the market until conditions warrant its disposal, Mr. Meyer said.

Mr. Meyer said the cotton withdrawn should be placed properly in warehouses and said Federal Intermediate Credit banks would furnish credit arrangements on this cotton and that these banks also will assist in proper insurance of cotton placed in warehouses under these conditions, Mr. Meyer praised the work of the State Co-operative Marketing Association and said the Intermediate Credit Banks already have loaned the association $33,500,000 this season.

Georgia Cotton Increases Advance to Members on Cotton.

Further relief for Georgia growers was seen Saturday in announcement that the Georgia Cotton Growers' Co-operative Association has increased by 2 cents its advance to members on all except the lowest grades of cotton. This raises the advance to 9 cents on cotton graded as strict low middling white or better.

Every bale of cotton pooled with the association is withdrawn from the market and officials have announced that they will sell none at the current price level.

In a letter of notification to the Georgia banks, President Conwell authorizes members to draw at the rate of 7 cents a pound on all cotton shipped for pooling, and announces that the grading and classing will be expedited and an additional advance payment of 2 cents a pound will be made on all that grades better than strict low middling white.

"The association cannot afford to make an advance on its members' cotton that will turn out to be more than the cotton is sold for," Mr. Conwell said. "It cannot even afford to advance more than it can borrow at a reasonable interest rate on the cotton, for it can make the advance to members only on borrowed money.

Sound Financiers.

"Our advance of 9 cents a pound on all except inferior cotton will prove a great help to our members and will at the same time keep the association on a sound financial basis.

"We are able to store and insure our members' cotton at rates which are more than 40% lower than the individual farmers can obtain, and the co-operative association offers the safest and soundest means available for correcting the weakness in price that is due to disorderly marketing.

"We are gratified that such wide spread recognition has been given to the co-operative associations as furnishing the best means for relieving the conditions of the cotton farmer this year, and we are convinced that as our associations grow in membership we will eventually be able to reduce to a harmless minimum wholesale dumping and forced selling which at present do so much to take from the farmer the profits that he would make through orderly marketing."

Richmond Banks Established Revolving Fund of $5,000,000 for Loans Against Warehoused Cotton.

The creation by Richmond, Va., banks of a revolving fund of $5,000,000, which is to be made available, at current rates, for the use of their customers in the Richmond Federal Reserve District against properly warehoused cotton, was announced on Oct. 23. The Richmond "Dispatch" of Oct. 24 says:

Twelve Richmond banks co-operated in creating the revolving fund which will be made immediately available. Notice of the action has been sent to all newspapers in the cotton areas of Virginia and the Carolinas. Establishment of the fund is the most important action of the kind ever taken by Richmond banking institutions.

Following are the banks participating in the revolving fund: Firstand Merchants' National, State-Planters' and Trust, American National, Central National, Bank of Commerce and Trusts, Union Bank and Federal Trust, Savings Bank of Richmond, West End Bank, Richmond Trust, Broadway National, South Richmond Bank, Mechanics, and Merchants.'

The banks issued the following statement:

"Had the South spent the money necessary to raise a 16,000,000-bale crop of cotton and then because of boll-weevil, weather or other conditions, produced but 5,000,000 bales, the loss would have been deplorable and caused severe financial suffering.

"This year we find ourselves with an enormous yield of one of the most valuable products of the earth. True, the size of the harvest has affected seriously the present market value, but none the less there has been created an asset of great value which can be utilized for the benefit of the South and of the world.

"Hysteria, because of the present market conditions, cannot and will not solve the problem. The important step to be taken now is so to conserve such portion of the crop as may not be readily marketable as to insure its adding materially to the wealth of the South, when and as it may be consumed at fair prices.

Invoke Unusual Methods.

"While, from year to year, we believe in the general pirn iple of selling a crop with reasonable promptness, the present situation is so unusual that unusual methods must be invokved and are therefore prepared to co-operate to the fullest extent to enable such portion of the cotton crop as cannot be profitably disposed of at this time to be warehoused and saved for future use.

"To this end the undersigned banks have provided a revolving fund of $5,000,000 which they shall be glad to make available for the use of the customers in the Fifth Federal Reserve District against properly warehoused cotton at current rates.

"We have ample warehouse facilities to care for the abundance of the yield with which God has blessed us and a combination of courage, economy, patience and financial co-operation should result in making this nonperishable asset a boon rather than the menace some pessimists now predict it may be.

"Sound business judgment rather than mere sentiment prompts this action on the part of the Richmond financial institutions in the belief that all clear-thinking farmers are now fully convinced as to the necessity for reduced acreage in 1927, or until the existing surplus of cotton can be consumed.

"This result will be the earlier achieved if stimulated by a great popular movement throughout the South and the country at large for the ncreasd consumption of cotton goods of every description. Such a movement is prompted both by economy and good business."

Proclamations by Governors of Alabama and Mississippi Designating Current Week as Cotton Acreage Reduction Week.

On Oct. 21 a proclamation was issued by Governor W. W. Brandon, of Alabama, designating the present week (beginning Oct. 25) as a period to be devoted to efforts for the orderly marketing of the cotton crop, and securing pledges for the reduction of cotton acreage for next year. The proclamation, it is stated, was issued at the request of the agricultural committee of the Alabama Bankers Association which met at Montgomery on Oct. 21 and considered the cotton situation, says the Birmingham "Age-Herald," which gives as follows the text of the proclamation:

Whereas, the price of cotton, the great agricultural staple of the South, upon which the prosperity of the South and of the entire nation is largely dependent is such that vigorous methods are necessary to meet a situation which admits of no delay; and,

Whereas, at a regional conference of cotton producers, bankers and business men, held at Montgomery on Oct. 12 1926, certain plans and recommendations were adopted and similar plans and recommendations were adopted at a South-wide conference held at Memphis, Tenn., on Oct. 13 1926, which plans have been approved in principle by an advisory committee appointed by President Coolidge, consisting of Cabinet members and others; and,

Whereas, the Alabama Bankers Association has named a committee of 20 prominent bankers of the State for the purpose of devising ways and means to relieve the situation, and a State committee of eight prominent citizens has been named by the Memphis conference for the same purpose.

Now, herefore, I, William W. Brandon, as Governor of the State of Alabama, in accordance with the recommendations of said conferences, de hereby proclaim the week beginning Oct. 25 1926 as a time to be devoted to the prosecution of vigorous efforts looking toward the handling and marketing in an orderly way of the cotton crop of the State of Alabama, and by means of similar action to be taken during the same period in other States, the handling and marketing in an orderly way of the cotton crop of the entire South, and in connection therewith the securing of pledges from cotton producers, bankers, supply merchants and others, actively interested in the production of cotton, for a substantial reduction in cotton acreage for the year 1927.

And I do hereby urge the cotton co-operatives and the bankers, business men and farmers of the State of Alabama to put forth th ir best efforts during the said period to the working out of definite plans which will tend to relieve the cotton producers of the State and will eventually result in the greater prosperity of all. And I do hereby call upon all the people and business institutions of the State of Alabama to co-operate with the committee appointed by the Alabama Bankers Association and the State-wide committee appointed by the Memphis conference and pledge their resources and their best efforts toward the success of the movement.

In testimony whereof, I have hereunto set my hand and caused the great seal of the State to be affixed at the capitol, in the city of Montgomery, on thier the 22d day of October, in the year of our Lord one thousand nine hundred and twenty-six.

W. W. BRANDON.

A similar proclamation was issued as follows as of Oct. 23 by Governor Dennis Murphree, of Mississippi:

Whereas, there was held in Memphis, Tenn., on Oct. 13 1926, a conference of representatives of banks, agriculture and other lines and pursuits of business from all of the cotton-growing States of the South, to consider the decline in the price of cotton and to devise and put into operation a plan that will insure better prices for this, the South's greatest crop, and to prevent a recurrence of the present cotton situation; and

Whereas, these representatives in convention gave careful and thorough consideration to the whole situation, and to methods for its improvement; and,

Whereas, the following conclusions were reached, to-wit: "That the indiscriminate dumping of cotton upon the market without regard to cost of production or of the existence of machinery, both Federal and otherwise, to market the present crop in a systematic, quiet and orderly manner, is not warranted. That at least 4,000,000 bales of cotton should be withdrawn from the market for a considerable period of time for orderly marketing. That a reduction of the cotton acreage for 1927 by at least 25% under the cotton acreage for 1926 should be made, and there should be definite a signed pledge on the part of every cotton grower to that effect"; and

Whereas, steps are now being aken throughout Mississippi to carry out the plans of the Memphis-Southwide cotton convention;

Now, therefore, I, Dennis Murphree, Lieutenant and Acting Governor of the State of Mississippi, do hereby proclaim and set aside the week beginning Oct. 25 and ending Oct. 30, 1926, as "Cotton Acreage Reduction Week" and call upon all loyal and patriotic citizens and organizations as well as officials throughout the State, to do their full duty in lending assistance to this movement, to the end that all citizens may be informed in complete detail as to what their duties are. I further call upon all citizens to attend meetings at the school houses of their respective school districts throughout Mississippi on next Friday, Oct. 29, at 10 o'clock a. m.

British Spinners Go Back to Twenty-Four-Hour Week.

From the New York "Journal of Commerce" we take the following Washington advices, Oct. 24:

The recent decision of British spinners of American cotton to operate on a one-third full-time basis, instead of full time every other week, has been rescinded, according to cabled reports reaching the Department of Commerce. Spinners are reverting to a 24-hour week, the movement being well supported, the report stated.

As a result of the decline in cotton prices, the committee of the Federation of Master Cotton Spinners' Associations has decided to revise basic selling prices on standard counts of yarn spun from American cotton by reducing the raw material basis from 9.50d. ($0.193) to 7.50d. ($0.152) per pound. Spinners are allowed an increase of one farthing (½ cent) in their margin of profit under the new scale, and the net reduction in yarn prices, therefore, amounts to only 1¼d. ($0.035) per pound. The following list of minimum yarn prices is believed to have been in operation at the time the revision was made:

Counts—	*Suggested Minimum Prices.*	*Production Costs.*
20s weft	13.75d.	14.01d.
32s weft	15.00d.	15.66d.
42s weft	16.75d.	18.18d.
54s weft	21.25d.	22.55d.
20s twist	15.00d.	15.05d.
36s twist	17.00d.	18.32d.
44s twist	20.25d.	21.50d.
20s ringbeams	16.25d.	16.22d.
36s ringbeams	18.75d.	20.26d.
44s ringbeams	22.25d.	23.58d.

Secretary Jardine, in Proposing Program of Safe Farming, Says Need Is Fewer Acres of Cotton, But More Cotton to the Acre.

In a statement offering suggestions for solving the difficulties of the cotton grower, Secretary of Agriculture Jardine points out that "there has been a steady drift to the greater production of cotton, and this has been at the sacrifice of diversified crops." He urges the diversification of crops, and as to cotton itself, he says "the need is fewer acres of cotton but more cotton to the acre." He also advises

farmers to adopt a long-time program instead of the year-to-year basis. The following is Secretary Jardine's statement, issued under date of Oct. 23:

We are now working on the pressing problem of removing part of this year's cotton production from the market, and reducing the next season's acreage to fit more nearly the demands of the markets of the world. I am confident that a plan will be put into effect which will succeed not only in caring for this year's crop, but in placing future marketing of cotton on a more equitable basis.

We are thus tackling first the two immediate difficulties. At the same time that we are dealing with the present situation, however, we ought to look ahead over a period of years. One of the main disadvantages that Southern farming has faced is that it has been on a year-to-year basis instead of on a long-time program. We need always to look out for what is directly ahead of us, but we want also to adopt a program of safe, sound, permanent agriculture that will fit the various difficulties that arise. When we adopt a program for the coming year we want to make sure that it is one which will not have to be discarded as soon as the emergency disappears. To this end the resources of the Department of Agriculture will be used to the fullest extent in co-operating with the agricultural colleges, with farm organizations, and with all other agencies in the South.

The primary essential is to get production of cotton down to the needs of the world. In ten important Southern States the acreage of cotton increased from 30,600,000 in 1909 to 33,000,000 in 1919, and 46,000,000 for the present crop year. In the same 17 years the land planted to corn decreased from 30,000,000 to 24,500,000 acres. The small grain crop acreage went down from 14,400,000 acres to 12,800,000 acres.

Swine and dairy cattle likewise diminished in these States. The number of swine was 14,800,000 in 1920. It was 8,9000,000, or only about two-thirds as many, in 1925.

Obviously, there has been a steady drift to the greater production of cotton, and this has been at the sacrifice of diversified crops.

The South needs a permanent program of safe farming. Such a program is not a difficult one. Here are some elements in it:

1. Grow all the feed necessary for the live stock on the farm and ample food to feed the family. Have dependable grain crops. Have a summer and a winter garden. Keep enough cows, hogs and poultry to supply the home needs and to furnish some products for sale.

2. Keep up the fertility of the soil. Cow peas, vetch and soy beans should be grown for plowing under. Rye should be planted in the corn and cotton field to prevent winter washing and leaching.

These practices will take care of the land left available through the reduced cotton acreage. As to cotton itself, the need is fewer acres of cotton but more cotton to the acre. High-yielding quality cotton should be planted and cared for well. Many farmers to-day are producing two and three times the average yield of cotton by following approved methods of production and using varieties of high quality. This indicates the possibilities.

We can make Southern farming safe and profitable by such a program of sound production, coupled with adequate marketing practices. The two necessarily go together.

Final Payment on Alberta and Manitoba Wheat Pools.

From the Montreal "Gazette" we take the following Winnipeg advices, Oct. 14:

A total of $8,850,000, representing a final payment of five cents per bushel on the 1925-26 crop, will be paid to farmers in the Alberta, Saskatchewan, and Manitoba wheat pools, it was announced to-night, following sessions of the central selling agency at the Winnipeg offices.

One dollar per bushel was the initial payment made for the 1925-26 crop year, and this was followed by an interim payment of 20c. per bushel and another interim payment of 20c., making, with the 5c. now given, a total payment of $1 45.

J. A. McPhail, President of the Central Selling Agency, issued the following statement to-night:

"The final wheat pool payment for the 1925-26 crop year is being made to-day from the three provincial offices. The average central selling price for the year on No. 1 northern wheat, basis Fort William, after carrying charges and administrative costs have been deducted, is $1 45 per bushel.

"A total of $8,850,000 is being returned from the central office for disposal by the three provincial pools.

"Provincial administrative expenses, elevator and commercial reserve deductions, &c., will have to be taken from the amount returned to each province before distribution is made to the grower."

The officers of the board were re-elected: Mr. McPhail, as President; H. W. Wood, Edmonton, as Vice-President, and E. B. Ramsay, Filmore, Sask., as Acting Secretary.

Daily Statement of New York Stock Exchange on Call Money Market.

The following are the daily statements issued this week by the New York Stock Exchange regarding the call money market:

CALL LOANS ON THE NEW YORK STOCK EXCHANGE

Oct. 25—Renewal, 4½%; high, 4½%; low, 4½%; last, 4½%. Moderate turnover. Money in plentiful supply at close.

Oct. 26—Renewal, 4½%; high, 4½%; low, 4½%; last, 4½%. Moderate turnover. Money in supply at close.

Oct. 27—Renewal, 4½%; high, 4½%; low, 4½%; last, 4½%. A plentiful supply of funds throughout the day and only a relatively light volume of business.

Oct. 28—Renewal, 4½%; high, 4½%; low, 4½%; last, 4½%. Money steady all day at renewal rates and in supply at close.

Oct. 29—Renewal, 4½%; high, 4½%; low, 4½%; last, 4½%. An ample supply to take care of all demands at renewal rate, with funds unloaned at close. Turnover was relatively large.

Statements of previous weeks have appeared weekly in our issues since July 10; last week's statement will be found on page 2065 of our issue of a week ago.

New York Stock Exchange Suspends Edward E. MacCrone, Detroit, for One Year for Violating Regulations.

Edward E. MacCrone of the Detroit brokerage firm of E. E. MacCrone & Co. was suspended from membership in the New York Stock Exchange for one year on Thursday of this week, Oct. 28, for alleged violation of the institution's rules. Announcement of Mr. MacCrone's suspension was made by President E. H. H. Simmons from the rostrum of the Exchange as follows.

A charge and specification having been preferred under the fourth paragraph of Section 1, Article XX of the Constitution against Edward E. MacCrone, a member of the Exchange, said charge and specification were considered by the Governing Committee at a meeting held on Oct. 27 1926, said Edward E. MacCrone being present; and the Governing Committee having determined that said Edward E. MacCrone was guilty of said charge and specification, said Edward E. MacCrone was suspended for one year.

Article XX, Section 1, fourth paragraph of the Constitution is as follows:

"No employee shall be paid other than a fixed salary not varying with the business unless the prior written approval therefor shall have been given by the Committee on Quotations and Commissions."

The charge, of which Mr. MacCrone was found guilty, alleged in substance that the firm of E. E. MacCrone & Co., with the knowledge and acquiescence of Edward E. MacCrone, paid to two of its employees, who managed the branch offices of the said firm located in the State of Michigan, one-half of the net profits of the business of said offices, in addition to their salaries, without having secured the prior written approval of the Committee on Quotations and Commissions.

This violation of the Constitution of the Stock Exchange in no way affects Mr. MacCrone's relations with the customers of his fism or with the public.

Mr. MacCrone was admitted to membership in the Exchange on Feb. 13 1919.

New York Curb Exchange Undertakes Investigation Into Transactions in Mexican Oil Shares.

The following is from the "Sun" of last night (Oct. 29):

The Curb Exchange to-day instituted an investigation of transactions in Mexico Oil, an issue which has advanced from 8 cents to 45 cents a share recently on an active turnover. The investigation, it was reported this afternoon, is not with a view to preventing a "corner" which, so far as known, does not exist, but to determine whether or not practices against the rules of the exchange, such as "wash sales," have been going on.

The investigation began to-day with the dispatch of a letter to all members of the exchange asking them for a transcript of transactions in the stock made by them or the firm they represent in the period Oct. 2 1926 to date. The letter, which is signed by E. R. Tappen, First Assistant Secretary, requests that the information be given immediately.

In some quarters it was believed that the influence of members of the New York Stock Exchnage was being exerted to obtain the information requested. Mexico Oil has been listed on the Curb for a long period, and has been a frequent and sensational performer among the so-called "penny stocks."

Secretary Mellon's Statement Relative to Plea for Removal of Restrictions on European Trade—Defense of United States Tariff Policy.

That the "plea for the removal of restrictions upon European trade," made public in London on Oct. 19, is directed to European and not American conditions is the view expressed by Secretary of the Treasury Mellon in a statement which he issued on Oct. 24 relative to the manifesto. The text of the manifesto, signed by bankers here and abroad, was given in these columns last week, page 2057. Secretary Mellon's intention to give out a statement bearing on it was made known in the same issue (page 2056). The Administration's stand in support of the tariff policy of the United States is upheld by Secretary Mellon, who says:

A cut in the tariff would materially reduce rather than increase our purchases abroad; it would not enable foreign countries to sell more in the American markets, but would prevent them from selling as much; it would not help certain foreign nations to recover from the losses occasioned by the war, but would retard such recovery.

In undertaking to show the effect of a change in the tariff rates of this country Secretary Mellon cited the case of the Aluminum Company of America, saying in part:

If the present tariff on aluminum is maintained developments for the expansion of domestic business will be made in the United States. If the tariff is removed these developments will occur in foreign countries and part of the American market be supplied from abroad. The effect of removing the tariff on aluminum would not in the least be to hurt the Aluminum Company, but to deprive the United States of the benefit of enlarged manufactory here. Less capital will be invested here and less labor employed.

Secretary Mellon says, "what the plea of the bankers seeks to accomplish in its final analysis is not a change in the world, but to bring about in Europe a condition similar to that in the United States. It is not criticism of us but emulation." He also observes that:

The situation in Europe since the war is different from the situation in America. The two would only become comparable if we should consider each of the forty-eight States a separate nation, each having its own tariff, its own railroads, its own currency, and its own language. Under such conditions the industrial power of the United States must and would end.

The following is Secretary Mellon's statement in full:

There has recently appeared in the press of the world a "plea for the removal of restrictions upon European trade," signed by many bankers of the European countries and some of the bankers of this country, stating that tariff barriers, special licenses and prohibitions imposed in Europe since the war interfere with international trade and prevent it flowing in natural channels and should be removed. The fact which gave rise to this situation is the break-up of the old political units and the rearrangement of the Continent along ethnical and not commercial lines.

For example, the Austro-Hungarian Empire was a commercial, manufacturing and agricultural whole. To-day Austria, with its plants, banking

facilities and railroads, is cut off from both its markets and its sources of raw material. We have a brain without a body.

It is just as if we should make New York City with the southern portion of New York State and the States of Connecticut and Rhode Island a separate country. The city would be too large for the territory which it could reach and the rest of the United States would be deprived of that intensive manufacturing and financial centre.

The situation in Europe since the war is different from the situation in America. The two would only become comparable if we should consider each of the forty-eight States a separate nation, each having its own tariff, its own railroads, its own currency and its own language. Under such conditions the industrial power of the United States must and would end.

Plea Seeks Change in European Conditions.

What the plea of the bankers seeks to accomplish in its final analysis is not a change in the world but to bring about in Europe a condition similar to that in the United States. It is not criticism of us, but emulation.

Nevertheless, our public thought and some of our press argued that because artificial barriers hinder readjustment in Europe, we must change our tariff policy; but one cannot take a policy which is essential to the relief of Europe under conditions arising out of the war and say that this policy is proper for the United States, unless it can be established that conditions are the same. Conditions are not the same.

Conditions Different in United States.

The purpose of the policy in Europe is to provide a territory large enough to contain raw materials, manufactures and a market so that industry may function where coal and iron and laborers are convenient and food may be produced where conditions for its production are favorable. No such limitation exists in the United States. We do not have to put a steel plant in Kansas or grow wheat around Gary, Indiana. We have one transportation system; we speak one language and we have one kind of money among 120 million people in an area the size of most of Europe outside of Russia.

But there is a still greater distinction between Europe and the United States. It is true there are different nationalities and different languages on the Continent, but generally speaking, the standard of living among the principal nations abroad is about on the same level, just as the standard of living of the people of the United States is about the same, whether residents of Texas, or Minnesota, Massachusetts or California. But the standard of living of Europeans is quite different from the standard of living of the United States. Unless we are willing to bring our standard in America down to the level of that of Europe, we cannot consider a change in our tariff, however desirable such a change may seem to Europe.

Our tariff policy has been mainly responsible for the development of manufacturing in America. Our tariff policy has brought to labor the highest real wages in history. The development of manufacturing has been accompanied by improved methods and quantity production, and we have been able to make and distribute at a relatively low price, considering the high cost of labor. In many lines we more than meet foreign competition with its low labor costs. In turn, high wages have created a great consuming population, which has been the principal factor in our reaching quantity production and thus low costs. A study of the industries in this country shows a very small margin of profit per unit and large profits in the aggregate possible only through large turnover. These reasons, I think, account for the present exceedingly prosperous condition generally of our country.

Again, as I have said, the statement appears to be directed to European and not American conditions. Still, the appearance of the statement has been the occasion for an attack on American policies upon the assumption that our tariff is harmful to the restoration of world prosperity. I should like, therefore, to state my views on American tariff policy.

Present Tariff Law.

When the present tariff measure was in process of enactment, it was freely predicted that its passage would seriously restrict foreign trade, particularly import trade. Some extremists contended that the proposed rates were prohibitive and would result in a virtual embargo on commerce. The tariff law has now been in operation for four years and its influence on commerce is no longer a guess.

With disregard of the facts, statements are still being made that foreign countries at the present time are unable to sell in the American market. This is not a fact. During the fiscal year which ended June 30 1926 merchandise with a total value of nearly 4½ billion dollars was imported into the United States. With due consideration to unit values, this represents a larger volume of imports by a very considerable margin than had ever been brought to the United States in any preceding twelvemonth period.

The trend of trade during the past few years convincingly confirms the contention that the volume of imports is controlled by the purchasing power of the nation rather than the rate of import duties assessed. An unparalleled combination of high wages and industrial activity has raised the purchasing power of the people of the United States to new high levels, which has brought about increased consumption of commodities of practically every description. A study of the consumption of the more common commodities in the United States, in comparison with the total world production, shows what America means to the rest of the world.

High Purchasing Power of United States.

During the calendar year 1925 the world production of coal amounted to 1,500,000,000 tons. The United States consumption of coal amounted to 566,000,000 tons. In other words, with slightly over 6% of the world's population, the United States has consumed 37% of the total world's coal production. In pig iron the percentage of world production consumed in the United States was 48, in copper 46, in rubber 75, in coffee 51, in petroleum 75, in tin 52, in raw silk 77 and in nitrate 48. British India exported during the fiscal year ending March 31 1925, 42,000,000 pounds of shellac. Of this total, 21,000,000 pounds entered the United States. Shellac is an almost exclusive product of British India, and 50% of the total exports found their way to the United States.

That the 6 or 7% of the world's population who live in continental United States should supply a market for such large proportions of the world's total production of principal commodities is a consideration of greatest importance to the world's commerce, industry and the employment of labor. No economic survey of world conditions can reach correct conclusions unless this major factor—the high purchasing power of the United States—is taken into account and its effect intelligently understood.

Whether the economic policies of the United States, our industrial activity and prosperous conditions are of benefit to foreign countries can best be determined by analyzing the possible effect on other nations of a reduction of the per capita consumption of commodities in the United States to the world average. If, for example, the consumption of rubber in the United States should be reduced to the world average, it would mean that there would be no market for more than 50% of the world's present production. It would mean bankruptcy to certain dependencies whose livelihood is predicated almost exclusively on the rubber industry.

A reduction in the consumption of coffee in the United States to the world level would wipe out the market for some 40% the world now produces and would cause great financial losses to Brazil. A reduction in the consumption of sugar in the United States to the world level would bring financial ruin to Cuba, and likewise a reduction in the consumption of wool would adversely affect Australia. As the United States' consumption is 77% of the world's production of raw silk, a reduction in the consumption of raw silk to the world's per capita average would destroy the market for 70% of the silk produced.

A reduction in the consumption of nitrate in the United States would injure Chile, and a reduction in the United States in the use of shellac would cause financial reverses in British India. American money going to Japan for the purchase of silk, to Brazil for the purchase of coffee, to Cuba for the purchase of sugar, to Chile for the purchase of nitrate and to British India for the purchase of shellac enables these countries to increase their purchases from European countries, as well as the United States.

An individual out of employment generally speaking, is without purchasing power and is a detriment, rather than an asset, to his community. Likewise, a nation out of employment is a detriment to the rest of the world. Conversely, a man well employed reflects prosperity and is a benefit to his community; and a nation well employed reflects prosperity on other countries. Preeminently the United States is prosperous and by furnishing a market for such amazing proportions of what the world produces is reflecting prosperity on other nations. A fair survey of facts cannot lead to a conclusion other than that the economic policies of the United States, and their resulting industrial activity and prosperity, have played a leading role in aiding the world to recover from losses and damage wrought by the war.

Comparison of 1913 Tariff Law With That Now in Effect.

The tariff law of Oct. 3 1913, materially reducing import duties, did not become effective as to all its schedules until Jan. 1 1914, and early in August the outbreak of the World War caused a disruption of commerce. Therefore, the act of 1913, uninterrupted by war conditions, was in operation for a period of but seven months. A comparison of imports during the seven months ending July 31 1914, with the seven months ending July 31 1926, is as fair a comparison as can be made of the effect of the two laws. While imports in general have materially increased during the lapse of twelve years, the kinds of imports, rather than the quantities, are of most interest in a study of foreign trade.

In 1914 there was much unemployment, and, compared with this year, the purchasing power of the nation was materially reduced. The value of imports of crude materials for use in manufacturing during the seven-month period in 1914 was less than $400,000,000, while during the corresponding months of this year the value of this group of imports was $1,120,000,000. In 1914, this group was 34% of the total, and although the total imports have more than doubled, this year the imports of this group constitute 42% of the total importations.

The use of large quantities of crude materials is the necessary result of industrial activity and indicates healthy industrial conditions. In 1914, partly manufactured articles for further use in manufacturing amounted in value to $180,000,000, or 15% of the total, while this year this group of imports were valued at $480,813,000, or 18% of the total. This increase was an incidental also to increased industrial activity. Manufactured foodstuffs in 1914 made up 14% of the total imports, while this year the percentage is 9; and of other finished manufactures the percentage in 1914 was 22, and 18 this year. Finished manufactures, generally speaking, are competitive products, and the relatively large imports of 1914 without question served to aggravate the unemployment situation then existing.

In the light of experience the contention cannot be sustained that reduced duties on competitive products would increase the aggregate quantities of all things consumed in the United States. On the other hand, the evidence is most convincing that the converse would obtain. Assuming that temporarily the importation of competitive products would increase with reduced duties and that the consumption of such commodities in this country would not increase, but would decline, it would mean but one thing and that is that American labor would be deprived of making these commodities of the extent of the increase in the imports plus the decrease in consumption. The decrease in consumption and the increase in imports would all be at the expense of American industry—it would be at the expense of the purchasing power of this nation and eventually would reduce this country's purchases of foreign products, whether competitive or non-competitive, dutiable or free.

Under the present law, generally speaking, competitive articles are dutiable and non-competitive articles free of duty. While imports are steadily increasing, the increases are in the duty-free or non-competitive products. For instance, dutiable imports in 1926 were about one and one half billion, about the same as in 1924, but free imports increased in the three years from two billion to nearly three billion dollars.

Under our present American policy, foreign countries are able to sell the United States increasing quantities of the class of things the United States does not produce. As a whole, these increased imports are of a kind that supply the needs of this nation's industries and not the kind that injure such industries by displacing what they produce.

No doubt to those who have been misled into the belief that at present foreign countries cannot sell to the United States, the statement that during the fiscal year 1926 no less than 65.2% of the total imports were free of duty is a distinct surprise and the fact that in 1926 imports free of duty exceeded the total of imports both dutiable and free of the year 1914 by more than 60% is a revelation.

Effect of Reduced Tariff Rates.

It is apparent that reduced tariff rates would materially change the kind of imports and the percentages of the various great groups to the totals, but it is anything but apparent that the totals would be increased, and there is much to indicate that the totals would decline. It is a fallacy to assume that reduced import duties will enable this country to increase its purchases abroad, for the measuring stick is the nation's purchasing power and not the amount of duty assessed. With business activity and high wages the United States will continue to be of great economic benefit to other nations; but any economic policy that will occasion unemployment in the United States and reduce its purchasing power will diminish this country's consumption of commodities and cause large surpluses of the world's principal products and result in serious financial losses to them.

A cut in the tariff would materially reduce rather than increase our purchases abroad; it would not enable foreign countries to sell more in the American markets, but would prevent them from selling as much; it would not help certain foreign nations to recover from the losses occasioned by the war, but would retard such recovery.

Bearing of Tariff on American Labor.

Consider again what our tariff policy has meant to American labor. I know personally of one manufacturing company which has plants in France, in Brazil and in the United States. The wages paid labor to-day at these three plants reduced to American currency are as follows: Unskilled labor gets in France 7½ cents an hour; in Brazil, 12½ cents; in this country, 40 cents. Skilled labor, 10½, 21 and 65 cents, respectively. In other words, a laborer in this industry gets six times more per hour in America than he

does in France for the same kind of work. Can it be to the interest of the United States that equality be established by the removal of the protection of the tariff?

Aluminum Company of America.

As an example I might cite the case of the Aluminum Co. of America. The raw product of aluminum is bauxite, deposits of which occur in the United States, in British Guiana, and in many other countries of the world. The principle cost of the manufacture of aluminum is electric power and labor. The cheapest power in the world is hydro-electric; the cheapest labor is foreign. The Aluminum Co. has many power properties in the United States, but others in foreign countries, and the largest power of all is now being developed in Canada. From its plants in the United States the American market is supplied; from its plants abroad the foreign market is supplied. If the present tariff on aluminum is maintained, developments for the expansion of domestic business will be made in the United States. If the tariff be removed, those developments will occur in foreign countries, and part of the American market be supplied from abroad. The effect of removing the tariff on aluminum would not in the least be to hurt the Aluminum Co., but to deprive the United States of the benefit of enlarged manufactory here. Less capital will be invested here and less labor employed.

The same condition holds true of a great many other large manufacturing industries in the United States. If the tariff is taken off, a larger share of manufacturing will be done abroad, where the costs are less.

The United States is the largest customer in the world to-day. If we were not prosperous and able to buy, Europe also would suffer. It is inconceivable to me that American labor will ever consent to the abolition of protection, which would bring the American standard of living down to the level of that in Europe; or that the American farmer could survive if the enormous consuming power of the people in this country was curtailed and his market at home destroyed.

United States Supreme Court Upholds Right of President to Remove Executive Officers Without Senate's Consent.

A decision in which it is held that the President has the power to remove, without the authority of the Senate, executive officers appointed by the President, by and with the consent of the Senate, was handed down by the United States Supreme Court on Oct. 25. The decision was delivered by Chief Justice Taft,—6 of the Justices upholding the power of the President and 3 dissenting from the majority view. The dissenting opinions were those of Justices Holmes, McReynolds and Brandeis. The Court held that the President has full discretion in removing such officers, with the exception of a few judges, notwithstanding any restrictions that the Congress might impose.

Regarding the conclusions of the Court the Associated Press dispatches from Washington on Oct. 25, said:

The decision set at rest a controversy between the legislative and executive branches of the Government as old as the Constitution itself. From the first Congress up to the present these two departments of Government have been at odds as to power of removal of appointive office holders.

The question, frequently an issue for heated political debate, reached the court in an appeal by Frank S. Myers, appointed by President Wilson to the postmastership at Portland, Ore., in July 1917, and subsequently removed by him in Feb. 1920. His successor was not nominated and confirmed until four years later, when the period for which he had been appointed had expired.

Mr. Myers challenged his removal as illegal because of the Act of Congress of July 12 1876, which provided that postmasters of the first three classes "shall be appointed and may be removed by the President by and with the advice and consent of the Senate."

He contended he was entitled to pay for the full four years because President Wilson had not obtained the consent of the Senate for his removal.

The Court of Claims dismissed the suit, holding that it was not brought in time, and Myers appealed to the higher tribunal. Here it was argued, once and then ordered reargued again, and because of its importance, Senator Pepper, of Pennsylvania, a former President of the American Bar Association, was appointed to represent Congress in the case.

The opinion to-day was delivered by Chief Justice Taft, with Justices Holmes, McReynolds and Brandeis each presenting separate dissenting opinions, all agreeing in the words of Justice McReynolds, that the position taken by the court was revolutionary.

Under the opinion the President is recognized as having power, which cannot be restricted by Congress, to remove any Federal official commissioned by him or a precedessor, with the exception of a few judges.

The court held that, broadly, the power was placed in the President's hands to enable him to carry out the Constitutional injunction to see that the laws are well and faithfully executed, as it had been contended by those who opposed Congressional control over removals, that unless such power were given the President might be paralyzed in the efficiency and proper administration of executive duties.

In reviewing the reasons for this power, it was said, that otherwise the President might find many of those upon whom he must rely for loyal support out of harmony with his policies, and openly showing allegiance to adverse influences in Congress.

While it is expected that the White House will study the decision carefully and perhaps consult with the Department of Justice about its interpretation, there is no indication of any cases being in sight where the President would desire to use this power of reproval.

The findings of the majority are of extraordinary length, 24,000 words, it is stated, the dissenting opinion of Justice McReynolds constituting 20,000 additional words. From the "United States Daily" we take from the majority decision the following extracts:

Judgment Was Adverse in Court of Claims.

The Court of Claims gave judgment against Myers and this is an appeal from that judgment. The court held that he had lost his right of action because of his delay in suing, citing Arant vs. Lane, 249 U. S. 367; Nicohola vs. United States, 257 U. S. 71; and Norris vs. United States, 257 U. S. 77. These cases show that when a United States officer is dismissed, whether in disregard of the law or from mistake as to the facts of his case, he must promptly take effective action to assert his rights. But we do not find that Myers failed in this regard. He was constant in his efforts at reinstatement. A hearing before the Senate Committee could not be had till the notice of his removal was sent to the Senate or his successor nominated. From the time of his removal until the end of his term, there were three sessions of the Senate without such notice or nomination. He put off bringing his suit until the expiration of the Sixty-sixth Congress, March 4 1921. After that, and three months before his term expired, he filed his petition. Under these circumstances we think his suit was not too late. Indeed, the Solicitor-General, while not formally confessing error in this respect, conceded at the bar that no laches had been shown.

By the 6th section of the Act of Congress of July 12 1876, 19 Stat. 80, 81, c. 179, under which Myers was appointed with the advice and consent of the Senate as a first-class postmaster, it is provided that—

"Postmasters of the first, second and third classes shall be appointed and may be removed by the President by and with the advice and consent of the Senate and shall hold their officers for four years unless sooner removed or suspended according to law."

Consent to Removal Not Given by Senate.

The Senate did not consent to the President's removal of Myers during his term. If this statute in its requirement that his term should be four years unless sooner removed by the President by and with the consent of the Senate is valid, the appellant, Myers', administratrix, is entitled to recover his unpaid salary for his full term and the judgment of the Court of Claims must be reversed. The Government maintains that the requirement is invalid, for the reason that under Article II of the Constitution the President's power of removal of executive officers appointed by him with the advice and consent of the Senate is full and complete without consent of the Senate. If this view is sound, the removal of Myers by the President without the Senate's counsent was legal and the judgment of the Court of Claims against the appellant was correct (and must be affirmed, though for a different reason from that given by that court. We are, therefore, confronted by the Constitutional question and can not avoid it. . . .

A veto by the Senate—a part of the legislative branch of the Government—upon removals is a much greater limitation upon the executive branch and a much more serious blending of the legislative with the executive than a rejection of a proposed appointment. It is not to be implied. The rejection of a nominee of the President for a particular office does not greatly embarrass him in the conscientious discharge of his high duties in the selection of those who are to aid him, because the President usually has an ample field from which to select for offices, according to his preference, competent and capable men. The Senate has full power to reject newly proposed appointees whenever the President shall remove the incumbents. Such a check enables the Senate to prevent the filling of offices with bad or incompetent men or with those against whom there is tenable objection.

The power to prevent the removal of an officer who has served under the President is different from the authority to consent to or reject his appointment. When a nomination is made, it may be presumed that the Senate is, or may become, as well advised as to the fitness of the nominee as the President, but in the nature of things the defects in ability or intelligcece or loyalty in the administration of the laws of one who has served as an officer under the President, are facts as to which the President, or his trusted subordinates, must be better informed than the Senate, and the power to remove him may, therefore, be regarded as confined for very sound and practical reasons, to the Governmental authority which has administrative control. The power of removal is incident to the power of appointment, not to the power of advising and consenting to appointment, and when the grant of the executive power is enforced by the express mandate to take care that the laws be faithfully executed, it emphasizes the necessity for including within the executive power as conferred the exclusive power of removal.

Restriction Held to Apply Only to Power to Appoint.

Oliver Ellsworth was a member of the Senate of the First Congress, and was active in securing the imposition of the Senate restriction upon appointments by the President. He was the author of the Judiciary Act in that Congress, and subsequently Chief Justice of the United States. His views as to the meaning of this article of the Constitution, upon the point as to whether the advice of the Senate was necessary to removal, like that of Madison, formed and expressed almost in the very atmosphere of the convention, was entitled to great weight. What he said in the discussion in the Senate was reported by Senator William Patterson, 2 Bancroft, History of the Constitution of the United States, 192, as follows:

"The three distinct powers, legislative, judicial and executive should be placed in different hands. He shall take care that the laws be faithfully executed' are sweeping words. The officers should be attentive to the President to whom the Senate is not a council. To turn a man out of office is an exercise neither of legislative nor of judicial power; it is like a tree growing upon land that has been granted. The advice of the Senate does not make the appointment. The President appoints. There are certain restrictions in certain cases, but the restriction is as to the appointment and not as to the removal."

The Constitutional construction that excludes Congress from legislative power to provide for the removal of superior officers finds support in the second section of Article II. By it the appiontment of all officers, whether superior or inferior, by the President is declared to be subject to the advice and consent of the Senate. In the absence of any specific provision to the contrary, the power of appointment to executive office carries with it, as a necessary incident, the power of removal. Whether the Senate must concur in the removal is aside from the point we are now considering. That point is that by the specific constitutional provision for appointment of executive officers with it necessary incident of removal, the power of appointment and removal is clearly provided for by the Constitution, and the legislative power of Congress in respect to both is excluded save by the specific exception as to inferior offices in the clause that follows. This is "but the Congress may by law vest the appointment of such inferior officers, as they think proper, in the President alone, in the courts of law, or in the heads of departments." These words, it has been held by this Court, give to Congress the power to limit and regulate removal of such inferior officers by heads of departments when it exercises its Constitutional power to lodge the power of appointment with them. United States vs. Perkins, 116 U. S. 483, 485. Here, then, is an express provision introduced in words of exception for the exercise of Congress of legislative power in the matter of appointments and removals in the case of inferior executive officers. The phase "But Congress may by law vest" is equivalent to "excepting that Congress may by law vest." By the plainest implication it excludes Congressional dealing with appointments or removals of executive officers not falling within the exception and leaves unaffected the executive power of the President to appoint and remove them.

A reference of the whole power of removal to general legislation by Congress is quite out of keeping with the plan of government devised by the framers of the Constitution. It could never have been intended to leave to Congress unlimited discretion to vary fundamentally the operation of the great independent executive branch of government and thus most seriously to weaken it. It would be a delegation by the Convention to Congress of the function of defining the primary boundaries of another of the three great divisions of government. The inclusion of removals of executive

officers in the executive power vested in the President by Article II, according to its usual definition, and the implication of his power of removal of such officers from the provision of Section 2 expressly recognizing in him the power of their appointment, are a much more natural and appropriate source of the removing power.

It is reasonable to suppose also that had it been intended to give to Congress power to regulate or control removals in the manner suggested, it would have been included among the specifically enumerated legislative powers in Article I, or in the specified limitations on the executive power in Article II. The difference between the grant of legislative power under Article I to Congress which is limited to powers therein enumerated, and the more general grant of the executive power to the President under Article II is significant. The fact that the executive power is given in general terms strengthened by specific terms where emphasis is appropriate, and limited by direct expressions where limitation is needed, and that no express limit is placed no the power of removal by the executive, is a convincing indication that none was intended.

It is argued that the denial of the legislative power to regulate removals in some way involves the denial of power to prescribe qualifications for office, or reasonable classification for promotion, and yet that has been often exercised. We see no conflict between the latter power and that of appointment and removal, provided, of course, that the qualifications do not so limit selection and so trench upon executive choice as to be in effect legislative designation. . . .

The possible extent of the field of the President's political executive power may be judged by the fact that the quasi-civil governments of Cuba, Porto Rico and the Philippines in the silence of Congress had to be carried on for several years solely under his direction as commander-in-chief.

In all such cases, the discretion to be exercised is that of the President in determining the national public interest and in directing the action to be taken by his executive subordinates to protect it. In this field his cabinet officers must do his will. He must place in each member of his official family, and his chief executive subordinate, implicit faith. The moment that he loses confidence in the intelligence, ability, judgment or loyalty of any one of them, he must have the power to remove him without delay. To require him to file charges and submit them to the consideration of the Senate might make impossible that unity and co-ordination in executive administration essential to effective action.

The duties of the heads of departments and bureaus in which the discretion of the President is exercised and which we have described are the most important in the whole field of executive action of the Government. There is nothing in the Constitution which permits a distinction between the removal of the head of a department or a bureau, when he discharges a a political duty of the President or exercises his discretion, and the removal of executive officers engaged in the discharge of their other normal duties. The imperative reasons requiring an unrestricted power to remove the most important of his subordinates in their most important duties must, therefore, control the interpretation of the Constitution as to all appointed by him.

Public Officials Subject to Administrative Control.

But this is not to say that there are not strong reasons why the President should have a like power to remove his appointees charged with other duties than those above described. The ordinary duties of officers prescribed by statute come under the general administrative control of the President by virtue of the general grant to him of the executive power, and he may properly supervise and guide their construction of the statutes under which they act in order to secure that unitary and uniform execution of the laws which Article II of the Constitution evidently contemplated in vesting general executive power in the President alone. Laws are often passed with specific provision for the adoption of regulations by a department or bureau head to make the law workable and effective. The ability and judgment manifested by the official thus empowered, as well as his energy and stimulation of his subordinates, are subjects which the President must consider and supervise in his administrative control. Finding such officers to be negligent and inefficient, the President should have the power to remove them. Of course there may be duties so peculiarly and specifically committed to the discretion of a particular officer as to raise a question whether the President may overrule or revise the officer's interpretation of his statutory duty in a particular instance. Then there may be duties of a quasi-judicial character imposed on executive officers and members of executive tribunals whose decisions after hearing affect interests of individuals, the discharge of which the President can not in a particular case properly influence or control. But even in such a case he may consider the decision after its rendition as a reason for removing the officer, on the ground that the discretion regularly entrusted to that officer by statute has not been on the whole intelligently or wisely exercised. Otherwise he does not discharge his own constitutional duty of seeing that the laws be faithfully executed.

We have devoted much space to this discussion and decision of the question of the Presidential power of removal in the First Congress, not because a Congressional conclusion on a constitutional issue is conclusive, but first because of our agreement with the reasons upon which it was avowedly based, second because this was the decision of the First Congress on a question of primary importance in the organization of the Government made within two years after the Constitutional Convention and within a much shorter time after its ratification, and third because that Congress numbered among its leaders those who had been members of the Convention. It must necessarily constitute a precedent upon which many future laws supplying the machinery of the new Government would be based and would promptly evoke dissent and departure in future Congresses. It would come at once before the executive branch of the Government for compliance and might well be brought before the judicial branch for a test of its validity. As we shall see it was soon accepted as a final decision of the question by all branches of the Government.

It was of course to be expected that the decisions would be received by lawyers and jurists with something of the same division of opinion as that manifested in Congress, and doubts were often expressed as to its correctness. But the acquiescence which was promptly accorded it after a few years was universally recognized.

A typical case of such acquiescence was that of Alexander Hamilton. In the discussion in the House of Representatives in 1789, Mr. White and others cited the opinion of Mr. Hamilton in respect to the necessity for the consent of the Sentate to the removals by the President before they should be effective. (1 Annals, First Congress, 456.) It was expressed in No. 77 of the "Federalist" as follows:

Acceptance of Decision Succeeded Original Doubt.

"It has been mentioned as one of the advantages to be expected from the co-operation of the Senate in the business of appointments, that it would contribute to the stability of the Administration. The consent of that body would be necessary to displace as well as to appoint. A change of the Chief Magistrate, therefore, would not occasion so violent or so general a revolution in the officers of the Government as might be expected if he were the sole disposer of offices."

Hamilton changed his view of this matter during his incumbency as Secretary of the Treasury in Washington's Cabinet, as is shown by his view of Washington's first proclamation of neutrality in the war between France and Great Britain. That proclamation was at first criticized as an abuse of executive authority. It has now come to be regarded as one of the greatest and most valuable acts of the first President's Administration, and has been often followed by succeeding Presidents. Hamilton's argument was that the Constitution by vesting the executive power in the President gave him the right, as the organ of intercourse between the nation and foreign nations, to interpret national treaties and to declare neutrality. He deduced this from Article II of the Constitution on the executive power, and followed exactly the reasoning of Madison and his associates as to the executive power upon which the legislative decision of the first Congress as to Presidential removals depends, and he cites it as authority. He said:

"The second article of the Constitution of the United States, section first, establishes this general proposition, that 'the Executive Power shall be vested in a President of the United States of America.'

"The same article, in a succeeding section, proceeds to delineate particular cases of executive power. It declares, among other things, that the President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States, when called into the actual service of the United States; that he shall have power, by and with the advice and consent of the Senate, to make treaties; that it shall be his duty to receive ambassadors and other public ministers, and to take care that the laws be faithfully executed.

"It would not consist with the rules of sound construction, to consider this enumeration of particular authorities as derogating from the more comprehensive grant in the general clause, further than as it may be coupled with express restrictions or limitations; as in regard to the cooperation of the Senate in the appointment of officers and the making of treaties; which are plainly qualifications of the general executive powers of appointing officers and making of treaties. The difficulty of a complete enumeration of all the cases of executive authority, would naturally distate the use of general terms, and would render it improbable that a specification of certain particulars was designed as a substitute for those terms, when antecedently used. The different mode of expression employed in the Constitution, in regard to the two powers, the legislative and the executive, serves to confirm this inference. In the article which gives the legislative powers of the Government, the expressions are, 'All legislative powers herein granted shall be vested in a Congress of the United States.' In that which grants the executive power, the expressions are 'The executive power shall be vested in a President of the United States.'

"The enumeration ought therefore to be considered, as intended merely to specify the principal articles implied in the definition of executive power; leaving the rest to flow from the general grant of that power, interpreted in conformity with other parts of the Constitution, and with the principles of free government.

"The general doctrine of our constitution then is, that the executive power of the nation is vested in the President; subject only to the exceptions and qualifications, which are expressed in the instrument.

"Two of these have already been noticed; the participation of the Senate in the appointment of officers, and in the making of treaties. A third remains to be mentioned; the right of the legislature to 'declare war, and grant letters of marque and reprisal.'

"With these exceptions, the executive power of the United States is completely lodged in the President. This mode of construing the Constitution has indeed been recognized by Congress in formal acts upon full consideration and debate; of which the power of removal from office is an important instance. It will follow that if a proclamation of neutrality is merely an executive act, as it is believed, has been shown, the step which has been taken by the President is liable to no just exception on the score of authority." 7 J. C. Hamilton's Works of Hamilton, 80-81.

The words of a second great constitutional authority quoted as in conflict with the Congressional decision are those of Chief Justice Marshall. They were used by him in his opinion in Marbury vs. Madison, 1 Cranch, 137 (1803). The judgment in that case is one of the great landmarks in the history of the construction of the Constitution of the United States, and is of supreme authority first in respect to the power and duty of the Supreme Court and other courts to consider and pass upon the validity of acts of Congress enacted in violation of the limitations of the Constitution when properly brought before them in cases in which the rights of the litigating parties require such consideration and decision, and second in respect to the lack of power of Congerss to vest in the Supreme Court original jurisdiction to grant the remedy of mandamus in cases in which by the Constitution it is given only appellate jurisdiction. But it is not to be regarded as such authority in respect to the power of the President to remove officials appointed by the advice and consent of the Senate, for that question was not before the court.

The case was heard upon a rule served upon James Madison, Secretary of State, to show cause why a writ of mandamus should not issue directing the defendant, Madison, to deliver to William Marbury his commission as justice of the peace for the County of Washington in the District of Columbia. The rule was discharged by the Supreme Court for the reason that the court had no jurisdiction in such a case to issue a writ of mandamus. . . .

Joint Authority Conceded in Territorial Legislation.

Congress in a number of acts followed and enforced the legislative decision of 1789 for 74 years. In the Act of the First Congress, which adapted to the Constitution the ordinance of 1787 for the Government of the Northwest Territory, which had provided for the appointment and removal of executive territorial officers by the Congress under the Articles of Confederation, it was said "in all cases where the United States on Congress assembled, might, by the said ordinance revoke any commission or remove from any office, the President is hereby declared to have the same powers of revocation and removal." (1 Stat. 53, c. 8). This was approved 11 days after the act establishing the Department of Foreign Affairs and was evidently in form a declaration in accord with the legislative constitutional construction of the latter act. In the provision for the Treasury and War Departments, the same formula was used as occurred in the act creating the Department of Foreign Affairs, but it was omitted from other creative acts only because the decision was thought to be settled constitutional construction. In re Hennen, 13 Peters 230, 259.

Occasionally we find that Congress thought it wiser to make express what would have been understood. Thus in the Judiciary Act of 1789, formulated by a Senate committee, of which Oliver Ellsworth was chairman, which was presumably engaged in drafting the measure during the Congressional debate over removals, and which became the law a month later on Sept. 24, we find it provided in Section 27 (1 Stat. 87, c. 20), "that a marshal shall be appointed in and for each district for the term of four years, but shall be removable at pleasure, whose duty it shall be to attend the District and Circuit Courts." Section 35 of the same act provided for the appointment of an attorney for the United States to prosecute crimes and conduct civil actions on behalf of the United States but nothing was said as to his term of office or of his removal. The difference in the two cases was evidently to avoid any inference from the fixing of the term that a conflict with the legislative decision of 1789 was intended.

In the Act of May 15 1820, 3 Stat. 582, c. 102, Congress provided that thereafter all district attorneys, collectors of customs, naval officers and surveyors of the customs, navy agents, receivers of public moneys for land, registers of the land office, paymasters in the army, the apothecary general, the assistant apothecaries general, and the commissary general of purchases, to be appointed under the laws of the United States shall be appointed for the term of four years, but shall be removable from office at pleasure

It is argued that these express provisions for removal at pleasure indicate that without them, no such power would exist in the President. We can not accede to this view. Indeed the conclusion that they were adopted to show conformity to the legislative decision of 1789 is authoritatively settled by a specific decision of this court.

Express Authorization in Law Held Unnecessary.

In the Parsons case (167 U. S. 324), already referred to, the exact question which the court had to decide was whether under section 769 of the Revised Statutes, providing that district attorneys should be appointed for a term of four years and their commissions should expire at the expiration of four years from their respective dates, the appellant, having been removed by the President from his office as district attorney before the end of his term, could recover his salary for the remainder of the term. If the President had no power of removal, then he could recover. The court held that under that section the President did have the power of removal because of the derivation of the section from the Act of 1820, above quoted. In Section 769 the specific provision of the Act of 1820 that the officers should be removable from office at pleasure was omitted. This court held that the section should be construed as having been passed in the light of the acquiescence of Congress in the decision of 1789, and therefore included the power of removal by the President, even though the clause for removal was omitted. This reasoning was essential to the conclusion reached and makes the construction by this court of the Act of 1820 authoritative. . . .

It is said that for 40 years or more, postmasters were all by law appointed by the Postmaster General. This was because Congress under the excepting clause so provided. But thereafter Congress required certain classes of them to be, as they now are, appointed by the President with the consent of the Senate. This is an indication that Congress deemed appointment by the President with the consent of the Senate essential to the public welfare, and until it is willing to vest their appointment in the head of the Department, they will be subject to removal by the President alone and any legislation to the contrary must fall as in conflict with the Constitution.

Summing up then the facts as to acquiescence by all branches of the Government in the legislative decision of 1789 as to executive officers whether superior or inferior, we find that from 1789 until 1863, a period of 74 years, there was no act of Congress, no executive act, and no decision of this court at variance with the declaration of the First Congress, but there was, as we have seen, clear affirmative recognition of it by each branch of the Government.

Our conclusion on the merits sustained by the arguments before stated is that Article II grants to the President the executive power of the Government, i. e., the general administrative control of those executing the laws, including the power of appointment and removal of executive officers, a a conclusion confirmed by his obligation to take care that the laws be faithfully executed; that Article II excludes the exercise of legislative power by Congress to provide for appointments and removals except only as granted therein to Congress in the matter of inferior offices; that Congress is only given power to provide for appointments and removals of inferior officers after it has vested, and on condition that it does vest, their appointment in other authority than the President with the Senate's consent; that the provisions of the second Section of Article II, which blend action by the legislative branch, or by part of it, in the work of the executive are limitations to be strictly construed and not to be extended by implication; that the President's power of removal is further established as an incident to his specifically enumerated function of appointment by and with the advice of the Senate, but that such incident does not by implication extend to removals the Senate's power of checking appointments; and finally that to hold otherwise would make it impossible for the President in case of political or other difference with the Senate or Congress to take care that the laws be faithfully executed.

We come now to a period in the history of the Government when both Houses of Congress attempted to reverse this constitutional construction and to subject the power of removing executive officers appointed by the President and confirmed by the Senate to the control of the Senate, indeed finally to the assumed power in Congress to place the removal of such officers anywhere in the Government.

This reversal grew out of the serious political difference between the two Houses of Congress and President Johnson. There was a two-thirds majority of the Republican party in control of each House of Congress which resented what it feared would be Mr. Johnson's obstructive course in the enforcement of the reconstruction measures in respect to the States whose peoples had lately been at war against the National Government. This led the two Houses to enact legislation to curtail the then acknowledged powers of the President. It is true that during the latter part of Mr. Lincoln's term two important voluminous acts were passed, each containing a section which seemed inconsistent with the legislative decision of 1789 (Act of Feb. 25 1863, 12 Stat 665, c. 58, sec. 1, Act of March 3 1865, 13 Stat. 499, c. 79, sec. 12); but they were adopted without discussion of the inconsistency and were not tested by executive or judicial inquiry. The real challenge to the decision of 1789 was begun by the Act of July 13 1866, 14 Stat. 92, c. 176, forbidding dismissals of Army and Navy officers in time of peace without a sentence by court-martial, which this court in Blake vs. United States, 103 U. S. 227, at p. 235, attributed to the growing differences between President Johnson and Congress.

Another measure having the same origin and purpose was a rider on an Army Appropriation Act of March 2 1867, 14 Stat. 487, c. 170, Sec. 2, which fixed the headquarters of the General of the Army of the United States at Washington, directed that all orders relating to military operations by the President or Secretary of War should be issued through the General of the Army, who should not be removed, suspended, or relieved from command, or assigned to duty elsewhere, except at his own request, without the previous gpproval of the Senate; and that any ordersor instructions relating to military operations issued contrary to this should be void: and that any officer of the army who should issue, knowingly transmit, or obey any orders issued contrary to the provisions of this section, should be liable to imprisonment for years. By the Act of March 27 1868, 15 Stat. 44, C. 34, Sec. 2, the next Congress repealed a statutory provision as to appeals in habeas corpus cases, passage of which was avowed by Mr. Schenck, Chairman of the House Committee on Ways and Means, to be designed to prevent this court from passing on the validity of reconstruction legislation. (81 Congressional Globe-Pages 1881, 1883). Ex parte McArdle, 7 Wall. 506

Tenure of Office Act Was Passed Over Veto.

But the chief legislation in support of the reconstruction policy of Congress was the Tenure of Office Act of March 2 1867, 14 Stat. 430, C. 154, providing that all officers appointed by and with the consent of the Senate should hold their offices until their successors should have in like manner been appointed and qualified, that certain heads of departments, including the Secretary of War, should hold their offices during the term of the President by whom appointed and one month thereafter subject to removal by consent of the Senate. The Tenure of Office Act was vetoed, but it was passed over the veto. The House of Representatives preferred articles of impeachment against President Johnson for refusal to comply with, and for conspiracy to defeat, the legislation above referred to, but he was acquitted for lack of a two-thirds vote for conviction in the Senate. . . .

What, then, are the elements that enter into our decision of this case. We have first a construction of the Constitution made by a Congress which was to provide by legislation for the organization of the Government in accord with the Constitution which had just been then adopted, and in which there were, as representatives and senators, a considerable number of those who had been members of the Convention that framed the Constitution and presented it for ratification. It was the Congress that launched the Government. It was the Congress that rounded out the Constitution itself by the proposing of the first ten amendments which had in effect been promised to the people as a consideration for the ratification. It was the Congress in which Mr. Madison, one of the first in the framing of the Constitution, led also in the organization of the Government under it. It was a Congress whose Constitutional decisions have always been regarded as they should be regarded as of the greatest weight in the interpretation of that fundamental instrument. This construction was followed by the legislative department and the executive department continuously for seventy-three years, and this, although the matter in the heat of political differences between the Executive and the Senate in President Jackson's time, was the subject of bitter controversy, as we have seen. This court has repeatedly laid down the principle that a contemporaneous legislative exposition of the Constitution when the founders of our Government and framers of our Constitution were actively participating in public affairs acquiesced in for a long term of years, fixes the construction to be given its provisions. . . .

Tenure of Office Act Held to Have Been Invalid.

We are now asked to set aside this construction thus buttressed and adopt an adverse view, because the Congress of the United States did so during a heated political difference of opinion between the then President and the majority leaders of Congress over the reconstruction measures adopted as a means of restoring to their proper status the States which attempted to withdraw from the Union at the time of the Civil War. The extremes to which the majority in both Houses carried legislative measures in that matter are now recognized by all who clamly review the-history of that episode in our Government leading to articles of impeachment against President Johnson and his acquittal. Without animadverting on the character of the measures taken, we are certainly justified in saying that they should not be given the weight affecting proper constitutional construction to be accorded to that reached by the First Congress of the United States during a political call and acquesced in by the whole Government for three-quarters of a century, especially when the new construction contended for has never been acquiesced in by either the executive or the judicial departments. While this court has studiously avoided deciding the issue until it was presented in such a way that it could not be avoided, in the references it has made to the history of the question, and in the presumptions it has indulged in favor of a statutory construction not inconsistent with the legislative decision of 1789, it has indicated a trend of view that we should not and can not ignore. When on the merits we find our conclusion strongly favoring the view which prevailed in the First Congress, we have no hesitation in holding that conclusion to be correct; and it therefore follows that the Tenure of Office Act of 1867, in so far as it attempted to prevent the President from removing executive officers who had been appointed by him by and with the advice and consent of the Senate, was invalid and that subsequent legislation of the same effect was equally so.

For the reasons given, we must therefore hold that the provision of the law of 1876 by which the unrestricted power of removal of first-class postmasters is denied to the President is in violation of the Constitution and invalid. This leads to an affirmance of the judgment of the Court of Claims.

Before closing this opinion we wish to express the obligation of the Court to Mr. Pepper for his able brief and argument as a friend of the Court. Undertaken at our request, our obligation is none the less if we find ourselves obliged to take a view adverse to his. The strong presentation of arguments against the conclusion of the Court is of the utmost value in enabling the Court to satisfy itself that it has fully considered all that can be said.

Judgment affirmed.

Regarding the dissenting views we quote the following from the New York "Times:"

Justice McReynold's Views.

In his dissent, Associate Justice McReynolds saidi n part:

"May the President oust at will all Postmasters appointed with the Senate's consent for definite terms under an Act which inhibits removal without consent of that body. May he approve a statute which creates an inferior office and prescribes restrictions on removal, appoint an incumbent, and then remove without regard to the restrictions. Has he power to appoint to an inferior office for a definite term under an Act which prohibits removal except as therein specified, and then arbitrarily dismiss the incumbent and deprive him of the emoluments.

"I think there is no such power. Certainly it is not given by any plain words of the Constitution; and the argument advanced to establish it seems to be forced and unsubstantial.

"A certain repugnance must attend the suggestion that the President may ignore any provision of an Act of Congress under which he has proceeded. He should promote and not subvert orderly Government. The serious evils which followed the practice of dismissing civil officers as caprice or interest dictated, long permitted under Congressional enactments, are known to all. It brought the public service to a low estate and caused insistent demand for reform.

"The long struggle for Civil Service reform and the legislation designed to insure some security of ofifcial tenure ought not to be forgotten. Again and again Congress has enacted statutes prescribing restrictions on removals and by approving them many Presidents have affirmed its power therein.

"Nothing short of language clear beyond serious disputation should be held to clothe the President with authority wholly beyond Congressional control arbitvarily to dismiss every officer whom he appoints except a few judges. There are no such words in the Constitution, and the asserted inference conflicts with the heretofore accepted theory that this Government is one of carefully enumerated powers under an intelligble charter.

"Constitutional provisions should be interpreted with the expectation that Congress will discharge its duties no less faithfully than the Executive will attend to his.

Powers oft he Legislature

"The Legislature is charged with he duty of making laws for orderly administration obligatory upon all. It possesses supreme power over national affairs and may wreck as well as speed them It holds the purse, every branch of the Government functions under statutes which embody its will; but may impeach and expell all civil officers

"The duty is upon it 'to make all laws which shall be necessary and proper for carrying into execution' all powers of the Federal Government.

We have no such thing as three totally distinct and independent departments; the others must look to the Executive for direction and support. 'In republican government the executive authority necessarily predominates.' The 'Federalist,' XLVI, XVII.

"Perhaps the chief duty of the President is to carry into effect the will of Congress through such instrumentalities as it has chosen to provide. Arguments, therefore, upon the assumption that Congress may willfully impede executive action are not important. . . .

"For the United States it is asserted—except certain judges—the President may remove all officers, whether executive or judicial, appointed by him with the Senate's consent; and therein he cannot be limited or restricted by Congress.

"The argument runs thus—the Constitution gives the President all executive power of the national Government, except as this is checked or controlled by some other definite provision; power to remove is executive and unconfined; accordingly, the President may remove at will. Further, the President is required to take care that the laws be faithfully executed; he cannot do this unless he may remove at will all officers whom he appoints; therefore he has such authority.

"The argument assumes far too much. Generally, the actual ouster of an officer is executive action; but to prescribe the conditions under which this may be done is legislative. The act of hanging a criminal is executive; but to say when and where and how he shall be hanged is clearly legislative.

Protection of the Incumbent.'

"The Legislature may create post-offices and prescribe qualifications, duties, compensations and term. And it may protect the incumbent in the enjoyment of his term unless in some way restrained therefrom. The real question, therefore, comes to this—does any Constitutional provision definitely remit the otherwise plenary power of Congress over postmasters, when they are appointed by the President with consent of the Senate.

"The question is not the much mooted one whether the Senate is part of the appointing power under the Constitution, and therefore must participate in removals. Here the restriction is imposed by statute alone and thereby made a condition of the tenure. I suppose that beyond doubt Congress could authorize the Postmaster-General to appoint all postmasters and restrain him in respect of removals.

"Concerning the instance that power to remove is a necessary incident of the President's duty to enforce the laws it is enough now to say: the general duty to enforce all laws cannot justify infraction of some of them. Moreover, Congress, in the exercise of its unquestioned power, may deprive the President of the right either to appoint or to remove any inferior officer by vesting the authority to appoint in another.

"Yet in that event his duty touching enforcement of the laws would remain. He must utilize the force which Congress gives. He cannot, without permission, appoint the humblest clerk or expend a dollar of the public funds. . . .

Calls Ruling Revolutionary.

"Congress has long and vigorously asserted its right to restrict removals and there has been no common executive practice based upon a contrary view. The President has often removed, and it is admitted that he may remove, with either the express or implied assent of Congress, but the present theory is that he may override the declared will of that body.

"This goes far beyond any practice heretofore approved or followed; it conflicts with the history of the Constitution, with the ordinary rules of interpretation and with the construction approved by Congress since the beginning and emphatically sanctioned by this court. To adopt it would be revolutionary.

"In any rational search for answer to the questions arising upon this record, it is important not to forget that this is a Government of limited powers definitely enumerated and granted by a written Constitution.

"That the Constitution must be interpreted by attributing to its words the meaning which they bore at the time of its adoption and in view of commonly accepted canons of construction, its history, early and long-continued practices under it, and relevant opinions of this court.

"That the Constitution contains no words which specifically grant to the President power to remove duly appointed officers. And it is definitely settled that he cannot remove those whom he has not appointed—certainly they can be removed only as Congress may permit.

"That from its first session to the last one Congress has often asserted its right to restrict the President's power to remove inferior officers, although appointed by him with consent of the Senate.

"That many Presidents have approved statutes limiting the power of the Executive to remove, and that from the beginning such limitations have been respected in practice.

"That this court, as early as 1803, in an opinion never overruled and rendered in a case where it was necessary to decide the question, positively declared that the President had no power to remove at will an inferior officer appointed with consent of the Senate to serve for a definite term fixed by an act of Congress.

Decision on Judicial Power.

"That the proceedings in the Constitutional Convention of 1787, the political history of the times, contemporaneous opinion, common canons of construction, the action of Congress from the beginning and opinions of this court, all oppose the theory that by vesting 'the executive power' in the President the Constitution gave him an illimitable right to remove inferior officers.

"That this court has emphatically disapproved the same theory concerning 'the judicial power' vested in the courts by words substantially the same as those which vest 'the executive power' in the President.

"That to declare the President vested with indefinite and illimitable executive powers would extend the field of his possible action far beyond the limits observed by his predecessors and would enlarge the powers of Congress to a degree incapable of fair appraisement.

"Considering all these things it is impossible for me to accept the view that the President may dismiss, as caprice may suggest, any inferior officer whom he has appointed with consent of the Senate, notwithstanding a positive inhibition by Congress.

"In the last analysis, that view has no substantial support, unless it be the polemic opinions expressed by Mr. Madison (and eight others) during the debate of 1789, when he was discussing questions relating to a 'superior officer' to be appointed for an indefinite term.

"Notwithstanding his justly exalted reputation as one of the creators and early expounder of the Constitution, sentiments expressed under such circumstances ought not now to outweigh the conclusion which Congress affirmed by deliberate action while he was leader in the House and has consistently maintained down to the present year, the opinion of this court solemnly announced through the great Chief Justice more than a century ago, and the canons of construction approved over and over again.

Dissent by Justice Brandeis.

Associate Justice Brandeis began his dissent by quoting Mr. Justice Story to the effect that in regard to inferior officers "the remedy for any permanent abuse is still within the power of Congress by the simple expedient of requiring the consent of the Senate to removals in such cases."

Justice Brandeis pointed out that postmasters were inferior officers and that Congress might have vested their appointment in the head of the department.

"The sole question," he said, "is whether, in respect to inferior offices, Congress may impose upon the Senate both responsibilities, as it may deny to it participation in the exercise of either function."

He referred to the right of both appointment and removal.

"Continuously for the last 58 years," Justice Brandeis said, "laws comprehensive in character, enacted from time to time with the approval of the President, have made removal from the great majority of the inferior Presidential offices dependent upon the consent of the Senate. Throughout that period these laws have been continuously applied. We are requested to disregard the authority of Marbury vs. Madison and to overturn this long-established constitutional practice.'

Justice Brandeis disrupted the theory of the majority of the court, that the President's power of removal "is beyond control, limitation or regulation by Congress."

"Nor has any lower Federal court ever so decided," he declared.

He said the power to remove a subordinate executve officer "is not a power inherent in a Chief Executive."

"The President's power of removal from statutory civil inferior officers, like the power of appointment to them, comes immediately from Congress.

"It is true that the exercise of the power of removal is said to be an Executive act; and that when the Senate grants or withholds consent to a removal by the President it participates in an Executive act. But the Constitution has confessedly granted to Congress the legislative power to create offices and to prescribe the tenure thereof: and it has not in terms denied to Congress the power to control removals.

"To prescribe the tenure involves prescribing the conditions under which incumbency shall cease, for the possibility of removal is a condition or qualification of the tenure."

Justice Holme's Opinion.

In his dissenting opinion, which was brief, Associate Justice Homes said:

"The arguments drawn from the executive power of the President and from his duty to appoint officers of the United States (when Congress does not vest the power elsewhere) to take care that the laws be faithfully executed and to commission all officers of the United States seem to me a spider's web inadequate to control the dominant facts.

"Congress alone confers on the President the power to appoint and at any time may transfer the power to other hands. With such powers over its own creation I have no more trouble in believing that Congress has power to prescribe a term of life for it free from interference than I have in accepting the undoubted power of Congress to decree its end. I have equally little trouble in accepting its power to prolong the tenure of the incumbent until Congress or the Senate shall have assented to his removal."

Loss of Life in Cuban Hurricane Placed at 600—Appropriation of $7,500,000 by Mexican Congress Proposed.

The loss of life in the hurricane which swept through western Cuba on Oct. 20 is placed at 600, this being indicated in the following Associated Press account from Havana Oct. 25:

With the toll of Wednesday's hurricane in Western Cuba still placed at 600 dead and 9,000 injured, the inhabitants to-day continued their work of aiding the suffering and homeless and pushing the work of reconstruction and repair.

President Machado is preparing to call an extra session of Congress to vote $7,500,000 for relief and reconstruction. It is stated that materials for the reconstruction of 15,000 houses are needed.

Eight speculators were arrested in Havana yesterday and confined in the Cabanas fortress. The foreigners among them will be deported.

The authorities are bending all efforts toward prevention of an epidemic and the Sanitary Department has issued an order for compulsory inoculation against typhoid fever. Serum has been distributed to nearly all the towns and villages stricken by the hurricane.

An American relief committee was formed in Havana to-day by the American Ambassador, General Crowder, and $10,000 of the $75,000 fund received by the embassy has been utilized for needy Americans. Very few Americans in Havana, however, are in need of assistance.

Government officials declared to-day that the November elections would be held as previously arranged.

Under date of Oct. 21 advices (Associated Press) from Havana said 6,500 were homeless and added:

Ten or more towns and villages are said to have been completely destroyed. The damage is expected to reach nearly $100,000,000.

To give relief and shelter to those made homeless by the storm, the President of Cuba appointed a committee consisting of E. Hernandez Cartaya, Secretary of the Treasury, Dr. Claudio G. Mendoza, counsellor-at-law, and Narciso Gelats, banker, and made appeal for public subscriptions. Substantial contributions, it is said, have been made to the fund of this committee, but the task is beyond local resources and an appeal has come to the friends of Cuba in the United States to supplement its effort. Under the Chairmanship of Dwight W. Morrow, of J. P. Morgan & Co., a Cuban relief committee has accordingly been formed. Contributions may be sent direct to the Cuban Relief Committee in Havana, care of the Secretary of the Treasury, Treasury Building, or they will be forwarded without cost by Messrs. J. P. Morgan & Co., 23 Wall Street, the National City Bank, 55 Wall Street, and the Chase National Bank, 57 Broadway, New York.

It was reported on Oct. 24 that the American Red Cross in the relief extended by it in behalf of the hurricane sufferers had contributed a total of $100,000, in addition to which $10,000 was placed at the disposal of American Ambassador Crowder at Havana for relief of American sufferers.

Impartial Investigation of Public Utility Industry Advocated by Professor Ripley.

Asserting that for every virtue the public utility holding company has an attendant defect, kindred to the motive of self-interest, Professor William Z. Ripley, of Harvard University, in the November "Atlantic Monthly," under the caption "More Light!—And Power, Too," urges as "the surest source of disinterested illumination, a comprehensive examination into the whole subject of public utilities, preferably under the authority of the Federal Power Commission, or some other special board temporarily created for the purpose."

Pointing out the wisdom, at least at this juncture, of refraining from advocacy of any particular program, he urges, instead, that "the President recommend to Congress that provision be made for an exhaustive inquiry, to be so prosecuted as to command the confidence of the entire country." He places as the "downright need of the moment a searching inquiry by real experts, stripped of all political bias and affording a field day for all comers; an open contest in which the truth, regardless of self-interest, shall prevail." Contrasting public opinion of to-day with that of almost a generation ago, Professor Ripley cites the "Rock Island set-up of 1900, in the days before corporate jazz"—which imposed two holding companies upon the operating property and was regarded as "downright scandal"—with the present public utility holding structure, wherein six companies are pyramided, "and the practice is so common as to arouse no gossip whatsoever." This concentration of control he characterizes as a distinctively American development. Its responsibility, he says, cannot fairly be laid upon the doorstep of the industry itself but is an outcome of our Federal form of government. Because of the diversity of State laws, he finds utility managements compelled to resort to artificial arrangements; "albeit," he adds, "perhaps not without a modicum of quiet satisfaction that our conflicts of laws are so badly permissive of profitable indirection."

As to the involved corporate structure of the utility holding company, he says: "It all seems so witness and tortuous, this conflict of State legislation over taxes, no par stock and every other conceivable issue, and to it there is no end." He asserts that "we are irresistibly trending to one of two goals: either greater unanimity of State legislation or supercession of State incorporation for inter-State business by direct assumption of Federal authority."

He condemns both the holding company wherein the hierarchy is tied together by ownership of practically all shares of subsidiaries, and the one which controls not only the ownership of the operating concern, but in turn the control of the operating concern.

He is also critical of the domination through common stock control of banking houses which, he asserts, "may or may not have a sufficient actual investment to hold them to a steady course." "While," he says, "most of this banking service, it goes without saying, is above criticism, yet a sufficient number of lapses have already occurred to reveal the possibilities of wrongdoing."

He finds equally serious among public utilities the disposition of some holding companies to "adventure far afield in search of profit, even though it carry them well beyond the natural province of utility operations." In this regard, he cites the interest of a water works and electric company in several thousand acres of fruit lands, with another gas and electric company interested in oil lands. Of the latter he says: "Such a company is either a public utility, or it is not. If it is, it has no possible right to be engaging in one of the most speculative businesses (oil) in the United States."

He finds the annual reports of the "full-flowered, inter-State super-corporations" obscure, to a point which transcends "the maze at Hampton Court, Einstein's theory of relativity and current political platforms on prohibition."

Professor Ripley has considerable to say on public utility financing, with specific reference as to the relative values of bonds and preferred stocks. Pointing out that new capital issues of such companies in 1925 alone reached the stupendous total of $1,500,000,000, or over one-third of all corporate financing, he emphasizes that a substantial and ever-increasing part of this new capital is being drawn from "the little people," particularly by sale of customer securities. While customer ownership has its advantages and value, exemplified best perhaps in the case of American Telephone, he sees in it a potential menace, unless the movement were kept well in hand.

The following extracts are taken from the article:

With increasing intensity ,and particularly during the last two years, there has been a marked tendency toward the growth of great electric light and power systems all over the United States. The number of new small independent plants seems to be keeping pace with the growth of the country; but the overpowering impulse of efficiency and economy is putting an ever-increasing number of the important central power stations, first into closely co-ordinated tributary systems of their own, and secondly into widespread interconnection one with another. Plainly visible and also down out of sight, a boiling, seething corporate rearrangement is taking place. A quarter, in fact, of the aggregate capitalization of the electric light and power industry was affected one way or the other by this movement during 1925. One reorganization alone involved $200,000,000, three over $125,000,000, and 21 were in excess of $25,000,000 of capitalization. So far has the movement progressed at this writing that five of the largest holding companies control 43% of the national central station output. . . .

Utility managements are less to blame for this over-extended situation than are the people of the United States. Corporations are oftentimes compelled by the diversity of State laws to resort to these artificial arrangements—albeit perhaps not without a modicum of quiet satisfaction that our conflicts of laws are so baldly permissive of profitable indirection. Thus many States require that public utilities be conducted by domestic corporations; else they may be denied the enjoyment of such rights as that of eminent domain. Hence the domestic operating concern has to be controlled by a holding corporation chartered elsewhere, in order to couple up these local privileges with others which may alone be attainable by going abroad. . . .

Public utility finance under these merger transformations is going through a process of change little comprehended by the general public, to whom appeal must of course be made for the necessary funds attendant upon its growth. The new capital issues by such companies in 1925 alone reached the stupendous total of $1,500,000,000, upward of one-third of the total new corporate financing of the country. Of bonds alone, $892,000,000 at par were placed on the market during the twelve-month. It is peculiarly essential that these changes be clearly understood, because a substantial and ever-increasing part of this new capital is being drawn from the little people, particularly by the sale of customer securities. First one must keep in mind clearly the distinction between the financing of the basic or operating concerns and the issue of securities by the top holding companies. As for the former, the unusual preponderance of funded indebtedness is noteworthy. Among railroads such indebtedness, although it far exceeds that among industrial corporations, finds its equilibrium at about a fifty-fifty figure. For the public utilities the normal minimum of funded indebtedness is about 60% of the total capitalization, with the balance more or less evenly divided between preferred and common shares. The public regulatory commissions are in part responsible for this relatively high proportion of senior issues among the operating companies, assuming perhaps that essential industries, characterized by a fairly stable rate of return independent of cyclical fluctuations, can well support so heavy a burden of fixed charges.

The major reliance of the new holding corporations is upon the issuance of preferred shares; and it is particularly in reference to these, since they are most widely dispensed in connection with customer-ownership campaigns, that the true situation should be made clear. Such preferred shares ought properly to stand first in their rightful claim to whatever income from investments the holding corporations may be entitled to. If preceded by bonds of the holding company, they ought to be widely distributed only in cases of exceptional soundness of the subsidiary concerns. Such securities are in considerable measure the result of the discovery a dozen years ago of the device of customer-ownership of public utilities. These companies, eager to raise funds up to the full measure of the equity in their properties, have since been enabled to dispose of such shares, too often to represent the entire margin between feasible bond issues and the full value of the property. Such financing, through offerings of preferred shares to the general public in small allotments, is made directly, without the intermediation of banking houses. That has the advantage, of course, of eliminating commissions; but it is open to the marked disadvantage that the long-time experience and natural conservatism of the banking fraternity are denied to the consumer. Such preferred shares of holding companies are not comparable as to security with similar shares, either of operating companies or of railroads, for that matter. That, of course, is why they yield so much higher rates of return.

A particular menace lies in the appeal, often under guise of a plea for simplification of an involved corporate structure, for the little holder of bonds of a local operating enterprise to give them up in return for shares of the newly created finance corporation. This danger is contemplated in the preamble to a resolution of the Board of Governments of the Investment Bankers Association of America, May 14 1925, as follows: "It is obious that, from the standpoint of sound investment, it is inappropriate for many investors to exchange mortgage bonds of operating public utility properties for the preferred and other stocks of public utility holding companies." For obviously by such exchange the uninitiated investor may have shifted his position from that of a preferred to that of a junior claimant upon earnings. The record of preferred issues of operating companies is on the whole excellent. By and large however, non-cumulative preferred shares in any enterprise are not inaptly described by a leading lawyer as "waifs of the stock market." They fall between two stools—neither a partner sharing in the increment of future growth nor a true creditor with a prior lien upon earnings and assets. They are exposed to the danger of vanishing returns soon to be set forth in another connection, as well as to the possibility, unless duly safeguarded, of the intrusion of new securities with claims upon earnings prior to their own. Nevertheless, within reasonable limits they have proven themselves a present help in time of trouble—that is to say, a handy means for satisfying the gluttonous appetite of this lusty, growing industry for capital. The upshot of this warning, then, is not that their use should be prohibited; but that their possible precariousness should be safeguarded by some substantial measure of public supervision. This the separate States are incompetent to give. . . .

The impotence of State administrative agencies in face of the growth of these great combinations is indubitable. The Chairman of the Massachusetts Public Service Commission recently admitted before the State Legislature the inability of his Board to pass upon the details of long-time contracts for inter-State transmission of power, due to the fact that one party had been chartered in another State. The Chairman of the up-State New York Utilities Commission, in connection with the recent creation of the Northeastern Power Co., likewise reported the impotence of his Commission to deal with the terms of sale of the New York properties because the purchaser was chartered, as I recall it, in Delaware. Cases before the Supreme Court recently touch upon this issue. A company produces or buys natural gas in Kansas and pipes it to connections in Missouri, there to dispose of it to utilities engaged in local distribution. The Supreme Court

held that neither State had power to regulate the rate. Apparently Congress has but to stretch forth the Federal arm in order to provide a suitable agency for this purpose. Matters of finance and accounting seem likely to play a larger part than those of rates in controversies of this sort. Over these the Federal Power Commission at the present time may take jurisdiction in those cases only where no competent State regulation obtains. But, even then, authority is specifically limited to electrical service generated by water power. It would be a relatively simple matter to enlarge the scope of this administrative body, by conferring plenary jurisdiction over all inter-State matters, whether or not there were an existing State agency, and by authorizing it to deal with electric service however generated, by steam as well as by water power.

A concluding word about customer-ownership as it has developed within the last decade. Its proportions are indeed prodigious. There are now approximately 1,307,000 customers of public utilities who are shareholders in their respective companies; and it is reported that the sale of securities direct to such customers amounted to $296,000,000 in 1925—that is to say, about one-quarter of the total new financing done by central station companies. Not a few of us from the outset regarded this movement not only as of doubtful values, but as embodying elements of grave danger, certainly unless the movement were kept well in hand. At first it appeared as if the prime impetus came from the desire to create a more favorable public environment, to the end, for instance, that these great companies should to a lesser degree be operated in what might be called an enemy country. Unquestionably this phase of the matter under the sane and conservative management of the American Telephone Co. has contributed substantially to a public understanding of the main problems confronting concerns of its particular class. Succeeding this argument, successful propaganda—and it, too, contains an element of truth—ran to the effect that beneficial results would flow from local co-operation and initiative. Housewives, either in the densely populated cities or out in the open, passing the time of day in neighborhood gossip, would perhaps keep a watchful eye upon Tony in the trenches or the lineman up aloft. Perhaps they would even report cases of inefficiency or malingering. But now the real reason has gradually thrust its head above water. It is this: that by this device of customer-ownership an almost inexhaustible reservoir of new capital may be tapped; together with the further advantages that this capital may be drawn upon, not indirectly through payment of commissions to bankers, but by direct sales campaigns, through billboards and through the friendly offices (for a commission) of the meter man and the bill collector, as well as of the technical employees.

The menace of a development reaching such proportions as it has within little more than a decade arises from a number of circumstances. The first is that the creation of a great body of customer investors, while it may operate to bring about a more co-operative spirit among the people at large in matters of franchise rate regulation and the like, may conceivably work the other way in case of mismanagement or dereliction. The seriousness of such an occurrence is fully understood by great corporations like American Telephone, which treats the matter from the high standpoint of a trustee upon whom the direst penalties are bound to be visited in case of recreance. But in the electric light industry, the appetite for new capital and the freedom from banking connections and chaperonage have opened the door on occasion to practices falling far below the level of trusteeship. Dewing, in his "Financial Management of Corporations," concludes that the sale prices for such securities run on an average ten points above the market quotations. I personally know of an instance in New England, specifically cited by Dewing also, where farmers were paying seven or eight dollars a share more for such securities than the price which prevailed over the counter not far away. Such things, of course, are the exception. But the greatest danger of all is the chance that some one of these great companies may go on the rocks, a fearsome thing to contemplate under such circumstances. . . .

Both the proportions and the character of this customer-ownership movement make it clear that questions of public responsibility are involved which call for the same measure of supervision as those which for long we have been accustomed to extend to our savings banks. If for no other reason, the question of submission of these great inter-State holding companies to some sort of Federal supervision and control would obtrude itself upon the public mind.

As to recommendations, several specific proposals for dealing with concrete issues are engaging. Disfranchisement of the stock of operating companies deposited as collateral for superposed issues of holding companies might perhaps act as a deterrent to undue corporate involvements; or the requirement by law that all public utilities engaged in inter-State commerce should make their annual reports along standardized lines, and particularly that they append thereto a certified copy of their Federal income tax returns. But such proposals either require uniform State legislation, which is beyond the range of possibility, or else drive us into the arms of the Federal Government. And in any event such proposals call for precise data, in order that the legislation shall be practicable; and particularly that it shall not, in the endeavor to restrain the ill-intentioned fed, operate to discourage the legitimate initiative of the many. About a hundred such things we need information. The light at present falls upon many of them in slanting shafts, due to the natural self-interest of those who now command the situation. The surest source of disinterested illumination would be a comprehensive examination into the whole subject of public utilities, preferably under the authority of the Federal Power Commission or some other special board temporarily created for the purpose. Consequently a wise policy at this juncture would seem to be to refrain—ostentatiously, as it were—from advocacy of any particular program; but to urge instead that the President recommend to the Congress that provision be made for such an exhaustive inquiry, to be so prosecuted as to command the confidence of the entire country. The result would be a substantial contribution to the body of our information on a subject of profound importance at this time to some millions of the people of the Unted States.

A searching inquiry by real experts, stripped of all political bias and affording a field day for all comers; an open contest in which the truth, regardless of self-interest, shall prevail—this is the downright need of the moment. And if the objection be advanced that the whole truth might cast a blight upon development here and there, the answer is ready at hand. It was Abraham Lincoln who was wont to emphasize "the proneness of prosperity to breed tyrants." Something like this seemed recently to be taking place in the domain of corporate management. Fortunately it was possible effectively to nip it in the bud without an iota of disarrangement. Prosperity, not real but specious, may indeed be unduly protracted by artificial means; but in the end the truth is bound to prevail. Nor can the truth work harm to those whose custom it is to work in daylight. It is the wrongdoer alone, delving in darkness and diligent in deviousness, who fears the strong tonic of publicity. And so we close with those prefatory words from Abraham Lincoln's "House Divided" speech—second in importance only to the Gettysburg Address: "If we could first know where we are, and whither we are tending, we could better judge what to do, and how to do it."

A previous article by Professor Ripley in the "Atlantic Monthly," criticising the financial statements of corporations, was referred to in these columns Aug. 28, page 1050.

George W. York on Land Trust Certificates—Ruling of Attorney-General of Ohio Regarding Taxability.

An article on "Land Trust Certificates," prompted by the interest which has been awakened in this form of investment, particularly since the Attorney-General of Ohio ruled in September that the certificates are not subject to State and local taxes, has been prepared by George W. York, President of Geo. W. York & Co., Inc., of Cleveland. Mr. York goes into the subject at considerable length, dscussing the history, modern use, advantages, practical features, marketability, future, etc., of the certificates, and the information which he presents is given herewith:

History.

Land trust certificates are frequently referred to as "ground rents," being an adaptation of that form of investment which is supposed to have had its origin in the days of the Roman Empire. Their use in England dates back to the 17th century. They were first coupled with the ownership of land in this country in connection with land grants, to Lord Baltimore, of territory now constituting the State of Maryland. Their use spread to Pennsylvania and then to Ohio, where the application of the plan, in a strictly commercial sense, was first adopted. The merits of the plan gradually became better understood until we find to-day land trust certificates (a refinement of ground rents), an investment held in highest regard.

Modern Use.

With the growth and expansion of our large cities, the constant increase in population, the improvement of land in the business section of our cities with the skyscraper type of buildings, and the demand for space therein, favorably located real estate increased enormously in value. As these values increased, the potential prospects for the sale of such real estate became correspondingly more limited in number. The market was one of distinct limitations. The result has been to centre the ownership of the best real estate in the larger cities in a very limited number of wealthy families, estates and large institutions. The method of financing the sale of real estate through the medium of land trust certificates has provided the means by which the ownership of this land may be divided between twenty or a hundred or a thousand individuals, and likewise furnishes a form of investment that is bound to increase in popularity.

Definition.

A land trust certificate is an evidence of equitable ownership of an undivided interest in a certain definite parcel of land. The certificate shows on its face what fraction of the whole interest it represents. The actual fee simple title to the land is in the name of a trustee who holds the same in trust for the benefit of the certificate holders. It is not in any sense a mortgage, a bond, or a note, but is an evidence of actual equitable and beneficial ownership of the property designated therein, which has been trusteed as the basis for the issuance of certificates.

Structure.

The legal structure for a land trust certificate issue is comparatively simple. Fee simple title to certain land is conveyed to a trustee (usually a large bank with trust powers) and certificates are issued by the trustee, each representing a certain undivided interest in the entire property. A land trust certificate divides the ownership of real estate in a manner similar to that in which a mortgage bond splits a mortgage. Each certificate resembles, as far as a fractional division is concerned, the stock ownership of a corporation when divided into no par shares. Each certificate is saleable and transferable by endorsement, properly witnessed and attested by an officer authorized to acknowledge deeds in the manner customary in the transfer of real property.

The duties and obligations of the trustees and the rights and privileges of the certificate holders are set forth in a document known as the agreement and declaration of trust, which is filed and recorded with the local county officer charged with the recording of deeds. The land is generally improved with an office building or commercial structure, and as the fee title to land carries with it the improvements thereon, it is the additional value represented by such improvements that constitutes the margin of safety and assurance of income to land trust certificate holders.

The land and its improvement are leased for a long period, generally 99 years, to a responsible lessee, on a rental basis that assures the periodic payment to the trustee of sums sufficient to defray all expenses of the trust and leave available for quarterly or semi-annual distribution to the certificate holders a fixed return upon their investment.

Maturity.

A land trust certificate has no definite date of maturity. The purchaser of a parcel of land does not expect the return of his money until the property is sold, and so it is, to some extent, with the land trust certificate holder. There are, however, a number of ways of providing for the repurchase of certificates, and whatever method or methods are used are embodied in the lease.

One method which is quite commonly used, is to lease the property at a schedule of rentals which, in addition to paying a certain return on the outstanding certificates, provides an additional amount which is available to the trustee to use in the repurchase of certificates in the open market or by call by lot.

This amount is usually so fixed as to permit of the repurchase of all of the certificates before the time of expiration of the lease. As these certificates are purchased they are held by the trustee for the benefit of all other certificate holders, until the entire issue has been repurchased. When all the certificates have been repurchased the trustee holds all for the benefit of the lessee who may then, as beneficiary, require the transfer of the fee title of the property and the cancellation of the lease.

Another method which is perhaps the older, is to provide purchase options in the lease whereby the lessee may acquire the property from the trustee by paying a sum of money sufficient to repurchase all of the certificates at a price which generally affords the certificate holder an attractive premium or bonus on the investment.

Usual Practice.

The marketability of land trust certificates depends largely upon whether they conform to the standards and requirements that have operated to influence certain customs in the creation of these certificates. When made to comply with the laws of certain States and the by-laws of institutions,

which are large investors in this form of security, these certificates assume a degree of safety, from an investment standpoint, more secure than the conservative type of first mortgage real estate bonds. The Ohio statute relating to the eligibility of land trust certificates for the investment of trust funds and savings banks, provides:

". . . the total value of these certificates must not exceed, as to any particular issue, the value of the land nor 60% of the total value of the land and the improvements thereon. Nor any such institutions invest in such certificates unless the lands are under lease for a period of not less than twenty-five years from the date of the issue."

Other safeguards as to the carrying of insurance and the application of funds for the construction of buildings where the land is unimproved, are further stipulation of the statute.

As an example of a typical land trust certificate issue, take a case where a property has a total value, land and buildings, of $2,000,000, of which $1,000,000 is represented by building value. An issue of land trust certificates should be limited to 1,000 shares, each representing a value of 1-1000 of the land value, or $1,000. As certificates have no denomination or principal amount, they can be issued in any number that custom and convenience would permit. The value of the land in its relation to the number of shares in which the interest is divided, is the determining factor in the selling price of the interests. In the example above mentioned, the fee title could be divided into 10,000 interests, in which case each interest would be worth 1-10,000 of the whole value, or $100. If the issue is sold to yield 6% on the money invested, then the lease must require the payment of ground rental of not less than $60,000. In other words, in creating a land trust certificate issue the sales value of the certificates is an amount not to exceed the value of the land as appraised by recognized reliable appraisers, and the improvements on the land should be of such value as will produce rentals sufficient to pay a certain percentage of interest on the money represented by the land trust certificates. The rate of rental of the certificates is a matter which is governed by the particular features which might enter into any one separate transaction, such as location of the land, the type of the improvements thereon, and the then current price of money, etc.

The Lease.

From the viewpoint of the investor, who is seeking first and above all other considerations, a secure place for the employment of his funds and a fair return on his money, land trust certificates offer a vehicle in the oldest known form of investment, namely, land. By no means does all land lend itself to this operation. To embrace all the merits of the investment, the property should be located where values are soundly established and in the path of growth of the city and increase in land values; there should be an adequate improvement on the land and utilization of it that will produce a fair return on the total value of the land and building, after the payment of taxes, operating expenses and Government charges; it should, concurrently, with or prior to the issuing of the certificates representing its ownership, be leased to responsible parties; the improvement should be of such a value that any failure on the part of the lessee to live up to his obligations would, through forfeiture of the lease, provide to the certificate holders such worth as would necessarily make their estate of greater value and earning capacity than they enjoy from the rentals received from the lessee. It is evident, therefore, that the crux of the land trust certificate operation is the lease. Therefore, the lease should be drafted by, or should have the approval of, competent and experienced attorneys, acting in behalf of the trustee and the security dealer who in the first instance becomes the purchaser of the certificates. When it is realized that the rights of the lessee are secondary to the paramount rights of the owners of the land and that the lessee's estate is conditioned upon the performance of the terms and conditions of the lease, it must necessarily follow that the rights of both parties should be clearly established and the terms and conditions of the lease should be such as will promote and assure the continuity of the leasehold estate and the regular payment, through the trustee, of the rental to the certificate holders.

It must be further realized that at the time of purchase of certificates, there must be no question of a worth in the property, both intrinsically and upon an income basis, vastly greater than the value of the naked land. Theoretically, the lessee is the owner of the building, inasmuch as through his lease he has the use and enjoyment of the building. His funds are invested in it and he has every incentive to protect his investment. In the larger operations secondary financing is frequently employed, and whether it be through the medium of the sale of stock of the lessee company, mortgaging of the lessee's estate, or in any other form, it always follows and is junior to the land trust certificates. It has been customary, therefore, to permit the lessee, through the exercise of a purchase option, or by the payment of a stipulated additional ground rent over a long period of years, to provide the means of acquiring the entire estate at a price which will be a fair premium to the land owners (the land trust certificate holders).

Tax Features.

Inasmuch as land trust certificates are actual ownerships of land on which the State and local taxes are paid by the lessee, it is the opinion of eminent legal counsel that these certificates are not subject to such State and local taxes, either as real or personal property. In some issues the lessee also agrees to pay the normal Federal income tax upon the income to each certificate holder, and in this case the owner of the certificate would be exempt from paying State and local taxes and also the normal income tax.

Practical Features.

Before this form of financing became so popular, many large estates were built up through substantial investments in centrally located business properties and derived their main income from ground rentals on such property. The large amount of money required for such an operation was prohibitive to the man of moderate means, and it is through the creation of land trust certificate issues that investors may now share in the advantages of investing in small or large amounts in the ownership of this class of improved property.

In a land trust certificate operation, if the lessee defaults in any of the provisions of the lease, there may be a forfeiture of the lease and the trustee can obtain possession of the property and all improvements thereon, for the benefit of the certificate holders. The advantage of this plan may be easily seen.

In order for the lessee to continue to use the property on which he has large investments in buildings and improvements, rents must be promptly paid and the requirements of the lease faithfully fulfilled. This investment of money by the lessee provides every incentive to preserve the integrity of his leasehold estate and thus protect the certificate holders' interest.

An interesting example of a land trust certificate operation is an issue placed on the market in 1915 in the city of Cleveland. The fee simple title in the land occupied by the Cleveland Athletic Club Building was divided into 970 equal parts, valued at $1,000 each. At the time of the issue the land was appraised at $975,000 and the building was appraised at $975,000. The land alone is now valued at more than $2,000,000, or over twice the appraisal eleven years ago. In the meantime the owner of the land trust certificate has received an income of 5½% on the funds invested; there has been no impairment in the worth of investment; there has been, at all times, a ready market in case he desired to sell.

Advantages.

As an investment to the holder, it is particularly free from the uncertainties and vagaries of many forms of corporate securities; as differentiated from a mortgage, it constitutes a form of financing less burdensome than the usual type of mortgage loan.

Certain classes of business are benefited and placed upon a sounder financial footing, if the funds which otherwise would be invested permanently in land are available to the operation of the business, affording better credit, larger and more frequent turn-over of inventory and greater profit from the use of such funds in the business. Paying for the use of the land is consequently of greater benefit to such a company than its ownership, and still affords the prestige and advantages derived from identity of building and permanency in location.

On the other hand, certain classes of investors (and their number is legion) regard land as the safest form of investment. The problem and vexations of management, vacancies, taxes, insurance, repairs, liability, etc., coupled with the lack of assurance of a definite, regular income, ofttimes offset the desirability of this form of investment. In the form of land trust certificates the kind of investment this class desires is available. The value of the improvement on the land and the responsibility of the lessee provide the security and assurance of regular return on the investment, with the risk reduced to a minimum. The leases invariably provide for the payment of the ground rental quarterly in advance, to the trustee, and by the trustee are distributed to the certificate holders, either quarterly or semi-annually. Payment is made by check, which is more convenient and safer than the collection of interest by cashing coupons. In the case of the necessity of forfeiture of the lease, the certificate owners, through their trustee, secure the possession and use not only of the land, but of all the improvements upon it as well. This fact has given use to the expression that, from standpoint of profit, "the worst things that could happen to a land trust certificate issue would be the best thing."

Marketability.

Investigation of the records of the modern type of land trust certificates discloses no case in which there has ever been a default upon the payment of the rental. Representing therefore, as they do, sound values in improved land, paying a regular rate of return upon the investment, they have become increasingly popular for the investment of trust funds and the funds of savings banks and endowed institutions, and the non-speculative class of investors. They maintain a high collateral loan value and a ready market value. This last mentioned feature is easily understood for the reason that they are purchased in the original instance solely on an investment basis, and the market prices on the presently outstanding issues are within a narrow range, more so than even the stocks of the best banks. In most instances the certificates issued against all the better known properties command a premium and the chief influence on the range of market prices must necessarily be covered by the current price of money.

Future.

Land trust certificates have enjoyed an enviable record in the many localities in which they have been in operation. The principal of actual ownership of well located improved real estate, upon which these certificates are predicated, leads us to believe that as the plan and its merits are better understood, there will be a constantly increasing interest in and approval of this form of investment.

The ruling of the Attorney-General of Ohio referred to above, follows:

3640.

Sept. 22 1926.

Syllabus:

Holders of land trust certificates issued under a declaration of trust executed by the Cleveland Trust Co., of Cleveland, Ohio, as trustee, dated June 1 1922, are not required to list said certificates for taxation.

3640.

Sept. 22 1926.

Opinion:

The Tax Commission of Ohio, Columbus, Ohio.

Gentlemen: Acknowledgment is hereby made of your recent communication in which you enclose printed copy of an agreement and declaration of trust executed by the Cleveland Trust Co., of Cleveland, Ohio, as trustee, and you inquire if "a trustee's certificate issued thereunder is subject to or exempt from general property tax." The declaration of trust which you submit is in the ordinary form, in which the Cleveland Trust Co. makes declaration that it holds certain real estate situated in the city of Cleveland, Cuyahoga County, Ohio, in trust for holders of certain land trust certificates.

Said real estate is subject to a 99-year lease from the Cleveland Trust Co. to the Crowell & Little Securities Co. Sundry deeds and conveyances together with the aforesaid lease are filed for record in the Recorder's office of Cuyahoga County. Said lease is renewable at the option of the lessee for periods of 99 years perpetually from the Cleveland Trust Co. to the Crowell & Little Securities Co. with a rental payable thereunder of $168,000 per annum in quarterly installments in advance.

The trustee in said declaration of trust acknowledges, declares and agrees that the fee simple title and estate in and to said premises (subject, however, to such lease) and all of the trustee's right, title and interest in, to and under said lease and the rents to accrue thereunder, are held and shall be held by said the Cleveland Trust Co., in trust, upon and subject to the following trusts:

First. The trustees shall hold the trust estate and the rents, issues, profits and proceeds thereof, for the sole and exclusive uses and benefit of the present and future holders of the certificates of equitable ownership issued thereunder, or from securities and interest, and will, from time to time, pay over to such holders thereof proportionate shares of the rents received in said leases within a reasonable time after the receipt thereof by the trustee;

Second. The beneficial interest and ownership in the trust estate shall be divided into 2,800 equal shares which shall be represented and evidenced by certificates of equitable ownership, and to be issued by the trustee;

Third. No holder of any such certificate of equitable ownership shall have, as such, any legal title to the trust estate, but the interest of all such certificate holders shall be equitable only.

In the form of certificate of equitable ownership submitted, it is provided that the certificate and the beneficial ownership of the trust property represented thereby may be conveyed and transferred upon the books of the trustee by the holder thereof upon surrender of the certificate with the conveyance and assignment upon the reverse side thereof duly executed by the holder, and it is provided that said conveyance must be in the usual form for the execution and acknowledgment of a deed.

It will be noted that the trustee, the Cleveland Trust Co., makes declaration that it holds said trust real estate in trust for the holders of the cer-

tificates issued under and in conformity to said declaration; and that each certificate represents at least 1-2,800 of the value of the entire issue of the certificates, and that each of said certificates represents an equitable interest in said land. The land, of course, is taxable to the trustee who holds the legal title. Said land is, therefore, not exempt from taxation, and in this particular case the taxes are paid by the lessee, and the question, therefore, seems to be as to whether or not the holders of the aforesaid land trust certificates should list them for taxation.

The land trust certificate is exactly what its name implies—a certificate evidencing an interest in the equitable ownership of land held in trust and is, therefore, a real estate investment. It is not in any sense a mortgage, a leasehold bond or note, but is an evidence of actual ownership in whatever property may be trusteed as a basis for the issuance of any particular series or designation of certificates. The certificate is merely an evidence of the holder's simple individual share in the ownership of large parcels of property.

As these certificates are merely an evidence of ownership they have, of course, no par value or other fixed nominal value. Nothing but custom and convenience govern the price at which the certificates are sold and the interest which accrues thereupon. As the land trust certificate is merely an evidence of ownership, there is, of course, no such thing as maturity, and as it is merely an evidence of equitable ownership of real estate, no personal property taxes are payable thereon.

In the case of Morrison vs. Manchester, 58 N. H., 538, at page 563, it is stated that:

"When an owner has left his farm in trust for his widow and children, and the trustee holding the legal title without any beneficial interest pays the farm taxes and expenses out of the farm income, and pays the rest of the income to the widow and children, a second tax for the same amount is not assessed on the equitable title of the widow and children. For the purpose of taxation the legal title of the trustee and the equitable title of the widow and children are not more than the whole title, legal and equitable, which the testator had in his lifetime. If the testator, dividing the equitable title and beneficial interest into four shares, gave two shares to his widow and one share to each of his two children, directed the trustee to issue to them certificates as evidence of their respective rights in the trust property, the united title of the trustee and the widow and children would not be more than the title of the testator."

In Sears on "Trust Estates in Business Companies," it is stated in Section 114, at page 168, that:

"It seems impossible to find any case maintaining or attempting to maintain the proposition that the legal and equitable interest in the same property may both be taxed, at least where trustee and beneficiaries reside in the same State. On the contrary, all theory of this being lawful as to capital stock and share of stock of a corporation is that they are distinct and independent properties, there being a legal interest in the former, and a legal interest in the latter, that is to say, diverse legal interests in different things. In a trust there is a legal interest and its dependency, an equitable interest. If the latter is destroyed a beneficiary ceases to be, but the property resumes the status it had before the subsidiary interest began."

It is therefore believed that the holders of the land trust certificates authorized under the aforesaid declaration of trust are not required to list them for taxation.

You further inquire if it would make any difference if the real estate in question was located outside of Ohio, or the trustee was a non-resident of this State, or if the trustee was a non-resident and the land was also without the State.

It is believed that the said statement of changed status would make no difference in our answer as before herein stated.

In "Sears Trust Estates," page 168, it is stated that:

"Therefore it may be said that in the State where both trustee and cestui que trust reside one tax is all that may be imposed; and if they reside in different States, the tax is imposed where the property is held."

I am returning your copy of the declaration of trust.

Respectfully,

ATTORNEY-GENERAL.

Submission of Wage Demands of Conductors and Trainmen to Board of Arbitration.

Preliminary to the arbitration proceedings which were opened in this city on Oct. 28, incident to the request for increased wages for conductors and trainmen of the Eastern railroads, the completion of the membership of the Board of Arbitration was effected on Oct. 10, when the two neutral arbitrators were named. They are Edgar E. Clark of Clark, and La Roe, Washington, formerly Inter-State Commerce Commissioner, and William D. Baldwin, Chairman of the Otis Elevator Co. The other members of the Board, previously named, and referred to in these columns Sept. 11, page 1341, are

For the Employes.

Daniel L. Cease, Editor, "The Railroad Trainman" (representing the trainmen).

E. P. Curtis, General Secretary, Oorder of Railway Conductors (representing the conductors).

For the Railroads.

Robert V. Massey, Assistant Vice-President, Personnel, Eastern Region, Pennsylvania Railroad.

William A. Baldwin, Vice-President, Erie Railroad.

On Oct. 27 Mr. Clark was elected Chairman of the Arbitration Board. The arbitration is conducted under the provisions of the recently enacted Watson-Parker Railroad Labor Act. L. E. Sheppard, President of the Order of Railway Conductors was the first one to be accorded a hearing by the Arbitration Board on Oct. 28; according to the New York "Evening Post" in opening the case for the trainmen he said he hoped the Board would arrive scientifically at a determination of the wage scale. The submission of the demands of the trainmen, conductors and firemen of the Eastern railroads for a 20% increase in wages was decided upon by the representatives of the Eastern railroads and the Brotherhood of Railway Conductors and Trainmen on Aug. 25, when it was found that the questions involved could not be settled through the Federal Board of Mediation—also created under the Watson-Parker Act. The decision of Aug. 25 was made known in these columns Aug. 28, page 1057. The Committee on Public Relations of the Eastern Railroads, in furnishing, under date of Oct. 23, information relative to the trainmen's demands has the following to say regarding the agreement to arbitrate (signed Aug. 25):

The abritration agreement was formally signed on that day by J. G. Walber, as Chairman of the Conference Committee of Managers of the Eastern Railroads; L. E. Sheppard, President, Order of Railway Conductors; and W. G. Lee, President, Order of Railroad Trainmen.

Among the more important provisions of the arbitration agreement are the following:

The specific questions to be submitted to the board for decision are the questions enumerated in the proposition submitted by the parties of the second part to the parties of the first part, a copy of which is annexed hereto and made a part hereof.

In its award, the board shall confine itself strictly to decisions as to the questions so specifically submitted to it.

The questions, or any one or more of the,, so submitted may be withdrawn from arbitration on notice to that effect signed by the duly accredited representatives of each of the parties hereto and served on the board, or upon the Chairman of the board, at any time prior to the making of the award.

The signatures of a majority of the members of the board affixed to its award shall be competent to constitute a valid and binding award.

The board shall make and file its award prior to the expiration of the period of forty-five (45) days from the date on which the board begins its hearings, but the parties hereto may agree, at any time prior to the making of such award, upon an extension of such period (whether or not previously extended).

The award of the board shall become effective on the date fixed in its award, and shall continue in force for the period of one year from the effective date thereof, and thereafter subject to thirty days notice by or to any of such railroads.

The award of the board and the evidence of the proceedings before the board relating thereto, certified under the hands of at least a majority of the members of the board, shall be filed in the clerk's office of the District Court of the United States for the Southern District of New York.

Such award so filed shall be final and conclusive upon the parties thereto as to the facts determined by the award and as to the merits of the controversy decided.

Any difference arising as to the meaning, or the application of the provisions, of such award shall be referred for a ruling to the board, or to a subcommittee of the board agreed to by the parties thereto.

Shortly after the signing of the arbitration agreement the Eastern railroads and the conductors and trainmen announced their representatives on the Board of Arbitration. Each side named two, according to the provisions of the law. Daniel L. Cease, Editor of "the Railroad Trainman," was appointed as the representative of the trainmen, and E. P. Curtis, General Secretary, Order of Railway Conductors, was appointed as the representative of the conductors. The railroads announced Robert V. Massey, General Manager, Eastern Region, Pennsylvania Railroad, and William A. Baldwin, Vice-President, Erie Railroad, as their representatives

These four men met on Sept. 14 to decide upon the fifth and sixth members of the Arbitration Board who were to represent the public. They were unable to agree upon these representatives, and on Sept. 28 notified Chairman Winslow of the Board of Mediation to this effect.

Under the law, the Board of Mediation then undertook the task of appointing the neutral arbitrators. On Oct. 9 it was announced that William D. Baldwin, Chairman, Otis Elevator Co., and Edgar E. Clark of Clark & La Roe, Washington, were appointed.

The Committee on Public Relations also presents th following table showing the present rate of pay for conductors and trainmen in passenger, freight and yard service on a daily basis, the new proposed schedule on a daily basis, and the increase between the two rates of pay:

Class of Employes—	*Rates of Pay Generally in Effect at Present Per Day.*	*Proposed Rates of Pay Per Day.*	*Increase Per Day.*
Passenger Service—			
Conductors	$6 70	$7 75	$1 05
Assistant conductors and ticket collectors	5 50	6 84	1 34
Baggagemen handling express, dynamo and government mail	5 54	7 18	1 68
Baggagemen handling dynamo and express	5 54	6 84	1 30
Baggagemen handling dynamo and government mail	5 20	6 84	1 64
Baggagemen handling express and government mail	5 20	6 84	1 64
Baggagemen handling either dynamo, express or government mail	5 20	6 50	1 30
Baggagemen	4 86	6 16	1 30
Flagmen and Brakemen	4 70	6 00	1 30
Local Freight Service—			
Conductors	6 68	7 74	1 06
Flagmen and brakemen	5 24	6 24	1 00
Through Freight Service—			
Conductors	6 16	7 34	1 18
Flagmen and brakemen	4 84	5 84	1 00
Yard Service—			
Conductors (foremen)	6 64	7 64	1 00
Brakemen (helpers)	6 16	7 16	1 00
Switch-tenders	4 72	5 72	1 00

The Committee likewise says:

Conductors and trainmen in road service, having as they do a double standard of pay, enjoy more favorable bases of payment than obtains for other classes of employment, because other classes have but a single basis, viz., hourly or daily basis. In through passenger service conductors and trainmen are paid on the basis of a day's work for a run of 150 miles or less. They receive additional pay for mileage in excess of 150 miles, in spite of the fact that the entire day's run may be performed well within the hours constituting a day's work. In the case of through passenger service a day's work consists of seven and one-half hours. In through passenger service, if overtime accrues on a speed basis of 20 miles per hour, it is allowed in addition to amounts earned on the basis of mileage made.

Standards of Pay Analyzed.

In short, turn-around and suburban passenger service, a day's work consists of eight hours within a period of ten elapsed hours. In this service both miles and hours in excess of that constituting a day's pay are allowed.

If freight service, conductors and trainmen receive a day's pay for a run 100 miles of less, whether the work requires eight hours or less. Additional pay is allowed for mileage in excess of 100 miles, together with time and one-half for any overtime that may accrue on a speed basis of 12½ miles per hour. To illustrate: On a run of 125 miles, made in 11 hours, the crew would be paid 125 miles (equivalent to one and one-fourth days) plus one hour overtime at time and one-half. On a run of 150 miles, made in 7 hours, the crew would receive pay for 150 miles, or the equivalent of a day and a half. If the crew made 70 miles and consumed 10 hours, they would receive one day's pay and two hours overtime at the time and one-half rate.

Yard Service.

In yard service, a day's pay is allowed for eight hours work or less, with time and one-half for service performed beyond eight hours.

Requested Changes in Rules to Be Arbitrated.

1. The same increases shall apply to milk, mixed, work, miscellaneous or any service not enumerated as are applied to the service in which they are now classified. Where there is a separate rate for milk, mixed, work, miscellaneous or other service, it shall be increased in the same amount of money compared with rates in effect this date, as the freight or passenger rate, according to the overtime basis on which it is calculated.

This rule is designed to cover classes of service which do not definitely come within the recognized classes, viz., passenger, through freight or local freight.

2. All rates of pay in excess of standard rates and all mountain, desert or other differentials to be maintained—that is, the same amount of money now paid in excess of standard rates to be paid in excess of rates which may be agreed upon.

This rule is designed to continue existing preferential conditions.

3. The adoption of the rates suggested shall in no case operate to bring about a reduction in compensation now paid.

Self-explanatory.

4. Literal application of the following language "In all classes of service, trainmen's time will commence at the time they are required to report for duty and shall continue until the time they are relieved from duty."

This rule attempts to substitute a single method for paying for service incidental to a day's work for varieties of methods now in effect which are based upon local conditions, and require separate payments for service now included in the rates.

5. A through freight train is one that neither sets off nor picks up cars nor loads or unloads freight enroute, nor does station switching. On all other freight trains trainmen shall be paid not less than local or way freight rates.

Employes on local freight trains receive higher pay than those on through freight trains. The object of this rule is to require the transfer of a large number of trains, now classified as through, to the local class. The effect of this would be to increase the wages of crews whose trains are thus reclassified.

6. Not less than one brakeman shall be assigned to every passenger train of two or more cars or on other passenger trains of less than two cars that carry their baggage, mail or express matter for distribution.

The object of this rule is to require a brakeman on motorized and other small passenger equipment. This rule would add a particular class of employeeto a crew regardless of the present make-up of crews and regardless of the service requirements.

7. All rates and rules herein enumerated to be effective as of Jan. 1 1926, except where agreements in effect have been made to a later date.

Self-explanatory.

Interested Parties.

The following Eastern railroads: Baltimore & Ohio; Boston & Maine; Buffalo & Susquehanna; Buffalo, Rochester & Pittsburgh; Central Railroad of New Jersey; Chicago, Indianapolis & Louisville; Cincinnati, Indianapolis & Western; Delaware, Lackawanna & Western; Erie (including subsidiaries); Hocking Valley; Lehigh Valley; Long Island; Monongahela; New York Central Lines (including Boston & Albany, Cleveland, Cincinnati, Chicago & St. Louis, Indiana Harbor Belt, Michigan Central and various N. Y. Central subsidiaries); New York, Chicago & St. Louis (including Clove-Leaf, Lake Erie & Western and subsidiaries); New York, New Haven & Hartford (including Central New England); New York, Ontario & Western; Pennsylvania Railroad (excluding Ohio River & Western Ry. and Waynesburg & Washington RR.); Pittsburgh & West Virginia and West Side Belt; Reading Company (including subsidiaries); Rutland; Staten Island Rapid Transit and Pittsburgh & Lake Erie (including Lake Erie & Eastern).

The following employees of these railroads (approximately 89,000):

Passenger-Train Service.

Conductors, assistant conductors and ticket collectors, baggagemen, flagmen and brakemen.

Freight-Train Service.

Conductors and brakemen.

Yard Service.

Car-retarder operators, foremen, helpers, switch-tenders.

ITEMS ABOUT BANKS, TRUST COMPANIES, &c.

The New York Stock Exchange membership of Harold L. Fish, deceased, was reported posted for transfer this week to George L. Forman, the consideration being stated as $140,000. This is the same as the last preceding sale.

The board of directors of the National City Bank of New York at a meeting on Oct. 26 elected H. T. S. Green a Vice-President. Mr. Green will continue to act in the capacity of President and General Manager of the International Banking Corp., which is owned by the National City Bank, in which position he has been active for many years.

A meeting of the stockholders of the American Exchange-Pacific National Bank of this city will be held on Nov. 5 for the purpose of taking steps toward the liquidation of the bank, and authorizing its conversion into a State bank to be known as the American Exchange-Pacific Bank. This is preliminary to the merger of the bank with the Irving Bank & Trust Co., details of which were given in our issue of Oct. 16, 1926.

A meeting of the stockholders of the Bank of America of this city has been called for Nov. 11 to vote on the recommendation of the directors to increase the capital stock from $6,500,000 to $8,000,000. The meeting has several times been postponed owing to the proceedings to dissolve the voting trust. As we indicated last week (page 2068), the Appellate Division of the Supreme Court on Oct. 22 denied the motion of the National Liberty Insurance Co. for permission to appeal to the Court of Appeals from a decision that upheld the validity of the voting trust agreement.

The Irving Bank & Trust Co. has announced the appointment of H. Frederick Hill, of the John Reis Co., 805 Flatbush Ave., Brooklyn, as a member of the advisory board of the company's Flatbush office, at Flatbush Avenue and Linden Boulevard, Brooklyn.

The directors of the Corn Exchange Bank of this city have voted to increase the capital stock of the bank from $10,000,000 to $11,000,000. A meeting of the stockholders will be held on Nov. 30, to authorize the issuance of the new stock, which will be offered to stockholders of record Dec. 15 at $200 per $100 share. The subscription will be payable Jan. 3 1927.

The new Bronx branch of the Chelsea Exchange Bank will open for business to-day (Oct. 30) at 558 Claremont Parkway, near Third Avenue. A reception has been planned in connection with the opening which will extend from noon until midnight, at which Edward S. Rothschild, President, and other officers of the bank will act as hosts. Useful gifts will be distributed to new customers. The new branch will be located at 558 Claremont Parkway until early in the new year, when new quarters will be established in the bank's own building at 3819 Third Avenue, acquired recently. These quarters will be renovated when the bank takes possession of the property on Dec. 1.

At a meeting of the Board of Directors of the Commercial Exchange Bank of New York (which institution is to succeed the banking firm of Lionello Perera & Co.) the following officers were elected: Mario Perera and Frank Pinto, Second Vice-Presidents; R. Rojas, Assistant Vice-President; F. Gonzales Rosa, H. Nathan, D. Infantino and Frank Landy, Assistant Cashiers.

Dividends for the current period have been declared at a meeting of trustees of the Security Trust Co. of Rochester, N. Y., at the regular annual rate of 24%, and an additional extra dividend of 12% was also declared, both payable Nov. 1 next. These make the total of dividends to stockholders for the present fiscal year 36%. The first dividend to stockholders declared by the Security Trust Co. was at the rate of 6% in 1894, less than two years after the formation of the corporation. This was later increased to 8, 10 and 12%, progressively, and in 1921 it was increased to 20%, and an extra of 8% was paid at the same time. The following year the regular, and an extra of 10% was paid, after which the regular rate was made 24%. The company's stock of $100 par value is quoted at $1,000 bid on the Rochester market. Hiram W. Sibley, the first President, is the only survivor of the officers chosen at the organization in November 1892. The first home of the Security Trust Co. was the remodeled residence of the late Nemiah Osborne, at East Avenue, Main and Elm streets. Three years later property at Main and South Water streets was purchased, and the present building erected, to which was subsequently added the remodeled Post-Express Building adjoining on the south.

Announcement was made in Philadelphia on Oct. 25 of the proposed consolidation of the Sixty-Third Street Title & Trust Co. of that city with the Susquehanna Title & Trust Co. of Philadelphia, according to the Philadelphia "Ledger" of Oct. 26. A special meeting of the stockholders of the former has been called for to-day (Oct. 30) to ratify the proposed merger. The Susquehanna Title & Trust Co. began business on Dec. 13 1924 and has a combined capital and surplus of $180,000 and deposits of more than $1,000,000, while the Sixty-Third Street Title & Trust Co. started business in 1923 and has a combined capital and surplus of $150,000 and deposits in excess of $500,000. The banking quarters of the latter at Sixty-third Street and Lansdowne Avenue, it is understood, will be continued as the West Philadelphia office of the Susquehanna Title & Trust Co. The main office of the latter is at 1611 Susquehanna Avenue. As a preliminary step in the proposed merger, the Susquehanna Title & Trust Co. on Oct. 25 added to its directorate Victor J. Hamilton, Charles Gaus, John F. Booth, Le Roy Schoch and B. I. de Young, all of whom, it is said, are connected with the Sixty-Third Street Title & Trust Co. Samuel F. Haxton is President of the Susquehanna Title & Trust Co., while Victor J. Hamilton heads the Sixty-Third Street Title & Trust Co.

Effective Oct. 18 the Third National Bank of Gastonia, N. C. (capita ized at $250,000) went into voluntary liquidation and has been succeeded by the Commercial Bank & Trust Co. This is a preliminary step, it is understood, in the proposed consolidation of the four Northern Carolina banks mentioned in our issue of Sept. 18, page 1466, namely the Third National Bank of Gastonia, the People's Loan & Trust Co. of King's Mountain, the Farmers' Bank & Trust Co. of Cherryville, and the Mount Holly Bank of Mount Holly.

The Brotherhood Savings & Trust Co. of Pittsburgh, a labor bank, failed to open for business on Oct. 16, following the disclosure, of an alleged bond swindle involving, it was said, $425,000, of which more than $100,000 belonged to the bank. The State Banking Department ordered the bank closed and took over its affairs following upon the arrest late Friday night, Oct. 15, of four persons, including three officers of the bank, on various charges growing out of the alleged swindle. Coincidentally a nation-wide search was instituted for Charles E. Knapp, a bond salesman of Pittsburgh, who disappeared on Oct. 15 with a satchel containing the $425,000 which had been entrusted to him by the other defendants, it is understood, to purchase $800.000 of Liberty bonds at a discount. On the night of Oct. 20, however, Knapp was arrested at a mountain cabin near Uniontown, Pa., and returned to Pittsburgh, only $554, it is said, being then found in his possession. The four men arrested on Oct. 15 were R. A. McCrady, President of the Brotherhood Savings & Trust Co.; William Kelly, Vice-President, and J. L. Nelson, Secretary, and Frank T. Redman, a broker. On Oct. 16 charges of alleged conspiracy were filed against McCrady, Kelly, Nelson, Redman and Knapp, by Chief State Bank Examiner R. P. Ferguson, and later in the day charges of conspiracy were filed against all five defendants by city authorities, with additional charges of embezzlement and fraudulent misappropriation against each of the bank officials. Subsequently McCrady was released on bonds totaling $125,000. An account of the alleged swindle, as contained in a dispatch by the Associated Press from Pittsburgh, printed in the New York "Times" of Oct. 17, said:

McCrady told detectives Knapp approached him several weeks ago with a proposition to buy Liberty bonds at a big discount and quoted the bond salesman as saying he had several similar deals pending involving $8,000,000 of bonds of a bankrupt banker whose identity could not be disclosed.

The bank President related that Knapp appeared at the bank yesterday (Oct. 15) and received the cash, which he first told detectives amounted to $320,000, and later placed the figure at $425,000. Of the fund, $150,000 was said to have been contributed by a Pittsburgh broker, and the remainder was represented by the sum obtained from the bank and smaller amounts from individuals.

Both men left the bank in a taxicab, Knapp taking the money with him, according to McCrady's report to the police. At a nearby corner McCrady left the automobile with the understanding, he said, that Knapp was to get the bonds and return to the bank within a short time. When the specified time passed and the bond salesman failed to appear McCrady said he did not become immediately alarmed, believing Knapp had been unavoidably detained. After the police were notified some hours later it was learned that Knapp's wife also was missing from their apartment.

Detectives said that they were told Knapp had received the money a week ago to make the deal, but returned it later with the explanation that he could not close negotiations at that time. The police were seeking to trace the bonds and their ownership, but some of the officers were skeptical whether any such securities existed.

Newspaper advices from Pittsburgh the present week stated that on Monday, Oct. 25, all but $30,500 of the $320,000 (the amount now said to have been taken by Knapp in the alleged bond fraud) had been found and was in the possession of the authorities. We quote below from a dispatch by the Associated Press from Pittsburgh on Oct. 25 printed in the "Times" of Oct. 26:

Missing since Oct. 15, when Charles E. Knapp, a bond salesman, got an investors' pool of $320,000 to buy Liberty bonds at bargain prices, the money was found buried to-day near the home of Edward Goodfellow, associate of Knapp.

Goodfellow was arrested when detectives traced to him a telephone call made by Knapp after he fled with the money in a small satchel. A previous search on Goodfellow's property produced one package of about $50,000, found buried near the garage. Under questioning, Goodfellow admitted the remainder of the cash was also buried there, and accompanied officers to his home and pointed out the various hiding places. Knapp, when arrested after his flight, insisted he was held up and robbed while he was on the way to obtain the bonds for the pool headed by R. A. McCrady, President of the Brotherhood bank.

Most of the money recovered was wrapped in tar paper and tied with twine. One roll was found buried in a milk bottle. It contained $175,000 in bills of large denomination.

Goodfellow said Knapp came to him the night of his disappearance and said he had closed a big bond deal and had been given the money after banking hours. The bond salesman gave him the money, Goodfellow said, and asked him to keep it for him. Goodfellow said he left his home and drove to his office after midnight and locked the money in his safe.

The next morning, he related, he saw newspaper accounts of the affair and knew he would get into trouble if he revealed he had the money. He said he remembered in a dazed sort of way of burying the money, but could not recall the exact circumstances.

Goodfellow was held under charges of accessory in larceny and receiving stolen goods. A hearing scheduled for to-day in the case of Knapp, McCrady and two other officers of the bank and a broker on various charges growing out of the case was postponed until Friday.

The Brotherhood Savings & Trust Co., said to be the only labor bank in Pittsburgh, was organized in 1923. At the time of the closing, it is understood, it had total deposits of $522,616 and total resources of $728,619.

That Frank H. Bessenger had tendered his resignation as President of the Guaranty Trust Co. of Detroit and that Frank G. Smith, a Vice-President of the First National Bank in Detroit, had been chosen as his successor was reported in the Detroit "Free Press" of Oct. 14. Mr. Smith, it was stated, had submitted his resignation to the First National Bank to become effective Jan. 8 1927, when he would have completed 40 years of service with the institution, and until that date would divide his attention between his duties at the First National and those of his new position. Mr. Bessenger, it was stated, while retiring from the presidency of the Guaranty Trust Co., would continue as a director. His resignation as an executive officer was influenced by his desire to have more time to devote to his other extensive interests as a member of the firm of Bessenger & Moore, real estate dealers, and in other matters. In announcing the resignation of Mr. Smith to accept the presidency of the Guaranty Trust Co., a statement issued on Oct. 13 from the office of Emory W. Clark, Chairman of the Board of the First National Bank, said in part:

Appreciating Mr. Smith's valuable service over this long period of years, Mr. Smith goes with the bank's best of well wishes to his new association with the Guaranty Trust Co. of Detroit.

Effective Monday, Oct. 18, the North Texas National Bank of Dallas took over the current active banking business of the Central National Bank of that city and of its affiliated institution, the Central Trust & Savings Bank. The enlarged bank is capitalized at $1,000,000, with surplus and undivided profits of $359,140; deposits of $11,689,303, and total resources of $14,612,868. The personnel of the institution, which includes the active officers of the Central banks, is as follows: Everett S. Owens, President; Charles S. Mitchell, J. W. Royall, Stanley A. Longmoor (and Cashiers), W. G. Kelly, Edward H. Cary and W. B. Head, Vice-Presidents; Ben C. Ball, Assistant Vice-President; D. W. Forbes, J. W. Massie, Benton L. Joyner and E. L. Prewitt, Assistant Cashiers, and J. L. Crosthwait, Auditor. The directorate has been enlarged by the addition of ten of the former directors of the Central banks. Among the latter is T. M. Cullum, former active First Vice-President of the Central banks. Mr. Cullum was reported in the Dallas "News" of Oct. 17 as saying that the real estate of the Central institutions, including the eight-story building on Main Street near Stone Street, surplus funds and other assets of the banks, amounting to about $1,000,000, were to be liquidated by a committee representing the stockholders. Mr. Cullum was also reported as saying that the Central Title & Guaranty Co., an associated institution of the Central banks, would be in no way affected by the change and would continue in business at its present quarters in the Central Bank Building. In commenting on the absorption of the Central banks, President Owens of the North Texas National Bank was quoted in the paper mentioned as saying:

In succeeding to the business of the Central National Bank and the Central Trust & Savings Bank, directors of the North Texas National felt that it would place this institution in a much better position to handle the business of its patrons in Dallas and the Southwest and to render a greater service through the enlarged facilities created by the acquisition of this additional business. The development of Texas and the Southwest demands larger financial institutions to handle their rapidly expanding business interests, and the enlarged North Texas National Bank will continue to lend its every effort toward this service to its community and clientele. To the thousands of new depositors who will come to us from the Central banks we offer every facility of banking, both in its commercial and savings branches.

The Central National Bank was organized in 1914 as the Central State Bank. In March of last year it became a national institution, with the formation at the same time of the Central Trust & Savings Bank as an affiliated institution. The North Texas National Bank succeeded the Southwest National Bank in May of last year.

A. N. Kemp, executive Vice-President of the California Bank of Los Angeles and President of the California Group Corporation (a subsidiary of the former) was recently elected a director of the National City Bank of Los Angeles which in June last was acquired by the California Bank, according to the Los Angeles "Times" of Oct. 21. Other California Bank

officials now members of the directorate of the National City Bank include, it is understood, A. M. Chaffry (President), G. Allan Hancock, Harry J. Bauer, and George A. J. Howard.

Rt. Hon. Lord Shaughnessy, second Baron Shaughnessy, was elected a director of the Canadian Bank of Commerce, in Toronto, on Oct. 22.

The 54th semi-annual statement of the Bank of Taiwan, Ltd. (head office Taipeh, Japan), as of June 30 1926, just received, shows total assets of yen 821,096,870, of which cash in hand, at bankers and bullion and foreign money amounted to yen 37,547,716. On the liabilities side of the statement, current accounts, fixed deposits, etc., are given as yen 232,136,786, bills payable yen 233,698,581 and bills rediscounted at yen 177,086,231. The bank's subscribed capital is yen 45,000,000 and its reserve funds amount to yen 1,626,404. Hirozo Mori is President.

THE WEEK ON THE NEW YORK STOCK EXCHANGE.

Speculative activity on the New York Stock Exchange again passed through a series of brisk upturns and sharp recessions during the present week. Interest centred largely in the two outstanding market leaders, United States Steel and General Motors, though the oils, public utilities, specialties and railroad issues have at times displayed considerable strength. The market again tuened upward in the brief session on Saturday and many of the more active speculative issued moved forward from 1 to 4 points. In the early trading General Motors yielded 2 points, but the price improved later in the day, and the close was at a net gain of 1⅜ points. Specialties also were in strong demand at rising prices, particularly United States Cast Iron Pipe & Foundry, which moved forward nearly 7 points to 203½. Trading was also brisk in United States Steel, which crossed 139 and ended the day with a gain of 2 points. Local traction stocks were among the outstanding strong features, Interborough Rapid Transit advancing 5 points, Brooklyn-Manhattan Transit moving forward 2⅞ points, and Third Avenue registereing a net gain of 3 points.

The market was somewhat irregular on Monday though the general trend was toward-higher levels. Some of the market leaders, particularly United States Steel common and General Motors, showed net losses at the close of the session, while, on the other hand, such stocks as Timken Roller Bearing, Eastman Kodak and American Linseed scored substantial gains. Trading was unusually light, and the turnover was the smallest of any full day since last July. Oil stocks were fairly steady in the early trading, but later eased off somewhat. Phillips Petroleum and General Asphalt going lower, and Texas Co. showing a fractional advance. Railroad stocks were irregular, most of the Southern stocks moving downward, while such issues as Baltimore & Ohio, and New Haven were in active demand at improving prices. The outstanding feature of the market on Tuesday was the strength of certain railroad stocks, particularly those of the dividend-paying class such as Norfolk & Western, which moved up 1⅜ points to 167⅝, and Atchison, Southern Pacific and Union Pacific, all of which scored substantial gains. Mercantile stocks were active and strong, expecially Montgomery Ward, Sears-Roebuck, May Department Store and R. H. Macy. In the final hour the market turned irregular and the trend generally downward.

Under the leadership of United States Steel and General Motors the market moved vigorously upward on Wednesday, some of the more active speculative stocks advancing as much as 3 points. The favorable earnings statements of the two market leaders stimulated speculative enthusiasm in the general list, and for a time the market was positively buoyant. Railroad stocks were especially strong and substantial gains were recorded by Pennsylvania, Southern Railway, Cheaspeake & Ohio, Atlantic Coast Line, New Haven, Baltimore & Ohio, Atchison, Southern Pacific and Union Pacific. Both the Pennsylvania RR. and Norfolk & Western increased their dividends. United States Steel common moved forward to 140⅜ and General Motors sold as high as 149⅞. On Thursday stocks were fairly strong and active until the final half-hour, when a wave of selling came into the market and practically all of the gains of the early trading were lost. The recessions were particularly sharp in the railroad group, Nickel Plate moving down nearly 3 points, Atlantic Coast Line 2¼ points, Norfolk & Western 1⅞ points, and Baltimore & Ohio 1⅛ points. Oil shares were firm, Mexican Petroleum advancing a point and Producers & Refiners gaining over 2 points. United States Steel common at its high for the day touched 142, but slipped back to 139⅞. General Motors gained 3 points but receded to 150¼ in the final hour, and du Pont advanced 7 points and yielded 5½. The market was irregular on Friday and prices moved within narrow limits. General Motors was under strong pressure and receded 2 points, and United States Steel dropped to 139½. Railroad stocks were in good demand at improving prices, particularly Southern Pacific, which recorded a net gain of 2 points. Shortly after midsession a brisk rally developed in the oil group, Pan American B spurting forward 1⅜ points to 64⅜. The final tone was good.

COURSE OF BANK CLEARINGS.

Bank clearings the present week will again show a decrease compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ending to-day (Saturday, Oct. 30), bank exchanges for all the cities of the United States from which it is possible to obtain weekly returns will be 5.9% smaller than for the corresponding week last year. The total stands at $9,248,923,016, against $9,827,465,083 for the same week in 1925. At this centre there is a loss for the five days of 8.8%. Our comparative summary for the week is as follows:

Clearings—Returns by Telegraph. Week Ended Oct. 30.	1926.	1925.	Per Cent.
New York	$4,094,000,000	$4,487,426,215	—8.8
Chicago	500,568,997	527,474,352	—5.1
Philadelphia	474,000,000	468,000,000	+1.3
Boston	396,000,000	371,000,000	+6.7
Kansas City	130,442,038	114,409,532	+14.0
St. Louis	116,900,000	128,100,000	—8.8
San Francisco	146,071,000	174,393,000	—16.2
Los Angeles	132,318,000	123,856,000	+6.8
Pittsburgh	149,950,057	146,286,926	+2.5
Cleveland	95,067,207	93,855,005	+1.3
Detroit	147,560,700	138,858,232	+6.3
Baltimore	89,346,682	94,614,627	—5.6
New Orleans	63,068,821	66,118,524	—4.6
Thirteen cities, 5 days	$6,535,293,502	$6,934,392,413	—5.8
Other cities, 5 days	1,172,142,345	1,113,298,020	+5.3
Total all cities, 5 days	$7,707,435,847	$8,047,690,433	—4.2
All cities, 1 day	1,541,487,169	1,779,774,650	—13.4
Total all cities for week	$9,248,923,016	$9,827,465,083	—5.9

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday), and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results *for the previous week*—the week ended Oct. 23. For that week there is a decrease of 0.9%, the 1926 aggregate of clearings being $10,398,055,829 and the 1925 aggregate $10,496,154,330. Outside of New York City there is an increase of 3.0%, the bank exchanges at this centre having shown a loss of 3.7%. We group the cities now according to the Federal Reserve districts in which they are located, and from this it appears that in the Boston Reserve District there is an improvement of 36.2% and in the Philadelphia Reserve District of 5.9%, but in the New York Reserve District (including this city) there is a falling off of 3.7%. The Cleveland Reserve District has a gain of 4.4%, the Kansas City Reserve District of 0.7% and the Dallas Reserve Dis-

trict of 2.7%. The Richmond Reserve District shows a loss of 10.0%, the Atlanta Reserve District of 20.8% (mainly due to the falling off at the Florida points, Jacksonville having a decrease of 35.2% and Miami of 77.1%), and the Chicago Reserve District of 1.2%. For the St. Louis Reserve District the totals are smaller by 1.0%, for the Minneapolis Reserve District by 5.0% and for the San Francisco Reserve District by 5.2%.

In the following we furnish a summary by Federal Reserve districts.

SUMMARY OF BANK CLEARINGS.

THE CURB MARKET.

Beyond some slight improvement in prices in the fore part of the week, which soon gave way to an irregular tendency, there was nothing of interest in Curb Market trading this week. Business was very dull. Oil stocks were about the only issues to show any activity Vacuum Oil was a feature, advancing from 90¾ to 98¼, the close to-day being at 97¼ Buckeye Pipe Line rose from 42⅝ to 44 Continental Oil improved from 17½ to 18⅞, and ends the week at 18⅝ Cumberland Pipe Line was off from 105¾ to 102, but recovered finally to 104 Humble Oil & Refining sold up from 52¾ to 56¼ and at 55¼ finally Ohio Oil advanced from 57⅜ to 58¾ and sold finally at 58½ Standard Oil (Indiana) moved up from 61⅝ to 64⅛ and closed to-day at 64. Standard Oil of N. Y. gained over a point to 31⅞. Amer. Maracaibo Oil improved from 4½ to 6⅞ and sold finally at 6¾. Carib Syndicate rose from 16⅜ to 19 and closed to-day at 18⅛. Creole Syndicate improved from 12⅝ to 13⅞, the final transaction to-day being at 13⅝. Gulf Oil of Pa. sold up from 86⅛ to 90. Among industrials E. I. du Pont de Nemours & Co. sold up from 155¼ to 159⅞ in the fore part of the week, later transactions being on the New York Stock Exchange. Glen Alden Coal advanced from 176 to 178⅞ and ends the week at 178¾. Penn.-Dixie Cement common moved up from 36¾ to 39½. Elsewhere changes were small. Public utilities were dull and irregular. American Light & Traction common gained about seven points to 210 and closed to-day at 209. Columbia Gas & Electric advanced from 82 to 85¼ and reacted finally to 83.

A complete record of Curb Market transactions for the week will be found on page 2248.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Oct. 13 1926.

GOLD.

The Bank of England gold reserve against notes on the 6th inst. amounted to £153,285,935, as compared with £154,262,575 on the previous Wednesday About £666,000 bar gold was available in the open market this week and of this the Continent secured over £600,000 the small balance being taken by India and the trade. Movements of gold to and from the Bank of England have been announced since our last issue as follows:

	Oct. 7.	Oct. 8.	Oct. 9.	Oct. 11.	Oct. 12.	Oct. 13.
Received	------	------	------	------	------	------
Withdrawn	£133,000	------	£403,000	£37,000	£31,000	£141,000

The bulk of the withdrawals was in bar gold. The £47,000 sovereigns withdrawn were destined as follows: £25,000 to France, £17,000 to Switzerland, £5,000 to Spain. The withdrawals from the Bank of England during the week under review totalled £745,000, decreasing the net influx since Jan. 1 1926 to £9,129,000, and increasing the net efflux since the resumption of an effective gold standard to £2,466,000. United Kingdom imports and exports of gold during the week ending the 6th inst. were:

Imports.		Exports.	
Netherlands	£15,400	Germany	£1,006,775
British South Africa	488,808	Straits Settlements	11,950
Other countries	4,374	Other countries	552
	£508,582		£1,019,277

During the month of September last the United Kingdom imports and exports of gold were as follows:

	Imports.	Exports.
Netherlands	£10,750	£111,055
Belgium	------	800
France	127	84,040
Switzerland	------	83,600
Spain and Canaries	------	10,000
Egypt	------	6,900
West Africa	182,209	489
Argentina, Uruguay and Paraguay	------	15,000
Other South American countries	10,545	5,000
Rhodesia	182,110	------
Transvaal	2,104,219	------
British India	------	107,470
Straits Settlements	------	117,725
Germany	------	330,535
Ceylon	------	54,500
Austria	------	45,900
Other countries	3,627	57,965
Total	£2,493,587	£1,030,979

The Transvaal gold output for September 1926 amounted to 839,939 fine ounces, as compared with 843,854 fine ounces for August 1926 and 797,247 fine ounces for September 1925.

SILVER.

The lower range of prices recently reached has elicited a certain amount of Indian bear covering. Operators for a fall have been so prominent in the Indian Bazaars that some naturally have chosen to make sure of their profits even though an apprehension exists there and elsewhere that bottom prices may not yet have been touched. Business has been fairly active especially when prices seemed inclined to ease. The attitude of America is often very puzzling. Notwithstanding the fact that it has to provide for the disposal of most of the production on that side of the globe—almost three-quarters of the world's output—it has been again more disposed to buy from London than to sell here. As regards future prospects bear covering at best is only a temporary support: the future of silver depends on the long run on the absorptive power of the Far East. Hence the offtake in India and the imports of silver into China are the most important factors, in view of a possible superabundance of supplies now that coinage is abandoned generally, except in China.

United Kingdom imports and exports of silver during the week ending the 6th inst. were:

Imports.		Exports.	
United States of America	£47,175	Germany	£41,790
Canada	18,900	British India	93,838
Other countries	931	Other countries	14,175
	£67,006		£149,803

INDIAN CURRENCY RETURNS.

(In Lacs of Rupees)—	Sept. 22.	Sept. 30.	Oct. 7.

Philadelphia Banks.—The Philadelphia Clearing House return for the week ending Oct. 23, with comparative figures for the two weeks preceding, is given below. Reserve requirements for members of the Federal Reserve System are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legal reserve. For trust companies not members of the Federal Reserve System the reserve required is 10% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

Contingent liability on bills purchased for foreign correspondents	10,463,000	11,228,000	9,882,000

NOTE.—Beginning with the statement of Oct. 7 two new items were added in order to show separately the amount of balances held abroad and amounts due to foreign correspondents. In addition, the caption, All other earning assets," now made up of Federal intermediate credit bank debentures, has been changed to "Other securities," and the caption, "Total earning assets" to "Total bills and securities." The latter term has been ad pted as a more accurate description of the total of the discounts, acceptances and ecurities acquired under the provisions of Sections 13 and 14 of the Federal Reserv Act, which are the only items included herein

Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Thursday afternoon, Oct. 28, and showing the condition of the twelve Reserve banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. *The Reserve Board's comment upon the returns for the latest week appears on page* 2200, *being the first item in our department of "Current Events and Discussions."*

NOTE.—Beginning with the statement of Oct. 7 1925, two new items were added in order to show separately the amount of balances held abroad and amounts due to foreign correspondents. In addition, the caption, "All other earning assets," now made of Foreign Intermediate Credit Bank debentures, has been changed to "Other securities," and the caption, "Total earning assets" to "Total bills and securities." The latter item has been adopted as a more accurate description of the total of the discounts, acceptances and securities acquired under the provisions of Sections 13 and 14 of the Federal Reserve Act, which are the only items included therein.

*Revised figures.

Weekly Return for the Member Banks of the Federal Reserve System.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the 692 member banks from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. Definitions of the different items in the statement were given in the statement of Dec. 12 1917, published in the "Chronicle" of Dec. 29 1917, page 2523. *The comment of the Reserve Board upon the figures for the latest week appears in our Department of "Current Events and Discussions," on page* 2201

Note.—The above table includes only sales of coupon bonds. Transactions in registered bonds were.

8 1st 4¼s ..... 102[2]/[32] to 102[4]/[32] | 8 3d 4¼s ..... 101[1]/[32] to 101[1]/[32]
16 2d 4¼s ..... 100[14]/[32] to 100[16]/[32] | 167 4th 4¼s ..... 102[2]/[32] to 102[10]/[32]

Foreign Exchange.—Sterling exchange was quiet and slightly easier on increased offerings. Continental exchange was strong, though not especially active, with francs, lire and Norwegian krone all scoring good gains.

To-day's (Friday's) actual rates for sterling exchange were 4 84@4 84 5-16 for checks and 4 84¼@4 84 13-16 for cables. Commercial on banks, sight, 4 84⅛@4 84 3-16; sixty days, 4 80⅛@4 80 3-16; ninety days, 4 78 @4 78 5-16, and documents for payment (sixty days), 4 80⅛@4 80 7-16; cotton for payment, 4 84⅛@4 84 3-16, and grain for payment, 4 84⅛@4 84 3-16.

To-day's (Friday's) actual rates for Paris bankers' francs were 3.13@3.15½ for short. German bankers' marks are not yet quoted for long and short bills. Amsterdam bankers' guilders were 39.92½@39.94 for short.

Exchange at Paris on London, 154.15 fr.; week's range, 154.15 fr. high and 158.85 fr. low.

The range for foreign exchange for the week follows:

Sterling Actual	*Checks.*	*Cables.*
High for the week	4 84⅛	4 84⅛
Low for the week	4 84 3-16	4 84 1-16
Paris Bankers' Francs—		
High for the week	3.16½	3.17½
Low for the week	3.00½	3.01½
Germany Bankers' Marks—		
High for the week	23.77¼	23.79¼
Low for the week	23.75	23.77
Amsterdam Bankers' Guilders—		
High for the week	39.98	40.00
Low for the week	39.96	39.98

Domestic Exchange.—Chicago, par. St. Louis, 15@25c. per $1,000 discount. Boston, par. San Francisco, par. Montreal, $1.09375 per $1,000 premium. Cincinnati, par.

The Curb Market.—*The review of the Curb Market is given this week on page* 2223.

A complete record of Curb Market transactions for the week will be found on page 2248.

CURRENT NOTICES.

—The results of what is believed to be the first concerted effort by practical authorities to collect and catalogue available information and data for the purpose of increasing the efficienty of investment advertising are now ready in published form, it is announced by C. H. Handerson, President of the Financial Advertisers' Association. The Investment Department Research Committee of the Association, of which A. E. Bryson, Vice-President and Director of Advertising of Halsey, Stuart & Co., is Chairman, has spent, we are informed, approximately a year in making a complete survey of the investment advertising field, and much of what was learned is incorporated in this report, which is divided into four subjects, each handled by a special sub-committee. The chairmen of the various sub-committees are as follows: Market, H. G. Hodap, Advertising Manager, National City Co., New York; Media, H.B. Matthews, Advertising Manager, S. W. Straus & Co., New York; Methods, Paul T. Bollinger, Harris, Small & Co., Detroit; Direct Mail, Edmond Bowshelle, A. B. Leach & Co., New York. It is expected that this work will be used as the basis for the new text book on financial advertising to be sponsored by the Financial Advertising Association. All the members of the Investment Bankers Association will receive a copy of the Research Committee's report. Those interested in receiving a copy but who are not members of the I. B. A. or the F. A. A., may obtain copies through Preston E. Reed, Secretary, Financial Advertisers' Association, 231 South LaSalle St., Chicago.

New York Curb Market.—Below is a record of the transactions in the New York Curb Market from Oct. 23 to Oct. 29, both inclusive, as compiled from the official lists. As noted in our issue of July 2 1921, the New York Curb Market Association on June 27 1921 transferred its activities from the Broad Street curb to its new building on Trinity Place, and the Association is now issuing an official sheet which forms the basis of the compilations below.

CURRENT NOTICES.

—Miller, Franklin, Basset & Co., engineers and accountants, announce that their division of public accounting is now represented in Berlin, Vienna, Prague, Budapest and Zurich with a principal office at 80, Bishopsgate, London, E.C. 2, England.

—Harold J. Browne, formerly with John Nickerson & Co., and Albert E. Marsh, formerly of A. E. Marsh & Co., announce the formation of the firm of Browne & Marsh, with offices at 25 Pine Street, New York, to continue the general investment business heretofore conducted by A. E. Marsh & Co

—Chatham Phenix National Bank & Trust Co. has been appointed trustee under trust indenture of the Consolidated Cigar Corporation, dated Oct. 15 1926, securing an issue of $10,000,000 10-year 6% sinking fund convertible gold notes, due Oct. 15 1936.

—Henry Hentz & Co. have issued a circular setting forth the investment possibilities of cotton at present price levels. It is pointed out that low prices stimulate consumption and that with reduced yields and greater use the staple will go higher.

—Ralph B. Leonard & Co., 25 Broad St., New York, specialists in bank stocks, have prepared a new analysis of the new Sept. 30 statements of the New York City banks, showing comparative earnings for the past three years.

Hodenpyl Hardy Securities Corp. have prepared an analysis on the asset value and earning power of the Union Pacific system and its investments in the securities of other railroads.

—Guaranty Trust Co. of New York has been appointed transfer agent for the class A common stock, no par value, and cumulative first preferred 6% series, $50 par value, of the Second International Securities Corporation.

—The Bank of America has been appointed registrar of 120,000 shares of class A common and 120,000 shares of cumulative first preferred 6% stock of the Second International Securities Corporation.

—Tobey & Kirk, members of the New York Stock Exchange, announce that Frank S. Shaw and Wilbur F. Preston are now associated with them in their unlisted department.

—Irving Bank & Trust Co. has been appointed transfer agent of the first preferred, second preferred and common stock of the Indiana Consumers Gas & By-Product Co.

—Hodgson, Benjamin & Healey, 150 Broadway, New York, announce that George W. Kirtland, formerly with Horwitz & Co., has become associated with them in their trading department.

—Dresser & Escher of New York City announce that Allan C. Neuroth, formerly with Hambleton & Co., has become associated with them.

—The Empire Trust Co. has been appointed transfer agent of the preferred stock and common stock of the Associated Utilities Corp.

—H. D. Walbridge Co., Inc., 14 Wall St., New York, have prepared an analysis on Fidelity Trust Co. of New York.

—Boland & Preim, 49 Wall Street, New York, announce that J. E. McKeon has joined their sales organization.

Latest Gross Earnings by Weeks.—In the table which follows we sum up separately the earnings for the third week of October. The table covers 14 roads and shows 5.22% increase in comparison with the same week last year.

Third Week of October.	1926.	1925.	Increase.	Decrease.
	$	$	$	$
Buffalo Rochester & Pittsburgh	406,746	375,761	30,985	------
Canadian National	6,299,542	6,050,783	248,759	------
Canadian Pacific	5,084,000	4,508,000	576,000	------
Duluth South Shore & Atlantic	116,024	116,696	------	672

Phillips Petroleum Co. (& Subsidiaries).

(*Results for Quarter and Nine Months Ended Sept.* 30 1926.)

Pres. Frank Phillips, in a report to the directors, gives the results of operations for the past quarter and the nine months of this year, with some comparisons. Pres. Phillips says:

Oil Division.—171 successful completions were made during the quarter and eight wells were purchased, making a total of 2,154 wells in operation on Sept. 30 1926, located on 374 properties comprising 57,402 acres. In the nine months the company had 358 successful completions and 73 unsuccessful completions. The dry holes were equal to about 17% of the total wells drilled in comparison to an average of nearly 34% for the Mid-Continent area as a whole. Properties on which were located 85 wells have been purchased during the nine months, which makes a net increase of 395 wells and 87 new producing properties comprising 14,096 acres during this period. Successful completions for the first nine months of 1926 shows an increase over the same period of 1925 of 179 wells on 48 producing properties.

The company's present policy is to drill only offset wells for the protection of its oil and gas reserves from drainage, or wells where lease contracts require drilling. At present 198 wells are either drilling or authorized, which program must of necessity be indefinitely continued since the company has more than 2,500 known prove location to be drilled. In the Panhandle district alone the company has 15,000 acres in the proven area of the pool, which will require a large expenditure to develop. Because of inadequate transportation facilities and the present unsatisfactory price for oil produced in this territory, the company is storing the major part of this production, which not only requires an additional investment for facilities for storing the oil but deprives us of a large amount of cash income.

At present we are engaged in the transfer of 3,000,000 barrels of empty steel storage from Burbank and other districts to the Panhandle area in Texas. The program here will probably be doubled between now and spring. In order to fully protect these properties we must continue with the drilling of the wells and the storage of part of the oil until such time as it can be moved at a price more commensurate with its value. In addition to the Panhandle area, the company's large block of acreage in Wilbarger County, Texas, must be developed on account of leasehold requirements.

The company recently discovered a well of approximately 1,000 barrels per day of 39 gravity oil at 2,500 ft. in Jones County, Texas, on a block of some 6,300 acres. This property will also require some further drilling. In addition to the above major situations the company has proven acreage in many other pools which must be developed to protect it from drainage. Taking the situation as a whole our expenditures for development will be nearly as large for the coming nine months as they have been for the past nine months.

Net production of crude oil for the quarter was 4,568,115 barrels; a daily average of 49,653 barrels, compared with a daily average of 32,535 barrels for the preceding quarter and 27,101 for the third quarter of last year. Net production for the nine months of 1926 was 9,777,709 barrels, a daily average of 35,725 compared with 7,144,285 barrels, a daily average of 26,154 barrels for the same period of last year.

Present production of 78,000 barrels gross and 63,000 barrels net per day is 77% greater than the average for the first nine months of this year and 140% greater than the average for the same period of 1925.

Inventories of crude in storage on Sept. 30 1926 amounted to 1,934,094 barrels. Stored oil in all districts except Burbank and Panhandle has been sold. At the present rate we are reducing Burbank storage all tanks will be practically empty by Jan. 1 1927.

Natural Gasoline Division.—On Sept. 30 1926 there were 36 permanent natural gasoline plants in operation which is a net increase during the quarter of one plant, and an increase of five for the 9 months. There are several other plants or additions being built now, which will be completed during the next quarter, thereby materially increasing our production. The largest of these being the Johnson plant in the Panhandle.

The third quarter's production amounted to 41,217,456 gallons, a daily average of 448,016 gallons, compared with 435,858 gallons for the preceding quarter and 335,571 gallons for the third quarter of last year.

Total production for the 9 months was 118,338,818 gallons compared with 83,459,502 gallons for the same period of last year, which is an increase of nearly 42%.

The total volume of gas put through plants during the first 9 months of this year was 64,347,693,000 cu. ft. compared with 55,552,806,000 cu. ft. during the same period of 1925. The average yield per thousand cu. ft. during the 9 months of 1926 was nearly 23% greater than for the corresponding period of 1925.

Inventories of natural gasoline on Sept. 30 1926 amounted to 5,904,890 gallons, a decrease of 3,673,261 gallons during the quarter. We have continued up to this date to decrease inventory and it is now little more than a working balance.

Gas Division.—The total sales of the Gas Division during the quarter were 17,923,498,000 cu. ft. compared with 15,011,865,000 cu. ft. last quarter and 16,342,949,000 cu. ft. during the third quarter of last year. Total sales for the 9 months of this year were 47,675,816,000 cu. ft. compared with 44,513,987,000 cu. ft. during the same period of last year. The average sales price for this year was nearly 25% greater than for corresponding period last year. We are now operating 16 booster plants which are delivering on an average of 42,338,000 cu. ft. of gas daily. The balance of gas sales is coming from dry gas wells.

Land and Geological Division.—The Land Department acquired 54,227 net acres, and sold, released or assigned 21,515 acres—making a net increase of 32,712 acres during the quarter and an increase of 37,449 net acres during the 9 months this year. The total acreage owned or controlled as of Sept. 30 1926 was 648,387 acres located in Oklahoma, Kansas, Texas, Kentucky, Louisiana and Arkansas.

Record Earnings.—The company's net earnings for the quarter after all charges including interest, Federal and State tax reserves, but before depletion and depreciation, were $10,626,579, which is the largest in its history. This is comparable with $8,079,752 in the preceding quarter and $5,556,275 in the third quarter of last year.

RESULTS FOR 9 MONTHS ENDED SEPT. 30.

	1926.	1925.
Income from oil	$24,769,825	$15,326,277
do gasoline, gas & miscellaneous	15,186,128	11,164,640
	$39,955,953	$26,490,917
Operating expenses	9,367,819	6,969,587
General & administrative expenses	1,488,682	1,138,659
Interest & taxes	852,870	1,069,901
Reserve for abandoned leases, Federal taxes, &c., contingencies	3,418,986	1,300,000
Estimated depreciation & depletion	9,066,604	6,685,078
Dividends	5,413,356	2,850,270
Net earnings available for surplus	$10,347,636	$6,477,422

During the current quarter company set aside $1,300,000 for abandoned leases, Federal taxes and contingencies, making a total of $3,418,986 reserve for these items during first three quarters. After the above deductions, earnings for the common stock were $10 31 per share, before the bookeeping item of $9,066,604 estimated depletion and depreciation, leaving $15,760,992 available for common stock, which is equivalent to $6 55 per share on the 2,407,082 shares outstanding.

Sept. 30 balance sheet reflects current assets as being over three times current liabilities and about double total indebtedness. Although expenditures in the 9 months for capital account have been larger than ever before the company is still free of bank or other indebtedness, with the exception of purchase money obligations and current bills for materials and equipment. Looking into the future as far as it is possible to see in the industry we do not contemplate any necessity for borrowing or financing.

Your attention is invited to the major item of nearly 28,500,000 additions to capital assets which were made during the first 9 months of this year. In the opinion of the management these large expenditures have been justified as evidenced by increases reflected in above comparisons, together with added and increased reserves in which investments we have been most fortunate and which we confidently believe are conservatively worth $50,000,000 over and above costs. These values together with nearly $25,000,000 of cash earnings from operation reflect a situation we hope you will feel justified our procedure.

GENERAL INVESTMENT NEWS

STEAM RAILROADS.

Board of Arbitration under Watson-Parker Law Begins Hearings in Wage Increase Demands of Conductors and Trainmen on Eastern Railroads.—"New York Times" Oct. 29, p. 25.

Car Surplus.—Class I railroads on Oct. 15 had 86,932 surplus freight cars in good repair and immediately available for service, according to reports filed by the carriers with the Car Service Division of the American Railway Association. This was a decrease of 13,137 cars compared with Oct. 8, at which time there were 100,069. Surplus coal cars in good repair on Oct. 15 totaled 16,453, a decrease of 3,741 within approximately a week, while surplus box cars totaled 48,295, a decrease of 7,072 cars during the same period. Reports also showed 11,742 surplus stock cars, a decrease of 666 cars below the number reported on Oct. 8 while surplus refrigerator cars totaled 4,117, a decrease of 1,298 cars within the same previous period.

New Equipment.—Locomotives installed by the Class I railroads of this country the first nine months this year totaled 1,664, the Car Service Division of the American Railway Association has announced. This was an increase of 322 locomotives over the number installed during the corresponding period last year and 7 locomotives over the number installed during the corresponding period in 1924. Locomotives on order on Oct. 1 this year totaled 443, compared with 237 on the same date last year and 285 on the same date in 1924.

Freight cars installed in service the first nine months this year totaled 85,383, a decrease of 28,432 under the corresponding period in 1925, and a decrease of 35,344 under the corresponding period of 1924. Of the total number installed during the nine months period this year, 8,158 were installed during the month of September, including 3,646 box cars, 3,313 coal cars and 468 refrigerator cars. Class I railroads on Oct. 1 had 16,846 freight cars on order compared with 21,055 on the same date last year and 49,702 on the same date in 1924.

These figures as to freight cars and locomotives include new and leased equipment.

Repair of Freight Cars.—Freight cars in need or repair on Oct. 1 totaled 149,078 or 6.5% of the number on line, according to reports filed by the carriers with the Car Service Division of the American Railway Association. This was a decrease of 11,419 cars under the number reported on Sept. 15 at which time there were 160,497 or 7%. It also was a decrease of 30,493 cars compared with the same date last year. Freight cars in need of heavy repair on Oct. 1 totaled 114,167 or 5%, a decrease of 6,893 cars compared with Sept. 15, while freight cars in need of light repair totaled 34,911 or 1.5%, a decrease of 4,526 cars compared with Sept. 15.

Repair of Locomotives.—Locomotives in need of repair on Oct. 1 totaled 8,889 or 14.2% of the number on line, according to reports filed by the carriers with the Car Service Division of the American Railway Association. This was a decrease of 497 locomotives under the number in need of repair on Sept. 15, at which time there were 9,386 or 15%. Of the total number of locomotives in need of reapir on Oct. 1 this year, 4,703 or 7.5% were in need of classified repairs, a decrease of 323 compared with Sept. 15, while 4,186 or 6.7% were in need of running repairs, a decrease of 174 compared with the number in need of such repairs on Sept. 15. Serviceable locomotives in storage on Oct. 1 totaled 4,680 compared with 5,086 on Sept. 15.

Matters Covered in "Chronicle" Oct. 23: (a) Report of RR. Securities Committee of Investment Bankers Association—Adverse decision in western freight rate case.—p. 2079.

Baltimore & Ohio RR.—*Control of Hamilton Belt Ry.*—The I.-S. C. Commission on Oct. 11 approved and authorized the acquisition by the company of control of the railroad of the Hamilton Belt Ry. under an operating contract. The report of the Commission says in part:

All of the capital stock and funded indebtedness of the Belt company is owned by the applicant, either directly or through its subsidiaries. The Belt company does not own any equipment and has no operating organization. Since 1917, and before that time, the line has been operated by the applicant for the account of the Belt company. Connection between the two railroads is made through trackage rights over the Cincinnati, Indianapolis & Western RR. between Hamilton and West Hamilton Jct., 1½ miles.

Under the present method of operation the Belt company is required to keep separate accounts, to file tariffs and reports, and to maintain interchange accounting records. The two companies propose to enter into a contract under which the applicant will continue to operate the railroad, but as a part of its own system. The contract provides that the applicant shall receive all the revenues; that it shall furnish all money necessary to properly operate, maintain, and keep in repair the properties of the Belt company, to make any necessary improvements, additions, and betterments, to pay all taxes, assessments, and charges, interest on the indebtedness of the Belt company, and the necessary expenses of maintaining the Belt company's corporate organization. The contract is to continue in force until terminated by either party upon 6 months' notice.

Control of Dayton & Union RR. Approved.—The Commission on Oct. 16 approved the acquisition by the company of control of the railroad of the Dayton & Union RR. under an operating contract. The report of the Commission says in part:

The Dayton owns a line of railroad extending from Union City, Ind., in a general southeasterly direction to Dodson, Ohio, 31.94 miles. Entrance into Dayton, Ohio, 15.05 miles east of Dodson, is secured by trackage rights over a line of the Pennsylvania System. In 1917 the Toledo & Cincinnati RR., which is controlled by the B. & O. through ownership of its entire capital stock, acquired 880 shares or about 50.99% of the Dayton's capital stock. On May 15 1925 the B. & O. acquired from the New York Central RR. 770 additional shares, of a par value of $50 each, at a price of $100 a share, and now owns, either directly or through its subsidiary, about 95.60% of the total outstanding capital stock of the Dayton. The owners of the remaining 76 shares are unknown. These shares are evidenced by certificates issued from 1863 to 1871. At the hearing it was represented on behalf of the B. & O. that if the owners of the 76 shares should be discovered, it would be willing to acquire their stock at a price at least equal to that paid to the New York Central for its holdings.

New Joint Terminal at Philadelphia to Be Opened Nov. 1.—The Baltimore & Ohio and the Reading Company announce the opening Nov. 1 1926 of the Philadelphia Perishable Products Terminal, Philadelphia, Pa., a new agency station to be operated jointly by both companies. Commencing on that date the citrus and deciduous fruit auction heretofore conducted on Baltimore & Ohio Pier 22, South Wharves, Phila., will be transferred to the new Auction Sales Building, which is part of the facilities offered. The facilities at this terminal consist of: Auction Sales Building, Private Sales Building and Cold Storage Warehouse (this unit now under construction), and team delivery yard.

This terminal is served only by the rails of the Baltimore & Ohio RR. Co. and the Reading Co., and is located in the heart of the City of Philadelphia, Pa., between Delaware Ave. and Weccacoe Ave., extending from Jackson St. to Ritner St., an area of approximately 23 acres, and will be devoted exclusively to the handling of fruits, vegetables, dairy freight and other perishable traffic. This station is equipped with all modern facilities for the efficient handling and prompt delivery of such traffic.

F. X. Milholland, assistant to senior vice-president, announces that the company will open a new passenger terminal in Brooklyn, N. Y., about the middle of November. The new station will be on the ground floor of the Central Building on Joralemon St., near Court St., right in the heart of the business district of Brooklyn and close to Borough Hall. From this station the company will operate to and from all trains motor coach service directly alongside of trains in Jersey City, similar to that which has been in operation in Manhattan since Aug. 29.—V. 123, p. 1757.

Bartlett Western Ry.—*Final Valuation.*—The I.-S. C. Commission has placed a final valuation of $240,000 on the owned and used property of the company as of June 30 1918.—V. 121 .p. 1097.

Central RR. of New Jersey.—*Changes in Personnel.*—R. B. White has been elected President, succeeding William G. Besler, who has been elected Chairman of the Board and of the Executive Committee. Arthur Hamilton has been elected Vice-President in charge of Freight Traffic, succeeding T. B. Koons, resigned.—V. 123, p. 1379.

Chicago Milwaukee & St. Paul Ry.—*Minority Lose Appeal.*—The U. S. Circuit Court of Appeals, sitting in Chicago, Oct. 28, filed a decision denying the application of the Jameson bondholders' committee for leave to appeal from the order recently handed down by Judge James H. Wilkerson of the U. S. District Court, denying the Jameson committee intervention in the foreclosure proceedings pending in the Federal Court in Chicago, brought by the Guaranty Trust Co. of New York and Merrel P. Callaway as trustees under the gen. & ref. mtge. of the Chicago Milwaukee & St. Paul Ry., and the United States Trust Co. of New York and Edward W. Sheldon as trustees of the 1st mtge. of the Chicago Milwaukee & Puget Sound Ry.

Last week the Jameson committee through its counsel, ex-Governor Nathan L. Miller, argued at length before the U. S. Circuit Court of Appeals the various claims of the committee which had been passed upon and denied by the District Court. He endeavored to obtain leave to file a petition praying for the issuance by the Circuit Court of Appeals of an

order to show cause why a writ of mandamus should not be issued against the District Judge before whom the foreclosure proceedings have been pending since June 1925, compelling him to permit the Jameson committee to intervene in these proceedings. The Guaranty Trust Co. of New York and Merrel P. Callaway, as trustees of the general and refunding mortgage of the railway company, appeared in the mandamus proceedings against the District Judge, through their attorneys, Edwin S. S. Sunderland of New York and Horace Kent Tenney of Chicago. The United States Trust Co. of New York and Edward W. Sheldon were represented by William A. W. Stewart of New York and William B. Hale of Chicago.

The counsel for the Jameson committee repeated the various charges that had been made before the District Court.

The decision handed down by the Circuit Court of Appeals, without opinion, is the decision of the entire Court, consisting of Judges Alschuler, Page and Anderson. Counsel for the Jameson committee argued that the District Judge Wilkerson erred in his decision denying intervention, particularly since he did not grant the request of the committee that the Kuhn Loeb-National City Co. plan of reorganization be brought before the Court and its fairness determined prior to the sale of the property of the Chicago Milwaukee & St. Paul Ry. Co. The sale of this property is now being advertised throughout the country. Advertisements thereof appeared for the first time on Monday, Oct. 25. The sale will take place at Butte, Mont., on Nov. 22 1926.

The decision of the Circuit Court of Appeals, in effect, finds that the various claims and charges which have been made by the Jameson committee have not been sustained and that the action of District Judge Wilkerson in refusing intervention was correct. In speaking of the conduct of the foreclosure proceedings by the trustees and in commenting upon the charges of the Jameson committee, District Judge Wilkerson said in his opinion filed on Sept. 28 1926: "The charges in the petition for intervention have not been sustained. The trustees have acted in strict accordance with their duties under the terms of the mortgages and indentures of which they are trustees. . . . To a very high degree the trustees have acted in the interest of all the bondholders, giving due effect to the terms of the mortgages and indentures which are binding upon trustees and all bondholders alike. Under the terms of the mortgages and indentures the majority bondholders were entitled to the decree which has been entered."

In reference to the final decree of foreclosure and sale under the terms of which the sale will take place, the District Court said: "It would seem impossible to draft a decree which more completely safeguards the rights of stockholders and bondholders."

Sale of Road Set for Nov. 22.—Herbert A. Lundahl has been appointed special master by Judge Wilkerson to sell the entire road, equipment, &c., on Nov. 22 next at Butte, Mont. The upset price has been fixed at $122,500,000.

Federal Judge Wilkerson, at Chicago, has approved the application of the receivers of this company to expend approximately $800,000 for improvements, including roller bearings for 127 sleeping cars. The order for roller bearings involves $282,900 and was placed with Timken Roller Bearing Co.—V. 123, p. 1994.

Consolidated Railroads of Cuba.—*Listing.*—

The New York Stock Exchange has authorized the listing of $39,984,300 6% cumulative preferred stock (par $100), with authority to add to the list $15,700 additional, making the total amount applied for $40,000,000 (total authorized amount).

Company was incorporated and organized on July 28 1924 in Cuba. Following its organization, and in exchange for shares of both classes of its capital stock, the company acquired the following assets: From Cuba Co. 500,000 shares of the common stock of Cuba RR. (without par value). From stockholders of Ferrocarriles del Norte de Cuba (Cuba Northern Rys.) 139,681 shares of the common stock of that corporation (par $100 each), and in consideration of its promissory note in the sum of $5,692,700, payable on demand and with interest at 6% per annum, after demand, the company acquired the following assets: From Cuba RR. 50,000 shares of the common stock of Ferrocarril de Camaguey y Nuevitas (Camaguey & Nuevitas Ry.) of the par value of $100 each.

In 1925 the company purchased the capital stock of Ferrocarril Espirituano, S. A. (Espirituano Ry.), consisting of 3,000 shares, par $100 each. Concurrently therewith the company sold 5 shares of said stock to enable directors of Ferrocarril Espirituano to qualify as such. On Sept. 30 1926 the company sold at the cost to it the remainder of said stock, consisting of 2,995 shares, to Cuba RR.

All of the outstanding shares of the common stock of Consolidated Railroads of Cuba are pledged with and held by Horatio S. Rubens, William H. Woodin, Herbert C. Lakin, Jose M. Tarafa and Guy W. Currier, as trustees, until June 14 1936 (or at such earlier date as the trustees may fix in their discretion with the consent of Cuba Co.), under a written deposit and option trust agreement, dated June 14 1924, and trust certificates have been issued by the trustees to the former holders of said common stock of consolidated Railroads of Cuba in exchange therefor.

Consolidated Railroads of Cuba is, at present, solely a holding company. Its subsidiaries are Cuba RR. and Ferrocarriles del Norte de Cuba, and its affiliated companies are Ferrocarril Espirituano, S. A., Compania de Fomento de Puerto Tarafa, and Compania Industrial y Naviera Cubana. —V. 123, p. 1500.

Delaware & Hudson Co.—*Stockholders Vote Power to Board.*—

The stockholders at a special meeting Oct. 25 approved the extension of authority to the board of managers to transfer to a separate corporation the company's transportation properties and allied interests. The new corporation will be under Delaware & Hudson ownership and the name of the Delaware & Hudson Co. will be preserved.

The move as explained by Pres. L. F. Loree, affords the board of managers more leeway in dealing with a perplexing problem. In May, a year ago, stockholders voted to give the board a free hand in proceeding along lines of segregating the coal properties from the railroad. Mr. Loree intimated that the task had proven exceedingly difficult of accomplishment and no bidders were found willing to pay the price which the board felt the coal properties should bring. The authorization approved by the stockholders at this time permits the board to start out again and try to solve the problem from another angle. That the new job will be easier was the opinion expressed at the meeting.

In discussing the complications of managing a property like the Delaware & Hudson, Mr. Loree recalled that 53 different organizations function in the D. & H. corporation. On the subject of the difficulties attending the formulation of a plan for segregation of the company's coal properties, Mr. Loree referred to the Lehigh Valley and Reading as examples of the length of time required to effect a separation of interests.—V. 123, p. 1247, 111.

Detroit & Ironton RR.—*Stock.*—

The I.-S. C. Commission on Oct. 16 authorized the company to issue $2,972,200 capital stock. The report of the Commission says:

The applicant was incorporated in Delaware in 1920 with an authorized capital stock of $1,000,000. No steps have been taken to amend its charter to provide for the issue of additional stock, as the applicant states it will await our authorization of the issue before such application is made. The road is leased to the Detroit Toledo & Ironton RR., which operates it.

By our order of May 13 1921, 67 I. C. C. 600, we authorized the applicant to construct a line of railroad 15 miles long from Springwells, or Fordson, to Flat Rock, Mich., provided that the construction be completed on or before Dec. 31 1922. The time for completion of the construction was later extended to Dec. 31 1923. At this date the construction work on the main line, excepting electrification, was practically completed. Construction has now been completed with the exception of separation of two grade crossings. By our order of June 10 1921, we authorized the applicant to issue and sell at par $1,000,000 of its common capital stock, the proceeds to be used for the construction of the aforesaid road.

The applicant represents that the cost of constructing the line mentioned above was considerably more than that originally estimated, and it therefore seeks authority to issue $2,972,200 of additional capital stock to cover the increased cost of construction.

Arrangements have been made to sell the entire issue of stock at par for cash to Henry Ford or his assigns.—V. 121, p. 2399.

Federal Valley RR.—*Notes.*—

The I.-S. C. Commission on Oct. 16 authorized the company to issue $32,561 of promissory notes, to retire maturing notes in the same amount.—V. 122, p. 2036.

Georgia Southern & Florida Ry.—*Initial Common Dividend of 5%.*—

The directors have declared an initial dividend of 5% on the common stock and the regular semi-annual dividends of 2½% on the 1st and 2d preferred stocks, all payable Nov. 26 to holders of record Nov. 12. —V. 122, p. 2639.

Great Northern Railway.—*Listing.*—

The New York Stock Exchange has authorized the listing of $15,000,000 general mtge. 4½% gold bonds, series D, dated July 1 1926 and due July 1 1976.

Income Account for Period Jan. 1 to June 30 1926.

Railway operating revenues, $47,198,051; railway operating expenses, $36,007,001; net revenue from railway operations	$11,191,050

Announcement is made that temporary general mtge., series D, 4½% bonds may be exchanged for definitive engraved bonds upon presentation of temporary bonds at the office of the company, 32 Nassau St. (For offering, see V. 123, p. 3601.)—V. 123, p. 1994.

Grosse River RR.—*Final Valuation.*—

The I.-S. C. Commission has placed a final valuation of $224,541 on the owned and used properties of the company as of June 30 1918.—V. 109, p. 577.

Hamilton Belt Ry.—*Control.*

See Baltimore & Ohio RR. above.—V. 121, p. 327.

Illinois Central RR.—*Equipment Trusts.*—

A Chicago investment house was successful in purchasing an issue of securities of a Chicago railroad for the first time in years, when Halsey, Stuart & Co., Inc., was announced as the successful bidder for the issue of $4,665,000 4½% equipment trust certificates.

The successful bid by an organization which has its headquarters in Chicago marks the first victory of the Chicago banking group in their efforts to have the Chicago railroads centre their railroad financing in Chicago rather than New York. It is also the first time in over seven years that a Chicago investment house has had the leading position in the offering of a railroad issue of any kind.

The last issue offered in Chicago was the $25,000,000 3-year notes of the Southern Ry., which were offered in Feb. 1919 by Halsey, Stuart & Co. and the Continental & Commercial Trust & Savings Bank. The successful bid was 98.815, the railroad company announced. The bids were submitted in accordance with the recent ruling of the I.-S. C. Commission that equipment issues of railroads must be sold on a competitive basis (V. 123, p. 1871). The certificates, which will mature serially $310,000 each Oct. 1 from 1927 to 1941, inclusive, were sold by the railroad in connection with the purchase of over $6,000,000 of new equipment.—V. 123, p. 2134, 1994.

International Rys. of Central America.—*Earnings.*—

Nine Months Ended Sept. 30—	1926.	1925.
Gross earnings (estimated)	$5,301,613	$4,738,989
Balance after taxes	$2,105,483	$1,929,082
Bond interest	625,110	591,768
Preferred dividends	375,000	375,000
Balance applicable to common stock	$1,105,373	$962,314

—V. 123, p. 1871.

Kentucky & Indiana Terminal RR.—*Notes.*—

The I.-S. C. Commission on Oct. 18 authorized the company to issue six promissory notes, in the face amount of $30,000 each, payable to the order of the Lima Locomotive Works, Inc., and to deliver them to that company to evidence the rental payable for certain locomotives.—V. 121, p. 1905.

Lake Erie Franklin & Clarion RR.—*Notes.*—

The I.-S. C. Commission on Oct. 16 authorized the company to issue four 6% promissory notes aggregating $27,500. The company shows that cash advances to assist in payment of interest on its first mortgage bonds have been made from time to time by Charles Miller, its President, and that interest matured on its notes held by him remains unpaid. The company's balance sheet as of May 31 1926 shows miscellaneous accounts payable to him totaling $13,996, and interest matured and unpaid due him amounting to $16,829. As evidence of part of this indebtedness, it now proposes to issue at par, to the order of Charles Miller, three notes for $7,500 each, payable three years after date, and one for $5,000 payable on demand, each note to bear interest at the rate of 6% per annum.—V. 121, p. 455.

Lake Superior & Ishpeming RR.—*Final Valuation.*—

The I.-S. C. Commission has placed a final valuation of $4,831,350 on the owned and used properties of the company as of June 30 1916.—V. 121, p. 2399.

Litchfield & Madison Ry.—*Trackage Rights.*—

The I.-S. C. Commission on Oct. 16 issued a certificate authorizing the Litchfield & Madison Ry. Co. to operate, under trackage rights over a part of the railroad of the Chicago & North Western Ry. in Macoupin and Madison counties, Ill.—V. 122, p. 2943.

Minneapolis & St. Louis RR.—*Receiver's Certificates.*—The I.-S. C. Commission on Oct. 19 approved the issuance of $500,000 of receiver's certificates to renew or refund obligations for a like amount maturing in October and November 1926.—V. 123, p. 708.

Missouri Southern RR.—*Final Valuation.*—The I.-S. C. Commission has placed a final valuation of $813,640 on the owned and used property of the company as of June 30 1914.—V. 109, p. 888.

Norfolk & Western Ry.—*Proposed Acquisition of Control of Virginian Ry. Denied by I.-S. C. Commission.*—The I.-S. C. Commission on Oct. 11, denied the proposed acquisition by the Norfolk & Western Ry. of control of the railroad of the Virginian Ry. by lease. In denying the application the Commission said: "Upon the facts presented we are unable to find that the acquisition by the N. & W. of control of the Virginian Ry., under the terms of the lease described in the application, will be in the public interest. An order will be entered denying the application."

The Report of the Commission says in part:

The Norfolk & Western Ry. on July 2 1925, filed an application under paragraph (2) of section 5 of the act for an order authorizing it to acquire control, by lease, of the railroad of the Virginian Ry. Intervening petition, in opposition to the application were filed by the Commonwealth of Virginias the State Corporation Commission of Virginia, the Chesapeake & Ohio Ry., the Baltimore & Ohio RR., the cities of Norfolk, Va., and Princeton, W. Va.; the town of Salem, Va., the Norfolk-Portsmouth Freight Traffic Commission, and various other associations of business men and individual shippers. The chamber of commerce of Williamson, W. Va., intervened in favor of the authority sought.

In our tentative plan for the consolidation of railroads, 63 I. C. C. 455, the Virginian is grouped with the C. & O. in system No. 8. Shortly after the tentative plan was made public the N. & W. opened negotiations for the lease of the Virginian, but terms were not agreed upon. In August, 1924, a joint lease of the Virginian by the N. & W. and the C. & O. was proposed by the Van Sweringen interests, but the proposal was rejected by the N. & W. In February 1925 new negotiations were instituted, which resulted in the draft of the proposed lease now under consideration. The record shows that in the consummation of the proposed lease no bankers' commissions were involved, all arrangements having been made directly by the interested companies. The C. & O. intervened and opposed the granting of the application. It claims that as we had tentatively allotted the Virginian to it, it did not consider it necessary to take further steps toward securing control of the Virginian pending the issue of our final plan for the consolidation of railroads. . . .

Under the proposed lease the Virginian transfers to the N. & W. the right to the use of all of its assets, personal and real, including its holdings of securities of other railroad and certain industrial corporations, for the term of 999 years, subject to all existing mortgages, equipment trust agreements, and other liens affecting the leased property, or any part thereof. The lessee agrees to pay as rental an amount equal to 6% annually upon the preferred and common stock of the lessor outstanding at the effective date of the lease; such sums as may be necessary to enable the lessor to maintain its corporate organization and to enable it to do what ever may be required of it under the lease, by law, or by any public authority; all expenses in connection with the Federal valuation of the properties of the lessor and its subsidiaries; all taxes and assessments on the leased properties and the income therefrom, including taxes which may have been levied prior to the effective date of the lease; all amounts, if any, which may become due under Section 15a of the Inter-State Commerce Act, including any such amounts as may relate to a period prior to the effective date of the lease; all instalments of interest on the obligations of the lessor or its subsidiaries; all dividends which, during the term of the lease, may be declared and become due and payable upon any shares of stock hereafter issued by the lessor or its subsidiaries; all rentals which, during the term, may become due and payable under any lease or operating contract heretofore or hereafter made by the lessor or any of its subsidiaries.

The lessee agrees to keep insured such of the leased properties as are usually insured by railroad companies; to perform all of the lessor's contracts; to pay the lessor's current obligations and liabilities; to indemnify the lessor against loss or damage arising out of the operation or maintenance of the leased property; to perform and discharge all duties and obligations imposed on the lessor by law or otherwise; to defend actions, suits, or proceedings against the lessor; to maintain the leased properties in as good condition as when received; to replace equipment destroyed or retired; and to pay or refund all of the lessor's capital obligations, with the right to reimbursement in securities of the lessor at their fair market value, the obligation of such securities to be met by the lessee during the term of the lease. The lessee may make improvements and extensions and shall be entitled to reimbursements for the amounts thus expended in shares of stock, bonds, or other securities of the lessor, to the extent that the amount of such capital expenditures shall have been agreed upon either prior to or after they were made. The lease provides for an accounting between the parties, and grants the lessor an option, in the event of default by the lessee, to proceed by proper court action to recover the amount due, or to terminate the lease and re-enter. Based upon the figures of Jan. 1 1926, the applicant, according to its evidence, will be obligated under the lease to make annual payments of $8,204,789, plus the cost to the Virginian of maintaining its corporate organization. . . .

Our tentative valuation of the properties of the Virginian, including the Virginian Terminal Ry., as of June 30 1916, was $55,420,314. This valuation included $4,748,077 on account of working capital, including materials and supplies. The valuation engineer of the Virginian estimated the value of the properties, less depreciation, as of June 30 1925, to be $118,907,978. This amount was reached by adding $2,011,871 to our tentative valuation which addition, it is testified, has been recommended by the engineering section of our bureau of valuation. To this total was added the net charges to capital account for additions and betterments to June 30 1925 and prices were equated to a 1925 basis. . . .

Witnesses for the N. & W testified that the proposed lease will enable the applicant to avoid large capital expenditures that would otherwise be necessary in the near future. . . .

Evidence was offered by the N. & W. to the effect that its railroad and the Virginian are connecting and not competing lines, and considerable testimony was devoted to a differentiation of market, route, and carrier competition. The N. & W. claims that there is no competition betweens the two roads as to coal, which constitutes seven-eights of the Virginian' traffic, and that competition extends only to a very small part of the merchandise traffic. The conclusion that the two lines are in direct carrier competition appears inevitable from the record. . . .

At the date of the hearing the Pennsylvania RR. and its affiliated companies owned 115,580 shares of preferred and 465,550 shares of the common stock of the N. & W. This is 50.2% of the preferred and 29.6% of the common outstanding. . . .

It is admitted that if the N. & W. desired to finance additions and betterments by the issue of bonds the Pennsylvania, through its ownership of a majority of the preferred stock, could veto the proposition, or any proposition for increasing the preferred stock. Four of the 11 directors of the N. & W. are either officers or directors of the Pennsylvania, or both. While the Pennsylvania does not own or control a majority of both classes of the N. & W.'s capital stock, it appears that its concentrated holdings give it a large influence in that company's affairs, with an absolute control over the issue of any obligations to be secured by a mortgage.

The N. W. controls the Pocahontas Coal & Coke Co., which owns 298,340 acres of the low volatile coal lands of southern West Virginia. These coal fields are in competition with those served by the Pennsylvania RR. in Pennsylvania. The testimony is that the Pennsylvania is the greatest coal-carrying road in the country, and that it has always opposed any great development of the New River and Kanawha, W. Va., fields. Certain of the protestants allege that the execution of the proposed lease would give to the Pennsylvania the means and power of stifling the development of the low volatile fields of southern West Virginia as competitors of the Pennsylvania fields; that the Pennsylvania's interest in the N. & W. is a constant meance to the southern West Virginia coal operator; and that the adding of the Virginian to the N. & W., as contemplated by the proposed lease, would be destructive to the public interest.

The C. & O. introduced much testimony in an endeavor to refute the claims of the N. & W. with respect to the operating economies it would be able to effect. This testimony went into elaborate details, including grades, engine ratings, engine terminals, electrified zones, methods of operation, repair shops, use of facilities, &c. Considering the testimony as a whole it fails to establish that the N. & W. could effect the operating savings which it anticipates. Witnesses on behalf of the N. & W. admitted on cross-examination that they were unable to state how the Virginian would be operated, and that they would not know until after they had actually operated both properties. In the absence of a definite plan for operation, it could appear that the evidence relating to prospective operating economies is largely speculative. . . .

The president of the C. & O. testified that if the pending application should be denied and the Virginian should be allocated to the C. & O., that company, or the Nickel Plate system as the case may be, would make every reasonable effort to bring about the acquisition and control of the Virginian on terms and conditions that would meet our approval. Testimony was offered by the C. & O. to the effect that its lines and the Virginian are so located geographically as to be complementary and supplementary; that greater use would be made of the Virginian by it than by the N. & W. or by the Virginian itself; that unified operation of its lines and those of the Virginian would provide an efficient and economical route for Virginian coal to the west; would enable it to avoid large capital expenditures; and would result in operating economies in handling east and west-bound coal, in greater utilization of Virginian equipment and shop facilities, and in the elimination of cross-hauls of both loaded and empty cars. The testimony for the C. & O. is that its use of the Virginian as a main line into Norfolk would enable it to avoid an almost immediate expenditure of $16,000,000 for double-tracking its James River division; that by using the Virginian's coal piers and terminals at Sewall's Point, in connection with the railway, it could save $5,000,000 for the construction of an additional coal pier and tracks now needed at Newport News; and that by using Virginian coal cars more efficiently it could avoid the purchase of 5,690 coal cars at an estimated cost of $11,380,000. The testimony for the N. & W. is that it would not have immediate need for the Virginian terminals at Sewall's Point to handle the combined tonnage of the two roads. The N. & W. offered considerable testimony in an effort to overcome the claimed operating economies to be effected by the C. & O. As in the case of the N. & W. the testimony of the C. & O. goes largely into technical details. While the testimony is claimed to be based upon operating performance, much of it is, of necessity, theoretical. . . .

On behalf of the City of Norfolk and the Norfolk-Portsmouth Freight Traffic Commission it is contended that if the Virginian is leased to the N. & W. the latter will control the only reasonable all-rail route between Norfolk and practically all western territory north of the Ohio River; that the policy of the N. & W. will be dictated in the interest of northern ports to the detriment of Norfolk; that the Pennsylvania, through its control of the N. & W., the Virginian, and the New York, Philadelphia & Norfolk, would practically monopolize the situation at Norfolk in so far as traffic from and to the east, west, and north is concerned; and that the execution of the proposed lease would be disastrous to the City of Norfolk, the State of Virginia, and the country at large, without a single benefit accruing therefrom. . . .

The Commonwealth of Virginia and its State Corporation Commission insist that the proposed lease is ultra vires the charters of both the N. & W. and the Virginian, and that both companies are prohibited from entering into the lease by the constitution and statutes of Virginia, because their railroads are parallel and competing. The charters of the two companies and the various provisions of the State constitution and statutes bearing upon the consolidation of transportation companies were introduced in evidence. Section 3857 of the code of Virginia, 1919, as amended by the acts of 1920, authorizes one railroad corporation to purchase or lease the properties of another, but with the limitation that "nothing in this chapter shall authorize or be construed to permit the purchase, lease, sale, consolidation or merger of the works, property, or franchises of railroads competitive between points both of which are within this State, or lines between the same terminal points both of which are within this State." The N. & W. contends that the proposed lease is not affected by the limitations of this statute because the competition between the two railroaos is unsubstantial; and the two lines are not between the same terminal points both of which are in Virginia. The record clearly establishes that the two lines are in direct competition between Virginia points. The charters of the Virginian and the N. & W. do not specifically authorize those companies to enter into the proposed lease, and the attorney general of Virginia cites a number of decisions of the U. S. Supreme Court to the effect that a railroad corporation can not lease its properties to another company unless specifically authorized by its charter, or aided by some other legislative action. Even granting that Congress has the power to authorize the leasing or consolidation of competing carriers, the State claims that the N. & W. and the Virginian can not be permitted to assert such right in derogation of their contract with the Commonwealth of Virginia, which created them.

The legislature of West Virginia, on March 30 1925, passed an act forbidding a railroad corporation from acquiring control by lease or otherwise of any parallel or competing line. The constitutional and statutory objections raised by the State of Virginia are advanced also on behalf of the City of Norfolk and the Norfolk-Portsmouth Freight Traffic Commission. In answer to these objections the N. & W. cites paragraph (8) of Section 5 of the Inter-State Commerce Act which provides that carriers affected by any order made under that section are relieved of all restraints or prohibitions by law, State or Federal. In view of the disposition of the application upon the facts it appears unnecessary to consider these various legal contentions.

The State further alleges in its brief that the record shows that the competition created by the construction of the Virginian has been of great benefit to the cities and communities served by it and the N. & W.; that it is undisputed that the two companies control the only direct east and west entrance through the Alleghenies between the northwest and the port of Norfolk; and that the approval of the proposed lease would create a monopoly which would benefit no one but the N. & W. and the stockholders of the Virginian and would be injurious not only to the communities served by the two carriers, but to the public at large and especially to the greatest military and naval port in the United States.

The Chamber of Commerce of Williamson, W. Va., is the sole intervener in favor of the application. Williamson is not served by the Virginian. It is located on the N. & W. alone, and is more than 100 miles west of the nearest junction of that carrier with the Virginian. . . .

In conclusion the report of the Commission says:

The conclusion that the proposed lease would result in eliminating existing routes and channels of trade appears warranted by the record. The chief traffic official of the N. & W. testified that under unified operation of the Virginian and N. & W. the use of the Deepwater route would be discouraged, but that it would be kept open if found to be an efficient route. No reason appears why the N. & W. would be interested in maintaining a competitive through route via Deepwater, which would short-haul its own traffic. As heretofore pointed out, a substantial volume of traffic moves through the Deepwater gateway, and this traffic would be increased largely if the Virginian should join the C. & O. in rates on west-bound coal.

Under the proposed lease all competition between the lines of the two companies would be eliminated. Important shipping points would be deprived of competitive service. The president of the Virginian testified that the elimination of competition in rates and service would injure any town through which the two roads pass, and this conclusion is corroborated by the testimony of the protestants.

Nothing herein should be construed as indicating our views regarding the final disposition of the Virginian.

Applications for authority to acquire control of railroads under the Inter-State Commerce Act must be supported by a clear and strong showing of public gain. If serious doubt exists regarding the wisdom of the proposed grouping, that doubt must be resolved against the applications. Real and substantial advantages of railroad grouping are capable of reasonable proof. So are the disadvantages. There must be of record a substantial preponderance of evidence in favor of an application before we are warranted in giving it favorable consideration.

Extra Dividend of 3% Declared on Common Stock.—The directors on Oct. 26 declared an extra dividend of 3% and the regular quarterly dividend of 1¾% on the outstanding common stock, both payable Dec. 18 to holders of record Nov. 30. An extra dividend of 1% was paid on the common stock in June 1916, March 1917, Dec. 1922, 1923, 1924 and 1925. As of Dec. 31 1925, the Pennsylvania RR. owned $44,698,200 of the company's outstanding $137,994,700 common stock, par $100.—V. 123, p. 1759.

Northern Central Ry.—*Listing.*—The New York Stock Exchange has authorized the listing of $5,231,000 additional gen. & ref. mtge. 5% gold bonds, series A, due March 1 1974.

which have been delivered to the Pennsylvania RR., lessee, and have passed beyond the control of this company, making the total amount applied for $13,531,000.—V. 122, p. 3079.

Pennsylvania RR.—*Stock Placed on 7% Annual Dividend Basis.*—The directors on Oct. 27 declared a quarterly dividend of 1¾% on the outstanding $499,173,400 capital stock, par $50, payable Nov. 30 to holders of record Nov. 1. Previously the company paid 1½% quarterly. (See also Norfolk & Western Ry. above.) Record of dividends paid since 1900 follows:

1900-05.	1906.	1907.	1908-20.	1921.	1922.	1923-25.	x1926.
6% yearly	6½%	7%	6% yearly	4½%	4½%	6% yearly	6¼%

x Including dividend of 1¾% payable Nov. 30.

Number of Stockholders Decrease.—On Oct. 1 stockholders of the company numbered 140,153, a decrease of 484 as compared with Sept. 1 last and a decrease of 5,430 as compared with Oct. 1 1925. The average holding on Oct. 1 1926 was 71.24 shares, which compares with 71 on Sept. 1 and 71.11 on Aug. 1. Foreign holdings on Oct. 1 of this year totaled 3.66%.—V. 123, p. 2135, 1994.

Southern Railway Co.—*Rights.*—Subject to the approval of the stockholders at the general meeting called to be held on Nov. 18 1926 and to the necessary governmental sanction, the stockholders of record Nov. 24 will be afforded the right to subscribe for $10,000,000 additional stock in the proportion of 1 share of new stock for each 18 shares of preferred or comm n stock, or both, then held. Rights expire on Dec. 28. Subscription warrants will be mailed on or about Nov. 29 1926 to stockholders entitled thereto. Holders desiring to subdivide full share warrants may return them to J. P. Morgan & Co., transfer agents, 23 Wall St., N. Y. City, who will issue in exchange new full share warrants for the same aggregate number of whole shares. Fractional warrants will be transferable by delivery merely.

Subscriptions may be made in New York funds at the office of J. P. M rgan & Co., as follows: 20% on or before Dec. 28 1926; 40% on Aug. 1 1927 and 40% on Nov. 1 1927. Subscribers may pay the full amount of their subscriptions, or the balance remaining due thereon, either on or before Dec. 28 1926 or on Feb. 1 1927 or Aug. 1 1927. See also V. 123, p. 2136.

Sussex R.R. (of N .J.)—*Tentative Valuation.*—The I.-S. C. Commission has placed a tentative valuation of $1,075,000 on the owned and used properties of the company as of June 30 1918.—V. 118, p. 1013.

Virginian Ry.—*Lease to Norfolk & Western Ry. Denied by I.-S. C. Commission.*—See Norfolk & Western Ry. above.—V. 122, p. 1599.

Western Pacific RR.—*Listing.*—The New York Stock Exchange has authorized the listing of $2,600,000 additional (authorized $50,000,000) 1st mtge. 5% gold bonds, series A, due March 1 1946, making the total amount of series A bonds applied for $30,780,000. There are also $3,000,000 series B bonds issued and listed.

Consolidated Income Account 6 Months Ending June 30 1926.

Wyandotte Southern RR. (Mich.).—*Final Valuation.* The I.-S. C. Commission has placed a final valuation of $100,953 on the owned and used properties of the company as of June 30 1918.

PUBLIC UTILITIES

Adirondack Power & Light Corp.—*Acquires Control of Port Henry Light, Heat & Power Co.*—The New York P. S. Commission has authorized the company to acquire the outstanding 500 shares of common stock of the Port Henry Light, Heat & Power Co.—V. 123, p. 2136.

Alabama Power Co.—*Bonds Offered.*—Harris, Forbes & Co., and Coffin & Burr are offering $6,000,000 first mortgage lien and refunding gold bonds, 5% series, due 1956. The bonds are priced at 98½ and interest, to yield about 5.10% and their issuance has been approved by the Alabama Public Service Commission.

Dated Nov. 1 1926; due Nov. 1 1956. Interest payable M. & N. in New York City. Callable, all or part, on any interest date, on 30 days' notice, at 102½ through Nov. 1 1932, thereafter at 102 through Nov. 1 1938, thereafter at 101½ through Nov. 1 1944, thereafter at 101 through Nov. 1 1950, and thereafter at 100½, plus interest in each case. Denom. c* $1,000 and $500, and r* $1,000 and multiples thereof. United States Mortgage & Trust Co., New York, trustee. Company agrees to pay interest without deduction for any normal Federal income tax not exceeding 2%.

Data from Letter of Pres. Thos. W. Martin, Birmingham, Ala., Oct. 22.

Company.—Serves directly or at wholesale practically all the urban population and industrial power requirements in a territory comprising the northern two-thirds of the State of Alabama, including the important Birmingham industrial district. Company does, directly, all the electric light and power business in more than 150 cities, towns and communities, including Montgomery, Anniston, Tuscaloosa, Gadsden, Attalla, Talladega, Huntsville, Selma, Roanoke, Decatur, Sheffield, Florence, Tuscumbia, Demopolis and Albany; all the street railway business in Montgomery, Anniston, Tuscaloosa, Gadsden, Sheffield, Florence, Tuscumbia and Huntsville, and the gas business in Montgomery, Anniston, Tuscaloosa, Selma, Decatur and Albany, and it furnishes under contract all the current used by Birmingham Electric Co. in Greater Birmingham and Bessemer and all the current used by the local public utilities in Alexander City, Cordova, Opelika, Sylacauga, Lafayette and Piedmont. It also serves under contract a number of large industrial power consumers.

Company now has in direct service a total of 57,000 customers' meters, and current is being supplied directly and indirectly to more than 100,000 customers. The present connected load of the system is approximately 681,988 h.p., and for the year ended Aug. 31 1926 the electrical output of the system was over 1,312,000,000 k.w.h.

Contracts.—Company supplies all the power requirements of the Birmingham Electric Co., which does practically the entire electric light, power and local street railway business in Greater Birmingham, Bessemer, &c. In addition the company has contracts to furnish power to other public utilities, ore mines, steel mills, marble quarries, brick plants, cement mills, cotton mills, &c. It is estimated that comparatively small additions to the distributing lines will result in materially increasing the earnings of the company.

Capitalization—	*Authorized.*	*Outstanding.*
Common stock (no par value)	600,000 shs.	391,020 shs.
Preferred stock (no par value)—		
Dividend $7 per share cumulative	390,000 shs.	a173,183 shs.
Dividend $6 per share cumulative	200,000 shs.	a32,262 shs.

Income debenture certificates, due 2020	$13,000,000	b$12,170,000
First mtge. lien & ref. 5s, due 1956 (this issue)	c	6,000,000
do 5s, 1951	c	17,700,000
do 6s, 1951	c	21,000,000
First mortgage 5s, due 1946	d	d10,221,000
Underlying divisional bonds	(Closed)	d799,900

a Including 5,186 shares of no par value sold on time payments maturing during the next few months. b These debentures are non-foreclosable security having a contingent interest in the balance available after the payment of preferred stock dividends. c Unlimited except by the conservative restrictions of the indenture. d $39,302,000 additional first mortgage bonds and $1,276,000 additional underlying divisional bonds (including those to be pledged in connection with the authentication of bonds now offered) are pledged under the indenture securing the first mortgage lien and refunding bonds and no additional first mortgage 5% bonds may be issued except for pledge thereunder.

Earnings Twelve Months Ended Aug. 31 1926.

Gross earnings, including other income	$12,811,487
Operating expenses, maintenance and taxes	6,763,882
Net earnings	$6,047,605
Annual interest on funded debt with public (incl. this offering)	2,996,045
Balance	$3,051,560

Physical Property.—The present installed generating capacity of the company's plants aggregates 418,600 h.p., of which over two-thirds is hydro-electric. The property includes two hydro-electric plants on the Coosa River which are among the largest hydro-electric developments in the South. The Lock 12 plant 45 miles southeast of Birmingham has a completed installation with six generating units aggregating 110,000 h.p. capacity. The Mitchell Dam plant 14 miles down-stream from the Lock 12 plant, has a present installed capacity of 72,000 h.p., with provision for an ultimate capacity of 120,000 h.p.

The first installations at two new hydro-electric plants on the Tallapoosa River were completed in 1924. The one at the site designated as the Upper Tallassee plant has a present installed capacity of 8,500 h.p., with provision for an ultimate installation totaling 50,000 h.p., to be made when the dam is raised to its full height. Immediately down stream the company purchased from the cotton mills plants at Tallassee Falls the right to build a dam and install a power plant. An installation of 10,600 h.p. is now in operation. The full development when completed will have an ultimate capacity of about 70,000 h.p.

The Warrior reserve steam plant with a capacity of 100,000 h.p. is one of the largest steam generating stations in the South. It is located at Gorgas, 25 miles northwest of Birmingham, on the Black Warrior River in the heart of the Warrior coal fields.

Further, to provide for the demand for power in Alabama and adjoining States during the present year, the company has leased from the U. S. Government for a period of one year, subject to termination, its 80,000 h.p. steam plant constructed during the war at Sheffield, Ala.

In addition, the company owns a reserve steam turbine station of 15,000 h.p. capacity located at Gadsden, 60 miles northeast of Birmingham, a steam reserve plant at Montgomery of 6,700 h.p. capacity, a steam reserve plant at Sheffield of 2,900 h.p. capacity, a steam reserve plant at Selma of 700 h.p. capacity, and a hydro-electric development of 1,900 h.p. at Jackson Shoals about 40 miles east of Birmingham.

The generating stations are connected with each other and with Birmingham and other markets by a comprehensive system of transmission lines; the transmission lines in operation aggregating over 3,000 circuit miles in length.

New Hydro-Electric Plants.—In order to meet the rapidly growing demands for power in the territory served by the company, plans have been made and the necessary Federal licenses and other governmental authority obtained for the construction of additional hydro-electric plants on the Coosa and Tallapoosa rivers.

Martin Dam, the principal plant of the series on the Tallapoosa River, which is located at Cherokee Bluffs, 7 miles upstream from the Upper Tallassee plant mentioned above, is now nearing completion. The first two units of 45,000 h.p. each are now in test operation and it is expected that a third unit will be in operation about Jan. 1 1927, making the total initial capacity of this plant 135,000 h.p. Provision is being made for an ultimate capacity of 180,000 h.p. This development is planned for the storage of flood waters to be released in times of drought, the reservoir covering approximately 40,000 acres of land. Its completion will make possible the utilization of the full capacity planned for the Upper Tallassee and the Tallassee Falls sites.

On the Tallapoosa River, upstream from Cherokee Bluffs, a series of three or more plants have been planned for which the necessary governmental authority, including Federal license, has been obtained.

The additional hydro-electric plant on the Coosa River will be the third and largest of the company's plants on that river. It is to be located at Lock 18, 20 miles downstream from Mitchell Dam. Preliminary construction is now under way and the initial installation of 108,000 h.p. should be in operation by the fall of 1928, with provision made for an ultimate installation of 180,000 h.p.

Management.—The operations of company and affiliated companies are supervised by Southeastern Power & Light Co.

To Issue No Par Pref. Stock.—The Alabama P. S. Commission has authorized the company to issue 50,000 shares of cumul. pref. stock (no par value) to bear either a $6 or $7 cumulative annual dividend.—V. 123, p. 1381.

American Light & Traction Co.—*To Create an Issue of $50 000,000 Prior Preference Stock.—Offers to Retire Present Outstanding Preferred Stock.*—The stockholders will vote Dec. 8 (a) on creating a new class of stock to be known as prior preference stock of the par value of $5[illegible],000 divided into 500,000 shares of the par value of $100 each; and (b) on decreasing the authorized preferred stock from $25,000,000 to $14,236,200, par $100, said 142,362 shares being the number thereof heretofore issued and now outstanding.

If the creation of the class of prior preference stock is effected, there shall be offered to each of the holders of the outstanding preferred stock the option to exchange such preferred stock, share for share, for prior preference stock.

Each of the shares of prior preference stock so to be offered and issued shall (1) be entitled to cumulative dividends at the rate of 6½% per annum, and (2) be redeemable at 115 and divs.

President Alanson P. Lathrop, Oct. 20, says in part:

The present 6% preferred stock is not subject to redemption, and although some of the total authorized amount thereof now remains unissued the board deems it inadvisable to issue any more irredeemable preferred stock.—V. 123, p. 1872.

American & Foreign Power Co., Inc.—*To Increase Common Stock—To Acquire Holdings of Electric Bond & Share Co. in Havana Electric & Utilities Co.—Earnings.*—

The stockholders will vote Nov. 12 on increasing the authorized common stock (no par value) from 1,500,000 shares to 1,800,000 shares.

The directors have arranged in behalf of the company to acquire from the Electric Bond & Share Co. all of its holdings in the Havana Electric & Utilities Co., which controls the Havana Electric Ry., Light & Power Co.

If the stockholders confirm the action of the directors, the Electric Bond & Share Co. will receive as full payment for its holdings of securities in the Havana company and as compensation for its overhead costs and its risks (a) either 20-year 6% debentures of the American & Foreign Power Co., Inc., or 20-year 6% debentures of a Cuban subsidiary, equal in principal amount to the actual costs of Electric Bond & Share Co. to date of payment, excluding overhead costs but including interest at the rate of 6% per annum, and (b) 300,000 shares of common stock of American & Foreign Power Co., Inc.

The railway properties in Havana formerly owned by the Havana Electric Ry., Light & Power Co. and the railway properties in Camaguey and Santiago, formerly owned by the Cuban subsidiary of the American & Foreign Power Co., Inc., have been sold to the Havana Electric Ry. Co.

Consol. Income Account of Co. & Oper. Subs. (Inter-Co. Items Eliminated).

12 Months Ended—	June 30 '26.	Dec. 31 '25.	Dec. 31 '24.

x Includes common dividends prior to issue of class A stock.

Note.—The above figures are based on all properties only since their addition to the Associated System. The increase in gross and net earnings for all properties for the entire period are 12% and 16%, respectively.

Reports Largest Earnings in History—Cites Accomplishments This Year.—

For the eighth consecutive month this year the company in its statement of earnings for the 12 months ended Aug. 31 shows continued increases over the identical preceding periods. The present report shows gross earnings of $27,464,011, against $12,923,490 in the 12 months ended Aug. 31 1925, an increase of 112%, due in part to Associated's acquisition of properties and in part to the progressive gains in earnings of subsidiary operating companies and the putting into service of new construction. The earnings cover properties only since their addition to the Associated System, and are the largest earnings in the history of the system.

The current statement points out that if the gross and net earnings of all properties now in the system were included for the full 12 months of the comparative or preceding year of their operations as well as the current year the increases for the system would be 12% and 16%, respectively.

The report recites a number of accomplishments since a letter was addressed to stockholders earlier in the year in answer to inquiries from them and others who desired information about the company with a view to investing in its securities. It also states that the annual report of the system is soon to be published, this time as part of the year book, giving the usual detailed figures about earnings, assets, property and statistics of operation of interest to the system's security holders.

Announcement is made that during the past eight months the Penn Public System has been completely paid for; nearly 40 independent plants in western Tennessee and Kentucky, mostly municipally owned a year and a half ago, have been acquired; a number of additional plants adjacent to Associated properties principally in New York and Pennsylvania have been added to the system; and substantial minorities of voting common stocks of important subsidiaries, including Staten Island Edison Corp., have been acquired so that with a single exception over 99% of the voting common stocks of every subsidiary are owned and as to the exception, over 90% is owned.

Of outstanding interest among the recent financial developments in the system is the fact that there have been retired 38 separate issues of bonds and preferred stocks aggregating, with partial purchases of other issues, over $40,000,000. This was probably a more wholesale retirement and voluntary cleaning up than has ever before been undertaken by any corporation. The elimination of the large number of these issues of varying amounts, with their numerous mortgages, trust indentures, preferred stock agreements and other complications made possible permanent financing on a comprehensive scale without the expensive, difficult and involved proceedings which would otherwise have been necessary. This simplification of the system's capital structure has all been carried out this year, one of the results being that the holdings of the company's securities by customers and employees are continually increasing as they are also among other investors. The statement calls attention to the relatively simple capital structure as contrasted with what would have existed had financing been done through the company's various subsidiaries instead of by the parent organization. The policy of the management is stated to be against the sale to the public as a matter of general practice of securities of numerous separate companies.

Makes Offer to Holders of Granville Electric & Gas Co. and Erie Lighting Co. Bonds.—

See Eastern New York Electric & Gas Co., Inc., and Erie Lighting Co. below.—V. 123, p. 2136, 1873.

Athens (Ga.) Ry. & Electric Co.—*Bonds Called.*—

All of the outstanding gen. mtge. and coll. trust s. f. 8% gold bonds, series A, dated June 1 1921, have been called for redemption Dec. 1 next at par and int., plus a premium on the par value as will be equivalent to a yield of 6% for the unexpired term of the bonds. Payment will be made at the Colonial Trust Co., trustee, Philadelphia, Pa.—V. 120, p. 700.

Atlantic Public Utilities, Inc.—*Forms Operating Co.*—

This company has acquired electric light and power properties at Moorefield and Romney, W. Va., heretofore owned by the Romney Electric Co., and has organized the Potomac Valley Power Corp. to operate in this section.—V. 123, p. 2137.

British Columbia Electric Ry., Ltd.—*Bonds Being Paid.*

The $500,000 7% Western Power Co. of Canada debentures, due Nov. 1, will be paid off at the Bank of Montreal, London, New York and Montreal. The bonds are not being replaced by any other issue.—V. 122, p. 3080.

California Telephone & Light Co.—*To Issue Bonds.*—

The company has applied to the California RR. Commission for authority to issue $190,500 1st mtge. 6% bonds at not less than par, the proceeds to be used to reimburse the treasury for capital expenditures.—V. 123, p. 2137.

Central Maine Power Co.—*Bonds Sold.*—

Harris, Forbes & Co. and Coffin & Burr, Inc., have sold at par and int. $3,000,000 1st & gen. mtge., 5% bonds series D. Dated July 1 1925; due July 1 1955 (see description in V. 121, p. 73).

Data from Letter of Pres. Walter S. Wyman, Augusta, Me., Oct. 22.

Company.—Incorporated in 1905 by the consolidation of two small electric light and power properties in Oakland, which had together an annual gross income of about $21,000. Company has had a continuous growth from that time until to-day it is the most extensive electric light and power system in the State of Maine, and forms a single comprehensive system of hydro-electric plants, transmission and distributing lines with gross earnings for the 12 months ended Sept. 30 1926 of over $3,300,000. The present development is due not only to the unification over a long period of years of more than 60 companies, but also to a steady increase in business in the communities served.

Through the control of 100% of their common stocks the company controls the Androscoggin Electric Co., doing the electric light and power business in Lewiston and Auburn and operating the interurban road from those cities to Portland, and the Waterville Fairfield & Oakland Ry. connecting these three communities. Earnings of these propertis are not included with those of the Central Maine Power Co.

Company is so tied together by its 670 miles of transmission lines, and the power plants are so distributed as to provide delivery at the point of consumption of reliable current in the quantity desired at a minimum cost of production, transmission and distribution. The strength of the company's position in a section widely known for its textile, paper, shoe, and shipbuilding industries, is established by its ownership of 42,290 h.p. of developed water power (now being increased to 69,290 h.p.) and its control of over 150,000 h.p. of undeveloped hydro-electric sites located in the principal power streams of the State. The locations of the hydro-electric plants on these power streams, with their different characteristics of drainage area, stream flow, and storage, provides an unusual reliability of hydro-electric capacity.

Over 99½% of the common stock of company is owned by New England Public Service Co., a subsidiary of Middle West Public Utilities Co.

Capitalization—	Authorized.	Outstanding.
Common stock	$5,000,000	$2,500,000
Preferred stock, 6% cumulative	660,800	660,800

Charlestown (Mass.) Gas & Electric Co.—*Extra Div.*—

The directors have declared an extra dividend of 25c. a share in addition to the usual quarterly dividend of $1 25 a share on the outstanding capital stock, par $25, both payable Nov. 1 to holders of record Oct. 22. Like amounts were paid on Aug. 2 last.—V. 123, p. 579.

Cities Service Co.—*Tenders—Debentures Called.*—

Bids will be received on or before Nov. 10 for the sale to the company of $2,000,000 series D 7% convertible gold debentures, due Jan. 1 1966. At prices not exceeding 102 and int.

The company has called for redemption on Dec. 1 at the New York Trust Co., 100 Broadway, N. Y. City, $1,000,000 of series E 8% convertible gold debentures at 107 and int.—V. 123, p. 2137.

Cities Service Refining Co.—*Contract.*—

The company has just placed a contract with the Bethlehem Shipbuilding Corp. at Quincy, Mass., for a 12,000-barrel steel oil barge, which will be used for transportation of the oil products of the Cities Service Refining Co. from their refinery at Boston, Mass. The barge will be constructed on the new Isherwood Bracketless System. It can be used for transporting oil not only around Boston Harbor, but also along the coast.—V. 122, p. 3080.

Consolidated Gas Electric Light & Power Co. of Baltimore.—*Earnings.*—

—V. 123, p. 1502.

Community Water Service Co.—*To Acquire Control of New Rochelle Water Co.—Financing by Latter Proposed.*—

It is announced that the New Rochelle Water Co., supplying New Rochelle, Bronxville, North Pelham, Pelham Manor, Eastchester, Tuckahoe and Fort Slocum, all in Westchester County, N. Y., has arranged to transfer all of its common stock to the Community Water Service Co. The valu of the property, it is said, is about $5,000,000. Cyrus T. Lloyd, associate

with the New Rochelle Water Co. for over 20 years, will be President, and Reeves J. Newsom, Vice-President.

P. W. Chapman & Co., Inc., have purchased a new issue of 1st mtge. bonds of the New Rochelle Water Co., offering of which will be made probably the first part of next week.—V. 123, p. 323.

Dallas Southwestern Traction Co.—*Franchise Extended.*

The company was recently granted an extension of time until Dec. 31 1927 for the construction of its line from Dallas to Irving, Texas, by an action of the County Commissioner's Court. This line, it is proposed, will be an electric line connecting Dallas and the Irving territory. E. P. Hopkins is President of the company.—V. 105, p. 1617.

Derby Gas & Electric Corp.—*Initial Preferred Dividend.*

The directors have declared a quarterly dividend of $1 75 per share on the outstanding $7 dividend preferred stock (for the period ending Oct. 31 1926), payable Nov. 1 to holders of record Oct. 20. See also V. 123, p. 980.

Duluth (Minn.) Street Ry.—*Rate Decision.*—

The Minnesota Railroad & Warehouse Commission has fixed an 8c. cash fare with 5 tokens for 35c., an increase of more than a cent over existing rates. The Minneapolis-St. Paul rates fixed some time ago by the Commission are 8c. cash, or 6 tokens for 40c.—V. 123, p. 1996.

Eastern New York Electric & Gas Co., Inc. (Formerly Granville Electric & Gas Co.).—*Offer to Bondholders*—The Associated Gas & Electric System, in an advertisement, says:

The holders of the consol. mtge 5% gold bonds due Oct. 1 1933 of Granville Electric & Gas Co. may for a limited time exchange for $7 dividend series preferred stock of the Associated Gas & Electric Co. as follows: 10 shares of said stock for each $1,000 of bonds of 1933; with cash adjustment for interest and dividends. The holder of a $1,000 5% bond will increase his return from $60 to $70. The present dividend policy of the Associated Gas & Electric Co. gives holders of its preferred stock the option of receiving dividends to class A stock upon a basis which, at current market prices, amounts to more than the cash dividend rate. Through the exercise of this option, the return exceeds these figures.

Electric Power & Light Corp. (& Subs.).—*Report.*—

Combined Income for 12 *Months Ended June* 30 1926 (*Including Sub. Cos.*).

Gross earns. of Elec. Pr. & Lt. Corp. and undistributed inc. of sub. cos. applicable to Elec. Pr. & Lt. Corp. after renewal and replacement (depreciation) appropriations *	$5,885,832

x Represented by 418,373 shares of $7 div. pref. stock, 110,841 shares $7 div. 2d pref. stock and 1,626,061 shares of common stock. Uncalled balance of $7,780,930 on pref. stock subscriptions, not included in assets or liabilities.

Note.—At June 30 1926 there were outstanding option warrants entitling holders to purchase an aggregate of 763,048 shares of common stock, without limitation as to time, at $25 per share.—V. 123, p. 1875.

Electrical Securities Corp.—*Bonds Offered.*—Bankers Trust Co., Jackson & Curtis and Parkinson & Burr are offering at 98½ and int., to yield about 5.10%, $1,000,000 collateral trust sinking fund 5% gold bonds (22d series).

Dated Nov. 1 1926; due Nov. 1 1956. Denom. $1,000 c*. Int. payable M. & N. without deduction for Federal normal income tax up to 2% at office of Guaranty Trust Co. of New York, trustee. Red., all or part, at 103 and int. on any int. date upon 21 days' notice.

Business.—Corporation was incorp. in 1904. Is a subsidiary of General Electric Co. and owns securities of various public utility companies.

Capitalization.—From time to time the corporation has issued series of collateral trust sinking fund bonds, collaterally secured by pledge of public utility securities. Including this issue, 22 series have been issued to date with an aggregate principal amount of $17,500,000. Three series aggregating $3,000,000 have been retired by operation of sinking funds and by funds received from the sale of underlying collateral, and the remaining 19 series, issued to a principal amount of $14,500,000, have been reduced in like manner to a present outstanding principal amount of $9,278,000, including this issue. In addition, the fifth series, now outstanding to the amount of $62,000, has been called for redemption on Dec. 1 1926.

Corporation has outstanding $1,000,000 5% cum. pref. stock on which full dividends have been paid regularly since May 1905, and $2,500,000 common stock, all owned by General Electric Co., on which dividedns of 8% annually have been paid since Jan. 1909.

Corporation also had a surplus as of Sept. 30 1926 of more than $3,100,000.

Security.—As security for the 22d series bonds, there will be pledged with the trustee preferred and common stocks of various public utility companies having a present market value of approximately $1,280,000, earnings on which are sufficient in each instance to cover total dividend requirements with a substantial margin.

Earnings.—Operations have been continuously profitable. For the 10 years ended Dec. 31 1925 earnings after taxes averaged $715,305 per year against interest requirements on all bonds now outstanding, including the 22d series, of $463,900 annually. For the year ended Dec. 31 1925 such earnings amounted to $976,730.

Sinking Fund.—A sinking fund will be provided sufficient to retire about 36% of the issue prior to maturity by purchase or by redemption by lot at 103 and int.

To Decrease Dire torate.—

The stockholders will vote Nov. 10 on authorizing the officers to execute and file a certificate changing (a) the number of directors of the corporation from 11 to 9, and (b) the location of the principal business office of the corporation from the city of Schenectady, N. Y., to the City of New York, N. Y.—V. 123, p. 2138.

Erie Lighting Co.—*Offer to Bondholders.*—

The Associated Gas & Electric system, in an advertisement, says: "The holders of 1st mtge. 5% s. f. gold bonds, due April 1 1967, of Erie Lighting Co. may for a limited time exchange them for $7 dividend series pref. stock of the Associated Gas & Electric Co. as follows: 10 shares of stock for each $1,000 of bonds, with cash adjustment for interest and dividends. The holder of a $1,000 5% bond will increase his return from $50 to $70. The present dividend policy of the Associated Gas & Electric Co. gives holders of its pref. stock the option of receiving dividends in class "A" stock upon a basis which, at current market prices, amounts to more than the cash dividend rate. Through the exercise of this option, the return exceeds these figures."—V. 123, p. 82.

Fall River Gas Works Co.—*To Issue Stock.*—

The stockholders will vote Nov. 10 on increasing the authorized capital stock (par $25) from 62,504 shares to 71,433 shares. If the increased stock is approved by the shareholders and the Massachusetts Department of Public Utilities, it is proposed to offer it to shareholders at $45 a share in the ratio of one new for each seven shares now held. The proceeds of the new stock are to be used to pay floating debt of $275,000 and to furnish part of the funds needed to complete the company's construction program.—V. 123, p. 1250.

Federal Water Service Corp.—*Stock Offered.*—Hale, Waters & Co., New York, are offering at $26 a share to yield about 7.70% an additional issue of 60,000 shares class A stock (no par value).

After dividends upon the preferred stock, class A stock is entitled to non-cumulative dividends at the rate of $2 per share per annum, payable quarterly; and, in addition, to either ½ of the aggregate amount of any further divs. declared in such year upon the class A stock and the class B stock, or to the same div. per share as is declared on the class B stock, whichever is greater. After rights of preferred stock have been satisfied, class A stock shall be preferred upon liquidation over class B stock up to $50 per share; thereafter, any assets and funds remaining are to be distributed ½ to the class A stock and ½ to the class B stock. Red. on any div. date at $110 per share. Each share of class A stock will have equal voting rights with class B stock if for any calendar year less than the $2 divs. are paid; such voting rights to continue until the $2 div. has been paid for a full calendar year. The total class B shares issued may not exceed the total class A shares issued. Transfer agent, Lawyers Trust Co. Registrar, The Equitable Trust Co. of New York. Free from present normal Federal income tax.

Data From Letter of C. T. Chenery, President of the Corporation.

Business.—The constituent companies of the corporation, now owned and presently to be acquired, supply water for domestic and industrial purposes to various communities in New York, New Jersey, Pennsylvania, West Virginia, Ohio, Michigan, Indiana, Illinois and California. In addition, sewer service is rendered in Ocean City, N. J. The total population of the territories served is estimated to be in excess of 630,000.

The physical properties are in excellent operating condition, and according to engineers who have investigated the properties, the water supply is adequate for the present needs, and, with the installation of normal additions, for the future needs of the communities served. The distribution systems now total over 1,212 miles of mains, afford fire protection with 6,086 hydrants and serve a total of 107,313 active consumers.

Capitalization Upon Completion of Financing.

a This loss from operation for the nine months ended Sept. 30 1923 represents strike costs.—V. 123, p. 1876.

Ironton Electric Co.—*Bonds Called.*—

All of the outstanding first mortgage 6% gold bonds, dated Dec. 1 1919, have been called for payment Dec. 1 next at 103 and interest at the Bank of North America & Trust Co., trustee, Philadelphia, Pa.—V. 122, p. 3339.

Kansas City Public Service Co.—*Restores Line.*—

Railway service over the Twelfth St. bridge into the Argentine district of Kansas City, Kan., was resumed on Oct. 14 by the company, pursuant to an order of Judge Kimbrough Stone in the Federal Court. The service was discontinued two years ago. The line will be known as the Argentine-Twelfth St. Line and the route is the same as that of the old Argentine line.

The Central Union Trust Co. of New York has been appointed registrar for 183,645 4-10 shares of common stock and 83,364 shares of preferre stock.—V. 123, p. 2139.

Kentucky Utilities Co.—*New Line Ready Nov. 1.*—

Completion of the company's new 11,000-volt transmission line from Paducah to Barlow, Ky., is scheduled for Nov. 1. The new line, 26 miles long, will link the towns of Barlow, LaCenter and Kenvil, placing them in direct communication with the Paducah generating center.—V. 123, p. 1996, 1876.

Key System Transit Co.—*New Directors.*—

Herbert Clayburgh, Bruce Maiden and C. P. Murdoch have been elected directors, succeeding Miles Standish, J. F. Carlston and the late P. E. Bowles.—V. 122, p. 2651.

Keystone Telephone Co. of Phila.—*Bonds Offered.*—

A. C. Allyn & Co., Inc., New York, are offering at 98½ and int., to yield over 6.10%, a new issue of $2,000,000 1st lien & ref. mtge. 6% bonds, series B.

Date Oct. 1 1926; due Oct. 1 1951. Interest payable A. & O. Denom. $1,000 and $500 c*. Red. all or part on 30 days notice on any int. date to and incl. Oct. 1 1931 at 105 and int.; thereafter to and incl. Oct. 1 1939 at 104 and int.; thereafter to and incl. Oct. 1 1941 at 103 and int.; thereafter to and inc. Oct. 1 1946 at 102 and int.; thereafter to and incl. April 1 1950 at 101 and int., and thereafter to maturity at 100 and int. Principal and int. payable at the office of Pennsylvania Co. for Ins. on Lives & Granting Annuities, Philadelphia, trustee, or at the option of the holder in New York, without deduction for normal Federal income tax not to exceed 2%. Free of Pennsylvania 4-mill tax. Corporation will refund any taxes assessed and paid by the holder upon the income derived from or on the ownership of these bonds, under the laws of any State or Commonwealth or Possession of the United States, not in excess of 5 mills per annum on each dollar in principal amount, to holders resident in such State or Possession.

Listed.—Bonds are listed on the Boston Stock Exchange.

Data from Letter of F. Clark Durant Jr., President of the Company.

Business.—The Keystone Telephone System, operating under perpetual franchises, supplies complete automatic telephone service in Philadelphia, Pa., Camden, N. J., and furnishes service also in other prosperous and growing communities in these States. By far the larger part of the company's subscribers are of a commercial nature, the service being used by the largest banks, newspapers and manufacturing establishments in both Philadelphia and Camden.

Security.—Secured by a direct mortgage on all the physical property of the company now or hereafter owned. Further secured by a pledge of $5,000,000 1st mtge. 5% gold bonds of the company, due July 1 1935, of which an additional $5,000,000 are outstanding with the public, the issue being closed at $10,000,000. The 1st lien & ref. mtge. gold bonds, therefore, now share ratably in the direct first mortgage lien of the 1st mtge. 5% gold bonds, and will be secured by a direct first mortgage upon the entire physical property of the company now owned upon retirement at maturity in 1935 of the latter issue.

Earnings.—The earnings of the company and its subsidiary for the 12 months periods ending June 30 were as follows:

	1925.	1926.
Gross earnings	$1,950,151	$2,041,645
Oper. exp., incl. maint. & taxes other than inc. taxes	1,025,428	1,041,265
Net earnings	$924,723	$1,000,380
Annual int. requirements on total mtge. debt (incl this issue)		$496,500

Net earnings for the 12 months ended June 30 1926 were thus more than twice the annual interest requirements on the total mortgage debt to be outstanding with the public including this issue.

Valuation.—Based upon appraisals by Day & Zimmermann, Inc., engineers, Philadelphia, the value of the physical properties of the company and its subsidiary is in excess of $19,000,000, or more than twice the entire principal amount of the company's mortgage debt to be presently outstanding with the public.

Capitalization (to be Outstanding upon Completion of Present Financing).

1st lien & ref. mtge. gold bonds, series B 6s (this issue)	$2,000,000
do Series A 5½s, 1955 (V. 121, p. 199)	2,300,000
First mortgage 5% gold bonds, due July 1 1935	*5,000,000
One-year 5% gold notes	700,000
$4 cumulative preference stock (no par)	40,000 shs.
Common stock (par $50)	50,000 shs.

* Closed at $10,000,000; $5,000,000 principal amount will be pledged under the 1st lien & ref. mtge.—V. 123, p. 2139.

Louisville Ry.—*Accepts Franchise.*—

The company has formerly accepted the provisions of the new franchise ordinance which was recently approved by the City Council of Louisville, Ky. The ordinance stipulates that the fare is to be continued at the present rate of 7c. for a single trip, with general transfer privileges. The company will report monthly to the Board of Public Works and on April 1 of each year file with the Board and with the General Council a statement of the investment, revenues and expenses of the preceding calendar year. —V. 123, p. 1762.

Lowell (Mass.) Gas Light Co.—*Stock Approved.*—

The Massachusetts Department of Public Utilities has authorized the company to issue, at $50 a share, 2,400 additional shares of capital stock, par $25, to be sold to employees and customers of the company. The new stock will be known as Series A.

Employees may purchase 10 shares of the stock or such amount as will bring their present holdings up to 20 shares. Customers may buy 5 shares of the stock or such amount as will bring their present holdings up to 5 shares. The proceeds of the issue will be used to retire notes outstanding as the result of capital expenditures on the company's property. See also V. 123, p. 581.

Mohawk-Hudson Power Corp.—*To Acquire Troy Co.*—

The New York P. S. Commission has authorized the company to acquire all or more than 10% of the 75,000 no par shares of outstanding capital stock of the Troy Gas Co. The corporation which owns the majority of the stock of gas and electric companies operating around Troy, N. Y., intends to issue five-sixths of a share of its $7 cumul. pref. stock and one share of common stock in exchange for each share of Troy company stock.—V. 123, p. 1634.

Montana Power Co.—*Earnings (Including Sub. Cos.).*—

	—Quar. End. Sept. 30.—		—9 Mos. End. Sept. 30—

Int. and bond discount	457,687	460,458	1,368,692	1,367,356
Balance, surplus	$1,031,537	$834,917	$3,005,303	$2,625,285

—V. 123, p. 1763.

Montpelier & Barre Light & Power Co.—*Vermont Properties Contracted for by Foshay Co.*—

The Foshay interests have contracted for, and on Jan. 15 will take over, the Montpelier & Barre Light & Power Co. and its subsidiary, the Green Mountain Power Co. of Vermont. These properties serve a population of over 50,000 people with electric light and power, being the largest operating electric property in Vermont. They serve the granite quarries and finishing sheds which comprise one of the largest granite producing areas in the world.

The properties of the Montpelier company will be taken into the Peoples Hydro-Electric Vermont Corp., a subsidiary of the Peoples Light & Power Corp., which will own all of the common stock of the Green Mountain Power Co. The Peoples Hydro-Electric Vermont Corp. already operates extensively in Vermont, owning the Burlington Traction Co. and electric properties in Vergennes and surrounding territories. The Green Mountain Power Co. is just completing a new hydro-electric development.

It is stated that by this new addition to its holdings, the Peoples Light & Power Corp. will have property valued in excess of $18,000,000.

It is announced that stockholders of the Montpelier company who desire to sell (at the same price per share as the price to be paid for stock of the corresponding class purchased from the trustees) should send their certificates, properly indorsed, to the American Trust Co., Boston, Mass., on or before Dec. 15. The date set for delivery to the purchasers and for payment by them is Jan. 15 1927. The stock trust agreement provides that the trustees may sell all of the deposited stock, but not a part thereof, at such price and terms as approved in writing by three-fourths interest of each class of stock. See also V. 123, p. 1876.

Nevada-California Electric Corp.—*Bonds Called.*—

All of the outstanding 1st lien 6% gold bonds, series A, dated Jan. 1 1916, have been called for payment Jan. 1 1927 at 103 and int. at the International Trust Co., trustee, Denver, Colo., or at the Bankers Trust Co., N. Y. City.—V. 123, p. 1382, 843.

New England Telep. & Teleg. Co.—*Earnings.*—

	—Quar. End. Sept. 30—		—9 Mos. Sept. 30—

—V. 123, p. 582.

North American Co.—*Earnings.*—

Pres. Frank L. Dame, New York, Oct. 26, says: "The consolidated income statement shows substantial increases in gross earnings and net income which are now the largest in the history of the company.

"The policy of regular quarterly stock dividends inaugurated by the company in April 1923 has been found most satisfactory to both the stockholders and the company. A conservative stock dividend policy is admirably adapted to the electric light and power business. The operating companies must keep pace with the growth of the communities they serve in order to retain exclusive rights in their territories. Past records show that the electric light and power business has doubled on the average approximately in periods of five years. I see no reason why this should not continue on account of the many new applications in the use of electricity for both domestic and commercial purposes.

"In a company such as yours about 50% of the financing should be done by bonds of subsidiaries, perhaps one-half of the balance by subsidiary preferred stocks sold locally, but, unless the holding company makes additional investments in the common stocks to keep a balanced capital structure, the credit of the subsidiary companies will be impaired. Company's dividend policy provides a substantial part of the money needed for this purpose."

Consolidated Income Statement (Company and Subsidiary Companies).

12 *Mos. End. Sept. 30*—	1926.	1925.	1924.	1923.

It is noteworthy that, of the North American System's four groups of properties, three are now producing over one billion kilowatt hours of electricity annually and the fourth, now slightly under a billion output, will probably pass this mark before the beginning of 1927. The total electric output of the North American System for the 12 months ending Sept. 30

1926 was approximately 4,700,000,000 k.w.h., making it the largest producer of electricity of any system in the country unified under single ownership.—V. 123, p. 2139.

New York Steam Corp.—*Listing.*—
The New York Stock Exchange has authorized the listing of 30,000 shares of cumulative preferred stock, $6 dividend series, without par value.
The issue of 30,000 additional shares of cumul. pref. stock $6 dividend series was authorized at the meeting of stockholders held on Aug. 24 1926, and by resolution of the board of directors Sept. 23 1926, and was approved by the New York P. S. Commission Oct. 6 1926. See offering in V. 123, p. 2139.

Oberpfalz Electric Power Corp.—*Bonds Called.*—
Certain 1st mtge. 7% sinking fund gold bonds, due June 1 1946, aggregating $14,500, have been called for payment Dec. 1 at par and int. at the New York Trust Co., 100 Broadway, N. Y. City.—V. 123, p. 983.

Peninsula Telephone Co.—*Earnings.*—
The company reports for the year ending Sept. 30 1926, gross earnings of $2,221,010, and net earnings of $890,797 after allowing for operating expenses and taxes. After providing $375,000 for annual interest on the company's $5,000,000 1st mtge. 5½% bonds, there remained a balance of $515,797.—V. 122, p. 3607.

Peoples Gas Light & Coke Co.—*Listing.*—
The New York Stock Exchange has authorized the listing of $4,235,000 additional capital stock (auth. $60,000,000) par $100 each, on official notice that it has been issued and paid for in full, making the total amount applied for $46,585,000. The additional stock was offered at par to stockholders of record Oct. 15 1926 to the extent of 10% of their holdings. Rights expire Nov. 15 1926, subscriptions to be paid for at the election of the stockholders either (a) in one payment on or before Nov. 15 or (b) in 4 installments of 25% each on or before Nov. 15 1926, Feb. 15 1927, May 16 1927 and April 19 1927, respectively, or (c) in 10 installments of 10% each, the first on or before Nov. 15, and one of the nine succeeding installments on or before the 15th day of each of the succeeding consecutive calendar months ending with the month of Aug., 1927, except that the Jan., 1927, installment shall be payable on or before Jan. 17 1927, and the May, 1927, installment shall be payable on or before May 16 1927.

Peoples Light & Power Corp.—*Bonds Offered.*—G. L. Ohrstrom & Co., Inc., New York, are offering at 95½ and int., to yield over 5.95%, $2,100,000 additional 1st lien 5½% gold bonds, series of 1941. Due July 1 1941. (See description in V. 123, p. 84.)

Business.—Corporation, through its subsidiary properties and upon acquiring properties now under contract of purchase, will supply public utility service in 12 States, serving a total population in excess of 235,000. Sale of electricity is the main source of revenue and the electric properties are, for the greater part, hydro-electric systems. These various properties divide into the following groups: (*a*) Wisconsin and Minnesota; (*b*) Iowa, Illinois, Indiana and Ohio; (*c*) Washington, Oregon and Idaho; (*d*) California; (*e*) Arizona; and (*f*) Vermont.
The physical properties of the constituent companies and the properties now under contract of purchase are as follows: The electrical properties consist of 28 fully-equipped power plants, of which 18 are hydro-electric. The total installed capacity is 14,600 h.p., of which 10,500 h.p. is hydro-electric. In addition, there is now under construction a new hydro-electric generating station, whose capacity will be 2,000 h.p., which will make a total capacity of 16,600 h.p. The properties also include power sites for further hydro-electric development which, when developed, will add approximately 19,000 h.p. to the total generating capacity. The transmission and distributing lines are in excess of 715 miles.
The gas service consists of 37 miles of mains and plants having a total daily capacity in excess of 600,000 cu. ft. The water service consists of about 169 miles of mains and 21,500,000 gallons daily pumping capacity supplying 14,070 customers. As of July 31 1926 there were 32,681 consumers.

Capitalization—	*Authorized.*	*Outstanding.*
1st lien 5½% gold bonds, series of 1941, including this issue (V.123,p.84)		$5,600,000

Oper. exp., maint. & taxes, other than Fed. taxes	846,825	901,641
Balance	$716,534	$735,063
Annual int. requirement on 1st lien 5½s, incl. this issue		$308,000

Management.—The management of corporation is in charge of W. B. Foshay Co.
[The California RR. Commission has authorized the People's California Hydro-Electric Corp., a subsidiary, to issue not exceeding $35,000 of stock and not exceeding $65,000 of bonds for the purpose of acquiring the properties of the Fort Bragg Electric Co. The applicant had applied for permission to issue $225,000 in securities for this purpose. The Fort Bragg company serves that city and also furnishes energy to Mendocino.]

Sub. Co. to Acquire Properties of Montpelier & Barre Light & Power Co.—
See that company above.—V. 123, p. 1997.

Philadelphia & Easton Transit Co., Doylestown, Pa.—*To Go Out of Business—Property to Be Sold for Junk.*—
President A. H. Sicklen, writing to the "Chronicle" Oct. 25, states that "the property will be sold for junk and the proceeds of the sale will be prorated among the bondholders." [The company operates 32 miles of road between Doylestown and Easton, Pa. Late in 1925 the Pennsylvania Edison Co. purchased the transmission line of the company for $10,000. Company at last reports had outstanding $364,400 1st mtge. 5% bonds, due Oct. 1 1940.]—V. 121, p. 2638.

Port Henry Light, Heat & Power Co.—*Control.*—
See Adirondack Power & Light Corp. above.—V. 110, p. 665.

Public Service Co. of New Hampshire.—*Bonds to be Offered.*—
Public offering of a new issue of $3,150,000 1st & refunding mtge. gold bonds, 5% series of 1956, will be made early next week by a syndicate composed of Tucker, Anthony & Co., Old Colony Corp. and Hill, Joiner & Co. Proceeds of this issue along with other recent financing are to reimburse the company for the retirement of capital obligations amounting to $1,171,500 and for expenditures made in additions to its physical properties.
The Public Service Commission of New Hampshire has issued an order permitting five companies controlled by the New England Public Service Co. in New Hampshire to effect a merger to make up the new Public Service Co. of New Hampshire. The principal companies participating in the merger are the Manchester Traction, Light & Power Co., the Keene Gas & Electric Co., the Laconia Gas & Electric Co., the Ashuelot Gas & Electric Co. and the Souhegan Valley Electric Co. See V. 123, p. 2140.

Public Service Corp. of New Jersey.—*Listing.*—
The New York Stock Exchange has authorized the listing on or after Oct. 20 of 3,557,275 shares common stock without par value, on official notice of issuance in exchange for the outstanding common stock.—V. 123, p. 2140.

Queens Borough Gas & Electric Co.—*Bonds Offered.*—W. C. Langley & Co. and Bonbright & Co., Inc., are offering at 99½ and int., to yield 5.03%, $1,500,000 additional refunding mtge. gold bonds, 5% series. Dated Sept. 1 1925, due Sept. 1 1955.

Interest payable M. & S. at the office or agency of the company in New York. Red. all or part on any int. date on at least 30 days' notice, at 107 on or prior to Sept. 1 1929 and at 1% less during each period of four consecutive years thereafter up to and including Sept. 1 1953, and at par thereafter to maturity, plus int. in each case. Denom. c* $1,000, $500 and $100, and r* $1,000, $5,000, $10,000 and multiples of $10,000. Company agrees to pay the normal Federal income tax to the extent of 2% and to refund the Penn. and Conn. personal property taxes not exceeding 4 mills per annum, and the Mass. income tax, against the holder, not exceeding 6% per annum on income derived from the bonds. Trustee, Guaranty Trust Co., New York.
Issuance.—Authorized by the New York P. S. Commission.
Data From Letter of Carleton Macy, President of the Company.
Company.—Furnishes electric light and power and gas in the Fifth Ward (Rockaway District), Borough of Queens, City of New York, and in the adjacent portion of the town of Hempstead, County of Nassau, including Lawrence, Cedarhurst, Lynbrook, Malverne, Inwood, Woodmere, Hewlett, Valley Stream and East Rockaway. Over 99% of the common stock of company is owned by Long Island Lighting Co. The electric properties of the two companies, which are interconnected by a high tension transmission line, serve substantially all of Long Island up to the New York City line and the Rockaway District of the Borough of Queens.
Purpose.—Proceeds will be used to reimburse the company for additions, extensions and improvements to the properties of the company.

Rapid Transit in New York City.—*Five-Cent Fare Referendum Is Barred from Ballot Nov. 2.*—
The proposed referendum on a five-cent fare cannot go on the ballot in the coming New York City election, the Court of Appeals decided in an opinion handed down at Albany Oct. 22. In the case of the five-cent fare the decisions of the lower courts were reversed.
Judge Cuthbert W. Pound worte the opinion upholding the right of Frank J. McCabe to bring proceedings for a peremptory order of mandamus to compel the Board of Elections to omit from the ballot the five-cent fare referendum.
The Court pointed out that in case the Board of Elections failed to do its duty and proceeded to submit a defective local law to be voted upon by the electorate, a citizen might obtain a mandamus order requiring the performance of such duty.—V. 123, p. 1998.

Shore Line Electric Ry. (Conn.).—*Sale of Land.*—
Robert W. Perkins, receiver, has been authorized to sell six tracts of land owned by the company in Essex, Preston and Norwich, Conn. The sale is the result of action brought by the United States Trust Co., New York, and the Old Colony Trust Co., Boston, Mass.—V. 118, p. 795.

Southern Sierras Power Co.—*To Refund Bonds.*—
The California RR. Commission has approved the application of this company to issue $2,470,000 1st & ref. bonds at not less than par in connection with the refunding of the outstanding 1st mtge. 6s, due Sept. 1 1936, and $300,000 6% serial bonds of the recently acquired Coachella Valley Ice & Electric Co.—V. 123, p. 2141.

Southwestern Bell Telephone Co.—*Earnings.*—

Nine Months Ended Sept. 30—	1926.	1925.
Gross revenue	$43,462,682	$36,182,202
Operating income	11,456,597	9,235,773

—V. 123, p. 845.

Southwestern Light & Power Co.—*Acquisitions.*—
The citizens of Sayre, Okla., on Oct. 7, approved the sale of the Sayre municipal lighting plant to the above company. Weatherford voted on Oct. 12 to sell the light and ice plants to the Southwestern company. The privately-owned electric system at Devol has also been purchased.—V. 123, p. 845

Springfield (Mass.) Gas Light Co.—*To Issue Stock.*—
A special meeting of stockholders will be held Nov. 1 for the purpose of authorizing an application to the Massachusetts Department of Public Utilities for authority to increase the capital stock to care for improvements and extensions to property. The amount of stock to be authorized is not specified. The capitalization now consists of $3,880,225 capital stock, par $25.—V. 120, p. 2685.

Stettin Public Utilities Co.—*Definitive Bonds.*—
Harris, Forbes & Co. announce that the definitive 1st (closed) mtge. sinking fund 7% gold bonds, due April 1 1946, are now ready at their office to be exchanged for outstanding interim receipts. For offering, see V. 122, p. 3212.

Texas Power Corporation.—*Bonds Sold.*—A new issue of $1,600,000 first (closed) mortgage 30-year 6% bonds was offered Oct. 25 at 99 and interest, to yield about 6.07%, by Emery, Peck & Rockwood, G. H. Walker & Co., Paine, Webber & Co., and Taylor, Ewart & Co., Inc. The issue was oversubscribed the day of offering.

Dated Sept. 1 1926; due Sept. 1 1956. Principal and interest (M. & S.) payable at office of Continental & Commercial Trust & Savings Bank, Chicago, trustee, or at First National Bank, New York. Denom. $1,000, $500 and $100 c*. Redeemable, all or part, on thirty days' notice on any interest date on or before Sept. 1 1932, at 105; thereafter on or before Sept. 1 1938 at 104; thereafter on or before Sept. 1 1944 at 103; thereafter on or before Sept. 1 1950 at 102; thereafter on or before March 1 1956 at 101. Company will agree to reimburse holders of these bonds if requested within sixty days after payment, for the Penn., Calif., Conn. or Kan. 4 mills and Maryland 4½ mills taxes; for the Dist. of Col., Mich. and Kentucky personal property taxes not exceeding 5 mills per $1 per annum; for the Virginia personal property tax not exceeding 5½ mills per $1 per annum, and for the Mass. income tax on the interest of the bonds not exceeding 6% of such interest per annum. Interest payable without deduction for normal Federal income tax not to exceed 2%.

Sinking Fund.—Indenture provides for a sinking fund beginning Jan. 1 1929 and extending in increasing amounts to Jan. 1 1955. These sinking fund payments aggregate $801,000 and are to be used in redemption of the first mortgage bonds through purchase or call. The sinking fund should retire one-half of this issue by maturity.

Data from Letter of Pres. F. H. Willmont, Seguin, Tex., Oct. 16 1926.

Company.—Recently organized in Texas for the purpose of constructing, maintaining and operating power plants with all necessary equipment and transmission lines. Is about to construct three hydro-electric plants on the Guadalupe River between the towns of New Braunfels and Seguin and about 30 miles northeast of San Antonio. The entire project, including the preparation of plans and specifications, has been under the direction of Fargo Engineering Co.

The three dams are to be of reinforced concrete in connection with which all lands, water and flowage rights have been acquired. Based upon extended investigations of rainfall and flowage conditions by Fargo Engineering Co. there will normally be sufficient supply of water to operate the installed capacity of 8,880 k.w. The power stations will be concrete substructures, brick super-structures and the water wheels and the electric equipment to be installed will be of the latest design.

Power Contract.—Corporation has entered into a 30-year contract expiring Dec. 31 1957 (over a year beyond the maturity of its bonds) with Comal Power Co., a subsidiary corporation of American Light & Traction Co., and affiliated corporation of San Antonio Public Service Co., under the terms of which Comal Power Co. agrees to purchase substantially all of the current which the Texas Power Corp. will be able to generate and deliver. It is estimated the average annual output will be 34,000,000 k.w.h.

For all current received Comal Power Co. is to pay at the rate of 7½ mills per k.w.h., with the proviso that during the first 15 years, while the plants are in operation its annual payments to Texas Power Corp. shall be at least $165,000, with the understanding that any excess in payments made over the contract price of 7½ mills per k.w.h. shall be adjusted in succeeding months.

This contract guarantees a minimum annual revenue of $165,000, which according to engineers' estimates will be sufficient after all operating expenses, maintenance charges and taxes to pay annual interest charges on the company's entire funded debt. This is a continuing contract and will be binding on successive owners until expiration.

Comal Power Co., which is to purchase the current, has just completed a steam station at New Braunfels with an initial installation of 30,000 k.w., and designed for an ultimate capacity of approximately 120,000 k.w., which is considered to be one of the largest and most modern in Texas.

The Comal Power Co.'s transmission lines will connect with and supply current to the lines of San Antonio Public Service Co. and South Texas Public Service Co., subsidiaries of American Light & Traction Co., West Texas Utilities Co. and Texas Central Power Co., controlled by Middle West Utilities Co. and Texas Public Utilities Co., which is operated under supervision of Electric Bond & Share Co.

Security.—Secured by a direct (closed) first mortgage on all the company's real property, dams, generating plants, flowage rights (subject to certain farm mortgages), and franchises, now owned or hereafter acquired, including the power contract but excluding certain surplus lands not essential to the project nor included in the engineers' valuations.

Capitalization—	*Authorized.*	*Outstanding.*
Common stock (no par value)	10,000 shs.	10,000 shs.
Preferred stock, $7 cumulative (no par value)	5,000 shs.	4,000 shs.
First mortgage 6% gold bonds	$1,600,000	$1,600,000
General mortgage 6½% gold bonds	400,000	400,000

Earnings.—It is estimated that corporation will have average gross earnings of $255,000 and net earnings after payment of operating expenses, maintenance charges and taxes, of $206,950, equal to 2.15 times the annual interest charge on the $1,600,000 first mortgage 6% gold bonds presently to be issued. Through the operation of the company's sinking fund, outstanding first mortgage bonds will gradually be retired with a corresponding reduction semi-annually in the amount of bond interest charges.

Third Avenue Ry.—*Agreement Reached with White Plains.*
This company and the city authorities of White Plains, N. Y., are reported to have reached an agreement whereby buses will be run for five years on all routes now covered by trolleys. Buses will re-establish service to Mamaroneck from White Plains on a 20c. fare, but trolleys will be retained to Tarrytown, N. Y., with fare increased to 10c.

Utah Power & Light Co.—*Acquisition.*—
This company has taken over the property of the Moab (Utah) Power & Light Co. with about 175 customers.—V. 122, p. 2331.

Virginia Electric & Power Co.—*Ordinances Passed.*—
The Norfolk City Council this week passed two ordinances granting the company increases in the bus and trolley fares to 10c. cash fare, 8 1-3c. tickets, and $1 50 weekly passes. The ordinances also provide for the partial rerouting of the transportation systems for the purposes of unification and improved operating economy.—V. 123, p. 1879.

Western Power Co. of Canada.—*Bonds Paid.*—
See British Columbia Electric Ry. Co., Ltd., above.—V. 112, p. 68.

Western Union Telegraph Co.—$25,000,000 *Bonds Sold.*—Kuhn, Loeb & Co. have sold at 100 and int. $25,000,000 25-year 5% gold bonds.

Dated Dec. 1 1926; due Dec. 1 1951. Denom. $1,000 and $500 c* & r*. Int. payable J. & D. Not redeemable before Dec. 1 1936. Red. as a whole but not in part, at the option of the comapny, upon not less than 60 days' prior notice, on Dec. 1 1936 or on any subsequent int. date up to and incl. Dec. 1 1946 at 105 and int., and thereafter at 100 and int., plus a premium equal to ½% for each 6 months between the redemption date and the date of maturity. Chase National Bank, New York, trustee. Both principal and interest will be payable in gold coin of the U. S. of America of or equal to the present standard of weight and fineness, and without deduction for any tax or taxes (other than Federal income taxes) which the company or the trustee may be required to pay thereon or to retain therefrom under any present or future law of the U. S. of America, or of any State, county, municipality or other taxing authority therein.

Listing.—Application will be made in due course to list these bonds on the New York Stock Exchange.

Purpose.—To reimburse the treasury of this company for expenditures made on account of extensions, additions and improvements to its plant and equipment (outside of the State of New York), and to provide funds for further extensions, additions and improvements (outside of that State).

Company.—Since its incorporation in 1851 has acquired by purchase, lease or stock ownership some 535 telegraph corporations and properties. With its 24,428 offices the company conducts a national telegraph system, supplying about 83% of the telegraph service in the United States, in addition to which, through its cable system and connections, the Western Union establishes telegraph communication with all parts of the world.

Capital Stock.—Company has outstanding $99,786,530 stock, having a present market value of approximately $143,500,000. Company has paid dividends on its stock uninterruptedly since 1874; from 1917 to 1925 at the rate of 7% per annum and since the beginning of 1926 at rate of 8% per ann.

Funded Debt.—The outstanding funded debt of the Western Union Telegraph Co. and its subsidiary companies, including this issue of bonds, will amount to $72,648,400.

Earnings.—The net income of the company, after charging all operating expenses and rentals of leased plants and taxes (other than Federal income taxes), but before payment of interest on its bonds, for the year ended Dec. 31 1925 amounted to $20,659,775, or almost 9 times such interest for the same period, which amounted to $2,336,516. For the 9 months ended Sept. 30 1926 such net income applicable to bond interest (Sept. income being estimated) amounted to $14,814,300, while the bond interest for the same period amounted to only $1,753,982. Such net income of the company applicable to interest charges for the 5 years ended Dec. 31 1925 averaged $16,998,100, or nearly 8 times the interest charges during the same period.

Issuance.—The issue and sale of the bonds are subject to the approval of the stockholders and will be submitted to the stockholders at a special meeting to be held Nov. 24 1926.—V. 123, p. 1998, 1384.

Westphalia United Electric Power Corp.—*Bonds Ready.*—Speyer & Co. announce that the definitive 1st mtge. s. f. gold bonds 6½% series due 1950, are now ready for delivery at their office, 24-26 Pine St., N. Y. City, in exchange for and upon surrender of their interim receipts. (For offering, see V. 121, p. 2640.)—V. 123, p. 1998.

Western United Gas & Electric Co.—*Earnings.*—

Common stock (par $25)	450,000	300,225

Data from Letter of H. E. Linden, V.-Pres. & Gen. Mgr.

Company.—Incorporated in California. Organized to acquire and own the assets and business heretofore conducted under the name of Navigator Instruments, Inc. (of Calif.). Company will sell instruments of precision, such as altimeters, barometers, pressure gauges and manometers (blood pressure instruments) in the United States, Mexico, Canada, Central America, South America, Australia, New Zealand, China, Japan, Fiji Islands, Samoan Islands and New Guinea. These instruments, known as Paulin System instruments, after the inventor, J. G. Paulin of Stockholm, Sweden, will be sold under a grant of exclusive selling rights in the above-mentioned countries from the well-known Swedish company Svenska Aktiebolagat Navigator, with whom Mr. Paulin is connected as Chief Engineer. The major portion of the American Paulin System's business will be wholesale distribution through established dealers.

Earnings.—It is conservatively estimated that the net profits, on a yearly scale of 3,000 instruments, will be approximately $45,000, which is more than three times the annual dividend requirements on the pref. stock, and on the sale of 6,000 instruments per year, which can be reasonably expected, the net profits will exceed $100,000, which is more than seven times such dividend requirements.

Purpose.—Proceeds will be sued for the acquisition of the assets and valuable selling rights now owned by the Navigator Instruments, Inc., and also to supply the necessary working capital to immediately carry on an active sales campaign, and for other corporate purposes.

Listing.—Application will be made in due course to list the common stock on the San Francisco Stock & Bond Exchange.

Beach Hotel Co., Chicago.—*Notes Sold.*—A. G. Becker & Co. have sold $1,750,000 1st mtge. 6% gold notes at par and interest.

Dated June 25 1926 (bearing interest from July 1 1926), due July 1 1928. Principal and interest (J. & J.) payable in Chicago. Denom. $1,000 c*. Red. all or part on 30 days' notice at 101 and int. Foreman Trust & Savings Bank, Chicago, trustee. Int. payable without deduction for normal Federal income tax not in excess of 2%, and certain State taxes will be refunded.

Data From Letter of Ronald F. Brunswick, President of the Company.

Security.—These notes are a direct obligation of the company, which owns and operates the Chicago Beach Hotel, and will be secured by a direct closed first mortgage on approximately 15½ acres of Chicago real estate. The mortgaged property will embrace approximately 11½ acres of land fronting on Hyde Park Boulevard and extending north to the present shore line of Lake Michigan, and approximately 4 acres of land to be made by fill-in, to extend from the present shore line to the new Outer Drive, now being built by the Chicago South Park Commissioners. The mortgaged property comprising approximately 689,600 sq. ft., has been independently appraised at $4,851,562, making this a 46% loan.

The Chicago Title & Trust Co. will issue its mortgage title guarantee policy in the sum of $1,750,000, the total amount of this issue, guaranteeing title of company, to the mortgaged property.

Financial.—Company is proceeding with a plan for the subdivision, improvement and sale of these properties. The trust indenture provides for partial releases of the mortgaged property on payment to the trustee of specified release prices, to be applied solely to the retirement of these notes through purchase at not exceeding the redemption price or through call by lot. The sales price of the properties under this mortgage, it is conservatively estimated, will be several times the principal amount of this issue. In addition, the company expects to realize substantial sums through the sale of other valuable contiguous land, aggregating approximately 5½ acres, which it owns.

There will also be available for the payment of interest and principal of these notes, earnings of the new Chicago Beach Hotel, owned by the company. Such earnings before depreciation, interest and Federal taxes, have been calculated by certified public accountants at $376,796 for 1924 and $374,231 for 1925 against total maximum annual interest charges of $270,000 on the company's $2,750,000 15-year 1st mtge. 6% gold bonds and this issue of $1,750,000 1st mtge. 6% gold notes. The $2,750,000 15-year 1st mtge. bonds are secured by a mortgage on the new Chicago Beach Hotel and its site of approximately 4 acres, and are not secured by any mortgage lien on any of the property covered by the mortgage securing these notes, except a first lien upon power house site which may be released from the hotel mortgage upon provision of other power facilities and payment of $5,000.

Purpose.—Proceeds of this issue and of the 1st mtge. bonds, due 1941, will be used for the retirement of outstanding obligations of the company, for the development of the company's property and for other corporate purposes.

Bethlehem Steel Corp.—*Earnings.*—In making public the statement of earnings for the third quarter of 1926, E. G. Grace, President, said:

Earnings during the third quarter of 1926, after deducting all charges and preferred dividends, were equal to $1 57 per share on the common stock as compared with $2 04 per share in the second quarter of 1926, and $0.56 per share in the corresponding quarter of 1925. Total earnings for the first 9 months of 1925 were $5 93 per share as compared with $3 53 for the first 9 months of 1925 and $1 48 per share for the first 9 months of 1924.

Operations averaged 80.3% of capacity during the third quarter as compared with 82.6% during the previous quarter, and 59.7% during the third quarter of 1925. Current operations are at the rate of approximately 82% of capacity as compared with 80% at this time in 1925.

The value of orders on hand Sept. 30 1926 was $44,553,571 as compared with $50,010,117 at the end of the previous quarter and $46,509,167 on Sept. 30 1925. With the growth of the policy of buying for immediate consumption, it is quite evident that the value of orders on hand is becoming less important as a barometer for conditions in the industry. There was a large and steady demand for most lines of products throughout the third quarter with no accumulation of stocks. The buying of seasonal products such as rails and railroad supplies while negligible during the third quarter has been substantial during October and with good demand continuing for other products the value of orders on hand has been steadily increasing since the first of the month.

The directors declared the regular quarterly dividend on the preferred stock, payable Jan. 3 1927, to stockholders of record on Dec. 3 1926.

Results for 3 and 9 Months Ended Sept. 30.

Bon Ami Co., New York.—*Common Stock A Sold.*—Dominick & Dominick and Chas D. Barney & Co., New York, have sold 80,000 shares Bon Ami Co. common A stock (voting—non-callable) at $55 a share. The offering does not represent any new financing by company.

Class A stock is entitled to preferential dividends at the rate of $4 a share a year (not cumulative). After the holders of the common B stock have received $2 50 a share as dividends in any calendar year, all further dividend payments in such year shall be distributed equally between the holders of the common A and the common B stocks, each considered as a class. Unissued stock of both classes may only be issued in the proportion of one share of common A stock to 2 shares of common B stock, so that the issued and outstanding shares of common stock shall always be in the ratio of one of common A to two of common B. Upon dissolution, whether voluntary or involuntary, one-half of all assets shall be distributed ratably to the holders of common A stock and the other half to the holders of common B stock. Transfer agent, Bank of America, New York. Registrar, Bankers Trust Co., New York.

Listing.—Application will be made to list this stock on the New York Stock Exchange.

Capitalization—	*Authorized.*	*Outstanding.*
Common A stock (no par value)	200,000 shs.	100,000 shs.
Common B stock (no par value)	400,000 shs.	200,000 shs.

Data from Letter of Eversley Childs, President of the Company.

Company.—Incorp. in 1915, in Delaware, to take over a business established in 1886. Company manufactures, through subsidiaries, and sells a fine cleaning and polishing compound, "Bon Ami." It is marketed in the form of both cake and powder under its well-known trade mark. "Boni Ami" has been favorably known as a cleansing and polishing compound for over 40 years. This has been accomplished through house to house sampling and national advertising. In late years its use has been considerably broadened, principally as a fine cleansing and polishing compound for windows, mirrors, porcelain, aluminum, brass, nickel and metal ware, painted walls and woodwork, white fabric shoes, &c. This, together with the use of labor saving machinery in the factories, has resulted in a substantial increase in earnings. The factories are located at Manchester, Conn., and Montreal, Que.

Earnings.—Net income from operations of the company and its subsidiaries, after Federal taxes, which would have been available for the $4 dividend on this common A stock during the four years and 8 months ended Aug. 31 1926, was as follows:

	Amount.	*Annual Rate per Share.*
1926 (to Aug. 31)	$718,068	*$10.25
1925	990,879	9.90
1924	891,624	8.91
1923	771,273	7.71
1922	704,378	7.04

* Estimated. The actual earnings to Aug. 31 were $7 18 a share.

The sales, expressed in dollars, have increased every year since 1913. When the price was increased in 1920, the quantity of sales declined less than 1% but they have increased in every other year since 1913.

Company will inaugurate the payment of dividends within 3 months at the annual rate of $4 a share on the common A stock.

Current Position.—Current assets on Aug. 31 1926 were over 3¼ times the current liabilities, including reserves for Federal taxes, and cash and call loans receivable alone exceeded all liabilities by more than $70,000.

Directors.—F. C. Bingham, Eversley Childs, Richard S. Childs, Wm. Hamlin Childs, Alfred W. Erickson, Frank B. Foster, Nathan T. Pulsifer, Wm. W. Robertson.—V. 116, p. 1415.

Bourne Rubber Co.—*Dividend of 4½% to Creditors.*—A third dividend of 4½% for creditors of the company was authorized on Oct. 25 under a decree entered in the Rhode Island Superior Court at Providence, R. I., by Justice Willard B. Tanner. Dividends aggregating 25% already have been paid, the Court was informed.—V. 121, p. 1105.

Brill Corp.—*To Pay Dividend on Class A Shares.*—In a letter to stockholders advising them that permanent certificates for shares of stock are ready for delivery, Secretary H. C. Wick says: "In answer to numerous inquiries received, the management takes this opportunity of advising the stockholders that it is now expected an initial dividend upon the class A stock will be paid after the close of the fiscal year now current."—V. 122, p. 2657.

Broadway Department Store, Inc., of Los Angeles, Calif.—*Debentures Offered.*—Dillon, Read & Co. are offering at 98 and int., to yield over 6.20%, $3,000,000 15-year 6% sinking fund debentures dated Nov. 1 1926 and due Nov. 1 1941.

Issue of $3,000,000 7% *1st Pref. Stock Placed Privately.*—In connection with the above offering Dillon, Read & Co. have placed privately an issue of $3,000,000 of 7% cum. first pref. stock, carrying certain common stock purchase warrants, at 99 and dividends, to yield over 7.05%.

The debentures are redeemable, all or part, by lot on any interest date on 30 days' notice at 103 to and incl. Nov. 1 1931, at 102 thereafter to and incl. Nov. 1 1936, and 101 thereafter prior to maturity. The indenture provides for an annual sinking fund payable semi-annually of $120,000, or 15% of net earnings of the preceding fiscal year after allowance for dividends on 1st pref. stock, whichever is greater, to be used in the purchase or redemption by lot of these debentures.

Company.—Was organized to acquire the Broadway Department Store which, with its predecessor, has conducted business in Los Angeles at the same location for more than 30 years. Sales for 1925 aggregated

approximately $17,000,000. The company plans to construct prior to Feb. 1 1932 a building at least seven stories in height costing approximately $1,750,000 on property adjoining the main store. The corporation holds a 94-year lease on this property. It is expected that the additional space will result in a sales increase of approximately 15%.

Earnings.—Earnings of the corporation, before Federal taxes, averaged $1,113,376 for the four years 1922 to 1925 incl. Earnings for the six months ended June 30 1926 amounted to $512,324. These earnings equalled more than six times the maximum annual interest charges of $180,000 on the debentures.

—V. 123, p. 1766.

Butterick Co., N. Y.—*Resumes Common Dividends—Also Declares 8% Stock Dividend.*—The directors on Oct. 27 declared a cash dividend of 2% and an 8% stock dividend on the outstanding capital stock, par $100, both payable Dec. 1 to holders of record Nov. 10. In 1916 a total of 2¼% in cash was paid; no dividends since. Record of payments from 1902 to date follows:

'02.	1903-06.	'07.	'08.	'09.	1910-15.	'16.	'16.'17-25
5%	4% yrly.	3%	1½	2¼	3% yrly.	2¼	None

Comment n. on the above dividends, Chairman Jos. A Moore said that they made up the entire dividend allowance for 1926 and were not regular dividend payments. "The company has earned about $3 a share for the past 10 years," Mr. Moore said. "The money has been put back into the business. That method of financing seemed to me to be wrong and I took steps to change it. With the proceeds of a bond issue during September, the outstanding preferred stock was retired and all debts paid. The company now has approximately $1,500,000 on hand, which places it in the position to apply earnings to dividends."

Mr. Moore said that plans to offer stock in the company to employees are in operation, the method being to purchase stock in the open market and allot it to employees on deferred payments. Full details of the plan have not been worked out, Mr. Moore said, although the company has been purchasing stock to be used for the purpose.—V. 123, p. 1510, 1385.

(A. M.) Byers Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of (a) $2,427,900 additional 7% cumul. pref. stock (par $100), and (b) 10,000 additional shares of common stock without par value, making the total amounts, the listing of which has been applied for (after deducting $76,700 preferred stock retired and canceled), $6,851,200 7% cumul. preferred stock and 160,000 shares common stock without par value.

Carstens' Packing Co. (and Thomas Carstens), Tacoma, Wash.—*Bonds Offered.*—Merchants' Trust Co., Wells-Dickey Co., St. Paul, and Lumbermen's Trust Co., Portland, Ore., are offering $750,000 1st (closed) mtge. 6% serial gold bonds at prices ranging from 98 and int. to 100.48 and int., to yield from 5½% to 6¼%, according to maturity.

Dated Aug. 1 1926; due serially Aug. 1 1927 to 1941. Denom. $1,000, $500 and $100 c*. Prin. and int. (F. & A.) payable at the office of Lumbermen's Trust Co., Portland, Ore., without deduction for the normal Federal income tax up to but not exceeding 2% per annum. Callable all or part on any int. date, but if in part, in inverse numerical order, upon at least 30 days' notice at 102½ and int., except that bonds called from the proceeds of the sale of mortgaged property are callable at par and int. Lumbermen's Trust Co. and Robert Emery Smith, Portland, Ore., trustees.

Company.—Organized as Carstens Brothers in 1890. The business began with a small retail butcher shop and a capital of less than $1,000. From this small beginning, with 3 employees, and almost entirely from earnings, the present organization embracing 652 employees has been built up. Present company was incorp. in 1905. Company has 2 packing plants, Tacoma and Spokane. In addition, it has 50 distributing branches and markets in 24 cities and towns throughout the States of Washington, Oregon, Idaho and Alaska.

Total assets of the company as of Dec. 31 1925 were $4,211,032, and net worth $2,433,671, represented by capital and surplus. The company carries no "good-will" account, although conservatively worth $500,000.

Business.—The business of the company is confined exclusively to meat and allied products which it distributes throughout the Pacific Northwest, including Alaska, under its well and favorably known "T. C." brand. Business has consistently shown a steady growth and has always operated at a profit, even in 1920, a post-war year of abnormal economic conditions. Figures on its kill and volume of sales for the past five years follow:

	Hogs Killed.	*Cattle Killed.*	*Sheep Killed.*	*Total Kill.*	*Total Sales.*
1921	87,504	33,314	63,455	184,273	$6,639,391
1922	96,443	34,213	46,186	176,842	6,660,691
1923	123,998	40,373	57,804	222,175	7,384,586
1924	112,070	41,990	61,563	215,623	7,468,242
1925	136,717	39,613	57,775	234,105	8,457,791

Figures on these items for the first 6 months of 1926 are well in excess of the average for the above period.

Earnings.—For the 5-year period 1921 to 1925, inclusive, after depreciation and Federal taxes of $508,040, earnings applicable to the payment of interest have averaged annually $212,983, or 4.75 times the maximum interest requirements on this bond issue.

For the 3-year period, 1923 to 1925, inclusive, after depreciation and Federal taxes of $346,745, earnings applicable to the payment of interest have averaged annually $259,599, or 5.77 times the maximum interest requirements on this bond issue.

For the first 6 months of 1926—Jan. 1 to June 30, inclusive—net earnings applicable to the payment of interest were $192,142, or at the rate of 8.54 times the maximum interest requirements on this bond issue.

Purpose.—Proceeds will be used principally to retire floating indebtedness incurred for plant improvement and additions and for other corporate purposes.

Security.—Bonds are the joint and several obligations of the Carstens' Packing Co. and Thomas Carstens, and are secured by a first (closed) mortgage on the properties of the company, valued at $1,826,179 (depreciated value).

Central Leather Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of certificates of deposit issued by Bankers Trust Co. for 7% cum. pref. stock, representing in the aggregate not to exceed $33,299,050 of pref. stock, on official notice of the issue thereof for a like par amount of said pref. stock deposited under the plan; also the listing of certificates of deposit issued by Bankers Trust Co. for common stock, representing in the aggregate not to exceed $39,701,030 of common stock on official notice of the issue thereof for a like par amount of said common stock deposited under the plan. (See plan in V. 123, p. 1881.)

Chandler-Cleveland Motors Corp.—*Sales.*—

Showing an increase of 185% over last year's corresponding figures, September sales of the Hulett Motor Car Co. of N. Y. City were the greatest of any month in the company's history, it was announced on Oct. 18. The company handles the sales of the Chandler for the Metropolitan district. Not only did the month's total establish a new record but the total of sales during the three-quarter year period just closed, was the greatest ever registered by the company, it was also announced.

W. M. S. Mead, Vice-President in charge of exports of the Chandler-Cleveland Motors Corp., says in substance: "Reports recently received from 90 of our foreign dealers, in almost as many foreign countries, indicate that the Chandler-Cleveland company will exceed all previous yearly foreign sales. Last year slightly more than 15% of our total business was export but an even higher percentage is figured for 1927."—V. 123, p. 1510.

Coldak Corp.—*Notes Sold.*—

The banking syndicate headed by Redmond & Co., who offered the $1,150,000 collateral trust 7-year 6½% convertible notes at 99½ and int., announces that the issue has been oversubscribed. A description of the notes follows:

Dated Sept. 15 1926; due Sept. 15 1933. Denom. $1,000 and $500 c*. Principal and int. (M. & N.) payable at Central Union Trust Co., New York, trustee, without deduction for Federal income tax up to 2% per annum. Corporation will reimburse to noteholder upon request the personal property tax not exceeding 5 mills per annum or the income tax not exceeding 6% per annum of any State, which includes Conn., Penna., Maryland, District of Columbia, Mich. and Mass., and any other State in which any such tax may be imposed and paid by a noteholder in respect to such notes. Red. all or part on any int. date on not less than 30 days' notice at 105 and int. if red. on or before Sept. 15 1928, the premium to decrease 1% in each 12 months thereafter, but the redemption price to be not less than 101, subject to exercise of the conversion right until the tenth day before the redemption date.

Convertible on and after April 1 1927 until maturity or the tenth day before redemption date at the principal amount of the notes into the class A stock of the corporation at the following prices for such stock: $12 per share beginning April 1 1927, for one year; $14 per share beginning April 1 1928, for one year; $16 per share beginning April 1 1929, for one year; $25 per share beginning April 1 1930, until maturity.

Company.—Is engaged in the manufacturing and selling of electrical refrigeration machines for household apartment and commercial usages. Was incorp. in Delaware in Jan. 1926 and acquired the assets owned, used and controlled by a predecessor company. Has recently acquired the entire capital stock of Alaska Refrigerator Co., also engaged in manufacturing refrigerators (V. 123, p. 1764).

The Coldak unit during the past six years has been thoroughly tested, installations in hundreds of homes and many apartment houses having proved it to be in actual operation a perfected product. Engineers who have spent years of study on electrical refrigeration pronounce it to be a superior machine. A few of its advantages are its simplicity of design, multiple distribution of refrigeration (over 20 refrigerators can be cooled by a single machine), minimum of vibration and noise and a very low service charge.

The acquisition of the Alaska Company will not interfere with the manufacturing and distributing of its products but will provide a larger market and enable the Coldak Corp. to produce complete refrigerating units.

Listing.—The notes have been admitted to the Boston Stock Exchange list. See also V. 122, p. 2144.

Congress Cigar Co., Inc.—*Definitive Certificates Ready.*—

Goldman, Sachs & Co. announce that temporary stock certificates for capital stock may now be exchanged for definitive certificates at the office of the Equitable Trust Co. of New York, 37 Wall St., N. Y. City.—V. 123, p. 2145.

Connor Lumber & Land Co.—*Bonds Called.*—

All of the outstanding bonds dated Nov. 1 1921 have been called for redemption on Nov. 1 1926 at the First Wisconsin Trust Co., Milwaukee, Wis., or, at the option of the holder, at the Illinois Merchants' Trust Co., Chicago, Ill. The bonds due May 1 and Nov. 1 1927 are redeemable at 101 and int.; those due May 1 and Nov. 1 1928 at 102 and int.; May 1 and Nov. 1 1929 at 103 and int.; May 1 and Nov. 1 1930 at 104 and int.; May 1 and Nov. 1 1931 at 105 and int.; May 1 and Nov. 1 1932 at 106 and int.; May 1 1933 at 107 and int., and those due semi-annually from Nov. 1 1933 to May 1 1938 incl. at 102 and int.—V. 119, p. 329.

Continental Asphalt & Petroleum Co.—*Sale.*—

The "Chronicle" has been informed that the above corporation has passed through receivership and is now out of business.—V. 121, p. 1351.

Consolidated Cold Storage Co.—*New Financing, &c.*—

It is reported that additional cold storage facilities will be provided in Philadelphia by this company, which is said to be perfecting plans for the erection of a new warehouse and for a 25-year lease of the cold storage facilities to be provided by the new warehouse now being erected jointly by the Baltimore & Ohio RR. and the Reading Co., as part of their new fruit, vegetable and produce terminal, a terminal which will be one of the largest of its kind in the world.

It is reported that the financing will be handled by a group managed by Spencer Trask & Co., Brown Brothers & Co., Howe, Snow & Bertles ,Inc. and Harrison, Smith & Co.

Cudahy Packing Co., Chicago.—*Stock Increased.*—

The stockholders on Oct. 26 increased the authorized common stock from $26,449,500 ($21,249,500 outstanding), par $100, to $36,449,500, par $50. Two shares of new stock, par $50, are to be issued in exchange for each share of present common stock.—V. 123, p. 1882.

Deere & Co. of Moline, Ill.—2¾% *Accum. Pref. Div.*—

The directors have declared a regular quarterly dividend of 1¾% on the pref. stock, together with an extra dividend of 2¾% on account of accruals, both payable Dec. 1 to holders of record Nov. 15. An extra dividend of ½ of 1% was paid on the pref. stock in each of the taree previous quarters. After payment of the dividend just declared, there will remain 10% in arrears on this issue.—V. 123, p. 586, 1511.

Dodge Bros., Inc.—*Export Sales Increase.*—

During the first nine months of 1926 exports have totalled 31,368 passenger cars, trucks and buses, compared with 25,492 in the corresponding period last year, a gain of 22.7%. This compares with an estimated increase of 4% for the automotive industry as a whole. According to D. T. Stanton, director of export sales, Australia and South America are proving especially receptive markets for Dodge Brothers products. —V. 123, p. 2145.

(E. I.) du Pont de Nemours & Co., Inc.—*Issues Quarterly Statement.*—

The company for the first time in recent years has issued a quarterly statement of earnings.

The statement shows that total income for the three months ending Sept. 30 1926 amounted to $13,874,874. After deducting provision for Federal taxes and interest on funded debt, net income amounted to $13,437,856. Debenture dividend amounted to $1,183,907, leaving $12,253,949 earned on common stock. On the basis of the 1,330,829 shares then outstanding, this is equal to $9 21 per share, as compared with $4 74 per share for the quarter ending Sept. 30 1925 and $1 53 per share for the quarter ending Sept. 30 1924.

The income from investment in General Motors for three months ending Sept. 30 1926 amounted to $8,815,641, equal to $6 62 per share.

The income statement for the quarter and nine months ended Sept. 30 follows:

The consolidated balance sheet as of Sept. 30 1926 shows total assets of $2,154,705. Current assets are given at $728,972 and current liabilities at $97,287. Company surplus is $1,483,963.—V. 123, p. 1512.

Fabrics Building, Chicago.—*Bonds Offered.*—

De Wolf & Co., Inc., Chicago, and A. B. Leach & Co., Inc., New York, are offering at 100 and int. $1,350,000 1st mtge. (fee) 6¼% sinking fund gold bonds (closed issue).

Dated Sept. 15 1926; due Sept. 15 1946. Int. payable M. & S. Denom. $1,000, $500 and $100 c*. Red. all or part on any int. date upon 60 days' notice at 103 and int. to and incl. Sept. 15 1931; at 102 and int. thereafter to and incl. Sept. 15 1941; and at 101 and int. thereafter to maturity. Principal and int. payable at Foreman Trust & Savings Bank, Chicago, trustee, without deduction for normal Federal income tax not to exceed 2%. Among the State taxes refundable upon proper application are the following: Penn. and Conn. 4 mills tax, Maryland 4½ mills tax, Calif. 5 mills tax, Kansas 2½ mills tax, Kentucky 5 mills tax, Mass. 6% income tax on int., New Hampshire 3% income tax on int.

Data from Letter of Lewis E. Berger, President of Franklin St. Building Corp.

Fabrics Building.—Is situated at 323-333 South Franklin St, between Jackson Boulevard and Van Buren St., Chicago, in the heart of the whole-

sale section and adjacent to the financial and insurance districts. The building is a modern store, office and garage structure, of strictly fireproof reinforced concrete construction, containing a total area of 152,475 sq. ft. The property was completed in 1925 and is 100% leased and occupied. To accommodate present demand for additional office space, a 6-story addition will be presently erected on the rear section (now 6 stories in height), which will contain approximately 32,625 sq. ft. and make the entire building a uniform height of 12 stories with a total area of 185,000 sq. ft. The foundations and equipment of the present building, including plumbing, heating and elevator service, were designed to serve the addition now to be built.

Security.—Secured by a closed first mortgage on the land in fee, fronting 100 ft. on Franklin St. with a depth of 153 ft. and the building, covering the entire lot area, including the 6-story addition about to be constructed. Appraisals of the land and building as made by Mark Levy of Mark Levy & Brother, are as follows: Land, $768,686; building, $1,542,215; total value of security, $2,310,901. The total first mortgage bond issue thus represents less than 59% of the fair market value of the land in fee and building (including additional stories provided for).

Leases and Rental Demand.—The present building is 100% leased and occupied and is the recognized centre in Chicago of the cotton and silk fabrics business. The additional office space to be built will be leased to firms engaged in the same lines of business, and based on applications and inquiries it is expected that leases will be concluded for all of the new space before completion. Among the present tenants are: H. R. Mallinson & Co., Inc.; Cone Export & Commission Co.; Turner-Halsey & Co.; Wellington Sears & Co.; Lawrence & Co.; Hunter Mfg. & Commission Co.; and William Iselin & Co. The garage is leased until Oct. 31 1936, to the F. B. Tire & Accessory Co.

Earnings.—The earnings statement of the property on the basis of leases in effect Nov. 1 1926, and prevailing operating expenses and on estimated income and expenses for the space to be added, are as follows:

Rentals from leases now in effect for stores, offices and garage space	$188,368
Rentals resulting from addition	45,840
Total	$234,208
Operating expenses (including taxes and insurance)	53,712
Balance available for interest	$180,496

Sinking Fund.—Mortgage provides for monthly payments to the trustee equal to 1-12 of the annual interest and sinking fund requirements of this issue, these payments aggregate as follows: Oct. 15 1926 to Sept. 15 1928, incl., at the rate of $84,375 per annum; Oct. 15 1928 to Sept. 15 1936, incl., at the rate of $115,000 per annum; Oct. 15 1936 to Sept. 15 1947, incl., at the rate of $120,000 per annum. The unexpended balance of this fund after payment of current bond interest will be applied by the trustee from time to time to the purchase of the bonds of this issue in the open market at or below the current redemption price. It is estimated that over 75% of this bond issue will be retired at or before maturity by operation of the sinking fund.

First National Properties, Inc.—*Definitive Bonds Ready.*—The Guaranty Trust Co. of New York is now prepared to exchange its interim receipts for definitive 1st mtge. 6½% serial gold bonds. See V. 122, p. 2954.

Fisk Rubber Co.—*Wipes Out Dividend Arrearages on 2d Pref. Stock.*—The directors have declared a cash dividend of $35 a share on the outstanding $995,800 7% 2d pref., payable Dec. 1 to holders of record Nov. 15, thus wiping out all accumulations on this issue. The action leaves the company free of all past due capital obligations.

It is officially stated that the company will close its fiscal year Oct. 31 free from bank obligations and with a ratio of quick assets and liabilities of at least 10 to 1.—V. 123, p. 1512.

Fleischmann Co.—*Earnings.*—

Period—	—Quar. End. Sept. 30— 1926.	1925.	—9 Mos. End. Sept. 30— 1926	1925.
Net income, after charges and taxes	$4,738,984	$3,766,268	$13,476,951	$9,854,625

—V. 123, p. 587.

General Motors Corp.—*Preliminary Earnings for Third Quarter.*—According to an official summary of the income account and balance sheet issued Oct. 26, the earnings of the corporation for the 9 months ended Sept. 30 1926 not only exceeded any 9 months in its history, but also were greater than the earnings of any previous entire calendar year. The statement follows:

Net earnings, including the corporation's equity in subsidiary companies, were $149,317,553, compared with $80,921,018 for the corresponding period of 1925. After deducting $5,733,325 on account of dividends on the senior securities, there remains $143,584,228 applicable to the common stock. This is equivalent to $17 77 per share on the common stock, which compares with $9 71 per share for the corresponding period of 1925, after making allowance for the difference in the number of shares outstanding. It will be recalled that on June 30 1926 the 40% minority interest in Fisher Body Corp. was acquired, and in Sept. a 50% stock dividend was paid. The earnings per share are, therefore, calculated on the basis of 8,700,000 shares outstanding subsequent to June 30, and prior to June 30 on the basis of 7,742,399 shares of stock, or the equivalent of the 5,161,599 shares then outstanding after giving effect to the 50% stock dividend.

While the earnings applicable to the 40% minority interest in Fisher Body Corp. were not consolidated with the earnings of General Motors Corp. prior to June 30 1926, it is nevertheless of interest to note that the combined net earnings of the two corporations for the first 9 months of 1926 aggregate $157,731,833, compared with the net earnings of General Motors of $149,317,553 shown above.

The balance sheet as of Sept. 30 1926 shows that cash and marketable securities were $169,223,579.

For the 9 months ended Sept. 30 sales to dealers totaled 996,321 cars, compared with 612,047 in 1925, an increase of 63%. For the same period retail sales by dealers to users were 962,295 cars, compared with 624,389 in 1925, an increase of 54%. For these 9 months both the corporation's sales to dealers and the dealers' sales to users were greater than the total figures for any previous entire calendar year. The indicated increase in stock of cars was necessary to allow the corporation's 20,000 dealers to have a complete line of the various new models introduced during the month of August, and to support the increased volume of business to the dealers.

Forms New Subsidiary Co.—Pres. Alfred P. Sloan Jr. recently announced the incorporation in Delaware of the *Delco Remy Corp.* to take over the sale of products manufactured by the Dayton Engineering Laboratories Co. of Dayton, Ohio, and the Remy Electric Division at Anderson, Int. The announcement furhter states:

These producing divisions will continue to carry on the manufacturing operations at both Dayton and Anderson. The change does not affect the staffs as both units have been operating under the same executive management. Trade contacts will continue as heretofore. C. E. Wilson is President and General Manager of the new corporation with G. B. Stone, Vice-President and General Sales Manager.—V. 123, p. 2002, 2146.

Commenting on the operations for the quarter, Kerwin H. Fulton, President, said:

"In the first 9 months of this year, after providing for regular dividends for the three quarterly periods on the 6% preferred stock and on the class A stock, and for two regular dividends on the common stock, the company earned a surplus of $1,495,940.

"In the third quarter, after providing for dividends on the 6% preferred and class "A" stocks, there was a balance of $930,383 which is at the quarterly rate of $1 45 per share on the common stock without taking into consideration the participating features of class A stock."—V. 123, p. 1639.

Gillette Safety Razor Co.—*Export Business.*—

Thomas W. Pelham, director of sales, is quoted in substance as follows: "The export business of the company now comprises 40% of the total business of Gillette Co. Within another 5 years it should be 50%. Gillette now has branches in most countries of the world under locally-organized companies. The managing directors are Americans who are acquainted with the company's policies. The remaining personnel is native.

"Our prices are the same throughout the world—as near as the various currencies allow—and if there is a duty we pay it and do not add it to the price. We have almost daily cables from branches, and weekly and monthly reports of sales, cash, profits, styles, &c. We also have contact men from our sales, statistical and accounting departments in these countries. About 50% of our foreign sales are made by managing directors who travel around their respective territories as salesmen. In smaller countries such as Cuba, we have agencies rather than branches. However, in all of these agencies we have one of our own salesmen traveling. We find that an agent can do the business for us at a smaller cost—roughly one-half what it would cost us to maintain a branch.

"We have agencies in Mexico and Cuba; a branch in Brazil; an agent in the Argentine, where our business amounts to about $1,000 000 a year; a man who tours the west coast of South Africa; we have an agent in Australia and one in New Zealand, each with one of our salesmen; an agent in the Philippines, China, Japan, India, &c., and even in the negro part of West Africa we recently had an order for 50,000 razors and as many packages of blades."—V. 123, p. 2146, 2002.

Goodyear Tire & Rubber Co.—*Preferred Dividend Accruals—Litigation re. Management Stock, &c.*—President P. W. Litchfield, Oct. 22, in a letter to the stockholders and voting trust certificate holders, says:

Under date of Aug. 18 1926 I communicated by letter to you that various plans were being considered by the management of the company for the adjustment of deferred dividends on the preferred stock, then amounting to $29 75 per share, either separately or in conjunction with refunding the company's outstanding senior securities—first mortgage bonds, debentures and prior preference stock.

On Oct. 4 1926 I presented to the board of directors at a meeting held that day, a communication dealing with these subjects and embodying a plan designed to conserve the company's cash resources and thus to place the company in a stronger position with respect to dividends on preferred and common stock through a large reduction in the existing annual sinking fund charges. By unanimous vote at that meeting I was authorized to confer with the voting trustees of the preferred and common stock acting under voting trusts created at the time of reorganization of the company in 1921, for the purpose of getting their views upon the matters referred to in my communication to the board.

Such conferences have been held and the results thereof were reported by me to the directors at a meeting held Oct. 14 1926. From the facts disclosed in such report and from my general knowledge of the situation, I am of the opinion that if the controlling majority of the common stock voting trustees adhere to their views as now expressed, no plan for refunding the senior securities and working out an adjustment between preferred and common stockholders can be accomplished except at the price of maintaining the common stock voting trust. The holders of the management stock have expressed not only willingness but a desire to have accomplished a refunding which will permit them to surrender the management stock. I also understand that the preferred stock voting trustees are willing voluntarily to dissolve the preferred stock voting trust in connection with a refunding of the senior securities and an adjustment between preferred and common stockholders provided the common stock voting trustees will likewise dissolve their trust.

In view of this situation, a majority of the directors were not willing, in fairness to the preferred stockholders, further to delay relief in the matter of their dividend accumulation. Although, as the stockholders have been previously advised, the company is not in a position at this time to pay off in cash the entire preferred stock dividend accumulation (amounting to $19,361,181 as of Oct. 13), a majority of the directors at their meeting on Oct. 14 were of the opinion that a partial cash payment might be made at this time, and accordingly, by a vote of 8 to 5, the board directed that payment of $4 75 per share against the accumulated arrearages be made Nov. 15 to holders of preferred stock of record Oct. 25, thereby reducing the dividends in default to $25 per share.

At the same meeting the directors rejected, also by an 8 to 5 vote, a suggestion that the entire preferred stock dividend accumulation be funded through an issue of additional preferred stock. In view of the heavy sinking funds under our present senior financial structure, it seemed inadvisable to a majority of the board to fund the entire preferred stock dividend accumulation in this manner unless the senior securities should at the same time be replaced by others having more moderate sinking fund requirements so that regular payment of current dividends on the preferred stock outstanding, if augmented by such dividend funding, could be more easily and certainly maintained, as I believe would be possible if the refunding plans suggested in my letter of Oct. 4 were adopted.

Following the voting of the $4 75 per share payment on account of the preferred stock dividend accumulation, the directors declared the way still to be open to the reception and consideration of suggestions for the adjustment of the remaining dividend accumulation (amounting to $25 per share) and the refunding of senior securities to make such adjustment practicable.

I again urge that stockholders decline to give proxies to, or to deposit stock with, any self-constituted committee from which they may receive communication, but that they maintain full freedom to act independently. As above indicated, no such committee has any official connection with the company or its management.

Certain litigation in regard to the management stock and the directors of the company selected by the management stock has been started in the Ohio courts. Proper defense is being interposed and it is not felt that the litigation need cause stockholders any uneasiness.—V. 123, p. 2146.

Principal, interest and sinking fund payable out of rentals paid by Hartman Furniture & Carpet Co. of Illinois, under a lease guaranteed by the Hartman Corporation.

Dated Oct. 1 1926; due Oct. 1 1941. Principal and interest (A. & O.), payable in Chicago and New York. Redeemable, all or part, on any interest date upon 30 days' notice at following prices and interest: 102½ on or before Oct. 1 1929; thereafter and on or before Oct. 1 1932, 102; thereafter and on or before Oct. 1 1935, 101½; thereafter and on or before Oct. 1 1938, 101; thereafter and on or before April 1 1941, 100½. Denom. $1,000, $500 and $100 c*. Interest payable without deduction for normal Federal income tax not in excess of 2%; Penn. 4 mill tax refunded. Foreman Trust & Savings Bank, Chicago, trustee.

Data from Letter of Martin L. Straus, Pres. Hartman Corp., Chicago, Oct. 20.

Organization and Business.—Hartman Realty Trust has been organized to acquire title in fee simple for the benefit of Hartman Furniture & Carpet Co. of Illinois, a wholly owned subsidiary of the Hartman Corp., to real estate located in Chicago, formerly owned by the company, and to lease such properties.

The Hartman Corp., through ownership of the entire capital stock of subsidiary companies, operates a chain of 16 retail furniture stores. Hartman Furniture & Carpet Co., Illinois, the principal subsidiary, owns and operates 11 modern stores in Chicago, while the other subsidiaries own one retail store in each of the following cities: Omaha, Denver, Minneapolis, Milwaukee and St. Joseph. The Hartman Corp., organized in Virginia in 1916, is the outgrowth of a business in operation under this name since 1888.

During the past year the corporation discontinued its mail order business, leasing its mailing lists for a substantial revenue. It is now devoting its entire attention to sales through its retail stores of furniture and house furnishings, largely on credit and the proceeds of the present issue will be used to increase the working capital of Hartman Furniture & Carpet Co. of Illinois, to construct a garage and for other corporate purposes of the company.

Properties.—Properties to be acquired by Hartman Realty Trust, and leased, according to the terms noted herein, consist of valuable well-located land and buildings, situated principally near the Central Manufacturing District, Chicago. The properties are situated between 39th and 41st streets, on Wentworth Ave. and La Salle St., except for a small parcel on 59th St. and Stewart Ave. Buildings are devoted to warehouse, delivery and garage purposes and their excellent location indicates a ready market and a permanent value for the properties. They consist of modern, well-built structures, with an aggregate floor space of over 474,000 sq. ft.

Valuation.—The total reproduction value, less depreciation, of the properties to be mortgaged, as certified by independent appraisers, is $1,682,643. Such properties include a garage to be presently constructed at a cost of approximately $125,000.

Lease.—All of the above properties are to be leased to Hartman Furniture & Carpet Co. of Illinois, for a period expiring not earlier than one year after the maturity of these bonds at a net rental sufficient to pay all interest, premium and sinking fund charges, and the principal amount of these bonds outstanding at maturity. Company further agrees to maintain the properties and pay all insurance and taxes.

The performance of Hartman Furniture & Carpet Co. of Illinois, under the terms of the lease is to be guaranteed by the Hartman Corp.

Earnings of the Hartman Corporation.—Consolidated net earnings of Hartman Corporation available for dividends, after all charges, including Federal taxes, during the past four calendar years, have been reported as follows for the years ended Dec. 31:

Net Profits Available for Dividends.

1922.	1923.	1924.	1925.	4-Yr. Avg.
$1,605,376	$1,776,399	$1,164,339	$1,254,175	$1,450,072

For the first nine months of 1926 net retail sales totaled $14,121,263 as compared to $10,870,172 for the first nine months of 1925, an increase of 29.9%.

Earnings of Hartman Furniture & Carpet Co. of Illinois have always been the principal factor in the earnings of the Hartman Corp., and in 1925 were equal to $972,902, or 77% of the consolidated net earnings of Hartman Corp. Rental payments to meet interest and sinking fund will constitute an operating charge of Hartman Furniture & Carpet Co., of Illinois.

Sinking Fund.—Under the terms of the sinking fund, Hartman Realty Trust covenants to pay to the trustee in cash or bonds at par value on Aug. 15 1927, and on each Feb. 15 and Aug. 15 thereafter $16,000 plus an amount equal to interest accrued to the next interest date on bonds previously retired by means of such sinking fund. These payments are calculated to retire approximately 54% of the issue before maturity.

Hood Rubber Co.—25% *Stock Dividend, &c.*—

A special meeting of stockholders has been called for Nov. 1 to authorize the issuance of 30,000 shares of common stock as a 25% stock dividend, and 50,000 shares of common stock and $5,000,000 10-year convertible notes recently sold by bankers. Compare V. 123, p. 1768 and 1883.

Note.—The assets and business of Aetna Explosives Co., Inc., were purchased June 7 1921 by Hercules Explosives Corp., a subsidiary of Hercules Powder Co. and consolidated in the balance sheet. The Aetna bonds outstanding were assumed by Hercules Explosives Corp.—V. 123, p. 2003.

Houston Gulf Gas Co.—*Earnings.*—

This company which started operations in the spring of 1926, reports gross earnings for Sept. of $245,076 and a net after operating expenses and taxes of $154,102. The company reports that in the Refugio field alone, it has approximately 450,000 cu. ft. of open flow gas attached to its pipe line. This is approximately 10 times the capacity of the company's line. —V. 123, p. 1633.

Hugo Stinnes Industries, Inc.—*Two Companies Formed in Maryland to Finance Stinnes Interests.*—

Full details of the financing of the Stinnes interests of Germany by a group of American investment organizations were made public at Chicago, Oct. 28. The first announcement that $25,000,000 of securities would be sold in this country was made in Berlin about two weeks ago by Hugo Stinnes Jr., son of the famous German industrialist. Two American corporations, Hugo Stinnes Industries, Inc., and Hugo Stinnes Corp., are being created (incorp. in Maryland Oct. 23 1926), and $12,500,000 of securities of each organization have been underwritten by Halsey, Stuart & Co., Inc., A. G. Becker & Co. and Newman, Saunders & Co., Inc. Public offerings of the securities will probably be made in the near future. A statement issued by the bankers further states:

Hugo Stinnes Industries, Inc. (capitalized at 300,000 shares capital stock, no par value), will issue $12,500,000 20-year 7% debentures, due Oct. 1 1946. The Industries, all of whose capital stock will be owned by the Hugo Stinnes Corp. (capitalized at 1,200,000 shares capital stock, no par value) will own or control stocks representing majority interests in a group of corporations engaged in the whole field of production, transportation and wholesale and retail distribution of coal and coke, and doing an international business. These industries, which will constitute the major activity of the Stinnes family in the future, also include several important by-product plants and related enterprises, producing and selling gas, electric power, chemical products, glass, brick, &c.

Hugo Stinnes Corp., which will issue $12,500,000 10-year 7% notes, due Oct. 1 1936, in addition to acquiring all of the stock of the Hugo Stinnes Industries, Inc., will also acquire, by stock ownership, the control of a group of diversified manufacturing enterprises not related to the coal industry, income producing real estate, both city and country, including important hotels, office buildings, apartment houses and extensive farm and timber lands, marketable securities and long term accounts receivable. The city real estate includes seven hotels, among them the Hotel Esplanade of Berlin, one of the largest and most luxurious hotel buildings in Europe, and the Atlantic at Hamburg; three large office buildings in Berlin, one in Hamburg, and 36 smaller office buildings, apartment houses and residences. While the most part of the properties are in Germany, there are some coal terminal and distributing facilities in Holland, Belgium, Denmark, Sweden and Italy, and timber lands in Sweden.

It is planned to liquidate the larger part of the manufacturing plants not related to the coal industry, as well as part of the real esttae, marketable securities and long term accounts receivable, as favorable opportunities present themselves.

In a formal statement explaining the financing, the investment houses say:

The improved conditions in Germany and the strengthened position of the companies constituting the Stinnes holdings makes the present a logical time for financing on a sound and permanent basis, thus affording the opportunity to retain and operate successfully those properties out of which the original Stinnes fortune was created and built up; also, over a period of time which will allow ample opportunity for the realization of fair values, to dispose of such assets as are not essential to the revised plan of operation.

The adoption of the plan which will result eventually in the concentration of the Stinnes family interests in the coal and associated industries is not a surprising one, for coal was the foundation of the family fortune. The family has been engaged in the industry since 1808 and the principal coal mine has been controlled by the family since 1858. The elder Hugo Stinnes first demonstrated his genius as a business organizer when he started the coal terminal and marketing organization in 1893.

International Cement Corp.—*Earnings, &c.*—

Hayden, Stone & Co., in a circular dealing with the company state in part: The corporation is in an extremely strong financial position. It has no funded debt, the $2,176,583 in 1919 having been completely eliminated by 1924. Its current position is excellent: current assets being over 3 time current liabilities: cash exceeding $2,000,000; and net quick assets exceeding $5,700,000. Very liberal deductions from earnings have been made for depreciation and depletion. The productive capacity at the beginning of 1927, when present construction is completed, will be carried at a valuation net of depreciation of less than $2 30 per barrel.

Earnings for the first 9 months of 1926 were equivalent to $4 75 per share on the 562,500 shares of stock now outstanding. Estimate of earnings for the last 3 months give $6 25 for the full year. The above are on the basis of 562,500 shares whereas this amount has been outstanding only since Aug. 11 (increased from 500,000 shares). The 1926 earnings also do not include earnings to be derived from the increased productive capacity which will be available at the beginning of 1927.

Consolidated Balance Sheet as of Aug. 31 1926 (Incl. Subs.).

International Mercantile Marine Co.—*J. P. Morgan and Charles Steele Return to Board.*—

J. P. Morgan and Charles Steele, a member of J. P. Morgan & Co., were restored on Oct. 28 to the directorate of the International Mercantile Marine Co., from which they resigned when negotiations were being conducted by the London firm, Morgan, Grenfell & Co., for the sale of the White Star Line to a British shipping syndicate headed by Furness, Withy & Co. (See V. 122 p. 2509.)

In announcing the election of Mr. Morgan and Mr. Steele to the board, the International company explained that negotiations for the sale of the White Star Line to interests with which Morgan, Grenfell & Co. were identified had been terminated. It was further explained that Mr. Morgan and Mr. Steele had "retired from the board in April for the reason that the London firm of Morgan, Grenfell & Co. was interested in the syndicate negotiating for the purchase of the White Star Line."—V. 123, p. 719.

International Paper Co.—$25,000,000 *Debentures Sold.*—A syndicate headed by Bankers Trust Co., Harris, Forbes & Co., Lee, Higginson & Co., Blair & Co., Inc., the Union Trust Co. of Pittsburgh, Continental & Commercial Co., Halsey, Stuart & Co., Inc. and Redmond & Co. have sold at 98 and int. to yield over 6.20% $25,000,000 6% convertible gold debentures.

Dated Oct. 1 1926; due Oct. 1 1941. Int. payable A. & O. Principal and int. payable in New York or Boston in United States gold coin or in Montreal in Canadian gold coin, without deduction for any U. S. Federal income tax not exceeding 2%. Penn. 4 mills tax refundable. Red. all or part on the first day of any month on at least 30 days' notice at 102½ through Oct. 1 1927; at 102 through Oct. 1 1932; at 101½ through Oct. 1 1935; at 101 through Oct. 1 1938; at 100½ thereafter prior to maturity, incl. interest in all cases. Denom. $1,000, $500 and $100 c*. Chase National Bank, New York, trustee.

Convertible on or after April 1 1927 to and including the date of maturity, into cumulative 7% preferred stock at the rate of one share for each $100 debenture. At the time of any conversion on or before Oct. 1 1928 holders shall have the right to purchase common stock at the rate of $50 per share, on the basis of one share of common stock for each $1,000 of debentures so converted. In case of debentures called for redemption, these privileges may be exercised within the period provided in the indenture.

Listing.—Application will be made to list these debentures on the New York Stock Exchange.

Data from Letter of Pres. A. R. Graustein, New York, Oct. 27.

Company.—Organized in 1898. Is, with its subsidiaries, the largest manufacturer of paper in the world and one of the largest holders of water power in North America. The capacity of its pulp and paper mills is more than twice as great as that of any other company on this continent. It now has in operation 21 paper and pulp mills, including some of the largest and most efficient plants in the world.

Growth.—There has been a steady and substantial increase in demand for company's principal products. The consumption of newsprint paper in the United States has practically doubled between 1915 and 1925 with an almost unbroken record of annual growth averaging 6.6% a year. This year consumption is running at a rate of 15% or more in excess of last year's record. There has also been a large increase in the demand for sulphite pulp due both to the increased consumption of book and magazine papers and to its use as a raw material by the rayon industry.

Company is still further advancing its commanding position by following a definite and carefully worked out program for the enlargement of its present manufacturing facilities to meet this steadily increasing demand and for the development of its extensive water powers and other latent resources. At the Three Rivers newsprint mill, 4 new machines have been added during 1926, bringing the total capacity of the mill up to 700 tons of newsprint per day. The 600 ton Gatineau newsprint mill is rapidly approaching completion and it is expected that by July 1927 the entire mill will be in operation. The enlargement of the Kipawa sulphite mill has been completed and the mill is now producing at the rate of 250 tons of bleached sulphite pulp a day. Company is furthermore extending its recently acquired kraft paper mill in Bastrop, La., and is planning the construction of a new kraft paper mill in the South as well as substantial improvements to others of its American mills.

Hydro-Electric Development.—The water powers which the company and its wholly owned subsidiaries now have in operation or under construction aggregate 600,000 h.p. (500,000 h.p. hydro-electric and 100,000 h.p. hydraulic), capable of being increased through further development and through utilization of undeveloped sites to about 1,400,000 h.p. The principal hydro-electric development now under way is the project being undertaken by the company's wholly owned subsidiary, Gatineau Power Co., for the installation on the Gatineau River of a capacity of 373,500 h.p. at three plants, two of which are expected to be in operation early next year and the third by the fall of 1928. Long term contracts for the sale of over 90% of the primary power to be generated by these installations have already been executed with the Ontario Hydro-Electric Power Commission and others, which, with the sale of the remaining power not yet contracted for, it is estimated, will produce net earnings amounting to over twice the annual interest charges on the $50,000,000 bonds and debentures (of which $12,500,000 bonds are held in escrow for completion of initial development) issued by Gatineau Power Co. to finance this construction program.

Mill Property.—Company and wholly owned subsidiaries own 21 paper and pulp mills located in Maine, New Hampshire, Vermont, Massachusetts, New York, Louisiana and the Provinces of Quebec and Ontario, Canada. These mills have a daily capacity of 2,594 tons of various classes of pulp and paper for sale, now being increased to approximately 3,250 tons. For various economic considerations, chiefly the more abundant supplies of pulp wood and water power in Canada, the company has been following the policy of adding to its newsprint capacity through the construction of mills in Canada and the conversion of many of its American mills for the production of higher grades of paper. The important mill properties of the company are strategically located from the standpoint of both water power and labor supply.

The most important plant is the Three Rivers (Que.) mill, which has a capacity of 700 tons of newsprint now almost attained and is one of the lowest cost producers on the continent. The Kipawa Mill, with a present capacity of 250 tons of bleached sulphite pulp a day, located in the Province of Quebec, is believed to be the most modern and efficient plant of this character in North America. It is equipped with modern machinery and has unusual natural advantages which insure the production of the highest grade of bleached sulphite pulp at very moderate costs.

Including the above mills, company and wholly owned subsidiaries own and operate 3 ground wood mills for the manufacture of mechanical pulp, 6 combination ground wood and paper mills, 6 combination ground wood, sulphite and paper mills, one paper mill, one kraft pulp mill, one kraft pulp and paper mill, one combination paper and soda pulp mill and two bleached sulphite mills. The diversity of the output of these mills during 1925 is indicated by the following tabulation showing production exclusive of pulp for use in the manufacture of paper by the company.

Output —Tons—	1925.	1926.
Newsprint paper	353,880	452,357
Bag and wrapping paper	57,532	26,315
Specialty papers	53,567	67,508
Book and writing paper	52,094	63,125
Total paper	517,073	609,305
Pulp for outside sale	108,083	125,052
Total paper and pulp	625,156	734,357

Timber Limits.—The company and wholly owned subsidiaries own in fee 1,631,229 acres of timber lands and stumpage rights and Canadian Crown timber limit leases covering an additional 10,826,413 acres, a total of 12,457,642 acres or an aggregate substantially larger than the combined areas of Massachusetts, Connecticut, Rhode Island and Long Island. The pulp wood on lands owned in fee is estimated to be in excess of 6,000,000 cords, while that on lands held under Canadian Crown leases is estimated to exceed 39,700,000 cords. These holdings constitute one of the largest areas of timber lands controlled by any one group in eastern North America.

Capitalization.—Consolidated capitalization statement of company and wholly owned subsidiaries (except Gatineau Power Co.), as of Aug. 31 1926, adjusted to give effect to the present financing and to increases in the authorized amounts of capital stocks, follows:

	Authorized.	*Outstanding.*
Funded Debt—		
Divisional bonds and purchase money mtges.	(closed)	$5,086,100
First and refunding mtge. 5% bonds, due 1947	(closed)	18,036,000
Refunding mtge. 6% bonds, series A, due 1955	a	22,028,000
6% Conv. gold debentures (this issue)	$25,000,000	25,000,000
Capital—		
Preferred stock 6% and 7% cumulative	$125,000,000	$31,820,000
Common (no par value)	1,000,000 shs.	500,000 shs.

a The issuance of additional bonds under this mortgage is restricted by the conservative provisions of the indenture.

Earnings.—Average consolidated annual earnings of company and wholly owned subsidiaries, for the 10 years ended Dec. 31 1925, adjusted to include earnings or estimated earnings of properties acquired during this period, after liberal provision for maintenance, available for interest, depreciation, &c., as certified to by F. W. Lafrentz & Co., were $10,844,457 or approximately 2.7 times the annual interest requirements on the above funded debt. Earnings as above, for the year ended Dec. 31 1925, amounted to $9,455,825, as certified to by F. W. Lafrentz & Co., or over 2.3 times such annual times requirements. Similar earnings for the first 8 months of 1926 were substantially larger than in the corresponding period of 1925. The reserves for depreciation and depletion have been very liberal, averaging $3,684,602 for the 10 years ended Dec. 31 1925, and amounting for the year ended Dec. 31 1925 to $3,888,505.

Purpose of Issue.—Proceeds from the sale of this issue will be used for the company's development program and to reimburse it for expenditures heretofore made in this connection.

Valuation.—The book value of the capital assets of company and wholly owned subsidiaries (except Gatineau Power Co.), is in excess of $125,000,000. The present value of these assets is conservatively estimated to be sub-

stantially in excess of the book value. The equity behind the funded debt now to be outstanding will be represented by common and preferred stocks which have a market value based upon current quotations aggregating over $55,000,000.

Consolidated Balance Sheet Aug 31 1926.
[Adjusted to give effect to the present financing.]

Contingent Liabilities.—Guaranty of notes of the Bonaventure Pulp & Paper Co. for $908,000 (secured by $1,995,000 1st mtge. sinking fund 6% gold bonds of the St. Lawrence Pulp & Paper Corp.).

Preferred Stock Offered to Employees.—

The company announces the offering to its officers and employees, and, to officers and employees of wholly owned subsidiaries, of its cumulative 7% preferred stock. The price named in the offer which is open until Dec. 1 next is $94 a share. Under the terms of the plan, subscriptions are limited in proportion to the salary or wages of the employee, an employee receiving $ 0 or less a week being entitled to apply for 3 shares, $40 or less a week, but more than $30, for 4 shares, and so on.

The option is given employees of paying for the shares allotted outright or in weekly, semi-amonthly or monthly installments, each installment being at least $1 a week per share, $2 when paid semi-monthly and $4 when paid monthly. Commencing Jan. 1 1928, a bonus will be paid each subscriber still holding the stock and in the employ of the company amounting to $1 per share and increasing $1 each year until $5 a share is paid Jan. 1 1932. Dividends will be paid on stock being purchased on installments and arrangements will also be made to give subscribers full voting power. —V. 123, p. 2147.

International Salt Co.—*Quarterly Report (Incl. Subs.).*—

Period—	*Quar. End. Sept.* 30. 1926.	1925.	*9 Mos. Sept.* 30— 1926.	1925.

—V. 123, p. 1769.

International Standard Electric Corp.—*Belgian Order.*

The corporation's allied cable company in Belgium, "Ateliers des Constructions Electriques de Charleroi," has received an order from the Belgian Administration for interurban toll cables, extending from Brussels to Luxembourg and from Brussels to Mons-Charleroi, to the value of 57,000,000 Belgian francs. The Brusse's-Luxembourg cable forms a link in the projected London-Rome long distance line.

The cables are to be manufactured by the Charleroi company and the loading coils and repeaters by the Standard's Belgian associated company, the Bell Telephone Mfg. Co.—V. 123, p. 1884.

Interstate Iron & Steel Co.—*5% Back Dividend.*—

The directors have declared a dividend of 5% to clear up all arrearages, and the regular quarterly dividend of 1¾%, on the pref rred stock, both payable Dec. 1 to holders of record Nov. 20. On March 1 last 3% was paid on account of accumulations on June 1 3½% and on Sept. 1 4%. —V. 123, p. 1388, 1256.

(S. S.) Kresge Co.—*Opens Eleven New Stores.*—

The company announces the opening of 11 new stores in the 30-day period ended Oct. 16, making the total number in operation as of the latter date 352 stores. Of the new stores opened six were of the large 25c. to $1 class, while five were of the 5-and-10-cent type. The number of each class now operating is 97 of the 25c.-to-$1 and 255 of the 5-and-10c. kind, increases of 21 and 29, respectively, since the end of 1925.—V. 123, p. 2147.

Lehigh Coal & Navigation Co.—*Extra Dividend of 2%.*—The directors on Oct. 27 declared an extra dividend of 2% and the usual quarterly dividend of 2% on the outstanding $29,243,400 capital stock, par $50, both payable Nov. 30 to holders of record Oct. 30.

E. B. Leisenring has been elected a member of the board of managers to succeed the late Bayard Henry. Mr. Leisenring is President of the Hazelbrook Coal Co.—V. 122, p. 3612.

Loew's, Inc.—*Extra Dividend of $1.*—The directors on Oct. 27 declared an extra dividend of $1 per share and the regular quarterly dividend of 50 cents per share, both payable Dec. 31 to holders of record Dec. 13.

Record of Dividends Paid.—Initial of 50c. per share paid Feb. 1 1920; thereafter to May 1921, 50c. quarterly; then none until Dec. 31 1923, when 50c. was paid; March 31 1924 to Sept. 30 1926 incl., 50c. quarterly.—V. 123, p. 1640.

Lord & Taylor, New York.—*Declares Christmas Dividend of 5% on Common Stock.*—The directors on Oct. 25 declared an extra (Christmas) dividend on the common stock, payable Dec. 10 to holders of record Nov. 17. An extra Christmas dividend of like amount was paid on Dec. 10 last year. Regular quarterly dividends are being paid on this issue at the rate of 10% per annum.

The directors also declared the usual quarterly dividend of 1½% on the first pref. stock, payable Dec. 1 to holders of record Nov. 17.—V. 122, p. 893.

Magnolia Petroleum Co.—*Acquisition.*—

A published statement which the "Chronicle" understands to be substantially correct says: The company has paid $200,000 cash for a block of 736 acres close to the O'Hern & Seaford wells in Duval County, Tex., in Survey No. 174, six miles south of the Cole field. The first O'Hern & Seaford well is a 50,000,000 cubic feet gas well spraying oil. The No. 2, located 450 feet north, is on the same sand at 1,782 feet and ready to drill in, with a core showing a high percentage of oil.—V. 122, p. 1179.

—V. 123, p. 852.

Mid-Continent Petroleum Corp. (& Subs.).—*Report.*—

An official memorandum issued in connection with the quarterly statement says in part:

The total net earnings for the 9 months ended Sept. 30 1926 were $11,020,001 as compared with $11,254,263 for the 9 months ended Sept. 30 1925. The earnings for 1925, however, included an adjustment in crude oil inventory amounting to $1,064,832 so that the actual operating profit for the first 9 months of 1926 is over $830,000 in excess of the operating profit for the same period of last year.

Current assets of the company as of Sept. 30 1926 were $26,372,984 and current liabilities $2,252,020, a ratio of almost 12 to 1. Current assets are sufficient to pay in full the entire indebtedness of the company (including its first mortgage bonds) and its outstanding preferred stock, with a balance remaining of over $5,800,000 for the common stock.

Through the operation of the sinking fund, the first mortgage bonds have been reduced from $12,500,000 as of March 1 1925 to $11,131,000 as of Sept. 30 1926. In addition $600,000 have been purchased by and are held in the treasury of the company.

The net daily production of crude oil is now approximately 21,000 barrels which is the greatest in the history of the company. The production is all high gravity crude and 90% is in the State of Oklahoma and is either on or near the company's pipe line system. The company now has over 1,600 producing wells located on over 35,000 acres of developed leases, of which 320 acres are in the Seminole pool. During the past year the undeveloped acreage has been increased over 100% through the purchase of leases in Oklahoma, Kansas and Texas, the total undeveloped leases being now in excess of 310,000 acres. Most of the additional acreage has been purchased after an examination of the leases by the Geological Department. The present developed and undeveloped acreage with the pipe line connections of the company furnish ample protection for a crude oil supply of its refinery at West Tulsa.

During the past year the company has made many additions and improvements. It has purchased a one-half interest in the Jomack Oil Co. (Okla.), with a well settled production and a large undeveloped acreage, located principally in Creek County, Okla., and has laid over 200 miles of pipe lines to new fields. It has opened offices in Texas and New Mexico to facilitate the operation of its Land and Producing Department, and has constructed four additional natural gasoline plants in the State of Oklahoma. It has now a daily output of more than 100,000 gallons of natural gasoline for which it has a ready market. The refinery at West Tulsa has been greatly improved by the addition of tank and tubs stills, on which the company owns patents, the installation of a new fuel system whereby it is now burning a product that was formerly worthless, and by increasing over 75% the output of its lubricating and bright stock plants for which there is a large demand in the domestic and export markets.

The management of the company is now devoting much time to the distributing end of the business and during the past nine months, through the construction and purchase of service and bulk stations, and through subsidiary companies in which the company has an interest, it has developed an outlet for one-third of its output. Its products are now being marketed under its own trade name through stations located in the States of Kentucky, Indiana, Illinois, Wisconsin, Iowa and Missouri, and it will be the policy of the company to increase this output from time to time until all or a large majority of its products are sold through its own stations. Aside from this the company has no expansion program on hand which will require any large expenditure of money.

Manufacturers' Liability Insurance Co.—*No Financing.*

Pres. D. T. Winter, in an advertisement in the New York "Times" of Oct. 23, said: "The company takes this means of notifying its various policy holders and stockholders in this vicinity that it is not issuing any new stock and has not authorized the issuance of any since June, 1925, and further, is not contemplating any such issue. The purpose of this notice is to warn such policy holders and stockholders and the public in general against purchasing any stock offered by any brokers or others, using unauthorized literature or employing discredited agents in disposing of any such stock."

The above was republished to correct an error appearing in an advertisement similar to the above published on Oct. 13 1926, wherein the date of last stock issue was shown as Jan. 1925. The stock issue of June 1925 distributed by Sulzbacher, Granger & Co. and others was duly authorized by this company.—V. 123, p. 2004.

Motor Products Corp.—*Injunction Dissolved—Declares a Dividend of $2 50 on Preferred and $1 on Common Stock.*—

The U. S. District Court for the Eastern District of Michigan having dissolved (on Oct. 25) the injunction issued in the suit of Wallace v. Motor Products Corp. et al., the directors of the corporation (organized in 1926) has declared dividends of $2 50 per share on the outstanding preferred shares and of $1 per share on the outstanding common shares of the corporation for the 6 months ending Oct. 31 1926, payable on Nov. 1 1926, to the holders of record Oct. 30 1926. Checks for the dividend on both classes of shares of the corporation that became payable on May 1 1926, but the payment of which was stopped by the injunction that has now been dissolved, have been mailed. See also V. 122, p. 2665.

N. B. Wallace has appealed to the U. S. Circuit Court of Appeals at Cincinnati on the question of jurisdiction, the suit against the Motor Products Corp., in which he seeks to set aside the sale of properties and assets of the 1923 corporation to the present corporation. The case is expected to be brought up in the January hearings at Cincinnati.—V. 122, p. 2665.

(The) Park Plaza, Chicago.—*Bonds Offered.*—Leight, Holzer & Co., Chicago, are offering at par and int. $300,000 1st mtge. serial 6½% coupon gold bonds.

Dated Sept. 15 1926; due serially, 1928 to 1936. Int. payable M. & S. Authorized, $300,000. Callable in whole or in part on any int. date upon 60 days' notice, in reverse of the numerical order of the bonds at 102 and int. Principal and int. payable at office of Leight, Holzer & Co., Chicago.

Security.—Secured by a direct closed first mortgage on the land (88x 162 ft.) owned in fee and a three-story and English basement semi-fireproof furnished hotel building under construction at 1232 North La Salle St., Chicago. The building will contain 176 rooms, each with bath or shower. The rooms will be completely furnished.

The value of the security upon completion of the building is appraised at $502,000, as follows: Building, $387,000; land, $115,000.

Earnings.—Based on the extremely low rental of $12 a week per room, the gross annual income is estimated at $109,824. The net income after operating expenses, taxes, &c., is estimated at over 3¾ times the maximum annual interest requirement.

Peoples Drug Stores, Inc.—*Opens New Stores.*—

The company announces that it has acquired two stores, one in Danville and one in Portsmouth, Va., and has opened an additional store in Washington, D. C., bringing the total number of stores in operation up to 40, an increase of 22 since the first of the year.—V. 123, p. 2006.

Pepperell Mfg. Co., Boston.—*New Trustee.*—

Russell H. Leonard has been elected a trustee, succeeding P. Y. De Normandie.—V. 123, p. 2148.

Pershing Square Building, Los Angeles, Calif.—*Bonds Offered.*—S. W. Straus & Co., Inc. are offering $1,150,000 1st mtge. leasehold 6¼% serial coupon gold bonds at prices ranging from 98.51 and int. to 100 and int. to yield from 6¼% to 6.40%, according to maturity.

Dated Aug. 1 1926; due serially Aug. 1 1927-1942. Legal for investment by national banks. Denom. $1,000, $500 and $100 c*. Callable at 103 and int. for first 5 years and at 102 and int. thereafter; bonds and coupons (F. & A.) payable at offices of S. W. Straus & Co. United States Federal income tax, 2% paid by borrower.

Security.—This bond issue constitutes a direct closed first mortgage on the leasehold estate in the completed building described below and in the underlying land. The bonds are further protected by Straus Plan provisions for monthly deposits to meet principal and interest payments when due.

Leasehold Estate.—The land on which the Pershing Square Building stands is the northeast corner of Fifth and Hill Sts. It fronts approximately 115 ft. on the east side of Hill Street and approximately 100 feet on the north side of Fifth St. This land is held under a ground lease dated Oct. 10 1923, and running for 99 years at a fixed annual rental without revaluation.

Building.—The building is a 13-story and basement store and office building of reinforced concrete full fireproof construction erected in 1924. This building contains approximately 85,900 sq. ft. of rental office space on the third to thirteenth floors inclusive, and approximately 9,400 sq. ft. of rental loft space on the second floor. 9 stores with a total frontage of approximately 140 ft. occupy the street floor together with the main entrance and elevator lobby opening onto Hill St. and store entraces on Fifth St. and Hill St. leading to the second floor. The basement is occupied by a cafe. This property is adequately protected by fire and earthquake insurance.

Valuation.—The value of the property mortgaged as security for this bond issue, the leasehold estate in the building and in the underlying land, is independently appraised in excess of $1,917,500. This bond issue, therefore, amounts to less than 60% of the value of the security.

Earnings.—The net annual earnings from this property, after deductions for taxes, insurance, ground rent, operation and maintenance, it is estimated, will amount to $178,265, available for payments required under this bond issue. This is 2.47 times the greatest annual interest charge and is $79,765 in excess of the greatest combined annual interest and serial principal requirements hereunder. This estimate is based on the actual current earnings and expenses of the building applied to a normal status of occupancy.

Borrowing Corporation.—These bonds are the direct obligation of Fifth & Hill Building Co., among the principal stockholders of which are many prominent and responsible citizens of Los Angeles.

Phillips Petroleum Co.—*New Director, &c.*—

E. E. Loomis, President of the Lehigh Valley RR. has been elected a director.

Since the company started 9 years ago with less than $2,000,000 assets, Phillips Petroleum stockholders have invested approximately $58,000,000 in common stock, it is announced. Net earnings for the same period have been nearly $96,000,000 from which the company has paid $18,000,000 in dividends, leaving $78,000,000 which has been added to surplus and reserves. Earnings for the current year are estimated at $35,000,000 after all charges, including State and Federal taxes, but before depletion and depreciation. —V. 123, p. 2148.

(Albert) Pick & Co., Chicago.—*Registrar.*—

The Central Union Trust Co. of New York has been appointed registrar for 100,000 shares of preferred stock.—V. 123, p. 1770.

Pittsburgh Rolls Corp.—*Control.*—

See Union Steel Casting Co. below.—V. 117, p. 97.

Prudence Co., Inc.—*Forms Company in Illinois.*—

This company announces that the Prudence Co., Inc., of Illinois, has just been formed for the purpose of making first mortgages on well-located improved income producing properties in Chicago and in nearby cities and to sell Prudence bonds, Prudence certificates and individual mortgages guaranteed by its own capital, surplus and reserve of over $12,500,000. William M. Greve, President of the Prudence Co., Inc., of New York, in discussing this announcement stated: "Because of the unusual growth of business of the company in New York and the extension of its field of operation, coupled with the increased demand for conservative first mortgages on income earning properties, the Prudence Co. will enter this new territory through the medium of the Prudence Co. of Illinois, whose principal office will be located at 11 South La Salle St., Chicago., Ill."

The Boston Stock Exchange has been advised that definitive guaranteed collateral trust 5½% gold bonds, due May 1 1961, are now deliverable. (For offering of bonds, see V. 122, p. 3353.)—V. 123, p. 2006.

Public Industrials Corp.—*Transfer Agent.*—

The Bank of New York & Trust Co. has been appointed transfer agent for 200,000 shares of common stock and 10,000 shares of class B stock, both of no par value.

The Central Union Trust Co. of New York has been appointed registrar for the stock.

Pure Oil Co.—*Extra Dividend of 12½ Cents.*—The directors on Oct. 25 declared an extra dividend of 12½c. per share on the common stock, par $25, in addition to the usual quarterly dividend of 37½c. per share, both payable Dec. 1 to holders of record Nov. 10. An extra dividend of like amount was paid on the common stock on March 1, June 1 and Sept. 1 last.—V. 123, p. 1124, 591.

Purity Bakeries Corp.—*Listing.*—

The New York Stock Exchange has authorized the listing of (1) $5,492,500 7% cum. pref. stock, par $100; (2) 4,124,775 class A stock, par $25 each, and (3) 210,826 shares, class B stock, without par value.

Quaker City Cold Storage Co.—*First Mtge. Bonds Offered.*—Spencer Trask & Co., Brown Brothers & Co., Howe, Snow & Bertles, Inc., and Harrison, Smith & Co. are offering at 99 and int., to yield about 6.08%, $2,000,000 1st mtge. sinking fund gold bonds, 6% series due 1951.

Dated Nov. 1 1926; due Nov. 1 1951. Int. payable M. & N. at Fidelity-Philadelphia Trust Co., Philadelphia, trustee, and at agency of the company in New York. Red. on 30 days' notice as a whole at any time or in part on any int. date at 105 and int. Denom. $1,000 and $500 c*. Company will agree to pay interest without deduction for any Federal income tax not in excess of 2% and to refund the Mass. income tax on the int. not exceeding 6% of such int. per annum. Under present laws these bonds will be free of the Penna. personal property tax.

Security.—The 1st mtge. sinking fund gold bonds will be secured by a direct 1st mtge. on all mortgageable property to be owned by the co.

Sinking Fund.—The mortgage will provide for a sinking fund at a rate estimated to be sufficient to redeem this entire series of bonds by maturity.

$1,250,000 *Debentures Offered.*—The same bankers are offering at 98 and int., to yield about 6.70%, $1,250,000 15-year 6½% convertible gold debenture bonds.

Dated Nov. 1 1926; due Nov. 1 1941. Int. payable M. & N. at Seaboard National Bank, New York, trustee, without deduction for any Federal income tax not in excess of 2%. Company will agree to refund the Mass. income tax on the int. not exceeding 6% of such int. per annum. Bonds will be free of the Penna. personal property tax. Red. on or after May 1 1929 on 60 days' notice, as a whole at any time or in part on any int. date, at 105 and int. to and incl. Nov. 1 1931, the premium thereafter decreasing ½% annually to maturity. Denom. $1,000 and $500 c*.

Convertible at the option of the holders on or after Nov. 1 1928 at any time up to 30 days prior to any date specified for redemption into 10 shares of $7 cumulative participating pref. stock (without par value) for each $1,000 of these debenture bonds. The $7 cum. partic. pref. stock will be entitled to participate equally with the common stock in further dividends (non-cum.) not exceeding $1 per share in any year in which dividends in excess of $4 per share are paid on the common stock, and in the event of any increase in the common stock beyond 20,000 shares the pref. stock shall automatically be entitled to cum. dividends at the rate of $8 per share per annum thereafter.

Data from Letter of President Horace P. Serrill, Philadelphia, Oct. 25.

Common stock (without par value)	20,000 shs.	20,000 shs.

a All reserved for conversion of 15-year 6½% conv. gold debenture bonds.

Company.—Quaker City Cold Storage Co. was incorp. in Penna. Dec. 27 1922 as the Consolidated Cold Storage Co., a holding company owning all the outstanding common shares of its operating subsidiaries. Company assumed its present name on Oct. 25 1926, and through the acquisition, free of all liens and encumbrances, of all the properties and assets of the operating companies, other than franchises and pipe lines, will itself exercise the functions of an operating company. All franchises and pipe lines will be vested in wholly owned subsidiaries.

Business and Properties.—Company will furnish cold storage facilities for the three trunk line railroads entering Philadelphia, which handle approximately 90% of all the perishable freight coming into the city. It will handle a large percentage of the perishable products shipped over the lines of the Pennsylvania RR. and consigned to Philadelphia, and through a subsidiary now acts as terminal agent for the road at its present Quaker City plant. Through a 25-year lease of the cold storage facilities to be provided by the new warehouse now being erected jointly by the Baltimore & Ohio RR.

and the Reading Co., it will, in effect, also become terminal agent for both of these railroads at that plant.

Company will own two of the largest cold storage warehouses now operating in Philadelphia, with an aggregate capacity of 2,250,000 cubic feet, and will erect a third warehouse adjacent to its present Quaker City plant with a capacity of 1,800,000 cubic feet. It will also operate the new Baltimore & Ohio-Reading cold storage warehouse of 1,550,000 cubic feet capacity now nearing completion. With its added facilities, the company will have a capacity greatly in excess of any other similar property in the city and because of this and the favorable locations of its plants on all railroads and adjacent to the Delaware River water front will undoubtedly be the predominant factor in the cold storage business in Philadelphia. The need for additional cold storage facilities in the city of Philadelphia has long been recognized and there is urgent demand by users for such facilities at the present time.

In connection with the plants the company will have an ice-making capacity of 245 tons per day and through its wholly-owned subsidiaries will control an extensive system of pipe lines, furnishing refrigeration service for commission merchants and produce dealers for whom it does a large cold storage business.

Purposes.—Proceeds of the sale of these debenture bonds and of $2,000,000 1st mtge. sinking fund gold bonds, 6% series due 1951, will be used to build and equip the new Quaker City cold storage warehouse, to equip the new Baltimore & Ohio-Reading cold storage warehouse, to retire outstanding bonds and other obligations, to provide additional working capital and for other corporate purposes.

Valuation.—A total valuation of $4,243,128, or well in excess of the total funded debt to be presently outstanding, for the entire assets to be owned by the company, is arrived at as follows:

*Cost of reproduction, less depreciation, of tangible assets	$3,493,128
*Value of Baltimore & Ohio-Reading lease, on basis of earnings	500,000
Working capital	250,000
Total	$4,243,128

* As estimated by Day & Zimmermann, Inc., engineers.

Earnings.—Day & Zimmermann, Inc., estimate that when the new Quaker City plant and the new Baltimore & Ohio-Reading plant are in full operation and when proposed operating economies have been effected, the earnings of the company available for fixed charges, depreciation, &c., should amount to $534,950, or more than twice the annual interest and sinking fund charges on the entire funded debt to be presently outstanding, including this issue. The sinking fund on the first mortgage sinking fund gold bonds 6% series due 1951, is at a rate estimated to be sufficient to retire all of the bonds of that series by maturity.

Rainier Pulp & Paper Co., San Francisco.—*Bonds Sold.*—Blyth, Witter & Co. announced (Tuesday) Oct. 19 the purchase and resale to investors at par and interest of a new issue of $1,300,000 1st mtge. 7% sinking fund gold bonds.

Dated Sept. 1 1926, due Sept. 1 1941. Principal and interest (M. & S.) payable at Wells Fargo Bank & Union Trust Co., San Francisco, trustee. Denom. $1,000 and $500 c*. Red. all or part on any int. date at 105 and int. prior to March 1 1932; thereafter at ¼% less each year. Int. paid without deduction for normal Federal income tax, not exceeding 2%. Annual sinking fund payments, beginning Sept. 1 1928, of $70,000 will retire $910,000 par value by maturity.

Capitalization—	*Authorized.*	Outstanding.
*1st mtge. bonds, series of 1941 (this issue)	$5,000,000	$1,300,000
Preferred stock	2,500,000	960,000
Common stock no par value	40,000 shs.	21,600 shs.

* Additional first mortgage bonds may only be issued under restrictions described in the indenture.

Data From Letter of President E. M. Mills.

Company & Properties.—Company was organized in Delaware to engage in the manufacture of sulphite pulp. At Shelton, Wash., the company owns approximately 16 acres of land fronting on tidewater, on which is now being constructed a manufacturing plant having a daily capacity of 130 tons of unbleached sulphite or 110 tons of bleached sulphite. Buildings are of reinforced concrete; all equipment and machinery is new and modern. Closely adjoining the plant are 2 large sawmills owned and operated, respectively, by the Simpson Logging Co. and the McCleary Lumber Co., from which companies the Rainier company has contracted to purchase electric energy and steam at low rates. Company has a contract with the Simpson Logging Co. and other contracts whereby it is assured of a low cost wood supply, ample for its requirements for over 20 years.

Security.—Secured by a first mortgage on the plant and equipment and all other fixed assets now owned in fee or hereafter acquired, and by deposit with and assignment to the trustee of all wood, electric power and steam contracts.

Purpose.—Company receives approximately $1,000,000 from the sale of preferred and common stocks, which, with the proceeds of these bonds, will be invested in the plant or held as working capital. Of this amount approximately $2,000,000 will be invested in fixed assets.

Earnings.—With the prices for principal raw materials, and for steam and power necessary to their manufacture, fixed by contract for a term of years, it is possible to estimate manufacturing costs very closely. Based upon these figures and a knowledge of the market, it is estimated that the earnings from the present plant, before bond interest, should be approximately $500,000 per annum, or equivalent to about 5½ times interest requirements on these bonds.

Additional Bonds.—Additional bonds, up to $3,700,000, may be issued in series, in amounts representing not to exceed 60% of the actual and reasonable cost of new properties or extensions as defined in the trust indenture, provided, however, net earnings, after all charges, including taxes and depreciation, for a period of 12 months preceding the date when such bonds are proposed to be issued, shall have been equivalent to not less than 2½ times the amount necessary to pay the annual interest on all bonds outstanding and those proposed to be outstanding.

Management.—The management of the company will be in the hands of men who have had a long and successful experience in the pulp and paper industry. More than 50% of the preferred and common stock is in the hands of Isadore Zellerbach, M. R. Higgins, E. M. Mills, J. D. Zellerbach and H. L. Zellerbach, all of whom are active officers in the Zellerbach Paper Co., and Senator Mark E. Reed, President of the Simpson Logging Co.

Rand Kardex Bureau, Inc.—*Injunction Granted Government against Company—Suit Brought to Prevent Acquisition of Globe-Wernicke Co. Stock.*—

Federal Judge Winslow issued a preliminary injunction at New York on Oct. 26 restraining the company from acquiring more stock of the Globe Wernicke Co. pending the outcome of the Government's suit against the companies and others for alleged violation of the Clayton Act.

The Anti-Trust Division of United States Attorney Buckner's office of which Special Assistant United States Attorney Alexander B. Royce is head, began the action in the United States District Court on Oct. 21. It alleged that the Rand Kardex Bureau was acquiring Globe Wernicke Co. stock in violation of the law forbidding such acquisitions where the effect is substantially to lessen inter-State competition.

In addition to the corporations named, the Government included as a defendant the Fourth & Central Trust Co. of Cincinnati, Ohio, depository of the Globe Wernicke Co. At the filing of the suit Judge Winslow granted Mr. Royce a temporary order preventing the trust company from receiving further deposits of stock of the Globe Wernicke Co. and also from exchanging stock already deposited for stock of the Rand Kardex Bureau.

The preliminary injunction granted Oct. 27 takes the place of the temporary restraining order and will remain in effect until the settlement of the pending action.

In connection with the Government suit, James H. Rand Jr., Pres. of the Rand Kardex Bureau, issued the following statement:

"This action does not allege monopoly or infringement of the Sherman Anti-Trust Law. It is directed particularly against an agreement for the acquisition of the Globe-Wernicke Co. some give years hence through exchange of stock. It is the Government's chief contention that the terms of the agreement are not in accordance with the Clayton Act.

"So far as the action is concerned, I am satisfied that we have violated neither the spirit nor the letter of the law. Other large corporations have been attacked in issues similar to those involved in this case and the Supreme Court has never, to my knowledge, returned a decision against the defendant corporation.

"Even if we assume a reversal, the most adverse result would be a decree directing the Rand Kardex Bureau to terminate control through the voting trust agreement of the Globe-Wernicke Co., which has not yet been included in the Rand Kardex Bureau. In this event it is possible that the Government would order the disposition of the Globe-Wernicke Co. stock.

"In any event the decision can only affect a development which was planned for some five years hence. It will not in any way impede the operation or the profit of the present companies."

H. Yeiser Jr., V.-Pres. of the Globe-Wernicke Co., said that his company was not involved in any way in equity proceedings filed by the Government in New York charging violation of the Clayton Anti-Trust Act. "The company has no connection with the affair," he said. "It has never taken any action in the matter and, therefore, cannot be involved. I can state this positively. The only ones affected are individual stockholders who have contracted to sell their stock to the other company." He said this was entirely a matter "between individual stockholders of the Globe-Wernicke Co. and the New York concern."—V. 123 p. 1515.

Replogle Steel Co.—*Earnings.*—

(See offering in V. 122, p. 895.)—V. 122, p. 3465.

Richfield Oil Co. of Calif.—*Listing.*—

The 1,500,000 shares of the $25 par value common stock of the company was listed on Oct. 18 on the San Francisco Stock & Bond Exchange and the Los Angeles Stock Exchange. Arrangements are now being made to have the stock listed regularly on one of the large eastern exchanges. The company recently completed public financing involving $12,000,000 1st mtge. 6% bonds in connection with the readjustment program and the acquisition of new properties and contemplated increase in production and refining capacity. A substantial amount of the bonds were absorbed in the east. Arrangements are being made to list the bonds of the San Francisco and Los Angeles Exchanges.

The directors are expected to meet within the next week for declaration of a initial dividend on the capital stock.

Earnings for the 7 months ended July 31 1926, after Federal taxes and interest, were $2,500,000. At the same rate, it is estimated that earnings for the year will amount to $3,543,986.

—V. 123, p. 2006.

Rio Tinto (Mines) Co., Ltd.—*Dividends.*—

Holders of share warrants to bearer have been informed that they will receive payment of the half-yearly dividend on preference shares at the rate of 2s. 6d. per share, less income tax, and of the interim dividend on the ordinary shares at the rate of 20s. per share, less income tax, on and after Nov. 1 1926, on presentation of preference share coupon No. 59 and ordinary share coupon No. 54, either at the company's office in London, or at the Societe Generale, 29, Boulevard Haussmann, Paris.—V. 123, p. 2006.

Rolls-Royce of America, Inc.—*Resumes Pref. Divs.*—

The directors on Oct. 25 declared a dividend of $1 75 per share on the preferred stock, payable Nov. 15 to holders of record Oct. 30. This is the first distribution to be made since 1921.

The company reported profits in 1925 of $519,169. While no figures are available for the current year, the deficit of $238 354 has been wiped out with sufficient surplus accumulated to warrant the present action of the directors. No action was taken, however, with regard to the payment of back dividends, which now amount to $35 per share of preferred stock. The method of dealing with the arrears will have to wait until after the results of 1926 have been ascertained. (Boston "News Bureau.")—V. 122, p. 1778.

St. Louis University, St. Louis, Mo.—*Notes Offered.*—Federal Commerce Trust Co., St. Louis, is offering at 100 and int. $200,000 1st mtge. real estate serial 5% gold notes.

Dated March 15 1926; due serially March 15 1927-19 6. Principal and int. (M. & S. 15) payable at Federal Commerce Trust Co., trustee, St. Louis. Denom. $1,000 and $500 c*. Red., all or part, on any int. date upon 30 days' notice at 101 and int.

Security.—These notes are the direct obligation of St. Louis University, a corporation of the State of Missouri, having received its charter in the year 18 . The University has experienced a steady growth until it now has an enrollment of about 3,500 students and owns properties in St. Louis having a value of over $3,000,000, with a mortgage indebtedness, including this issue, of only $310,000.

These notes are further secured by a closed 1st mtge. on the large new fireproof gymnasium, now nearing completion, and the lot on which it

is situated, on the south side of West Pine Boulevard, between Grand Ave. and Spring St., in St. Louis. This lot has a frontage of 150 feet on West Pine Boulevard and a depth of 213 feet.

Security Title Building, Inc., Los Angeles.—*Bonds Offered.*—M. H. Lewis & Co.; Banks, Huntley & Co.; Stevens, Page & Sterling, and Bayly Brothers, Inc., Los Angeles, are offering at 100 and interest, $850,000 first (closed) mortgage leasehold 6½% serial gold bonds.

Dated Aug. 1 1926; due serially Aug. 1 1931 to 1941, inclusive. Principal and interest (F. & A.), payable at California Bank, Los Angeles, without deduction for the normal Federal income tax, up to 2% per annum. Denom. $1,000 and $500 c*. Callable all or part on any interest date at 103 and interest if called for payment prior to Aug. 1 1931, thereafter the call price reduces ½ of 1% each year, commencing Aug. 1 1931. California Trust Co., Los Angeles, trustee. Exempt from personal property tax in California.

Company.—Recently organized in California to acquire a 99-year lease running to the year 2025, covering the southeast corner of Sixth St. and Grand Ave., Los Angeles. This property has a frontage of approximately 125 ft. on Grand Ave. and approximately 130 ft. on Sixth St., and is one of the largest and most valuable building sites in the downtown business section. Company proposes to immediately erect thereon a limit height 13-story and basement class A steel frame bank and office building, to be known as "Security Title Insurance Building" and to cost at least $1,425,000 including carrying charges.

Ownership and Management.—The entire second and third floors of the building and approximately one-third of the ground floor and basement have been leased to the Security Title Insurance & Guarantee Co. for a term of years well beyond the longest maturity of these bonds. Security Title Insurance & Guarantee Co. is one of the four largest title insurance companies in California and has total resources in excess of $2,250,000. It has offices in 17 cities and serves over 40% of the area of the entire State. It has purchased, through its holding company, a substantial amount of the preferred and common stock of Security Title Building, Inc., and, consequently, will be one of the principal owners of the building.

California Group Corp., affiliated in stock ownership with California Bank, has agreed to lease approximately one-third of the ground floor and basement, having a frontage of 51 ft. on Grand Ave., this lease to run well beyond the longest maturity of these bonds. In all probability, this entire space will be occupied by a branch of California Bank. California Group Corp. has likewise agreed to purchase a very substantial block of both preferred and common stock of the company.

The remainder of the capital stock of the company will be owned principally by Edwards & Wildey Co., one of the largest owners and operators of business and subdivision properties in Southern California, and the building will be under their management.

Security.—Secured by a closed first mortgage on the 99-year leasehold estate, including the building, which property, without giving any valuation to the 99-year lease, will represent an investment of at least $1,425,000.

Purpose.—Proceeds will be disbursed by the trustee, and in this connection a 100% contractor's faithful performance bond issued by Fidelity & Deposit Co. of Maryland will be deposited with the trustee.

Income.—Based upon leases already negotiated and careful estimates by the management, company's gross annual operating revenue, after deduction for vacancies, should approximate $400,000, and the total annual operating expense, including ground rent, taxes and insurance, should not exceed $200,000, leaving at least $200,000 annual surplus available for the payment and interest of this bond issue, Federal taxes and depreciation.

(F. G.) Shattuck Co.—*Plans to Open 100 New Type Stores.*

This company, owners and operators of the Schrafft Stores, Oct. 27 opened a new type of store at 11 Madison Ave., N. Y. City. This new unit will sell candies, baked goods and a selected line of Schrafft products. It will differ from other Schrafft Stores through omission of restaurant and soda fountain service. This latest step by the company is supplementary to the plan announced earlier in the year for opening additional stores of the larger and more costly type.

In all, the company is expected to open 100 of the new and smaller type stores throughout Greater New York. Due to lower cost of operation and smaller inventory per unit the company will be able in this way to extend its chain into upper Manhattan, the Bronx, Brooklyn and Queens, entering a large new territory at present untouched.

Silesian-American Corp.—*Output of Subsidiary Cos.*—

This corporation, which recently placed through bankers an issue of $15,000,000 15-year 7% collateral trust sinking fund gold bonds in this market and abroad, reports that Giesche Spolka Akcyjna, its wholly owned subsidiary, together with controlled companies, produced during September 268,310 metric tons of coal and 8,550,000 pounds of metallic zinc. This is the largest production of coal from these properties in any one month for several years. The principal business of these companies, viz.: the output of metallic zinc, was at the annual rate of over 46,500 metric tons as compared with an average annual output of approximately 38,000 metric tons for the three years ended March 31 1925.—V. 123, p. 592.

Net before Fed. taxes.	$1,914,682	$768,069	$5,021,140	$3,096,413

The company announces that the earnings of $5,021,140 for the first 9 months of 1926 established a new high record. Earnings for Sept. 1923 reached a new high peak for the company, the net for the month totaling $792,331, as compared with $644,257 for August and $478,093 for July.

Review, &c.—The company has issued a special circular, dated Sept. 25, giving a review of its growth and present position, from which the following is taken:

Company.—Organized in Delaware and began doing business in October 1919. As a producer of crude oil, company operates chiefly in the Mid-Continent field—in Kansas, Oklahoma, Texas, Arkansas, Louisiana and New Mexico. Its refinery, with capacity to refine 16,000 bbls. of crude oil daily—is located at El Dorado, Kan. Its natural gasoline plants, 16 in operation and 3 under construction, are located in Oklahoma, Texas and Arkansas. The refined products are marketed principally through its own stations—nearly 300 in number—and through some 4,000 dealers, in Kansas, Oklahoma, Missouri, Nebraska, Colorado, North Dakota, South Dakota, Minnesota, Iowa, Wisconsin and Illinois.

Development.—Company's physical development in respect of producing properties, acreage and wells is shown by the following summary:

	No. of Producing Properties.	Producing Acreage.	No. of Producing Wells.	Total Net Production. (Barrels).
Oct. 2 1919	26	2,444.00	112	-------
Dec. 31 1921	110	10,049.45	536	2,874,550
Dec. 31 1924	174	18,456.21	996	4,416,775
Dec. 31 1925	197	19,520.93	1,086	5,119,442
July 31 1926	207	20,809.43	1,154	2,729,887

Statistics of Growth.—The figures in the following table bring together for convenient comparison some interesting points of progress:

	—Calendar Years—		7 Mos. End.
	1924.	1925.	July 31 '26
Gross volume of business	$18,296,828	$23,007,516	$14,495,204
Net available for surplus and reserves	$4,707,054	$8,538,864	$6,174,968
Surplus income	$22,342	$3,755,716	$3,525,658

Union Steel Casting Co.—*Listing.*—

The Pittsburgh Stock Exchange has authorized the listing of 114,544 shares (without par value) common stock and 28,636 shares (par $100) of preferred stock, of which 113,076 shares of common stock and 28,269 shares of preferred stock are placed on the list; the balance to be placed on the list upon notification of its issuance.

Company is engaged in the manufacture of heavy and medium weight steel castings; the products consisting principally of steel castings for both steam and electric locomotives, such as engine frames, driving wheel centres and miscellaneous castings; also, castings for vault and safe construction, electrical machinery, annealing equipment, &c.; the company having specialized for almost 20 years on vanadium steel for locomotive frames and other locomotive and miscellaneous castings. The company's subsidiary (Pittsburgh Rolls Corp.) is engaged in the manufacture of iron, steel, Phoenix metal and alloy rolls for the rolling mill industry.

Prior to June 1 1926 the Union Steel Casting Co. owned 8,742 shares (58%) of the 15,000 outstanding shares of common stock of Pittsburgh Rolls Corp., the remaining 6,258 shares (42%) being in the hands of individual stockholders. On June 1 1926 stockholders of the Pittsburgh Rolls Corp. were offered in exchange for each share of common stock one share of the old $100 par value common stock of Union Steel Casting Co. After consummation of this offer of acquisition, the Union Steel Casting Co. owned 97½% of the outstanding stock of Pittsburgh Rolls Corp.

Consolidated Income Account, 6 Months Ended June 30 1926.

The above balance sheet is after giving effect to the subsequent acquisition by Union Steel Casting Co. of 5,891 shares of the Pittsburgh Rolls Corp. capital stock and to the issuance by the Union Steel Casting Co. of one share of 7% cumulative preferred stock (par $100) and 4 shares of common stock (without par value) in exchange for each share of $100 par value common stock outstanding.—V. 114, p. 1544.

Union Copper Land & Mining Co.—*Smaller Dividend.*—

The directors have declared a dividend of 25 cents per share, payable Nov. 15 to holders of record Nov. 5. In Nov. 1924 and 1925, dividends of 50 cents per share were paid.—V. 121, p. 1920.

Union Switch & Signal Co.—*This Co. and General Railway Signal Co. Acquire Right to Sell Miller Train Control Equip.*

Announcement was made last week by the Miller Train Control Corp. that the Miller company has granted a co-license to the General Railway Signal Co. and the Union Switch & Signal Co. to manufacture and sell the Miller systems of train control and train stop devices in the United States and also in the Dominion of Canada. The Miller company reserves the right, however, to sell these devices to railroads operating west of the Rocky Mountains, to the Chicago & Eastern Illinois Ry., the Elgin Joliet & Eastern RR. and for use on the Toledo-Detroit division of the New York Central RR.

The Miller automatic stop device is an adjunct to the already established automatic signal systems and its purpose is to compel obedience to signal indications and track conditions. The system minimizes the human element with its attendant possibility of error.—V. 123, p. 2150.

Union Twist Drill Co.—*Pref. Stock Reduced.*—

Since July 1 1926 the company has acquired 3,803 shares of preferred stock in addition to 4,219 shares already held in the sinking fund, reducing the amount at present outstanding in the hands of the public to 22,374 shares.—V. 123, p. 726.

The company on June 1 1926 acquired by purchase the entire property and assets of the Chicago Collieries Co. located at Danville, Ill.—V. 121, p. 2889.

United Fruit Co.—*Stock to Employees Approved.*—

The stockholders on Oct. 27 approved the plan to give employees of the company the right to purchase stock at $96 a share. Employees may purchase stock to the amount of their annual salary, payment to be made at the rate of $2 a share monthly. See V. 123, p. 1888, 2007.

United Lead Co.—*Acquires Building.*—

The company has acquired one of the buildings formerly used by the C. Pardee Steel Works, Perth Amboy, N. J., and will remodel for a branch plant to be occupied by a subsidiary, the United Lead Co. Line Products Division, comprising a reorganization of the company operating as the United Lined Tube & Valve Co., 184 Franklin St., Boston, with plant in the Roxbury district. This business will be removed to Perth Amboy and considerably extended. The plant will be devoted to the production of lead-lined iron, copper and brass pipe, lead-lined iron valves and kindred engineering products. A complete machine shop will be installed for the finishing department. Employment will be given to about 50 men. Thomas G. W. Fine will be manager of the Perth Amboy works. It is expected to begin operations in November. ("Iron Age.")—V. 118, p. 1678.

United Steel Works Corp. (Germany).—*To Redeem Bonds.*

Dillon, Read & Co., as fiscal agent, announce that interim receipts for 25-year 6½% sinking fund mortgage gold bonds, series A and C, have been designated by lot for redemption on Dec. 1 1926. This is the first redemption since the bonds were placed on the American market in June 1926. Of the bonds to be redeemed, $300,000 are series A and $108,000 are series C.

Bonds designated for redemption are payable on Dec. 1 1926 at the principal office of Dillon, Read & Co., 28 Nassau St., N. Y., or at the office of J. Henry Schroeder & Co., in London, England, at 100% of the principal amount thereof.

Under the sinking fund provision the corporation agreed to provide a sinking fund sufficient to retire the entire issue of series A bonds by maturity, by semi-annual call by lot at 100 and int. at the annual rate of $600,000 to and incl. Dec. 1 1938, and of $1,800,000 thereafter to maturity.—V. 123, p. 2007.

(V.) Vivaudou, Inc.—*Earnings.*—

	—Quar. End. Sept. 30—		—9 Mos. End. Sept. 30—	
Period—	1926.	1925.	1926.	1925.
Net profit after deprec. & chgs., before Fed. tax	$369,465	$79,585	$1,145,949	$410,514

—V. 123, p. 1517.

Warner-Quinlan Co.—*Earnings, &c.*—
Hayden, Stone & Co. in a statement Oct. 26 state that Warner-Quinlan in 1926 has been rapidly expanding its volume of business. During the 3 months of July, August and Sept. gasoline sales were over 300% ahead of the same months last year. Sales of asphalt in Sept. established a new high monthly record, amounting to over 10 600 tons. Asphalt business in recent months the bankers state has been 18% ahead of last year. The excellent business enjoyed by Warner-Quinlan during 1926 has been reflected in most satisfactory profits. In the 9 months to Sept. 30 1926 earnings available for reserves, taxes and dividends amounted to $621 818.

Warner-Quinlan is capitalized with $1.253.000 in 7% bonds, $500 000 of 7% preferred and 149 880 shares of common on which dividends of $2 per share are being paid. The annual common dividend requirement is, therefore, slightly less than $300 000. Based on results attained in the 9 months to Sept. 30 it seems conservative to anticipate in all of the fiscal year to Dec. 31 next, earnings before taxes and reserves of over $5 per share. While it is only possible to estimate reserves and taxes at this time, it is believed that final net earnings after reserves and taxes will be about $3.50 per share.

The balance sheet reveals a satisfactory financial position with net quick assets on Sept. 30 last, of $1 243,090. This represents a 9 month's gain in working capital of $173.759 and was acceomp'ished despite the rather liberal expenditures for property account which were only partially capitalized.

The corporation has in 1926 made an innovation in its method of selling gasoline. Instead of confining its sales entirely to wholesale distribution the corporation has entered the retail fie d and is now operating a number of filling stations in and around New York. This element of diversification should prove beneficial in stabilizing earnings.—V. 123, p. 856.

Warner Sugar Corp.—*Lowry & Co., Inc., to Manage Properties.*—
The directors have approved a contract with Lowry & Co., Inc., for the management of the Warner refinery at Edgewater, N. J., and the Warner pr p rty in Cuba, known as Central Mi anda.

According to Pres. G. K. Morrow, this contract is purely a business agreement and does not involve any change in the officers or directors of the Warner company. He also stated that the contract does not include an option for purchase, but that Lowry & Co., Inc., will operate the properties for an unmentioned sum. It is understood that either party can withdraw from the agreement on 30 days' notice. Refined sugars made will continue to be sold under the Warner trade name.—V. 123, . 1393, 95.

Warren (O.) Tool & Forge Co.—*Obituary.*—
President James D. Robertson died on Oct. 28.—V. 114, p. 1418.

Washington Hall Apartments (Hartland Apartment Co.), Washington, D. C.—*Bonds Offered.*—The F. H. Smith Co., Washington, D. C., is offering at par and interest $600,000 1st mtge. 6½% coupon gold bonds.

Dated Sept. 1 1926. Due serially Sept. 1 1928-1931. Coupons payable M. & S. Callable at 102 and interest during first three years, thereafter at 101 and interest. Denom. $1,000, $500 and $100 c*. Bonds and coupons payable at office of the F. H. Smith Co., Washington, D. C. Bonds will provide for payment of the normal Federal income tax up to 2% and for the refund of the Penna., Conn. or Vermont 4 mills tax, Maryland 4½ mills tax, Virginia 5½ mills tax, Dist. of Col. 5 mills tax, Mass. State income tax up to 6% of the interest per annum, New Hamp. State tax up to 3% of the interest per annum, or any other State tax up to 5 mills per annum.

Security.—Secured by a first mortgage on the land and the building located at the northeast corner of 14th and Fairmont streets, N. W., Washington, D. C. The property fronts 140 ft. on 14th St. and 132 ft. on Fairmont St. The lot contains approximately 21,217 sq. ft. Plans call for a modern fireproof structure of eight stories and basement, equipped with two elevators. There will be 147 apartments, arranged in suites of 1, 2, 3 and 4 rooms, each with bath. Plans call for modern equipment including electric refrigeration. On the 14th St. frontage there will be six stores.

Valuation and Earnings.—Independent appraisals of the value of the property at completion have been made by two real estate authorities of Washington, D. C., Charles N. Riker and John W. Thompson. The minimum appraisal places the value of the land at $265,212 50, and the building at $605.000, or a total valuation of $870.213.

The building, as shown by the plans and specifications, it is estimated, should produce an annual gross rental of not less than $129,781.

(Glover) Watson, Detroit, Mich.—*Bonds Offered.*—Benjamin Dansard & Co., Detroit, are offering, at 100 and interest, $150.000 (closed) first mortgage 6½% real estate sinking fund gold bonds.

Dated Sept. 15 1926; due Sept. 15 1936. Denom. $1,000, $500 and $100 c*. Principal and interest payable in Detroit at office of the Union Trust Co., trustee. Redeemable, all or part, by lot on 30 days' notice at 102 and interest. Interest payable M. & S. without deduction for normal Federal income tax up to 2%.

Security.—As security for payment of the bonds the Union Trust Co., as trustee, has taken title to real estate aggregating 421 lots in Dearborn Township. Of these lots, 398 have been sold on contract at selling prices aggregating $437,257. The selling prices of the unsold lots amount to $43,310, giving the properties pledged a total value, based on the selling prices, $480,567—more than three times the amount of the bond issue.

The property has been appraised by the reale state department of the Union Trust Co as follows: Appraised value of real estate, $316,800.

Purpose.—Proceeds are to be used chiefly for the retirement of existing indebtedness against the properties and to pay for improvements to be installed in the subdivisions in which the properties are located.—V. 122, p. 1040.

Wayagamack Pulp & Paper Co., Ltd.—*Stock Split Up.*—
The company announces that upon surrender of common share certificates on Dec. 1 next shareholders will receive two shares of no par value for each $100 par value share held at present. There being outstanding $5,000,000, or 50,000 shares, of capital stock, the company will have 100,000 shares outstanding when this exchange is made effective.—V. 123, p. 856.

Western Real Estate Trust (Mass.).—*Rights.*—
The Massachusetts Department of Public Utilities has authorized the company to issue at par ($100) 8,000 additional shares of capital stock to stockholders of record Sept. 30 in the ratio of one new share for each four held. The proceeds are to be used to continue the trust's policy of paying off mortgages on its properties and in acquiring new properties as favorable opportunities occur.

The trustees are Charles F. Adams, Alfred D. Foster, Moses Williams, William Minot, Treasurer, and Edwin D. Brooks.

Westinghouse Electric & Mfg. Co.—*Bookings, &c.*—

—V. 123, p. 1126.

CURRENT NOTICES.

—The seventh annual edition of their "Manual of Sugar Companies" has just been issued by Farr & Co., members of the New York Stock Exchange and specialists in sugar securities. The 1926 edition is the most comprehensive so far published by this firm, containing 73 pages of useful statistical information, covering 103 sugar-producing and refining companies. Of these, the more important companies are completely described, with statistics on production, earnings, dividends over 5 to 7-year periods, and a copy of the latest available balance sheet. A new feature of this year's Manual is a brief review of the Porto Rican sugar industry, with a reference map of Porto Rico showing all sugar mills active in the last (1925-26) sugar season, with location of railroads, rivers, lakes, reservoirs, irrigation canals, &c. A complete list of Cuban sugar mills, with individual output for the past four years, is included, also a brief description of the Hawaiian sugar industry, with a comparative 5-year table of results for six representative Hawaiian companies. In addition, various statistical table, are included, relating to sugar production throughout the world, and other informative matters pertaining to the sugar industry in general. The booklet is distributed free onapplication to Farr & Co., 90 Wall St., N. Y. City,

—H. Hentz & Co. have issued a special circular touching upon the investment possibilities of cotton at present levels. Attention is called to the large crop, but offsetting this the circular stresses the fact that when cotton is cheap it enters into many industries in which its use is impossible except at low prices. Enormous prospective consumption by the ordinary manufacturing trade is also stressed. It is pointed out that in previous years domestic consumption of American cotton has run as high as 7,000,000 bales and exports have been as much as 10,500,000 bales, but not concurrently. H. Hentz & Co. advance the idea that this season may witness a concurrence of these large disappearances, in which event practically the entire crop will have been taken care of before the end of the season.

—Announcement is made of the dissolution of the firm of Burley, Peabody & Craigmyle, 100 Broadway, New York, and the formation of Burley & Bigoney, with offices at 115 Broadway, and the firm of Craigmyle & Co., with offices at 120 Broadway, both firms to deal in investment securities The old firm was made up of Andrew B. Burley George R. Peabody and, Ronald M. Craigmyle. Mr. Burley and Mr. Bigoney, who was formerly with Remick, Hodges & Co., will constitute the new firm, Burley & Bigoney at 115 Broadway. The new firm of Craigmyle & Co. is made up of Ronald M. Craigmyle and Hamilton Long, the latter as special partner.

—American capital and business methods have completely reorganized the Porto Rican sugar industry and have placed the island among the world's important producers. Porto Rico has raised sugar for 400 years, but present production levels, it is pointed out, were not reached until the United States annexation in 1898. Annual sugar output has advanced from 60 000 tons in 1897, the last year of Spanish supervision, to 538 330 tons, estimated for 1926, according to a study of Porto Rican sugar conditions just completed by Messrs. Farr & Co., and included in the 1926 edition of their "Sugar Manual."

—Bertram A. Unger, who for many years prior to 1922 transacted a large business in foreign exchange and foreign securities in New York, has again opened offices at 49 Wall St., New York. Mr. Unger during the past four years has been prominently identified with financial reconstruction work in the Central European States and has been Vice-President of the Metro Bank of Budapest and Vienna and has been connected with other large banking houses whose business he is now representing in America under the firm name of Bertram A. Unger & Co.

—Schibener, Boenning & Co., Philadelphia, regret to announce that Charles F. Schibener retires from the firm as of Nov. 1 1926. The business will be conducted by the remaining partners, Henry D. Boenning, Daniel S. Blackman and Arleigh P. Hess, trading under the name of Boenning & Co., members Philadelphia Stock Exchange, at 1615 Walnut St., Philadelphia, Pa.

—Harper & Turner, members Philadelphia Stock Exchange, Philadelphia, have prepared for distribution a booklet entitled "The Port of Happiness," which contains a chart that shows the hazards encountered while passing through the "Sea of Life" to the "Bay of Independence."

COMMERCIAL EPITOME

[The introductory remarks formerly appearing here will now be found in an earlier part of the paper immediately following the editorial matter, in a department headed "INDICATIONS OF BUSINESS ACTIVITY."]

Friday Night, Oct. 29 1926.

COFFEE on the spot was dull early in the week with Santos 4s 20½ to 20¾c. and Rio 7s 16¼ to 16¾c. Fair to good Cucuta, 23½ to 24½c.; prime, 25 to 25½c.; Laguayra, washed, Caracas, fair, 23 to 24½c. Porto Cabelloa, natural, 22½ to 23c.; washed, 26 to 27c. Colombian, Ocana, 23½ to 24c. Bucaramanga, natural, 26½ to 27c.; washed, 26½ to 27½c. Honda, Tolima, and Giradot, 26¾ to 27¼c. Medelin, 28¾ to 29c. Manizales, 27 to 27½c. Bourbon, separations, 6-7s at 18¾c.; 7-8s at 16.35c.; part Bourbon or flat bean 2-3s at 20½c.; 3s at 19.50 to 20.35c.; 3-5s at 19⅜ to 20½c.; 4-5s at 5 19½c.; 4-6s at 19c.; 5 6s at 19½c. Santos peaberry 3s at 21c.; 4-5s at 19.15 to 19.40c. Rio 7s at 15.55 to 15.60c.; future shipment Santos, November-December, Bourbon 4s at 19c.; part Bourbon 4s at 19.30c.; January-March 4s, part Bourbon, 18.50c. On the 28th inst. cost and freight offers included prompt shipment Bourbons 3s at 19¾ to 20½c.; 3-4s at 19¾c.; 3-5s at 19.10 to 19.60c.; 4-5s at 18.85 to 19.25c.; 5s at 19⅜c.; 5-6s at 18.40 to 18.75c.; 6-7s at 18c.; part Bourbon flat bean 2-3s at 21½c.; 2-4s at 19.40 to 20c.; 3-5s at 19 to 19.45c.; 4-6s at 18.70c.; 6s at 18c.; 6-7s at 18¼c.; separations 7-8s at 17¼ to 27½c. Santos peaberry 4-5s at 19.40c. Rio 3-5s colory at 16.70c.; 7s at 15.40 to 15.60c. Victoria 7-8s at 15.20 to 15.50c. Future shipment Santos, November-December 3-5s part Bourbon at 18.90 to 19½c.; 4-5s at 18¾c.; January-March 3-5s at 18¾c. To-day cost and freight market was reported rather more active at slightly lower prices. One view was that as firm offers were lower, it looked as though Brazil was still anxious to make sales and rid itself of some of its rapidly increasing and apparently burdensome stocks. Futures on the 25th inst. declined 30 to 50 points with exchange breaking and a Brazilian pressure to sell. The regretable financial situation involved in steadily fall in the rates of exchange naturally tended to undermine confidence.

Santos on the 25th inst. reported terme prices unchanged to 100 reis net lower, exchange off 5-32 to 6 15-16d. and dollars 60 reis net higher. Rio cable was unchanged to 150 reis higher, exchange off 3-16d. to 6 5-16d. and dollars 100 reis net higher. The sales at New York on the 25th inst. were 86,000 bags, including switches from December to July at 130 to 135 points, July to September 148 points, December to March at 52 to 55 points and July to September at 51 points. On the 26th inst. prices advanced some 20 to 30 points with cost and freights 25 to 40 points higher. Covering was heavy. Brazilian cables were stronger. A rally was due. The sales of futures were 60,500 bags, inclusive of switches, from December to July at 140 points and May to July at 33 points. Santos opened 200 lower to 875 higher in terme prices with exchange off 1-32d. at 6 29-32 and the dollar rate up 30 reis. Rio closed 350 to 450 reis net higher with exchange unchanged at 6 15-16d. and dollars 10 reis net lower.

Recently futures advanced a little over 100 points. Yet fundamentally some think the situation is weak. Large crops are ahead. Roasters seem confirmed in their hand-to-mouth buying policy. They do not return to the old time method of anticipating requirements for considerable time ahead. But the relatively small deliveries for consumption in this country for the crop year up to date suggests to some the probability that on the eve of the season of the largest consumption invisible supplies are low and that if no cause arises to interfere with the normal growth of consumption in the period an increasing demand from roasters may be expected. But it is conceded that the course of coffee prices will depend largely upon developments in Brazil. In view of the uncertainty inherent in the exchange situation, the general dissatisfaction with the Defense Committee and the good outlook for the next crop some are inclined to sell on bulges. Futures on the 28th were 23 to 28 points lower on poor cables and lower cost and freights in some cases. Santos was 25 to 250 reis lower, exchange 1-32d. lower at 6 29-32d., dollars up 90 reis. Rio dropped 125 to 200 reis, exchange off 1-16d. at 6 15-16d. and dollars 90 reis net higher. It is pointed out that the local trade appear willing to sell the market short on weak cables only to run to cover whenever exchange rates improve. Prices have recently risen 30 to 60 points on trade covering and long buying, for local and foreign account. Brazil has at times been steadier. To-day futures closed unchanged to 7 points higher with sales of 32,250 bags. At one time prices were generally higher, especially December. But later on there was a reaction. December dropped from 15.55 to 15.35c. ending at 15.49c. Closing prices for the week show a decline of 1 to 4 points.

Spot (unoffic'l)	c. 16¼-⅜	March	14 13	14.95	July 14.08a
December	15.49a	May	14.40	14.42	September 13.06a

SUGAR.—Prompt Cuban raws were quiet early at 2¾c. to 2 13 16c. Futures declined sharply on the 25th inst. on reports that the damage done by the recent storm in Cuba had been exaggerated. British cables reported that refiners had advanced 6d. with home-grown up 3d. The English terminal market was firm at a rise of ¾d. to 3d. Perus were offered at 13s. 6d. and Cubas at 13s. 9d. H. A. Himley's Havana cable reported that communication with outports had been suspended and for week ending Oct. 25 stated receipts at six outports of 2,016 tons, exports, 19,063 tons and stock, 250,754 tons. A year ago the total stock of Cuban raw sugars at all ports was 509,906 tons. December liquidation was a feature on the 25th inst. Cuban cables seemed to indicate that 20% crop damage was done in the zone normally producing 1,000,000 tons.

Business remained quiet despite reports that losses from the recent hurricane in Cuba will amount to 200,000 to 300,000 tons in actual sugar, representing a money loss of nearly $20,000,000. With the prevailing high freight of 50s. to European points, practically putting a ban on exports and with a continuance of the coal scarcity in the British Isles, Tate-Lyles refinery shut down. On the 26th inst. London fell 3d. to 3¾d. Cuban and Peruvian sugar was nominally quoted in the United Kingdom market at 13s. 9d. Receipts at Cuban ports for the week were 40,024 tons, against 55,466 in the previous week, 21,790 in the same week last year, and 24,852 two years ago; exports, 72,191, against 133,924 in the previous week, 58,288 in the same week last year and 25,362 two years ago; stock, 445,106, against 477,273 in the previous week, 500,009 in the same week last year and 166,787 two years ago. Of the exports U. S. Atlantic ports received 43,326 tons; New Orleans, 11,800 tons; Savannah, 3,793 tons; Canada, 2,824 tons; Japan 3,071 tons, and Shanghai, 7,377 tons. Some stated that with cutting of cane delayed until Jan. 1 the old crop situation was strong. They contended that there was a close enough adjustment of supplies to demand in Cuba and the United States to cause a tight situation in December and January. As of Oct. 11 the total amount of sugar in Cuba, as estimated by one authority, was 875,000 tons. It is recalled that between Oct. 11 1925 and Jan. 16 1926 Cuba exported about 975,000 tons. Although United States stocks are some 100,000 tons greater than last year, if Europe and the Far East take as much sugar from now on as last year, some look for higher prices.

One Havana dispatch stated the complete figures for the week ending Oct. 23 as follows. Arrivals, 44,198; exports, 82,021; stock, 452,554. New York, 21,177; Philadelphia, 8,723; Boston, 4,591; Baltimore, 6,264; New Orleans, 8,099; Savannah, 8,167; Galvesto , 2,741; interior of United States, 1,317; Canada, 5,767; France, 2,143; China and Japan, 10,449, and Sweden, 2,583 tons. Havana wired the National City Bank. "Although some wires are still out of commission and communication has not yet been re-established with parts of the district affected by the storm, actual sugars were warehoused in only four cities in the storm zone and the loss from that source is negligible, probably not exceeding 5,000 tons. The greatest damage to any single mill thus far reported will approximate $150,000, and at no mill is the damage so great that it cannot be repaired in time to grind in January. These estimates are based on opinions of large and small cane growers, country storekeepers and mill-owners in the storm districts." Havana cabled. "A committee of sugar growers has recommended to President Machado that the coming s crop be limited to about 4,500,000 tons. The planters als suggest that a world sugar conference should be called to prevent overproduction."

Raws of late are said to have been weaker at 2¾c.. Futures on the 28th were 1 to 2 points lower. The sales were only 19,500 tons. Refined was weaker at 5.75 to 6c. Some 60,000 bags sold it seems on the 27th inst. at 2¾c. prompt; also 2 cargoes on the 26th for the first half of November. According to one dispatch the dumping of 100,000 tons of foreign sugar and the appearance of 150,000 tons of subsidized home grown beet sugars really accounted for the recent closing down of the Tate-Lyle refinery. Cubas and Perus to the United Kingdom were nominal at 13s. 9d. To-day futures were 3 to 4 points higher with sales of 20,300 tons. Havana cabled that 20% of the sugar cane in the affected area will be lost, with a reduction apparently of 200,000 tons. The Havana Sugar Club puts the loss at 25%; others say anywhere from 18 to 30. Some reports say that the loss is 250,000 to 275,000 tons. This is considered an overestimate. Cuban prompt sugar was quoted at 2¾c. with buyers said to be bidding 2 11-16c. Final prices show a decline in

futures for the week of 1 to 3 points and in prompt Cuban of 1-16c.

Spot (unofficial) c.	2¾	March	2.75a	July	2.90a
December	2.74a2.75	May	2.82a	September	2.98a

LARD on the spot was quiet and steady at one time. Prime Western c.a.f., New York, 14.45 to 14.55c.; refined Continent, 15½c.; South America, 16¼c.; Brazil, 17¼c. To-day spot was lower. Prime Western, 13.90c.; efined Continent, 15⅜c.; South America, 16¼c.; Brazil, 17¼c. On the 25th inst. hogs closed 10c. lower; Western receipts were about 105,000. Liverpool was urcharged to 6d. lower. October liquidation was noticeable later in the week. Prices on the 28th inst. fell 15 to 20 points. The decline in corn had some effect. Hogs, too, were 10c. lower. The receipts were slightly larger than expected, totaling 102,200, against 87,300 last week and 94,100 last year. The Liverpool lard market closed urcharged to 3d. lower. To-day futures closed 20 to 42 points lower and cottonseed oil 2 to 6 points higher with steady buyirg for local account and not a little coverirg, caused by the absence of aggressive selling and in spite of the break in lard. Lard was affected by the weakness in October. At one time this month it was 55 points lower. Liquidation was a conspicuous factor. There was very little demand. But buyirg by commission houses finally checked the decline. The grain trade sold lard. Hogs were steady with the top $13 55. Western hog receipts were 74,000, against 70,000 a year ago. Chicago expects 6,000 on Saturday. Final prices show a decline on lard for the week of 37 to 52 points.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
October delivery...cts.	13.80	13.80	13.80	13.87	13.67	13.25
December delivery...	13.20	13.10	13.30	13.25	13.10	12.85
January delivery...	13.10	13.10	13.30	13.22	13.07	12.87

PORK quiet; mess, $37; family, $40; fat back pork, $30 to $32. Ribs at Chicago were weak: cash, 13.75c., basis 40 to 60 lbs. average. Beef quiet and steady; mess, $18 to $20; extra India mess, $33 to $34; No. 1 canned corned beef, $3; No. 2, $8 25 6 lbs., $18 50. Cut meats declined; pickled hams, 10 to 20 lbs., 23¼ to 25¾c.; pickled bellies, 6 to 12 lbs., 21½ to 22c.; bellies, clear, dry salted, boxed, 18 to 20 lbs., 18c.; 14 to 16 lbs., 20c. Butter, lower grade to high scoring, 27 to 48½c. Cheese, 22 to 26c. Eggs, medium to extras, 31 to 56c.

OILS.—Linseed was in better demand and higher at 11.1c. for spot raw oil in carlots, cooperage basis. Inquiries were mostly for immediate delivery. Paint and linoleum interests were taking larger quantities, but are not interested in forward delivery. Stocks of spot oil are fair. Raw, tanks, 10.3c.; boiled, tanks, 10.7c. Coccanut oil, Ceylon, f.o.b. coast tanks, 8¼c.; Manila, coast tanks, 8½c. China wood, New York, spot, bbls., 15½c.; coast, tanks, October-November, 12c. Corn, crude, tanks, plant, high acid, 8½c. Olive, Den., $1 50 to $1 60. Soya bean, coast, tanks, 10½c.; blown, bbls., 14¾c. nominal. Lard, prime, 16⅞c.; extra strained winter, New York, 13¼c. Cod, domestic, 62c. Newfoundland, 65 to 66c. Turpentine, 87½ to 92½c. Rosin, $13 45 to $16 60. Cottonseed oil sales to-day, including switches, 7,900 bbls. P. crude S.E., 7¼c. Prices closed as follows:

Spot c	8.50a	January	8.63a8.65	April	8.90a8.95
November	8.45a8.60	February	8.68a8.75	May	8.94 8.95
December	8.50a	March	8.70a8.80	June	9.00a9.20

Cottonseed Oil.—The bearish Bureau report on cotton caused a break of 25 to 27 points. December went to 8 40c. January to 8.55c., March to 8.72c. and May to 8.94c. Later a good demand appeared and most of the loss was recovered with the final changes 1 point lower to 7 points higher with sales of 16,200 bbls. The market followed cotton. Despite the size of the crop estimate good buying appeared after the break to a new low. Western buyers bid 7¼c. for crude oil after the close without sellers and this was an advance of ⅛c. from the official final quotations. Futures fell on the 25th inst. with cottonseed oil but rallied with it later despite the big cotton crop estimate of 17,454,000 bales. The market acted oversold. Cash demand was not active, however.

PETROLEUM.—The Standard Oil Co. of Indiana cut gasoline 1c. on the 26th inst. And the Standard Oil Co. of Nebraska made a similar reduction in the tank wagon price throughout its territory. These reductions were met by other companies. Kerosene was also cut 1c. by the Indiana company. In the Gulf market gasoline was easier. United States motor was offered at 10½c. in bulk and for 64-66 gravity, 375 e. p., 12c. was asked. Cased gasoline was quiet. Local gasoline was steady at 12c. for United States motor at refineries and 13c. in tank cars delivered to trade. The jobbing demand improved, owing to more favorable weather. Stocks on hand are large. Kerosene was in better demand owing to the cooler weather. Stocks are fair. Water white, 10¾c.; prime white, 10½c. Consumption is fully up to expectations. A good export inquiry was reported. In the Gulf prime white was offered at 8½c. and water white at 9¼ to 9½c. Cased kerosene quiet. Bunker oil steady at $1 65 to $1 75 f.o.b. New York harbor refineries and $1 71½ to $1 81½ f.a.s. New York harbor. Diesel oil was in rather better demand at $2 50 f.o.b. refineries. Gas oil was a little more active at 6¾c. for 36-40 and 6c. for 28-34. Lubricating oil quiet; Pennsylvania 600 s.r. unfiltered cylinder oil more freely offered at 18c.

The Standard Oil Company of New Jersey late in the week lowered cased gasoline ¼c. United States Motor was quoted at 27.15c. There was a better export demand for both gasoline and kerosene. New York refined export prices: Gasoline, cases, cargo lots, U. S. Motor specifications, deodorized 27.15c.; bulk refinery 11¾c.; Kerosene, cargo lots, cases 19.15c.; W. W. 150 degrees 20.65c.; Petroleum, refined, tanks, wagon to store 18c.; Kerosene, bulk 45-46 150 W. W. delivered N. Y. tank cars 11¾c.; Motor gasoline garages (steel bbls.) 21c.; Up-State 21c.; single tank cars, delivered New York 13½ to 13¾c.; Naphtha, V. M. P. deodorized in steel bbls. 21c.

RUBBER was active here on the 25th inst. at a decline of 25 to 30 points net. Opinion was divided as to the effect of the new export laws. On the basis of 80%, exports announced the next quarter will allow exports of only 67,000 tons. During the following quarter this may be raised to 100% if the average price goes above 24d. Increases in exports from 80% will always be 20% under the new regulations. British Malaya may produce 335,000 tons, against the present quota of 370,000 tons. London cabled that from Ceylon and Malaya for the coming quarter there will probably be a reduction of the exportable allowance from the present 100% to 80%. It had been feared that the Colonial Office might cancel unused export coupons. It has not done so. These unused coupons will permit the exportation of 40,000 tons more. They will counteract a 20% reduction in the exportable allowance for another six months. For that reason the action of the British Government has largely fallen flat. New York prices at the close on the 25th inst. were. October, 42.30c.; November new and old, 42.70c.; December, 43c.; January, 43.30c. Outside prices. Ribbed sheets, spot, 42½ to 42¾c.; October, 42⅜ to 42¾c.; November, 42½ to 43c. First latex crepe, 42½c.; clean, thin, brown crepe, 40½c.; light clean crepe, 40⅜c.; specky brown crepe, 39⅛c.; No. 2 amber, 40⅜c.; No. 3, 40⅛c.; No. 4, 40⅞c. In London on Oct. 25 the new restriction regulations had little effect. The trade was far more interested in the question of estate assessments. Until that is cleared up little activity was expected. Spot 21d. to 21⅛d.; November, 21⅛d. to 21¼d.; December, 21⅜d. to 21½d.; January-March, 21¾d. to 22d.; April-June, 22⅛d. to 22⅜d. The announcement of new rubber export rules by the British Colonial Office clarified the situation.

The trading here on the 25th inst. was mostly in March, December and January. The total sales were 720 tons against 445 on the 23d and 397½ tons on the 22d. The outside market was quiet. Manufacturers criticize the new export regulations as unfavorable. The provisions were declared to be unjustified in the light of present prices to producers. It is stated that the consumption is increasing. Stocks, however, have been accumulating at the rate of 1,200 to 1,500 tons a week. The new rules are considered bullish on future prices. The rules it was pointed out, impose price insurance in the form of a 48c. price for the restoration eventually of as much as 40% of the export tonnage. Only a severe slump in automobile production and distribution would nullify them. Factories did not materially increase their purchases. They have quietly bought considerable recently. The stock in London on Oct. 25 showed an increase for the week of 1,430 tons. It is therefore 41,080 tons now against 39,650 last week, 33,249 a month ago and 5,190 a year ago. London deliveries for the week were 1,388 tons and imports 2,818. Singapore on Oct. 25 was irregular. Spot firm; futures a shade lower. Spot, 20⅜d.; November-December, 20⅝d.; January-March, 20⅞d., ex-godown Singapore and Penang had stocks of 25,997 tons on Oct. 1 against 23,362 tons on Sept. 1 and 18,840 Jan. 1. Ceylon has shipped only 80.85% of her exportable quota. For the 8 months ended with Aug. 31 exports were 36,549 tons from Ceylon which has a quota under the restriction act of 45,208 tons for that period. Apart from any carry-over from 1925, Ceylon has accumulated export rights in 8 months amounting to 8,659 tons—in market language, unused coupons.

New York was quiet but steady late in the week though London was rather depressed at times. December on the 28th closed here at 42.80c., January at 42.20c., February at 43.05c., March at 44c., May at 44.30c., and July at 44.60c. Outside prices were: Ribbed smoked sheets, spot-October and November, 42½c.; December, 42¾ to 42⅞c.; January-March, 43⅝c.; first latex crepe, 42⅝c.; clean thin, brown crepe, 39⅞c., light clean crepe, 40⅛c.; specky, brown crepe, 38⅞c.; No. 2 amber, 40⅜c.; Paras, Caucho Ball, Upper, 28½ to 29c.; up-river fine spot, 38½ to 39c.; central scrap, 28 to 28½c.; Guayale, washed and dried, 31½ to 32c. London on the 28th: Spot and November, 20⅞d. to 21d.; December, 21⅛d. to 21¼d.; January-March, 21½ to 21¾d.; April-June, 22d. to 22¼d. Singapore spot, 20⅛d.; November-December, 20½d.; January-March, 21d. New York to-day was quiet with sales

of 141 lots, mostly in December, March and July. Prices were in the main firm. Arrivals to-day were 2,173 tons; thus far this week, 26,362 tons. December new ended at 42.90c.; January, 43.20c.; March, 44.10c.; July, 44.60c. Outside business was dull. December sold at 43¼c.

HIDES have been in somewhat better demand and in the case of city packer. Butt brands were 15½c. and Colorados at 15c. Country hides were steady but slow. River Plate frigorifico hides were rather firmer; 4,000 Sansinena steers sold at $38 50 or 17⅜c. c. & f. Both the United States and Europe are said to be inquiring more frequently. Common dry hides: Antioquias, 24c.; Orinocos, 21c.; Maracaibo, 20c.; Central America, 20½c.; Savanillas, 21c.. Packer hides: Native steers, 16½c.; cows, native, 14c.; bulls, 11 to 11½c. Latterly bids on common dry have been about ½c. under the asking quotations. The available stock here is said to be 5,000. River Plate weakened and 6,000 frigorifico. Argentine sold at $38 or 17½c. c. & f. City packer have been quiet. New York City calfskins in rather better demand and it is stated 4 cars of 5-7s sold at $1 60; 7-8s were quoted at $2 and 9-12s at $2 70.

OCEAN FREIGHTS.—Coal tonnage was in steady demand. Grain was relet from Montreal to Italy at 45c.- It seems incredible.

CHARTERS included coal from Atlantic range to Port Said, $11, early November; from Hampton Roads to United Kingdom, 32s. 3d., Dec. 5 canceling; same, 31s., Dec. 15 canceling; Hampton Roads to Las Palmas, 38s. 9d., Nov.; Atlantic range to Quebec, $2 50, Nov.; Hampton Roads or Baltimore to Gibraltar and (or) west Italy, $9, Nov. 1-10 canceling; from Hampton Roads to Atlantic Islands, $8, Nov.; from Hampton Roads to United Kingdom, 32s., first half December; from Atlantic range to Santos, $7 50, Dec. 20 to Jan 10 canceling; from Atlantic range to west Italy, $9, Nov. 25 canceling; from Atlantic range to west Italy, $9, November; from Hampton Roads or Baltimore to Copenhagen, $8 50, November; from Atlantic range to west Italy, $8 35, Dec. 25 canceling; from Hampton Roads or Baltimore to Las Palmas or Gibraltar, 40s., November; from Hampton Roads to United Kingdom, 36s., Dec. 10 canceling; from Hampton Roads to Piraeus, $9, November; from Sydney, C. B., to United Kingdom, 27s. 6d., Dec. 20 canceling; from Hampton Roads to United Kingdom, 35s., last half November; from Atlantic range to Atlantic Islands, $8, Dec. 7 canceling; from Gulf to Italy, $10 50, November; from Hampton Roads to west Italy, $8 75, last half November; from Hampton Roads to Pernambuco, 40s., first half November; from Atlantic range to Chanole, Quebec, $2 75, November; from Hampton Roads to Rio de Janeiro, $7 25, November; from Atlantic range to Casablanca, $9 50, November; from Hampton Roads to United Kingdom, 38s. 6d., November; from New Orleans to Genoa or Savona, $10 50, first half November. Grain from Montreal to west Italy, 45c., November; from Vancouver to United Kingdom-Continent, 45s., Columbia River loading 1s. 3d. extra, November-December; from one port of north Pacific, Vancouver, Puget Sound or Columbia River to United Kingdom-Continent, 39s., November; from Vancouver to United Kingdom-Continent, 43s. 9d.; Columbia River or Puget Sound, 1s. 3d. extra, December; from Vancouver to United Kingdom-Continent, 40s.; option Columbia River or Puget Sound, 1s. 3d. extra, November-December; from Vancouver to United Kingdom-Continent, 42s. 6d.; Columbia River or Puget Sound, 1s. 3d. extra, Dec. 30; from Vancouver to United Kingdom-Continent, 46s. 3d.; option Columbia River or Puget Sound, 47s. 6d., December; New York to Santos (wheat and (or) flour in bags), $8, November; from Vancouver to United Kingdom-Continent, 36s. 6d., early November; from Vancouver to United Kingdom-Continent, 36s. 6d., November; from Vancouver to one port United Kingdom-Continent, 40s.; option Puget Sound or Columbia River loadings, 41s. 3d., November-December; 33,000 grs. from Montreal to United Kingdom, 6s. 6d.; option Bordeaux-Hamburg, 6s. 3d., Nov. 10-28 canceling; from Montreal to Rotterdam, 34c.; heavy, 35c., barley, Nov. 1-15 canceling. Time: 906 net, 12 months West Indies trade, $2, January; 1,308 net, short period West Indies trade, $3, delivery New York, November; 3,657 net, north Atlantic to United Kingdom, $3, November; 888 net, 12 months in West Indies trade, $2 10; delivery north of Hatteras, December-January; 1,142 net, 6 months West Indies trade, $1 70, January; 1,876 net, 3 or 4 months West Indies trade, $1 25, January. Tankers: 2,628 net, Curacao to New York, 39c.; 3,532 net, clean, California to United Kingdom-Continent, 50s., February-March; 4,245 net, clean, Gulf to north of Hatteras, 41c., November; 4,035 net, Gulf to north of Hatteras, 36c., November; steamer, Gulf to north of Hatteras, 36c., November; 4,623 net, Gulf to north of Hatteras, 35c., November; 3,199 net, Gulf to United Kingdom-Continent, 35s., clean, November-December; 4,609 net, Gulf to United Kingdom-Continent, 35s., January; 6,000 tons, clean, Gulf to French Atlantic, 28s., December-Jnauary; 7,500 tons, clean, north of Hatteras to United Kingdom-Continent, 24s. 6d.; option Gulf loading, 27s. 6d; option California, 45s., December; 7,600 tons, clean, Abadan to United Kingdom, 34s. 5d., December-January; 5,000 tons, machine oil from Batum to Calais, Dunkirk and (or) Rouen, 25s., November-December; 3,800 tons, machine oil from Batum to Calais, Dunkirk and (or) Rouen, 25s. 3d., December; 3,400 tons, clean, from Constanza to United Kingdom-Continent, 27s. 6d., October; 5,400 tons, gas oil from Tampico to United Kingdom, 30s., November; 6,700 tons, clean, from Gulf to French Atlantic, 27s. 6d., October-November; 3,500 tons, gas oil from Constanza to La Palice, 25s., November-December; 6,400 tons, clean, from north Atlantic or Gulf to French Atlantic, 24s. 6d. and 27s. 6d., November-December. Case oil, 200,000 cases, from Gulf to Australasia, basis 49c., December; sulfur from Gulf to Marseilles and (or) Cette, $11, November from Gulf to River Plate, $12, November-December; sugar from Cuba to United Kingdom-Continent, 45s., November; from Cuba to Hatteras, 21c prompt.

COAL.—The British coal strike continues and it means a continued sharp demand on this side. Coal freights were reported lower. England seems to be rationing coal. As winter approaches the strike may break. There is said to be much suffering among the miners. They stick to the strike, however, for the time being. Hampton Roads is handling big quantities. On the 22d the steamer loadings there were 102,407 tons. Prices are strong and apparently tend upward. Tidewater premiums over the mine-mouth plus rail freight price of the principal products are still paid. Steamer loadings at Lake Erie ports are decreasing. The total for Oct. 18 week was 758,180 tons, against 948,603 tons a year ago. The Lake movement for industries to all appearance was heavier than then. In Pittsburgh on the 27th inst. prices advanced $1. Soft coal was $8 75, with the tendency upward, and $12 named as a possibility. In Portland and Norfolk prices were also steadily advancing. Paris complains of a fuel famine. In fact, that is what prevails all over Europe. Strenuous efforts are to be made, it is understood, by industrial leaders and financiers in London to end the strike, which threatens a tie-up of British industries. Later it was stated that some of the published reports of prices were unsteady. It is pointed out that the highest price at the mine has not been over $5. There is a low level of $4, below which good Pittsburgh and West Virginia run-of-mine gas and steam coal are not obtainable. Dealers, it is true, want from a fortnight to three weeks leeway on deliveries.

TOBACCO.—Northern Wisconsin binders were in demand and packers' stocks it seems have been greatly reduced. Old crop quotations have been steadied by advices that the Ohio crop is relatively small. A rising demand for Sumatra is reported. As to new crop Sumatra the reports are none too encouraging. In many parts of the country cigar manufacturers are operating at 100%. Wisconsin binders, 22 to 25c.; Northern, 38 to 50c.; Southern, 25 to 35c.; New York State seconds, 45c.; Ohio Gebhardt binders, 20c.; Little Dutch, 21 to 22c.; Zimmer Spanish, 28c.; Havana 1st Remedios, 86c.

COPPER has been quiet and easier. A lot of 500,000 lbs. of copper, it was rumored, was offered at 14c., delivered in the Valley, but the real market level was regarded as 14.05c. Another rumor was to the effect that the Copper Exporters, Inc., were about to reduce their quotation of 14.40c. c.i.f. European ports, but no change was reported. Deliveries from the Lake smelters are of fair volume, but to the Detroit district they are a little below normal owing to a slowing up in the automobile industry. A heavier movement is looked for in November. London on the 26th inst. dropped 5s. to £58 2s. 6d. for spot and £59 for futures; sales, 150 tons of spot and 450 tons of futures; electrolytic unchanged at £66 10s. for spot and £67 for futures. Later on the price here was more generally quoted at 14c., but it was said that some customers had to pay 14.10c. A feature of the week was the reduction of ¼c. by the American Brass Co. of mostly all of their products—copper, brass, bronze, nickel silver, as well as bare copper wire, which usually is left unchanged in the first reduction by this company. Settling prices on the 27th inst. on the local metal exchange were 5 points higher at 14c. bid, 14.20c. asked and 14.05c. settling price, spot and October with 5 points higher in settling price for November. Standard copper in London on the 27th advanced 7s. 6d. to £58 10s. for spot and £59 7s. 6d. for futures; sales, 500 tons of spot and 1,300 tons of futures; electrolytic unchanged at £66 10s. for spot and £67 for futures. New York has latterly reported sales at under 14c. It was rumored that 13.95c. had been accepted; generally, 14c. was quoted delivery to the Valley. London declined 5s. on standard copper; spot, £58 5s.; futures, £59 2s. 6d.

TIN early in the week was lower. Considerable demand appeared at the low level however, and prices on the 27th inst. advanced ⅜ to ½c. There was some speculative buying. There was also a good demand from dealers. Consumers were good buyers on the 26th inst. but on the next day when prices advanced they appeared to be out of the market. They were supposed to have covered their requirements on the 26th inst. at the low prices. The automobile industry, which is a large consumer of tin, is working at only 50% of capacity and the demand from canners is expected to fall off considerably. Spot standard in London declined £4 10s. on the 26th inst. to £306 for spot and futures dropped £5 5s. to £301 10s.; sales 150 spot and 750 tons of futures; spot Straits declined £4 10s. to £313 10s.; Eastern c. i. f. London fell 15s. to £311 5s. on sales of 150 tons. On the 27th London spot standard tin advanced 10s. to £306 10s. and futures rose 1s. to £302 5s.; spot Straits advanced 10s. to £314; Eastern c. i. f. London declined £2 to £309 5s. on sales of 250 tons. Here on the 27th spot Straits sold at 69½c.; November at 68⅜ to 68½c.; December at 67⅝c.; January at 67c. According to announcement by the Board of Managers the New York Metal Exchange will deal only in tin after November 15th. Straits shipments for October were estimated at 5,500 tons or over 1,000 less than for the same month last year. On the 28th inst. London dropped fully £2 15s. New York dropped ½c. Supplies are so liberal that buying halts. Spot Straits here 67⅞c.; November, 68c. Standard spot in London £303 15s.; futures £ 300.

LEAD was in fair demand and steady. The American Smelting Co. was quoting 8.25c., New York, while the St. Joseph Lead Co. was asking 8c., East St. Louis. It was reported, however, that 5 points lower could be done at East St. Louis. One of the big battery makers reduced prices 20%. Lead ore was quoted at $102 50. London on the 26th inst. fell 5s. to £30 5s. for spot, and futures dropped 6s. 3d. to £30 3s. 9d. On the 27th inst. London advanced 2s. 6d. to £30 7s. 6d. for spot and futures rose 3s. 9d. to £30 7s. 6d. Of late prices have been steadier with a better demand, especially in the Central West. New York remained at 8.25c.; East St. Louis, 8c. London on the spot was 5s. higher on Thursday at £30 12s. 6d.; futures, £30 10s.

ZINC fell to the lowest price seen in several weeks when the price on the 26th inst. went to 7.25c. East St. Louis with November-December at 7.22½c. Trade was quiet. Zinc ore was $1 lower at $48 in the tri-State district. At London on the 26th inst. spot declined 6s. 3d. to £33 16s. 3d. and futures fell 5s to £33 16s. 3d.; sales, 2,475 tons futures. On the 27th inst. London advanced 3s. 9d. to £34 for spot and £34 for futures. Latterly prices dropped 2½ points to 7.20 to 7.22½. East St. Louis. High grade 9 to 9¼c. delivered New York. Spot in London was higher at £34 2s. 6d.

STEEL.—Output has fallen off 5% in two weeks. The United States Steel Corp. is now operating at 83% and leading independents at 78. Business has been even smaller

than it was in the previous week. Iron and steel scrap has been in good demand in the East and the Bethlehem Steel Co. recently took 40,000 tons. The sale of steel products lags plainly. Birmingham is doing some business in connection with the rebuilding of Miami, but it is only moderate. Finished steel in general is and has been quiet. October business will make a less favorable showing than that of September. Then the specifications were very large. October is usually a month of large output, but that is not the case this year. Pittsburgh advices, however, say that output is outrunning new business. It caused a decrease in the output there. There is ony a moderate business in plates. Wire products do not sell well. Smaller trade is being done in sheets with auto companies. Incidentally the sales of bolts, nuts and rivets in the Pittsburgh section are small. Dulness characterizes the trade in steel and iron bars. Recently rails were active and there is a better demand now for light rails. The big crop and the low price of cotton hurts steel business in general at the South. It is said that sales of steel rails up to date are 1,000,000 tons. Steel bars are quoted at 2c. with big shipments on old contracts at 1.50c. Plain wire at Pittsburgh has sold, it is said, at 2.45c., a decline of 5c.

PIG IRON has been rather quiet. The coke situation largely dominates iron with the British coal strike still on. And $5 was paid for beehive furnace coke for the first quarter. There is but little demand for iron for the fourth quarter. To all appearance at least consumers are pretty well supplied. And there is very little inquiry for the first quarter of 1927. Neither bids nor offerings are at all eager. The British coal strike is the secret of the disorganized coke market. It is said that standard foundry coke has sold at $5 50. Iron buyers hold aloof because they think the settlement of the coal strike across the water would casue lower prices for both coke and iron. Eastern Pennsylvania iron was quoted at $21 to $21 50 for No. 2 plain foundry; Buffalo, $18 50 to $19; Virginia, $22 to $23; Chicago, $21 to $21 50 Valley, $18 to $18 50. These are merely nominal quotations. Imports of pig iron at Atlantic seaboard points have been small. At Philadelphia last week only 100 tons arrived, and it was all from Holland. Very little business has been done in European or East Indian iron in the East. Dutch iron for the time being, among foreign irons, has had the preference, such as it was. German has been neglected. It is not likely to be penalized on the duty, it seems. Later in the week it was stated that eastern Pennsylvania was selling at $21, furnace base. Some producers, however, announced an advance of 50c. per ton to $21 50 base. Basi pig iron was said to be firmer at $21 to $22 per ton ;copper-bearing low-phosphorous iron was said to be firmer at $21 to $22 per ton; copper-bearing low-phosphorous iron, $24; copper-free iron, $23 25 to $23 75 furnace. England wanted American low-phosphorous which normally it exports to the United States. There was an inquiry for 1,000 tons of copper-bearing iron. Massachusetts iron was said to have risen 50c. to $21, but this report was denied.

WOOL has been in smaller demand. American wool commands the readiest sale as being cheaper than foreign of the same quality. Mills in Boston are said to be busy. Foreign markets have been firm. In Australia the lower grades have recently declined 2 to 3c. clean basis. The rail and water shipments of wool from Boston from Jan. 1 to Oct. 21, inclusive, were 163,069,000 lbs., against 142,359,000 pounds for the same period last year; receipts from Jan. 1 to Oct. 21, inclusive, were 299,513,167 lbs. against 262,754,600 lbs. for the same period last year. Ohio and Pennsylvania fleeces in Boston.

Delaine unwashed, 45 to 46c.; ½-blood combing, 45 to 46c.; ¾-blood combing, 45 to 46c.; ¼-blood combing, 45 to 46c.; fine unwashed, 40 to 42c.; Michigan and New York fleeces, Delaine unwashed, 43 to 44c.; ½-blood combing, 43 to 44c.; ¾-blood combing, 45 to 46c.; ¼-blood combing, 45 to 46c.; fine unwashed, 38 to 39c. New York prices for Australian, clean basis in bond, 64-70s combing, $1 04 to $1 08; 64-70s clothing, 96c. to $1 00; 58-60s, 85 to 87c.; 56s, 72 to 75c.; New Zealand, clean basis in bond, 58-60s, 78 to 81c.; 56-58s, 68 to 71c.; 50-56s, 60 to 62c.; 48-50s, 50 to 52c.

Argentina advises say that average estimates of the wool clip show total production of about 340,000 bales, including 10,000 carry-over and 30,000 of the second clip. Home consumption is estimated at 20,000 bales and the estimated exportable surplus, therefore, is about 325,000 bales for the year ended Sept. 30 1927. Four estimates on quantities of grades average 40% coarse crossbreds, 19% medium crossbreds, 23% fine crossbreds, and 16% merinos. However, one important house calculates 25% coarse, 25% medium, 35% fine, and 15% merinos. In Liverpool on the 26th inst. at the opening of the East India wool auctions where some 17,000 bales were to be offered in four days, there were no choice clothing wools offered. Carpet wools composed most of the sales. Good medium wools were unchanged to 5% higher. Waste wools were dull, weak and occasionally reported in buyers' favor, sometimes 10% decline. An erican buyers wanted clean wools. Some of the better Jorias and Vicaneers were to be offered later. One cable said 18½c. was paid for good Kandahar. Offerings were to include 900 bales of Jorias, 3,900 bales of Vicaneres, 1,300 bales of Kandahars, 4,100 bales of yellow, 3,700 bales of greys, 800 bales of Bibruck-Harnal, and 1,500 bales of Jesselmere and Marwar whites. Sales of Aleppo washed wools and Awassi-Karadi are reported in Boston at 38 to 40c., according to quality, spot and to arrive. There are reports of an export embargo being imposed by the Russian Govt.

COTTON.

Friday Night, Oct. 29 1926.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 535,376 bales, against 587,297 bales last week and 618,810 bales the previous week, making the total receipts since Aug. 1 1926, 4,574,391 bales, against 3,519,854 bales for the same period of 1925, showing an increase since Aug. 1 1926 of 1,054,537 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

* Houston statistics are no longer compiled on aninterior basis, but only on a port basis. We are changing accordingly.

The exports for the week ending this evening reach a total of 223,236 bales, of which 48,496 were to Great Britain, 3,381 to France, 62,719 to Germany, 22,847 to Italy, ------ to Russia, 50,253 to Japan and China, and 35,540 to other destinations. In the corresponding week last year total exports were 182,132 bales. For the season to date aggregate exports have been 2,305,254 bales, against 2,148,954 bales in the same period of the previous season. Below are the exports for the week and for the season.

Week Ended Oct. 29 1926. Exports from—	Exported to—

NOTE.—*Exports to Canada.*—It has never been our practice to include in the above tables reports of cotton to Canada, the reason being that virtually all the cotton destined to the Dominion comes overland and it is impossible to get returns concerning the same from week to week, while reports from the customs districts on the Canadian border are always very slow in coming to hand. In view, however, of the numerous inquiries we are receiving regarding the matter, we will say that for the month of September the exports to the Dominion the present season have been 13,041 bales. In the corresponding month of the preceding season the exports were 20,478 bales. For the two months ended June 30 1926 there were 20,341 bales exported as against 20,478 bales for the corresponding two months of 1925

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named:

Oct. 29 at—	On Shipboard, Not Cleared for— Great Britain.	France.	Germany.	Other Foreign	Coastwise.	Total.	Leaving Stock.
Galveston	25,400	17,100	20,000	40,400	8,000	110,900	577,824

Total 1924	57,000	33,858	44,161	49,062	22,781	206,862	968,461

* Estimated.

Speculation in cotton for future delivery has been only fairly active, but the tone has latterly been firmer. The South has been offering less freely. The holding back movement seems to be gaining headway. Loan corporations are being established in the Carolinas, Louisiana, Mississippi and Texas, with a capitalization of from $1,000,000 to $5,000,000, the latter in Texas. It may be added that the corporation in Texas has not actually to all appearances been organized, but it has been authorized by the executive committee of the Texas Banking Association. The effect has been to reduce hedge selling here. And the last Government report on the 25th inst., although it put the crop at 17,454,000 bales, had remarkably little effect. This figure is as against 16,103,679 bales in 1925, 13,627,936 in 1924, 10,139,671 in 1923, 9,762,069 bales in 1922 and 7,953,641 in 1921. The yield for 1926 is 176.7 pounds of lint cotton per acre, against 167.2 in 1925; 157.6 in 1924; 144.2 the five-year average 1921-1925, and 153.7 the ten years from 1916 to 1925. The ginning up to Oct. 18 was 8,722,066 bales, against 9,518,946 for the same time last year and 7,613,981 in 1924. The total for the period from Oct. 1 to Oct. 17 was 3,079,067 lbs., against 2,392,798 for the same period last year. The ginning was 300,000 bales smaller than expected. The crop prospect increased since the previous report 827,000 bales.

Eugene Meyer Jr., Chairman of the President's Cotton Commission, said at Atlanta on Saturday evening, Oct. 26, that the Federal Intermediate Credit banks have available for the orderly marketing of cotton through organized agencies and with the staple properly graded and stored $200,000,000. Mr. Meyer reiterated his warning to growers and others not to become excited or panicky over the figures of the Government crop estimate on Oct. 25.

Spot markets of late have been rising. The basis has been stronger. Offerings have been smaller. The scarcity and dearness of ocean freights militated against export business very plainly, but on Thursday there was a revival of the old rumor that the coal strike in Great Britain was about to be settled. It seemed to find greater credence. Prominent British industrial and financial interests, it is intimated, may intervene with a view to ending the strike, although an attempt in the same direction by the Trades Union Council has failed like the efforts of the British Government. There is a fuel famine in Europe. Coal prices are rising sharply in Norfolk, Pittsburgh and Portland. As soon as this trouble is settled it is believed that cotton exports from American ports will be greatly stimulated. As it is, the United States Shipping Board is doing what it can to relieve the scarcity of ocean tonnage. Spot demand has been good, mainly, however, from Europe, although there is not much November tonnage available. Domestic mills have bought as a rule on only a moderate scale. They have taken the higher grades to a fair extent, but have been bidding low prices for the commoner descriptions and these bids have not been generally accepted. In Liverpool of late the spot sales have been 10,000 bales a day. Also, the hedge sales there have likewise been smaller. The small offerings from the South have attracted general attention. They have led to considerable covering, partly of good-sized blocks. Wall Street, uptown and other interests have been buying to a certain extent for investment. On any decline the market runs into a good many buying orders on a scale. According to some reports, investment buying has formed about one-third of the purchases. Exports of cotton cloths from the United States during September, it turns out, were 46,265,000 square yards, valued at $6,309,000, against 38,508,000 square yards, valued at $5,481,000, in August, and 42,365,000, valued at $6,547,000, in September last year. Some think that the big crop will be offset to a considerable extent by a big world's consumption. Of late there has been some improvement in Manchester's cloth trade with India, and yarns have sold more freely. It is admitted that the China trade is dull. Killing frost has prevailed in portions of all of the cotton States during the week except Texas. On the 28th it was as low as 27 degrees in North Carolina. It has been 25 to 32 in many other parts of the cotton belt.

On the other hand, there is no big speculation for a rise. There is nothing like an old-fashioned bull market. The crop is believed to be 18,000,000 bales. The next Government report will appear on Nov. 8. It is expected to show an increase in the estimate over the last one, 17,454,000 bales. The weather recently, moreover, has been favorable for picking and ginning. Some are dubious as to the advisability of holding back 4,000,000 bales, especially for any such length of time as 18 months. They think it would be far better policy in the long run to sell the cotton and then diversify the crops at the South. There is more or less hedge selling. The textile trades are quiet in this country. There is a general disposition apparent to hold off for lower prices. If the South is not a very large seller it is a steady seller and at times during the week Liverpool has been a kind of wet blanket. Many of the rank and file here are bearish. They are skeptical as to the ultimate success of the holding back movement.

To-day prices advanced 15 to 20 points, with Liverpool cables rather better than due, and what is more, the hedge selling small. Oklahoma will withdraw 400,000 bales of its crop. The movement to hold cotton at the South seems to be spreading. Spot markets were higher. Exports made a rather good showing. Spinners' takings were somewhat disappointing. The increase in the world's visible supply of American cotton was noticeably large. It excited comment. There was some hedge selling in the afternoon and with bearish weekly statistics about half the early advance was lost. The general expectation is that the Government report will further increase the crop estimate on Nov. 8. But the distinguishing characteristic of the week has been the subsidence of the hedge selling which at one time was so depressing a factor. Movements of prices of late, however, have been small. Final quotations show a rise for the week of 12 to 20 points. Spot cotton ended at 12.65c., a rise for the week of 10 points.

The following averages of the differences between grades, as figured from the Oct. 28 quotations of the ten markets designated by the Secretary of Agriculture, are the differences from middling established for deliveries in the New York market on Nov. 5:

Middling fair	1.14 on	*Middling "yellow" stained	3.52 off
Strict good middling	.90 on	*Good middling "blue" stained	2.18 off
Good middling	.66 on	Strict middling "blue" stained	2.88 off

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

* Houston statistics are no longer compiled on an interior basis, but only on a port basis. We are changing accordingly.

The above total shows that the interior stocks have *increased* during the week 90,558 bales and are to-night 349 416 bales less than at the same period last year. The receipts at all towns have been 134,721 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.—We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

	1926		1925	
Oct. 29 —	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Shipped—				
Via St. Louis	24.450	122.048	29.146	148.849
Via Mounds, &c	18.360	73.885	15.660	70.160
Via Rock Island	331	2.254	1.941	5.006
Via Louisville	1.896	10.628	2.410	12.307
Via Virginia points	7.731	69.899	5.886	57.894
Via other routes, &c	16.666	117.090	10.452	127.237
Total gross overland	69.434	395.804	65.495	415.453
Deduct Shipments—				
Overland to N. Y., Boston, &c	4.217	24.148	4.066	14.836
Between interior towns	589	5.427	522	5.923
Inland, &c., from South	17.204	176.268	8.924	92.903
Total to be deducted	22.010	205.843	13.512	113.662
Leaving total net overland *	47.424	189.961	51.983	301.791

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement this year has been 4 ,424 bales, against 51,983 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 111,830 bales.

	1926		1925	
In Sight and Spinners' Takings.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Receipts at ports to Oct. 29	535,376	4.574.391	376.061	3.519.854
Net overland to Oct. 29	47.4 4	189.961	51.983	301.791
Southern consumption to Oct. 29	110.000	1.268.000	90.000	1.180.000
Total marketed	692,800	6,032.352	518,044	5.001.645
Interior stocks in excess	90.558	598,760	131.054	1.351.331
Excess of Southern mill takings over consumption to Oct. 1	----	*79.328	------	140.990
Came into sight during week	783,358	------	649.098	------
Total in sight Oct. 29	----	6.551.784	------	6.493.966
North. spinners' takings to Oct. 29	66,865	543,965	63,354	475,219

* Decrease.

Movement into sight in previous years:

Week—	Bales.	Since Aug. 1—	Bales.
1924—Oct. 29	641.226	1924	5,043.670
1923—Nov. 2	462,385	1923	4.561.646

WEATHER REPORT BY TELEGRAPH.—Reports to us by telegraph this evening indicate that the weather during the week has been colder than in previous weeks and some places in the northern and eastern parts of the cottonbelt reported frost. Rain has fallen during the week in most sections of the belt and in a few instances precipitation has been heavy.

Texas.—Picking of cotton in this State has been largely completed in the southern half and is well along in the central and northeastern parts, but much cotton still remains in the northwest. There have been some complaints of damage by rain to open cotton.

Mobile, Ala.—The weather has been favorable for farm work. Picking is slowing down. There is not much cotton left in the fields. Low prices are checking shipments.

Vicksburg	Above zero of gauge	39.4	18.8

EGYPTIAN 1926 COTTON CROP ESTIMATE.—The Ministry of Agriculture at Alexandria, Egypt, gave out on Oct. 11 the second cotton crop estimate for the 1926 Egyptian crop. The report follows:

Just after the publication of the first estimate weather conditions were unfavorable to the ripening of the crop, later on an improvement set in.

The pink boll worm attack is more severe than that of last year. According to reports received to date, the quality and ginning out-turn is superior to that of last year, but in grade it is slightly lower, this being attributed to delayed picking in many districts.

The Ministry of Agriculture, after consideration of all the information at present available, estimate the crop of 1926 as follows:

Variety.	Total Seed Cotton. Cantars.	Avge. per Feddan. Cantars.	Total Ginned Cotton. Cantars.	Avge. per Feddan. Cantars.
Sakellaridis	2,748,992	2.80	2,748,992	2.80
Other varieties	3,715,579	4.62	4,087,137	5.08
Total	6,464,571		6,836,129	
Average		3.62		3.83

A final estimate with any necessary modification will be published in November.

MORE FERTILIZERS USED IN COTTON BELT THIS YEAR.—The application of fertilizer over a larger cotton area this year resulted in the use of a total of 2,444,000 tons on cotton alone, compared with 2,307,000 tons last year, although less fertilizer was used per acre in 11 States, according to reports to the United States Department of Agriculture, and made public on Oct. 18. About 1,800,000 tons, or nearly 75% of the total, was used in North Carolina, South Carolina, Georgia and Alabama. The average price paid for the fertilizer in the 11 States was $32 59 a ton, with an aggregate of $79,639,000, compared with $32 39 a ton and an aggregate of $74,707,000 last year. The average cot of fertilizer per acre of cotton this year was $4 36 for an average of 268 pounds. Last year the application was 273 pounds of fertilizer on the average, where used, at a cost of $4 42.

Sales of fertilizer for all purposes in 11 cotton States for the year ended approximately in June 1926, based on sales of tags, totaled approximately 4,883,000 tons, compared with 4,697,000 tons in 1925.

AGRICULTURAL DEPARTMENT'S REPORT ON PRODUCTION AND CONDITION OF COTTON.—The Agricultural Department at Washington on Monday of this week (Oct. 25) issued its report on production and condition of cotton as of Oct. 18, making the crop 17,454,000 bales of 500 pounds gross weight, or 827,000 bales more than the Department's estimate for Oct. 1 1926. Last year at this time the Department of Agriculture placed the crop at 15,226,000 bales and the actual crop turned out to be 16,103,679 bales. The present estimate is 2,086,000 bales more than the first estimate of the Department for the present crop given out on July 16 this year. The following is the complete official text of the present report:

A United States cotton crop of 17,454,000 bales (500 pounds gross weight) in 1926 is indicated by reports as of Oct. 18 to the Crop Reporting Board of the United States Department of Agriculture. The Board's report is based upon data concerning condition, probable yields, ginnings, &c., from crop correspondents, field statisticians, ginners and co-operating State boards (or departments) of agriculture and extension departments.

Upon the 47,207,000 acres for harvest in 1926 (preliminary estimate), the crop of 17,454,000 bales would approximate a yield of 176.7 pounds of lint cotton per acre.

The final outturn of the crop will depend upon whether the various influences affecting the crop during the remainder of the season are more or less favorable than usual.

Note.—Range forecasts will be omitted during remainder of the season.

Production in 1925 was 16,103,679 bales; in 1924, 13,627,936 bales; in 1923, 10,139,671 bales; in 1922, 9,762,069 bales; and in 1921, 7,953,641 bales.

The yield per acre in 1925 was 167.2 pounds; in 1924, 157.6 pounds; for the five years 1921-1925, 144.2 pounds; and for the ten years 1916-1925, 153.7 pounds.

Details by States follow:

COTTON GINNING REPORT.—The Bureau of the Census on Oct. 25 issued the following report showing the number of bales of cotton ginned in each of the cotton-growing States in the present season up to Oct. 18, in comparison with corresponding figures for the preceding seasons. This report shows that for the present season 8,722,066 bales of cotton have been ginned, comparing with 9,518,946 bales last year and but 7,615,981 bales two years ago.

State.	Running Bales (Counting round as half bales and excluding linters). 1926.	1925.	1924.
Alabama	903,688	1,064,116	659,628
Arizona	37,098	31,206	39,146
Arkansas	738,904	703,115	532,148
California	42,036	17,307	25,993
Florida	21,973	35,909	16,301
Georgia	919,520	1,051,058	668,466
Louisiana	512,609	683,292	368,511
Mississippi	1,036,392	1,182,435	725,252
Missouri	78,135	72,983	31,189
New Mexico	12,773	16,536	14,339
North Carolina	497,101	711,268	192,890
Oklahoma	335,426	550,996	596,281
South Carolina	544,986	731,187	352,328
Tennessee	183,733	234,742	105,795
Texas	2,844,331	2,405,881	3,275,144
Virginia	9,636	21,752	1,394
All other	3,725	5,113	1,176
United States	8,722,066	9,518,946	7,615,981

The statistics in this report include 258,199 round bales for 1926; 145,98[illegible] for 1925, and 203,424 for 1924.

The statistics for 1926 in this report are subject to slight corrections when checked against the individual returns of the ginners being transmitted by mail. The corrected statistics of the quantity of cotton ginned this season prior to Oct. 1 are 5,642,999 bales.

Consumption, Stocks, Imports and Exports—United States.—Cotton consumed during the month of September 1926 amounted to 571,105 bales. Cotton on hand in consuming establishments on Sept. 30 was 937,129 bales, and in public storage and at compresses 3,293,217 bales. The number of active consuming cotton spindles for the month was 32,134,682. The total imports for the month of September 1926 were 10,007 bales and the exports of domestic cotton, including linters, were 794,584 bales.

World Statistics.—The estimated world's production of commercial cotton, exclusive of linters, grown in 1925, as compiled from information secured through the domestic and foreign staff of the Department of Commerce, is 26,927,000 bales of 478 pounds lint, while the consumption of cotton (exclusive of linters in the United States) for the year ending July 31 1925, was approximately 22,640,000 bales of 478 pounds lint. The total number of spinning cotton spindles, both active and idle, is about 162,000,000.

COMMENTS CONCERNING COTTON REPORT.—The United States Department of Agriculture, in giving out its cotton report on Oct. 25, also added the following comments:

Continued improvement of the prospects of the cotton crop since Oct. 1 leads on Oct. 18 to an indicated total production of 17,454,000 bales of 500 pounds gross weight. This is an increase of 827,000 bales over the indication for Oct. 1.

Extensive defoliation of the cotton plants by the leaf worms, coupled with warm weather and the general absence of frost, have advanced the maturing of late bolls and permitted rapid picking. Reports from substantially all of the cotton belt are that the production of cotton is greater than was expected.

A yield of 176.7 pounds of lint per acre is indicated, or 8.3 pounds more than the indication for Oct. 1. This factor of the production is combined with the largest acreage to be harvested ever estimated, and the result is a large indicated crop. There is no question now that the largest crop in the history of the country has been grown. On the other hand, the low price and scarcity of pickers, especially in the western part of the belt, will probably result in a considerable quantity of the lower grades not being picked.

The present estimate of 17,454,000 bales refers to the indicated total ginnings for this season and is subject to some uncertainty with regard to how much of the crop produced will be harvested. Because of the low price cotton farmers are discouraged and may not be disposed to pick the last remnants of the crop, even if they can do so. In consequence of elements of uncertainty with regard to the picking of the entire production of cotton, the crop indicated on Oct. 18, ginned and to be ginned, may vary somewhat from the final figure.

CONSOLIDATED COTTON REPORT.—The Bureau of the Census and the Agricultural Department made public Monday (Oct. 25) their consolidated cotton report, which is as follows:

Oct. 18 1926 *Consolidated Cotton Report.*

Ginnings to Oct. 18 ..... 8,722,066 running bales
Indicated total production ..... 17,454,000 bales, 500-lbs. gross
Indicated yield of lint cotton ..... 176.7 pounds per acre

Census Bureau.—Census report shows 8,722,066 running bales (counting round as half bales) ginned from the crop of 1926 prior to Oct. 18 compared with 9,518,946 for 1925 and 7,615,981 for 1924.

Agriculture Department.—A United States production of 17,454,000 bales (500-pounds gross weight), based upon Oct. 18 indications, is shown by the Crop Reporting Board of the U. S. Department of Agriculture.

FOREIGN COTTON CROP PROSPECTS.—A report of the latest available information received up to Oct. 25 as to cotton production in foreign countries has been compiled by the Foreign Service of the Bureau of Agricultural Economics as follows:

India's cotton area planted up to Oct. 1 was 22,143,000 acres, compared with 22,752,000 acres planted up to the same date last year and 21,785,000 acres in 1924-25, according to a cable received by the United States Department of Agriculture from the Indian Statistical Department at Calcutta. Planting is still continuing and will not be completed in Hyderabad and the Punjab until December. The final acreage figure for al India for last season was 27,960,000 acres, and in the 1924-25 season 26,801,000 acres. For the 14-year period from 1912-13 to 1925-26 the percentage which the second estimate of acreage was of the final estimate ranged from 77 to 90.5. While the ratio of the second estimate to the fina showed a wide variation, the year-to-year changes of the two estimates showed a close relationship. This relationship of previous years indicate that the final estimate will be between 25,300,000 and 27,100,000 acr

Cotton crop conditions in India are, on the whole, satisfacto A cable to the United States Weather Bureau, dated Oct. 16, states that conditions are favorable in Bombay and in the Central Provinces rains have been light to heavy. In the Punjab weather is dry while there has been rain in parts of Madras and the crops are reported to be fair. Rainfall has been light to heavy. Rainfall has been light to moderate in Bengal, but more rain is needed, and in the United Provinces light rain in parts is reported. In Bihar, Orissa and Assam conditions remain unchanged.

The Brazilian Meteorological Service reports that during the first part of September weather was warm and dry throughout the northern cotton-growing region with some rain and cooler weather in central and southern Brazil, according to Consul-General Gualin at Rio de Janeiro. The condition of the plants in the north was satisfactory, and picking was continuing with good yields. In central and southern Brazil the land was being prepared for the next crop.

Area sown to cotton this season in Uganda is approximately 586,000 acres, compared with 617,000 acres last season, according to a cable from the International Institute of Agriculture at Rome. Cotton planting has been completed throughout the country under favorable weather conditions. The progress of the crop in the Province of Buganda and Eastern Province is reported to be satisfactory.

BOOK ABOUT THE EGYPTIAN COTTON MARKET.—G. D. Economou & Co., of Alexandria, Egypt, have recently published a book entitled "Some Information About the Egyptian Cotton Market." This serviceable little book not only contains statistics and information about Egyptian cotton, but it also explains the methods and rules of the Alexandria Cotton Exchange for conducting its transactions. Various tables are given showing the equivalents of the Egyptian weights, measures and moneys, along with other data of interest to persons interested in Egyptian cotton.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ended	Receipts at Ports. 1926.	1925.	1924.	Stocks at Interior Towns. 1926.	1925.	1924.	Receipts from Plantations 1926.	1925.	1924.

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1926 are 4,974,002 bales; in 1925 were 4,869,233 bales, and in 1924 were 4,037,798 bales. (2) That although the receipts at the outports the past week were 535,376 bales, the actual movement from plantations was 625,934 bales, stocks at interior towns having increased 90,558 bales during the week. Last year receipts from the plantations for the week were 507,115 bales and for 1924 they were 527,437 bales.

WORLD SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable, also the takings or amounts gone out of sight for the like period.

Cotton Takings. Week and Season.	1926. Week.	1926. Season.	1925. Week.	1925. Season
Visible supply Oct. 22	5,741,495	------	4,830,364	------
Visible supply Aug. 1	------	3,646,413	------	2,342,887
American in sight to Oct. 29	783,358	6,551,784	649,098	6,493,966
Bombay receipts to Oct. 28	2,000	158,000	13,000	164,000
Other India shipm'ts to Oct. 28	4,000	100,000	3,000	117,000
Alexandria receipts to Oct. 27	70,000	308,400	74,000	433,200
Other supply to Oct. 27-*-*b*	14,000	244,000	12,000	249,000
Total supply	6,614,853	11,008,597	5,581,462	9,800,053
Deduct— Visible supply Oct. 29	6,148,052	6,148,052	5,193,976	5,193,976
Total takings to Oct. 29-*a*	466,801	4,860,545	387,486	4,606,077
Of which American	367,801	3,740,145	329,486	3,491,877
Of which other	99,000	1,120,400	58,000	1,114,200

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

a This total embraces the total estimated consumption by Southern mills, 1,268,000 bales in 1926 and 1,180,000 bales in 1925—takings not being available—and the aggregate amounts taken by Northern and foreign spinners, 3,592,545 bales in 1926 and 3,426,077 bales in 1925, of which 2,472,145 bales and 2,311,877 bales American. *b* Estimated.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of India cotton at Bombay and the shipments from all India ports for the week and for the season from Aug. 1, as cabled, for three years, have been as follows:

Oct. 28. Receipts at—	1926. Week.	1926. Since Aug. 1.	1925. Week.	1925. Since Aug. 1.	1924. Week.	1924. Since Aug. 1.
Bombay	2,000	158,000	13,000	164,000	8,000	83,000

Exports from—	For the Week. Great Britain.	Continent.	Japan & China.	Total.	Since August 1. Great Britain.	Continent.	Japan & China.	Total.
Bombay—								
1926	----	3,000	----	3,000	1,000	67,000	134,000	202,000
1925	----	12,000	5,000	17,000	9,000	97,000	97,000	203,000
1924	----	----	3,000	3,000	14,000	35,000	166,000	215,000
Other India—								
1926	----	4,000	----	4,000	7,000	93,000	-------	100,000
1925	----	3,000	----	3,000	25,000	92,000	-------	117,000
1924	----	3,000	----	3,000	4,000	30,000	-------	34,000
Total all—								
1926	----	7,000	----	7,000	8,000	160,000	134,000	302,000
1925	----	15,000	5,000	20,000	34,000	189,000	97,000	320,000
1924	----	3,000	3,000	6,000	18,000	65,000	166,000	249,000

According to the foregoing, Bombay appears to show a decrease compared with last year in the week's receipts of 11,000 bales. Exports from all India ports record a decrease of 13,000 bales during the week, and since Aug. 1 show a decrease of 18,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—We now receive weekly a cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, October 27.	1926.	1925.	1924.
Receipts (cantars)—			
This week	350,000	370,000	460,000
Since Aug. 1	1,539,564	2,166,436	2,309,690

Exports (bales)—	1926. This Week.	1926. Since Aug. 1.	1925. This Week.	1925. Since Aug. 1.	1924. This Week.	1924. Since Aug. 1.
To Liverpool	----	36,955	7,250	37,783	8,000	42,139
To Manchester, &c	7,000	34,129	11,000	31,309	11,000	45,414
To Continent and India	8,000	62,695	11,250	63,280	13,750	70,072
To America	----	12,459	600	11,015	4,500	9,901
Total exports	15,000	146,258	30,100	143,387	37,250	167,526

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.
This statement shows that the receipts for the week ending Aug. 27 were 350,000 cantars and the foreign shipments 15,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market in cloth is firm and in yarns steady. Demand for India is improving. We give prices to-day below and leave those for previous weeks of this and last year for comparison.

SHIPPING NEWS.—As shown on a previous page, the exports of cotton from the United States the past week have reached 223,236 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Bales.
NEW YORK—To Bremen—Oct. 26—Columbus, 300; George Washington, 400	700
To Liverpool—Oct. 22—Celtic, 321; Lancastria, 100	421
To Antwerp—Oct. 22—Zeeland, 50	50
To Venice—Oct. 22—Alberta, 532	532
To Trieste—Oct. 22—Alberta, 200	200
To Gothenburg—Oct. 22—Drottingholm, 600	600
To Bergen—Oct. 25—Stavangerfjord, 100	100
To Rotterdam—Oct. 22—Noordam, 13	13
To Bombay—Oct. 23—Nile, 3,102	3,102
To Oporto—Oct. 21—Chelma, 1,949	1,949
To Havre—Oct. 21—Rochambeau, 1,771	1,771
NEW ORLEANS—To Liverpool—Oct. 25—Cranian, 5,226...Oct. 26—West Ivis, 3,158	8,384
To Manchester—Oct. 25—Cranian, 738...Oct. 26—West Ivis, 2,163	2,901
To Barcelona—Oct. 25—Mar Blanco, 1,693	1,693
To Genoa—Oct. 25—Monstella, 5,221	5,221
To Japan—Oct. 25—Jadden, 4,172	4,172
To China—Oct. 25—Jadden, 5,175	5,175
To Trieste—Oct. 23—Gilda, 100	100
To Venice—Oct. 23—Gilda, 4,233	4,233
To Valparaiso—Oct. 22—Mineola, 22	22
To Porto Colombia—Oct. 27—Abangarez, 300	300
HOUSTON—To Venice—Oct. 26—Gilda, 2,861	2,861
To China—Oct. 26—Radnor, 1,020	1,020
To Trieste—Oct. 26—Gilda, 25	25
To Liverpool—Oct. 25—Candidate, 5,426...Oct. 23—Labette, 10,287	15,713
To Manchester—Oct. 25—Candidate, 200	200
To Havre—Oct. 25—Lancaster Castle, 1,610	1,610
To Antwerp—Oct. 25—Lancaster Castle, 500	500
To Ghent—Oct. 25—Lancaster Castle, 1,448	1,448
To Genoa—Oct. 25—Monvisa, 2,786; Maddalena Odero, 3,689	6,475
To Japan—Oct. 23—Fernhill, 8,150; Naples Maru, 3,250...Oct. 22—Belgium Maru, 2,900...Oct. 26—Radnor, 4,550	18,850
To Bremen—Oct. 20—Stanley, 6,572...Oct. 28—Maria de Larrinaga, 211; Pio Panuco, 754	7,537
To Hamburg—Oct. 28—Rio Panuco, 724	724
To Barcelona—Oct. 22—P. de Satrustegui, 2,950...Oct. 25—Prusa, 1,600	4,550
To Oporto—Oct. 26—West Chatala, 1,975	1,975
To Rotterdam—Oct. 27—Eelbeck, 982	982
GALVESTON—To Barcelona—Oct. 25—Prusa, 1,975; P. de Satrustegui, 2,300	4,275
To Liverpool—Oct. 25—Labette, 5,159...Oct. 22—Candidate, 4,719	9,878
To Oslo—Oct. 23—America, 546	546
To Copenhagen—Oct. 23—America, 50	50
To Gothenburg—Oct. 23—America, 2,931	2,931
To Bremen—Oct. 22—Stanley, 8,218; Holger, 4,032	12,250
To Manchester—Oct. 22—Candidate, 85	85
To Japan—Oct. 21—Fernhill, 1,075...Oct. 26—Bengal Maru, 7,325	8,400
To Rotterdam—Oct. 27—Beemsterdijk, 6,228	6,228
NORFOLK—To Bremen—Oct. 28—Jeannette Skinner, 8,964	8,964
To Manchester—Oct. 23—Manchester Skipper, 1,225...Oct. 29—Kerhonkson, 1,300	2,525
To Liverpool—Oct. 23—Savannah, 2,250	2,250
To Genoa—Oct. 23—City of St. Joseph, 3,200	3,200
SAVANNAH—To Barcelona—Oct. 26—Mar Tirreno, 3,826	3,826
To Bremen—Oct. 23—Jobshaven, 6,400...Oct 28—Homeside, 7,643	14,043
To London—Oct. 23—Hans Arp, 10	10
To Hamburg—Oct. 28—Homeside, 150	150
CHARLESTON—To Bremen—Oct. 26—Rapot, 6,326...Oct. 27—West Alsek, 10,150	16,476
To Hamburg—Oct. 27—West Alsek, 475	475
To Rotterdam—Oct. 27—West Alsek, 150	150
MOBILE—To Barcelona—Oct. 21—Cardonia, 250	250
To Liverpool—Oct. 25—Coahoma County, 4,953	4,953
SAN PEDRO—To Liverpool—Oct. 26—Pacific Shipper, 270	270
To Manchester—Oct. 26—Pacific Shipper, 500	500
To Bremen—Oct. 23—Witram, 1,300	1,300
BOSTON.—To Bremen—Oct. 15—Seattle Spirit, 100	100
SAN FRANCISCO—To Japan—Oct. 22—President Van Burean, 280...Oct. 25—Montreal Maru, 1,928; Siberia Maru, 3,166	5,374
To China—Oct. 22—President Van Buren, 384...Oct. 25—Montreal Maru, 53; Siberia Maru, 250	687
PHILADELPHIA—To Liverpool—Oct. 11—Winifredian, 324	324
PORT TOWNSEND—To Japan—Oct. 19—Shidzuoka Maru, 4,500	4,500
To China—Oct. 19—Shidzuoka Maru, 2,075	2,075
PENSACOLA—To Liverpool—Oct. 25—Coahoma County, 82	82
Total	223,236

COTTON FREIGHT.—Current rates for cotton from New York, as furnished by Lambert & Burrows, Inc., are as follows, quotations being in cents per pound:

	High Density.	Standard.		High Density.	Standard.		High Density.	Standard
Liverpool	1 00	1.30	Oslo	.50c.	.60c.	Shanghai	.67½c.	.82½c.
Manchester	1.00	1 30	Stockholm	.50c.	.65c.	Bombay	60c.	.75c.
Antwerp	.35c.	50c.	Trieste	.50c.	.65c.	Bremen	.40c.	.55c.
Ghent	.42½c.	.57½c.	Fiume	.50c.	.65c.	Hamburg	.35c.	.50c.
Havre	.35c.	.50c.	Lisbon	.40c.	.55c.	Piraeus	.75c.	.90c.
Rotterdam	.50c.	.65c.	Oporto	.60c.	.75c.	Salonica	.75c.	.90c.
Genoa	.40c.	.55c.	Barcelona	.30c.	.45c.	Venice	.50c.	.65c.
			Japan	.62½c.	.77½c.			

LIVERPOOL.—By cable from Liverpool we have the following statement of the week's sales, stocks, &c., at that port:

	Oct. 8.	Oct. 15.	Oct. 22.	Oct. 29.
Sales of the week	47,000	43,000	52,000	41,000
Of which American	27,000	22,000	30,000	22,000
Actual exports	7,000	3,000	5,000	3,000
Forwarded	43,000	56,000	69,000	65,000
Total stocks	754,000	778,000	768,000	821,000
Of which American	357,000	380,000	380,000	434,000
Total imports	39,000	83,000	67,000	125,000
Of which American	2 ,000	59,000	44,000	97,000
Amount afloat	305,000	306,000	360,000	317,000
Of which American	219,000	221,000	289,000	243,000

The tone of the Liverpool market for spots and futures each day of the past week and the daily closing prices of spot cotton have been as follows:

Spot.	Saturday.	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.
Market, 12:15 P. M.	Quiet.	Good demand.	Good demand.	Good demand.	Good demand.	A fair business doing.
Mid.Upl'ds	6.73	6.64	6.69	6.60	6.71	6.85
Sales	4,000	8,000	8,000	10,000	10,000	8,000
Futures. Market opened	Quiet 1 to 4 pts advance.	Barely st'y 7 to 11 pts. decline.	Steady 15 to 17pts. advance.	Steady 10 to 14pts. decline.	Steady 2 to 3 pts. advance.	Steady, unchanged to 1 pt decline
Market, 4 P. M.	Steady 7 to 9 pts. advance.	Steady 12 to 19pts. decline.	Steady 14 to 16pts. advance.	Quiet 8 to 13 pts. decline.	Very ste'dy 10 to 16pts. advance.	Barely st'y, 4 pts.dec to 3 pts. adv

BREADSTUFFS

Friday Night, Oct. 29 1926.

Flour has recently advanced, but business has not increased. Advances merely reflect a rise in wheat from time. Trade sticks to the rut. A review of one week in this respect would do for almost any week. Prices do change, but the volume does not, or at least changes very little. Perhaps if events bring about a further marked advance in wheat, like that of late last week, some buyers may show a little nervousness and for the moment increase their purchases. But experience suggests that it would be only for the moment. Export trade, too, is quiet, largely or partly because of the scarcity and dearness of ocean tonnage.

Wheat declined on the 25th inst., with Liverpool and Buenos Aires cables disappointing and Argentine crop news favorable. Added to this was heavy profit taking. Canadian marketings were larger. On the 23d inst. they were 3,500,000 bushels. Export business was small. The lack of export business was a surprise, as there was a rumor that freight rates were easier, with an increasing supply of tonnage. Yet premiums at the Gulf of Mexico were lower. No. 2 hard wheat was 11c. over December f. o. b. vessels loading within 15 days. Rumors that some coal vessels were turning to the grain trade again were bearish in Liverpool but bullish on this side. But there was a decrease in the United States visible supply last week of no less than 2,015,000 bushels. That suggests rapid consumption. The total supply is now 71,389,000 bushels, against 46,034,000 a year ago. And it was estimated that France will have to import 70,000,000 bushels of wheat this year because of curtailed production of wheat and rye.

There were reports of unfavorable weather in Central and Western Europe, which it was believed would interfere with seeding fall crops. On the other side the trade seemed "mixed" as to whether the settlement of the coal strike in England would end in bearing bearish or bullish in North America. Paris cabled that restrictions on the exportation of wheat, barley, oats and other foods had been decided upon by a Cabinet Council. Winnipeg wired Oct. 28: "Marketings continue heavy. Bulls point to inspections of only 499 cars of contract wheat on to-day's sheet out of 1,389 cars inspected. Exporters report continued inactivity for export. Europe buying sparingly and curtailing consumption." Liverpool cabled: "The foreign demand for wheat is small, as importers are afraid of declining prices due to the probability of an early settlement of the British coal strike and the consequent lowering of freight rates." Australia's crop is estimated at 156,000,000 bushels, or 43,000,000 bushels larger than last year. This is called conservative. Export trade has been quiet. At Winnipeg the Canadian wheat growers' pool has been selling. The East and Northwest followed suit. But there was a certain resistance

not to be disputed. Shorts covered later. Old bulls took hold again. Argentina needs rain. Frosts have done harm there. Alberta and Australia will have larger crops.

To-day prices closed unchanged to ¼c. lower here, and in Chicago, ⅛c. lower to ¼c. higher in Minneapolis and ¼ to ½c. higher in Winnipeg. At one time to-day prices were ¼ to ½c. higher in Chicago. But the market lacked real snap. For five days in succession Chicago December has, so far as closing prices were concerned, kept within a range of ¼c. Naturally, that occasioned remark. The cables early in the day were steady. But the export demand was light. Some 200,000 to 300,000 bushels were sold to England and the Continent. Ocean freights were still firm. Rumors that efforts are being made to end the coal strike in England had no effect. Its ending would naturally tend to stimulate export business in American wheat. But meanwhile Argentine and Australian crop news is favorable. Big operators lean to the short side. Winnipeg, it is true, was firm. There was snow in parts of Canada. The crop movement there may be hampered. That affected Winnipeg. It had no great influence in Chicago. American receipts were large. There may be, however, some decrease in the visible supply on Monday. World shipments are estimated at anywhere from 15,000,000 to 16,000,000 bushels. Sentiment is divided at Chicago. This keeps prices in a rut. Deliveries on October contracts at Winnipeg were 84,000 bushels. Canada has marketed thus far this season about 150,000,000 bushels. That is practically the same as the total at this time last year. North American exports for the week are about 12,000,000 bushels. That caused some buying at one time for both sides of the account. The ending was steady, too, with prices practically unchanged, in American markets and slightly higher, as we have seen, at Winnipeg. But the ending for the week shows a decline compared with last Friday of about 2c.

CLOSING PRICES OF DOMESTIC WHEAT AT NEW YORK.

Indian corn fluctuations kept within narrow bounds early in the week. There was a slight trend towards lower prices. But the market did not follow wheat. The crop is rather disappointing. Chicago wired: "Corn has gained friends within the past week and a number of large professionals who have been bearish and short for months have covered, and while they have not taken the buying side, they see no good on the short side. There are disappointing husking returns from western Iowa, Nebraska and other points, where good yields had been expected." The United States visible supply increased last week, however, 1,723,000 bushels, against a decrease last year of 1,134,000 bushels. The total is now 18,631,000 bushels, against 2,321,000 a year ago. Topeka, Kan., wired: "Soil dried out sufficiently in all sections to permit field work. Corn has been needing frost to assist in the curing process and was much benefited by dryer weather and lower temperatures at week-end. Some husking has been done for pressing needs, but practically no corn is dry enough to crib." One report said: "Corn situation not greatly changed since first frost. Corn that was not dented when first frost occurred is now, and will only be used for feed. We think about 70% of corn seen recently will grade. Don't think loss from moulding important to date, as only latest poorly matured corn is mouldy. Husking will be general soon, as the crop is dry enough to crib." The weather has latterly been good for marketing. It is fairly under way now.

To-day prices closed 1 to 1⅝c. lower. There was only a fair business. Prices got down to nearly or quite the low level of the season. The receipts were large. That fact told. Moreover, the cash demand was only moderate. Liquidation was the order of the day. Now and then there were rallies on profit taking by the shorts. Also, at one time, when wheat showed more firmness, there was some buying of corn. But the cash markets were weak, despite a fair amount of buying of corn. But the cash markets were weak, despite a fair amount of buying of late by the Pacific Coast. Showers occurred in different parts of the belt. Some of the crop news was unfavorable. But bullish news was powerless to stay the downward swing of prices. Next week there may be some reduction in the crop estimates. That is the expectation in some quarters. Nobody pays much attention to it. Final prices show a decline for the week of 2 to 3c.

July delivery in elevator	----	----	----	88	87	86

Oats declined slightly in response to the falling prices at one time for wheat. There was little trading. The United States visible supply decreased last week 308,000 bushels, however, against an increase in the same week last year. The total is 47,419,000 bushels, against 65,294,000 a year ago. A decline in corn affected oats later, although the decline was not marked.

To-day prices closed ¼ to ⅜c. lower. At one time to-day July was ¼c. higher. There was very little life in the market. Long liquidation was one of the features, however, so far as there were any. The decline in corn again left its impress on this market. Also, there was very little cash demand. Cash prices were tending downward. There was little demand for futures on the long side. Most of the buying was to cover shorts. Naturally, this tended to weaken the technical position. Still, the fluctuations kept within very narrow limits. Last prices showed a decline for the week of ⅝ to ⅞c.

Rye declined as other grain sought lower levels. The United States visible supply increased last week 296,000 bushels, against a decrease in the same week last year of 227,000 bushels. The total now is 12,357,000 bushels, against 1,080,000 last year.

To-day prices closed ¾c. lower, though at one time they were ¼c. higher. A reaction came later, as wheat turned downward. There was very little trading. No export demand was reported. It looks, too, as though the visible supply early next week would show a noteworthy increase in this country. With supplies increasing, foreign demand lacking, ocean freights scarce and high, cash demand only moderate in this country and speculation more or less dormant, rye at the moment has few friends on the bull side. Closing prices show a decline for the week of 3 to 3¼c.

WEATHER BULLETIN FOR THE WEEK ENDED OCT. 26.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Oct. 26, follows:

There was considerable storm activity during the week, and some rather marked temperature changes near the close. The tropical storm which moved over western Cuba early in the week curved northeastward and passed a short distance off the southeast coast of Florida, with high winds and heavy rainfall in the extreme southern portion of the State, but no winds of hurricane force at land stations. The 24-hour precipitation at Miami and Key West for the period ending at 8 a. m., October 21, was 4.62 and 4.82 inches, respectively.

On the morning of the 19th a depression was chartered over eastern Oklahoma and moved rapidly thence during the following two days to the coast of Maine, attended by precipitation quite generally from the middle Mississippi and Ohio Valleys northward and northeastward. Following this storm much cooler weather overspread the South and Southeast, but it had become warmer in the Northwest.

During the latter part of the week a second disturbance moved from Texas northeastward, reaching eastern New York by the morning of the 25th. This storm increased greatly in intensity and was attended by gales along the Atlantic seaboard and the lower Lake region; heavy rains fell in the middle and north Atlantic coast areas. Following the storm much cooler weather overspread the Southern States, with temperatures as low as freezing reported on the morning of the 25th as far south as Memphis, Tenn., and Little Rock, Ark. In the meantime it had become much warmer in the Northwest.

Chart I shows that the weekly mean temperatures were below normal in practically all of the eastern half of the country, the minus departures ranging generally from 6 degress to as much as 10 degrees in the area from the Ohio and lower Missouri Valleys northward. In the Southeast and the west Gulf section about normal warmth prevailed, while over the western half of the country temperatures were generally, and in most cases substantially, above normal. In Rocky Mountain districts and the Great Basin the plus departures from normal ran from 5 degress to as much as 9 degrees. In the East freezing temperatures extended as far south over Appalachian Mountain districts as western North Carolina, and in the Mississippi Valley locally to central Arkansas.

Chart II shows the geographic distribution and total of rainfall for the week. The amounts were heavy in the immediate Ohio Valley and from the Virginias northward, and were substantial in most sections of the Lake region and in parts of the west Gulf area. There were also heavy falls in the extreme Southeast and locally in east Gulf districts. Elsewhere the amounts were light to moderate, with very little rainfall over the western half of the country, except the Pacific Northwest. There was an abundance of sunshine in the South and from the Great Plains westward, but in central and northern districts east of the Plains much cloudy weather prevailed.

Further rains in the area from the Ohio Valley and Lake region eastward continued unfavorable for outdoor work and caused further interruption to seeding and harvesting operations, with considerable complaint of root crops rotting and corn molding in shock. Otherwise the weather was generally favorable, and seasonal farm operations made satisfactory advance. In the south Atlantic area and east Gulf districts light rainfall the latter part of the week was beneficial for fall seeding and for minor late crops, but more is still needed in many sections south of Virginia and east of the lower Mississippi Valley.

The first general frost of the season overspread the lower Missouri and Ohio valleys during the week, with a light deposit extending as far south as the northern portions of the east Gulf States, but damage was not material, as staple crops had practically matured. In the trans-Mississippi States the weather was generally favorable, except that it continued too dry in parts of Texas, and moisture is still badly needed over a considerable area of the west-central Great Plains. West of the Rocky Mountains showers were helpful in the north Pacific section, but moisture continued deficient and badly needed in most of the Great Basin.

SMALL GRAINS.—The soil continued generally too wet for field work in much of the Ohio Valley area and Northeast and the seeding of winter wheat has been practically ended in those areas, with a considerable reduction in intended acreage in many places because of unfavorable weather for field work. In Illinois some wheat has been sown in soil too wet for good results. West of the Mississippi River conditions were more favorable, with seeding practically finished in most sections; good progress was made in southeastern Kansas, where work had been delayed because of wet soil. In Oklahoma the dry weather permitted fair progress in sowing, except that it was too dry in the extreme northwest portion, while moisture was still needed to the northward, including an area comprising western Kansas, southwestern Nebraska and eastern Colorado. In the far Northwest conditions were favorable for winter wheat, except for dryness in parts of eastern Oregon.

Fair progress was made in harvesting grain sorghums in the lower Great Plains, but much of this crop is still in the field in Oklahoma, and some has been badly damaged by previous heavy rains. Rice threshing made good advance in Arkansas and Louisiana until interrupted the latter part of the week by rain. Good progress was also reported in California where harvest has been nearly completed. Cutting and threshing late flax was favored in the northern Plains area.

CORN.—The greater portion of the corn belt experienced the first general frost of the season, but without material damage, as the crop had mostly matured, with cutting nearly done where this method of harvest is practiced. West of the Mississippi River the week was very favorable for drying out corn, the freeze on the 24th being especially helpful in the upper Mississippi Valley. To the eastward, however, cloudy, damp, and rainy weather was unfavorable, with considerable complaint of molding in shock in some sections and the crop too moist to begin cribbing.

COTTON.—There was some slight interruption by light rains to picking cotton the latter part of the week over the eastern half of the belt, but in general this work continued to make good progress in that area, although some districts reported a slowing up in harvest because of labor shortage and low prices. Rapid opening of bolls was checked in the interior and northern portions of the eastern belt by the cool weather.

In Arkansas and Louisiana, the first part of the week was favorable for picking and ginning, but there was interruption the latter part by rain, especially in the former State where rainfall was rather heavy. Harvest was retarded also in eastern Oklahoma, but in the western portion of that State fairly good progress was made. In Texas, picking is largely completed in the southern half, is well along in the central and northeastern portions, but much is still out in the northwest; there were further complaints of damage to open cotton by rain in parts of the State.

The Weather Bureau also furnishes the following resume of the conditions in the different States:

Virginia.—Richmond: Weather favorable for late crops. Corn cut and in shock or silos; some husking done. Tobacco mostly cut; curing advanced. Gathering and shipping apples continue. Wheat seeding progressing; early coming up; plowing delayed in most localities by dry condition of soil. Pastures fair. Damaging frost on 22d in many portions of interior.

North Carolina.—Raleigh: Warm first part of week; much cooler at close with freezing in mountains and heavy frost in portions of central; apparently little damage. Continued generally favorable for cotton, but picking slowing up account shortage of labor and low prices; some open cotton blown out by wind. Beneficial showers on Sunday, but unevenly distributed; more needed for small grains, fall truck, and water supply.

South Carolina.—Columbia: Cotton opening slowly in northwest because of cool nights, but rapidly elsewhere; picking well along, except in Piedmont. Plowing and seeding of winter grains became general with rains of 24th. Cabbage, spinach, and truck along coast improved. Molasses making continues.

Georgia.—Atlanta: Favorable harvesting weather continued, though moderately cool with light frost on two days; no damage; showers last three days beneficial, but more needed. Opening of late cottonbolls checked in north by cool weather, but picking well advanced. Fine apple and pecan crops being harvested. Sowing wheat, oats, and rye proceeding slowly.

Florida.—Jacksonville: Mostly dry and sunshiny, except in extreme south where heavy rains incident to storm of 20th. Beneficial rains in west and local showers in north and central improved seed beds, truck, cane, strawberries, oats, and rye; more rain needed on uplands of peninsula. Dry weather favorable for harvesting sweet potatoes and hay, and improving color of citrus, which continue to drop and split. Trucking inactive in Okeechobee district.

Alabama.—Montgomery: Light to heavy frosts in scattered places of central and north with freezing in extreme northwest on Monday; showers latter half. Condition of corn, sweet potatoes, sugar cane and peanuts mostly fair to good. Sowing oats progressing slowly. Condition of pastures and truck crops varies from poor to good; needing rain in many sections. Picking and ginning cotton slow to good progress; picking finished or nearing completion in many sections; condition of unpicked crop mostly fair to good.

Mississippi.—Vicksburg: Cotton picking and ginning made mostly fair progress to Thursday or Friday, when scattered showers occurred, continuing to Sunday. Housing corn mostly good progress to Thursday or Friday. Light frost in north and central on Monday. Progress of pastures mostly fair.

Louisiana.—New Orleans: Harvesting cotton, corn and rice made excellent progress until Saturday, when rains interfered, but operations resumed with cool, bright weather at end of week. Picking cotton well advanced in all sections and nearly finished on uplands, but ginning not pushed. Excellent for rice threshing until rains. Cane poor and sucrose low; cool weather beneficial for ripening.

Texas.—Houston: Moderate temperatures; dry in northwest, extreme southwest and west; light to good rains elsewhere. Except in dry districts, where poor, pastures commercial truck,, and fall-sown grains made good progress. Soil preparation and grain sowing made fair to very good advance, except where too wet; early-sown grain up and making good growth. Further complaint of d mage to cotton staple by heavy rains; picking nearly completed in south and well along in north central and northeast, but much to be done in northwset. Citrus fruits good to excellent.

Oklahoma.—Oklahoma City: Cool week with light to heavy frosts, but no material damage; sunshine normal; light to moderate rains in northcentral and east. Fairly good progress in picking and ginnihg cotton in west, but retarded in east by rain and wet, muddy fields; further deterioration in condition reported in east. Fair progress in harvesting corn and grain sorghums, but much still in fields and some badly damaged by wet weather. Too dry for planting wheat in extreme northwest, but fair progress elsewhere.

Arkansas.—Little Rock: Weather favorable for farm work until Friday when two or three days' rain, followed by colder Monday; freezing in north, heavy frost in central, and light in south. Small amount of late corn injured, but damage negligible. Picking cotton and rice threshing suspended at close of week; resumed Tuesday. Some plowing done.

Tennessee.—Nashville: Moderately low temperatures with light rain until last of week when good rains benefited fall-sown crops. Cotton opening rapidly with picking and ginning making excellent progress; rain at end of week caused moderate damage; cold in west at end of week will stop further maturing. Little plowing and seeding of wheat in some counties, while in other counties progress fair.

Kentucky.—Louisville: Low temperatures caused rather slow germination of grains; wheat sowing continued first four days; progress slow in north, but better in south where practically completed; stopped by heavy rains near close. Last cutting of tobacco; curing very slowly. Complaints of corn molding in shock continue; still too damp to gather.

THE DRY GOODS TRADE.

Friday Night, Oct. 29 1926.

In view of the Government's forecast for a cotton crop in excess of 17,000,000 bales, textile markets during the past week acted surprisingly well. Ordinarily, prospects of such an abundant yield would encourage buyers of cotton goods to hesitate before placing additional commitments, which in turn would influence purchasers of other lines to follow a similar course in the hopes of lower values. However, such has not been the case. While it is true that a certain amount of backwardness was noticeable in certain directions, it was generally felt that the fundamental position of the industry is sound. Although it was pointed out that low prices for cotton goods would stimulate consumption at the expense of other lines, this theory was not accorded much credence, as it is generally known that there is an unusual shortage of available stocks and that an actual need exists of merchandise coincident with a seasonal expansion in consumer demand. An example of this was found in the woolen goods division, where sales have continued to expand beyond expectations. As a result, factors are optimistic as to the future. As to silks, the demand for fall lines was noticed to be gradually tapering off and business interest has turned more to the new spring merchandise. New novelty weaves and designs were reported to be doing well and additional lines are expected to be shown shortly. In contrast to this activity, prices for raw silk have continued to decline. The latter is expected to work to the advantage of the manufacturer, rather than lead to undue competition. Floor coverings have continued active, despite persistent reports concerning a contraction in the construction of homes and buildings.

DOMESTIC COTTON GOODS.—Influenced by the Government estimate of a record cotton crop, buyers of domestic cotton goods were not quite so active during the week. However, considering the fact that some seventeen and a half million bales of cotton are in prospect, prices were comparatively steady. The Government report issued on Monday, placed the indicated yield at 17,454,000 bales, or approximately 1,000,000 bales in excess of the previous record yield. The estimate was based on conditions as of Oct. 18, to which date 8,722,066 bales of this year's crop had been ginned. The indicated total production showed an increase of 827,000 bales between Oct. 1, the date of the previous estimate, and Oct. 18. However, accompanying the forecast was a statement claiming that uncertainty existed as to how much of the crop will be harvested owing to the low prices and the scarcity of labor for picking. The situation has been orderly and at no time has there been any indication of a panicky undertone. As a matter of fact, sentiment has been unusually confident. Mills have fortified themselves, and according to reports, some of them have placed orders for delivery of raw cotton three years ahead. Orders for finished goods have come forward unabated, owing to a scarcity of stocks and increased consumer demand. For instance, the call for various printed goods, despite the maintenance of earlier high prices, has been a feature. Buying has steadily broadened, and it was said that some of the printers were so busy that it required a month or more to make deliveries on a number of styles. Another active fabric has been ginghams, especially the higher grades. Print cloths, 28-inch, 64 x 64's construction, are quoted at 5¼c., and 27-inch, 64 x 60's, at 4¾c. Gray goods in the 39-inch, 68 x 72's construction, are quoted at 7⅝c., and 39-inch, 80 x 80's, at 9⅜c.

WOOLEN GOODS.—Cold weather has had a stimulating effect upon the markets for woolens and worsteds. Demand for seasonal fabrics has exceeded expectations and prospects of a further improvement were considered bright. Many factors have expressed a greater degree of confidence in the future of woolen goods than they have for some time past. This improvement in sentiment has been due to the large sales of fall and spring merchandise and the knowledge that stocks are unusually light. Quotations for raw wool in practically all markets have been firmer under the stimulus of a steadily increasing demand for cloths and clothing. However, any likelihood of advances are frowned upon, as it is believed that the current activity is being stimulated principally by the low and attractive prices. During the week a few more independents opened their lines of women's wear spring fabrics.

FOREIGN DRY GOODS.—Reports of a more active demand for all classes of merchandise prompted a more optimistic undertone in the linen market. Salesmen on the road were favorably received and retailers have been ordering in larger quantities owing to the fact that prices were considered attractive. During the week there was a good deal of business transacted in damasks, towels, napkins and other household items. At the same time the demand for dress goods continued to expand. The best call for the latter goods was for the solid shades, although various of the printed and woven fancies have sold well. In the handkerchief division, the call for all whites was very active, being surpassed only by the demand for novelties for the holiday trade. Burlaps were quiet and easier. Light weights are quoted at 7.15c. and heavies at 9.10c.

State and City Department

NEWS ITEMS

Arizona (State of).—$10,000,000 *Highway Bond Measure on November Ballot.*—On next Tuesday, Nov. 2, an initiative measure providing for the issuance of $10,000,000 State highway bonds will be voted on by the electorate of this State. The bonds would be coupon bonds bearing interest at a rate not exceeding 5% per annum, payable semi-annually (J. & J. 1) at the office of the State Treasurer or at such banking house as the State Treasurer may designate, would be in the denomination of $50 or any multiple thereof, would run for a term of not to exceed 15 years and would be issued and reissued and sold in such amounts and at such time or times as may be required for the construction and improvement of public highways in the State. The bonds would be sold only after public notice in a daily newspaper published in the city of Phoenix for a period of thirty days. No bonds would be sold for less than par and accrued interest and all bonds issued under the Act be expressly exempted from any State tax. Section 6 of Subdivision 4 of the Act provides for the creating of a State Highway Bond Sinking Fund to be used only for the purpose of paying interest on, purchasing and redeeming outstanding bonds issued under the provisions of the Act. Section 6 reads:

Section 6. There is hereby created and established a fund to be known as the "Arizona State Highway Bond Sinking Fund." Whenever the money accruing to the State Highway Fund for any year from the following sources shall exceed four million dollars ($4,000,000), plus interest payable during such year on outstanding bonds issued under the provisions of this Act, such excess shall be deposited in and credited to said Arizona State Highway Bond Sinking Fund:

(a) All money received from the State road tax, passenger seating capacity tax, truck tonnage tax and the Motor Vehicle Fuel License Tax.

(b) All money and fees received by law from the registration of motor vehicles and licenses of automobiles, or other motor propelled or driven vehicles, from permits issued to drivers of motor vehicles, from the issuing of certificates of title to motor vehicles, and from fines and penalties imposed under such laws.

(c) Any excess of money actually received from the foregoing sources during the previous year over the estimate for such year, except so much of such excess as may be required to refund a deficit for a previous year, as hereinbefore set out.

Said Arizona State Highway Bond Sinking Fund shall be used solely for the purpose of paying interest on, purchasing and redeeming outstanding bonds issued under the provisions of this Act.

The Act, known as the "State Highway Department Finance Bill," bears the following title:

An Act providing for the levy of a State road tax, a passenger seating capacity tax, a truck tonnage tax, a motor vehicle fuel license tax, and the manner of collecting the same; providing for the registration and licensing of distributors of motor vehicle fuel; defining what constitutes the sale of motor vehicle fuel; providing penalties for not filing statements; providing exemptions and refund of tax on certain sales; providing for the distribution of the proceeds of the taxes by this act created; providing penalties for the violation of the motor vehicle fuel license tax; creating a State Highway Fund and making appropriation therefor; providing the purposes for which the State Highway Fund shall be used and making of such fund available for such purposes without further appropriation; requiring the State Highway Department to prepare a budget and directing as to the contents, manner of appropriation and approval of such budget; providing the manner of payment of moneys from such fund; authorizing the issuance of bonds of the State of Arizona in the sum of ten million dollars ($10,000,000); creating an Arizona State Highway Bond Sinking Fund from the revenue accruing to the State Highway Fund; limiting the use of money received in excess of the estimated revenues; providing for the cancellation of bonds purchased or redeemed; exempting from State taxes bonds issued under this Act; requiring a biennial report by the State Treasurer.

The voters will also have submitted to them a proposed amendment to Section 10 of Article V. of the State Constitution, to prohibit persons who have served two consecutive terms in a State office from thereafter being elected to such office other than members of the judiciary and members of the State Legislature. Section 10 as amended would read:

No person shall be eligible for election to any State office in which such person shall have served two consecutive terms therein at any time, except members of the judiciary and members of the Legislature, to whom this enactment shall never apply; Provided, however, that no person shall be eligible to succeed himself or herself to the office of State Treasurer for the succeeding two years after the term for which he or she shall have been elected.

If approved, this amendment would not be operative until the election of 1928.

Belgium (Kingdom of).—$50,000,000 *External Loan Floated.*—A large banking syndicate headed by J. P. Morgan & Co. and the Guaranty Co. of New York, offered and sold on Oct. 26 (the issue being oversubscribed) $50,000,000 7% 30-year external sinking fund gold bonds of the Kingdom of Belgium at 94 and accrued interest, to yield 7.50% to maturity. Date Nov. 1 1926. Due Nov. 1 1956. Not redeemable before Nov. 1 1936, except for the sinking fund. Redeemable also in whole or in part, at the option of the Government, on Nov. 1 1936, or on any interest date thereafter, at 105 and accrued interest, upon six months notice. Prin. and int. (M. & N.) payable in U. S. gold coin of the present standard of weight and fineness in New York City, either at the office of J. P. Morgan & Co. or at the Guaranty Trust Co. of New York, fiscal agents, without deduction for any Belgian taxes, present or future. With regard to the sinking fund provision of the loan the official circular describing the bonds says:

A cumulative sinking fund of 1% per annum, commencing Aug. 1 1928, is to be applied to the purchase of bonds, if obtainable at or below 105% and accrued interest, or, if not so obtainable, to the redemption on Nov. 1 1928, and annually thereafter, upon 45 days notice, of bonds called by lot, at 105% and accrued interest.

Further information regarding this loan may be found in our "Department of Current Events and Discussions" on a preceding page.

California (State of).—*Measures on November Ballot.*—On Tuesday, Nov. 2, there will be submitted to the voters of this State for their adoption or rejection, twenty-eight measures which will be designated and appear on the ballot as follows:

1. *Veterans' Welfare Bond Act of* 1925.—This Act provides for a bond issue of $20,000,000 to be used by the Veterans' Welfare Board in assisting California war veterans to acquire farms or homes.

2. *Taxing Highway Transportation Companies.*—Assembly Constitutional Amendment 37. Adds Sec. 15 to Art. XIII of Constitution. Taxes companies, owning or operating, (as common carriers), upon public highways between fixed termini or over a regular route, jitney buses, stages or motor vehicles for transporting persons, 4¼%, and those so operating trucks for transporting property 5% of their gross receipts; exempts property so used from all other taxes and licenses; appropriates half of such taxes to State and half to counties, exclusively for maintaining and repairing public highways; empowers Legislature to change such percentages.

3. *Oleomargarine.*—Referendum upon Act of Legislature amending Sec. 12 of "General Dairy Law of California" and adding thereto Sec. 21½. Further regulates the manufacture and sale of oleomargarine and prohibits use of dairy terms and symbols in connection therewith; in addition to annual license payable by those dealing in oleomargarine, requires them to pay State two cents for each pound of oleomargarine sold during each quarter, except oleomargarine delivered for sale outside of this State; provides that all fees be credited to oleomargarine enforcement and dairy control fund to further purposes of Act.

4. *Gasoline Tax.*—Initiative measure. Requires every distributor of gasoline, distillate and other motor vehicle fuels, to pay license tax of one cent per gallon, in addition to two-cent license tax now required by law; said additional tax to be applied toward paying one-third of refunds now required by law, and balance credited to State Highway Construction Fund and used for acquiring rights-of-way for, and construction of, high ways under jurisdiction of California Highway Commission; declares Ac effective Jan. 1 1927 and subject to amendment or repeal by the Legis lature after Jan. 1 1939.

5. *Salaries of State Officers.*—Senate Constitutional Amendment 23. Amends Sec. 19 of Art. V of Constitution. Declares compensation of Secretary of State, Comptroller, Treasurer, and Surveyor-General, shall be $7,000 each per year, Attorney-General and Superintendent of Public Instruction, $8,000 each per year; such compensation to be in full for all official services during their respective terms of office; provides that the Legislature may diminish such compensation but can not increase the same.

6. *Racing.*—Initiative measure. Creates board, appointed by Governor, to regulate and license horse racing and pari-mutuel betting within race track enclosure; limits racing period at each track; prohibits licensing racing at tracks constructed, without board's approval, after Nov. 1 1926; limits licensee's return to 9% on capital invested; prescribes as license fees $500 each race day and licensee's net profits above return allowed; appropriates fees to board's salaries and expenses, dividing balance equally between Veterans' Welfare Board and State Agricultural Board; authorizes licenses for limited period at county fairs or agricultural exhibits.

7. *Taxation of Short Line Steam Railroads.*—Senate Constitutional Amendment 40. Amends Sec. 14 of Art. XIII of Constitution. Subject to change by Legislature, changes State tax on steam railroads not exceeding 250 miles in length, operated separately and not as part of another railroad owning or operating lines exceeding such length, from 7% to 5¼% of gross receipts ascertained as provided in Constitution; if such classification violates Federal Constitution, or prejudices State's rights to tax other steam railroads at different rate, taxes all steam railroads 7%, or percentage hereafter adopted.

8. *State Highways.*—Initiative measure adding Art. XXIV to Constitution. Classifies highways as primary and secondary, enumerating primary. Arranges counties, by names, in two groups. Appropriates $5,000,000 annually for 12 years for construction, allocating three-fourths to primary in proportion group primary highway mileage, to entire primary highway mileage, and one-fourth to secondary in proportion group land area to State land area. Allocates one-third maintenance funds to primary highways according said mileage ratio, balance to primary and secondary highways in proportion group registration of vehicles to State registration. Permits, electors approving, group bond indebtedness or taxation.

9. *Repeal of Wright Act.*—Initiative measure. Repeals Act of Legislature commonly known as Wright Act, approved by electors on referendum Nov. 7 1922, which Act provided for enforcement by State of California of the Eighteenth Amendment to United States Constitution, prohibited all acts or omissions prohibited by Volstead Act, adopted penal provisions of that Act, imposed duties on courts, prosecuting attorneys, sheriffs, grand juries, magistrates and peace officers in this State, extended their jurisdiction, and provided for the disposition of fines and forfeitures.

10. *Bonds for State Buildings and University Buildings.*—Senate Constitutional Amendment 39. Adds Sec. 4 to Art. XVI of Constitution. Directs issuance of $8,500,000 of State bonds, and the use of the proceeds thereof, as provided in "California State Buildings and State University Bonds Act of 1925," for completion and equipment of State buildings at Sacramento, the erection and equipment of State buildings at Los Angeles and buildings for University of California at Berkeley and Los Angeles; validates said Bond Act of 1925; declares section self-executing but permits legislation in furtherance thereof.

11. *Exempting Secondary Schools from Taxation.*—Assembly Constitutional Amendment 27. Amends Sec. 1*a* of Art. XIII of Constitution. Exempts from taxation the buildings and equipment, the ground within which such buildings are located, not exceeding one hundred acres in area, and the securities and income used exclusively for educational purposes, of any educational institution in California of secondary grade, not conducted for profit, and accredited to the University of California.

12. *Tax Exemption for Veterans and Others.*—Senate Constitutional Amendment 26. Amends Sec. 1¼ of Art. XIII of Constitution. Extends tax exemption provisions of present section to include those veterans who have been released from active duty because of disability resulting from service in time of peace, and to widows and widowed mothers of such veterans, upon same conditions as therein stated; also exempts from taxation all real property owned by Ladies of Grand Army of the Republic and all property owned by California Soldiers Widows Home Association.

13. *Suffrage.*—Assembly Constitutional Amendment 20. Amends Sec. 1 of Art. II of Constitution. Declares that no alien ineligible to citizenship shall ever exercise the privileges of an elector in this state; extends the absent voters provisions of present section to those engaged in the civil or Congressional service of the United States or of the State, and to those who because of injury or disability are absent from their precincts or unable to go to the polling places.

14. *Corporations.*—Assembly Constitutional Amendment 14. Amends Sec. 11 of Art. XII of Constitution by requiring that any increase of stock or bonded indebtedness of a corporation be assented to by the holders of at least two-thirds of the amount in value of the stock instead of by a majority, as now provided, and eliminates the present provision requiring that such increase be made at a meeting called for that purpose after 60 days' public notice.

15. *School Districts.*—Assembly Constitutional Amendment 11. Adds Sec. 14 to Art. IX of Constitution. Empowers the Legislature, by general law, to provide for the incorporation and organization of school districts, high school districts, and junior college districts, of every kind and class, and to classify such districts.

16. *Salaries of Judges.*—Senate Constitutional Amendment 41. Amends Sec. 17 of Art. VI of Constitution. Provides that the judges of Supreme Court, District Courts of Appeal, and Superior Court, shall severally, at stated times during their continuance in office, receive for their service such compensation as is or shall be provided by law; declares that the State shall pay $3,000 of the salary of each superior court judge, and that the county for which he is elected shall pay the remainder of his salary, as the same is now or may hereafter be established.

17. *Requiring Bible in Schools.*—Initiative measure amending Sec. 8 of Art. IX of Constitution. Forbids appropriating public money for support of sectarian or denominational schools or those not exclusively controlled by public school officers; prohibits teaching sectarian or denominational doctrines, directly or indirectly, in public schools; authorizes purchase, with public funds, and use of Holy Bible therein, requiring copy thereof in every public school library and classroom; permits daily study thereof in school and reading therefrom by teacher, without comment, but requiring no pupil to read or hear it read, contrary to wishes of parent or guardian.

18. *Water and Power.*—Initiative measure adding Art. XIVa to Constitution. Creates board, appointed by Governor and subject to recall, authorized to develop and distribute water and electric energy, acquire by any legal means any property therefor and do anything convenient thereto, including using and reserving State lands and waters; gives State and political subdivisions certain preferential rights as against privately owned public utilities selling water or electric energy to public; authorizes issuance of bonds not exceeding $500,000,000, to further such purposes, requiring board to fix rates to meet expenses and retire bonds in fifty years.

19. *Pensioning Judges.*—Assembly Constitutional Amendment 25. Adds Sec. 26 to Art. VI of Constitution. Declares Supreme Court, District Court of Appeal and Superior Court Judges, 60 years of age and not impeached, terminating service aggregating 24 years in one or more of said courts, shall receive for life monthly salary equalling half that last received; permits those who have not practiced law after such termination, if otherwise equalified, to serve as judges in courts wherein they were last eligible and in inferior courts of record, receiving therefor such additional compensation as legislature prescribes.

20. *Reapportionment Commission.*—Initiative measure adding Sec. 6½ to Art. IV of Constitution. Creates reapportionment commission composed of Secretary of State, Attorney-General and Surveyor-General. If Legislature fails, at first session after each census, to adjust senatorial and assembly districts and reapportion representation as provided by Constitution, requires said commission to make such adjustment and reapportionment, and file same with Secretary of State, within 3 months after adjournment of such legislative session. Declares said commission shall make and file such reapportionment on basis of 1920 census within 3 months after this amendment takes effect.

21. *Political Subdivisions Incurring Indebtedness.*—Assembly Constitutional Amendment 36. Amends Sec. 18 of Art. XI of Constitution. Declares that whenever two or more propositions for incurring any indebtedness or liability are submitted at the same election to the electors of any county, city, town, township or school district, the votes cast for and against each proposition shall be counted separately, and when two-thirds of the qualified electors, voting on any one of such propositions, vote in favor thereof, such proposition shall be deemed adopted.

22. *Exempting Forest Trees from Taxation.*—Senate Constitutional Amendment 10. Amends Sec. 12¾ of Art. XIII of Constitution. Exempts from taxation inmature forest trees planted on lands not previously bearing merchantable timber, or planted or of natural growth, upon lands from which 70% of merchantable original growth timber over 16 inches in diameter has been removed; declares maturity of forest trees or timber shall be determined, after 40 years from planting or removal of original timber, by a board comprising assessor of county wherein same are located and representatives from State boards of forestry and equalization.

23. *Election at Primary.*—Senate Constitutional Amendment 20. Adds Section 2¾ to Article II of Constitution. Declares candidate for judicial, school, county, township, or other non-partisan office, receiving at primary election votes on majority of all ballots cast for such office shall be elected thereto; where two or more candidates are to be elected to an office and more candidates receive a majority than are to be elected, those securing highest votes of those receiving such majority, and equaling number to be elected, shall be elected; declares freeholder's charter governs whenever it provides different method of election.

24. *Irrigation Districts; and Transfer of Funds.*—Senate Constitutional Amendment 24. Amends Section 31 of Article IV of Constitution. Authorizes irrigation districts, in order to obtain water and other necessary property, to acquire stock of corporations owning water rights, water works, franchises or concessions, subject to obligations imposed by law upon other stockholders therein; requires city or county treasurer, upon resolution of governing body of political subdivision, to transfer temporarily funds thereof, not exceeding 85% of taxes accruing thereto, to meet obligations incurred for maintenance, replacing same from such taxes before using latter for other obligations.

25. *Taxation and Local Assessment Exemption.*—Senate Constitutional Amendment 32 Adds Section 1*b* to Article XIII of Constitution. Declares that all property used or held exclusively for the burial or other permanent deposit of the human dead or for the care, maintenance or upkeep of such property or such dead, except as used or held for profit, shall be free from taxation and local assessment.

26. *Giving Appellate Courts Trial Court Powers.*—Assembly Constitutional Amendment 16. Adds Section 4¾ to Article VI of Constitution. Declares Legislature, in cases where jury trial is not matter of right or is waived, may empower appellate court to ascertain the facts from evidence in trial court, or from additional evidence in appellate court, and make findings of fact contrary or additional to those made by trial court, and for such purposes hear additional evidence concerning facts occurring before its decision on appeal and direct entry of any judgment or order case may require.

27. *Judicial Council.*—Senate Constitutional Amendment 15. Adds Section 1*a* to, and amends Sections 6, 7 and 8 of, Article VI of Constitution. Creates judicial council, with chief justice as chairman and ten judges selected by him from various courts, to regulate court practice and procedure and exercise functions provided by law; eliminates judges pro tempore and provisions for judge acting when requested by Governor or Superior Judge; authorizes chairman to assign judge to act when calendar congested, judge unable to act, or vacancy exists, allowing assigned judge larger salary of assigned position; changes provisions for filling Superior Court vacancies.

28. *Legislative Reapportionment.*—Initiative measure. Amends Constitution, Article IV, Section 6. For choosing legislators requires Legislature, immediately following each Federal census, and next Legislature using 1920 census, to divide State into forty senatorial and eighty assembly districts, comprising contiguous territory, with assembly districts as equal in population as possible, no county or city and county containing more than one senatorial district, and no senatorial district comprising more than three counties of small population; creates Reapportionment Commission, comprising Lieutenant-Governor, Attorney-General, Surveyor-General, Secretary of State and State Superintendent of Public Instruction, to make apportionment if Legislature fails to act.

Colorado (State of).—*Voters to Ballot Next Tuesday on Proposed Constitutional Amendment to Create a Public Utilities Commission and on Other Amendments.*—On Tuesday next, Nov. 2, the people of this State will cast their votes on a proposed amendment to the State Constitution to create a Public Utilities Commission with exclusive power and jurisdiction to regulate all public utilities within the State of Colorado except those municipally owned, and except irrigation systems whose chief business is furnishing water for irrigation.

Another proposed constitutional amendment to be voted on at the same time would affect Section 6 of Article X., which, as amended, would read as follows:

Section 6. All laws exempting from taxation property other than that hereinbefore mentioned, shall be void; *p ovided, however*, that the General Assembly shall have power to enact laws requiring the payment of motor vehicle registration license fees which shall be in lieu of ad valorem taxation of such motor vehicles.

The voters will also pass on a measure to provide revenues for the construction, maintenance and improvement of public highways, by a tax upon the sale of petroleum products and by graduated motor vehicle registration license fees.

By another proposed constitutional amendment also to be voted on, Article XXII. would be amended, enabling the Legislature to provide for the manufacture, importation and sale of intoxicating liquors by and through the State, for personal or domestic use, it operative so long as in conflict with the laws of the United States.

Florida (State of).—*Proposed Constitutional Amendment.*—The voters of this State will, on Nov. 2, pass on a proposed amendment to Section 18 of the Declaration of Rights in the Constitution of the State of Florida, relating to the ownership, inheritance, disposition and enjoyment of property in the State of Florida by foreigners. Section 18 as proposed for adoption reads:

Section 18. Foreigners who are eligible to become citizens of the United States under the provisions of the laws and treaties of the United States shall have the same rights as to the ownership, inheritance and disposition of property in the State as citizens of the State, but the Legislature shall have power to limit, regulate and prohibit the ownership, inheritance, disposition, possession and enjoyment of real estate in the State of Florida by foreigners who are not eligible to become citizens of the United States under the provisions of the laws and treaties of the United States.

Idaho (State of).—*Compensation of State Legislators Would Be Increased Under Proposed Constitutional Amendment on November Ballot.*—There is proposed, in an amendment to the State Constitution to be voted on Nov. 2, an increase in the compensation of the State legislators. The amendment affects Section 23 of Article III. Section 23, as amended, would provide:

Section 23. Compensation and Mileage of Members. Each member of the Legislature shall receive for his services a sum not exceeding $10 per day from the commencement of the session, but such pay shall not exceed for each member, except the presiding officers, in the aggregate, $600 for per diem allowance for any one session; and shall receive each the sum of 10 cents per mile each way by the usual traveled route.

When convened in extra session by the Governor, they shall each receive $10 per day; but no extra session shall continue for a longer period than 20 days, except in case of the first session of the Legislature. They shall receive such mileage as is allowed for regular sessions. The presiding officers of the Legislature shall each in virtue of his office receive an additional compensation equal to one-half his per diem allowance as a member; Provided, That whenever any member of the Legislature shall travel on a free pass in coming to or returning from a session of the Legislature, the number of miles actually traveled on such pass shall be deducted from the mileage of such member.

Under Section 23 as it now stands the pay per day for a regular session is $5, the aggrgeate sum is placed at not exceeding $300, and the pay per day for a special session is $5.

Indiana (State of).—*Constitutional Amendment for State Income Tax on Ballot Next Tuesday.*—The voters of this State will have submitted to them on Nov. 2 a proposed constitutional amendment to permit the State Legislature to levy an income tax. The amendment, if adopted, will become Section 8 of Article X. Section 8 as proposed for adoption reads:

Section 8. The General Assembly may levy and collect a tax upon income, from whatever source derived, at such rates, in such manner, and with such exemptions as may be prescribed by law.

Kansas (State of).—*Compensation of State Legislators as Proposed Under an Amendment to State Constitution to Be Voted on at November Election.*—On Nov. 2 a proposed amendment to Section 3 of Article II, relating to the compensation of members of the State Legislature, will be voted on. Section 3 as proposed for adoption reads as follows:

Section 3. The members of the Legislature shall receive as compensation for their services the sum of $8 per day for each day's actual service during any regular or special session and 5 cents per mile for each mile traveled by the usual route in going to and returning from the place of meeting; but such compensation shall not in the aggregate exceed the sum of $480 for any regular session, nor more than $240 for any special session; and such sums shall constitute all of the compensation of members of the Legislature for all purposes whatsoever.

Michigan (State of).—*General Revision of State Constitution Listed Among Proposed Propositions on November Ballot—Increase in Compensation of Legislative Members also Proposed.*—At the November election, next Tuesday, the voters of this State will have submitted to them the question of whether or not they are in favor of a general revision of the State constitution and a convention therefor.

At the same time the electorate will also vote on a proposed amendment to Section 9 of Article V which provides for increasing compensation of members of the Legislature from $800 to $1,200 for regular session and from $5 per diem to $10 per diem for extra session.

Also to be voted on are two other proposed amendments to the State constitution. One of these, besides, amending Section 5 of Article VIII, would also add to said article a new section (No. 31) which, if carried, would read as follows:

Section 31. The Legislature shall by general law provide for the incorporation by any two or more cities, villages or townships, or any combination or parts of same, of metropolitan districts comprising territory within their limits, for the purpose of acquiring, owning and operating either within or without their limits as may be prescribed by law, parks or public utilities for supplying sewage disposal, drainage, water, light, power or transportation, or any combination thereof, and any such district may sell or purchase, either within or without its limits as may be prescribed by law, sewage disposal or drainage rights, water, light, power or transportation facilities. Any such districts shall have power to acquire and succeed to any or all of the rights, obligations and property of such cities, villages and townships respecting or connected with such functions or public utilities: Provided, That no city, village or township shall surrender any such rights, obligations or property without the approval thereof by a majority vote of the electors thereof voting on such question. Such general law shall limit the rate of taxation of such districts for their municipal purposes and restrict their powers of borrowing money and contracting debts. Under such general law, the electors of each district shall have power and authority to frame, adopt and amend its charter upon the approval thereof by a majority vote of the electors of each city, village and township, voting on such question, and, through its regularly constituted authority, to pass all laws and ordinances relating to its municipal concerns, subject to the constitution and general laws of this State.

The other proposed amendment would also add a new section to Article XIII, which, if adopted, would be known as Section 5 and would read as follows:

Section 5. Subject to this constitution the Legislature may authorize municipalities, subject to reasonable limitations, to condemn and to take the fee to more land and property than is needed in the acquiring, opening and widening of boulevards, streets and alleys, or for any public use, and after so much of the land and property has been appropriated for any such needed public purpose, the remainder may be sold or leased with or without such restrictions as may be appropriate to the improvement made. Bonds may be issued to supply the funds to pay in whole or in part for the excess property so appropriated, but such bonds shall be a lien only on the property so acquired and they shall not be included in any limitation of the bonded indebtedness of such municipality.

Minnesota (State of).—*Three Proposed Constitutional Amendments on November Ballot.*—Three proposed amendments to the State Constitution will be balloted on in this State on next Tuesday, Nov. 2.

Amendment No. 1 affects Section 2 of Article VI, which if adopted, would provide for the election of two more associate justices of the Supreme Court with full authority as members of the court, replacing the present two commissioners, without additional expense.

Amendment No. 2 proposes to add a new article to State Constitution with regard to promoting forestation and re-

forestation of lands in this State. The proposed amendment, if adopted, would authorize legislation providing for setting aside a part of the lands owned by the State for the purpose of forestation and reforestation, and permitting privately owned lands to be so set aside by act of the owner thereof, and, by way of encouragement, permitting the taxation of such lands and the timber and other forest products thereof on a special basis, which need not be uniform with the basis of taxation of other lands in the State. A similar measure was voted on in Nov. 1924, but was defeated, failing to receive the required majority.

Amendment No. 3 affects Section 3 of Article X relating to corporations. The effect of the proposed amendment, if adopted, will be to abrogate the present fixed rule of stockholders' liability prescribed by the Constitution and to place the matter of prescribing and regulating the liability of stockholders in all corporations created under the laws of the State entirely within the control of the Legislature, subject to change from time to time as they may see fit.

New York City.—*Amendment Making Ex-Mayor Hylan Eligible for Pension Held Invalid by Court of Appeals.*—The Court of Appeals on Oct. 19 declared invalid the amendment which the New York Municipal Assembly attempted to make in the city charter whereby former Mayor John F. Hylan would have been eligible for a pension of $4,215 a year. The decision was in an appeal from rulings of the lower courts in favor of a taxpayers' action brought by William J. Schieffelin to restrain payment of the proposed pension of $4,215 a year under a local law passed just before Mayor Hylan retired. Justice Joseph M. Proskauer of the New York Supreme Court granted the original injunction. Under authority of the home rule amendment the Municipal Assembly undertook to amend the New York City charter by reducing the retirement age from sixty to fifty-five years and the ten-year service requirement to five years. At the time of his retirement Mayor Hylan was fifty-five years old and had been in the city's service less than ten years. As to the points of the decision the Albany correspondent of the New York "Times" in a dispatch dated Oct. 19 said:

The lower courts held that the State and county employees within New York City also were affected and that the Municipal Assembly did not have authority to change the system as to them, as it provided greater deductions from salaries to the retirement fund and that the local law was illegal as well as the pension allowance.

Judges Pound and Cardozo dissented from their colleagues. No opinion was written.

The Coney Island "Times-Journal" in discussing the case editorially had the following to say:

But for the public-spirited action of the Citizens' Union through its President, William J. Schieffelin, in taking a test case to the courts and carrying it up to the Court of Appeals, the Court of last resort, the city today would have to pay former Mayor John F. Hylan the nice little pension for life of $4,215 a year.

When Mr. Hylan left office he was about 56 years old. Under the rule of the city a city official must have served in office until he reached the age of 60 before he became entitled to a pension.

Mayor Hylan, with the aid of his political friends, quietly had a bill passed by the Municipal Assembly whereby the age for retirement on pension was reduced five years, thus fixing the age of 55 as the age for retirement. This cleverly brought him within the pension term of office and having contributed to the pension fund he filed his claim in due course before he went out of office, entitling him to draw from the taxpayers for the remainder of his life this tidy little pension of $4,000 odd. The "Times-Journal," watching municipal affairs closely, called attention at the time to this outrage.

But it was discovered by legal experts that this bill was illegally passed and that the Municipal Assembly really had no power to make thechanges it ordered. Thereupon, Mr. Schieffelin brought his suit to stop the pension being paid by the city. Justice Wagner in the Supreme Court upheld the contention of the plaintiff. The case was carried by Mr. Hylan to the higher court, which upheld the lower court, and then it was taken to the Court of Appeals, and this week the latter has rendered its decision sustaining the original opinion.

And so, Mr. Hylan loses his pension and the taxpayers ought to be thankful, for this was the first time, as far as is known, where a Mayor of this city, especially one who raised his own salary to $25,000 a year, claimed a pension from the city.

Mr. Hylan is a lawyer, enjoying good health, and able enough apparently to earn his own living just as many others have to do on leaving office, and he ought to be able to take care of himself without asking the taxpayers to pay him $4,000 a year for the rest of his life.

New York City.—*Board of Estimate Passes 1927 Budget of* $474,893,300.—The largest budget in the city's history was passed Thursday, Oct. 28, by the Board of Estimate. The figure, $474,893,300, is the same as proposed for adoption by the Board of Estimate last week, and it now goes to the Board of Aldermen, which conducts two public hearings before it is permitted to pass the figures. It is unprecedented for the Board of Aldermen to change the budget authorized by the Board of Estimate, although it is empowered to decrease the budget if it sees fit.

New York (State of).—*State Referendum on Modification of Volstead Act.*—At the November election, to be held next Tuesday, the voters will have submitted to them the question "Should the Congress of the United States modify the Federal Act to enforce the eighteenth amendment so that the same shall not prohibit the manufacture, sale, transportation, importation or exportation of beverages which are not in fact intoxicating as determined in accordance with the laws of the respective States?" This question is being submitted under authority of Chapter 850, Laws of 1926. A petition to enjoin the submission of the referendum had been sought but as announced in our issue of Aug. 21, page 1004, it was denied in an opinion handed down by Supreme Court Justice Thomas C. T. Crain on Aug. 13.

North Carolina (State of).—$2,000,000 *World War Veterans' Loan Bonds to Be Voted on.*—On Nov. 2 the voters of this State will vote on a proposition to issue $2,000,000 bonds to be designated "State of North Carolina World War Veterans' Loan Bonds," the proceeds from which would be used to make loans to aid veterans of the late World War in obtaining homes. The bonds would bear interest at a rate of not exceeding 5% per annum, payable semi-annually; would be coupon or registered bonds of the denomination of $100 or some multiple thereof, and would be payable 20 years from date of issue. The bonds shall be dated, issued and sold from time to time in such amounts as the Board of Advisers may find necessary to provide sufficient funds to meet applications made to and approved by it. The Board of Advisers will consist of the Secretary of State, who shall be Chairman ex officio of the Board; the Commissioner of Agriculture, the Attorney-General, the Commissioner of Labor and Printing, and the Treasurer of the State of North Carolina, of which Board the Treasurer of the State shall be ex officio the Treasurer. The proposition is being submitted under authority of an Act passed by the 1925 Legislature known as "World War Veterans' Loan Act" (Chapter 155, Laws of 1925).

St. Louis, St. Louis County, Mo.—*Consolidation of City and County Proposal Defeated.*—The plan for the consolidation of the City of St. Louis and St. Louis County into one legal subdivision under the municipal government of the City of St. Louis, submitted to the voters on Oct. 26, was defeated by the county voters, although the proposition received a majority of 7 to 1 in the city. The returns, as given by the St. Louis "Globe-Democrat" of Oct. 27 with but six of the 121 precincts in the county, to be heard from, follow:

	For.	*Against.*	*Total.*
City	54,558	8,097	62,625
County	10,772	21,049	31,821

The combined vote was:

For	65,330
Against	29,116
Favoraole majority	36,214

Thus it is seen that though the county rejected the plan by a two to one majority, voters of the combined area favor consolidation of the two communities by more than two to one. However, favorable majorities in both city and county were required for adoption of the proposal, the votes being counted separately.

Texas (State of).—*Validation Bills Signed by Governor.*—Governor Miriam A. Ferguson has signed all of the 557 bond validation bills except a few on which hearings are to be held passed by the Thirty-Ninth Legislature, which was called in special session Sept. 12, primarily in order to pass necessary legislation to validate bonds issued for road districts and restore their value on the market.

Attorney-General Will not Approve Road Bonds until Tom Green County Case is Settled.—C. A. Wheeler, Assistant Attorney-General, announced on Oct. 20, according to the Dallas "News" of Oct. 21, that the Attorney-General will not approve any road bonds which were voted previous to the decision of the United States Supreme Court in the Archer County District Case, until the Supreme Court passes on the question involved in the mandamus case of Tom Green County to compel the Attorney-General to approve $500,000 special road bonds of that county. The Tom Green County case was started on March 30 as stated in these columns, to compel the Attorney-General to approve $500,000 special road bonds of that county on the ground that the decision of the U. S. Supreme Court in the Archer County Road District Case did not extend to road bond of counties. The counsel for Tom Green County has now filed with the Supreme Court a copy of the new validating Act as a supplemental argument to show that if there was any doubt as to the validity of the bonds before the Act of Validation, they now stand validated by specific Act of the Legislature and the Attorney-General should be ordered to approve them. The Attorney-General will, however, approve road bonds to be hereafter voted by districts under the new bond law signed by the Governor last week, according to another statement made by the Assistant Attorney- General.

Wisconsin (State of).—*Voters to Pass on Two Proposed Constitutional Amendments at November Election.*—Two proposed amendments to the State Constitution will be submitted to the people of this State on Nov. 2. One of the amendments, relating to the recall of elected public officers, would add a new section (12) to Article XIII. Section 12, if approved, would read:

Section 12. The qualified electors of the State or of any county or of any congress onal, judicial or legislative district may petition for the recall of any elective officer after the first year of the term for which he was elected, by filing a petition with the officer with whom the petition for nomination to such office in the primary election is filed, demanding the recall of such officer. Such petition shall be signed by electors equal in number to at least 25% of the vote case for the office of Governor at the last preceding election in the State, county or district from which such officer is to be recalled. The officer with whom such petition is filed shall call a special election to be held not less than 40 nor more than 45 days from the filing of such petition. The officer against whom such petition has been filed shall continue to perform the duties of his office until the result of such special election shall have been officially declared. Other candidates for such office may be nominated in the manner as is provided by law in primary elections. The candidate who shall receive the highest number of votes shall be deemed elected for the remainder of the term. The name of the candidate against whom the recall petition is filed shall go on the ticket unless he resigns within ten days after the filing of the petition. After one such petition and special election, no further recall petition shall be filed against the same officer during the term for which he was elected. This article shall be self-executing and all of its provisions shall be treated as mandatory. Laws may be enacted to facilitate its operation, but no law shall be enacted to hamper, restrict or impair the right of recall.

The other amendment proposed would amend Section 5 of Article V. to read as follows:

Section 5. The Governor shall receive, during his continuance in office, an annual compensation of *not less than* five thousand dollars, *to be fixed by law*, which shall be in full for all traveling or other expenses incident to his duties. *The compensation prescribed for Governor immediately prior to the adoption of this amendment shall continue in force until changed by the Legislature in a manner consistent with the other provisions of this Constitution.*

Under the amendment to Section 5, if approved, instead of the Governor's salary being fixed by the Constitution, the Legislature will have power by law to fix it at not less than $5,000, which shall be in full for all traveling and other expenses incident to his duties.

BOND PROPOSALS AND NEGOTIATIONS

this week have been as follows:

ABERDEEN, Moore County, No. Caro.—*BOND OFFERING.*—H. W. Daub, Secretary Board of Trustees, will receive sealed bids until 11 a. m. Nov. 10 for $50,000 graded coupon school bonds. Date Oct. 1 1926. NOTICE OF BOND ISSUE AND SALE BY
The Village of Melrose
Curry County, New Mexico

PUBLIC NOTICE IS HEREBY GIVEN that the Board of Trustees of the Village of Melrose, in the County of Curry and State of New Mexico, intend to issue, negotiate and sell negotiable coupon bonds of said village in the amount of Forty-five thousand Dollars ($45,000.00), or so much thereof as may be necessary, for the purpose of securing funds for the construction of a system for supplying water for the said Village of Melrose.

Said bonds will bear date of November 1st, 1926, and will be redeemable at the option of said village ten years after date and absolutely due and payable thirty years after date, bearing interest at the rate of five and one-half (5½%) per centum or six (6%) per centum per annum, payable semi-annually, and consisting of forty-five bonds in the denomination of One Thousand Dollars ($1,000.00) each, said bonds, principal and interest, being payable at the banking House of Kountze Brothers, in the City of New York, U. S. A.

The Board of Trustees of the said Village of Melrose, New Mexico, invite bids for said bonds, and all bids shall be sent to the Clerk of the said Village of Melrose, New Mexico, on or before 2:00 o'clock P. M. the 1st day of November, A. D. 1926. The Board reserves the right to reject any and all bids offered. All bids are to be accompanied by an unconditional certified check on a National Bank, for $2,000.00, which check is to be forfeited in case said bidder refuses to comply with the terms of the purchase contract.

The Bonds are to be sold by the Board of Trustees of said Village for cash to the highest and best responsible bidder and in no case for less than their par value and accrued interest, to date of delivery.

THE BOARD OF TRUSTEES OF THE VILLAGE OF MELROSE, NEW MEXICO.
(SEAL) By GEORGE C. CARVER, Mayor.
ATTEST:
G C. DAVIS, Village Clerk.

A SECTION OF THE

COMMERCIAL & FINANCIAL CHRONICLE

Copyrighted in 1926, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 123. NEW YORK, OCTOBER 30 1926. NO. 3201.

This publication is issued to replace our former "Electric Railway" Section.

As the change in name implies, the new publication is much more comprehensive than the old, both in character and scope. The "Public Utility Compendium" is indeed all-embracing. It is now truly representative of the public utility field. It covers public utilities of every kind and description. Light and power companies are now represented, as well as the electric railways, and in addition we include water and gas companies and telegraph, telephone, cable and radio corporations. Such of these latter as formerly appeared in our "Railway & Industrial Compendium" now find a place in the new publication. Very many others are given for the first time.

In one particular the change has been forced upon us. The operation of the electric railways, urban and interurban, is now quite generally combined with the light and power business, and it is no longer possible to differentiate between the two. The development has grown out of the wonderful extension in the use of electricity which is the distinctive feature of recent times. Many small undertakings began by furnishing electricity for the running of local trolley lines, and then, in order to promote economy of operation and be able to furnish electrical energy at reduced cost, entered the light and power business. The latter grew so fast that the electric railway has now become subordinate to the larger field of work. The next step was to unite the local units so that they might serve larger areas, and out of these undertakings have grown in turn the big combinations which, by reason of their splendid achievements in electrical development and in serving the advanced needs of man, are exciting the wonder and the admiration of the world.

This is a progressive age and the application of electricity to the varied service of an ever-expanding population constitutes the foremost exponent of this progress. The field is an enormous one, the capital already invested in it of huge proportions and the capital still to be engaged for its growth and development of even greater magnitude. We shall hope to keep pace with the development and expansion, and make the "Public Utility Compendium" a serviceable medium for furnishing accurate and up-to-date statements regarding the companies whose resources and activities are being employed in the prosecution of the work which is of such inestimable benefit to the country. In the course of time also it ought to be possible to compile some general statistics to show the changes from year to year in the ceaseless flow in this great line of human endeavor.

PUBLIC UTILITIES

DETAILED COMPANY REPORTS

This is one of our six Sections or Supplements. In using the series it is to be remembered that they are inter-dependent publications, complete only as a whole. If utilized together, and with the fresh items of news the "Chronicle" contains from week to week, the reader will at all times be able to keep fully informed regarding the operations, the finances and the income of the various companies included.

A full *Index* showing where each company will be found is given in the closing pages of the book.

PUBLIC UTILITY COMPENDIUM

This Public Utility Compendium, issued twice a year, towards the close of April and October, is furnished *without extra charge* to every annual subscriber of the **Commercial & Financial Chronicle.**

The Railway and Industrial Compendium issued twice a year on the last Saturday of May and November, is also furnished *without extra charge* to every annual **Chronicle** subscriber.

The State and Municipal Compendium, issued semi-annually on the last Saturday of June and December, is also furnished *without extra charge* to every annual subscriber of the **Chronicle.**

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses of the steam railways of the United States filed each month with the Inter-State Commerce Commission, is likewise furnished *without extra charge* to every annual **Chronicle** subscriber.

The Bank and Quotation Section, issued monthly, is also furnished *without extra charge* to every annual subscriber of the **Chronicle.**

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers' Association, is likewise furnished *without extra charge* to **Chronicle** subscribers.

Terms for the **Chronicle,** including the six supplements above named, are $10 per annum within Continental United States except Alaska: $11.50 in Canada and $13.50 in other foreign countries, U. S. Possessions and Territories.

File covers for the **Chronicle** are sold at $1.00 each (postage 15 cents additional). File covers for Supplements can be had at same price.

CHICAGO OFFICE.—208 South La Salle Street.

LONDON OFFICE.—Edwards & Smith, 1 Drapers' Gardens, E. C.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Streets, New York.

EXPLANATIONS OF TERMS AND ABBREVIATIONS USED.

The following is an explanation of the terms and abbreviations used on succeeding pages in the presentation of the statements of the different companies:

"STOCK AND BONDS."—Under these words are shown:

"Stock."—The amount of stock *authorized* immediately follows the word "stock," and against this is the par value of single shares. For example, "Stock, $500,000 ($100)," means stock, total issue authorized by charter or by Act of Legislature, $500,000, divided into shares of $100 each: "f. p." following the amount given as outstanding means "full paid."

"Pref." means "preferred stock." "Pref. 6% cum." means preferred stock entitled to dividends of 6% per annum, such dividends if not paid accumulating, all dividends due and unpaid to be paid in full for each and every year before the common stock receives anything. "Pref. 6% *non*-cum." means simply that the stock is entitled to 6% per annum if earned, but that if unearned in any year or not declared, no claim on the earnings of subsequent years exists for such year's dividend. "Div." means dividend. The last dividend paid is shown under the column headed *"Maturity."*

"Bonds."—"Mort." "mtge." or "M." means mortgage. "Consol." or "con. M" means consolidated mortgage. "Gen. M." means general mortgage. "Ref. M." means refunding mortgage. "Coll. tr." means collateral trust. The amount next following is the total authorized amount that can be issued under the mortgage. The denominations in which the bonds are issued usually follow in parenthesis. The word "gold" is usually spelled out, but in some instances is contracted to "g.," while "cur." means currency.

"Conv." means convertible into some other form of security. "S. f." means sinking fund. "c." means coupon; "c*" means coupon but may be registered as to principal; "r" means fully registered (no coupons); "r*" means registered, convertible into coupon bonds; "c*&r*" means issuable in either form and convertible from registered to coupon or the reverse; and "c*&r" means that registered certificates without coupons as well as coupon bonds are outstanding. "($100, &c)" signifies that denominations are $100 and larger. The letters "p. m." mean per mile, thus $15,000 p. m. means that the issue of bonds is restricted to $15,000 for each mile of track. "Guar." means guaranteed, and "guar. p. & i. (end.)" means guaranteed as to principal and interest, the guaranty being endorsed on each bond. "Red." means redeemable. "Trus." or "tr." means trustee of the mortgage.

TAX EXEMPTION.—Where there is a provision in bond or mortgage which would seem to make the interest free from the Federal income tax, we indicate the fact in black faced letters—**tf** meaning tax-free. The Revenue Act of 1926, like the Revenue Acts of 1924, 1921 and 1918, provides, however, that only 2% income tax shall be deducted at the source and that all further Federal income taxes shall be met by the recipient of the income. Where there is no tax covenant we insert the letters **ntf,** meaning *not* tax free. **tff** means free from normal Federal income tax up to 4%, though, as already stated, the law allows a deduction of no more than 2%. Where we have no knowledge other than that the company has assumed or is paying the tax, we insert the letters **cpt,** which means that *company pays tax, at least for the present.* Only very general differentiations like this are possible. Tax exemption features of mortgages are so varied and diverse that more definite information is out of the question.

"DATE."—The date of issue on the face of the bonds is indicated under the word *"Date."*

"INTEREST."—Under this heading is given the rate per cent yearly of the interest payable on the bonds or (if guaranteed) of the dividend payable on the stock; also the months when the interest or dividend is payable; thus "6 J-J" means 6% per annum payable January and July. Correspondingly "F-A" is used to mean February and August; "M-S" means March and September, and so on; while "Q-J" means quarterly beginning in January, and "Q-F" quarterly beginning in February. (The day when the interest payment is due can generally be determined by noticing when the loans mature, the day of the month there given being in most cases the same as for one of the interest dates.) "S.-a." means semi-annual.

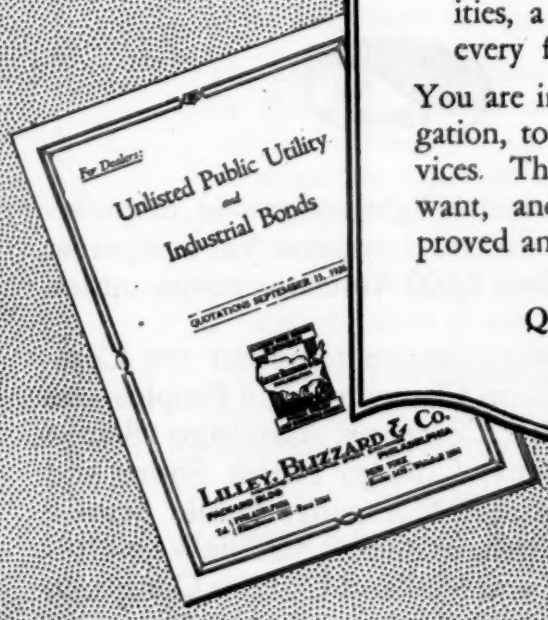
"ROAD."—The word "track" means in street railway parlance all tracks, whether main line, siding, switch or second track. "Rails are 80-lb. girder" means that each rail weighs 80 pounds to the yard. "k.w." means kilowatts, and "h.p." means horsepower. "k.v.a." means kilo-volt-amperes. "P-A-Y-E cars" means pay-as-you-enter or prepayment cars. "Exts., add'ns and impts." means extensions, additions and improvements. "Auth." means authority or authorized. "Oth. inc." means other income. "Cal. year" means calendar year.

REFERENCES TO "CHRONICLE."—This Compendium or supplement is expressly intended for use in connection with the investment news and official reports published from week to week in the "Chronicle." Frequent reference is therefore made to the volume and page of the "Commercial and Financial Chronicle" as (V. 119, p. 000), where fuller information may be found. Following also each statement is given a reference to the latest news item in the "Chronicle" respecting the company. As every such item contains a reference to the last preceding item, the reader can run back at pleasure. Annual reports are in black-faced figures.

A NATION-WIDE SERVICE TO DEALERS IN PUBLIC UTILITY AND INDUSTRIAL BONDS

QUOTATIONS on more than 2000 unlisted Public Utility and Industrial Bonds, issued quarterly, printed, in handy pamphlet form—

Supplemented by quotations weekly on more than 200 active issues—



Plus every facility for quickly locating and quoting markets.

Here is a service of proven merit. Dealers using it are enjoying an unusually valuable brokerage service. The degree of accuracy maintained in these listings is another point of advantage.

In the marketing of inactive securities, a special Department, with every facility, is at your service.

You are invited, without charge or obligation, to take advantage of these services. They are supplying a long felt want, and are constantly being improved and broadened in scope.

Quotation Booklet Sent to Dealers on Request.

Public Utility Securities that appeal to Investors Everywhere

THE earning power of a public utility property depends, primarily, on the nature and extent of the territory served, on the operating efficiency of plant and equipment, and on the personnel of managing officials. There are, however, in making a choice of such securities, further factors to be considered. For example:

Was the plant designed and built by engineers having an exhaustive knowledge, based on long experience, of the best type of equipment for the particular locality?

Was it constructed of the highest grade materials and by the most approved methods?

Were its designers qualified to make dependable estimates of its earning power?

Did they provide adequately for future expansion?

Does the management maintain the properties at a high standard of efficiency and provide amply for depreciation?

Has the company the goodwill of consumers throughout the territory served?

Is it conservatively capitalized, and has it the benefit of strong financial affiliations?

When the answer to all these questions is in the affirmative, the security issues will appeal to conservative investors everywhere.

The experience of Stone & Webster during the last 37 years includes the planning, construction, installation and financing of prominent public utilities throughout the United States. Power stations aggregating 2,700,000 horsepower have been constructed by their organization. Sixty separate companies under their executive management spend over $100,000,000 yearly for construction, maintenance and operation. Public utility and other properties examined and appraised by them represent a total valuation of nearly $6,000,000,000.

The variety of conservative public utility bonds and stocks offered by the Securities Department of Stone & Webster enables investors to make selections exactly suited to their requirements.

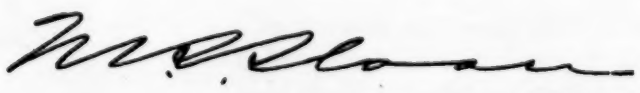
We shall be pleased to make you suggestions for the conservative investment of your funds, either in person or by correspondence.

STONE & WEBSTER
INCORPORATED

NEW YORK 120 Broadway
BOSTON 147 Milk Street
CHICAGO First Nat'l Bank Bldg.

Confidence

A prominent place among the assets and liabilities of any public utility must be given to the regard with which it is held by the community it serves.



It is obvious that a public service organization cannot attain its fullest measure of success without the friendly cooperation of its patrons.

Realizing the importance of securing—and holding—good will, we have exerted every effort toward this end.

We try to educate our customers to expect the best . . . and . . . we strive to give them the finest electrical service that human ingenuity can devise.

Experience has taught us that this is the most workable policy in winning the commendation of those we serve.

BROOKLYN EDISON COMPANY

PRESIDENT

Telephone & Telegraph Cos.

UNITED STATES AND FOREIGN

AMERICAN TELEPHONE & TELEGRAPH CO.

ORGANIZATION.—Owns a large interest, generally a majority interest, in the capital stock of the leading local cos. operating under the Bell patents in the U. S. (V. 107, p. 2100; V. 88, p. 1554); also owns the systemof long-distance telephone lines by which they are united. Pupin patents, V. 72, p. 677; V. 76, p. 332, 596; V. 77, p. 39; V. 92, p. 796, 1312. The major operating companies, greatly reduced in number of late years by consolidation, have had their shares largely exchanged for stock of Am. T. & T. Co. V. 97, p. 446.

(a) Does not include 34.57% owned by Southern Bell Telephone & Telegraph Co., an Associated company. (b Par $50. (c) Remaining 50% owned by Western Electric Co., Inc. (d) Number of shares.

Also owns over 98% of the common stock of Western Electric Co., Inc., New York, manufacturer of electric and telephone supplies. This latter company sold in 1925 all of its interests in foreign companies, except in Canada, to International Telephone & Telegraph Co. See this latter company. V. 109, p. 478. Automatic switchboards, extension of toll cable system, and Key West-Havana telephone cables. See V. 110, p. 979. In Mar. 1920 formed the 205 Broadway Corp. as a holding co. to handle the real estate of the A. T. & T. Co.

In Sept. 1921 organized the Bell Telephone Securities Co. V. 113, p. 1254.

As of May 15 1926 co.'s radio broadcasting activities were incorporated under the name of "*Broadcasting Co. of America.*" See V. 122, p. 2797. However, in Sept. 1926 co. sold its station WEAF for $1,000,000 to Radio Corp. of America and retired entirely from the broadcasting business.

In Sept. 1925 the largest telephone cable in the world, 861 miles, was put into service between New York and Chicago. The construction work required 7 years and the total cost amounted to about $25,000,000. For further details, see V. 121, p. 975, 1787.

Complaint of Violation of Anti-Monopoly Laws filed by City of Boston with I.-S. C. Commission in 1925. V. 123, p. 1381.

BELL SYSTEM.—On Dec. 31 1925 there were 16,720,224 telephones connected with the Bell System, which owned 12,035,224 and connected with 4,685,000 owned by connecting companies and rural associations. 6,017 central offices, 386,064 miles of pole lines; total exchange wire 39,840,840 miles, of which 28,425,392 miles in underground cable, 9,462,213 miles in aerial cable and 1,953,235 miles open wire. Total toll wire 5,632,700 miles (2,057,196 in underground cable, 1,209,332 in aerial cable and 2,366,172 open wire). Grand total of all wires 45,473,540 miles. Average daily telephone conversations during 1925 48,800,470 of which 2,098,163 toll conversations. Number of employees 293,095. The capital obligations in the hands of the public Dec. 31 1925 were $2,034,955,685. See annual report in V 122, p 1470.

Service Charge Cut.—As of Jan. 1 1926 co. reduced the fee charged to its associated concerns for the use and maintenance of instruments from 4½% to 4% of gross income of associated companies. For effect on co.'s earnings, see V. 122, p. 2648.

Stock.—The authorized capital stock was increased on April 1 1920 from $500,000,000 to $750,000,000, on March 28 1923 to $1,000,000,000, and to $1,500,000,000 on April 1 1925. As to convertible bonds of 1906 and 1913, see below, and V. 101, p. 1630. V. 92, p. 47, 166, 231, 798, 1192. In May 1924 offered to stockholders of record June 10 1924 additional stock for subscription at par ($100) in the proportion of one share for each five shares then held. Payments for the new stock were spread over a period of eight months, from Aug. 1 1924 to Apr. 1 1925. Compare V. 118, p. 2575.

Stockholders of record June 8 1926 were given the right to subscribe on or before Aug. 2 1926 for approx. $154,000,000 additional capital stock at par ($100), on the basis of one new share for each six shares held. Payments were spread from Aug. 2 1926 to April 1 1927, or payable in full on Aug. 2 1926 with adjustments of interest and dividends. For full particulars, see V. 122, p. 2946; V. 123, p. 980.

Collateral Trust Mortgage of 1899 is secured by collateral shown below (compare V. 92, p. 397). On additional collateral further bonds may be issued to an amount not exceeding 75% of the estimated value of collateral; and the issue at any time outstanding must not exceed the amount of the company's capital stock then paid up. Int. payable in New York, Boston, London and Amsterdam. V. 69, p. 1195, 1249; V. 70, p. 40; V. 85, p. 1398; V. 80, p. 999, 1113; V. 92, p. 190, 397; V. 93, p. 347.

These bonds are a direct obligation of the company and secured by deposit with trustees of the following stocks and bonds of associated cos., par $121,913,000 (est. value, $118,328,052; V. 105, p. 1710; V. 97, p. 446), viz.:

Shares—Collateral Aug. 31 1926 for Coll. Trust 4s of 1899.	*Par Value.*
310,130 Illinois Bell Telephone Co	$31,013,000
258,000 Mountain States Telephone & Telegraph Co	25,800,000
250,000 Southern Bell Tel. & Tel. Co	25,000,000
400,000 Michigan Bell Tel. Co	40,000,000
------ Home Long Distance Tel. Co. (San Francisco) 5% bonds due 1932	100,000

The *convertible 4s of* 1906 ($150,000,000 original issue) are a direct obligation of the company but not secured by mortgage. They have been subject to call since March 1 1914 at 105 and were convertible into stock from March 1 1909 to March 1 1918. See V. 82, p. 394, 571, 699; V. 83, p. 438; V. 84, p. 105, 160, 273, 933, 1369, 1489; V. 86, p. 171, 1411; V. 87, p. 1013, 1481, 1535, 1606; V. 88, p. 453, 508, 566, 627; V. 93, p. 47, 231. Outstanding issue was reduced from $150,000,000 to $2,589,000 by conversion into stock. Int. payable in N. Y., Boston and Amsterdam. V. 101, p. 1630.

The *20-year 4½% bonds of* 1913 were convertible (*a*) into stock at 120 Mar. 1 1915, to Mar. 1 1925, or (*b*) into an equal amount of stock upon payment of $20 per share. They are redeemable at Sept. 1 1925 and thereafter at par. Amount outstanding was reduced by conversion from $67,000,000 to $1,899,400 Aug. 31 1926. Int. payable in N. Y., Boston and Amsterdam. V. 96, p. 204, 364, 792; V. 100, p. 644, 1630; V. 120, p. 1087.

The (closed) $80,000,000 *5% 30-year sinking fund collateral trust bonds of* 1916 have a *sinking fund* of 1% per annum and are redeemable at 105 and int. Int. payable in New York and Boston. See V. 103, p. 1982, 2081, 2157, 2344; V. 105, p. 1710.

Security for 5% Collateral Trust Bonds of 1916 *as of Aug.* 31 1926.
$13,620,000 stock of New England Tel. & Tel. Co. (V. 103, p. 498).
43,100,000 com. stock of N. Y. Tel. Co. (V. 103, p. 1122; V. 102, p. 708).
15,020,000 stock of Southern Bell Tel. & Tel. Co. (V. 102, p. 1986).
17,500,000 stock of Northwestern Bell Tel. Co.
21,590,100 pref. stock of Pacific Tel. & Tel. Co. (V. 102, p. 1883).
1,000,000 bonds Home Long Dist. Tel. Co. of San Fran. 5%, due 1932.

The *debenture bonds of* 1923 are red. all or part at 110 and int. on any int. date prior to May 1 1941; thereafter at 100 and int. A *sinking fund* of $1,000,000 annually, to be set aside in semi-ann. installments, began May 1 1924, such fund to be used in purchasing debentures of this issue if obtainable at not exceeding 105% and int.; otherwise to be used for capital expenditures. Int. payable in N. Y. or Boston. For security, &c., compare V. 117, p. 2112.

The *debenture bonds of* 1925 are red. all or in part at 110 & int. on any int. date on or prior to July 1 1956; thereafter at 100% & int. A *sinking fund* of $1,250,000 annually is to be set aside in equal semi-ann. installments, beginning July 1 1925, such fund to be used in purchasing debentures of this issue if obtainable at not exceeding 102½ & int.; otherwise, to be used for capital expenditures. Int. payable in N. Y. or Boston. In Jan. 1925 $125,000,000 5% debentures were *sold* by J. P. Morgan & Co., Kuhn, Loeb & Co., Kidder, Peabody & Co., &c., &c., at 95 & int., to yield over 5.30%. 4. 120, p. 207. Listed on N. Y. and Boston Stock Exchanges V. 120, p. 2547.

Western Telep. & Teleg. Co. coll. tr. bonds of 1902 were assumed in Sept 1912 and will, on application to trustee, be endorsed with the agreement to pay prin. and int. Their collateral consists of (stock) $3,900,000 Cin. & Sub. Bell Tel. Co., $1,700,000 Mountain States Tel. & Tel. Co., $8,070,600 (com.) Wisconsin Tel. Co.; (bonds) $200,000 Home Long Dist. Tel. Co. of S. F. 5s, due 1932.

Dividends.—July 1900 to July 1906, incl., 7½% p. a.; Oct. 1906 to April 1921, 8% p. a. (Q.-J.). Since July 1921 paid (or declared) 2¼% quar., increasing the annual rate to 9%. V. 112, p. 2196.

BELL TELEPHONE CO. OF PENNSYLVANIA (THE).

Controlled by American Telephone & Telegraph Co.

ORGANIZATION.—Organized in 1879 as the Bell Telephone Co. of Philadelphia. Name changed to present title in 1907. Owns the entire capital stock of the Diamond State Telephone Co. and the Lehigh Telephone Co. In 1923 acquired the properties of the Pittsburgh & Allegheny Tel. Co. and the Chartiers Telephone Co. On Dec. 22 1924 the I.-S. C. Comm. auth. the co. to acquire certain properties of the Lehigh Telephone Co. and the Lehigh co. to acquire certain properties of the Bell co. and also auth. the Bell co. to acquire control of the Lehigh Tel. Co. by purchase of capital stock. V. 120, p. 327. Purchased the Tri-State Telephone Co. in July 1925. V. 121, p. 72, 1787. About plan to sell Erie, Pa., properties to Mutual Tel. Co., see V. 121, p. 837. Acquired in Sept. 1925 the properties of the Beaver County Telephone Co. and of the Penn State Telephone Co. V. 121, p. 1787. In Dec. 1925 acquired certain properties from and sold certain properties to the People's Telephone Corp., operating in Butler, Venango, Armstrong and Clarion conties, Pa. For particulars, see V. 121, p. 2873.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns and operates a system of exchange and toll lines located in Pennsylvania, reaching every part of the State and connecting directly or indirectly for the interchange of traffic with all the other companies of the Bell System throughout the U. S. and Canada. On Dec. 31 1925 co. owned and operated 944,393 telephone stations, of which 497,521 were in the metropolitan centres of Philadelphia and of Pittsburgh.

DAKOTA CENTRAL TELEPHONE CO.

ORGANIZATION.—A Bell sub-licensee organized in South Dakota in 1904.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns and operates a system of telephone toll lines and exchanges covering South Dakota east of the Missouri River (except a small district around Sioux Falls) and extending into adjacent sections in North Dakota. The toll lines serve the entire territory without competition, and the cities, towns and villages in the territory are served either by the company's own exchanges or by locally-owned connecting exchanges from which the company receives the toll business. Company owns 31,925 stations, 9,072 miles of pole lines and 50,498 miles of wire.

ILLINOIS BELL TELEPHONE CO.

Control.—American Tel. & Tel. Co. owns 98.96% of company's stock.

ORGANIZATION.—Incorp. in Illinois Jan. 14 1881 as the Chicago Telephone Co. On Dec. 1 1920 the Chicago Telephone Co. purchased the telephone plant and property of the Central Union Telephone Co., within the State of Illinois, and in view of its wider field of operations the name of the Chicago Telephone Co. was changed on Dec. 23 1920 to Illinois Bell Telephone Co. V. 111, p. 2232, 2427; V. 112, p. 378. Suit seeking to void merger of 1920 filed. V. 120, p. 211. American Tel. & Tel. Co. owns over 98% of the stock. City of Chicago franchises granted 1907, expiring Jan. 8 1929, provides that 3% of gross earnings are to be paid to city annually. Tentative valuation, V. 111, p. 1854. In Dec. 1925 contracted to void merger of 1920 filed. V. 120, p. 211. City of Chicago franchises granted 1907, expiring Jan. 8 1919, provides that 3% of gross earns. are to be paid to city annually. Tentative valuation, V. 111, p. 1854. In Dec. 1925 contracted to purchase the properties of Home Telep. Co. of Cairo. V. 122, p. 1609. Existing phone rates in and near Chicago upheld on Oct. 19 1925 by U. S. Supreme Court at Washington, D. C. The Federal Court in Chicago will have to decide whether a reduction in charges ordered by the Illinois Commerce Comm., will be put into effect, either in whole or in part. V. 120, p. 1326; V. 121, p. 2038. Gross expenditures of $29,685,000 for plant and equipment authorized for 1926. V. 122, p. 1309.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Company owns and operates telephone exchanges in Chicago, Alton, Aurora, Champaign, Decatur, Elgin, Evanston, Joliet, Moline, Peoria, Quincy, Rockford, Rock Island, Springfield, Waukegan and many other places in Illinois and in Gary, Hammond and other places in Lake County, Ind. Operates under license from the American Telep. & Teleg. Co. under Bell and other patents, under which it uses telephones and apparatus. Through the company's system connection may be had with the long distance lines of the American Telep. & Teleg. Co. and other companies using Bell telephones throughout the United States and Canada. Number of central offices Dec. 31 1925, 258. Number of company owned stations Dec. 31 1925, 1,130,164. Number of connecting and miscellaneous stations, 378,607.

KEYSTONE TELEPHONE CO. OF PHILADELPHIA.

Control.—The Keystone Telephone Co. (of N. J.) owns the entire common stock.

ORGANIZATION.—Incorporated in 1902 in Pennsylvania.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Company operates under perpetual franchises and supplies complete automatic telephone service in Philadelphia and Camden. The company and its subsidiary, the Eastern Telephone & Telegraph Co., have valuable franchises and operate in other prosperous communities in Pennsylvania and New Jersey. Company and its subsidiary operate 6 automatic exchanges in Philadelphia and one in Camden. They also lease 17 modern telephone exchange buildings in nearby cities and towns, including the following: Ambler, Conshohocken, Darby, Doylestown, Hatboro, Jenkintown, Moore, Newtown, Chester, Cape May, Collingswood, Gloucester, Haddonfield, Merchantville, Sea Isle City, Wildwood, Woodbine and Woodbury. The conduits extend for 345 miles under the streets of Philadelphia and the other communities served and contain more than 13,000,000 duct feet. The system includes 3,630,000 feet of cable, 295 miles of pole lines and 5,800 miles of aerial wire. Company has profitable contracts under which part of this conduit system is leased on annual rentals by the Philadelphia Electric Co. and by telegraph companies.—V. 121, p. 199.

Int. at Security Trust Co., Camden, N. J.

Bonds.—In addition to the 1st mtge. 5% gold bonds shown in the above table as outstanding ($5,925,000), $1,775,000 are pledged under the 1st mtge. 6% notes, due Nov. 1 1927, and $2,300,000 are pledged under the 1st lien and ref. mtge. gold bonds, dated June 1 1925, series A.

The *1st lien and ref mtge. gold bonds* are secured by a direct mtge. on all the property (incl. after-acquired) of the company, subject to $10,000,000 (closed mtge.) 1st mtge. 5% gold bonds, due July 1 1935, of which $5,925,000 are outstanding in the hands of the public, and $4,075,000 are pledged for collateral purposes, of which latter amount $2,300,000 are pledged under this issue (the 1st lien and ref. mtge.). Series A is limited to $10,000,000. In addition to the $2,300,000 series A (sold in July 1925 at 91 and int. to yield about 6.51%, by Hemphill, Noyes & Co. and Love, Macomber & Co. V. 121, p. 199), bonds of series A or any other series, to the extent of $1,375,000 principal amount, may be certified against 75% of cost of permanent improvements and extensions already made prior to Dec. 31 1924, provided net earnings for 12 out of preceding 15 months have been at least 1¾ times annual interest requirements on all outstanding funded debt in hands of the public, including bonds to be certified. Under the same earnings restrictions additional bonds may also be issued (1) for refunding purposes; (2) for not more than 75% of cost of permanent improvements, additions or betterments made to present property subsequent to Jan. 1 1925; (3) for 75% of cost or value of new acquisitions. At all times bonds may be issued against deposit with trustee of U. S. securities or cash. A *maintenance or renewal fund* provides that 15% of gross earnings shall be expended or set aside annually for maintenance, etc. In addition company covenants to set aside annually as a renewal reserve $4 for each telephone in actual service. The 1st lien and ref. mtge. gold bonds, series A, are red., whole or part, on 30 days' notice, at 105 prior to June 1 1935, thereafter at successively 1% less during each 5-year period to maturity, in each case with interest. Free from Penn. 4 mill tax. Company refunds Conn. 4 mills, Maryland 4½ mills and Mass. 6% tax. V. 121, p. 199. Listed on Boston Stock Exchange. V. 123, p. 2139.

The *1st mtge. 5% gold bonds due July 1 1935* are secured by a direct 1st mtge. on all the property of the company (incl. after-acquired) and further by a deposit of 10,000 shares (the entire capital stock) of Eastern Tel. & Tel. Co. [The only bonded debt of this latter company is $250,000 1st mtge. 6% bonds due Dec. 1 1932, of which $28,700 is in hands of the public; the balance of $221,300 has been acquired and pledged by Keystone Tel. Co. of Phila.] Call. as a whole only, on any interest date at 108 and interest.

All of the outstanding *1st mtge. bonds secured 6% gold notes, due Nov. 1 1927*, were called Nov. 15 1926 at 100½ and int. V. 123, p. 1996.

The *Eastern Tel & Tel. Co. 1st 6% gold bonds* (formerly 5%) were extended in 1922 for 10 years at 6%. Only $28,700 are outstanding in hands of the public; $221,300 are pledged by Keystone Tel. Co., Phila

Dividends.—On the preferred stock $4 was paid in 1925. In 1926 March June & Sept. each $1.

EARNINGS.—For calendar years:

OFFICERS.—Pres., Frank H. Woods; V.-P., S. H. Burnham; V.-P., Thos. C. Woods; Sec. & Treas., C. P. Russell; Gen. Mgr., J. H. Agee; Aud., W. L. Lemon.—V. 120, p. 1458; V. 121, p. 1788, 3131; V. 122, p. 2191; V. 123, p. 1702.

MICHIGAN BELL TELEPHONE CO.

Control.—American Telephone & Telegraph Co. owns 99.98% of the capital stock.

ORGANIZATION.—Incorp. in Mich. Jan. 30 1904 (V. 75, p. 33, 1034). The stockholders in Sept. 1923 voted to change the name of the co., effective Jan. 1 1924, to Michigan Bell Telephone Co. (formerly Mich. State Telephone Co.). Contract with Amer. Tel. & Tel. upheld; rate cut declared invalid. See V. 119, p. 2179, for details. Applied to the Michigan P. U. Commission for an increase in rates. For details see V. 121, p. 979. Co. owns as of Dec. 31 1925 501,283 stations; connecting and miscell. stations, 127,035; total stations, 628,318. Miles of wire, 1,691,082. Central offices, 256.

Rates Increased effective Aug. 1 1926, see V. 123, p. 842.

NEW ENGLAND TELEPHONE & TELEGRAPH CO.

Control.—The *American Telephone & Telegraph Co.* owns about 60% of the capital stock.

ORGANIZATION.—Incorp. in N. Y. Oct. 19 1883. Effective July 1 1921, the company acquired direct control and operation of the Providence Telephone Co.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Does a telephone business in Maine, New Hampshire, Vermont, Rhode Island and Massachusetts. Telephone stations owned Aug. 31 1926, 1,123,432; connecting, 90,800; total, 1,214,232.

Rates.—Increase of rates, see V. 121, p. 76; V. 122, p. 742. Was granted by the Massachusetts Dept. of P. U. an increase of rates, averaging more than 20% on various classes of service, effective Aug. 1 1925, which was to give the company an additional income of about $8,460,000. Rate increases granted in Rhode Island will yield approximately $1,060,000. See V. 121, p. 707, 979, 1227.

Increase Capital Stock.—On Nov. 19 1925 stockholders increased the authorized capital stock from $100,000,000 to $150,000,000 (par $100). Stockholders of record of Nov. 30 1925 were given the right to subscribe to additional stock at par at the ratio of 1-3 of their holdings. Subscriptions were payable in full or in two installments, the last (50% of par) being payable on or before June 30 1926. V. 121, p. 2521. In Dec. 1925 New Hampshire P. S. Commission authourized co. to issue 15,531 common shares. V. 122, p. 94.

z Note	----	----	820,000	----

y About temporary reductions of dividend rate from 8% to 4% per annum in June 1925, see President's letter, V. 120, p. 2684; V. 121, p. 979. Paid in June 1925, 1%; Sept. 1925, 1%. In Dec. 1925, 2%, the rate then being put again on an 8% annual basis. V. 121, p. 252. See, however, also, V. 122, p. 1026. z Secured by underlying real estate mortgage.

Bonds.—The first mtge. covers as a first lien all the real estate and other property, other than securities, incl. after acquired property in the States of Maine, New Hampshire, Massachusetts and Rhode Island and also all shares (except directors' shares) of stocks of the New Engl. Tel. & Tel. Co. of Massachusetts, Southern Massachusetts Telephone Co., Providence Telephone Co. of Massachusetts, and the Massachusetts Tel. & Tel. Co., subject only to a mtge. of $820,000 on a specific parcel of real estate. The 1st mtge. secures $1,000,000 4% debenture bonds due 1930 and $10,000,000 5% bonds due 1932 ratably with the 1st mtge. series A and series B bonds. Additional 1st mtge. bonds are limited so that the amount thereof at any time outstanding, when added to the then outstanding 4% debenture bonds of 1900 and 5% bonds of 1912 and any underlying bonded debt, shall not exceed twice the amount of the then outstanding capital stock. Additional 1st mtge. bonds may be issued to refund the 4% debenture bonds of 1900, the 5% bonds of 1912, any bonds issued under the 1st mtge. and any underlying debt. Subject to the above limitations, may also be issued for new acquisitions and betterments. If, at any time, however, the amount of outstanding 1st mtge. bonds, added to the prior bonded debt of the co., exceeds the amount of the then outstanding capital stock, additional bonds may be issued only for not exceeding 75% of the expenditures of such new acquisitions, &c. The issue of bonds in respect of stock and other securities is limited so that not more than one-third of the security of the mtge. shall consist of stock and unsecured obligations of other corporations. So long as series A bonds are outstanding, no bonds may be issued, except for refunding, unless net earnings before interest during 12 consecutive out of preceding 15 months have not been less than 1½ times interest during such period on co.'s outstanding bonded debt, plus 12 months interest on proposed issue. Additional 1st mtge. bonds may be issued in several series of such tenor as co. may from time to time determine. Series A gold bonds are redeemable as a whole only on and after June 1 1949 at par and int. Int. payable in New York and Boston. V. 114, p. 2366.

Series B bonds dated May 1 1926 are non-callable for 32 years, but are red. in whole but not in part, upon 60 days' notice on May 1 1958, or on any interest date thereafter, at 100 and int. Legal investment for savings banks in Massachusetts, Rhode Island, Maine, Vermont and Connecticut. In May 1926 J. P. Morgan & Co., Kuhn, Loeb & Co., Kidder, Peabody & Co., &c., &c. offered $40,000,000 4½% series B at 94½ and int. to yield over 4.80%. V. 122, p. 2800; V. 123, p. 1877.

Both series A amd B are listed on N. Y. Stock Exchange and Boston Stock Exchange. V. 122, p. 3083.

Debentures.—These are now equally secured with the co.'s 1st 5s of 1952 and 1st 4½s, due 1961. Have no sinking fund and are not subject to call. V. 95, p. 1043.

NEW YORK TELEPHONE CO.

ORGANIZATION.—A consolidation in September 1909 of all the "Bell" telephone companies operating in State of New York. See V. 91, p. 151, 157; V. 93, p. 1263. Owns all the stock of the Delaware & Atlantic Teleg. & Teleph. Co. (V. 96, p. 556). Controls Empire City Subway Co. (V. 92, p. 1569; V. 93, p. 167, 474, 1263). Federal T. & T. system of Buffalo was taken over Mar. 1 1918, V. 107, p. 86; V. 106, p. 1039; V. 103, p. 1215, 1415. Installation of automatic telephone system in N. Y. City in progress; V. 110, p. 1532; V. 115, p. 1845; V. 118, p. 3074. New headquarters building V. 118, p. 3074. Rate increase upheld, V. 110, p. 587. Application for increase in service rates in northern New Jersey denied, V. 120, p. 331. The co. appealed and an order for a review of the Commission's action has been obtained, V. 120, p. 704; but see also V. 120, p. 829. Acquired control of the Erie-Wyoming Telep. Co. in Aug. 1925, V. 121, p. 1348. Rate increase for Trenton and South New Jersey upheld. See V. 120, p. 3065. Annual report, 1924, see V. 120, p. 2543, 2684. In Nov. 1925 company increased its common stock by $125,000,000, of which it issued $75,908,000, all of which stock was taken by the Amer. Tel. & Tel. Co. for the purpose of refunding part of the capital expenditures made by the company in the State of New York since Jan. 1 1921. V. 121, p. 2403.

Rates.—In Dec. 1925 company filed a motion in the Federal Court requesting permission to add 35% instead of the present 10% to the bills of subscribers in New York City, and to add 17% to bills outside New York City in the State of New York. V. 122, p. 94. This appeal brought harsh criticism and an investigation by the State or even by Congress was hinted at. V. 122, p. 93. On March 10 1926 the Federal Statutory Commission denied co.'s request. V. 122, p. 1456. The N. Y. P. S. Comm. on May 27 1926 held that co. was entitled to $9,111,378 additional revenue to allow it a return of 7% in N. Y. City. Co. filed new rates as directed by the Commission, however under protest against the insufficient return allowed thereunder. See for full details V. 122, p. 3083, 3341. For rates, decisions in favor of the co. in Illinois and New Jersey, see V. 122, p. 2652. In Aug. 1926 co. filed supplemental bill for further increase in rates. V. 123, p. 711, 843.

Company reduces inter-State long distance rates effective Oct. 1 1926. See for details V. 123, p. 1251.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Co. serves directly about 2,500,000 telephones (exact number of stations in service on Dec. 31 1925 was 2,424,194) in New York State, Northern New Jersey and a small part of Connecticut. Nearly 1,450,000 of these telephones are in New York City and some 622,000 in New York State outside the City.

Bonds.—The "First & Gen. Mtge." made in 1909 is limited to $75,000,000 (all issued and $12,288,650 retired by sinking fund), having a first lien on entire property (including real estate valued at approximately $66,600,200) plant, lines, underground conduits, franchises, &c. This mortgage, however, is subject in part to the outstanding mortgage indebtedness of bonds listed above, covering properties acquired from other companies. Issue subject to call in whole, but not in part, at 110 and int. on any M. & N. Mtge. provides annual *sinking fund* of 1%. V. 89, p. 849, 924, 1351; V. 90, p. 773; V. 91, p. 131; V. 94, p. 1510; V. 95, p. 548, 753; V. 102, p. 1815; V. 103, p. 1122. Int. payable in N. Y., Boston, London and Amsterdam.

The $50,000,000 refunding mtge. Series A bonds are redeemable as a whole only on or after Oct. 1 1931 at 105 and int. Int. payable at office or agency of company in N. Y. City.

Mtge. covers all the real estate and telephone plant and appurtenances of the company in State of New York now or hereafter owned; also securities of a book value of $32,299,800, including controlling interest in stocks, as well as stocks, bonds and other securities of other corporations (except those operating telephone properties in New Jersey and Connecticut) now or hereafter owned, subject to indebtedness aggregating $63,337,665, of which $62,566,915 constitute the company's 1st & gen. mtge. 4½s, due 1939. The mortgage is to secure ratably with the bonds issuable thereunder (incl. Series A bonds), the outstanding $22,132,400 30-year sinking fund 6% debentures due 1949 (see V. 108, p. 176).

Mortgage provides for *sinking fund* payments to trustee at rate of $250,000 quarterly, beginning Jan. 1 1922, such payments to be used in purchasing Ser. A bonds if obtainable at not exceeding 102½ and int. V. 113, p. 2191.

The $25,000,000 6% debentures sold in Jan. 1919 are to be secured by any new mortgage ratably with any other indebtedness secured thereon. Since Oct. 1 1921 equally secured with ref. mtge. series A, noted above. The *sinking fund* to which $375,000 must be paid annually will, it is said,

with interest on the amounts retired, suffice to redeem the entire issue by maturity. V. 108, p. 176, 274. Reacquired to Dec. 31 1925 and held alive in sinking fund, $2,8[illegible]7,000. Are call. all or in part on any int. date on 60 days' notice at 110 and int. Int. payable at office of Treasurer of company in New York City.

Dividends.—From 1910 to and incl. July 1926 paid 2% quar. on common stock.

ROCHESTER TELEPHONE CORP.

The New York Telephone Co. owns $33,500 of the common stock and the entire $4,814,000 outstanding 2d pref. stock.

ORGANIZATION.—Incorp. Feb. 17 1920 in New York for the purpose of consolidating into one owning and operating company the telephone business formerly owned and conducted in Rochester, N. Y., and its surrounding territory by the Rochester Telephone Co. (independent) and the New York Telephone Co. (Bell). Began operations Aug. 1 1921. V. 122, p. 3084.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—In addition to 7 telephone exchanges in the City of Rochester, corporation operates 34 exchanges in its territory outside the City of Rochester. Corp. serves altogether a population of over 500,000 in the counties of Monroe, Genesee, Livingston, Ontario, Wyoming and Steuben. Corp. furnishes both local and long distance telephone service throughout its territory without competition. Through its connection with the New York Telephone Co. and the American Tel. & Tel. Co., its subscribers are able to reach every telephone connected with the entire Bell system. Over 80,000 telephones in operation. V. 122, p. 3084.

	c*&r*ntf Guaranty Trust Co., N. Y., Trustee.			

x All owned by American Tel. & Tel. Co.

Stock.—Preferred stock is redeemable, all or part, at 110 to and including April 1 1930, and thereafter at 115.

Of the pref. stock, $45,000,000 has been authorized for issuance and approved by the P. S. Commission. Of this amount, $5,795,000 was used for the conversion of a like amount of the 5-year 7% conv. gold notes, which were called for red. April 1 1923. Of the remainder, $11,772,200 have been sold and $4,217,300 issued for acquisition of telephone property.

Bonds.—The amount of bonds authorized to be issued under the 1st & ref. mtge. is limited so that the amount thereof at any time outstanding, when added to the then outstanding prior bonded debt as defined in the mtge., shall not exceed twice the amount of the then outstanding capital stock. Bonds are issuable under the mtge. to refund the existing underlying obligations and any bonds or other obligations which may hereafter become underlying debt through the purchase of property subject to debt. Subject to the above limitation in amount, bonds are also issuable for the acquisition of add'l property necessary or useful in connection with the business of the co. (incl. stocks, bonds and securities of other corporations) and for betterments; but if at any time the amount of outstanding bonds secured by this mtge., when added to the prior bonded debt (if any) of the co., shall exceed the amount of the then outstanding capital stock, add'l bonds will be issuable for not exceeding 75% of the expenditures for such add'l property and betterments. After $25,000,000 of bonds have been issued on account of the acquisition of stock or unsecured obligations of other corporations, or in respect of additions to their property where not secured by first mortgage, bonds may not be issued for such purposes in excess of one-third of the amount of bonds issued on account of additional property and then outstanding.

The mtge. provides for *sink. fund* payments to a trustee at the rate of $500,000 a year, payable semi-ann. beginning Aug. 1 1924, such payments to be used in purchasing ser. A bonds, if obtainable at not exceeding par and int., otherwise to be used for capital expenditures with respect to property to be covered by the lien of the mtge.

The ser. A bonds are red. as a whole only upon 60 days' notice, on Feb. 1 1934, or on any int. date thereafter, at the following prices with accrued int. if on or prior to Aug. 1 1950 at 105, and if subsequent to Aug. 1 1950 at par. Int. payable in New York and St. Louis. V. 118, p. 562.

Dividends.—Divs. at rate of 7% per ann. paid regularly on pref.

EARNINGS.—Of the Southwestern Bell System properties now owned for calendar years:

MUTUAL TELEPHONE CO. (ERIE, PA.).

ORGANIZATION.—Incorporated in Pennsylvania in 1897.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Co. supplies without competition automatic telephone service to the city of Erie, Pa. (127,000 population) and serves the towns of Girard, Union City, Corry and Northeast, Pa., and intervening and adjoining territory. Operates 24,974 subscribers' stations and 9 central stations, interconnected with 26,312 miles of aerial wire and 38,346 miles of underground wire. Franchise in the City of Erie is without time limit.

Co. purchased as of April 1 1926 all the properties of the Bell Telephone Co. of Pa. in Erie County, Pa., with the exception of one central station with its equipment and connections, through which toll connections to and from points outside of Erie County, Pa., are made by the Bell Telephone Co. of Pa. under a contract with Mutual Telephone Co. After this acquisition, co. does the entire telephone business in the territory in Erie Co. formerly served by both companies. V. 121, p. 839.

TRI-STATE TELEPHONE & TELEGRAPH CO.

ORGANIZATION.—Incorp. in Maine in 1903.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns and operates without competition a telephone exchange and toll system in 38 counties in southern Minnesota having a combined population of about 1,000,000. Operates 34 exchanges and 101,529 telephones, of which approximately 67,049 are in St. Paul. Principal cities served are St. Paul, Winona, Faribault, Owatonna, Austin, Albert Lea, Rochester and Red Wing. Through an agreement with the Northwestern Bell Telephone Co., the toll and long-distance lines of the Bell system are available for all subscribers of the company.

(THE) WESTERN UNION TELEGRAPH CO., INC.

ORGANIZATION.—Organized under the laws of New York State on April 1 1851 and present name adopted in 1856.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Since incorporation the company has acquired and controls by purchase, lease or stock ownership, some 535 telegraph corporations and properties, of which about 57 corporations maintain their corporate identity and organizations. V. 97, p. 1903; V. 98, p. 301, 392, 615, 1076, 1998

On Dec. 31 1925 the capital stock of subsidiary cos. not owned by the Western Union Telegraph Co. aggregated at par value only $1,771,550, viz.: Companies controlled by perpetual leases, $1,341,750; companies controlled by stock ownership, $429,800. The bonds of subsidiary cos. assumed or guaranteed Dec. 31 1925 (see table below) aggregated $6,500,000, of which $3,143,000 were held in W. U. treasury; balance, $3,357,000.

The "deferred non-int. bearing liabilities," as shown in balance sheet of Dec. 31 1925, "in respect of proceeds of sales of securities and other properties held under leases for terms expiring in 1981 and 2010 from cos. in which the W. U. Co. has, for the most part, a controlling int., payable only on the termination of the leases," aggregated $13,135,314.

New Transatlantic Cable, 88 times as fast as any other cable between New York and England, completed in Sept. 1926. V. 123, p. 1384.

Judgment of $2,452,628 *for Louisville & Nashville RR. for Rentals.*—See V. 121, p. 1464. Is still pending on appeal.

Wage Increase.—Co. distributed $3,000,000 in increased wages from Jan. 1 1926 for land-line employees earning less than $3,000 a year. See V. 121, p. 2401. On April 14 1926 authorized capital stock was increased from $100,000,000 to $105,000,000, par $100, the additional $5,000,000 to be sold to employees. For particulars, see V. 122, p. 2194.

AMERICAN DISTRICT TELEGRAPH CO. (N. J.).

Control.—Over 80% of the common stock is owned by *The Western Union Telegraph Co.*

ORGANIZATION.—Incorporated in 1901.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Co. supplies to banks, industrial plants, &s., a large part of the protective alarm systems in many of the principal cities in the U. S. The service consists in the installation and supervision of electric fire, burglar, night watch and automatic sprinkler alarms. Maintains in more than 100 cities central stations where automatic signals from detectors in the banks, plants, &c., are received and immediately transmitted to the fire and police departments. The same signals may also be given manually by watchmen, &c. Co. has over 21,800 subscribers to one or more of its services.

Change of Capital Stock.—On June 18 1925 stockholders changed the authorized capital from 100,000 shares of common stock (par $100) to 100,000 shares of 7% pref. stock (par $100) and 100,000 shares of new no-par common stock. One new pref. and one new no-par common share was issued n exchange for each old share of stock outstanding. V. 120, p. 2939, 3184.

STOCK AND BONDS—	*Date.*	*Interest.*	*Outstanding.*	*Maturity.*
Common 200,000 shs (no par)	----	----	99,653 shs.	Oct '26 75c.
7% conv cum preferred ($10,000,000 ($100))	----	7 Q-J	$9,965,300	----
Purch money obligations	----	----	71,450	----

Stock.—The 7% *conv. cum. pref. stock* is preferred as to cum. divs. and assets ($100 and div. in case of involuntary, and $110 and div. in case of voluntary liquidation). Red. after July 15 1928 as a whole or in part upon 60 days' notice at $110 and divs. Is non-voting except in case of default of 4 quar. divs. Holders have no right to subscribe to new shares of any class. Consent of 2-3 of outstanding pref. stock is required (*a*) to increase the pref. stock or create any stock having preference over it; (*b*) to transfer the property and business of corp. as an entirety; (*c*) to make any distribution of capital to common stock. An annual *sinking fund* of at least 2½% of largest amount of pref. stock outstanding, for purchases of pref. stock, is provided.

Convertible into common stock at any time, share for share, up to 30 days prior to date of redemption. 100,000 common shares (included in above 200,000 authorized) have been reserved for this purpose. In July 1925 Dominick & Dominick offered 76,500 7% cum. conv. pref. at $101 per share.

Dividends.—On the new no par common stock paid 75c. in Oct. 1925 and also in Jan., April, July and Oct. 1926 (previously paid on the $100 par common stock at the rate of 8% per annum). On the pref., 1¾% in Oct. 1925 and in April 1926.

EARNINGS.—For calendar years:

INTERNATIONAL TELEPHONE & TELEGRAPH CORPORATION.

ORGANIZATION.—Incorporated under laws of Maryland June 16 1920. Subsidiary and associated companies include Cuban Telephone Co., Porto Rico Telephone Co., Cuban-American Tel. & Tel. Co., and Compania Telefonica Nacional de Espana (V. 119, p. 1849, 1963; V. 120, p. 453, 1586). In April 1925 acquired a substantial interest and on April 17 1926 the remaining stock interest held by the Compagnie Francaise pour l'exploitation des Procedes Thomson-Houston, in the *Compagnie des Telephones Thomson-Houston* in France (V. 120, p. 3314; V. 121, p. 927). Acquired on Sept. 30 1925 all the capital stock of the *International Western Electric Co., Inc.* (a subsidiary of Western Electric Co.) and a controlling interest in the *Mexican Telephone & Telegraph Co.* (V. 121, p. 977, 1677, 2637). In Oct. 1925 the International Western Elec. Co., Inc., was given the new name of *International Standard Electric Corp.* V. 121, p. 2038. Late in 1925 the Barcelona (Spain) telephone system was acquired by the Compania Telefonica Nacional de Espana. V. 122, p. 348. This latter co. modernizes Spain's telephone system, see V. 123, p. 1251.

Standard Electric Sociedad Anonima.—In Jan. 1926 this company was organized in Spain for the manufacture of telephone apparatus and equipment and took over the Barcelona factory, &c., of the Telefonos Bell, S. A. a subsidiary of International Standard Electric Corp. See for names of officers, &c., for this new subsidiary of International Tel. & Tel. Corp., V. 122, p. 610.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The business of the corporation, in accordance with the terms of its charter, is to carry on a general telephone, telegraph, cable and wireless business, including the construction and operation of such communications, and the manufacture and distribution of electrical equipment and businesses incidental thereto in the States, Territories or dependencies of the United States, except the State of Maryland, and specifically to transact such business in Cuba, Porto Rico and other islands of the West Indies, Mexico, Central America, South America and Europe, as well as in any other foreign countries.

Stockholders of record Feb. 24 1925 were given the right to subscribe on or before April 1 1925 to 89,975 additional shares of capital stock (par $100) at $83 a share. V. 120, p. 829, 1586. Stockholders of record Sept. 15 were given the right to subscribe, incl. Oct. 1 1925, to 99,953 shares of capital stock at par ($100) in the proportion of one new for each three shares held, payable in full or by installments. V. 121, p. 1227. Stockholders of record July 27 1926 were given the right to subscribe on or before Sept. 1 1926 for additional capital stock at $100 on the basis of one new share for each two held. Subscriptions payable in full 2 or 3 installments. V. 122, p. 3339; V. 123, p. 206.

The authorized capital stock was increased from $50,000,000 to $100,000,000 in Sept. 1925. V. 121, p. 1227.

Business outlook for 1926 and following years. See V. 122, p. 348

OFFICERS.—Pres., Sosthenes Behn; V.-P. & Treas., Henry B. Orde V.-Ps., Hernand Behn, Lewis J. Proctor, M. C. Rorty, George E. Pingree Philip K. Condict, Orestes Ferrara and Carlos T. Parraga, Havana; V.-P and Gen. Atty., W. H. Pitkin; Sec. Logan N. Rock; Gen. Counsel, George H. Gardiner; Comptroller, Edwin F. Chinlund. Offices, 41 Broad St. New York and Havana, Cuba.—V. 121, p. 977, 1227, 1788, 2038, 2750, 2637; V. 122, p. 348, 610, 883, 1455, **2650**, 2799, 3339, **3468**; V. 123, p. 206, 324, 1113, 1251, 1634, 1762.

MEXICAN TELEPHONE & TELEGRAPH CO.

On Sept. 1 1925 the Federal District plants (comprising about two-thirds of the total telephones in co.'s system) which had been held and operated by the Federal Govt. of Mexico since 1915, were turned back to the co. and settlement with the Government was effected covering the period the plants were held and operated by the Govt. Co. holds a local long term concession granting co. the right to develop its system in Mexico City. Co. also secured from the Federal authorities a long term concession to establish and operate a long distance system throughout the Republic of Mexico. V. 123, p. 83.

Bonds.—All of the co's outstanding 1*st ref. & ext. mtge. 5% 20-yr. s. f. gold bonds, dated Feb.* 1 1910, were called for payment Aug. 2 1926 at 105 and int. As the interest on these bonds has been in default since Aug. 1 1915 the total payment was to be $1,600 for each $1,000 bond. V. 122, p. 3453.

OFFICERS.—Pres., Hernand Behn.—V. 122, p. 3453; V. 123, p. 83.

(THE) MACKAY COMPANIES.

ORGANIZATION.—A voluntary association formed under trust deed of Dec. 19 1903 and managed by 9 trustees, elected annually. Present trustees are: Clarence H. Mackay, F. L. Polk, M. W. Blackmar, Charles H. Sabin, Lewis L. Clarke, William J. Deegan, Morton S. Paton, John Goldhammer (New York), Charles R. Hosmer (Montreal)

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns entire $25,000,000 stock of Commercial Cable Co. and the entire capital of the Postal Telegraph system; also capital stock in other cable, telegraph and telephone companies in United States, Canada and Europe. See V. 84, p. 448; V. 85, p. 407; V. 86, p. 476; V. 89, p. 848. Rights of stock, V. 84, p. 870. Govt. valuation in 1918, V. 106, p. 1465, 1581. In Jan. 1922 the company announced the completion of a contract with the German Atlantic Cable Co. for a direct cable from this country to Germany, which was expected to be completed appr. Oct. 1926. See V. 122, p. 609 under "Commercial Cable Co." See further V. 114, p. 312. See also V. 119, p. 1847. A new transatlantic cable of the heaviest type ever laid was completed between New York and Havre, France, via Canso, Nova Scotia, and the Azores Islands, during 1923.

In Aug. 1922 entered into a cable alliance with All America Cables, Inc V. 115, p. 1106. In Sept. 1922 entered into an agreement with Radio Corp. of America. V. 115, p. 1329.

On July 31 1919 the Government surrendered control of all the telegraph cable and telephone lines held by it. V. 108, p. 1775, 1825, 1940, 2123, 2438, 2532; V. 109, p. 482. As to Government demands, see V. 109, p. 1992; V. 110, p. 870, 1936; V. 112, p. 854. Under I.-S. C. Comm. jurisdiction, V. 111, p. 595.

Contract with Mexican Government to render a competitive telegraph and cable service into and out of Mexico entered into in the early part of 1926, see V. 122, p. 1608 under "Commercial Cable Co."

Revision of rates to France and Poland, see V. 121, p. 458.

Title Ins. & Trust Co., Los Angeles, Trus.

Stock.—The $7 cum. prior pref. stock is preferred as to both assets ($115 in voluntary liquidation) and cum. divs. over common stock. Red. on 30 days' notice at $115 & divs. In Sept. 1926 Paine, Webber & Co. offered 10,128 shares at 98 and divs., to yield 7.14%. V. 123, p. 1630, 1873.

Debentures.—The 15-year conv. gold debentures series A *dated Sept.* 1 1926, are convertible at any time prior to redemtpion or maturity into no par value $7 cum. prior pref. stock upon basis of one share of stock for each $100 of debentures. Red. at any time, all or part, on 30 days' notice at 105 to and incl. Sept. 1 1936 and thereafter at 1% less each succeeding year or portion thereof, plus int. in all cases. Int. payable in New York and Chicago. Penn., Conn. and Calif. 4-mills and Mass. 6% taxes refundable. In Sept. 1926 Paine, Webber & Co., New York, and Mitchum, Tully & Co., San Francisco, sold $1,500,000 6% series A at 99 and int V. 123, p. 1630, 1873.

EARNINGS.—For 12 mos. end. June 30 1926 Gross earnings, $1,076,764; operating exp., maint. & taxes, $522,031; net before deprec., $554,733; int., amort. & min. stock interest, $275,964; annual dividends requirement on $7 pref. stock, $70,896; balance, $207,873.

OFFICERS.—Pres., Marshall E. Sampsell.—V. 123, p. 1630, 1760, 1873.

PENINSULAR TELEPHONE CO.

ORGANIZATION.—Incorp. in Florida in 1901. In Oct. 1923 acquired the property of the West Coast Telephone Co. of St. Petersburg, Fla.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Owns and operates, without competition, the central station telephone systems in Tampa, St. Petersburg, Port Tampa and 16 surrounding cities and towns, all of which are connected by toll lines of the co. The toll lines extend to 11 other nearby cities and towns of South Florida. Connections are made with the long-distance lines of the American Tel. & Tel. Co. under contract. Population served, including St. Petersburg, over 400,000. On Dec. 31 1925 operated 42,634 telephones.

	Int. at Bankers Trust Co., N. Y., trustee			

Total capital stock authorized (pref. and common) is $10,000,000.

Stock.—Pref. is red. all or in part on any div. date on 60 days' notice at 110 & divs. In Nov. 1923 $300,000 7% cumul. pref. Series A was *offered* by Coggeshall & Hicks, N. Y., at 100 & div., and $1,250,000 in April 1925, also at 100 and div. V. 120, p. 2270; V. 117, p. 2002.

Bonds.—The first mtge. gold bonds are secured by direct first mortgage on all of the fixed assets of the company with the exception only of a few minor parcels. The 5½% series due 1951 is limited to $5,000,000. Add'l bonds of this or other series of such tenor as directors from time to time may determine, may be issued for (*a*) refunding purposes, (*b*) against cash deposited with trustee, (*c*) for 80% of additions, new construction, &c., and provided net earnings for *twelve* consecutive months have been at least two times annual interest charges on all outstanding first mortgage gold bonds, including new issue. A *sinking fund* of 1% per annum, payable semi-annually, commencing June 1 1927, is to be used to purchase these bonds at or below 102 and interest for this 5½% series, due 1951, otherwise the moneys may be used to reimburse the company for properties for which additional bonds might otherwise be issued. Callable, whole or part, on or before Jan. 1 1949 at 105 and interest, thereafter at 100 and interest on 30 days' notice. In Dec. 1925 Coggeshall & Hicks and Bodell & Co., New York, offered $3,500,000 at 100 and int. V. 121, p. 3132. In June 1926 the same bankers offered $1,000,000 additional 5½% series at 101½ and int. to yield over 5.40%. V. 122, p. 3607.

10-year conv. deb. 6½% bonds, Series A, are convertible into common stock at the option of the bondholder before Apr. 1 1931 on the following basis: The first $450,000 principal amount of debenture bonds to be presented for conversion will be converted on the basis of ten shares of stock for each $1,000 bond, the next $450,000 on the basis of 9½ shares for each $1,000 bond, and the next $350,000 on the basis of 9 shares for each $1,000 bond. Are redeemable all or part on any interest date on and after Oct. 1 1926 upon 30 days' notice at 105 up to and including April 1 1929, and thereafter at 100 plus ½ of 1% for each full year or fraction thereof prior to maturity. $1,250,000 Series A 6½% conv. debentures were *sold* in June 1924 by Coggeshall & Hicks and Bodell & Co., N. Y., at 98 and int., to yield over 6¾%. V. 118, p. 2835. $828,500 has been converted into common stock.

OFFICERS.—Pres. & Gen. Mgr., W. G. Brorein; V.-P. & Sec., C. D Brorein; Treas., O. E. Dunan.—V. 118, p. 2835; V. 120, p. 2720, 3315 V. 121, p. 3005, 3132; V. 122, p. 95, 3455, 3607.

RADIO CORPORATION OF AMERICA.

ORGANIZATION.—Incorp. in Oct. 1919. Has contracted to use and sell the patented radio, &c., devices of the General Electric Co. and Westinghouse Electric & Mfg. Co.; also acquired all the property of the Marconi Wireless Telegraph Co. of America (except its manufacturing plant, which was sold to the General Electric Co.) its claims against the United States Government and claims against individuals on infringement account. V. 109, p. 1704. The plan was ratified by the stockholders of the Marconi Wireless Telegraph Co. of America on Nov. 20 1919 and the latter company was dissolved.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Operates international radio communication circuits with (1) Great Britain, (2) Norway, (3) Germany, (4) France, (5) Italy, (6) Poland, (7) Japan, (8) Hawaii, (9) Hawaii-Japan, (10) Argentina, (11) Sweden, (12) Dutch East Indies, (13) Brazil. In Nov. 1924 the Philippine Legislature granted to corporation a concession for the erection of a trans-oceanic station at Manila. V. 120, p. 2679. The circuit to the Dutch East Indies, opened in 1925, also furnishes a fast and reliable "through" route to Holland. Sells patented radio devices in U. S. and various other countries.

Operates broadcasting stations in New York City, Washington, D. C., and Bound Brook, N. J., and other stations acquired later. Compare V. 123, p. 844. Corp. was to assume active control of broadcasting station WEAF in New York City, which it had previously bought from American Tel. & Tel. Co. It incorporated this station under the name of National Broadcasting Co., Inc. Pres., M. H. Aylesworth. V. 123, p. 1505. The new trans-oceanic communication station of the company at Rocky Point, L. I., said to be the most powerful in the world, was opened for public use on Nov. 5 1921. V. 113, p. 2087, 2625. Other trans-oceanic communication stations are located at Rocky Point and Riverhead, L. I.; Chatham and Marion, Mass.; New Brunswick and Tuckerton, N. J.; Bolinas and Marshall, Calif., and Kahuku and Koko Head, Hawaii. The company owns and operates a number of marine coastal radio stations for communication with ships at sea, the marine station at Chatham, Mass., being the most powerful marine station on the Atlantic Coast.

Company contracted in 1924 with Brunswick-Balke-Collender Co., and in 1925 with Victor Talking Machine Co. for the sale of radio apparatus in combination radio-phonograph instruments.

In Sept. 1922 entered into an agreement with the Postal Telegraph Cable Co. for use of the latter's land line system all over the United States for the collection and delivery of trans-Atlantic radio messages. V. 115, p. 1331.

Interest in Federal Telegraph Co. of Delaware. V. 115, p. 1435.

Announced in Aug. 1921 that the co. had acquired control of all the coastal stations of the International Radio Telegraph Co. V. 113, p. 1061, 1162.

The Federal Trade Commission, in a complaint issued Jan. 28 1924, charged monopoly in radio apparatus and communication. Compare V. 118, p. 515.

Introduction of new radiotrons and rectrons, see V. 121, p. 1103. Annual report 1924, V. 120, p. 2679. Patent suit brought by De Forest Radio Corp. dismissed in Nov. 1925 by Judge Morris in the U. S. District Court at Wilmington, Del. V. 121, p. 2522.

STOCK AND BONDS—	Date.	Interest	Outstanding.	Maturity.
Common 1,500,000 shs (no par)	----	----------	1,155,400shs.	--------
Pref stock 7% cum Ser "A" $25,000,000 ($50)	----	7 Q-J	$19,779,870	Oct. '26, 1¾

Stock.—The stockholders on May 6 1924 amended the charter of the corporation so as to reduce the number of shares of auth. pref. stock from 5,000,000 (par $5) to 500,000 (par $50) and the auth. no par value common stock from 7,500,000 to 1,500,000 shares. The 7% cum. ser. A pref. stock, for which the old pref. was exchanged at the ratio of 10 shares for one share of the new stock. The old common stock was exchanged at the ratio of 5 shares for one share of the new or "A" common stock. The "A" common stock and the "A" preferred are listed on the New York Stock Exchange.

Dividends.—Preferred dividends are being paid regularly. No common dividends have been paid.

CONSOLIDATED GAS CO. OF NEW YORK.

ORGANIZATION.—Organized Nov. 11 1884 as a consolidation, and in 1899-1900 secured control of all the other gas cos. and of all the electric-lighting properties in Manhattan, N. Y. City. V. 78, p. 105, 1964; V. 79, p. 105, 629; V. 83, p. 1414; V. 84, p. 219; V. 86, p. 282; V. 92, p. 257; V. 97, p. 240, 301; V. 112, p. 165. Franchise taxation, V. 102, p. 253. The N. Y. P. S. Comm. in Aug. 1922 granted the New York Mutual Gas Light Co. permission to transfer its plant and system to the Consolidated Gas Co. for $9,012,275. V. 114, p. 2725; V. 115, p. 190, 995, 1216. Co.'s controlled companies are the following

Astoria Light, Heat & Power Co.	Cons. Teleg. & Elec. Subway Co.
New Amsterdam Gas Co.	United Elec. Light & Power Co.
East River Gas Co. of L. I. City	Brush Elec. Illuminating Co. of N.Y.
Central Union Gas Co.	N. Y. & Queens El. Lt. & Pr. Co.
Northern Union Gas Co.	Bronx Gas & Electric Co.
Stand.Gas Lt.Co. of the City of N.Y.	Westchester Lighting Co.
N. Y. & Queens Gas Co.	Northern Westchester Lighting Co.
New York Edison Co.	Peekskill Lighting & RR.
Yonkers Electric Light & Power Co.	National Coke & Coal Co.
Edison Light & Power Installation Co.	Municipal Lighting Co.
	Tarrytown Terminal Corp.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The co. directly and through its subsidiaries does practically the entire gas and electric light and power business in the boroughs of Manhattan, Bronx and Queens, and in Westchester County.

In 1906 a law was passed reducing the price in New York City to 80 cents per 1,000 cu. ft., beginning May 1 1906, except in outlying districts. V. 82, p. 572, 807, 931; V. 90, p. 301. In Jan. 1909 the U. S. Supreme Court held 80-cent feature of law to be valid until given a fair trial. In Jan. 1919 the company brought suit to have the 80 cent rate declared confiscatory. Final report declaring the 80-cent rate confiscatory was handed down by Special Master Abraham S. Gilbert in May 1920. A temporary injunction restraining the authorities from enforcing the 80-cent rate was handed down on June 29 1920. V. 111, p. 76. Federal Judge Learned Hand on Aug. 4 1920 and Judge Julius M. Mayer in April 1921 handed down decisions upholding in nearly all respects the recommendations of Special Master A. S. Gilbert in the case of the company to the effect that the 80-cent gas law was confiscatory. V. 111, p. 592; V. 112, p. 1620.

The company, acting on a decree signed on Feb. 28 1921, by Federal Judge Hand refusing the application of the State and city officials that the court fix a definite rate for the continuation of the supply of gas after March 1, announced that the rate for gas would be increased from $1.20 to $1.50 per 1,000 cu. ft., effective March 1 1921. Beginning Aug. 1 1921 it was announced rates would be reduced to $1.25 and beginning Oct. 1 1922 the rate was further reduced to $1.15. V. 115, p. 1104.

The U. S. Supreme Court in a unanimous decision handed down March 6 1922 held that the 80-cent gas law of 1906 is confiscatory. The Supreme Court also rendered a similar decision in the case of the New York & Queens Gas Co. and the Kings County Lighting Co., holding in their case that the $1 rate of 1916 was also confiscatory.

The Court also ordered that all impounded funds be promptly released to the gas companies subject only to deductions of such costs as are clearly assessable to the prevailing party. The case was remanded back to the lower court for further proceedings in conformity with the decree. [The full text of the decision is given in V. 114, p. 1023.]

In future, according to the decision, the N. Y. P. S. Commission shal fix rates that are not confiscatory and that are in conformity with the Court's decision. V. 114, p. 1023, 1067. Compare V. 119, p. 2877 V. 120, p. 329.

Adoption of B. T. U. standard, V. 115, p. 1104; V 116, p. 520.

James G. Graham, special master, appointed by the Federal District Court to hear the action brought by the Consolidated Gas Co. of N. Y., N. Y. & Queens Gas Co. and by the Bronx Gas & Elec. Co. against the P. S. Commission and Att'y-Gen. Carl Sherman in June 1924, handed down an opinion in July 1924 in which he holds that the $1 gas law passed by the New York State Legislature at the 1923 session is unconstitutional and confiscatory as applied to the plaintiff companies. V. 118, p. 440. Opinion of special master upheld by Federal Court. V. 120, p. 2145. Appeal by Attorney-General, Supreme Court decision awaited in June or during the latter part of 1926. V. 122, p. 1161.

On Aug. 21 1925 bought the Academy of Music Bldg. on Irving Place, New York City. V. 121, p. 1460.

(2) NEW YORK EDISON CO.

Organized May 1 1901 as a consolidation of the N. Y. Gas & Elec. Light Heat & Power Co. and the Edison Elec. Illum. Co. of N. Y. Owns large power plant located on 1st Ave., between 38th and 40th streets. V. 69, p. 704; V. 68, p. 1025; V. 70, p. 283, 482; V. 80, p. 1915; V. 84, p. 219 Capital stock outstanding Dec. 31 1923, 2,014,826 shares common, no par, owned by Consolidated Gas Co. of New York. V. 90, p. 562, 773; V. 91, p. 1516; V. 92, p. 191; V. 97, p. 301, 448, 1464.—V. 114, p. 529.

Rate Litigation.—See V. 122, p. 1161, under heading "Consolidated Gas Co. of N. Y."

New Generating Station.—The new East River electric generating station, now under construction, will cost approx. $50,000,000, will have a capacity of 1,000,000 k.w. and be the largest of its kind in the world. For further details see V. 120, p. 3065, also V. 122, p. 1161, under "Consolidated Gas Co. of N. Y. See same item re 132,000-volt underground feeder from Hell Gate station to Dunwoodie.

Bonds.—The first 5s of 1898 ($15,000,000) are secured by a first lien on the company's power plant and other property owned and pledge of various securities; list, see V. 68, p. 773, 824, 1025; V. 76, p. 268. The 4s of 1899 are secured by a purchase-money lien on the former Edison Electric Illum. property, subject to bonds of 1890 and 1895 and by a second mortgage lien on the remaining property. V. 72, p. 939, 1038; V. 81, p. 35. Real estate mortgages, $524,412.

The *first lien & ref. mtge. Ser. A* 6½% *bonds due* 1941 are red. on and after Oct. 1 1936 at 105. Secured by deposit of a new issue of $30,000,000 1st mtge. 6½% bonds due in 1996 of United Electric Light & Power Co. and over 99.99% of the capital stock of that company (aggregating $5,295,900). Also secured by direct mortgage, subject to prior liens, on entire property now or hereafter owned. Auth. issue unlimited. Series with same or different interest rates, dates, &c., may be issued. V. 113, p. 2410.

1st lien & ref. mtge. Ser. B 5s due 1944 are red. on 60 days' notice on any int. date at 105 to & incl. Oct. 1 1943; at 104 thereafter to & incl. Oct. 1 1936; at 103 thereafter to & incl. Oct. 1 1939; at 102 thereafter to & incl. Oct. 1 1941, and thereafter prior to maturity at 101. In Feb. 1925 the National City Co. *sold* $30,000,000 at par & int. V. 120, p. 703, 829.

(10) NEW YORK & QUEENS GAS CO.

Supplies Flushing, College Point, Whitestone, Bayside, Douglaston and Little Neck, N. Y. Stock, $600,000. The Consolidated Gas Co. owns all the outstanding stock, which it acquired under order of P. S. Comm. dated May 1913. V. 96, p. 1493. The first and general mortgage 5s are red. at 110. *Earnings* for calendar year 1925, gross, $1,054,769; net, $274,310; interest, $220,368; surplus, $53,942. For calendar year 1924, gross, $688,160 (exclusive of $238,868 charged for sales of gas in excess of $1 rate); net oper. deficit, $30,496; deductions, $149,913; bal., def., $180,409. Pres., M. Taylor; V.-P. & Mgr., M. H. Spear; Sec., H. S. Romaine; Treas., H. C. Davidson. Office, Gas & Electric Bldg., Flushing, N. Y.—V. 118, p. 3087.

OKLAHOMA NATURAL GAS CORP.

ORGANIZATION.—Incorp. July 13 1926 in Maryland to acquire substantially all the assets of Oklahoma Natural Gas Co., Kingwood Pipeline Co., Southern Gas Co. and substantially all the assets and (or) stock of Okmulgee Gas Co.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—The system constitutes one of the largest natural gas systems in the U. S., serving approximately 86,330 customers in 44 communities. Territory served has a population of 400,000 and includes the cities of Tulsa, Sapulpa and Okmulgee, served at retail, and Oklahoma City, Muskogee and Guthrie, at wholesale. Properties include leaseholds on more than 126,200 acres, of which over 100,000 acres are proven natural gas reserves; gas purchase contracts covering about 101,935 acres of additional proven reserves; over 1,800 miles of transmission and distribution lines and 9 modern compressor stations. These properties contain over 430 producing wells with an open-flow capacity of over 2 billion cu. ft.

x 240,000 additional shares reserved for conversion of debentures.

Stock.—The 7% cum. pref. stock is preferred as to 7% cumul. dividends and as to assets to the extent of $110 and divs. Entitled to the same voting rights per share as the common stock. Callable, whole or part, on any dividend date on 30 days' notice at $110 & divs. In Sept. 1926 White, Weld & Co. and Blyth, Witter & Co. offered $2,100,000 7% cum. pref. stock at 100 and divs. Each pref. share carried as a bonus one share of common stock. V. 123, p. 1383.

Debentures.—The 6½% conv. s. f. gold debentures have a sinking fund designed to retire the entire issue of $6,000,000 by maturity. All debentures purchased at or below redemption price, otherwise called by lot for the sinking fund, are to be canceled. Red. as a whole or part at any time on 30 days' notice at 100 and int. plus a premium of 5% if redeemed on or before Sept. 1 1931, with successive reductions of ½% during each year thereafter until maturity. Certain State (incl. Calif., Penn. and Mass.) taxes refundable. *Convertible* into common stock on the basis of 40 shares for each $1,000 principal amount of debentures at any time prior to maturity, or, if called for redemption, up to and incl. the 5th day preceding redemption date. In Sept. 1926 White, Weld & Co. and Blyth, Witter & Co. offered $6,000,000 of these debentures at 99 & int., to yield over 6.60%. V. 123, p. 1383.

Note.—Distribution of cash, bonds and dividends to stockholders of record Sept. 21 1926 of *Oklahoma Natural Gas Co.*, in accord with the sale agreement, see V. 123, p. 1635, 1997, 2140.

EARNINGS.—Consolidated net earnings available for interest, reserves for renewals, replacements and depletion, and Federal taxes, cal. years:

x1926.	1925.	1924.	1923.	1922.
$3,205,000	$2,915,981	$2,766,145	$1,979,670	$2,044,195

SOUTHERN GAS CO.

Control.—See Oklahoma Natural Gas Corp. above, V. 123, p. 1384.

ORGANIZATION.—Co. (formerly Southern Natural Gas Co.) was Incorp. in Oct. 1921 in Delaware. Under the Texas statutes, co. is a gas utility and as such operates by authority and under protection of the RR. Commission of Texas.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Under a continuing contract, running 12 years from May 3 1922, and thereafter until canceled, co. furnishes natural gas to the San Antonio (Texas) Public Serv. Co., a subsidiary of American Light & Traction Co. The gas furnished is used for all domestic and industrial purposes for San Antonio and adjacent territory as well as for fuel under the boilers in the electric power plant of San Antonio Public Serv. Co. Under a contract with the U. S. Govt. co. also supplies all gas used by Kelly Fields No. 1 and No. 2, by the Air Intermediate Depot and by Camp Normoyle, all located about 2 miles from San Antonio. Gas sales in 1925: 3,396,563,000 cu. ft.

BROOKLYN UNION GAS CO. SYSTEM (THE).

ORGANIZATION.—Incorp. in N. Y. Sept. 7 1895, per plan V. 61 p. 831, and V. 62, p. 1141; V. 64, p. 887; V. 80, p. 1854. Brooklyn Union Gas Co. owns all the stocks and bonds of its subsidiaries, viz., the Newtown Gas Co., operating in the Second Ward of the Borough of Queens; the Jamaica Gas Light Co.; the Woodhaven Gas Light Co., and the Richmond Hill & Queens County Gas Light Co., operating in the 4th Ward of the Borough of Queens, and the Flatbush Gas Co., operating in the 29th Ward of the Borough of Brooklyn. V. 122, p. 1305; see also V. 109, p. 2359. Sale of Flatbush Gas Co. electric properties to Brooklyn Edison Co., Inc., see V. 119, p. 2284; V. 121, p. 2270; V. 122, p. 1305. The Public Service Comm. in Oct. 1922 adopted an order changing the candle power standard to a standard of 537 B. T. U. per cu. ft. In May 1923 the New York State Legislature passed the $1 gas law and increased the standard of gas to 650 B. T. U. per cu. ft. The co. has started proceedings to declare the $1 gas law unconstitutional. Final report of Special Master filed March 21 1925 declares $1 gas law to be confiscatory and unconstitutional. V. 120, p. 1585. Compare V. 120, p. 85. Judge Marcus B. Campbell, in the Federal Court in Brooklyn, June 24 1925 approved the Special Master's report. It is expected the case will be carried to the U. S. Supreme Court.—V. 120, p. 3311; V. 121, p. 704. Total gas mains, 1,891.48 miles; the system had 652,589 meters in use on Dec. 31 1925. Gas sales 1925, 20,391,676,000 cu. ft.

New Plant.—Co. is about to erect a new gas plant in Brooklyn of an initial daily mfg. capacity of 30,000,000 cu. ft., and ultimate capacity of 100,000,000 cu. ft. V. 121, p. 3129.

For increase in authorized capitalization of various subsidiaries, see V. 121, p. 2873; V. 122, p. 1305. In Nov. 1925 authorized capital stock was increased from 600,000 to 1,000,000 shares, no par.

In addition to the 6% paid in 1910 an extra 1½% was paid; in addition to the 6% paid in 1911 an extra 1%. Paid in 1924: Jan. 2, 2%; Apr. 1, $1 per share on new stock of no par val. July 1, $1 per share; Oct. 1, $1 per share. In 1925 paid at the rate of $4 per annum. In 1926 paid 4 regular quar. dividends of $1 each, and in addition in Jan. 1926, $7 per share was paid as a special dividend, which distribution was equal to a rate of 8% per annum on the par value stock, as constituted during the period Jan. 1 1920 to July 1 1922, when dividends were suspended owing to the inadequacy of the rate, allowed under the 80-cent gas law, which on Mar. 13 1922 was held by the U. S. Supreme Court to be unconstitutional and confiscatory as against the co. V. 121, p. 2270.

EARNINGS.—For calendar years:

	Total Revenue.	Net after Taxes, Retirem't, &c.	Fixed Charges.	Dividends.	Balance, Surplus.
1925	a$20,968,500	$1,640,128	$1,387,589	d$5,542,573	b$5,290,034
1924	a22,297,360	2,335,144	1,768,438	1,513,763	c947,057

a Based on rate of $1 per 1,000 cu. ft. gas. b Deficit. Does not include $2,952,746 charged in excess of statutory rate of $1. c Deficit. Does not include $2,875,945 charged in excess of statutory rate of $1. d Includes special payment of $7 per share paid Jan. 11 1926 and is equal to dividends omitted Jan. 1 1920 to July 1 1922 on account of 80-cent gas law. See under "Dividends."

COUNTY GAS CO. (OF DALLAS, TEXAS).

Control.—A subsidiary of Dallas Gas Corp.

Supervised by H. D. Walbridge Co., Inc., New York.

Organization.—Incorporated in Texas Dec 3 1912. The County Gas Co. together with the Dallas Gas Co. (both subsidiaries of Dallas Gas Corp.) do, without competition, the entire gas business in the City of Dallas, Texas, and environs, serving an estimated population of 265,000. The Dallas Gas Co. confines its operations to the old city limits as they existed March 30 1912. The County Gas Co. supplies gas to the newer portion of the city, as well as the surrounding territory, serving an estimated population of 120,000, of which appr. ¾ is within the present city limits of Dallas. The suburban territory includes the residential Highland Park and Trinity Heights. Co's supply of gas is obtained from natural gas production and transportation companies operating in the Oklahoma and Texas gas fields. Co. owns regulator stations and 290 miles of high and low pressure distributing mains. Output year 1925 over 2,640,000,000 cu. ft.; 20,666 consumers.

EMPIRE GAS & FUEL CO. (DELAWARE).

Controlled by Cities Service Co.

ORGANIZATION.—Incorp. in Delaware June 1919. The following are some of the subsidiary cos.: Empire Refining Co., Empire Gasoline Co., Empire Gas & Pipe Line Co., Empire Natural Gas Co., Empire Petroleum Co., Indian Territory Illuminating Oil Co., and Cities Service Oil Co. (Del.). For complete list of subsidiary companies, see under "Cities Service Co."

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Produces high-grade refinable crude oil and also owns and operates a natural gas system. Its oil properties are located in the Mid-Continent field in Kansas, Oklahoma, Arkansas, and Texas, and the natural gas business is conducted principally in Kansas, Oklahoma and Missouri. Its business combines the four essentials which constitute a complete unit in the oil industry, namely, production, transportation, refining and marketing, and the natural gas operations include production and trunk line distribution to numerous markets. The natural gas production of the co. is principally in Osage County, Okla., and co. owns 434 gas wells. In addition co. purchases gas from other producers, and in the aggregate has available a daily open flow gas supply of approx. 1,250,000,000 cu. ft. Co. owns approx. 3,000 miles trunk pipe lines and supplies gas to local distributors serving Kansas City and Joplin, Missouri, Kansas City, Topeka, Hutchinson, Ottawa and Wichita, Kansas, and substantially all other cities and towns in the vicinity of these communities with a total population of approx. 1,250,000. Gas supplied averages over 100,000,000 cu. ft. daily. Co. was reported on June 7 1926 to have acquired 25,000 acres of land in Fayette County, West Virginia and planned to drill for oil immediately. V. 122, p. 3337.

Bonds.—The total amount of authorized *1st & ref. gold bonds* is $150,000,000. Issuable under restrictions stated in trust indenture.

The 1st & ref. conv. bonds Ser. "A" (V. 114, p. 1895) are red., all or part, at 115 & int. during first year, and thereafter at 115 & int. less 1% for each expired year from date of issue, but at par last six months. Listed on N. Y. Stock Exchange. V. 123, p. 1633.

Conv. into the 8% cum. pref. stock on the basis of the prevailing skg. fund call price for the bonds and par for the pref. stock, with adjustmen for interest and dividends.

Co. obligates itself to maintain a minimum *sinking fund* for Ser. "A," bonds, operating through Halsey, Stuart & Co., Inc., the amount of which is calculated to retire about 60% of the series by maturity, the skg. fund operating quarterly, beginning Aug. 1 1922, through the purchase of bonds in the market or by call by lot at 107½ and int. during first year, less ½% for each expired year from date of issue, but at par last six months.

There is a *sinking fund* operating quarterly beginning Oct. 1 1926, through Halsey, Stuart & Co., Inc., for the retirement of 6½% *series bonds, due* 1941, at the annual rate of at least $1,000,000, by purchase of bonds in the market at not exceeding redemption price otherwise by, call at such price. Co. has right to anticipate this sinking fund obligation. While any of the 6½% series are outstanding, additional bonds may only be issued (in same or other series of such tenor as stated in the indenture, under restrictions as to the cost of additional developments and additions and subject to certain earnings restrictions. While any bonds of series A, series C or 6½% series, due 1941, are outstanding co. is to maintain a *depletion and depreciation fund* of not less than $3,000,000 per annum (in addition to the sinking fund), to be used to (1) redemption of series A bonds, if any are outstanding; (2) for capital expenditures; (3) for temporary investment in assets to be pledged with trustee until applied as under (1) or (2).

6½% series, due 1941, are red., whole or part, on 60 days' notice at 106% less ½% for each expired 12 months from and incl. April 1 1926 and at par during the last 3 years, in each case with interest. Co. refunds Penn. and Conn. 4 mills and Mass. 6% taxes. Listed on N. Y. Stock Exchange. V. 123, p. 1633. In March 1926 Halsey, Stuart & Co., Inc., and Hallgarten & Co. offered $20,000,000 6½% series, due 1941, at 97½ and int., to yield over 6¼%. The bonds carried *warrants to purchase common stock of Cities Service Co.* in the proportion of 20 shares per $1,000 bond at $46 per share during 1926, or at $50 during 1927, or at $54 during 1928, provided not more than $6,000,000 principal amount of bonds may exercise such right in any one cal. year. Warrants not detachable. V. 122, p. 1770.

These bonds are secured (subject to existing and future pledges of oil in storage, purchase money and existing liens on property hereafter acquired) by a 1st mtge. on a part of the properties and by a 1st mtge. on all the properties now owned or hereafter acquired by the parent co., and by a first lien upon all of the stocks of the subsidiaries owned by the co. V. 114, p. 1895.

All of the outstanding Empire Refining Co. 1st mtge. & coll. tr. skg. fund 6% bonds, dated Feb. 1 1917, were called for redemption on Aug. 1 1926 at 108 and int. V. 122, p. 3080, 3605.

FEDERATED UTILITIES, INC.

ORGANIZATION.—Incorporated in Delaware Aug. 18 1925. Owns all of the outstanding bonds and the entire outstanding common stocks, except directors' shares, of the *Michigan Federated Utilities Corp.* and the Palm Beach Gas Co., and in addition thereto, all the capital stock, except directors' shares, of three subsidiaries in Indiana and Georgia, and over 90% of the capital stock of the Consumers' Gas & Coke Co. of Waycross. V. 121, p. 1568.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Company's subsidiaries serve a population of over 200,000. Artificial gas is furnished to 11 communities in the State of Michigan in what is known as the Michigan Industrial Belt, and to Palm Beach and West Palm Beach, Fla., also to a number of communities in Indiana, Florida, Alabama and Georgia. There are 6 gas plants in Michigan, all of which manufacture either coal gas or both coal and water gas. The Palm Beach gas plant manufactures water gas only. V. 121, p. 1568. Co. acquired in March 1926 the Mt. Clemens, Mich., gas properties. As of June 30 1926 18,008 gas meters in service. Average daily send-out about 1,680,000 cu. ft.

Bonds.—The *1st mtge. coll. gold bonds, series A, bonds, dated Sept.* 1 1945, are secured by pledge of first mortgage bonds of the subsidiary companies. The subsidiary bonds constitute the entire funded debt in aggregate principal amount equal to not less than 100% of the total amount of 1st mtge. coll. gold bonds outstanding and under the terms of the indenture this ratio must always be maintained. There are $1,350,000 of 1st mtge. bonds of the Michigan and Florida subsidiaries now authorized and owned by the company Are further secured by pledge of the entire outstanding common stocks, except directors' shares, of such subsidiary companies. Red. all or part on any interset date on 60 days' notice as follows: on or before Sept. 1 1930 at 105 and int.; thereafter at ½% less for each succeeding year or part thereof, to and incl. Sept. 1 1936 and thereafter at 102 and int. Additional bonds may be issued in one or more series of such tenor as may from time to time be determined, for the purpose of acquiring new subsidiary corporations and for permanent improvements, &c., but the total par amount of bonds outstanding shall not exceed (1) 75% of all the properties nor (2) 100% of the par value of the first mtge. bonds of subsidiaries deposited and pledged with the trustee plus 75% of properties owned directly by the company, and upon which trustee is given a valid first lien under the indenture. Additional bonds may only be issued when consolidated earnings of the company and its subsidiaries (incl. such new subsidiary) have been twice annual interest on all outstanding bonds (incl. new issue).

Each subsidiary must maintain a *maintenance, renewal, depreciation and sinking fund* of 12½% of gross revenues. Any balance of this fund to be used either for retirement of bonds or to make further additions, &c. In Sept 1925 Wm. L. Ross & Co., Fenton, Davis & Boyle, Chicago, and Benjamin Dansard & Co., Detroit, offered $1,000,000 6% series A, at 100 and int V. 121, p. 1568. In March 1926 Wm. L. Ross & Co., Inc., &c., &c., offered $600,000 additional series A bonds at 100 and int. V. 122, p. 1761.

Series B 5½s, dated Sept. 1 1926 are red. whole or part on 60 days' notice at 103 and int. Penn., Mass., Conn. and Maryland mill taxes refundable. In Aug. 1926 Wm. L. Ross & Co., Inc., Chicago, offered $350,000 series B at 97 and int., to yield about 5.75%.

EARNINGS.—Consolidated earnings of co. and its subsidiaries (incl. earnings accruing to prior owners) for 1925: Gross, $877,272; operating expenses and taxes (incl. maintenance), $586,254; annual interest requirements of $1,800,000 series A 6% bonds, $108,100; balance available for Federal income taxes, deprec., amort. & divs., $183,018.

Latest Earnings.—Consolidated earnings of co. and subsid. cos. (incl. earnings accruing to prior owners) for 12 months ending June 30 1926:

Gross earnings	$1,054,984
Operating exp., taxes, maint., int. on Consumers Gas & Coke Co bonds and dividends on Mich. Fed. Utilities pref. stock	670,198
Available for int., Federal income taxes, deprec., amort. & divs.	384,786
Annual interest requirements	133,250
Balance	$251,536

OFFICERS.—Pres., Fred. W. Seymour.—V. 121, p. 1568; V. 122, p. 1761.

GAS & BY-PRODUCTS CO.

ORGANIZATION.—Incorp. in Delaware. Controls and operates the following companies: Dallas Gas Corp. (owning all of the com. stocks of the Dallas Gas Co. and County Gas Co., Dallas, Tex.); Natural Gas Producing Co. of Louisiana; Excelsior Pipeline Co.; Morehouse Natural Gas Co., Inc., Bastrop, La.; Panola Oil & Gas Co., Panola County, Tex.; and the U. S. Carbon Co., Bastrop, La.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Through subsidiaries, distributes gas to the city of Dallas and its environs, serving a population of 248,000. Also produces and distributes natural gas from the Monroe field in northern Louisiana. Has 555.409 miles of distributing mains and 53,855 meters in service. The company also, through subsidiaries, owns a pipe line and gas distributing organization and a carbon black manufacturing company.

Stock.—The 7% *cum. pref. stock* is entitled to $107 and divs. in event of voluntary, and $100 and divs. in event of involuntary dissolution or liquidation, before any other class of stock. Call., all or part, at $107 and divs. on 30 days' notice. In Aug. 1926 Putnam & Storer, Inc., Boston, sold $1,100,000 7% pref. at 100 and divs. V. 123, p. 709.

Bonds.—*All of the outstanding series B 5½% g. notes, dated May* 1 1926 and 2-year 6% g. notes, dated Jan. 1 1920 were called Sept. 3 1926 at 100½ and int. V. 123, p. 709, 1251.

The 6% coll. trust gold bonds, series A, dated Jan. 1 1926, are secured by pledge of 100% of the capital stock of Greenwich Water Co. and 100% of the 1st mtge. bonds and capital stock of Greenwich Gas Co. An annual *sinking fund* beginning April 1 1929, of 10% of consolidated net earnings for preceding calendar year (but not exceeding $25,000 for the first 5 payments and $35,000 thereafter), is to be used to retire Series A bonds. Net earnings defined as net after all interest and taxes (except Federal income taxes), but before depreciation and bond and note discounts. Conn. 4-mills and Mass. 6% taxes refundable. Additional bonds may be issued in series for not exceeding 80% of cost or fair value to the company of securities of subsidiaries acquired and pledged (except 1st mtge. bonds of subsidiaries against which collateral trust bonds may be issued at face value); or, for not exceeding 65% of cost or fair value of securities of certain other companies, or fixed properties; and provided consolidated net earnings for 12 out of preceding 14 months have been not less than 2 times interest on all bonds outstanding, incl. new issue. Are red. on 30 days' notice at 105 and int. to and incl. July 1 1936, and thereafter at 100 and int., plus ½% for each year or fraction thereof of unexpired life. In Jan. 1926 E. H. Rollins & Sons and Putnam & Storer, Inc., Boston, offered $1,250,000 at 99½ and int. to yield over 6%. V. 122, p. 480.

EARNINGS.—Consolidated earnings for 12 mos. ending Mar. 31 1926:

Gross earnings	$381,314
Operating expenses and local taxes	107,464
Available for int., deprec., Federal non-oper. taxes and divs.	$273,850

OFFICERS.—Pres., Eben F. Putnam; V.-P., John W. Harding; Treas., F. L. Putnam; Sec., E. M. Thoday, Boston. Office, Wilmington, Del.—V. 122, p. 480, 3338; V. 123, p. 709, 1251.

GREENWICH WATER CO.

Control.—The entire outstanding capital stock is owned by *Greenwich Water & Gas Co.*

ORGANIZATION.—Incorp. in Connecticut in 1880. Supplies water, without competition, to about 4,824 customers in the Township of Greenwich, Conn., incl. Sound Beach, Coscob, Riverside, Borough of Greenwich, Glenville and East Port Chester; aggregate population about 25,000. Co. also owns the entire capital stock of Port Chester Water Works, which purchases its water from Greenwich Water Co. and supplies about 4,647 customers in Port Chester and Rye, N. Y.—V. 123, p. 82.

MONMOUTH CONSOLIDATED WATER CO. (N. J.)

Control.—Controlled through stock ownership by *American Water Works & Electric Co., Inc.*

ORGANIZATION.—Formed in 1926 in New Jersey by merger and consolidation of Tintern Manor Water Co., Monmouth County Water Co., and Rumson Improvement Co.

FIELD OF OPERATIONS AND CHARACTER OF BUSINESS.—Co. supplies water for domestic, municipal and commercial purposes in Monmouth County, N. J. Among the principal communities served are the City of Long Branch, the Boroughs of West Long Branch, Monmouth Beach, Fairhaven, Oceanport, Deal, Rumson, Seabright, Little Silver, Bradley Beach, Neptune City and Interlaken, the western part of the City of Asbury Park, and the Townships of Eatontown, Middleton, Ocean, Shrewbury and Neptune. The territory served, which is in effect a continuous residental community with a permanent population of about 75,000, is within commuting distance of the City of New York.

Co. owns and operates water works serving more than 13,400 consumers. The equipment includes pumping stations with a nominal daily capacity of approximately 39,000,000 gallons, and filtration plants with a nominal daily capacity of approximately 16,000,000 gallons. The distribution system includes approx. 186 miles of main. More than 800 hydrants are connected to Co.'s mains. V. 123, p. 1216.
